## Capitan Mercantile Co.

P. G. Peters,  
Proprietor.

Ed. W. Harris made a flying trip to El Paso Wednesday.

Mrs. John H. Skinner returned Sunday from a week's visit on the Mesa.

Andy Mayes was in town Monday from his ranch beyond the Mal Pais.

John H. Canning made a business trip to Tularosa Friday, returning Monday.

F. M. Crockett, an old-time ranchman and farmer of the Bonito, was in Carrizozo yesterday.

Mrs. Jno. A. Haley and children returned to Capitan Monday, after a visit of several days in Carrizozo.

Jno. A. Haley, editor of this paper, left yesterday for Capitan, being called there by illness in his family.

John H. Patton left on Monday's No. 1 for Tularosa, from which point he drove up to Bent, to spend a week with his son.

Attorney H. B. Hamilton and Scipio Salazar, of Lincoln, were in Carrizozo Tuesday. Attorney Hamilton went to Alamogordo

and El Paso, and Mr. Salazar returned to Lincoln.

Prof. C. L. Davis' residence, just across from the News office, is nearing completion, and will soon be occupied by the professor and his family.

Jeff Roundtree, who formerly was a resident of Corona, but now in business at Nogales, Arizona, was up the line this week, visiting old scenes.

The base ball benefit ball at the Wetmore hall Wednesday night was a delightful affair, and has encouraged the fans to further efforts in that direction.

The little son of Pete Long, while enroute from El Paso to Carrizozo last week, had the tops of the fingers of his right hand crushed by the slamming of the coach door.

Word comes from the Ruidoso that the banks of that famous trout stream is dotted with fishing camps, no less than thirty-one people from Roswell occupying one camp. Fishing, nevertheless, is reported good, and all the parties are having good sport.

Mrs. L. H. Rudisille returned on Wednesday's delayed No. 1 from Alva, Okla. She was met by her husband and they drove to White Oaks that evening. Mrs. Rudisille has been absent since April.

Mrs. Coleman, of Los Angeles, an aunt of Mrs. Peter A. Schmidt, of Lincoln, arrived here yesterday morning, and went to Lincoln the same day. Mrs. Coleman will probably spend the summer in Lincoln.

The ice plant turned out its first ice yesterday, and the company are delivering the home-made article to customers today. A wagon will be put on next week and ice delivered daily in any part of town.

W. H. Lumbley, the popular Singer sewing machine man of Alamogordo, was in Carrizozo several days this week. Mr. Lumbley was returning from the territorial democratic convention, and politics and machines, of which he represents the best in both articles, have been inextricably mixed the past week.

Miss Bessie Dolan arrived Sunday night from San Jose, California, and took the branch line for Capitan Monday morning, from whence she went to her home below Lincoln. Miss Dolan has been attending the King Institute at San Jose the past session.

Harry Johnson, a ranchman and farmer of Capitan, was in Carrizozo a short time Monday. Mr. Johnson came to that country from England about four years ago, has invested some good English coin there, and, in spite of his Johnny Bull training, makes a decent sort of a citizen.

H. S. Campbell, wife and child returned from the Ruidoso Monday evening. Mrs. Campbell and child have been incommunicado since returning, and it is not known how they stood the trip, but Mr. Campbell has been in the hands of the surgeon since his return—having the fish bones extracted from his attenuated form.

Prices will be slaughtered for the next 30 days, at the Spence Furniture Store

## THE CAPITAN NEWS

CAPITAN, - - NEW MEXICO.

### Good of Debating Societies.

Schoolboys who declaimed "The boy stood on the burning deck, whensail buttim ud fled" have been laughed off the platform, and now, like Fourth of July spread-eagle orators, are only a memory of the older generation. But the declaiming schoolboy, for all his sheepish slurring of words and vociferous false emphases, got one great benefit—practice in standing on his feet before an audience. To give his successors similar practice, forensic debating under proper instruction is clearly the thing for upper grammar classes, high schools and academies. Debating means not only speaking but thinking, and is therefore more valuable than "speaking pieces." A recent leaflet of the New England Association of Teachers of English makes a strong plea for the encouragement on the part of teachers and parents of organized debate between schoolboys. It has the excitement of contest, is related to the teaching of English, and has a bearing on a moral question that has vexed our schools—the question of secret fraternities and clubs. These societies usually have nothing important to do. The presence in every school of one or more debating societies would satisfy in a healthy way the mysterious desire of young men and women "to belong to something."

### Needed a Can-Opener.

One of the curious features of life on board modern warships is the necessity of providing can-openers. In these days a very large proportion of the supplies necessarily consists of canned goods. Official statistics show that on a big battleship when at sea and far away from home markets where fresh goods may be obtained no less than 750 cans must be opened every time dinner is served to the crew. This means wearisome work if the can lids are removed in the ordinary fashion, and the government is confronted with the problem of providing a machine that shall do the work satisfactorily and expeditiously. Experiments with this end in view are being conducted by the navy department, and the man who provides an acceptable machine doubtless will not only put money in his purse and win a creditable fame, but will do patriotic service to his country.

There is a difference of opinion as to whether or not there has been a drop in the prices of the necessities of life. Bradstreet, who has been doing the family shopping lately, says there has been a drop, while diamond dealers declare that there has not. This divergence of views may hinge largely on what we consider the necessities of life. If they are merely pork and beans the change in price at the retail establishments has been too small to attract notice. Perhaps a few more beans are served for a dime, but not enough for one to make a fuss about. If, however, articles of personal adornment are regarded as necessities of life the diamond dealer may be right. At least we haven't noticed hotel clerks putting their diamonds away. This they would do if diamonds were to come down so greatly as to be within the reach of all.

In spite of the fact that this is leap year and that the price of diamonds has fallen we don't observe any great number of young men wearing new engagement rings.

## "JIMMY" MUMMY MODERN MARVEL

CORPSE EMBALMED BY PENNSYLVANIA UNDERTAKER SEEMS PERFECTLY PRESERVED.

### FEAT ATTRACTS SCIENTISTS

J. P. Ross Believes He Has Discovered Process of Treating the Dead Which Was Used by the Ancient Egyptians.

Brownsville, Pa.—This little village, 50 miles up the river from Pittsburgh, was visited by a lot of scientific-looking people the other day, each of whom visited the undertaking rooms of J. P. Ross, whose "mummy" is now attracting such wide attention. Among the visitors were two who had been sent by the Carnegie museum at Pitts-

"Jimmy."

burg. Every one insisted on feeling the face of "Jimmy," as the mummy has been named, and, after contact with the hard, cold features, each went away certain that Ross had something new—while he may not have discovered the secret which for centuries was looked for in the pyramids, certainly something more than is known to the average undertaker.

