BELEN, NEW MEXICO, APRIL 24, 1913

NUMBER 19.

FORMER BELEN MERCHANT A BANKRUPT

Oscar N. Thompson Files Petition in Voluntary Bankruptcy

Oscar N. Thompson, of this city, through his attorney, Col. William M. Berger, of Belen, has filed a petition in bankruptcy before Judge W. H. Pope in the federal court at Santa Fe.

Mr. Thompson formerly was at Belen where he was engaged in business. In February of this year he moved to Albuquerque, opening a small business at 901 South Second street. Owing to unfortunate circumstances through fire and robbery of his places of business he had difficulty in meeting his payments and finding himself short of ready money to settle promptly with his creditors he decided, on the advice of his attorney, to file a petition in bankruptcy in order that all his property might be protected.

Under the petition of the petitioner, his assets total \$2,000 and his liabilities of \$2,000. The creditors of the petitioner are as soon as the petition is published will be known. W. Wilson, of Albuquerque Journal.

SUNDAY SCHOOL INSTITUTE

The Rev. W. C. Merritt, Field Secretary of the International Sunday School Association for the Southwest will be in Belen Monday, April 28, and will conduct an institute at the Lutheran Church at 3:30 and 7:45 p. m.

Papers will be read in the afternoon on "Primary Work" and "The Junior Boy" the latter by Mrs. Snowden. Merritt will give an address at 7:45 on "The Teen Age." The public is cordially invited to both meetings.

THE OIL FIELDS

A four-column picture displayed in the middle of a recent issue of the "California Oil World" of Bakersfield shows scenes in the Artesia oil field of the Pecos valley of New Mexico. The "Oil World" is the only newspaper in the world devoted exclusively to oil and is devoted to the industry in the west. The pictures show that real development is proceeding around Artesia. The illustrations are accompanied by the following story from Artesia.

Artesia, N. M., April 9—Much development work is going on in the fields about here and oil men from every part of the country are coming here almost daily to look over the situation with an eye to investment.

The state is taking increased interest in the work going on in this locality and many state officials have been here recently looking over the lands.

The pictures show something of the development work that is going on and well informed oil men who have their fingers on the pulse of the situation say that big things may justly be expected on this locality as an oil producing district.—Roswell Recorder

Elmer Dils is again able to be up, after his accident of two weeks ago, in which he turned his ankle.

THE SCHUBERTS TO PLAY HERE NEXT SATURDAY NIGHT

The managers of the Commercial Club have been successful in securing the Schubert Company of Chicago, for Saturday night, April 26, 1913. This is one of the best musical organizations of its kind now on the road.

In its issue of February 26, 1913, the Chico, Cal. Record, says of this company:

One of the most pleasing musicals ever enjoyed in Chico was the concert given last night in the Majestic theatre by the Schubert Symphony Club under the auspices of the Elks. Every number of the program held the audience, although some were of a highly classical composition.

Probably 1000 gathered at the Majestic to be the guests of the Elks and that they were well pleased was shown by the applause of every number.

The ladies' quartet was appreciated by the audience and was encored repeatedly. Their voices blended well and the execution was perfect.

Thomas V. Purcell, the violinist, was all the word artist implies. His solos were enjoyed especially the Weiniaski "Faust Eantasio" and his second encore, his own arrangement of Edward McDowell's "To Water Lily."

The music of the mandolin-guitar quintet was an entertaining novelty.

Miss Leeta Corder, soprano, in the mad scene from Hamlet showed remarkable range. She responded to an encore with "Tis the Last Rose of Summer."

One of the pleasing numbers on the program was the vocal quintet, "Belle McCae," composed by E. H. Purcell, father of the violinist, who also wrote the words and music of the contralto solo, "When You're Away," which was sung by Lovie Zendt Purcell.

The harp solos of Frances Rinehart were well received.

The members of the Symphony Club were: T. V. Purcell, violinist; Leeta Corder, first soprano; Frances Rinehart, second soprano and harpist; Kathryn Robert, first alto; Lovie Zendt Purcell, contralto.

Remember next Saturday night at the Commercial Club Hall. Admission 75 cents.

