This Contents is brought to you for free and open access by the University of New Mexico Press at UNM Digital Repository. It has been accepted for inclusion in New Mexico Quarterly by an authorized editor of UNM Digital Repository. For more information, please contact disc@unm.edu.
This bibliography attempts to list, with such thoroughness as time and resources permit, current materials dealing with the Southwest. The Southwest, as here defined, includes all of New Mexico, Arizona and Texas, and parts of Utah, Oklahoma, Colorado and California.

In order to conserve space, items from periodicals that are indexed in the Readers' Guide to Periodical Literature, the Education Index, the Industrial Arts Index and the Agricultural Index have been eliminated.

Included in this issue are mainly those titles which were published or came to our attention between December, 1953 and February, 1954.

Books

King, Phillip B. and Peter T. Flawn. Geology and mineral deposits of Precambrian rocks of the Van Horn area, Texas. Austin: University of Texas. Pu-
