The Chatarra Marea expected to be released from the dam in Illinois, about forty-eight hours after the dam was opened, will increase the pace at the rate of about a half mile an hour. The Illinois and the other states in the area have been increasing the pace at the rate of about a mile an hour per day.

Senator Lott has repeatedly asked that the limit on the United States farms be raised to match the limit on the Japanese farms. This is a point of principle, and it is one that must be addressed. It is not a matter of the amount of land, but of the principle.

On average, the average height of trees in the area is about 15 feet. This is a point of principle, and it is one that must be addressed. It is not a matter of the amount of land, but of the principle.

Mr. Cullen's case is a point of principle, and it is one that must be addressed. It is not a matter of the amount of land, but of the principle.

The proposed extension of the line would be about a half mile an hour faster than the present line. This is a point of principle, and it is one that must be addressed. It is not a matter of the amount of land, but of the principle.

New York, May 12.—The proposed extension of the line would be about a half mile an hour faster than the present line. This is a point of principle, and it is one that must be addressed. It is not a matter of the amount of land, but of the principle.

The language of the proposal is that the limit on the United States farms be raised to match the limit on the Japanese farms. This is a point of principle, and it is one that must be addressed. It is not a matter of the amount of land, but of the principle.

The House has passed a bill providing for the extension of the line. This is a point of principle, and it is one that must be addressed. It is not a matter of the amount of land, but of the principle.

The suggestion is that the limit on the United States farms be raised to match the limit on the Japanese farms. This is a point of principle, and it is one that must be addressed. It is not a matter of the amount of land, but of the principle.

Irrigated Land Ready for the Plow

600 Acres--

300 Under Ditch--

60 in Alfalfa and 70 in Oats This Year.

Alfalfa cutstings, Annual yield 4 to 6 tons per acre. Alfalfa and Oats 600 acres. This tract has good water, and plenty of water to spare. The year is round, a good, steady run, and the land well drained. The land is well suited for alfalfa, and makes good hay. The land will be ready for planting in the spring. The owner will also make a very fair and substantial offer for the entire tract. The land will make a fine place for a large farm.

We don't do business through agents or brokers; we deal direct with our friends.

There is no third party knowing what business you have with us—it's strictly confidential; and that's why you want to bank with us.

BUY A
HOME
In the Beautiful
MORENO VALLEY
OF COLFAX COUNTY,
NEW MEXICO.

Do you want to own a house in one
of the most beautiful and fertile Valleys ever considered worthless, one they
say is a Retreat? If you do you will find a
great deal of land for sale at reasonable prices.

We can sell you a farm of from 20 to 30
acres, with a barn and several outbuildings, for
less than $2000. The land is rich and productive,
and will produce a good crop of corn, oats, hay,
and other crops. The soil is excellent for farming,
and the climate is ideal for growing all kinds of
grain and vegetables.

This beautiful region is located in the
western part of New Mexico, and is
well watered by several streams. The
climate is mild and healthful, and the
people are friendly and hospitable.

We have many fine homes ready for
immediate occupancy, and will build
them to order at a cost of from $500 to
$2000. These homes are situated in
beautiful locations, and are
constructed of the
finest materials.

The FINE VALLEY
FOR SALE

A fine ranch on one of the most beautiful and fertile Valleys of the lower valley of the Rio Grande, of about 2500 acres of land. Good water rights for several hundreds of acres. A small town is being
planned near the valley, with fine grading laid out. Will cost 200 to 250 tons of
manure per acre, worth 500 per ton.

Lands not under irrigation will grow all kinds of
small grains, potatoes, garden truck, etc.

Rainfall about 30 inches. Crossed by two
permanent mountain streams, of pure water. Good
bathing and fishing.

12 miles from railroad station. Railroad sur-
veyed through and will likely build in near future.

Would make an ideal farm and ranch home for
one desiring a ranch, and would be a very profitable
investment.

It is an excellent proposition to cut little
small tracts and sell out to farmers. Some kind of
amonst looking are selling at $400 per acre without
water-right

Will sell cheap within the next 60 days.
