## A GUIDE TO THE LITERATURE OF THE SOUTHWEST, XXXII

**T**HIS BIBLIOGRAPHY, a service of the University of New Mexico's Research Bureau on Latin America and Cultural Relations in the Southwest, the School of Inter-American Affairs, the Department of Sociology, and the *New Mexico Quarterly Review*, attempts to list, with such thoroughness as time and resources permit, current materials dealing with the Southwest. The Southwest, as here defined, includes all of New Mexico and Arizona, and parts of Texas, Utah, Oklahoma, Colorado, Nevada and California.

The symbol (F) designates fiction; (J) is used to indicate materials on the juvenile level.

In order to conserve space and avoid needless repetition, recurring items of a general nature will be listed only once a year, and for the same reason items from periodicals that are indexed in *The Readers Guide to Periodical Literature*, *The Education Index*, and the *International Index* have been eliminated. The listing of thesis titles, generously provided by the librarians of the area, because of space limitations will be distributed throughout the forthcoming issues.

Included in this issue are mainly those titles which were published or came to our attention between September 1 and December 1, 1949.