"I have received many offers for my secret for my 'Jimmy,' but I guess we old boys will stick together," said Ross, as he affectionately stroked the face of the man who was killed here seven weeks ago. "Jimmy" and I have been working out a problem which was solved in the time of the Pharaohs, but the answer was mislaid. I think I have solved it. I believe I have at last found the secret of embalming bodies so that they will keep for many years. Anyway, I am so certain that I don't care to dispose of my secret nor let 'Jimmy' out of my sight. If I am right it will prove a blessing to mankind. If I'm wrong there will be nothing to say and no one will have gotten the worst of it, save 'Jimmy.'"

"I have been working on this secret in embalming for the past 23 years," said Mr. Ross, "but this is the first time I have found things working right. It is the first time I have had a perfect subject to work on, and now for seven weeks I have been injecting this new fluid into the corpse, and I have obtained remarkable results. First the face began to harden, and it is now as hard as marble. Anyone who doubts this can investigate, as I have nothing secret except my fluid, which I make myself, and which secret will be kept in my family. The body is in better shape than when it was carried in here, limp and lifeless, seven weeks ago. It has been looked

at by scores of physicians, and they are all of this opinion."

Ross was one of the first undertakers of the country to find that chloride of zinc would not do well as an ingredient of embalming fluid, as it had a tendency to make the bodies copper colored. Some years since he substituted another ingredient to use with formaldehyde in embalming, and met with such good results that he decided to go further with a test which he had figured out many years before. It has been eight months since he completed his test and was ready for the human body in which to make his great test, but he had difficulty in securing one.

One of the Pittsburgh hospitals offered to allow him to use its laboratory, and would furnish a body if the hospital were allowed to share in the discovery, but this Ross refused to consider, as he wanted the secret for his very own.

When the unknown man was killed near his place, seven weeks ago, Ross got the body, and found that there was not a break on the almost perfect corpse. There were no claimants, and in a few weeks' time Ross sent word to the coroner of Washington county that he was about to make an important scientific test and he wanted the body for his very own. The coroner gave him the permission asked, and has himself been an interested spectator at many of the injections.

Ross said that he would spend his last cent now to keep any relative from claiming the body, as he has put his whole life's work into it. It would be an easy thing for any relative to identify the body, as the face is most lifelike.

## WOMAN CLIMBS HIGH SMOKESTACK IN WIND

DESCRIBES SENSATIONS LIKE THOSE OF ONE MAKING ASCENSION IN A BALLOON.

London.—Mrs. Larkins, the wife of the London steeplejack who repaired the Nelson column the other day, successfully climbed the Allans smokestack in Canal road, Mile End, which is 170 feet high.

There was a high wind blowing at the time, and Mrs. Larkins, who was seated in a steeplejack's seat (a piece of board tied to the end of a rope) had frequently to steady herself by grasping the iron hoops encircling the stack.

"I always thought I would like to go up a steeple," said Mrs. Larkins, "but I had never made an ascent, though I would dearly have loved to accompany my husband when he repaired the Nelson column. It is not very often that he gets work as near home as Allan's smokestack, and so when my little boy, Willie, came home from school we went down to watch the work."

"Then I was suddenly seized with the old craving to climb, too. My husband put me into the steeplejack's seat, and up I went. Willie had gone a few minutes before with his father, but 60 feet was considered enough for him."

"At this height my husband suggested my returning to the ground, too, but by this time I was enthusiastic to mount higher. I suppose the sensation is something similar to what one would experience in a balloon."

"Gradually everything and every body got smaller; the men calling their goods on the pavement, the women hanging out their washing in the yards, the motor cars rushing down the Mile End road. The sensation of steadily rising was splendid. Then I reached the top. That was the only part I didn't like. While the cradle was in motion it was delightful, but once it became stationary my one idea was to get down again."

"I could never work up there; I defy any woman to. Even if they were in men's dress (which would be imperative for safety's sake) no woman could be a steeplejack."

## FRENCH MEAT ROLLS

ECONOMICAL USE OF ROUND OF BEEFSTEAK.

Cooked with Bacon and a Slice of Onion They Afford Welcome Change in the Menu—To Smoke Meat.

Economical Roast.—Put meat in the roaster with water in the pan; let simmer on top of stove until tender, then put in the oven for a half hour or three-quarters to brown. Just as good as cooking in the oven all the time.

To Cook Steak.—Beefsteak should not be salted till done and when ready to take from the skillet. It never should be pounded nor prodded with a fork in turning, as that allows the juices to escape. A round steak, spread over with a dressing the same as used to stuff a fowl, then rolled and tied with a cord and baked for an hour is a nice meat service.

French Meat Rolls.—Take a choice round of beefsteak cut thin. Cut in six-inch squares. Place a slice of bacon on each square, add one slice of onion, salt and pepper. Roll and tie or sew them up. Lay them in flat-bottomed kettle, add half a cup of water, butter the size of an egg, two bay leaves and four cloves. Simmer slowly for one hour.

To Smoke Meat.—Ham or other meat treated according to the following plan will be perfectly cured for smoking without first having stood in pickling fluid or brine. Take ten quarts of salt, one pound of pepper, one pound of saltpeter and three pounds of sugar. Dissolve saltpeter in a little hot water, and then mix all the ingredients thoroughly together and rub this mixture into the meat or hams with the hand until every part is well covered. The mixture must be worked in around and under the center bone, pushing well in with a knife. Then lay in a cool place for about two weeks, but do not let it freeze. The meat then is ready to smoke, and will prove of excellent quality.

### HOUSEHOLD HINTS.

To clean a copper kettle rub the kettle with powdered bath brick and paraffin and then polish it with dry brick dust or whiting.

When pouring out tea one sometimes is annoyed to find the tea will run down the spout. To prevent this rub a little butter round the outside of the spout.

When thin tumblers stick together, and there is danger of breaking them, do not try to pull them apart, but put them into a pan of warm suds. In a short time they can be easily separated.

If housewives who dislike to find worms when cutting apples would first put the fruit in cold water they would find that the worms would leave the apples and come to the surface of the water.

A wire basket, known as a salad shaker, or drainer, is used to dry greens after they have been thoroughly washed. The leaves of lettuce often hold the water, even after a good shaking. Each leaf should be wiped off with a piece of cheesecloth. If not thoroughly dry the dressing will not be evenly distributed.

### Sauce Coloring.

Burn sugar in a roast pan until it is black. Then pour a little water at a time on the sugar, let it boil every time till it is liquid. Pour it in a little bottle and when needed take a teaspoonful of this color and mix with the sauce.

### Chicken and Celery Soup.

Take the best part of two heads of celery. Cut it up fine and add a heaping tablespoon of rice. Cook till soft. Take one quart of chicken broth, one pint of milk and cook all together and season with salt and pepper. You have a fine soup.

**The Police Escort.**  
An illustrious visitor arrived, at of the town, and was be- by the reception commi- railway station, he saw, a military position, two long thwart policemen. "Are those policemen for?" he a committeeman near him. "Are here to escort you through was the answer. "Part me through the crowd? se policemen!" he exclaimed, led, with a twinkling eye, "do e me for a baseball umpire?"

