Bogan, Michael A.. "Report for NMDGF Permit: 2018, 2006." (2007). http://digitalrepository.unm.edu/nhnm_documents/17

This Report is brought to you for free and open access by the Natural Heritage New Mexico at UNM Digital Repository. It has been accepted for inclusion in Natural Heritage New Mexico Documents by an authorized administrator of UNM Digital Repository. For more information, please contact amywinter@unm.edu.

**NEW MEXICO DEPARTMENT OF GAME AND FISH
2006 ANNUAL REPORT
SCIENTIFIC/EDUCATIONAL-PURPOSE AUTHORIZATION PERMIT**

FEB 15

INSTRUCTIONS: If you are a bird-bander, a resident collector whose regulated wildlife is (or will be) accessioned outside New Mexico, or a non-resident who has taken (including live-capture and release) any regulated wildlife in the state, you must provide information in each of the columns below. When entering information, place only one species per line; however, multiple individuals of that species may be entered as long as the locality and date are the same. Always specify the number of individuals in an entry, along with the ages and sexes where known. Disposition refers to what was done with the animals reported, e.g., "banded and released" or "deposited in the Museum of Southwestern Biology." Include all animals taken during 2004, even if some have not been fully identified when this form is submitted. In such case, report the identity as known and then supply complete information within one year in a follow-up report. Photocopies of banding forms, catalogues, accession logs, or similar documents may be used in lieu of filling in the report portion of this form, as long as the necessary information is supplied (attach to the form). Send your report (**be certain to sign it and date it**) and other communications to: **New Mexico Department of Game and Fish, Permit Section, P.O. Box 25112, Santa Fe, NM 87504.** THE DEADLINE FOR THIS REPORT TO BE RECEIVED BY THE DEPARTMENT IS **Jan. 31, 2007.**
