New Type of Play to Be Presented by U Players

Owen Davis' "Icebound" Goes "On Boards" February 22 and 23 at Rodey Hall; Johnson Directs

With "first night" only a little more than a week off, final rehearsals for "Icebound," the forthcoming production of the Dramatic Club University Players, are rapidly nearing completion. Attention is especially called to the fact that this play will be presented on the evenings of February 22 and 23, instead of February 24 and 25 as previously stated. Also, the performances will be staged in Rodey Hall on the campus, and not at the High School as was erroneously announced last week.

Coach Roy Johnson, who is directing the play, will present in Owen Davis' "Icebound," an entirely different type of play than heretofore witnessed this year. The two previous productions, "Dreams Come True," and "Tartuffe" each had the elements of love interest and comedy combined and rather strongly stressed. While the present play also has a combination of both of these, they are subordinated to the emphasis of the great emotional strain which characterizes this play. It might well be termed a play of conflicting natures. The name "Icebound" has a somewhat different meaning in this instance, in that it refers to the character of the people represented, since they are icebound, inside and out. The author has created a truly dramatic piece of work,

(Continued on Page Four)

The Lucubator

GEORGE MARTIN

Far from trying to run competition to Ripley, but still desiring for this week a change from the usual run of political news, the Lucubator is this week featuring a few new records which have been set here and there around the country.

Some sort of a new record was set by the white leghorn hen in Michigan when she laid an egg which was found on measurement to be eight and a quarter inches long, and seven inches in diameter. The performance was even more remarkable when it is noted that the hen weighed only three and one-half pounds. This leghorn is what one might call, "some hen." This egg would look mighty fine "ome-letted," as it had three yolks.

It would seem that the United States are becoming more and more civilized each year. So far has law and order advanced that last year in this land of liberty there occurred only eight lynchings, which is a new low in the history of a nation where lynchings are often resorted to.

By the way, that noted artist James Montgomery Flagg has at last solved the why and wherefore of the strange results of some of the college beauty contests. Flagg said the other night after visiting the Follies that all the beautiful girls were either in the Follies or the Movies, and that all the others are in college beauty contests. This comes from so many colleges year after year asking Flagg to pick various "Prom and Beauty Ball" Queens.

Then among the new record makers is the cow up in Iowa, which under pressure produced five calves in the space of twenty-five months. It seems the calves arrived in two doubles and one single. That is to say, two sets of twins and one came unaccompanied. Busy times for the storks in cowlard.

This must be the beginning of next week's column since I'm about to go back to something of politics. But since the Senate has seen fit to banish the veteran Sergeant of Arms, David Barry, it should afford some sort of laugh to even the laugh-jaded American public. Just the mere idea of the Senate taking offense at something Barry said after taking a verbal beating from nearly every columnist and cartoonist in the country is enough for even the least mirthful.

BOOKS ON USE OF ENGLISH RECENTLY ADDED TO LIBRARY

Education and Culture Are Shown by the Correct Use of Words

"She looked like a lady, but did you hear her talk?" is a remark which indicates how often people are judged by their conversation. The reading course on "Good English" published by the American Library Association aims to help those who wish to improve their conversation, their use of words and incidentally, their appreciation of what they read and hear.

The author, Virginia Cleaver Bacon, has given the reader a number of suggestions to help him in his study. Among the things she mentions are: use the dictionary; keep a special notebook for vocabulary study. Find someone to study with you, and make a game of your work wherever you can. Avoid self-consciousness. Read good books, especially the informal essay and modern drama for help in improving conversational English.

Mrs. Bacon recommends five books, including a grammar, all of them simple and easy to follow. These, together with the introductory essay, point the way to the correct use of English for conversation and writing, to the enlargement of the vocabulary, and to a wider understanding and appreciation of the spoken and written language of other people.

Another book recently received by the library entitled "What Your Voice Reveals," by Helen Durham, shows how the voice is the barometer of culture, and gives some practical advice upon the cultivation of one's speech.

ATTENTION!

On Tuesday, February 14, at 4:00 P. M., all who have enrolled this semester as new students, regardless of classification, will be required to be at the Science Lecture Hall to take the psychology test. It is imperative and required that all new students be present at that time for the test!

Prof. Kluckhohn Speaks to Albuquerque Womens Club

Professor Clyde Kluckhohn, member of the department of archaeology of the University of New Mexico, addressed the anthropology group of the Albuquerque Womens Club Wednesday evening. Professor Kluckhohn was especially well fitted to speak on "Primitive Social Organizations" as he has been interested in this branch of archaeology for several years. He is the first of a number of several authorities to be invited to speak to the club.

New Book Discusses Youth And Problems in College

A new book entitled, "Youth and his College Career," by Dr. J. E. Seyfried has just been put on the market. It is a discussion of student problems from the viewpoint of the high school graduate and the college beginner. The preface states that the volume "is offered as a manual for use both in a secondary school guidance program or in a college orientation program, as well as a guide to be placed in the hands of prospective and beginning college students."

The contents fall under three main headings. The first section deals with the preparation desirable before the student's entrance into college; the second with the student's life after entrance; and the third with the status of the student following graduation. The volume treats mainly of

A.W.S. Discusses Co-Ed Dance and Mother's Day

A. W. S. held a council meeting Wednesday afternoon, February 8, at five o'clock in Sara Reynolds Hall. The annual complimentary co-ed dance was the main topic of discussion. The date for the dance has been set for Saturday, February 18th. As is customary, each girl will be requested to submit her receipt for A. W. S. dues at the door for admission. A Mother's Day program was also discussed, but was not definitely decided upon. The plans for this will be completed in the near future.

Dr. Seyfried Has Pamphlet Printed By California U

Deals With Contracts Under Which School Superintendents Teach

The University of California Press has recently published a pamphlet by Dr. J. E. Seyfried on "The Contractual Status of California City School Superintendents."

The pamphlet, which contains approximately one hundred pages, is a report of a research project. It deals with a subject not heretofore treated, namely, the common and statutory law applying to contracts of city school superintendents, with special emphasis on conditions in California. Among other things, Dr. Seyfried presents a recommended contract form for city school superintendents.

Dr. N. L. Engelhardt, professor of educational administration at Columbia University, has written to the effect that the findings are of national importance and that the work constitutes a real contribution to the field. The study is being used at Columbia in conjunction with courses in school administration.

Dr. Seyfried, associate professor of education at the University of New Mexico, received his doctor's degree from the University of California. He has done considerable research work both in California and in New Mexico, in the fields of educational administration and educational law.

Successful Marriages Should Begin at Cradle not Altar

Preparation for a successful marriage should begin in the cradle and not at the altar, according to Dr. Frankwood E. Williams' book entitled "Mental Hygiene," which may be obtained from the library.

