#### DEPARTMENTAL NOTES

Ann Espe '37 is the only candidate from the department for one of the three national \$500 Phi Kappa Phi scholarships. Here's hoping Ann is selected to represent the University of New Mexico in this competition.

Mercedes Stanton x-'38 left, at the end of the first semester, for Mexico City where she will spend this half year in company with her mother. Mercedes has enrolled for some archaeology courses in the National University of Mexico.

Bill Appel x-'38 is now blissfully engaged as general factotum for Dr. Tello in the Museum of the University of San Marcos, Lima, Peru. Ask Don Lehmer concerning Bill's adventure with Peruvian overalls.

Margaret Lane '37 got married last year. Mary Arthur '37 plans to get married this spring. Who is next?

Jim Spuhler's research on Gallipavo melanocephalus has carried him from Hibben's American Indian course back to the times of Oviedo y Valdes, et al.; and now Jim finds that he must master some 50 pages of Hungarian (Magyar).

Last Saturday, March 6th, Dr. Brand celebrated his birthday by giving the first part of the written Comprehensive Examinations (1a) to a select group made up of: Mary Arthur, Ann Espe, Robert Lister, Martha McNary, and Julian Olmsted. Joseph Toulouse and J. Charles Kelley had already taken and passed this examination. The examination over Anthropology 1b will be given, probably, Saturday afternoon, March 20th.

A recent letter from Fletcher Carr (M.A., Arizona), San Diego Museum, San Diego, California, reports that George Carter of the Museum not long ago found a Folsomoid point in the Mohave region.

Mr. H. J. Boekelman, head of the Department of Archeo- and Ethno-Conchology, Louisiana State Museum, New Orleans, is studying the shell material obtained last August in the Chaco excavations.

Just received "Revista de la Sociedad Geografica de Cuba," no IX, Numo. 1-4, 1936, announcing the election of Dr. Julio Morales

Coello to the presidency of this society. Dr. Morales Coello plans to be on the U.N.M. campus this summer.

The Administration Building mice (at home in the Boiler Room) have succeeded in destroying nearly a dozen ears of maize from three New Mexico pueblos. These mice were very selective, and only ate the germ portion of each kernel.

Dr. Leslie Spier and Dr. Clyde Kluckhohn have been obtained for the August General Field Session in Chaco. Invitations may go out to one or two other outside lecturers, such as Morley, Thompson, Morris, Beals, Vaillant, Forde, Romer, Stock, Antevs, et al.

Hibben and Taylor are trying to get Lacrosse started on this campus. Why not hulama or, perhaps better yet, barnyard golf?

Recent visitors: Professor Howard S. Brode, Curator, Whitman College Museum, Walla Walla, Washington; and Dr. Leslie White, Chairman of the Department of Anthropology, University of Michigan, Ann Arbor.

Gift: from Mr. W. S. Fulton, Dagoon, Arizona, \$700 for departmental publication in archaeology this spring or summer.

<u>Majors</u>	<u>DEPARTMENTAL</u>	<u>MINORS</u>
# Appel, William		Alpers, Frank
*#Arthur, Mary--Spanish		Baker, Mrs. Jewel
Baker, Ele M.		* Brewer, Mrs. Pauline--History
Bitanny, Adolph		Brown, Mrs. Cora
Bloom, Carol		*#Brunell, Horace--Ed. Adm.
# Chatham, Cynthia Ann		* Campbell, Howard--Biology
# Cook, Fletcher		Colvin, Paul
* Espe, Ann--Spanish		* Cooper, Mrs. Marjorie--Biology
*#Ferdon, Edwin--Geology		# Cosper, Cora
# Garcia, Dolores		# Cully, Helen
Goggin, John M.		# Curry, Alma
# Granito, Marie		# DeBacon, Nathaniel
Hastie, Donald		*#Edwards, Jean--English
Hayes, Alden		# Fitzgerald, Mary
Hurt, Wesley		# Gould, Helen
* Kelley, John Charles--Geology		# Haddock, Mrs. Pearl
Lehmer, Don		* King, Mary Adger--History
* Lister, Robert--Geology		* Koch, Grace O.--Sociology
