Current Patents Held by Faculty Inventors

Issue Date	Patent Type	Patent Intellectual Property Title	Inventor
3/26/2019	Continuation	Radiolabeled Alpha-Melanocyte Stimulating Hormone Hybrid Peptide for Melanoma Targeting	Yubin Miao
4/9/2019	Continuation	Blood Biomarker for Early Blood Brain Barrier Disruption in Ischemic Stroke	Ke Jian (Jim) Liu, Graham Timmins, Rong Pan, Wenlan Liu
4/23/2019	Continuation	Compounds for Use in Diagnosing and Treating Melanoma, including Metastatic Melanoma and Methods Related to Same	Haixun Guo
4/23/2019	Continuation	Compounds for Use in Diagnosing and Treating Melanoma, including Metastatic Melanoma and Methods Related to Same	Yubin Miao
11/5/2019	Continuation	Compounds with Reduced Ring Size for Use in Diagnosing and Treating Melanoma, Including Metastatic Melanoma and Methods Related to Same	Haixun Guo, Yubin Miao
2/4/2020	Utility	Control of Chronic Neuropathic Pain and Allodynia	Jeffrey Norenberg (UNM Emeritus)
2/18/2020	National	Inhibition and Treatment of Bacterial Infections by Sex-Specific GPER Targeting	Pamela Hall
3/10/2020	Continuation	Isotope Enhanced Ambroxol for Long Lasting Autophagy Induction	Graham Timmins
3/17/2020	Divisional	Blood Biomarker for Early Blood Brain Barrier Disruption in Ischemic Stroke	Ke Jian (Jim) Liu, Graham Timmins, Rong Pan, Wenlan Liu
7/7/2020	Continuation	Dry Powder Nebulizer	Hugh Smyth, Nicola Maynard
8/18/2020	National	Method of Diagnosing And/Or Monitoring Therapy of Atherosclerosis	Jeffrey Norenberg (UNM Emeritus)
11/3/2020	National	VLP-based Vaccines for Targeting Staphylococcus Aureus Secreted Virulence Factors	Pamela Hall, Seth Daly
12/8/2020	Continuation	Modulators of GTPases and Their Use	Laurie Hudson
11/2/2021	Continuation	Compositions for Use in Diagnosing and Treating Melanoma, Including Metastatic Melanoma and Methods Related to Same	Haixun Guo, Yubin Miao
