The Bland Herald.

Vol. VI.

BLAND, NEW MEXICO, FRIDAY, SEPTEMBER 13, 1901.

Number 6

We want better roads.

Scarlet fever is reported in Albuquerque.

The Jewish New Year begins at sunset this (Friday) evening.

The old veterans of the G. A. R. are holding an encampment at Cleveland.

Mrs. Ramsey took a flying trip to Albemarle Thursday to visit her husband.

David Perry has gone to work in the mill of the Cochiti Gold Mining company.

The heavy rains of the past few days have made the roads almost impassable.

Wilbert Sebbin left Thursday for Albuquerque where he will attend school this winter.

When in need of job work don't forget that the Herald does a turn at that once in a while.

Mrs. Mulligan, proprietress of The Bland Hotel, returned last Tuesday from a visit in Albuquerque.

A package addressed to Miss Mary Pletz, Bland, is held at the Santa Fe post-office for postage.

After the continued rainy season everyone must appreciate the beautiful weather of the past few days.

The Territorial University opened Tuesday for the fall term. A large list of students were enrolled.

C. W. Graves journeyed to Thornton this week on business in the interests of the Bland Transfer Co.

WANTED:—Someone to cut a cord of wood for subscription. We will furnish the saw and the wood.

George H. Smith will visit home folks in Boston for a few weeks. It is rumored he will not come back alone.

Mrs. G. A. Wagoner and daughter of Bland, are registered at the Palace Hotel, Santa Fe, says the New Mexican.

Mrs. Hofheins and two sons went to Albuquerque this week where the boys will attend school this winter.

Between praying for rain and lynching negroes they are having a hot old time in the Louisiana purchase district.

When you hear a man kick at the lack of news in his paper it's a safe bet that he's in arrears with his subscription.

Louis and Warren Graham were here at Tuesday on business connected with their property interests in the district.

Come in and pay your subscription. The hoary hand of Jack Frost will soon be pinching us through our summer togs.

Miss Ora Wagner left last Saturday for Santa Fe, where she will enroll as a student in the Sisters of Loretta Academy.

B. D. Wilson has been awarded a contract for cutting and hauling 500 cords of wood for the Navaho Gold Mining company.

Randolph Kelly came in from Sulphur Springs last Monday. He says many guests continue to arrive at the Meyers' hotel.

George E. Wright, a journalist and author, died in Chicago on the 9th inst. of paresis after a lingering illness, at the age of 50 years.

We regret very much having to go to bed this week without anything from Albemarle. We shall expect a long list of items from you next week Marie.

Mr. C. H. Burrows, the efficient chef at the Exchange Hotel, is laid up with a very sore finger which, it is feared, will develop into erysipelas.

Several Sisters of Charity were in the village of Cochiti this week administering to the wants of the Indians who are suffering from malarial fever.

Senator Vest announced before his last election that he would not again be a candidate. Actors and beauties have too many farewell tours.

The fight between the labor trust and the steel trust is mixed and it requires the tradition of a crossroads politician to tell where capital ends and labor begins.

Mrs. Wallace, who has been in charge of The Bland during the absence of Mrs. Mulligan, and who has been quite ill for the past few days, has about recovered.

F. B. Strong, station agent at Springer, and L. B. Reynolds passed through Bland on Sunday enroute to their homes from a pleasant sojourn at the Sulphur Springs.

J. C. Thomas, the druggist, and ex-Justice of the Peace Samuel Young, started for Santa Rosa the early part of this week. They expect to return in about two weeks.

Every business man in this district should carry an "ad." in the Herald. It not only helps you but it advertises the entire district; and, incidentally, makes the printer smile.

A Philadelphian, after traveling to Buffalo to get married, arrived an hour after the woman had wedded another man. His hair breadth escape should teach lovers to go slow.

A. M. Collander, well known in Albuquerque and Bland, was a passenger yesterday morning for Tampico, Mex., where he will work for the big oil company.—Albq. Journal-Democrat.

Walter and Minnie Routledge departed on Saturday last for Las Vegas. This winter they will attend the Normal school and will make their home with their aunt, Mrs. J. W. Cook.

