## HELPING THE SALE OF ROAD BONDS

County Board will Raise Deficiency if Sold below Par

## INTERESTING ROAD NEWS

The Valencia County Road Board at its recent meeting had under consideration the matter of the sale of its proportionate share of the State Highway Bonds. The law authorizing these bonds demands that they be sold for not less than par, and the sale has been slow as a result. The local board has decided to guarantee the difference, the amount to be raised by public subscription, so that the bonds may be sold at a trifle less than par, and the funds become available for use in road work. Valencia county's share of these bonds is \$25,000. The funds derived therefrom will be spent on the Camino Real within this county.

In view of the conflicting laws granting powers to the county commissioners and the county road board, the latter is arranging joint meeting with the former that all may come to an understanding or agreement, as to what powers will be allowed each in this county, and all may work in harmony.

The matter of employing a competent engineer or experience was taken up, and it is thought that this can be arranged jointly with Socorro county, thus dividing the expense between the two counties. As soon as this matter is settled, a complete system of county roads will be laid out under the supervision of the engineer and these will be graded.

Supervisors were named in some of the western districts to fill vacancies. E. C. Eckerman was appointed at Laguna and J. C. McCain at Sawyer. Work on bridges and several deep grades in that part of the county was also authorized.

The board decided to subscribe for a number of Good Road Magazines and secure other literature for the use of the supervisors.

Work has been handicapped by the frequent careless flooding of the roads and the inefficient laws to meet this difficulty. All efforts are being used to avoid repetitions of such carelessness.

Supervisor Becker of the Belen district has been doing some good work, especially north of town where he has been grading the roads.

Various stretches of the road between Los Chavez and Los Lunas which during a large portion of the season have been almost impassable, will be repaired as quickly as possible, a fund having been apportioned for the purpose.

The viewers, appointed to view the new road connecting Laguna and the new railway depot, reported. This road has a length of one and a half miles, and will be graded and opened for public travel.

A Good Service Meeting was held at the Reading Room of the Santa Fe last Friday night, S. J. Evans acting as chairman. Superintendent McMahon was present and addressed the boys of whom about twenty-five were present.

## MOONLIGHT PICNIC ON THE MESA

A party of young people went out about three miles on the Mesa Wednesday night on horseback, reporting a delightful time. A huge fire was built upon their arrival and coffee, sandwiches and cake were served. Mrs. N. R. Snowdon and Miss Bertha Rutz proved delightful chaperones and we'll call on them again. Those in the party were: Misses Louise Fiel, Elsie Becker, Enderstein, Frieda Becker, Bowen, Alderman, Lucy Becker and Metz; Mesdames Finley, Eaker and Snowdon; Messrs. Willie Kennebeck, K. Mandell, Block, Enderstein, W. Becker, F. Faulkner, Davidson, G. Harper, Hall, Vieltich, C. Harper, J. Becker, Jr., B. Jacobson and Ellermeyer.

## Our Flag

"The stripes of white stand for purity and innocence; the stripes of red, defiance to cruelty and tyranny; the blue of our flag is the emblem of perseverance, vigilance, and justice; each star stands for the glory of the state it represents."—Ex.

Fred Adams, who passed thro Belen Sunday night en route to Santa Rita, to visit relatives, returned on this morning's train, bringing Eryle and Erylene Baber with him. He will visit his sister, Mrs. Harvey Baber and family a few days.

## NEW LAW REGARDING WEIGHTS AND MEASURES

Sheriff is Public weighmaster. Fees for Inspection of Scales. Number of Pounds to bushel

A new law of very general interest which becomes operative June 17th is Senate Bill No. 186, and is entitled An Act Establishing Weights and Measures.

The law makes the sheriff ex-officio public weighmaster, and gives him power to appoint deputies, who may be regular deputy sheriffs or otherwise.

The bill is too lengthy to publish here in full, but some of the things it provides for are as follows:

All scales shall be tested and inspected by the weighmaster who shall keep records of such testing and inspection and deliver to the owner a certificate, such testing to be done not less than once each six months, the weighmaster or deputy to have a fee for his own use of from \$1.50 for track scales down to 25c for counter scales. A scale may be tested at any time upon petition of five citizens, but not oftener than every thirty days.

The law prescribes the number of pounds to the bushel of pretty much everything, the principal commodities being as follows:

Corn in the cob, 70  
Corn in the ear unhusked, 72  
Corn shelled, 56  
Wheat, 60  
Millet seed, 50  
Apples, 45  
Beans, 60  
Peas, 60  
Potatoes, 60  
Oats, 32

The weight per gallon of liquids is prescribed, and the selling of less weight per gallon penalized.

