CIMARRON, THE APPLE COUNTRY OF THE SOUTHWEST

Following is a communication from M. M. CHASE, of Cimarron which should be convincing proof that the Cimarron country is the apple region of the southwest. Mr. Chase is now gathering a thirty to forty car load 1910 crop:

New Mexico Bureau of Immigration, Albuquerque.

Gentlemen:
The results of fruit growing in Colfax, county, out of an experience of nearly forty years, have demonstrated beyond any question that this is a good fruit country as any of the famous fruit growing districts of Colorado or the northwest, and that it has some advantages over any of them. The late successes of the fruit in-bloom and the not infrequent use of such long duration as in Colfax, thus lessening the cost of spraying and decreasing the percentage of failures. These insects and parasites which make fruit growing so uncertain and expensive in many localities do not exist here and no sprays have been necessary.

Our fruit are of exceptionally fine flavor and have splendid keeping qualities, the apples particularly are very colorful, thin skinned, crisp and juicy. The pears are as superior as it is possible for any variety to be grown in any locality where a few exceptions have been noted but these disappear as soon as the fruit is grown and leaves no stain on the name of the county or the fruit. 60 in Alfalfa and 70 in Oats This Year.

Alfalfa 3 cuttings. Annual yield 4 to 6 tons per acre--note 60 bushels and better per score this year--plenty of water the year "round, Bayshore River runs through tract which has original and permanent water right. Ten miles south of this city--jogs lands of Miami colony which have this year yielded off 8 score. Next year you can cut 3 score, 32 bushels wheat and hay, 3 cuttings alfalfa and vegetables. Three miles below the Alcove ranges which have shipped 30,000 pounds plums and has healthy apple trees in bearing. Heavy yields will continue for the past 25 years, and pears and other fruits as good as any.

This 600 score tract is now on the market for a limited time at $25.00 per acre. All sold together, or portions of. Miami land is fed up with the results has been sold this year and last for $40 to $60 per score in small tracts. This must go all together, and hence the very low price for irrigated land with an abundance of water for irrigation.

There is a good school and church one mile south of this tract, also the store and post office of Miami.
