A GUIDE TO THE LITERATURE OF THE SOUTHWEST

Lyle Saunders

This bibliography, a service of the Inter-American section of the University of New Mexico's Research Bureau in the Social Sciences, aims to list with as much completeness as time and resources permit current published materials dealing with the Southwest. The Southwest, as we define it in gathering items for inclusion here, includes all of New Mexico and Arizona and parts of Oklahoma, Texas, Colorado, Utah, and Nevada.

An asterisk before any book title indicates a review in this issue of the QUARTERLY REVIEW; a dagger marks those titles contemplated for review in a future issue. The symbol (F) designates fiction.

Included here are mainly items published between October 1 and December 31, 1942.