The Hoyland Dramatic Company, which has been at the Pastime each night this week, has put on a splendid show, the moving pictures being clear and distinct, and the vaudeville above the average. They have received their usual gas-tanks, which will be used in showing the pictures, giving a steadier, clearer light than has been used the first night. The company will show the rest of this week, the prices being 15 and 25 cents. Fair crowds have attended each night.

SANTA FE INSTALLS SEPTIC SYSTEM

To Care for Sewage of Depot, Harvey House and Reading Room—an up-to-date Plant

The Cameron Septic Tank Company of Chicago, Illinois, has just completed the building of one of their Septic Tank Systems of Sewage Disposal for the Santa Fe here, which will care for the sewage of the Harvey House, the Depot and the Reading Room. H. D. Wyllie has had charge of the work, being assisted by George Spooner of this place.

The system is the result of many years of investigation and study, which had its beginning in England, later being continued in this country by the Camerons. The theory of the system is that nature will care for itself and the thing to do is to assist nature. The investigations and experiments showed that in the matter of putrefaction and nitrification of sewage or waste matter, nature had provided that the sewage matter would produce putrefactive germs, which have been called anaerobes, which virtually destroyed the solids of the sewage matter by their work of liquification. It was also learned through the experiments that under certain conditions this process was greatly enhanced, and it is to provide these conditions that the Cameron people have undertaken to assist nature.

Ideal conditions are provided for the development and activity of the anaerobes by excluding all air, light and agitation. A concrete tank air tight and light proof is provided, of suitable dimension to care for the amount of sewage estimated. Sufficient water is introduced so that when the sewage is carried into the tank, the solids will float on the water. Under the ideal conditions provided, nature does her part without the loss of time, by providing a colony of the anaerobes, which is spontaneously increased or diminished in size according to the amount of solid matter in the sewage. These germs quietly accomplish their work of liquifying the solids. In the smaller tanks this liquid is disposed of by seepage after having been allowed to pass from the tank by means of suitable valves.

In the larger systems, and where the effluent or reulting liquid is of larger quantities, beds of coke, cinders or furnace slag are provided for the nitrification and filtration of the effluent from the septic tanks to the filtering beds is arranged by automatic gears, so that no attendant is necessary. Where desired, the effluent can be retained after nitrification and used in various ways. This has been economically arranged at the plant used for the disposal of the sewage of El Tovar and Bright Angel Hotels at Grand Canyon, Arizona, where water is not to be had in abundance. The effluent after filtration is passed to the stationary and locomotive boilers, and is claimed by the chief engineer to be the best boiler water, besides the additional item of saving the railroad company \$2,000.00 per month for water.

The putrefaction, taking place in the air tight tanks, no odors nor stretch are noticeable even in the warmest weather. Plants are in operation in various states

of the union, and all are receiving the highest praise. In New Mexico, the Santa Fe has had such a plant at San Marcial to care for the sewage of the shops. The Normal School at Silver City is provided with a system, which is giving good satisfaction. W. H. Bartlett has a plant installed at his ranch home at Vermejo, in the northern part of the state. The Santa Fe also has systems working at their Topeka shops and likewise at Chanute, Kansas. No better testimony of their opinion could be had than that they have just installed a plant here at Belen and have contracted for a like plant at Las Vegas. The plant at Belen has a tank 8x8x42 feet in dimensions, and is arranged to care for sewage up to 75,000 gallons daily.

George Spooner is making arrangements to install a plant at his residence, in the western part of town. Naturally this will be on a much smaller scale, and less expensive. The waste from the kitchen sink will be sufficient to provide the tank with the necessary water, which after passing through the tank and being purified, will be used for sub-irrigation of the garden and lawn, thus being turned to economical usage.

The caring for sewage in this matter is far more sanitary than the usual methods of turning it into some stream or out on open land, where disease is carried in all directions. The cost of the system is proportionately small. Systems of sufficient capacity for private homes can be installed for about eighty dollars, and larger ones in proportion. These are guaranteed to do the work for a term of twenty-five years, and backed by a company financially able to do what it agrees.

The Cameron Company is the owner of the original United States patent covering the Septic Process. Upon application, these people will give plans and specifications for the complete system, the cost of the license varying according to the size of plant to be installed.