Misrepresentation of the weight or quantity of any commodity offered for sale is penalized.

The butter section is as follows. A print or package of butter shall contain sixteen ounces avoirdupois, and when a print or package containing less than sixteen ounces avoirdupois shall be sold, its net weight shall be disclosed by the seller to the buyer, by such package being labeled with a statement of the net weight.

There are similar provisions for most other commodities, and the penalty for violation of these sections is a fine of not less than \$10 nor more than \$100, or by imprisonment not less than thirty nor more than ninety days.

Hay and straw in bales must be sold by weight and not by package, and severe penalties are prescribed for failure to plainly and conspicuously mark the net contents of any package, sack, box or barrel.

Section 12 reads in part as follows:

The council of every incorporated city, town or village shall prescribe rules for the weighing of commodities upon any scales operated therein by any person, firm or corporation for the use of the public, and shall regulate the charges therefor, and shall designate the place or places where hay and wood may be exposed for sale by persons having no fixed place of business in such city, town or village.

The council of any city, town

or village shall have power to regulate the sale of bread and prescribe the weight and quality of the loaf.

All owners of scales used for weighing which have not been tested are required to notify the weighmaster.

All the penalties prescribed in the law are severe, and may be fine and imprisonment.

The penalty for impeding obstructing, hindering or interfering with a public weighmaster in the discharge of his duties runs to \$500 fine and ninety days imprisonment.

## In Mexico

BY F. M. CHACON

We met, for me 'twas love at sight.

She was divine; prayed her then my soul delight Asked her to make my future bright,

To be but mine!

Said she: "No quiero."

I love you more than tongue can tell,

Princess Sublime;

Without thee life, I know it well,

Is but a winter's barren dell,

Say you'll be mine!

Said she: "No sabe."

Unbounded wealth at your command,

Rich, superfluous,

All at your feet, belle of this land

You'll find anon as you demand,

If you'll be mine,

Cried she: "Ay Dios."

Diamonds, gold, all to surprise—

A treasure's thine,

I'll give you love, a paradise,

A home that queens may long for twice,

Say you'll be mine.

"All right, me quiere."

## Surprise Party

On Monday evening about eight o'clock the Ladies Aid of the Christian Church met at the Davidson home and went in a body to surprise their president, Mrs. H. A. Morgan, who leaves soon for Albuquerque. After enjoying games, music and refreshments provided by the Aid, a fond farewell was given their much loved president.

## Visiting Relatives

Mr. and Mrs. J. R. McMichaels arrived in Belen on this morning's train from Kansas and Oklahoma, where Mr. Mc has been recuperating from injuries received while working with the wrecking crew at Socorro several months since. They expect to leave tonight for Phoenix, Arizona, where they will spend a couple of months visiting relatives. Their many friends here will be glad to know that Mr. Mc has improved greatly from his serious injuries, and will join in wishing him a complete recovery.

## WHAT ONE HOME CANNER DID

Let me tell what one woman with a family and a very small bit of ground did. One daughter belonged to the Girls' Canning Club and had her one-tenth of an acre. In addition to this there was about one-half acre for the garden, or less. The mother and daughter together did all the cultivation, managing, etc. From this bit of ground they furnished a family of eight with vegetables all summer, sold \$7 worth of tomato plants to neighbors, and \$15 worth of fresh vegetables, besides putting up 1100 cans, jars, etc., for market and winter use. Two hundred glass jars were saved for home use, 900 were sold at an average of ten cents a can. Thus they realized \$112 from this little place, besides furnishing the family all the year round with vegetables.—Miss Ella G. Agnew, in The N. C. Progressive Farmer.

Consolidated Liquor Co.

vs. No. 8889

Mrs. O. L. de Luna

Defendant.

Under and by virtue of an execution issued out of the District Court of the Second Judicial District of the State of New Mexico,

within and for the county of Bernalillo, directed to me the undersigned Sheriff of Valencia County, which said execution was issued upon a judgment in a certain cause lately pending in said District Court, wherein the Consolidated Liquor Co. was the plaintiff and Mrs. O. L. de Luna, was defendant, and which cause is numbered on the docket of said district court as No. 8889, I have levied upon the following described property of the defendant,

to-wit: A certain tract of land situated in Los Lunas, county of Valencia, and state of New Mexico, bounded on the north by the public road; on the east by the public road and the house of B. Romero; on the south by the land of Paulita de Jaramillo or B. Romero; on the west by land of E. Otero; containing about one acre more or less.