## THREE GOOD COLD PUDDINGS

Pineapple, Amber and Potato Cooked in Paste-Lined Plates.

One pineapple grated, its weight in granulated sugar, half its weight in butter, five eggs, the whites beaten to a stiff froth, one cup of cream. Cream the butter and beat it with the sugar and yolks until very light. Add the cream, the pineapple and the whites of the eggs. Bake in pie plates lined with pastry. To be eaten cold.

**Amber Pudding.**—One pound of sugar, three ounces of butter, creamed; two lemons, juice and grated rind; six eggs. Stir part of the sugar in the butter, add the yolks, slightly beaten, the remainder of the sugar and the lemon; beat until light. Whisk the whites to a stiff froth and stir in lightly. Pour in pastry-lined pie plates and bake half an hour. To be eaten cold.

**Potato Pudding.**—Six eggs, the whites beaten to a stiff froth; one pound of potato, rubbed through a colander; one pound of sugar, one-quarter of a pound of butter, the grated rind and juice of one lemon. Let the hot potato fall from the colander on the butter and mix well; add the yolks and sugar, well beaten together, the lemon, and lastly stir in lightly the well-whipped whites. Put in paste-lined pie plates and bake. To be eaten cold.

## RECIPE FOR COFFEE CAKE.

A Little Different from the Ordinary Breakfast Confection.

A delicious coffee cake is the following: Scald a pint of milk, then cool to luke-warm. Dissolve in it 1½ yeast cakes, broken in small pieces. Add about 3½ cups white flour and beat until thoroughly blended. Cover; let rise an hour and a half, then add one-half cupful each softened butter, lard and sugar, one unbeaten egg, a half teaspoonful salt and half a teaspoonful cinnamon. Add flour to enable you to knead well, then cover and let rise until doubled in bulk. Set in ice box or cold place over night. In the morning turn on to a well-floured board, roll into a long, rectangular piece, brush with melted butter and fold from the ends toward the center, making three layers. Slice off pieces about three-fourths of an inch wide; cover, and let rise until light. Take each piece, twist the ends in opposite directions, then bring them together at the top of the cake. Place in well-buttered pans; cover; let rise until light, then bake in a moderate oven about 20 minutes. When slightly cooled, glaze with confectioner's sugar moistened with hot milk or water.

## Coffee Mousse.

Grind one-quarter of a pound of coffee, and drip enough boiling water through to make one teaspoonful of coffee. Let it run through the coffee slowly so as to become as strong as possible.

Add to the coffee the beaten yolks of two eggs and three ounces of sugar, put the mixture in a double boiler and stir with a wooden spoon until it thickens. This will require about five minutes.

Add one tablespoonful of gelatine, which has been previously dissolved in a wineglass of cold water. Strain the mixture and set aside to cool, but not to harden.

Beat one pint of whipped cream until stiff, add the coffee to it, whipping until it is thick and firm.

As soon as thick put in a mold and pack in ice and rock salt.

## Pudge Nougat.

Boil two cupfuls of granulated sugar, one cupful of milk, butter the size of a walnut, and a pinch of salt until they form a soft ball when dropped in cold water. Then add the juice of half an orange. Take from the stove and, after heating a minute, stir in one cupful of chopped nuts, raisins and figs. Pour into a buttered pan and when cool cut into squares.

## THE PART HE PREFERRED.

Subtle Meaning in Post's Criticism of Decollete Costume.

Joaquin Miller, the poet of the Sierras, is something of a recluse and rarely comes into San Francisco, but when he does he is made a good deal of a lion. On his last visit he was one of the guests at a rather formal dinner at a friend's house where he stayed overnight. His hostess had known the poet since her childhood, so she felt privileged, next morning, to discourse to him of the beauties of the Parisian gown she had worn the night before—beauties which seemed to have escaped his observation.

Mr. Miller listened to all that she had to say and remained silent.

"But didn't you really like the dress?" pleaded the lady.

"Well," replied the poet, "I did like part of it well enough."

The lady brightened.

"Indeed?" she said. "What part?"

"The part you had on," answered the poet; and that ended the discussion.—Lippincott's.

## Gazetteer Humor.

Many specimens of unconscious humor are received by the editors of that monumental work, the new Imperial Gazetteer of India. A district was said to be "an extensive rolling plain, consisting of alternate ridges of bare stony hills and narrow fertile valleys." An interesting item of natural history was afforded by the remark, "the buffalo differs from the cow in giving a milk which is richer in fat, in voice, and in having no hump."—London Globe.

## Perils of Fence Mending.

"I understand that member of congress hurried home to mend his fences."

"Yes. But he doesn't appear to have made a neat job of it. His prospects look as if he had gotten into a tangle with a lot of barbed wire."

## THEY GROW.

Good Humor and Cheerfulness from Right Food.

Cheerfulness is like sunlight. It dispels the clouds from the mind as sunlight chases away the shadows of night.

The good humored man can pick up and carry off a load that the man with a frown wouldn't attempt to lift.

Anything that interferes with good health is apt to keep cheerfulness and good humor in the background. A Washington lady found that letting coffee alone made things bright for her. She writes:

"Four years ago I was practically given up by my doctor and was not expected to live long. My nervous system was in a bad condition.

"But I was young and did not want to die so I began to look about for the cause of my chronic trouble. I used to have nervous spells which would exhaust me and after each spell it would take me days before I could sit up in a chair.

"I became convinced my trouble was caused by coffee. I decided to stop it and bought some Postum.

"The first cup, which I made according to directions, had a soothing effect on my nerves and I liked the taste. For a time I nearly lived on Postum and ate little food besides. I am today a healthy woman.

"My family and relatives wonder if I am the same person I was four years ago, when I could do no work on account of nervousness. Now I am doing my own housework, take care of two babies—one twenty, the other two months old. I am so busy that I hardly get time to write a letter, yet I do it all with the cheerfulness and good humor that comes from enjoying good health.

"I tell my friends it is to Postum I owe my life today."

Name given by Postum Co., Battle Creek, Mich. Read "The Road to Well-ville," in pkgs. "There's a Reason."

# A SURGICAL OPERATION

If there is any one thing that a woman dreads more than another it is a surgical operation.

We can state without fear of a contradiction that there are hundreds, yes, thousands, of operations performed upon women in our hospitals which are entirely unnecessary and many have been avoided by

## LYDIA E. PINKHAM'S VEGETABLE COMPOUND

For proof of this statement read the following letters.

Mrs. Barbara Base, of Kingman, Kansas, writes to Mrs. Pinkham:

"For eight years I suffered from the most severe form of female troubles and was told that an operation was my only hope of recovery. I wrote Mrs. Pinkham for advice, and took Lydia E. Pinkham's Vegetable Compound, and it has saved my life and made me a well woman."

Mrs. Arthur R. House, of Church Road, Moorestown, N. J., writes:

"I feel it is my duty to let people know what Lydia E. Pinkham's Vegetable Compound has done for me. I suffered from female troubles, and last March my physician decided that an operation was necessary. My husband objected, and urged me to try Lydia E. Pinkham's Vegetable Compound, and to-day I am well and strong."