In a city like Belen, where the question of sewage disposal will have to be met, there is probably no other system so sanitary and free from the objectionable stench and odors, and at the same time so inexpensive as the Septic Tank System. Further information may be had by applying direct to the company, or to George Spooner, the local representative. (This is not a paid article nor advertisement from which we derive any pecuniary gain. It is published because we believe the system explained herein will be of value to our people, not only in dollars and cents, but in the saving of lives by prevention of disease and epidemic. We believe the installation of every such system is a boost for the city, and we are here to boost.—Ed.)

Col. W. M. Berger, who has been spending the past several weeks at Raton, Santa Fe and Albuquerque, on legal business returned home on Tuesday night.

WANT SHEEPMEN TO SAVE FLEECES FOR STATE FAIR

Mayor Sellers, George Arnot and W. S. Fullerton, of Socorro at a conference held yesterday afternoon at the mayor's office, issued a statement urging sheep raisers, who are shearing now, to save several of their best fleeces to exhibit at the state fair next September and October.

The wool industry is the largest in the state, they said, and wool exhibits should be a feature. Unless wool growers are asked now, at shearing time, to save their fleeces they may not think of competing to the fair. Last year the wool exhibits were not as large as the industry in New Mexico demands.

The state fair commission will appoint a special committee to have charge of the wool department at the fair. Prizes are to be awarded for all grades of wool. —Albuquerque Journal.

ADDITIONAL PERSONALS

Car Inspector R. E. Burr, accompanied by his wife, has been in town several days, having been sent here from La Junta, Colorado, on railroad business.

Mrs. M. Lentz and son, George, passed through Belen, Monday evening en route to Estancia, where she went to attend court which is in session this week. She visited her daughter, Mrs. P. A. Speckmann between trains.

Mr. and Mrs. S. W. Moore of Estancia, passed through our city Monday night, en route to Palomas Hot Springs, where Mr. Moore will take the baths as treatment for an aggravated attack of asthma which is developing into dropsy.

Mrs. William McGraph left for Las Vegas Wednesday night, to attend her mother, who suffered a broken limb sometime ago. It has been found necessary to reset the fracture, and Mrs. McGraph has gone to be with her during the operation.

Road Supervisor F. A. Becker has had the large grader at work on Main street the past two days, grading up this street. Good work has been done, especially on South Main, where the street has been so level, that the water was not shed at all. Let the good work go on.

B. C. McCray, who has charge of the work of driving piles along the river bank, and who met with an accident almost two weeks ago, has recovered sufficiently that he has again returned to work. While not strong yet, he has been overseeing the workmen, the work having been resumed on Monday morning of this week.

Manager Davidson of the local Telephone office is apparently not altogether satisfied with batching, since Mrs. Davidson has been away a couple of weeks, looking after business in the Estancia valley. He has already given it out that she will not go off again like this, for he says "the next time she goes alone, I'm going with her." Instead of hurrying homeward each evening as was his custom, he now plods along with a couple of loaves of baker's bread under his arm, as if he didn't care whether school kept or not.

DE PUE CONCERT COMPANY HERE NEXT WEEK

At Local Santa Fe Reading Rooms, under Auspices of Santa Fe

Another musical treat is in store for the people of Belen on next Tuesday night, when the De Pue Concert Company of Galesburg, Illinois, will appear at the local Santa Fe Reading Rooms. Superintendent Busser at the beginning of the season promised the Santa Fe employees the very best entertainments possible, and it has succeeded admirably in being tested by the crowds who come each company.

In announcing the De Pue's Mr. Busser says:

As we close the season we propose to bring the best, and this Galesburg company rank the very highest. They are all stars, but De Pue is well known all over the east and middle west as one of the really great concert virtuosos and the company he has organized must come up to the standard. Hence there is a musical treat in store for our employees, which will be much appreciated, and they have been hearing fine companies all winter. Galesburg and Knox College are two words which stand for the best in music as well as in liberal arts and scientific advancement. I know I will be excused for undue enthusiasm, but when I heard of these people and there was only a small chance to get them, I went after them very hard and at last they agreed to take a brief rest from their heavy concert work, and I congratulate the employees in being able to send them. Don't miss the Galesburgians.