In answer to the question, what is wrong with marriage, two hundred intelligent married men and women pointed to warped ideas and false notions acquired as children.

Dr. Williams writes not only for the men and women represented by the two hundred questioned, but also for the sake of the children who will grow up under their care. He discusses the problems of emotions, habits, mental health, and mental ailments as they affect the individual and the community, and offers practical guidance through the reading of five stimulating books. These are chosen to help grown persons "outwit" their own nerves and to help parents in preparing children for a happy and useful life.

U Debaters Lose Wednesday Night to Baptist Team

Atencio, Calkins, and Maddux Argue Negative Side for U. N. M.

MAY MEET AGAIN

Both Teams to be Represented at Tournament at Abilene Soon

Upholding the negative of "Resolved: That the United States Should Agree to Cancellation of Inter-Allied War Debts," the University of New Mexico debaters were defeated by a team from Oklahoma Baptist University at Lecture Hall Wednesday night.

Gene Maddux, Robert Calkins, and Elias Atencio represented the University of New Mexico and Glenn Capp, Wayne Lewis, and Porter Roth upheld the affirmative for Baptist. The main constructive argument advanced by the affirmative was that cancellation as proposed would be an important factor in economic recovery. Both Universities will be represented at a debate tournament to be held in the near future at Abilene Christian College, Abilene, Texas, where the same question is to be debated.

Use New Scheme for Attendance at Assembly

A new scheme of checking attendance at assembly was tried out Thursday. Instead of checking the seats, slips were handed to each student upon entering, and these were signed and turned back after the assembly. It is expected that this system will prove much more accurate and satisfactory than the former method. It will be quite important, however, for each student to obtain his slip at each assembly.

SPANISH CLUB TO PRODUCE SERIES OF ONE-ACT PLAYS

At a regular meeting Thursday, the Spanish club, "El Circulo Espanol," laid plans for producing a series of one-act plays and one three-act play during the second semester.

"Una Uvia de Inglesias," a comedy in one act, written by a resident of Bernalillo will be presented very soon. "Esclavitud," a three-act play by Pipin will be produced during the semester by a cast selected from the Bi Lingual club and from "El Circulo Espanol."

The meetings of the Spanish club are open to any one interested in seeing plays about New Mexico folklore produced in Spanish.

Joe Chavez is President of the club and A. I. Campa is faculty sponsor.

Campus Sidewalks Resemble Hiways to Alabama Tourists

Alabama tourists certainly appreciate our paved walkways . . . oh yeah? A coupe full of sightseers drove grandly by the library via the path, craning their necks to take in the scenery . . . only to slam on their brakes with startling rapidity when the steps suddenly yawned before them. Undaunted, they backed to the entrance of the administration building, turned around and proceeded blithely down the walk to Hadley hall. Engrossed in the beauty of the campus they failed to notice the white post in the middle of the path until they were right on it. Another hasty stop, a long backward drive, turned again, and out the only driveway entering the quad. Their faces were the now-famous rosy hue. All three occupants of the car were smoking . . . wonder if they were Murads?

University Music Dept. Sponsors Vesper Services

The University Music Department sponsored a Vesper service at the United Brethren church last Sunday. They presented Bernard Helfrich, organist; Mrs. Lee Danstolser, pianist; and Mrs. Grace Stortz McCanna, soprano, in a group of numbers. The Music Department plans to present another Vesper service next month.

Girls Octette Will Give Program at U. Memorial

The girls' octette, under the direction of Bess Curry Redman, is preparing a program to be given at the University Memorial Service the last of this month. At the present date their program has not been definitely formed and will be announced later. The members of the octette are: Olive Lamb, Ernestine Welch, Virginia McKnight, Gwendolyn Wydie, Frances Andrews, Margaret Drury, Betty Burkholder, and Harrie Louise Ward. Betty Burkholder has taken the place of Mary M. MacDannell, who did not return to school this semester.

Registration for Second Semester Drops a Little

This Term's Enrollment Is Larger Than Second Semester Last Year

In an official report issued by Alice Olson Greiner, Registrar, it is announced that there are 954 students enrolled in the University this semester. During the first semester of this year there was an enrollment of 1060, making a decrease of 106 this last half.

There were 249 who did not return this semester, and 143 new students. There are 51 more students this year, however, than there were this time a year ago, the registration of the second semester last year being 903.

Art League to Give Exhibit Of Spanish and Indian Work

The next meeting of the Art League is to be held on February 21, at eight P. M. in the University dining hall. The exhibit is to be of Spanish and Indian designs and crafts, to include work of the Albuquerque Indian School, San Jose School, Penasco, Santa Fe Indian School, Mrs. Dunton, Spanish Art; Irving Parsons, Spanish Arts; Mrs. Inez Westlake, Indian Design. Weavers, potters, and silversmiths will demonstrate their crafts. Short talks are to be made by Kenneth Chapman on "Indian Art" and Brice Sewell on "Spanish Art."

Officers and Committeemen Of University YMCA Meet

Instead of their regular weekly meeting, the University Y. M. C. A. held a meeting of its officers and committee chairmen on Thursday evening. At this conference, plans for the spring semester were discussed with Mr. C. M. Bernard, adviser, and each officer was given a clearer conception of his duties.

There have been several expressions of appreciation for the program rendered at the Veterans' Hospital last Sunday. As requests are received, other deputation teams will be sent out to put on similar programs.

Times Have Changed

Five years ago one of our younger college professors was severely reprimanded as a result of being seen smoking with a girl. The other evening he smoked his after-dinner cigarette with a dozen or more sorority girls.—G. W.

Budgets of the University Sent to State Legislature

Report Shows Reduction in Income and Expenditures for Four Years as Per Request of Governor

ART LEAGUE HAS BEEN PRESENTED WITH WATERCOLOR

Painting by Emil Bisttram Of The Ranchos de Taos Church

Emil Bisttram of Taos has presented the Art League of New Mexico with a fine water-color painting, "Ranchos de Taos Church." The church in this painting is represented in big simple masses and the composition is so arranged that the idea of spiritual uplift, symbolized by the structure, is brought out. This picture is to be exhibited at the February meeting of the Art League.

Mr. Bisttram came to New Mexico two years ago as a result of a Guggenheim Fellowship award. He is a well-known artist, and a devotee of J. Hambridge's rediscovered dynamic symmetry. A great deal of interest was evinced in his recent lecture to the League on "Modern Art." He lectured for an hour, and due to the great interest which he aroused in his subject, he was questioned for another hour. His lecture and the sculpture exhibit shown by the Art League were repeated in Santa Fe the following week.

Must Have Student Body Tickets to Attend Dances

Because of the leniency in enforcing the rule pertaining to admission to student body dances, there will be a strict observance of this regulation henceforth. This means that all students must present their activities ticket before they may be admitted. Each student may have two guests, tickets for whom may be secured at the door; students bringing such guests will be held accountable for their conduct. This is not a new rule, but merely one which has not been rigidly adhered to.