## FACTS FOR SICK WOMEN.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, and backache.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

## THE CARRIZOZO NEWS

Published every Friday at:  
CARRIZOZO - NEW MEXICO.

Application made at the postoffice, Carrizozo, New Mexico, for transmission through the mails as second class matter.

W. A. HALEY, Editor.

### SUBSCRIPTION RATES:

One Year. . . . . \$1.50  
Six Months. . . . . \$1.00

### Announcements.

#### FOR COUNTY SURVEYOR.

The News is authorized to announce that W. R. Benty is a candidate for re-election to the office of County Surveyor, subject to the action of the democratic party.

The sanctity of franchise and the purity of the ballot will be interestingly discussed in the forthcoming New Mexico campaign. The frauds of two years ago will not be repeated; the penitentiary yawns for any guilty of such flagrant election abuses that have disgraced this territory in the past. The democrats not only demand an honest election, but are determined that it SHALL be honest.

Roosevelt has named Taft as his successor, has supervised the drafting of the republican platform, and even revised temporary chairman Burrows' speech. He was also the main factor in naming Taft's running mate. Now, if he will only dispense with a little of his modesty, dictate the congressional nominees and order the people to elect them, the people will be relieved of all responsibility of government, and things will glide along as smoothly as in the Mexican republican.

#### Firm Changes Name.

Fourteen years ago the Taylors arrived in White Oaks, hung out the sign "N. B. Taylor & Son," and began to shoe horses and to hammer steel. Quite a good many years afterward hardware was added and a younger son became a member of the firm, and trouble at once began. He insisted on a suffix to the name, and to placate him the sign was changed to "N. B. Taylor & Sons." The firm launched out two years ago, the father and younger son coming to Carrizozo, entering the hardware business, running a shop in connection; the elder son remaining in White Oaks, both establishments retaining the name of "N. B. Taylor & Sons." In the meantime the younger son became a benedict, and Monday of this week a new member of the firm arrived, is quite clamorous for his share of business and attention, and insists on the firm name being changed to "N. B. Taylor, Sons & Grandson."

## RAILROAD AND SHOP NEWS.

Yesterday afternoon the pay car arrived, and the railroad boys were consequently happy.

The stationary engines in the shops are being given a new magnesia lagging and jackets.

The ash pit at the round house is to be enlarged, the work to be done early next month.

An extra train crew was put on this week, in order to handle the melon shipments from California.

J. H. Templeton, day foreman at the round house, will take a thirty-day lay off on July 1, and visit parents and relatives at and near Austin, Texas.

A big excursion will pass through here from Dawson at 3:10 in the morning (Saturday), going to El Paso. The Dawson coal diggers play the El Paso ball team tomorrow. Rates are advertised all along the line.

A new 75-foot turn-table has been ordered from the east, and will be placed in position as soon as it arrives, which will be about the first of the month. It will replace the old table, which is 65 long and not large enough to accommodate the new engines, which are longer and heavier than those now in use.

Passenger trains Nos. 1 and 3 have been from five to twelve hours late during the past week on account of high water in Kansas and Missouri. All trains east of Kansas City are being detoured over the Frisco, thence over the M. K. & T., and finally reach the Rock Island many miles west of Kansas City. Practically no freight is arriving from the east, as the railroads will not accept shipments until the waters recede.

Engineer John Harris met with a painful though not serious accident Saturday night at Tularosa. While looking back for a signal from the conductor, his head came in contact with the mail crane at that station, which inflicted a glancing scalp wound. If his head had protruded an inch or two further from the cab window there would be a different story to tell. However, he pulled his train in on time, and Dr. Paden, the company surgeon, attended to his injuries, and he felt well enough next day to handle the throttle as usual.

### Sunday's Ball Game.

Every team and rig in the town that could be pressed into service was used to convey the ball team and the numerous fans—the latter consisting of many of the gentle sex—to White Oaks, to participate in and witness Sunday's ball game. Even the automobiles made the run up to the mountain town, bearing happy crowds, anxious to see Carrizozo wallop White Oaks.

It was an ideal day—just the kind to bring the playing qualities of both teams to the front; and the fans were much in evidence, the players of both teams receiving their due meed of praise or censure, as the point of view presented itself. We are compelled to acknowledge, however, that in this feature of the game Carrizozo was somewhat outclassed, and had the White Oaks boys played ball in accordance with the encouragement given, Carrizozo would have been out of the game from the beginning. As it was, there was glory in Carrizozo's victory and no dishonor in White Oaks' defeat.

The game by innings was as follows:

White Oaks—0 0 0 0 0 0 2 0  
Carrizozo—0 0 0 0 0 3 0

The game was played on the old diamond above White Oaks where, in the past, many of the best teams of the country have met defeat, but the mountaineers' lucky star was obscured, and the above table tells the disaster that overtook them Sunday.

The batteries of both teams did the principal part of the work, though a few safe hits were made and at one time each team bunched a few, which, aided by errors, resulted in the runs made. So far as the News man was concerned, he was somewhat divided in his allegiance, and, while local pride made him desire victory for Carrizozo, old associations would arise in his mind, and at the final result he forgot to join in the cheering. However, he thinks he may gradually outgrow that shortcoming, and develop a more loyal feeling for the home team in the future.

### RESTORATION TO ENTRY OF LANDS IN NATIONAL FOREST.

Notice is hereby given that the lands described below, embracing 848.40 acres, within the Lincoln & Gallinas National Forest, New Mexico, will be subject to settlement and entry under the provisions of the homestead laws of the United States and the act of June 11, 1906 (34 Stat., 233), at the United States land office at Roswell, New Mexico, on August 15, 1908. Any settler who was actually and in good faith claiming any of said lands for agricultural purposes prior to January 1, 1906, and has not abandoned same, has