The usual rule will prevail, the house being opened to Santa Fe employees for half an hour, after which all will be welcomed and seated.

METHODIST CHURCH NOTES.

Order of services: Sunday school, 10 a. m., P. P. Simmons, superintendent. Preaching services, 11 a. m. and 7:45 p. m. Epworth League, 7 p. m. R. R. Yeland, pastor. Residence, south of the church.

Preaching morning and evening by the pastor.

Epworth League devotional service at 7 p. m. Topic, (Missionary) "The Italian in America." Leader, Victor Duran.

On Monday, April 28th, Rev. W. C. Merritt, Field Secretary for the National Sunday School Association for the southwest, will conduct an institute at the Lutheran Church, both afternoon and evening. We hope as many as possible will attend.

Do not forget the date of the Ladies' Aid sale of summer clothing and fancy articles, May 16th.

ZION CHURCH. Evangelical Lutheran

Regular preaching services Sunday morning and evening.

The hour for evening service is changed to eight o'clock. Luther League at 7:15. League subject "Mission Work, at Home and Abroad. IV. Bible Work." Acts 17: 1-12.

Dr. Ziegler's morning service is "Peter Restored to Position and to Service."

See notice elsewhere in the News for a Sunday school institute to be held on Monday afternoon and night.

Mail Order Houses.

We have had some things to
say in regard to buying at home,
or patronizing the mail order
houses. Now on the other side,
how about the merchants and
businessmen who patronize the
mail order house—Uncle Sam?
Where is the difference between
the fellow who sends to the mail
order house for his shoes and
coffee and the merchant who
sends to Uncle Sam's mail order
house for his envelopes? Is there
any difference?

Oh, says the merchant, but
see, the government supplies me
with envelopes with return card
at half what the local printer
will! That is just exactly what
the fellow says who sends away
for his shoes and coffee. And
apparently there is a saving. Uncle
Sam purchases the entire out-
put of certain factories at a cer-
tain bid. Special machinery is
installed for the making and
printing of envelopes, which
work automatically and no human
hand touches the envelope from
the time it is merely paper until
it is a completed envelope, stamped
and printed. Orders from
all portions of the United States
keep these machines busy year
in, year out. Then Uncle Sam
sends out the envelopes to the
purchaser, who has already paid
his money to the local postmaster
at the time of giving his order,
under a "frank." Thus Uncle
Sam pays no transportation on
his goods. Who does? You and
I—every time we write a letter.
We must pay two cents postage
on every letter mailed, when the
last several reports of the post-
master general have shown that
were the franking abuse dis-
continued, we could mail our let-
ters for one cent instead of two.
In this way we help the merchant
pay the transportation on his en-
velopes which he orders from
Uncle Sam's Mail Order House.

The little merchant who buys
his envelopes by the package can-
not secure the low rate from Uncle
Sam's Mail Order House—he
must order not less than 500, or
his return card will not appear
thereon. Of course he has the
privilege (?) of purchasing the
stamped envelopes (which have
also been franked through the
mails and on which you and I
help pay the transportation) and
make use of the additional privi-
lege (?) of writing his return
card thereon.

The local printer on the other
hand, cannot call for bids on the
comparatively few envelopes he
uses during the year or the four
years. He must buy in smaller
quantities just as the local mer-
chant does his wares. He must
pay the middleman's profit, just
as does the local merchant. He
must pay transportation on the
envelopes just as the local mer-
chant does on his shoes and cof-
fee. Naturally he must charge
more for his goods. Let the local
printer send out of town for a
suit of clothes and every mer-
chant handling clothing in town,
even if only from a sample book
would cancel his advertising in
the paper at once. Is it right
that the businessmen should pa-
tronize the mail order house and
not right when his ought-to-be

customers do?

There was a time when the
printing of the return card on en-
velopes by the government was
necessary. When the practice
was first instituted, it was done
to encourage the use of the re-
turn, before printing offices were
at hand to do the work. But
since the practice of using re-
turn cards on envelopes has be-
come practically universal, now
that every hamlet has its printing
office, Uncle Sam's Mail Order
House should be discontinued.
If not, Uncle Sam should put in a
complete line of groceries and
dry goods, and frank these
through the mails the same as he
does the envelopes. There's as
much common sense in doing the
one as the other.