NOTICE

Coach Johnson requests that all men interested in either varsity or freshman tennis, hand in their names to him not later than Wednesday, Feb. 15.

Helen Stubbs Called From Work by Death of Mother

Helen Stubbs, clerk in the Bursar's office, has been absent from work this week due to the death of her mother, Saturday afternoon, at the family home in the Arno Apartments.

Mrs. Stubbs suffered from a heart attack about a month ago but seemed to have regained almost perfect health until the recent attack, which was fatal.

Her daughter, Helen, will be graduated from the University in June. She is a member of Chi Omega sorority.

Stanley Stubbs, her son, was graduated from this University several years ago. He is a charter member of the New Mexico chapter of Sigma Phi Epsilon fraternity. At present he is employed in the laboratory of Anthropology at Santa Fe.

"Rough Stuff" Boys Aren't Reviving Caveman Custom

Learn and be disillusioned. Pity the poor femme who learns that the rough stuff she has been subjected to is not a revival of ancient caveman tactics for there was no such thing! Yep, ask Dr. Hewett. He emphatically states that there has never been any sociological foundation for such a theory. And are the girls faces red? Such treatment has never existed . . . BECAUSE women don't have to be banged over the head and dragged off. In fact, they need very little persuasion to go along peaceably . . . or

even mob the poor male. Women have always craved attention, even if that takes form in abduction. What a break to have some man crazy enough about one to resort to kidnapping. Even the famous "old girls" of history were in on the racket. Helen of Troy doted on abductions and rather overworked the idea.

So now that the boy-friend who was so "Romantically primitive" is nothing more than a bully, perhaps the Sir Galahad type will return to favor. But if the cave-man was a sissy . . . was Galahad a brute?

Dr. Zimmerman and the Board of Regents of the University have sent the budgets of the 20th and 21st fiscal years and the budget estimates for the 22nd and 23rd fiscal years to the finance committees of the Senate and House of Representatives at Santa Fe.

The report shows the reductions in income and expenditures for the 20th and 21st fiscal years, and also, the reductions for the coming two years, as requested by Governor Seligman. It indicates the decrease in the income for the past two years, showing that it was decreased from \$380,000 to \$310,000, a reduction of \$50,500, or 13.3%. The increased necessary expenses are outlined, and the reasons for the increase shown. The paving and interest item is increased due to the fact that the figure for the 21st year includes the amount due and unpaid in the 20th fiscal year carried forward. Because of the postage increase to 3c, that item must also show an increase. Due to the repairs necessary in the upkeep of twenty buildings, the expenditure for repairs is increased. An additional bond issue of \$75,000 requires bond retirement expenditure and interest to the extent of \$2,685, which raises expenses in that quarter. The last increase is in field session items, due to increased enrollment and increased fees. These increases necessarily call for a reduction in other items, and these reductions are outlined. The main decrease has been salaries, which have been cut from a total of \$220,000 to \$173,400, or 21%. Salary reductions will total 25% for the contract year, from September 1 to August 1, but the fiscal year, from July 1 to June 30, will show a salary reduction of approximately 21%.

The report points out that it has not been possible to hold any reserve in the budget, although the budget has been balanced.

A few items in the budget might be of general interest. Last year the administrative expense ran to \$1,250, while this year it was curtailed to \$1,000. Auto operating expenses amount to \$750, fuel to \$7,000, labor to \$25,000 the first year, and to \$17,500 for the second, or 21st fiscal year, life insurance to \$1,500, and refunds to \$8,500.

Among the income items are: general appropriation, amounting to \$236,000 for the 20th fiscal year, and \$177,450 for the 21st year. Student fees run between \$52,500 and \$56,000, while guarantee deposits amount to \$8,500 a year.

A list of self-sustaining activities is also included. Among these are the dining and residential halls, the student body funds and athletics, the university press, guarantee deposits, and income from trust funds. Their budgets have been cut from a total of \$103,500 to a total of \$101,950, from the 20th fiscal year to the 23rd.

Following the explanations for the 20th and 21st years, is the estimate for the 22nd and 23rd fiscal years. As has been requested by Governor Seligman, the \$215,700 annual appropriation requested is 10% less than that of the previous biennium. The budgets have been prepared on the assumption that the full amount appropriated by the Legislature will be available. The salary item provides for the restoration of salaries to the figure shown in the 10% cut rather than in those of the 35% cut, the figure now being received by the faculty members. For example, those professors whose contracts call for a monthly salary of \$250.00, under the 10% cut, received \$225.00, and under the present cut are receiving \$162.50. During the coming two years the salary will be restored to the second figure, or \$225.00 a month for those whose contracts call for \$250.00.

Guarantee deposits and their refunds and scholarships awarded from trust funds are now included in the budget of self-sustaining activities, and all other budget items are reduced to the lowest possible figure. According to the new budget, administrative expenses will be cut to

CO-OPERATION!

One of the most difficult of all acts for the human race to achieve is that of co-operation. Such has been evident through all stages of history. The ancient Greeks even had a myth to the effect that when man was made by the gods, each one bestowed a gift upon him. One of the wisest of the gods realized that man, with all his gifts, would rival himself for power and prominence, so as a check upon the mortal creature, the divinities withheld the gift which would enable man to get along with his fellow beings.

Whether there is any literal truth in this myth or not, nevertheless, it is evident that, to a large extent, man still lacks this virtue.

To get to the point; what we lack on this campus (among other things) is the ability to co-operate with the administration in keeping our student body dances purged of all outsiders. At many of our dances there are a great number of people who are unconnected with the campus or anyone on it. Perhaps they are habitual "gate-crashers" and it is certainly true that they have no business at University social functions.

The authorities are doing all they can to promote good dances for us, so why can't we do our bit, too, and abide, religiously, to the admittance rules? That is the least we can do and if every student will present his ticket at the door, according to instructions, it will eliminate some of the outsiders who persist in "horn-ing in." Of course, some of us are of the opinion that we are known to the ticket-takers and can merely say "Hello," and walk in unmolested. But a law cannot be a success if it is supported and obeyed half-heartedly, so why cannot everyone forget his importance and follow the instructions?

It all comes down to the idea of co-operation, and the key to the solution of this problem is, in a very short phrase, co-operation with the administration.—D. M.

Exchanges

By MARGUERITE JENKINS

The staff of the Minnesota Daily has been named by the University president against involving the University in outside interests, and to "opinions or programs sponsored by an outside agency." This warning applies only to advertising and the like, and not to politics, which the head of the school feels is a subject in which the University should have a voice.

The legislature of Minnesota is endeavoring to find a way to amend the ancient statute, forbidding cigarettes to be sold within a mile of the University farm. It is pointed out that this rule is constantly disregarded by the students and the nearby merchants. A bill has been proposed that will allow the cigarettes to be sold on the State fair grounds, half a mile from the campus.