"I suppose," he ventured, "that you would never speak to me again if I were to kiss you?" "Oh, John!" she exclaimed, "why don't you get over the habit of always looking on the dark side of things?"

W. H. Rodgers, wife and daughter, Miss Ora, of San Anton, passed through camp on Monday on their way to Santa Fe where the latter will attend school the coming winter. Mr. and Mrs. R. will return in a few days.

Charles R. Mackenzie, aged 46, well known as a turf writer, under the nom de plume, "The Gaffly," died at the city hospital in St. Louis on the 9th inst. as the result of a street car accident in which his skull was fractured.

It was reported in camp the early part of this week that J. N. Wallace and C. P. Jones, got into an argument at Santa Rosa on Tuesday in which the latter was shot. We were unable to learn the full particulars of the affair.

A New York ice man tried to collect a bill of thirty cents from a woman by striking her in the face with the ice tongs.—Benkelman (Neb.) Chronicle.

It would have served the wretch right had he broken his tongs. Some men are so careless with their tools.

What a pity it is that the entire board of County Commissioners could not be compelled to make at least one round trip on the stage each week between Bland and Thornton. We will wager a year's subscription that we would have some decent roads before long.

Messrs V. V. Clark and Fred Park, who, as it was stated some weeks since, had secured options on the DeWitt, Old King, Julia and Elkton mines in Peralta canyon, for Kansas City parties, returned to Bland Tuesday. We understand that they have abandoned the proposition.

Orin McGowan, who has been handling the express and telegraph business at this end of the string for some time past will go to Albuquerque and assist his father in the ticket brokerage business. The many friends of the young operator wish him all kinds of success.

F. H. Mitchell, proprietor of the Hotel Highland, came up from the metropolis on Tuesday last and continued on to the famous Sulphur Springs, where he will be the guest of W. E. Myers for a few days. He will enjoy a few baths in the healing waters in the hopes of heading off a threatened attack of rheumatism.

A. Sherrick, senior member of the Bland Supply Co's. store, and Bob Hennessy returned Tuesday from an outing at Sulphur Springs. We understand the latter part of their trip was not very pleasant owing to the breaking down of their wagon some five miles out. Another case good (?) roads.

Floyd Bland, who formerly conducted a business at Albemarle, but left a few months ago for old Mexico and his Illinois home, returned to the Cochiti district on Monday. His brother Frank, who was a sufferer from tuberculosis for a long time, succumbed to the inevitable last March. Henry Bland, also well known here, is located in Old Mexico.

Mert Wagoner, having given up all hope of ever getting any help from the county commissioners, has taken the bull by the horns and has turned all his men loose on the road between here and Woodberry with picks and shovels and hereafter it will be possible to ride over that part of the road without being strapped to the seat. Mr. Wagoner deserves a great deal of praise for his efforts in that direction.

We have a very interesting article by the Rev. G. S. Madden, describing the ruined Pueblos and cliff and cave dwellings west of Santa Fe, also giving some theories as to the origin and history of the many ruins to be found in that vicinity, which we regret very much being unable to print in this issue. The author has given this subject much and careful study and our readers will, we feel certain appreciate the article which we will be pleased to give them at an early date.

New Mexico Territorial Fair, Albuquerque, N. M., October 15 19, 1901.

For the above occasion the Santa Fe will sell excursion tickets from Thornton, N. M., to Albuquerque, N. M., and return for \$1.15 each. Tickets on sale October 14 to 18, inclusive. Final return limit, October 21, 1901. J. G. Street, Agent.

Drs. Wolvin & Carr, dentists. Tight fitting plates; crown and bridge work a specialty. Teeth filled by electricity, without pain. All work guaranteed or money refunded. Grant block, over Golden Rule, open evenings. Rooms 14, 15 and 16, Albuquerque, N. M.

Mr. C. H. Graves has been appointed to fill the vacancy in the telegraph and express office occasioned by the resignation of Mr. Orin McGowan. Mr. Graves will also have charge of the postoffice, which he will move to the building now occupied by the express and telegraph offices.