Also a certain tract of land situated in Los Lunas, county of Valencia, and state of New Mexico, located on the west side of the tracts of the A. T. & S. The amount of said judgment and the costs of suit, is the sum of \$540.85, with interest from the 6th day of August, 1910 at the rate of six per cent. per annum, and the costs of collection and

## JONES FOR ASSISTANT SECRETARY

Western Men are Named for Important Federal Positions

## NOMINATIONS TO SENATE

On Tuesday of this week President Wilson sent to the Senate for confirmation the names of Andrieus A. Jones, of Las Vegas, to be First Assistant Secretary of the Interior, Clay Tallman of Nevada to be Commissioner of the General Land Office, and Charles M. Bruce of Arizona to be Assistant Commissioner of the General Land Office.

The choice of western men for these positions is in line with the President's views of the fitness of things. The greater portion of the work of these departments of the government concerns the west and western lands, and men well acquainted with conditions as they are, should be placed in charge.

Mr. Jones has been a citizen of New Mexico for a number of years and has large land interests in the state. He has been a Democrat and a Booster during all of the years, and the nomination comes as a fitting reward for service well rendered.

## McMichael is Improving

Fred Adams, a machinist of Vaughn passed through Belen Sunday night on his way to Santa Rita to visit brothers. He spent the time between trains here visiting his sister, Mrs. Harvey Baber. Little Miss Erylene and Master Eryle Baber accompanied him on his trip. On his return he will make a more extended visit here.

## New Fountain

Buckland Bros. have just installed a strictly sanitary and up-to-date Soda Fountain at the Drug Store, making their establishment the rival of many city fountains. Their trade in this line has been growing and no doubt will continue to do so with the new service and strictly pure creams.

## Miss Bernice Lenorn Ormsby

Miss Bernice Elnore Ormsby arrived in Belen Monday, May 26th to make her home with Mr. and Mrs. Walter Ormsby. That she is some young lady is proven by the fact that she tips the scales at 12 pounds. Anyone thinking she is not "the real thing" should ask "papa" Walt about it. Mother and child are doing nicely at last reports.

## Tax Notice

The last half of 1912 taxes will become delinquent June 1st. A penalty of one per cent. will then be added.

What's the matter with a  
"Clean-up Day" for Belen?  
Various other towns and cities in  
the state have had such a day  
with beneficial results. While  
several of our people have recent-  
ly cleaned up their premises, giv-  
ing them a spick and span ap-  
pearance, there are others who  
have taken no interest whatever  
and rubbish of all kinds contin-  
ues an eye sore on their prem-  
ises. They do not seem to realize  
that this trash is the best breed-  
ing place for flies and that flies  
are the harbinger of typhoid as  
well as other diseases. Surely  
each one ought to take sufficient  
interest in his own premises to  
protect himself and his family,  
even if he doesn't care for the  
looks of the things. This is an  
instance where "an ounce of pre-  
vention is worth several pounds  
of cure."

## The Country Editor

The country editor has to  
make much of the news he writes.  
The commercial club, the church,  
the baseball team, the law and  
order league, the college, the  
county central committee, the  
whist club and the good roads  
movement all must feel the influ-  
ence of his guiding hand. He  
must be in everything and run  
errands for everyone, send out  
the circulars, do the town lying  
for harmony's sake and hold the  
sake. He must be guide, philoso-  
pher and friend to those in trouble  
and be mentor and admonished  
to those who are about to get into  
trouble. The preacher, the town  
drunkard, the statesman, the  
social climber, the real estate  
boomer, the man from the grand  
lodge who is about to exemplify  
the new work, the promoter, the  
broken soldier kindly bade to stay  
the captain of industry and the  
girl with the fatherless baby all  
come to him to help them in  
their troubles. He is the town  
boomer and the town goat,  
doormat, rock of refuge, errand  
boy and the vicarious sacrifice.  
The editor is the only creature in  
all the wild animal kingdom that  
needs the wings of a dove, the  
strength of a lion, the protective  
odor of the skunk, the smooth,  
crawling belly of the worm of  
the dust and the aspiration of  
God.--Walter Mason.

## The Civic Alphabet

"The America Club Woman"

every citizen;

from your city.

sade.

will kill you.

Home, Sweet Home."

forget that.  
Z—Zeal, courage and patience  
will "clean up" the city.

Clean up your premises and  
"swat the fly" before he comes in  
better than doing it later on.