A suit, claiming restraint of trade, is threatened by the Allied Florida Association against the students of the University of Denver, following their ban on corsages for the Junior Prom.

From the Minnesota Daily, we get a story about a recent Tech dance at M. I. T. Six young men, equipped with side-rule and scales, weighed each girl as she entered, and charged her escort accordingly. The color of the girl's hair was also considered, and there was a chromo-photometer to detect possible blondes and her need red-heads. We've heard of lots of unusual methods of admission to dances, but this is the first time we've heard of being admitted by weight.

There seems to be a lack of news this week, for we are quite unable to find much of interest in the exchanges. Maybe better times are coming.

People know it..

THEY'RE Milder —
THEY TASTE BETTER

© 1933, LIGGETT & MYERS TOBACCO CO.

Chesterfields are Milder

WHEN you ask a Chesterfield smoker why that's his brand — he generally comes right out flat-footed and says... "It's because *They're Milder!*"

So we're going to keep on doing everything we know how to keep them that way.

That's why we look for and buy the mildest and ripest tobaccos we can get. That's why we age them in our warehouses till they're mellow and sweet.

We believe that even the shredding of the tobacco... and the quality of the paper it's rolled in, have a lot to do with the even-drawing, mild smoke that people enjoy in Chesterfields.

You can bank on this... every method known to science is used to make Chesterfield a milder, better-tasting cigarette that satisfies.

Chesterfield Radio Program—Every night except Sunday, Columbia coast-to-coast Network.

Chesterfield

No Smoking, Drinking, or Petting at This College

Discovered: A college town without any bad habits. A college town where drunken brawls and petting parties are as few and far between as elves and rainbows.

While bridge-playing, dancing, and cigarette smoking is the "big vial" of most students everywhere, in other words, if you smoke, drink, play bridge, or pet at this college you get the "hook."

A college town so backward that they boast of only one place where cigarettes may be bought in the business district.

And yet a college town where the co-eds are alluring and the president is the youngest and one of the most handsome in the United States.

Nestled in the rambling hills of southeastern Ohio, New Concord and here.

HIAWATHA—1933

On the shores of Coca-Cola, Dwell the Indians in their wigwags; Old Spolito, the chieftain, Pebecco, the grizzled prophet, (Pebecco advised the love-lover).

The report covers seven pages, but more detailed information and explanation regarding the finances of the University of New Mexico will be furnished gladly upon request of the members of the Finance Committees of the Senate and House of Representatives, according to a note on the report.

What is technocracy? Almost every place I go, I hear that question, but, so far, no one has been able to answer it completely. The ideas of the rule of experts, the four hour work day, the ten thousand dollars a year income, sound marvelous, but no one seems to know how to start this wonderful new system.—M. N.

The dramatic organization of the Women's College of North Carolina is sponsoring a contest to find the best one-act play written by a student. No doubt a great deal of unsuspected talent will be unearthed.

Came a young chief Instant Postum, Greatest hunter in the forest, Raccoon coated, garters minus, Sound equipped for slinging bull. At him gazed the Indian Maidens, Nujol poured him glowing glances, Old Carbons thought to win him, Topkiss brought him cakes and honey;

But for Musterole yearned Postum, She, too, yearned for Instant Postum, No Pyrene could quench her ardor That she kindled in her bosom. Through the Shredded Wheat they wandered,

By the rippling Cuticura, There beneath the Palmolive shadows, From the boughs she picked the Grapenuts.

There they saw the sun descending, Naught cared Postum for the sunset, For going through the run-proof forest, Musterole was there beside him.

To his bosom quick he threw her, Told her how he caught the sea-lark, Told her he slew Bull Durham, How he tracked the sly Ampro.

Boasted of his father's canoe, His simonized dog model T, To him Musterole drew closer, Heard him ask, "Do you inhale?"

Listened, and her heart gave answer, All the wants of love she gave him, All her rubberstet affection; Gave her heart to Instant Postum. There he wooed her and he won her. Passed the years in quick succession, Small Post Toasties came to bless them—

Gold-Dust Twins, and safety Triplex, Little Beechnut, Wrigley's Spearmint, Vita-Kid, and louncing Aspirin— These and other Little Toasties Filled the wigwag with their laughter.

There Victrola, old and feeble, Taught them everything of wild life, Of the jill birds and their language, Taught them bridge, and sat up late, Teaching them to mix firewater,

There Victrola, old and feeble, Taught them everything of wild life, Of the jill birds and their language, Taught them bridge, and sat up late, Teaching them to mix firewater,

How to play the bill collector, Call old Postum, "the old man," Drive the ancient Model T. So the story of Instant Postum Ends with nuts and dem-tasse.—Prospects.

There is a good article on how the people's money is wasted in Washington in the last issue of the American Mercury and you can read it in the library, east of the administration building.

Miss Audrey Bitner has returned home from a month's sojourn at Butler, N. J.—Chambersburg (Pa.) Valley Spirit.

Visiting an old flame, eh?—The New Yorker.

Value Received Our educational system, as it exists at present, comes in for a lot of criticism. Perhaps some of it is justified; certainly some of it is not. Whatever the merit or demerit of the actual academic system may be, no one can ever convince me that college is not a valuable asset to anyone. Personal contact with all kinds of people paves the way for experience and understanding which cannot be duplicated. I have made many friendships in school which I shall never forget. Being human, however, it is also true that I have probably acquired some enemies. I do not regret that so much; it comes to me only an inconspicuous part of living. I shall remember my enemies; not as such I hope, but as a part of that thing, along with everything else, which is college.—H. K.

The Passing of Time It is startling to realize that what happened last night, and what happened a moment ago, are past. My mind, my soul, my whole being, are changing, changing with each new fragment of time. One moment, then the next, and all the hours and years of the unknown, are stretching before that something which I call myself—hours and years over which my influence can consist only of making myself live wisely in the present.—B. I.

Northwestern University is to try out a new scheme which is called the "dishonor" system. If one student sees another cheating he will note the fact on the bottom of his examination paper.

Women's A. A. Meet To Draw Up Plans For Intramurals

A very important meeting of the Women's Athletic Association was held in the gymnasium, Thursday afternoon, February 9. The intramural tournament was drawn up and the first round will be played off Monday, February 27, at four o'clock at the gymnasium. Also the day on which the different teams may have a practice was assigned. This schedule is posted on the bulletin board in the girls' locker room of the gym. All girls are to notice when they may have the privilege to use the gym. The demonstration of girls' athletics to be held in March was also discussed and plans are immediately being made so that a very interesting program will prevail.

