UNM News Minute #553 – February 5, 2009

THE UNIVERSITY OF NEW MEXICO will test new emergency alert sirens on Monday, Feb. 9, at 11:02 a.m. The sirens, located on the main campus and at University Stadium will be sounded for one minute. Shortly after the first siren, there will be a different sound to indicate All Clear. The sirens mean anyone on the campus should immediately seek shelter inside the nearest building.

INHABITANTS OF Chaco Canyon apparently drank chocolate from cylinders about a thousand years ago. That's the finding in a paper published this week by PNAS, a publication of the National Academy of Science and written by Distinguished Professor of Anthropology Patricia L. Crown and her Collaborator at the Hershey Center of Health and Nutrition W. Jeffrey Hurst.

ON THE EVE of Charles Darwin's 200th birthday, researchers at the University of New Mexico and University of Montana report a new twist in sexual selection theory – the realm of evolutionary science that Darwin founded alongside his more generally known theory of natural selection. This news, which appears in the February 6 issue of Science Magazine, is particularly propitious because the discovery was made during studies of some of the same species that Darwin used to develop his ideas.

ASSOCIATE PROFESSOR and Director of the Health Psychology Program in the Department of Psychology, Angela Bryan knows all too well the dangers facing adolescents after years of research studying teens and risky behavior. Even more danger lurks for troubled teens when alcohol becomes part of the mix. Bryan's research into alcohol and the role it plays in sexual risk-taking among detained adolescents is featured in the February 2009 issue of the Journal of Consulting and Clinical Psychology.

MCKINLEY COUNTY voters said yes to UNM-Gallup's \$8 million General Obligation bond issue on Tuesday, paving the way for the college to rehabilitate and replace some aging structures on the campus. Improvements will include the following: rehabilitation of Gurley Hall, razing and replacing Lions' Hall (current site for the college's Community Education program), building a new childcare facility and building a new maintenance facility. The measure passed 1138 to 875.

ST. BALDRICK'S FOUNDATION, a non-profit organization dedicated to raising money for childhood cancer research, awarded a grant of \$85,000 to the UNM Department of Pediatrics, Division of Hematology/Oncology and Principal Investigator Prasad Mathew. These grants are designated to either help institutions treat more kids on clinical trials (their best hope for a cure), or provide resources to make more research possible. <http://www.unm.edu/~market/cgi-bin/archives/003595.html#more>

The 2009 UNM VISITOR Guides are now available for departmental pickup. More to follow...