## Boost!

If you like the old town best,  
Tell'em so!  
If you'd have her lead the rest,  
Help her grow!  
When there's anything to do  
Let the fellows count on you;  
You'll feel bully when it's through  
Don't you know.  
If you want to make a hit  
Get a name!  
If the other fellow's it,  
Who's to blame?  
Spend your money in the town,  
Where you pull the sheekles down  
Give the mail concern a frown—  
That's the game!  
If you're used to giving knocks,  
Change your style!  
Throw bouquets instead of rocks  
For awhile.  
Let the other fellow roast;  
Shun him as you would a ghost;  
Meet his hammer with a boast  
And a smile.  
When a stranger from afar  
Comes along,  
Tell him who and what we are—  
Make it strong,  
Needn't flatter, never bluff;  
Tell the truth, for that's enough.  
Join the boosters, they're the stuff  
We belong.  
—C. H. Bogardus.

## Sermon for a Quitter

By the time these lines are  
read, a New York audience will  
have listened to a lecture by  
Helen Keller.

Miss Keller is a splendidly ac-  
complished young woman, well  
versed in arts and sciences, im-  
bued with the highest culture of  
the greatest schools and universi-  
ties—learned, able, brilliant—  
fluent alike with tongue and pen.  
Of course, in a period of gener-  
al education, this tribute could be  
easily applied to thousands of  
women, except for the slight fact  
that Helen Keller was stricken  
deaf, dumb and blind in infancy.  
Which being the case, you great  
hulking, fullnerved, five-sensed,  
healthy male of a man, sit down  
and figure out some excuse for  
your inability to make good.

You're nailed fast. You alone  
are to blame for your present  
situation or lack of one.

Now, even you will grant that  
you never have truly tried. Oh,  
you may have spurted every now  
and then, but you deluded your-  
self, when you thought you'd put  
all your heart and soul into the  
effort. At last here's proof that  
you are just a plain quitter.

If a one-legged man got the  
best of you in a hundred-yard  
dash you wouldn't have the nerve  
to say that you ran a good race.

Here's a woman who began  
without sight, hearing or speech  
and she has made more of and  
for herself with the two senses  
of touch and smell than you have  
achieved with all the endow-  
ments that God gave Alexander  
the Great, Archimedes, Plato,  
Julius Caesar, Sir Isaac Newton,  
Michael Angelo, Napoleon Bona-  
parte, Robert Fulton, Abraham  
Lincoln and Thomas Edison.

With the left hand of Fame  
resting upon their tablets and  
her right hand poised above the  
head of Helen Keller, take  
another look at yourself—drop  
that bushel basket in which you  
have been trying to measure  
yourself and curl up in your  
wife's thimble.—Yeoman Shield.

## Why Belen has Grown

The reason why Belen has grown is because there  
are men of push and energy in it, who are not afraid to spend  
their time and money in boosting the town. They have erected  
substantial buildings, organized stock companies, encour-  
aged railroads, worked for public improvements, and used all  
legitimate means to induce people to locate in their city.  
Wherever they go they tell of the advantages of their city,  
they write about them in every letter; they send circulars and  
newspapers to all whom they think they can get to visit the  
town, and, when anyone visits them, they treat him so kindly  
that he falls in love with them and their town at once.

It is this enterprise, in addition to the natural ad-  
vantages and location, and all pulling together, that make a  
progressive town. If you are a "live wire" Belen offers you the  
glad hand. Come and investigate conditions for yourself.  
Come and meet our people, breath our pure air, and enjoy our  
life-giving sunshine, and you, too, will become a booster for  
Belen and the Rio Grande Valley.

## FIRST MEMORIAL DAY ORDER.

Headquarters Grand Army of the  
Republic, Washington, D. C.,  
May 5, 1868.

General Orders No. 11.

I. The 30th day of May, 1868,  
is designated for the purpose of  
strewn with flowers or other-  
wise decorating the graves of  
comrades who died in defense of  
their country during the late  
rebellion, and whose bodies now  
lie in almost every city, village  
and hamlet churchyard in the  
land. In this observance no form  
or ceremony is prescribed, but  
posts and comrades will in their  
own way arrange such fitting  
services and testimonials of re-  
spect as circumstances may per-  
mit.

We are organized, Comrades,  
as our Regulations tell us, for the  
purpose, among other things, "of  
preserving and strengthening the  
kind and fraternal feelings which  
have bound together the soldiers,  
sailors and marines who united  
to suppress the late rebellion.  
What can aid more to secure this  
result than by cherishing tenderly  
the memory of our heroic dead,  
who made their breasts a bar-  
ricade between our country and  
its foes! Their soldier lives were  
the reveille of freedom to a race  
in chains and their deaths a tattoo  
of rebellious tyranny in arms.  
We should guard their graves  
with sacred vigilance. All that  
the consecrated wealth and taste  
of the nation can add to their  
adornment and security is but a  
fitting tribute to the memory of  
her slain defenders. Let no wan-  
ton foot tread rudely on such  
hallowed ground. Let pleasant  
paths invite the coming and go-  
ing of reverent visitors and fond  
mourners. Let no vandalism of  
avarice or neglect no ravage of  
time, testify to the present or to  
the coming generations that we  
have forgotten as a people the  
cost of a free and undivided Re-  
public.

