A GUIDE TO THE LITERATURE OF THE SOUTHWEST

Lyle Saunders and
Frank L. Baird

This bibliography, a service of the University of New Mexico's Research Bureau on Latin America and Cultural Relations in the Southwest, attempts to list, with such thoroughness as time and resources permit, current materials dealing with the Southwest. The Southwest, as here defined, includes all of New Mexico, Arizona, and Texas, and parts of Utah, Oklahoma, Colorado, Nevada, and California.

The symbol (F) designates fiction; (J) is used to indicate materials on the juvenile level.

Included in this issue are mainly those titles which were published or came to our attention between June 1 and September 1, 1948.

In order to conserve space and avoid needless repetition, general, recurring items (indicated in the Spring, 1948, issue by a star) will be listed only once a year in the Spring numbers of the New Mexico Quarterly Review.