a preference right to make a homestead entry for the lands actually occupied. Said lands were listed upon the applications of the persons mentioned below, who have a preference right subject to the prior right of any such settler, provided such settler or applicant is qualified to make homestead entry and the preference right is exercised prior to August 15, 1908, on which date the lands will be subject to settlement and entry by any qualified person. The lands are as follows: Unsurveyed, approximately Sec. 12, T. 10 S., R. 11 E., New Mexico Mer. Beginning at corner No. 1 which is F. S. M. whence road crossing on north fork of the Bonito at Greer's crossing bears N. 10° 30' W. 99 ft; thence S. 60° 20' E. 1650 ft. to corner No. 2; thence S. 21° W. 1740 ft. to corner No. 3; thence S. 42° 30' W. 974 ft. to corner No. 4; thence N. 52° W. 475 ft. to corner No. 5; thence N. 17° E. 2020 ft to corner No. 6; thence N. 22° 20' W. 1029 ft. to corner No. 1, point of beginning, 56 acres; listed upon application of Ira Robinson, Bonito, New Mexico, alleging settlement January 1, 1906. Surveyed, the NW¼ of SE¼, the N½ of SW¼, the SE¼ of SW¼, Sec. 12, T. 1 S., R. 10 E., application of Venceslao Sedillo, Willard, New Mexico, alleging settlement 1896. The SW¼ of SW¼, Sec. 3, the S½ of SE¼, the NW¼ of SE¼, Sec. 4, T. 2 S., R. 12 E., application of James M. Adams, Corona, New Mexico. Lots 3 and 4 and E½ of SW¼ (SW¼), Sec. 7, T. 2 S., R. 12 E., application of G. B. Bookout, Corona, New Mexico. The SW¼, Sec. 9, application of Cane J. Edwards, Corona, New Mexico. The SE¼ of NE¼, the E½ of SE¼, the SW¼ of SE¼, Sec. 9, application of Britton M. Rodgers, Corona, New Mexico; the NW¼, Sec. 9, application of Robert E. Shannon, Corona, New Mexico, all in T. 2 S., R. 12 E. The E½ of E½, Sec. 12, T. 2 S., R. 11 E., application of Frank Davis, Corona, New Mexico.—FRANK DENNETT, Commissioner of the General Land Office. Approved May 23, 1908. FRANK PIERCE, First Assistant Secretary of the Interior. Lists 1473, 1530, 1543, 1544 and 1545.

#### BILL FOR FORECLOSURE OF MORTGAGE.

William Kahler, Plaintiff

vs.

S. B. Rose and the "Carrizozo Publishing Co., a corporation, Defendants.

The above-named defendant, S. B. Rose, is hereby notified that a suit in equity has been commenced in the district court, for the county of Lincoln, Territory of New Mexico, against you and the "Carrizozo Publishing Company," a corporation, by plaintiff, William Kahler, wherein the plaintiff prays for the foreclosure of a certain mortgage deed, dated the 3rd day of June, 1907, and given by you, the said defendant, S. B. Rose, to William Kahler, the plaintiff, to secure the payment of a certain promissory note for the sum of \$725.00, interest on the same and attorney fees, made and delivered by you to the said plaintiff William Kahler, which said promissory note as appears by plaintiff's bill of complaint filed in this cause remains wholly unpaid and is now passed due.

That unless you, the said defendant S. B. Rose, shall enter your appearance in said cause on Tuesday, the 28th day of July, 1908, and thereafter make answer therein to the plaintiff's said bill of complaint as required by the law and practice in said suit, a decree pro-confesso by default will be entered against you, the said defendant, S. B. Rose, and a final decree will be entered therefor.

Plaintiff's attorneys are Barber & Gluck, whose postoffice address is Carrizozo, N. M.

### LEGAL NOTICE.

THE E. B. WELCH COMPANY

vs.

W. M. LANE.

Assumpsit by Attachment.

No. 1793.

The defendant W. M. Lane is hereby notified that a suit has been commenced in the District Court of the County of Lincoln, Territory of New Mexico, against you by the plaintiff, The E. B. Welch Company, for the sum of Two Hundred and Thirty-two Dollars and accrued interest and attorney fees, for money due it, the said plaintiff, on account of a certain promissory note in writing made by the said defendant, and payable to the order of it, the said plaintiff, and which said promissory note remains wholly unpaid. That the property of the said defendant has been attached in said suit, and unless said defendant shall enter its appearance in said cause, on Tuesday, the twenty-eighth day of July A. D. 1908, and thereafter make answer therein as required by the law and practice in said suit, judgment by default will be rendered against you, the said defendant, and your property sold to satisfy the same.

Plaintiff's attorney is Geo. B. Barber, whose postoffice address is Lincoln, New Mexico.

CHAS. P. DOWNS,

Clerk of said Court.

By FORDA M. ECKMAN,

Deputy Clerk.

Alamogordo, N. M., May 29th, 1908. 6-12-44

NOTICE is hereby given that on the 4th day May, 1908, in accordance with Section 26, Irrigation Law of 1907, M. B. May of Nogal, County of Lincoln, Territory of New Mexico, made application to the Territorial Engineer of New Mexico for a permit to appropriate from the public waters of the territory of New Mexico.

Such appropriation is to be made from Tortilla Creek at points 1377 feet S., 14° 30' W., S¼ corner Sec. 36, Twp. 8 N., R. 12 E., by means of diversion and storage of 1.5 ac. feet, and 6 cu. feet per second is to be conveyed to points in the W¼ of E¼ of Section 25, Township 8 N., R. 12 E. by means of ditch, and there used for irrigation and domestic use.

The Territorial Engineer will take this application up for consideration on the 11th day of July, 1908, and all persons who may oppose the granting of the above application must file their objections with the Territorial Engineer on or before that date.

VERNON L. SULLIVAN,

Territorial Engineer.

6-12-44

NOTICE is hereby given that on the 10th day of April, 1908, in accordance with Section 26, Irrigation Law of 1907, O. M. Lee, C. E. Mitchell and J. L. Lawson, of Alamogordo, County of Otero, Territory of New Mexico, made application to the Territorial Engineer of New Mexico for a permit to appropriate from the public waters of the Territory of New Mexico.

Such appropriation is to be made from Cañon Creek, Cariso Creek, N., S. and M. Forks of Ruidoso, at points—

Location of points of diversion:

1. North Fork of Ruidoso, Hub 424 set in a pile of rock from which the highest point of White Mountains bears S 20° W 2,800'
2. Middle Fork Ruidoso, Hub 424 set in a pile of rock 14,250' in a northwesterly direction from the point where Ruidoso river crosses the east line of Mesquero Indian Reservation.
3. South Fork Ruidoso, Hub 424 set in pile of rock 16,000' in a northwesterly direction from the point where Ruidoso river crosses the east line of Mesquero Indian Reservation (Lot 4 Sec 19 Tp 11 S, R 13 E).
4. On bank of Cedar Creek where E line of NW¼ of NW¼, Sec 22, Tp 11 S, R 13 E, crosses creek.
5. Carizo Creek 150' east of center of west line of NE¼ of Sec 34, Tp 11 S, R 13 E, by means of diversion, and 60 cu feet per second is to be conveyed to points—

Power to be generated at points:

1. On north fork of Ruidoso Sta. 19, from whence the highest point of White Mountain bears north 85° 15' W 1200 feet, by triangulation.
2. Just above main forks of Ruidoso river.
3. In SW¼ of SE¼, Sec 19, Tp 11 S, R 13 E, and from whence the corner common to Secs 20, 21, 28 and 29 in said Tp and Range, bears south 83° 15, 6970 feet.
4. On Ruidoso River in Sec 26 Tp 11 S, Range 13 E, from whence the center of south line of said section 26 bears south 7° E 1900 feet.
5. About center of east line of NW¼ of NW¼, Sec 28 Tp 11 S, R 14 E, by means of ditches, canals, pipe lines, etc., and there used for power, and returned to river at points of use.