We are glad to know that the
reports of the Socorro fire were
exaggerated in that the material
in the Chieftain office was not en-
tirely destroyed. While there
was plenty of "pi" for some time
to come, the greater portion of
the type was saved, and the pres-
ses while damaged were not en-
tirely ruined. The Chieftain ap-
peared a little late last week, but
our contention that "a Dutchman
will not stay down" was proven
to the letter.

The rains we have had the
early part of the week have been
of immense benefit to the county.
The farmers and stockmen are
rejoicing as crops and grass have
been given a start which will
mean dollars later on. The rains,
coming just at the right time,
and in showers so that there was
no overflow, but all taken up by
the soil, could not have been
more opportune.

WOOL.

The tariff rate under the
Payne-Aldrich law on wool is
about eleven cents per pound on
the class of wool raised in New
Mexico.

London is the world's greatest
wool market. Boston is Ameri-
ca's greatest wool market. The
price of wool is practically the
same in both London and Boston,
varying but very little during the
last ten years.

If the tariff of eleven cents per
pound protected the New Mexico
wool grower, and if he actually
received the benefit of the tariff
he should receive the London
price plus the tariff of eleven
cents per pound plus the freight
across the ocean.

We should be glad to have some
of the local advocates of high
tariff on wool explain this discre-
pancy between what actually is
and what should be, and will
gladly give them the space re-
quired.—Rock Island Tribune.

Less than 23 per cent of the
sugar consumed in the United
States is produced here. Most
of the remaining 77 per cent is
brought from Cuba, Hawaii, Por-
to Rico and the Philippines.
The duty which is now paid on
the sugar imported would be
more than sufficient to purchase,
in the open market, more sugar
than is produced in the United
States. In other words, con-
sumers of sugar in the United
States are paying more duty on
sugar than would suffice to pur-
chase the entire sugar production
of the United States every year.
Since the imposition of the pres-
ent duty on sugar, the wholesale
price in New York has been
more than double the wholesale
price in foreign countries. Sug-
ar consumers in the United
States are paying twice as much
for their sugar, and they con-
sume 19 per cent of the entire
product on of the world, as is
paid in Europe and all on ac-
count of the "protection" of
producers of less than a quarter
of the sugar consumed in this
country. The sugar question is
just now engaging the attention

of congress and a reduction in
the duty is probable.—Santa Fe
Eagle.

If the firing of the chief of the
Weather Bureau at Washington
had anything to do with our
splendid rains this week, we
would suggest that a number of
the clerks be sent over the same
route at intervals during the sea-
son.

Has His Eye on Belen

In preparing the following,
Editor Hawkins of the Tucum-
cari News, must have had Belen
in mind all the time:

OUR TOWN

Boometh
Is the place to trade.
Offers unheard of bargains
Bast grain market in this coun-
try.

Makes lumber fly at bed-rock
prices.

Has society that is social, re-
fined, intelligent, good-natured
and glad to see you.

Has prosperous churches, thriv-
ing societies, beautiful women
and gay cavaliers.

Is a good place to court, to
marry and abide.

Sells more groceries for one
dollar than any place around.

Will stock you up in dry goods
for a very little price.

Has the best hotels in the coun-
try to portion out your hash.

Has better school facilities than
any place in the country.

Has the liveliest local newspapers
of any town of its size in all
christendom.

Is a place in which you can do
good, be good and dwell in per-
petual peace.

Is a good place to market your
poultry, bring in your butter and
roll in your eggs.

Is a good place to establish
your home rear your family and
school your children.

Is a tip top town for a canning
factory, a greenhouse and a loan
and building association.

Grasp His Hand

When anyone comes to our
town grasp him by the hand and
tell him what bright prospects
the town has. Don't stand around
like a lot of dressed up dummies
before a clothing store and wear
long faces with gloomy looks that
see only the dark side of things.
Above all, don't go to whining
around and make a shadow on
the blue sky. If you really have
not the heart to speak a kind
word or lend your influence in be-
half of your town, for mercy
sake hide yourself when stran-
gers come to visit us.