Lovers of beautiful scenery should not fail to visit Bland. We are certainly located in the midst of the most beautiful mountain scenery in the entire territory and we have two of the best hotels to be found in any mining camp in the territory and first class stage accommodations from all directions.

Hall & Learnard, the square music dealers of Albuquerque, can supply you with anything in the music line. Write for our special prices on mandolins, violins and guitars.

John Hogan has succeeded in stocking up the Oriental group at Organ, and it is confidently asserted that work on it will be inaugurated in a short time. There is still a small force at work on the Excelsior, which ships enough ore to pay expenses.—Daily Mining Record.

AN INDIAN KILLED AT GALLUP.
Marshal McCoy, in Self Defense, Shoots Two Indians. One of them Dead.

Gallup, Sept. 9.—Last night while attempting to arrest a drunken Indian who was playing with his revolver, Marshal McCoy killed the Indian and severely wounded his companion. The Indian had shot dead McCoy's horse. Marshal Winders tried to head off the Indian and his companion, but both took to their horses and fled. The Indian with the revolver turned back and commenced shooting at McCoy but the latter was the quicker and he shot both the Indians, the one with the revolver falling dead and the other one dropping from his horse badly wounded. McCoy gave himself up to the authorities.—Santa Fe New Mexican.

Lost—One large American mare 8 or 9 years old, dark bay, lump on nose and cup brand on left shoulder. A suitable reward will be paid for return of same to Pablo Borrego at Albemarle.

Found—Two stray horses—One bay horse 16 hands high, three stocking legs and one white foot, about 12 years old, weight about 1,100 pounds; no brands. Buckskin mare, weight about 850 pounds, roach mane, branded B on left hip, in good trim, shod all round. Owner can obtain same by paying for this notice and settling with Geo. Wood at Pena Blanca, N. M.

Here's Your Chance.
As we are closing out our extensive stock of furniture, crockery, glass and tinware, we will make it advantageous to all Cochitians to call on us during Fair week to select their wants. Prices the lowest. O. W. Strong and Sons, Albuquerque, N. M.

Now is the Accepted Time
There is a time for all good things—especially that which is eatable at this season of the year. By sending me your order one day I will be able to ship to you the following day anything you want in the line of, vegetables, fresh from the gardens. Packing and shipping of all goods are given my personal attention. Prices are low as the lowest. Can supply you with vegetables any day in the year. Mail orders solicited. Herman Blueber, Albuquerque.

New Mexico demands statehood of the Fifty-seventh Congress.

A Washington dispatch says that the militia appointment for New Mexico amounts to \$5,516.

Between the years 1760 and 1773, 100,000 pounds of silk were exported from Georgia to England.

The empire to which Victoria acceded as queen in 1837 covered one-sixth of the land of the world; that of King Edward covers nearly one-fourth.

The first stake of the St. Louis World's Fair of 1903, to celebrate the one hundredth anniversary of the Louisiana purchase, was driven Monday at Forest Park.

Owing to the attempted assassination of the president at Buffalo last week the Kansas City Weekly Star has issued to its subscribers a gratuitous edition containing the late details of the tragedy.

What is perhaps the largest contract ever made for Beaumont fuel oil has been closed between the Gulf, Colorado & Santa Fe railroad and the fuel company of that city. Under the contract the Santa Fe railroad agrees to take a minimum of 9,000,000 barrels during the next twelve months.

A professional burglar in Berlin found a new and original way of adding to the ordinary profits of his profession. After each burglary he sent a full account of it to one of the daily newspapers, and for this he received payment in the usual way. But he tried the plan once too often. The editor became suspicious and gave information to the police, who soon found how this amateur reporter was able to beat all rivals in the way of early information.

A Chicago jeweler says that when he began business and before he knew the value of newspaper advertising, he used handbills and other schemes. "Today" he tells Printer's Ink, "I would place these methods in the wasteful list." In reply to the question as to the most effective medium, he replied: "There can be but one answer and that is the newspaper. As much as anything else that is what a newspaper is for. It meets every requirement."