BOXING TEAM BEGINS DRILL FOR POTENTIAL SCHEDULE

A hand full of boxers have been showing up for practice this past week. Oliver Williams, Mirabal, Bill Brannin, and Abbie Paiz have been the first ones to show up this spring. The Border Conference boxing meet will be held in Reswell early in March with Texas Tech, N. M. L., Arizona, and New Mexico competing. Williams boxes at 175 pounds, Brannin at 147, Paiz 130, Mirabal 125. All men interested in boxing should be at the gym at five o'clock.

Women Are Given Instruction in the Art of Fencing

Women's fencing, which was dropped from the schedule for lack of interest two years ago, is again being offered. This semester, some of the girls were interested in taking fencing, and secured Mr. J. C. MacGregor as their instructor. One class is at nine o'clock, and the other is at ten. Both beginning classes are very small but very promising.

There will not be much work done this semester toward exhibition; the training will not be developed to that point. The work will be the development of fencing for girls toward intramurals.

Awards for competitive fencing among girls will not be offered, but will be offered later when the girls are advanced far enough.

The essential point in teaching fencing is that the student is not allowed to engage in competition until the fundamentals are well in hand. Every girl that is taking this course is looking forward to becoming a "great fencer."

Girls' Interclass Tournament to Be After Inter-Greek

Plans for the girls' inter-class tournament are fast nearing completion. This tournament will be held as soon as inter-society games are finished which will be around the first of March. To be eligible for one of the class teams a girl has to go to nine practices, these practices will be started in March. Much interest is being worked up over the games, especially the one that will be held between the freshmen and sophomore classes to determine whether the frosh will have to wear their green hats. Hot competition is expected because all teams have experienced players and with these practices, they will all develop into fast-working teams.

Value Received Our educational system, as it exists at present, comes in for a lot of criticism. Perhaps some of it is justified; certainly some of it is not. Whatever the merit or demerit of the actual academic system may be, no one can ever convince me that college is not a valuable asset to anyone. Personal contact with all kinds of people paves the way for experience and understanding which cannot be duplicated. I have made many friendships in school which I shall never forget. Being human, however, it is also true that I have probably acquired some enemies. I do not regret that so much; it comes to me only an inconspicuous part of living. I shall remember my enemies; not as such I hope, but as a part of that thing, along with everything else, which is college.—H. K.

The Passing of Time It is startling to realize that what happened last night, and what happened a moment ago, are past. My mind, my soul, my whole being, are changing, changing with each new fragment of time. One moment, then the next, and all the hours and years of the unknown, are stretching before that something which I call myself—hours and years over which my influence can consist only of making myself live wisely in the present.—B. I.

Northwestern University is to try out a new scheme which is called the "dishonor" system. If one student sees another cheating he will note the fact on the bottom of his examination paper.

When the healthful, commonplace auto was first introduced to America, it served only as an ornament, being considered poisonous. They called it the "love-apple"—whether for its beauty or its fatal effects I do not know.—M. B.

LEADS AGAINST MATADORS

Walton Triplett McGuire

Hither and Thither

It's fast getting to the point where these Lobos are becoming obnoxious to their opponents. Nine victories against no defeats! Of course we will have to admit that the chances of having the record stand at ten and one or possibly nine and two are rather large after this week-end, but where there's life there's hope.

It seems that these Lobos won't be stopped in the entirety. Whenever someone manages to bottle up Triplett, Walton goes on a tear, and when the lanky one is stopped, McGuire proceeds to take things in hand. It's mighty comforting to know that one person can always be counted on to come through although it might be a different one each night.

Just imagine the chaos that would result if all three of these men went on a rampage all in the same evening.

Glen "Pansey" McGuire, who's conducted here-to-fors has been remarkably meek and mild, finally broke down and got himself requested to leave during the second Aggie game. Even at that, it was quite an achievement for the big fellow to go all of eight games with only two personals against him as his highest record.

Now that intramurals have fallen off the chief indoor sport seems to be in trying to play games with the new arrivals over at the gym from Denver. The latest reports give the K. A.'s and Clarence Leonard a large margin.

We wonder if these nasty Tech boys who are so full of bad words and dirty threats will try to intimidate the Lobos this week-end as they did during the football season?

Speaking of football we see that Tech was about to transport the "Jefferson College" football team to Lubbock next season as transfers. For your benefit it might be well to know that "Jefferson" had such transfers on their team as Murrell who spent three years at Minnesota, transferred to the Army, where he spent four years, from whence he "transferred" to "Jefferson." On this team, he is also "transferred" to Jefferson. In addition to these two men, numerous other famous stars of past years were spending their time as "transfers" down at dear old Jefferson.

Ho hum. What a grand old game this football racket is!

The Passing of Time It is startling to realize that what happened last night, and what happened a moment ago, are past. My mind, my soul, my whole being, are changing, changing with each new fragment of time. One moment, then the next, and all the hours and years of the unknown, are stretching before that something which I call myself—hours and years over which my influence can consist only of making myself live wisely in the present.—B. I.

FENCING CLASS TO MAKE APPEARANCE AT LOBO GAMES

Fencing is rapidly becoming an important sport at the University of New Mexico under the very able tutelage of Instructor J. C. MacGregor. This is evidenced by the large number of students enrolled in his classes.

The public will be given a chance to witness the intricacies of this very fascinating art, when several matches will be held between the halves of the Lobo basketball games. The fencers participating in these matches will be advanced students in the art, assuring the spectators of first class exhibitions.

Later in the semester, Instructor MacGregor informs us, a tournament will be held to select the most adept on the campus. Two sweaters, and a set of foils will be awarded as prizes.

Competition with other New Mexico institutions is much desired, and every effort is being made to arrange matches with them, and we hope that at a very near date something definite can be said of this matter.

Potentially is one of those twelve gyrfalcon words, but Johnny Holmes, sophomore center and forward, has plenty of it. He plays a good floor game and shoots baskets from all over the floor. After all, that's what wins basketball games.

Spring football, while a good thing, hasn't helped track prospects any. However, to the joy of Coach Johnson and track enthusiasts, Guyton Hays, holder of the All-Southwestern high school records in the mile and half-mile, has announced his intention of going out for track. What this will do to his football is unknown, but it will sure help fill the hole left by the completion of Liburn Homan's track competition.

Forty-one men have checked out track equipment so far, among them being several last year letter men. About the time of the Border Conference meet, New Mexico can be expected to hold up its end of the meet.

At Michigan and several other large schools there is an established custom that allows lettermen to attend all athletic competition in which they are the stars. This is the case at the University of New Mexico. On this team, he is visiting all association members in this section of the country. From here he will go to Tempe.