Backache

Miss Myrtle Cothrum,
of Russellville, Ala., says:
"For nearly a year, I suf-
fered with terrible back-
ache, pains in my limbs,
and my head ached nearly
all the time. Our family
doctor treated me, but
only gave me temporary
relief. I was certainly in
bad health. My school
teacher advised me to

TAKE

Cardui

The Woman's Tonic

I took two bottles, in all,
and was cured. I shall
always praise Cardui to
sick and suffering wo-
men." If you suffer from
pains peculiar to weak
women, such as head-
ache, backache, or other
symptoms of womanly
trouble, or if you merely
need a tonic for that tired,
nervous, worn-out feel-
ing, try Cardui. E-45

Why Belen has Grown

The reason why Belen has grown is because there
are men of push and energy in it, who are not afraid to spend
their time and money in boosting the town. They have erec-
ted substantial buildings, organized stock companies, encour-
aged railroads, worked for public improvements, and used all
legitimate means to induce people to locate in their city.
Wherever they go they tell of the advantages of their city,
they write about them in every letter; they send circulars and
newspapers to all whom they think they can get to visit the
town, and, when anyone visits them, they treat him so kindly
that he falls in love with them and their town at once.

It is this enterprise, in addition to the natural ad-
vantages and location, and all pulling together, that make a
progressive town. If you are a "live wire" Belen offers you the
glad hand. Come and investigate conditions for yourself.
Come and meet our people, breath our pure air, and enjoy our
life-giving sunshine, and you, too, will become a booster for
Belen and the Rio Grande Valley.

Notice of Sale

In the District Court of the Second Judicial District in and for the County of Bernalillo.

State National Bank of Albuquerque,
Plaintiff,

vs.

H. A. Brachvogel,
Defendant.

Under and by virtue of an execution issued out of the District Court of the Second Judicial District of the State of New Mexico, within and for the County of Bernalillo, directed to me the undersigned Sheriff of Valencia County, which said execution was issued upon a judgment in a certain cause lately pending in the said District Court, wherein the State National Bank of Albuquerque was the plaintiff and H. A. Brachvogel was the defendant, and which cause is numbered on the docket of said district court as No. 8906, I have levied upon all the stock and shares of stock of said defendant, H. A. Brachvogel, in the Huning Connell Company, being thirty shares of stock and to satisfy the said execution as I am therein commanded, I will on the 29th day of May A. D. 1913, at the hour of twelve o'clock noon of said day at the front door of the new Court House of the County of Valencia at the town of Los Lunas, expose for sale and sell to the highest bidder for cash the said thirty shares of stock and all the stock of the said Huning Connell Company owned by the said H. A. Brachvogel.

The said judgment was entered in said court on the 26th day of March 1913, and the amount of the said judgment was for \$236.86, and the costs of said court was \$10.50, making a total of \$247.36, two hundred fifteen and 33-100 (\$215.33) dollars of which said judgment bears interest at the rate of ten per cent per annum from said March 26th 1912, and the balance of said judgment bears interest at the rate of six per cent per annum from said March 26th 1912.

The amount thereof, together with the interest to the date of sale is \$274.83, being the amount of the judgment with interest as provided in said judgment and the costs of suit, and the costs of this sale are to be added thereto.

Ruperto Jaramillo,
Sheriff of Valencia County.

WHY BUY AT HOME?

I Buy At Home--

Because my interests are here.
Because the community that is good enough for me to live in is good enough for me to buy in.
Because I believe in transacting business with my friends.
Because I want to see the goods I am buying.
Because I want to get what I buy when I pay for it.
Because my home dealer "carries" me when I run short of cash.
Because some part of every dollar I spend at home stays at home and helps work for the welfare of the city and county.
Because the home man I buy from stands back of the goods, thus always giving value received.
Because I sell what I produce to my home people, be it labor or goods.
Because the man I buy from pays his share of the county and city taxes.
Because the man I buy from helps support our poor and needy, our schools, our churches, our lodges and our homes.
Because if ill luck, misfortune or bereavement comes, the man I buy from is here with his kindly expressions of greeting, his words of cheer, and if needs be, his pocketbook.

HERE I LIVE AND HERE I BUY.

Let us make Belen and Valencia County a good place in which to work and live.
It's easy and certain if everyone will contribute his share.