The Territorial Engineer will take this application up for consideration on the 21st day of July, 1908, and all persons who may oppose the granting of the above application must file their objections with the Territorial Engineer on or before that date.

VERNON L. SULLIVAN,

Territorial Engineer.

#### PLANKS FROM THE DEMOCRATIC PLATFORM.

We, the Democrats of New Mexico, in delegate convention assembled at Roswell, again renew our pledge of allegiance to those fundamental principles of democracy as originally enunciated by our first great leader, Thomas Jefferson, chief among which is contained in the maxim, "Equal rights to all, special privileges to none." We believe this maxim, rightly applied is capable of solving all the great questions which are now agitating the minds of the American people—the reform of the tariff, the suppression of the trusts, the regulation of the railroad and the attitude of our government towards imperialism.

Public office is a public trust and no man is worthy of any office, either elective or appointive, who does not appreciate the obligation he is under, not alone to his party, but to the whole people, whom he serves, to faithfully and impartially discharge all of his official duties; and we condemn the Republican party of this Territory for its disregard of this principle, for its mal-administration, corruption and ring-rule, except for that brief period of time, during which one Chief Executive of the Territory was endeavoring to adhere to and carry out some of the principles of government we advocate and endorse, and whose efforts resulted in his removal from office by a Republican President.

We call the attention of the Executive and of the Judicial Departments, and of the people of this Territory generally, to the many open, shameful and defiant frauds and violations of our election laws that have disgraced our public elections in this Territory in the past, and notably at the last general election. It was conclusively proved by legal and competent evidence and was not denied, that in the coal camps of Colfax county the polls were established by the order of the commissioners of the said county on the private lands of the respective companies owning and operating coal mines; that the managers of said companies arbitrarily refused to allow any democrats to be present at the polls in said camps on election day; that in some of said coal camps democratic challengers were forcibly ejected from said camps by deputy sheriffs acting under instructions from the managers of said companies; that the ballot boxes were stuffed and the registration and poll books were

padded and hundreds of foreigners were compelled to vote the republican ticket under threats of discharge. We call attention to the fact that these arbitrary acts have been continuously practiced in Colfax county for the past eight years until they have ripened into an established system.

#### Ball Game for the Fourth.

Manager Adams, of the Carrizozo base ball team, has received a letter from Capt. John Bell, of the Fort Stanton team, in which the challenge to play ball was accepted. The two teams have arranged to meet on the local diamond on the Fourth to contest for a purse that will be hung up by the committee, the winning team to take all. The committee has not adjusted all of its financial arrangements yet, and we can't say just what size purse will be offered, but Manager Adams has been assured by the committee that the purse will not be less than \$50.00. This will be a game worth "sweating."

#### REWARD

THE EL PASO & SOUTHWESTERN CO. HEREBY OFFERS A REWARD OF **ONE THOUSAND DOLLARS** (\$1,000.00)

For the arrest and conviction of the party or parties guilty of blowing up or injuring the pipe line known as the "BONITO PIPE LINE," which is used by the undersigned for taking a portion of the waters of the Bonito Creek in Lincoln County, New Mexico; said attempts to blow up or injure the pipe line occurred on or about the following dates: May 4th, 1908, May 19th, 1908, June 7th, 1908, and June 8th, 1908.

STETSON HATS — BOOTS & SHOES — HOG FENCE

WAGONS — IRON ROOFING — CHICKEN NETTING

The Tularosa Mercantile company has sold out to a new corporation that has been formed, to be known as the W. D. Tipton company, of which W. D. Tipton is president and general manager, John H. Canning, vice president, and Watt Gilmore, secretary and treasurer.

W. F. McIntyre, who is interested in the new town of Sunnyside, and also owns some valuable property in Carrizozo and surrounding country, spent several days here the past week. He left on Wednesday's No. 4 for Sunnyside with the expectation of returning in September.

An error occurred in our local column last week which we gladly correct in this issue. The paragraph referred to the daughter of J. B. Beard arriving from Texas. It should have read "the daughter of P. C. Baird." Being new to Carrizozo, we simply got the gentlemen's initials mixed, for which we tender apologies.

Last week Hall & Spence filed a mechanic's lien on the railroad company's property in Lincoln county, including Watson's lake and the pipe lines, in favor of G. W. Watson, who was foreman for A. Wallace, the contractor who improved the lake and put in the pipe lines for the railroad com-

pany. This week they have filed suit to foreclose the lien, in the sum of \$810 and interest and attorney's fees.

David Saunders, a prospector and mining man, who owns some promising claims about 12 miles west, was in town last week and stated that business in his district was quiet at present, but he expected considerable activity there one of these days, and that he had authority for making the assertion.

Capt. Roberts, of Estey, while in town this week, volunteered the information that the mines and mills in his vicinity would soon be started up again. There is an abundance of pay rock on the ground, the machinery is in perfect order, and the captain, as superintendent of the works, is awaiting the "high-ball" from the company to go ahead.

One of the afternoon attractions on Main street Tuesday, was the taming of two fiery mustangs from the plains, who for the first time had a saddle cinched on them. With lowered heads, and backs arched like a Thomas cat on the war path, they jumped for height, length and breadth, and, by way of variety, tried the left shift, but failed to dislodge the men in the saddles. It was a

pretty exhibition of horsemanship, and lasted about five or six minutes.

A very substantial gold strike is reported on the South Fork, or rather in a canyon leading to it. T. J. Grafton discovered the mineral, located it and bonded it to the Pfingsten Bros. These boys have done considerable work on the property, and we have been told that fifty assays, taken from various portions of the ledge, gave an average value of \$8.90 per ton. Those who have visited the property seem to think it one of the most promising that has been discovered in Lincoln county in many years.

Jones Taliaferro, a White Oaks merchant, was in town Tuesday, shipping a car of wool to the Chicago market. The local bids did not suit the shipper, and he decided it best to ship, and trust to look in striking a rising market. The platform adopted at Chicago this week should raise the price of wool above 7 $\frac{1}{4}$ . Former declarations of the g. o. p., so it is said, had a seductive influence on the wool market, and Mr. Taliaferro showed good business judgment in shipping his wool to Chicago at this time.

The Willow Springs coal mines closed down temporarily last

week. The slope has been driven 375 feet, and the face shows a vein six feet in thickness. It is a good quality of soft coal, the users declare, and is excellent for domestic use. Forest Smith has had charge of the development work recently, and informs us that operations will be resumed in the fall, at which time coal will be extracted to supply the local demand, and also preparations made for shipping a portion of the mines' product.

#### DISSOLUTION NOTICE.

The partnership heretofore existing between Griffith & Estes is this day dissolved by mutual consent. All debts against said firm will be paid by C. M. Estes, and all accounts due the firm are payable to him.

J. O. GRIFFITH.

C. M. ESTES.

Carrizozo, N.M., June 15, 1908.

The above business will be conducted in the future by the undersigned, at the same stand, and a continuance of the patronage formerly accorded the above firm will be appreciated.

Respectfully,  
C. M. ESTES.

