A GUIDE TO THE LITERATURE  
OF THE SOUTHWEST, XXXIII

**T**HIS BIBLIOGRAPHY, a service of the University of New Mexico's Research Bureau on Latin America and Cultural Relations of the Southwest, the School of Inter-American Affairs, the Department of Sociology, and the *New Mexico Quarterly*, attempts to list, with such thoroughness as time and resources permit, current materials dealing with the Southwest. The Southwest, as here defined, includes all of New Mexico and Arizona, and parts of Texas, Utah, Oklahoma, Colorado, Nevada and California.

The symbol (F) designates fiction; (J) is used to indicate materials on the juvenile level.

In order to conserve space and avoid needless repetition, recurring items of a general nature will be listed only once a year, and for the same reason items from periodicals that are indexed in *The Readers' Guide to Periodical Literature*, *The Education Index*, and the *Industrial Arts Index* have been omitted.

Included in this issue are mainly those titles which were published or came to our attention between December 1, 1949, and February 28, 1950.
