Subject: Comments on Draft Report

The "Colorado River Basin Study" is a valuable reference. In reviewing this document, we have noted a small error in the last paragraph on page 112. It is indicated here that \$200 million will be divided among four programs, which is incorrect. This amount is the EQIP funding. The "other" programs will be funded in addition to the \$200 million. It should also be noted that there are additional funds available through the Bureau of Reclamation for projects.