We are receiving new, bright green alfalfa hay.—John H. Skinner.

IS SAID TO GIVE FINE FLAVOR  
TO THE DISH.

A Boston hostess served such a delicious vegetable salad the other night, that in spite of themselves one or two of the guests exclaimed over it. The unusual flavor was given, it seems, by adding a couple of handfuls of cream cheese to the French dressing, which shows that there's a chance yet for something new in salad making.

Even in preparing common salads especial care in cooking the meat and vegetables pays.

To blanch vegetables for a salad cut them into the shapes and sizes required and boil each separately for three or four minutes. Then drain, turn into cold water and boil in salted water until tender.

Celery, green peppers, apples and a slice of onion cut up together make an appetizing dinner salad. Garnish it with radishes and dress with oil and vinegar and a dash of paprika.

**An Egg Sandwich Worth Eating.**  
The proprietor of a very small, clean, tastefully tidy and exclusive restaurant near the upper boundary of the Tenderloin serves an egg sandwich between 11:30 and 1:30 every week day that is attracting more customers than he can accommodate, says the New York Press. For each sandwich two small yellow dishes (fire-proof earthenware) are used and an egg at least a week old is shirred in each. When just right one of the eggs is plastered over about a quarter-inch thick with ground-up ham knuckle, seasoned with butter and pepper. You know the knuckle of a boiled ham becomes very hard in a few days. It is the choice part of the ham, and while difficult to cut with a knife, is easily ground. The second egg is quickly inverted and dumped upon the first. The ham is between the two, and the sandwich is served red hot in the first dish, the second acting as a cover to be removed at the table. Price, 25 cents.

One cup sugar, one-half cup lard or drippings, one egg (or more), one-half cup molasses (scant), one teaspoon each salt, ginger, cloves, cinnamon,  $2\frac{1}{2}$  cups flour, two teaspoons baking powder. Cream the sugar and lard. After the ingredients are all mixed add one cup of boiling water. Bake slowly.

**After Being an Invalid with Kidney Disorders for Many Years.**

Sold by all dealers, 50 cents a box.  
Foster-Milburn Co., Buffalo, N. Y.

"The most eloquent speech I ever heard contained only four words," said Sociologist Snodgrass. "Ginger Magonnigle had brought his best guy! to the grand civic ball of the East Side Gentlemen's Sons Terpsichorean Coterie, ticket admitting lady and gent, including hat check, 50 cents. The guy, fascinated by a better waltzer, abandoned her escort and danced three times with the stranger. As they were beginning their fourth waltz they were stopped by the hand of Ginger Magonnigle, which clutched the arm of the guy. Gazing deep into her eyes, and with a voice in which were mingled surprise, self-pity, reproach, resentment and menace, he exclaimed:

## SKIN TROUBLES CURED.

"About twelve or fifteen years ago I had a breaking-out, and it itched, and stung so badly that I could not have any peace because of it. Three doctors did not help me. Then I used some Cuticura Soap, Cuticura Ointment, and Cuticura Resolvent and began to get better right away. They cured me and I have not been bothered with the itching since, to amount to anything. About two years ago I had la grippe and pneumonia which left me with a pain in my side. Treatment ran it into my leg, which then swelled and began to break out. The doctor was afraid it would turn to blood-poison. I used his medicine but it did no good, then I used the Cuticura Remedies three times and cured the breaking-out on my leg. J. F. Hennen, Milan, Mo., May 13, 1907."

It takes a woman to sit down and cry when she happens to think what a hard time her children might have had if some other woman had been their mother.

# ADrift FOR WEEKS IN AN OPEN BOAT

TERRIBLE HARDSHIPS ENDURED  
BY SAILORS SHIPWRECKED IN  
THE PACIFIC OCEAN.

## TWO OF SURVIVORS SUCCUMB

Craft Containing Six Unfortunate  
Men Picked Up by British Vessel  
After They Had Undergone  
Intense Suffering.

New York.—A tale of the sea, rivaling in horror and hardship any tragedy of the deep ever told, was brought here the other day by William Kuhlmann, a seaman, who was a passenger on the steamer Voltaire from South American ports.

Kuhlmann is one of six survivors of the crew of the American ship Tillie

The Signal of Distress Was Answered.

E. Starbuck, which was abandoned last August more than a thousand miles off the Pacific coast of South America. He and his companions were rescued by a British ship after drifting about on the ocean for eight weeks in an open boat.

Two of the six men who had lived so long in the little craft died after succor had come to them, and Kuhlmann spent many weeks in a hospital at Valparaiso recovering from the effects of his terrible experience.

No word ever has been received from another boat which put off from the Starbuck when she was abandoned, and it is believed that its occupants died of starvation, thirst and exposure after weeks of vain waiting and hope that help might come to them.

It was when she struck out into the Pacific and was well on her way across the thousands of miles of sea which separated her from her destination that the Starbuck ran into the storm which ended her career and brought intense suffering to all and death to many of her crew. The storm broke in the latter part of July and on the last day of that month her masts were twisted out by the gale and she was left to wallow, water-logged and helpless, in the tumbling seas.

For 16 days the men stuck to the doomed craft, but at last, when it seemed every plunge would be her last, they were left no choice but to take to the little boats and trust to being picked up by some passing vessel.

A full thousand miles separated them from the nearest shore, that of South America. As the last man left the doomed hulk of the Starbuck the

torch was applied to her that she might not continue to float aimlessly about, a menace to other ships. For a time after the start the occupants of the two boats kept each other in sight, but eventually became separated, and then it was each for himself. Day and night, week after week, the occupants of Kuhlmann's boat maintained a constant watch for the sail or wraith of smoke which might mean life to them.

At last, after eight weeks of the most terrible mental and physical suffering, the Cambuskeneth hove in sight. The signal of distress, which had been set at the first warning, was answered and a few minutes later the half-famished, shipwrecked waifs were safe on board the big vessel.

There they were cared for as tenderly and carefully as the facilities at hand would permit, but so serious was the condition of all the men that it was necessary to transfer them to the hospital as soon as the ship reached Valparaiso. Two of the sufferers were found to be beyond human help, however, and sank steadily until death.

## WORKMAN IMPRISONED IN HEATING BOILER

HORRIBLE EXPERIENCE TURNS  
HEAD OF COAL BLACK HAIR  
TO GLISTENING WHITE.

Boston.—Imprisoned in a big boiler, underneath which a fire was gradually heating the flues to a point which would have meant a horrible death if his escape had been delayed but a few minutes longer, is the experience undergone by Arthur McDonald, a young boiler maker of Arkansas.

He has just left the hospital, a nervous wreck. His hair, which was coal black, now hangs over his forehead, a soft, glistening white.

At a sawmill at Hope, Ark., a new set of boilers had been put in. Something went wrong, and McDonald was called upon to repair the difficulty. After fixing the first boiler, he ordered the firemen to fill it with water and build a fire under it. McDonald then entered the second boiler, and had been working about an hour, when he noticed his candle growing dim, and started to investigate. Sick with horror, he realized that the negroes had misunderstood his orders and were building a fire underneath the boiler in which he was at work.