If other eyes grow dull and  
other hands slack, and other  
hearts cold in the solemn trust,  
ours shall keep it well as long  
as the light and warmth of light  
remains to us. Let us then, at  
the time appointed, gather around  
their sacred remains and garland  
the passionless mounds above  
them with the choicest flowers of  
Springtime; let us raise above  
them the dear old flag they saved  
from dishonor; let us in this  
solemn presence renew our pled-  
ges to aid and assist those whom  
they have left among us a sacred  
charge upon the Nation's grati-  
tude—the soldier's and sailor's  
widow and orphan.

II. It is the purpose of the Com-  
mander-in-Chief to inaugurate  
this observance with the hope  
that it will be kept up from year  
to year, while a survivor of the  
war remains to honor the memory  
of his departed comrades. He  
earnestly desires the public press  
to call attention to this order,  
and lend its friendly aid in  
bringing it to the notice of  
comrades in all parts of the coun-  
try in time for simultaneous com-  
pliance therewith.

III. Department Commanders  
will use every effort to make  
this order effective.

By command of

John A. Logan,

Commander-in-Chief.

N. P. Chipman, Adjutant General

## A COLUMN FOR THE KITCHEN

The necessary utensils, jars, etc., as well as a sufficient quantity of sugar, should be on hand and ready before canning time comes. Jars ought always to be washed and put away as soon as emptied, but if they haven't been, they should be gathered up and thoroughly cleansed so that they will only require sterilizing, by boiling, before using. Store everything required in a convenient place and have on hand a good brand of new black rubber rings. It never pays to use old rubbers. Some of the other necessary and useful utensils are two large earthen or agate bowls for measuring fruit and sugar, a wide mouth funnel for filling the jars, one or two large agate, porcelain or aluminum preserving kettles, a large agate colander and a wash boiler with a rack in the bottom to place the jars on. This rack may be made by sawing four or five laths a little shorter than the length of the boiler, then nailing two short pieces across to hold them together. This will allow the water to circulate under the jars.

The secret of canning and preserving is perfect sterilization. While preparing the fruit, place the jars in the wash boiler with enough water to cover them and let them boil thoroughly. The tops and rubbers must be boiled also. The kitchen should be clean and all the utensils boiled before using. If it is ever necessary to put a glass or glass jar in hot water, turn sideways and put it in so that the water goes into the glass and on the outside at the same time and it will not break.

There are different ways of canning. Some fruits are stewed and poured boiling into the jars, then sealed, cooled and put away; others are packed uncooked into the jars which are filled with boiling syrup, placed either in the wash boiler or oven and when cooked the jars are filled up again with boiling syrup, sealed and allowed to cool, then put away in a dark cool place. The jars must be cooled away from a draft, as if chilled suddenly they are liable to crack.

A double roaster with the roast rack left in and a little hot water in the bottom is very good for holding the jars when the fruit is cooked in the oven.

Different fruits require different lengths of time for cooking must be determined from the acidity of the fruit. For making a syrup for sweet fruits, such as berries, pears, peaches, etc., a good rule is 1 cup sugar to 2 cups water. —Ex.

### Canning Strawberries

Fill the jars with nice firm berries—the softer ones may be used for jams—then pour over them enough syrup, one part sugar to two parts water, to fill the jars. Place in a roaster or some pan having rack in the bottom and a little water; put in the oven and cook from 10 to 15 minutes. Remove from the oven, fill up again with boiling syrup, seal and cool in a place free from draft.

If preferred, the jars may be loosely covered and placed in the boiler on a rack, with enough hot water to half cover them, and allowed to stay there 10 minutes after the water boils. Then fill and seal as before.

### Strawberry Jam

Use equal quantities of berries and sugar. Arrange in a preserving kettle in alternate layers. Heat very slowly to the boiling point; skim carefully and boil 10 minutes after it comes to the boiling point. Pour into jelly glasses and place in the sun, covered with glass but unsealed. The sun thickens the syrup, makes the berries plump and adds to the appearance of the jam. After two or three days the glasses may be sealed and put away.

### To Wash Berries

Drop a few at a time into a deep bowl filled with cold water. Move the berries about with the fingers and the sand or dirt will settle to the bottom of the bowl. Then the berries may be dipped out and drained. Pouring water over a colander full of berries will not wash them well.