The officers and directors of the International Mining & Development company of this city, are congratulating themselves upon the unexpectedly rapid sale of the stock of their company, over 250,000 shares having already been sold, more than 200,000 shares of it to Grant county people. They take this as an indication of the confidence reposed in them by the people of their home county and are naturally much gratified.—Silver City Enterprise.

It may be stated for the benefit of those not informed as to the law on the subject that an act was passed by the legislature last winter making it unlawful to kill or trap wild turkey, grouse or partridges in New Mexico, except that such birds may be killed with a gun only during the months of October, November

and December, and quail may be killed only during the months of October, November, December and January. It shall also be unlawful during the next five years to kill in this territory elk, deer, antelope or mountain sheep, except upon private ground or property by the owner thereof or with his permission. This interferes with your fun somewhat boys, but it's the law.

One of our exchanges tells of a lady in its town who recently went into a dry goods establishment and made some purchases. When she had finished the clerk started to wrap them up in wrapping paper having an advertisement of the house on the outside printed in big letters. The lady very politely said to him: "Please turn the other side of the wrapper out. I do not think that I should be asked to become a traveling advertisement for this store, and I do not care to flaunt the fact in the face of your competitor, who is also my friend, that I do my trading at this place. We have a newspaper here, and I consider it the proper place to do your advertising."

When you come to think of it the request is a reasonable one. No person likes to advertise to the world that they do their trading at any particular store and they dislike to show to competing houses their preference.

NEW MEXICO'S GOOD SHOWING.

The national banks of New Mexico show a creditable progress for the three months ending July 17. The individual deposits increased from \$3,939,959 to \$4,178,113, the loans and discounts from \$2,758,000 to \$2,958,000, while the gold reserve grew from \$116,845 to \$130,615. And yet the Santa Fe gang of soreheads maintain, week after week, that New Mexico is going to the bow wows under Governor Qiero's administration. The soreheads ought to be treated as public enemies by being compelled to earn an honest living in the chain gang.—Las Vegas Record.

ANOTHER FRIEND.

Another contemptible foreign assassin is in this country trying to do away with the laws of a civilized people. The attempt made upon the life of our president at Buffalo last Friday was a heinous crime against our Nation as well as against one of the best and most worthy rulers the American people has ever had. Is there no way by which we may make it safe for our chosen leader to walk upon the streets or visit at public entertainments without wearing an armor plate suit or be guarded by a company of well drilled soldiers? It seems as though there ought to be. To be sure there have been only three of these disgraceful affairs during our 135 years' existence as a nation, yet this is just three too many for a civilized people to stand for. Booth, the assassin of Lincoln, some thirty-six years ago was the first dastard to get his name in print and gain the notoriety these inhuman fiends seem to relish; Guiteau, who fired the fatal bullet that blotted out the life of James A. Garfield was the second. Then comes the attempt of this tongue-twisting example of man's inhumanity to woman, Czolgosz; who, we surmise, is a Pole, and an Anarchist. How is it that such people are admitted into the United States? Are they not more heathen than the Chinese who is debarred from entering our ports? Did any one ever hear of a Chinaman attempting such atrocities in this country? Anarchists are like snakes in more ways than one—where there is one there are others. Even though this cowardly attempt may prove a failure, yet the intent was nevertheless fatal and the American people should see to it that he is made an example of and punished just the same as though his shot had been really fatal.

The only man on earth who ever lost a \$ in printers' ink is the printer.

El Paso is preparing for another great Mid-Winter Carnival to be given January 14, 15, 16, 17, and 18, 1902. This will be the second annual event and will be the greatest entertainment ever given in the Southwest.

The "Sunshine in January" that so delighted the thousands of visitors in El Paso last year will take thousands more there and the coming event is expected to surpass anything ever given in the southwest. You can get a glimpse of Mexico at El Paso, and this, with the Mexican bull fights, is something that other cities cannot afford. To see the ancient city of Juarez, Mexico, is worth the expense of the trip and since the railroads have promised a very low rate from everywhere thousands will attend. There will be a miners' convention, medical and teachers' conventions, the largest cattle exhibition ever given in Texas, besides the regular program.