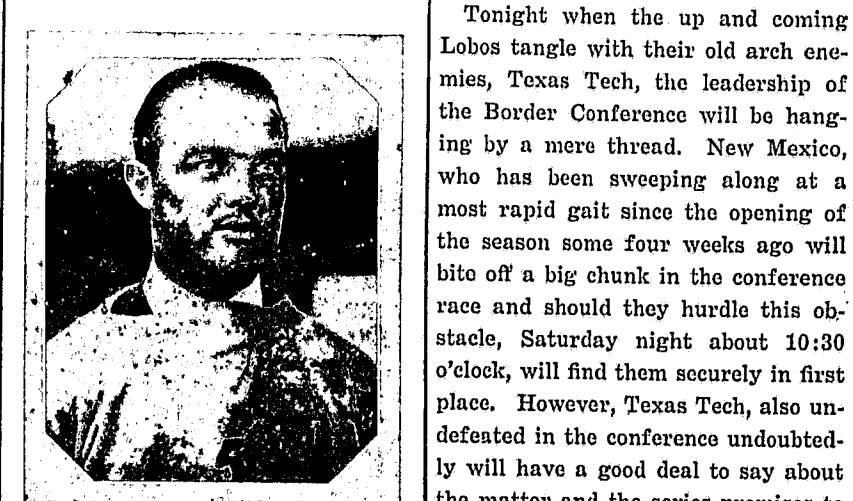

The enrollment to date in the Arts and Science department compares favorably with that of last semester. There are 412 students registered now and the total for last semester was 428. However, there will probably be a few more registering this week to even up the score, it is believed.

Two Undeclared Leaders Battle for League Lead

Matadors Wind Up Successful Road Trip Against Lobos. Leadership at Stake

Churchill

Intramural Sports To Remain Quiet Several Weeks

Semester registration has put all activities of intramural tournaments in the background for several weeks. There will not be any tournaments during this time. The students have been registered and settled down to the routine of class work.

The next intramural tournament scheduled is Soccer, if weather conditions are permissible. Students during these few weeks are putting their spare time in playing handball. The popularity of this game has seemed to have grown to a new height in the last few months, if it is to be judged by the attendance at the court every afternoon. Track practice and basketball are the other two sports which help to make up for the lack of the intramural meets.

Coch Morgan will bring an eight man squad with him to Albuquerque which averages a little over six feet. Gilmore, at forward is the sharp-shooter of the squad and will give the Lobos guards plenty of trouble. This young man has been on a point-making streak all winter, usually running up such scores as 15 and 16 points a game. Captain Munn at guard is another man who has been a highlight in Tech's performances this season. Robison at center, Fridy at guard, and Crews at forward, will complete the starting line-up.

ON THE CAMPUS NEXT WEEK

Sunday
Kappa Chi informal.
Sigma Alpha informal.

Hilltop Society ... NM ...

The first week of each semester is famous for its rushing and social entertainments especially planned for the new rushees of the various sororities and fraternities. Among the sororities, teas and dinners seem to prevail, while smokers for the men provide entertainment. All of the fraternities are announcing new pledges, but the sororities can not pledge new members until Friday. Bids will be sent out Thursday, and after Friday, the mystery and excitement over new rushees will be almost over.

Alpha Delta Pi News

In keeping with the rushing season, the Alpha Delta Pi sorority has been entertaining rushees. Sunday, they entertained with a breakfast, and Monday night with a formal dinner. The tables were decorated with American flags, and the place cards bore pictures of George Washington.

Tuesday, an informal tea was given, and Wednesday's event was formal. Thursday night guests were entertained at dinner down town; Mildred Wilson was in charge of arrangements.

Mary Jane Williams of Artesia, New Mexico, was the guest of Betty Johnson over the week-end.

Pi Kappa Alpha Events

Pi Kappa Alpha announces the formal pledging of Charles Barker of Santa Fe, New Mexico; Paul Nickson of Chicago, Illinois, and Evan Savage, of Albuquerque.

Paul Fleming, who attended the University during the first semester, is leaving for Colorado Springs, Colorado, but expects to return to school soon.

Kappa Sigma Social News

Kappa Sigma announces the pledging of Perry Satzinger and Ward Bartle, of Albuquerque, and Charles Colby, of Denver, Colorado.

Bob Palmer, who attended the University of Denver the last school year, has returned to the University of New Mexico. He is a man of considerable football reputation, not only locally but nationally, and he will be of great assistance to the Lobos in their games next year.

George Hurst of Hollywood, California, has returned to the University after attending the University of Southern California for a year. He was recently connected with the Paramount Studios.

Mr. C. S. Forbel, a Kappa Sigma from Syracuse University, has been visiting the chapter house.

"Mugsy" Moses, a Kappa Sigma who graduated in 1931, has been a guest of the chapter, and is making his home in Albuquerque at present.

Reese Cagle, who graduated in 1932, and is a clerk for the New Mexico Legislature, was a week-end visitor at the fraternity house. He returned to Santa Fe Sunday evening. Al Seery, of Belen, also visited the fraternity on Sunday.

Walt Schumann and Bud Cagle are confined in bed with the flu.

The Kappa Sigma fraternity has been busy the past week with rushing activities. Smokers have been a popular type of entertainment, and have been a valuable means of forming new associations between the fraternity men and rushees.

Kappa Kappa Gamma

Kappa Kappa Gamma have been entertaining the past week with numerous informal teas and dinners for rushees. The rush season was closed with a formal tea, given at the house from 4 till 6.

Juandell Shook visited her sister, Rowena, over the past week-end.

The Kappa Mother's Club met Monday at the chapter house and sewed for the Red Cross.

Chi Omega News

The past week, Chi Omega sorority has given several rush parties. A number of informal teas were given the first few days of rushing season, and a Slumber party at the house Saturday night. Dancing, Bridge, and other informal games were played throughout the evening. Sunday morning a delicious waffle breakfast was served to about thirty-five girls. Monday afternoon a Bridge-Tea was given at the house from four to six. Mrs. Kermit Hill was in charge. A dinner was given Tuesday evening,

and the season was closed with a formal Tea, at the house, from four to six, Wednesday afternoon, with Betty Sherwood in charge.

Kappa Alpha Activities

A. T. Cochran, Jr., and Harold Wood spent the week-end at the K. A. House.

An informal party will be held at the House Sunday evening.

A Kappa Alpha Alumni dinner was held Wednesday night at the Kappa Alpha House.

Phrateres

At the regular meeting of Phrateres Monday evening plans were discussed concerning initiation of new members. No definite date has been decided upon, but at present they are considering next week.

Miss Doris Collister has been appointed secretary-treasurer by the president until someone is elected for the vacancy having been left by Miss Alice Henderson, who is remaining at her home in Santa Fe this semester. Phrateres are glad to welcome back one of their most active members, Miss Cornelia Jones.

Miss Frances Thornton will be initiated into Phrateres next week.

Phi Mu Notes

Ruth Brickley, a talented young Phi Mu pianist, is planning to give her second recital sometime during the last of March or the first of April. Ruth was presented in her first Senior recital last semester and won the praise of a great number of the music lovers of Albuquerque; therefore her second presentation should furnish a thoroughly enjoyable afternoon of music for every one attending.

