AIA CITES ALBUQUERQUE, N. M.

James Hunter, FAIA of Boulder, Colorado presents the "Citation for Excellence in Community Architecture" to Pete Domenici, Vice-chairman of the Albuquerque city commission and Archie Westfall, former Albuquerque city commission chairman.

THE AMERICAN INSTITUTE OF ARCHITECTS

In recognition of an excellent example of the economic, social and aesthetic value of an architectural plan which encompasses buildings, highways, utilities and their related physical environment and the separation of vehicles and pedestrians, The American Institute of Architects awards this Citation for Excellence in Community Architecture to the citizens of Albuquerque, New Mexico and to their City Commission and to the Albuquerque Metropolitan Development Committee and Albuquerque Downtown for their vision in authorizing and sponsoring the Core Redevelopment Plan, a comprehensive regional solution to present problems with bold anticipation of the future needs of the metropolitan area of Albuquerque, reasserting and enhancing the role of the city as a cultural and commercial center.

Detail Study in use of "Slumprok"

50 YEARS AGO . . .
This was the modern way to heat

Now there is a practical, low cost electric heating system
that allows you complete freedom of material selection
and expression of design. It's Heat-of-Light.

Heat-of-Light puts to use the heat given off by lighting
fixtures, making it an effective, low-cost heating system,
free from maintenance, and at the same time, increasing
the effectiveness of the over-all lighting system.

Call Ed Fogleman at the
PUBLIC SERVICE COMPANY
OF NEW MEXICO
for complete details on
Heat-of-Light system.
