This Annual Report is brought to you for free and open access by the Administration at UNM Digital Repository. It has been accepted for inclusion in HSLIC Strategic Plans by an authorized administrator of UNM Digital Repository. For more information, please contact disc@unm.edu.
Advance the success of UNM Health Sciences Center students by ensuring information literacy, effectively managing the collection, and demonstrating commitment to student engagement and wellness.

1. Aim to ensure information literacy\(^1\) using library services and resources
   a. Re-envision library public services to respond to emerging and continuing student needs

2. Create opportunities for continual professional development to better support life-long learning for HSLIC employees
   a. Provide training and other opportunities to ensure library faculty, staff and student employees have the necessary knowledge, skills and abilities to better serve the HSC community

3. Increase access, use and awareness of library resources for education and research
   a. Articulate the need and use of our collection to HSC students, faculty and leadership
   b. Promote use of collection resources and services within HSC curricula

4. Implement programs in the library to support HSC students
   a. Leverage current resources and relationships to develop student engagement and wellness programs for the library

Re-envision the library’s common areas to better address contemporary students’ needs for flexible collaborative, group, and individual study spaces.

1. Determine student needs and develop project plans that integrate amenities with available library space
   a. Evaluate the print collection to determine best use of library space
   b. Assess how the library is used in order to meet emerging student needs
   c. Implement smaller improvement projects in the library

2. Review overall use and function of the library building to transform the space into a learning environment that supports students
   a. Complete an architectural feasibility study of the library building in collaboration with HSC facilities management unit and an outside architectural firm

\(^1\) Information literacy is a set of abilities requiring individuals to “recognize when information is needed and have the ability to locate, evaluate, and use effectively the needed information.” American Library Association
