What is the BioMISS?

The Biomedical Informatics Seminar Series (BioMISS) is a lecture series that provides the UNM and Health Sciences community with a forum for discussion on salient topics in biomedical informatics and fosters collaboration among those interested in the field. Each season, the BioMISS features an array of distinguished speakers to spark your interest in biomedical informatics. Each session also consists of a short presentation and lively discussion. Everyone is welcome to attend!

Biomedical Informatics Seminar Series

Season 18

2022 Virtual Schedule

2022 Schedule - Biomedical Informatics Seminar Series (BioMISS)

February

02/03/2022

Presenter: Kristopher Jackson, PhD,
MSN, AGACNP-BC

Title: *Web Scraping: Implications for
Contemporary Health-Sciences
Research*

March

03/17/2022

Presenter: Nancy Hood, PhD, MPH

Title: *The Chicken & the Egg:
Developing an Impact Plan in Parallel
with a Data Platform for Project ECHO*

April

04/21/2022

Presenter: John G. Williams, M.D.

Title: *EHR Optimization: Clinical
Decision Alert Refinement*

May

05/19/2022

Presenter: Chris Shaffer, MS, AHIP

Title: *Mobilizing Computable
Biomedical Knowledge (MCBK)
Technical Infrastructure*

September

09/15/2022

Presenter: Deborah L. Lauseng,
AMLS

Title: *Roles, Collaborations, and
Activities in Health Informatics
Education - a discussion of scoping
review findings and your own
involvement*

October

10/06/2022

Presenter: Gabe Peters, BA

Title: *Inclusive Dermatology: Creating
a Diverse Visual Atlas of Skin
Conditions*

October

10/20/2022

Presenter: Emily McRae, BA, and
Cynthia Jacobs, BS

Title: *The New Mexico Community
Data Collaborative*

November

11/10/2022

Presenter: Kristopher Jackson, PhD,
MSN, AGACNP-BC

Title: *Web Scraping: Implications for
Contemporary Health-Sciences
Research*
