# ChemComp doesn't shrink from any job.

When you want minimized  
shrinkage cracking for absolute  
structural integrity, durability, and  
beauty, the concrete answer is  
ChemComp, Southwestern  
Portland's expansive cement.  
ChemComp is finished cement, not  
an additive or partial  
replacement. It greatly reduces  
maintenance and repair costs due  
to cracks. It generally eliminates  
the need for waterproof  
membranes or surface  
sealants. Check ChemComp's  
many advantages.