He struck his hammer against the sides of the boiler, hoping to attract their attention. Soon the heat began to be felt. With hands torn and bleeding, and eyes almost bursting from their sockets, the now thoroughly crazed man crawled back and forth in his prison, panting and praying and moaning. The flues became so hot they burned his feet, and his head ached with the heat. At almost the last moment a way of escape dawned upon him. Grasping the chisel he placed it against one of the flues under water and dealt it terrific blows. The chisel broke through the flue, letting the water follow. The negroes heard the water when it struck the flames, and, believing that the boiler still leaked, opened the water plug and raked out the fire. McDonald had a faint recollection of a patch of daylight when the manhole was opened, but knew nothing more for five days.

### Changed Their Babies.

To a party given by Mr. and Mrs. Ernest Woodin of Chapinville, Conn., in honor of the twelfth anniversary of their marriage a few nights ago came all their country friends, farmers, their wives, children, babies and dogs.

While festivities were at their height the mischievous younger folks mixed the babies by changing the sleeping infants' clothes.

Mothers as a result took home babies not their own and the task of locating their own and changing clothes was no easy work, for Chapinville farmhouses are few and far between.

## SADLY MISTAKEN.

Hubby (disgustedly)—The doctor is a fool.

Wife—What's the matter, dear?

Hubby—He said I need exercise. Think of it! Exercise! Exercise for a man who has looked after his own furnace all winter, and is now contemplating the opening of the lawn mower season!

## HOW TO APPLY PAINT.

Greatest care should be taken when painting buildings or implements which are exposed to the weather, to have the paint applied properly. No excellence of material can make up for carelessness of application, any more than care in applying it can make poor paint wear well.

The surface to be painted should be dry and scraped and sandpapered hard and smooth. Pure white lead should be mixed with pure linseed oil, fresh for the job, and should be well brushed out, not flowed on thick. When painting is done in this manner with National Lead Company's pure white lead (trade marked with "The Dutch Boy Painter") there is every chance that the job will be satisfactory. White lead is capable of absolute test for purity. National Lead Company, Woodbridge Building, New York, will send a testing outfit free to any one interested.

## Restaurant Prize Seat.

A novel method of advertising a table d'hote has been invented by a New York restaurateur. Every Saturday night he selects a certain chair in his restaurant and places its number in a sealed envelope in charge of the cashier. All the guests select their own seats. The person who is lucky enough to occupy the selected chair receives, as a present, a handsome gold watch.

STATE OF OHIO, CITY OF TOLEDO, ss.  
LUCAS COUNTY.  
FRANK J. CHENEY makes oath that he is senior partner of the firm of F. J. CHENEY & CO., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of CATARRH that cannot be cured by the use of HALL'S CATARRH CURE.  
Sworn to before me and subscribed in my presence, this 4th day of December, A. D. 1906.  
A. W. GLEASON,  
NOTARY PUBLIC.  
Hall's Catarrh Cure is taken internally and acts directly on the blood and mucous surfaces of the system. Send for testimonials, free.  
F. J. CHENEY & CO., Toledo, O.  
Sold by all Druggists. Take Hall's Family Pills for constipation.

Two secrets of popularity are keep a cheerful courage burning and say nothing but pleasant things about people or say nothing at all.

## It Cures While You Walk.

Allen's Foot-Ease is a certain cure for hot, sweating, callous, and swollen, aching feet. Sold by all Druggists. Price 25c. Don't accept any substitute. Trial package FREE. Address Allen S. Olmsted, Le Roy, N. Y.

If better were within, better would come out.—Danish.

## IRRIGATED LANDS

Altitude only 3700 feet above the sea level. Inexhaustible water supply, taken from the great Snake River, the seventh largest river in America. No alkali, no cyclones. 400,000 acres of the finest fruit and agricultural land in the West. The man who wants a home where everything grows that makes farming profitable—on easy terms—or the man who wants land for investment should write us, as we quote nothing but absolutely reliable information. Address

H. A. STROUD & COMPANY.

Twin Falls, Idaho

## The State of Wyoming

Is preparing to open for settlement ten thousand acres of irrigable land, under the Carey Act, at 50 cents per acre, as an addition to the now famous Wheatland Colony. For further information write to

J. R. MASON, General Immigration Agent,

Wheatland, Wyo.

## The General Demand

of the Well-Informed of the World has always been for a simple, pleasant and efficient liquid laxative remedy of known value; a laxative which physicians could sanction for family use because its component parts are known to them to be wholesome and truly beneficial in effect, acceptable to the system and gentle, yet prompt, in action.

In supplying that demand with its excellent combination of Syrup of Figs and Elixir of Senna, the California Fig Syrup Co. proceeds along ethical lines and relies on the merits of the laxative for its remarkable success.

That is one of many reasons why Syrup of Figs and Elixir of Senna is given the preference by the Well-Informed. To get its beneficial effects always buy the genuine—manufactured by the California Fig Syrup Co., only, and for sale by all leading druggists. Price fifty cents per bottle.

Assist yourself and heaven will assist you.—Latin.

Mrs. Winslow's Soothing Syrup. For children teething, softens the gums, reduces inflammation, allays pain, cures wind colic. 25c a bottle.

He who lives but for himself leads but a little life.—Damien.

Virtue is the first quality to be considered in the choice of a friend—Johnson.

S. Holmes.

"I see you have gotten about halfway through your primer, Johnny."

"Why, how can you tell, Uncle Joe?"

"By the fingermarks."—Kansas City Times.

PATENTS Watson E. Coleman, Patent Attorney, Washington, D. C. Advice free. Terms low. Highest ref.

#### Died from Paralysis.

Mrs. Paxton, of Duncan, Okla., died last Friday at the ranch home of her son-in-law, Mr. Pete Long, about one mile north of town. The deceased lady was 61 years of age, and had been on a visit with her daughter, Mrs. Long, for about six weeks. She was enjoying almost perfect health, and was preparing to return to her eastern home, when she was suddenly stricken with that most mysterious disease—paralysis—which deprived her of sight, voice and power to move, and left her almost instantly a helpless, semi-conscious being. Her husband was notified by wire and word was received that he had started; but as he has not arrived up to the present, it is supposed that he is marooned somewhere in Kansas by the high waters. Mr. Long was also telegraphed for to El Paso, and arrived on the first train, and remained until the end. The body was shipped Sunday morning to Duncan, Okla., for interment.

The sympathy of the community is extended to Mr. and Mrs. Long and relatives. Mr. Long is traveling salesman for the Courtney shoe company, and is known throughout the territory.

#### U. S. WEATHER BUREAU REPORT.

The following weather report, covering the week ending Sunday, June 14th, was furnished by A. H. Harvey, co-operative observer:

	Max.	Min.
June 8,	80	43
June 9,	88	44
June 10,	90	45
June 11,	92	47