Rush week at the Phi Mu house caused the appearance of a series of teas cosies, and dinners. Last Friday, Mary Elizabeth De Graftenreid and Farrar Hardeman were hostesses at an "extra-special" cosy at which rushees as well as actives, pledges, and alumna were entertained. Since the date was so close to the famous "14th" a red and white Valentine scheme was very effectively carried out in tea-table decorations, the red and white iced cakes, red candy hearts, and small sandwiches.

Sunday's event was a tea, while the Phi Mus entertained Tuesday with a cabaret style buffet supper and bridge. Wednesday's and Thursday's rush teas "closed the season" for another semester.

In spite of the fact that someone stole part of the pledge dance refreshments, the guests finally did eat about 11:45. Due to the efforts of Mrs. Hudson, Carter Johnson, and a can-opener a real "prison-fare" was served—coffee, pork'n' beans and dry bread in tin plates.

Sigma Chi

The Sigma Chis are having another of their informal dances Sunday night from seven thirty to ten. Mr. and Mrs. Pat Miller will be the chaperones.

Sigma Chi announces the pledging of Harry, "Buzz" Herschfield.

Bob Stevens has withdrawn this semester, and will make his home in Phoenix, Arizona.

Stewart Hayward was in town for a couple of days recently, on his way home to La Grange, Illinois.

Sigma Phi Epsilon

The Sigma Phi Epsilon fraternity announces the pledging of Mr. Charles Medley of Mountainair, New Mexico.

Dan Jones of Fayetteville, Arkansas, and a Sigma Phi Epsilon transfer, is now living at the fraternity house.

During the last week-end, Jack Holt and Charles Howard went to Santa Fe, and Fred Womack spent

several days with his parents in Mountainair.

Mr. Roy Bates visited at Deming, New Mexico, and at Juarez during the past week.

Mr. Hardin W. Reynolds of North Carolina, of Gamma chapter of Sigma Phi Epsilon, and connected with the R. J. Reynolds Tobacco Company, was a visitor at the fraternity house for several days during the past week.

New Type of Play

(Continued from page one)

and the emotional scenes called for during the course of the action will provide ample opportunity for the cast to exhibit real ability, an aim which was kept well in mind when the parts were cast.

Those players taking part are as follows:

Jane ----- Alice Beddow
Nettie ----- Betty Gill
Emma ----- Helen Wiley
Sadie ----- Mildred Wilson
Orin ----- Mary Jane French
Henry ----- Hugh Root
Judge ----- Donovan Senter
Ella ----- Helen Burt
Hannah ----- Ernestine Welch
Sheriff ----- Jay Gentry
Doctor ----- Frank Graves
Ben ----- Howard Kirk

It is interesting to note that the part of Orin, a young and quite human boy, will be played by Miss Mary Jane French.

Co-Ed Dance Gives Chance For Turn About on Dates

Girls, here is an opportunity for all of you to choose your Romeos for a whole evening! This may make a big hole in your pocketbook because you have to furnish the car—or in some cases walk—take the "gents" to eat and in general return all past favors. But won't it be nice to dance with only the boys you want to—and then to see who are the wall-flowers! This will be a big chance for the women—yep, they can show how they like to be entertained!

The A. W. S. Co-ed dance—"brawl," or what have you, will take place Saturday, February 18. The only ticket you need to get in—is to pay your A. W. S. dues for this semester! At that it will be a cheap date—and think of all the fun—for once the women will be able to wear the pants. Come on—every one of you and show these men on this campus that girls can give the boys as good a time as they can give them—yon know, turn about is fair play! Let's all make this the best date of the year—and take the places of boys for just an evening! Be sure you come—either with a date of your own asking or as a stag—any old way will do—but come!

Youth
I wish that I could travel,
And dance, and sing, and play.
I want a good time while I'm young,
Not when I'm old and gray.

Know Your Profs

VEON CARTER KIECH

Veon Carter Kiech, assistant professor of Chemistry at the University of New Mexico, was born in Nettleton, Arkansas, the son of Charles William and Nellie (Carter) Kiech. He graduated from the Albuquerque High School, took his bachelor's degree from the University of New Mexico in 1924, and his master's degree from Stanford University in 1928. He was awarded his Ph.D. degree from Stanford in June, 1932. He served as instructor in chemistry at the University of New Mexico from 1925-27, and became a graduate teaching fellow at Stanford in 1928, returning to his Alma Mater an assistant professor in 1929. Professor Kiech has published articles in the "Journal of Biological Chemistry" and in "The Proceedings of the Society of Experimental Biology and Medicine." Dr. Kiech is a member of Phi Kappa Phi, Sigma Xi, and Kappa Sigma.

Ann Singer: "Do you think I have 'it'?"

Bonavita: "No, you have 'that!'"

