	Subject	Notes	Follow-Up
1	Proposed stop on University for SSSC employees	There is concern that new Research-Student Village shuttle will be hard to catch at the research stop at 5:00 because of students returning to the village from Yale stop and also that staff at SSSC will have a hard time making the transfer to the City buses from Yale-Central stop because the shuttle will not get them there by 5:15. Has any consideration been given to picking SSSC and Research staff up on the return trip from the village? (maybe on the east side of University.)	We will postpone action until the Lobo Village route has been in operation to see how the proposed route will work.
2	Parking Rate Increase	There was discussion of how difficult the parking rate increase is for lower-paid employees (specifically, grounds personnel who now have to park on campus).	

3	Future of parking on campus.	Danielle Gilliam spoke about how PATS is evolving and dependent on changes (i.e., planning). There will continue to be a need for transport services connecting north campus, south campus and main campus. There is an ongoing effort to find alternative transportation option that will reduce the demand for parking (the free bus program, zip cars, bike lockers and the Lobo bike program).	
4	Next Meeting	The next meeting will be on September 8, 2011 @1:00 PM in Room 352, Hokona Hall	Meeting Adjourned at 2:00 PM