El Paso is a famous hotel town and has become famous as an entertainer and at the coming Mid-Winter Carnival the Border Metropolis promises the most extravagant free show, festa and general jubilee ever seen between New Orleans and Los Angeles. The Carnival association is now preparing the program, which will be published soon.

The advertising car for the Albuquerque Fair came out this week and was brought up the yards, where it came in for much appreciative comment. The chiefest mission of the car is to attract attention, and by the beard of the prophet, it is bound to do that. The outside is covered with high placards, announcing that the coming fair will be the biggest yet, speaking of the statehood convention, of the midway, and the Indian dances, and mentioning the big prizes for the races, baseball tournament, exhibits and cowboy carnival. The inside has also been arranged for spectacular effect. Scott Knight and his merry men started on their journey Tuesday, going first to Santa Fe.

Most of our mining schools are on the eve of commencing a new year's work. All report a great access of new students, and the Colorado School of Mines at Golden is taxed to its utmost limits. The schools are doing a great deal of good in training men to more thoroughly carry on the work of mining. Year by year the problems to be solved by mining engineers become more and more difficult. The growing depth to which mining is carried, the greater complexity of ore, the lower grade of the ores all require a very high class of intelligence and great skill in

the newer generation of mining engineers. No longer can it be said that a mine of any account needs no management. No branch of the engineering profession calls for greater ability than that of mining engineering. Geology, mineralogy, surveying, chemistry, mechanics, mathematics and electricity are but a few of the sciences that play a part in mining. Besides these, the mining engineer must be a good judge of men, be tactful and resourceful to succeed in his profession.

It must be obvious that the mere fact of a student going through a mining school does not make him a mining engineer on his graduation. He must have in addition practical experience and confidence that comes from knowing the correctness of the principles upon which he works. Although it is true that the recent graduate may not be at once qualified to take charge of a large mine, yet a course of study in a school of mines gives him at once means of earning a livelihood whilst making himself more proficient in his profession. Thus the mining student can practice surveying and the metallurgist assaying.—Mining Reporter.

In constructing a flume around a bend the outer edge should be slightly raised just as in the case of a railroad track. By so doing the flume is able not only to carry more water, owing to reduced friction, but there is less liability of leakage.

List Your Properties.

The committee on listing of mines for the Cochiti Board of Trade and Mining Bureau, is prepared to catalogue the mines of the district. Those desiring their mines listed with the board of trade will send in a complete description of the property, giving—

- 1st Location and distance from Bland and name of claim.
- 2nd Width of vein at outcrop a length of outcrop, also strike, dip and character of quartz and country rock.
- 3rd Value of ore as indicated by assays. (Don't exaggerate.)
- 4th Amount and character of development work done, giving approximate amount of ore in sight and its value per ton.
- 5th Water and timber available.
- 6th Description of roads and trails to mine or vicinity.
- 7th Your price.

Members of the board of trade are entitled to have their mines listed without charge. Outsiders and non-members will be charged a nominal sum of \$1 which must accompany the description when sent in.

Address all communications to George C. Smith, chairman of listing committee, Bland, New Mexico.

Sold by Ike H. Graham.

FORFEITURE NOTICE.

To W. H. H. Plowman and Annie Plowman, their heirs and assigns: You are hereby notified that your co-owners have expended during the year 1900 \$100 in labor and improvements upon the "Rising Sun" mining claim, said lode mining claim is situated in the Cochiti mining district, County of Bernalillo, Territory of New Mexico, in order to hold said mining claim under the provisions of Section 2224 of the Revised Statutes of the United States and amended thereto approved January 22, 1880, concerning annual labor upon mining claims, being the amount required to hold said lode for the period ending on the 31st day of December, 1900, and if within ninety days from the last publication of this notice you fail or refuse to contribute your proportion of such expenditure as co-owner your interest in the said claim will become the property of the subscriber, your co-owner, who alone has paid your proportion of said expenditure by terms of said section and amendments thereto.

Dated at Bland, Bernalillo County, New Mexico, this 19th day of July, 1901.