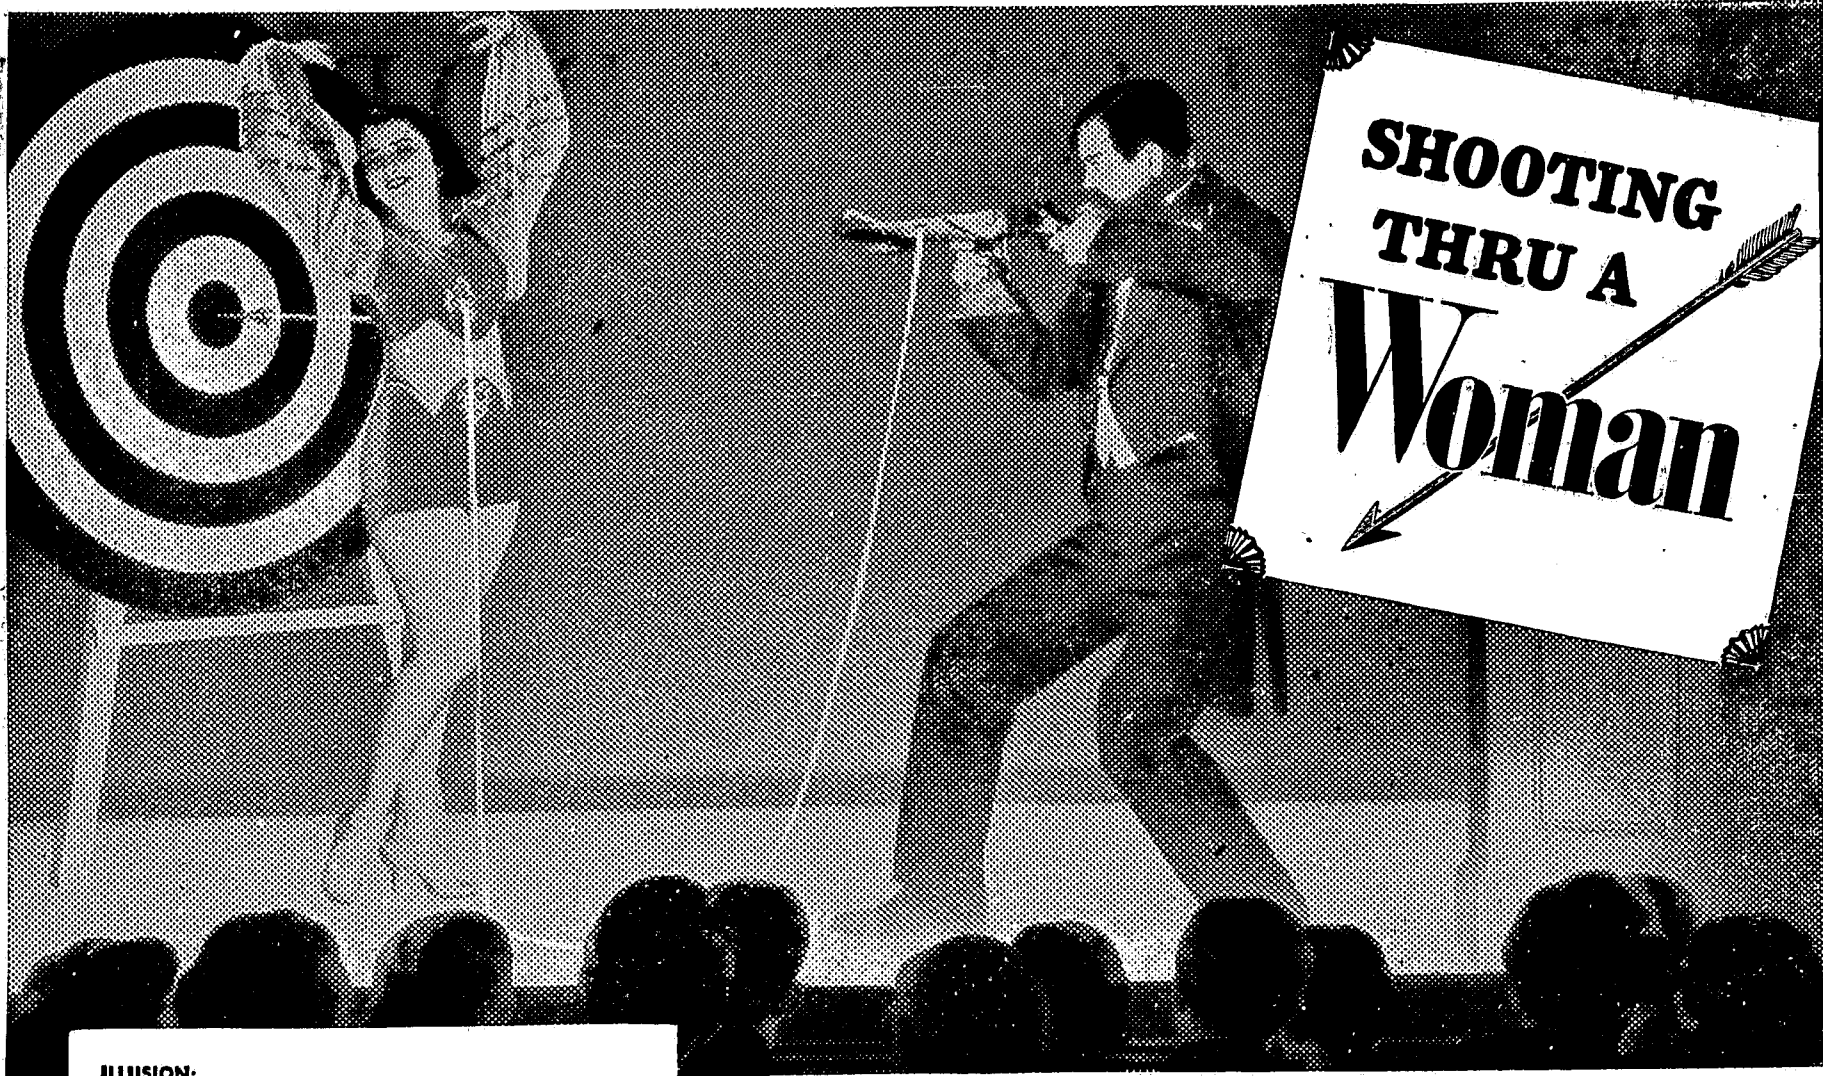

Singer: "What's 'that'?"

Bonavita: "That's 'it!'"

—Cumberland Collegiate.

STUDENTS CRUISES

Magazine subscription scholarship workers and crew managers write immediately for very best student scholarship offers of leading publishers. Can be worked there now. Permanent position if experienced, also summer crews for U. S. and foreign territory. For full details write—The Collegiate Scholarship Institute, 219 Republic Building, Miami, Fla.

ILLUSION:

The stage is all set for target practice. The magician lifts his bow and aims an arrow at the bull's-eye. His lovely assistant then steps in front of the target and he shoots the arrow—apparently through her—and it fixes itself in the very center of the bull's-eye! And she smiles through it all while the audience gasps.

EXPLANATION:

The arrow which the marksman "shoots through" his assistant simply folds up into the crossbow! The arrow which is actually embedded in the target is shot by the girl herself from a belt concealed under her dress. She releases a little spring, the arrow unfolds, and shoots straight into the bull's-eye! It is all done in a flash! So quickly the eye cannot detect the girl's movements! To heighten the impression that the arrow has gone right through, the girl releases a ribbon from the front of her dress—the continuation, apparently, of the ribbon attached to the arrow in the target.

CAMELS

It's fun to be fooled —
...it's more fun to KNOW

Like to see through tricks? Then let's look at another... the illusion in cigarette advertising called "Cigarettes and Your Throat."

The audience is told that by certain magic processes tobacco can be made as soothing as cough medicine.

EXPLANATION: The easiest cigarette on your throat is the cigarette that is made from the choicest ripe tobaccos. Cheap, raw tobaccos are, as you would naturally expect, harsh in their effects upon the throat.

If you have to consider your throat, the quality of the tobacco in your cigarette is important.

It is a fact, well known by leaf tobacco experts, that Camels are made from finer, MORE EXPENSIVE tobaccos than any other popular brand.

Camels are as non-irritating as a cigarette can be because Camels use choice, ripe, tobaccos.

And because of the matchless blending of these costlier tobaccos Camels have a rich bouquet and aroma... a cool, delicious flavor.

Keep the air-tight, welded Humidor Pack on your Camels... to assure yourself and your companions a fresh, cool smoke.

NO TRICKS
...JUST COSTLIER
TOBACCOS
IN A MATCHLESS BLEND
