The matter of renewing the contract of Dr. Fred W. Allen, Associate Professor of Biology, came before the Regents for their consideration. Dr. Allen presented at length his position concerning the Department of Biology and the place of zoology, pre-medical training, and bacteriology in the Department as at present organized. Approximately twenty students, or former students, of Dr. Allen were heard, and these hearings were followed by statements from Dr. Castetter and Dr. Bell and other members of the Biology Department. After carefully weighing all of the evidence presented, Dr. Cornish introduced the following resolution and moved that it be adopted:
