SEVENTEENTH YEAR

CARLSBAD NEW MEXICO, FRIDAY DEC., 18, 1908

NUMBER 5

EASTERN PART OF EDDY COUNTY

Enough Area to Form a New State—J. L. Emerson Interviewed on the Subject.

PROGRESS AND IMPROVEMENT

Rapid and Valuable—The Soil and Lay of Land the Best—Seven Post Offices in the District to Form New County.

J. L. Emerson, who has for the past several months been interested in business in the eastern side of the county came in last week accompanied by Mr. B. R. Cox, of the firm of Norrell & Cox, formerly of Sherwood, Texas, who are busily engaged in erecting a telephone line from Carlsbad to Monument and Knowles. The gentlemen composing the firm that will own the telephone line are well known as reliable business men of Sherwood, Irion County, Texas where they conducted a general mercantile and banking business for years. Immediately on arrival here last week they purchased and sent out a sufficient poles and material to build twenty miles of the line while the balance of the material that has been ordered is enroute and the line will be pushed to completion as fast as men and money can build it. Mr. Emerson on being interviewed on the progress of the country in eastern Eddy county said: "The people of Carlsbad have but a slight conception of the rapid progress of that portion of Eddy county. The settlers are simply pouring into the eastern portion of Eddy and Chaves counties rivaling the settlement of Roosevelt county. 'In the course of two years every 160 acre tract will have its occupant.' 'The reason for this is that people from all over the United States are looking for homes and that portion of the country offers a man a free home with some of the best land in the world and excellent water at a depth of only forty to eighty feet.' 'The crops raised out there are wonderful considering the fact that at present farming is all done without irrigation growing very successfully all kinds of Indian corn, Kafir corn, Milo maize, all sorts of forage crops, sweet potatoes, Irish potatoes, peanuts, pumpkins, kershaws, and nearly every vegetable you ever saw grow.' 'The watermelons are large and sweet some of them weighing as high as seventy-five pounds. The people who are settling this county are whole souled and progressive and come from every state in the Union.' 'Some idea of the country can be arrived at from the fact that two years ago there were only two post offices in that part of the country, while at present there are seven and two others applied for.' 'Monument, Knowles and Lovington are all live towns and are building up rapidly.' 'The people are a unit in their judgement that the time has come for a new county with the division line running north and south taking in

about thirty miles east and west and north into Chaves county to a point about twenty miles north of the Chaves-Eddy line. The next legislature will be asked to make this division and will be presented with a petition signed by all the people of Monument, Knowles, Dayton, Lakewood, Carlsbad and possibly Hope and Artesia, for the justice of such a request is apparent when it is realized that these people are eighty-five miles from the county seat and have no transportation facilities, besides this the Pecos Valley is well connected with the county seat by telephone and railway and no other new counties are needed in the valley'.

Choked to Death

is commonly said of babies who have died of the croup. How unnecessary this is. No child ever had the croup without having a cold or cough at the start. If you will stop the first symptom of the cough with Ballard's Horehound Syrup there is no danger whatever of croup. Sold by Eddy Drug Co.

Loving Items.

Carpenters began work Monday on the addition to the school building in earnest. When finished Loving will have one of the best buildings in the county.

Mr. Schnell is putting down a well on his farm.

Rev. F. C. Carpenter filled his regular appointment at Loving Sunday. Bro. Carpenter is fighting the whiskey question at Malaga and we hope he will win out. All professed Christians should rally to his support. Let not the fair names of our little towns be blackened with the curse of liquor.

Rev. Carpenter and wife went to Carlsbad Monday.

Mrs. J. M. Blalock went to Roswell Monday to spend her vacation. Many of the pupils and patrons were at the train to see her off. Mrs. Blalock is giving a fine school and the people appreciate her efforts.

The school children enjoyed a fine dinner and plenty of lemonade, candy, nuts and apples Friday, given by the teacher and several of the older pupils. It will be a pleasant memory in the hearts of the little folks.

SCHOOL ENTERTAINMENT.

The entertainment given Friday, Dec. 11, in which every member of the Loving school took part, was one of the best ever given in Loving and was witnessed by a crowded house.

The pupils from primary to advanced classes showed study and careful training.

The first on program was "Greeting" by Lred Nymeyer was well delivered and interested the large audience.

Why Papa Doesn't Go, by little Otto Reid, was heartily received and enjoyed.

"Guess", by little Dudley Welch, who always pleases his hearers. Dudley is a bright boy and a natural speaker.

Dialogue, "Lost Child", by little Misses Fletcher and Donaldson was nicely rendered.

"The Know Nothing" by Herbert Welch, Forest and Cleo Blalock afforded much amusement and the boys were at home on the stage.

Playing School, by Jesse Don-

aldson, Annie Mae Donaldson and Lucas Fletcher, brought down the house and won many compliments.

Vocal duett, "In the Gloaming", by Misses Smith and Ball, was a pleasing number. The young ladies have good voices.

The violin solo, by Hubert Keith proved Mr. Keith at home with the violin.

"Im afraid to come Home in Dark", sang by Dell Honberger and Jim Donaldson was well received.

Father's Prayer, by Miss Zelda Nymeyer was well delivered and showed the young lady to possess many characteristics of a good elocutionist.

"When I'm a Man", by Cleo Blalock, Enea Grande, Fred Nymeyer, Clarence Reid, Lucas Fletcher, Joe Calderon, Otto Reid, Sam Calderon, Tony Vincentz, B. A. Nymeyer, Philip Calderon and Dudley Welch, closed with a song, kept the audience laughing from start to finish, each one did his part well.

"My friends" by Anne Mae Donaldson, Eliza Grande, Emilie Calvani, Grace Welch Frances and Mary Vingentz, was a delightful number and showed the little girls' ability to speak and sing and the parents were certainly proud of the little folks.

Several songs by the school were well rendered.

The climax was almost reached when Eugene Blalock led the song "I went to Animal Fair". The song was new, unique and catchy and was sang by nearly all the school before it concluded, each acting his part to perfection and adding new interest as he came forward. The aud-

Earl Donaldson as Jeremiah Huff proved a good debater, if he did get mixed on bible terms.

Pearl Smith as Jemima Hull proved to be equal to any occasion, if she did have a bad cold, tooth-ache etc.

While Fannie Ball as Josephine Hodges was the poet of the evening, Jessie Donaldson as Josie Jones did her best to help keep things running smooth and played her part with the dignity of one much older.

To say it was a success is putting it mildly. Too much credit cannot be given the young actors.

The closing number was a Pantomime by Charlie Tucker as the old man Jones, Miss Konkie as Mrs. Jones, Mrs. Honberger

BOOKS : DRUGS : JEWELRY

ience went wild when Miss Pearl Smith concluded the song.

The play entitled, "Jintown Lyceum", was a difficult play but each performer acted his part so well it would be difficult to say who was best—each character was so well fitted for his part.

Eugene Blalock made a dignified president "and that's so too.

Nettie Nymeyer as Ellen Craig and Nellie Smith as Amanda Cobb kept the audience in a laughing mood. Joe McShane as Barney O'Donnel could not have been improved. Joe was all right if he did get his head cracked.

as best the daughter, Mr. Honberger as the beau of Bess, Walter Smith the minister, Nettie Nymeyer the cake bearer. This was given in four acts. Too much praise cannot be given each actor. It was simply perfect and Mr. Honberger, the leading performer, made a persistent lover and finally won the daughter. The play was read by Miss Pearl Smith in a clear well modulated voice, the electric lights were manipulated by Eugene Donaldson who proved to be the right man in the right place.

There was not a dull moment from start to finish and the universal verdict was to the effect it was far above the average

Roswell Rumbles.

From Wednesday's Record.

The hearing of Kenneth Keebler is set to come up before U. S. Commissioner A. J. Nisbet, today the question to be settled being as to whether defendant be taken back to Chihuahua, Mexico, for trial on the charge of giving worthless paper. W. T. Young Jr., of Chihuahua, head of the firm to which the paper is alleged to have been given, is here for the hearing.

W. H. Rhodes passed through this morning on his way from Carlsbad north. He has bought up all the decorative pins in Roswell and Carlsbad in an effort to get a corner on the decorative pin market of the Pecos Valley. He brought a large consignment of these articles from Carlsbad this morning.

Oscar Harbert, who was being held pending an appeal of his case to the Supreme Court, was released on a bond of \$2,000 this morning, the signers being Ed. S. Seay and J. A. Manning, of this city, and the defendant's uncle, C. C. Harbert, a wealthy sheep owner of Eddy county.

Mrs. E. T. Carter and daughter if Carlsbad who have been at St. Louis since the first of September for the daughter's health, passed through last night on their way home they were met here by Mr. Carter who spent yesterday in Roswell.

L. W. Bartholomew, who has been located at Carlsbad with the U. S. Reclamation Service, arrived from the south this morning and proposes to make headquarters here.

Ed Tyson came down from Elida last night accompanied by his daughter, who will visit in Roswell a few days.

Edward Kennedy, president of the Altus, Roswell & El Paso railroad, and his party of promoters, arrived in Roswell as announced on last night's train from the north and met with a committee of the Commercial Club at the Club rooms today, making report on the work that has been done and satisfying even the most skeptical that the new road is to be built. The other members of the party are Col. E. K. Stinson, consulting engineer; E. J. Pasiek, auditor of the new road, who is here to pay up what bills have been contracted, and Will Kennedy, son of the president. All are quartered at the Gillespie.

The railroad party will be here while contracts for grading are let and the actual work is underway. A party of surveyors, headed by Arch Graug, transit man, and Ewing Lusk, level man will start out tomorrow morning to cross-section the grade for the contractors, and the grading will begin on Monday. The engineering party will employ about five assistants.

At the meeting this morning the club's right-of-way committee and the other members present were shown a contract the railroad company has made with the Chase Construction Co., of St. Louis, for the construction of the road from Altus to Roswell. The construction company takes the completed grade and lays the track and puts it in readiness for trains. Mr. Kennedy will make contracts for the grading in smaller pieces. Another contract was shown by which the Altus-Roswell road has the use of the Frisco's terminals and yards at Altus. At the meeting it was shown that Roswell had

carried out all promises, it had made last June.

The promoters reported that the road bed had been completed from Altus to Hollis, Oklahoma, a distance of 34 miles and that 12 miles was completed east of Lubbock, where 52 teams are at work. No steel has been laid.

Mr. Kennedy has made contract with Bown & Logan, of Fort Worth, for grading twenty miles in New Mexico and they are to put at least 25 teams to work between the first and fifteenth of January. Frank Kirk, of this city, has arranged to do ten miles of grading and is to begin Monday next. Childress, Tex., has raised a bonus of \$80,000 in money and land.

The work Monday is to start in a lane in section 3, east of town. The party of promoters will probably be here until the last of the month.

Doings under Carlsbad Project.

C. W. Beeman of Malaga spent Tuesday and Wednesday in Carlsbad on water users' business. He has since been confined to the house ill.

Samuel Hughes of Loving was up Tuesday to the meeting of the Water Users' Association.

R. Wells Benson was in town Tuesday attending the monthly meeting of the water users.

Preparations for Christmas trees are in progress for Otis, Loving and Malaga. The Christmas tree will be in Otis on the night of the 24th, and also the same night at Malaga, while it will be on the 25th at Loving.

D. Barclay Sutherland, the Secretary of the Farmers Institute Society, has received notice from the Experimental Station at the Agricultural College that Dean Luther Foster, and Prof. J. D. Tinsley will be here on the 9th and 11th of January to conduct Farmers Institute. The executive committee of the Institute Society met a few days ago, and planned for a big Institute in February when it was expected that Prof. Tinsley would be here. They are pleased to learn that the Institute can be held earlier. As soon as the complete program is prepared due notice will be given. The committee will have papers read on matters of extreme importance to the farmers of the community, and there will also be an opportunity for general discussion after the papers have been read.

Construction is well under way on the addition to the school house at Loving. The old house will also have a thorough overhauling, and the contractor has agreed to have the old part finished by Jan. 4th when school opens after the holidays. The new addition will be completed sometime in January, and will be ready to take into use before the 1st of February. This addition is very much needed, as the school is crowded beyond reason. Another teacher will be engaged as soon as the new room is ready.

Mr. Schnelle has begun improvements on his farm near Loving. A well drill is on his place a host of men are grubbing, and teams are turning the ground over as rapidly as it is cleared. Mr. Schnelle will also build a residence and as soon as completed he will make his home there. At present he is living in the old Dishman place at Loving.

Mr. Cunningham is having the land east of Galton's grubbed, preparatory to getting it into shape for crop this spring.

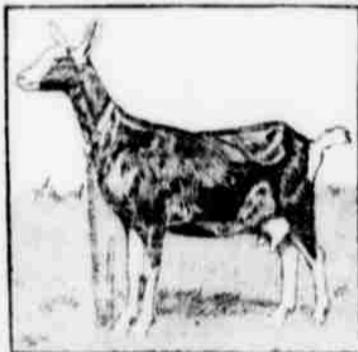

The Carlsbad Project has made good again and won some more prizes against the keenest competition. F. E. Bryant of the Bolles Farm entered this season again a car load of lambs and some individuals at the International Stock Show in Chicago, which opened the last of November, and won first prize for the best car load of western lambs and second prize in the individual exhibit. This International Stock Show is a big thing. Men spend year after year in preparing stuff to exhibit at this show. The ablest men in the United States and Europe are selected as judges of the various kinds of stock that is exhibited. Therefore, when the Pecos Valley lambs came away with the first and second prizes in their class, it means that the exhibits are good. Much of the stuff in competition with the lambs exhibited from here had been in the feed lots of well known sheep men near Chicago for many months. They had been pampered and dressed and cared for in the best way that old experienced men alone knew. The Carlsbad lambs on the other hand, were fed here and shipped to Chicago, a distance of 1300 or 1400 miles for exhibition, and in spite of the long journey they won out.

THE HARDY GOATS.

Good Profit in Raising Them, Say Breeders of These Animals.

Goat raising has been taken up by comparatively few breeders in this country, although those engaged in the industry say there is big profit and little work in handling them. Pure bred individuals should be secured at the start for breeding purposes. The goats which are most popular and which command the highest price today are the Swiss breeds—that is to say, the Toggenburg and Alpine varieties.

The milk of these animals brings high prices in the cities, and goats bred from a milking strain and properly housed and fed will give, as a rule, after their third kidding, between three and four quarts per day. The winner of last year's cup at the English dairy show gave nearly eight quarts in four milkings. In choosing

ONE OF THE POPULAR SWISS BREEDS.

a goat it is well to follow the lines of the Toggenburg shown in the illustration. The prospective goat keeper should look for the following points: A long body well sprung deep ribs, big stomach, a large, supple leg, a long, racy neck, small, breezy head and a short, close coat. If a goat is obtained with the combination of all these qualities one will not go far wrong.

Little Things Count.

An improvement company subdivided a farm, and in place of cutting down a large tree in the sidewalk they went to some expense to lay a stone walk around both sides of it. As no one purchased the lot by the tree in time, it died from lack of moisture. Some one removed it for wood, and a family near by planted flowers in the circle. Then the family left the neighborhood, and attending to the space was "nobody's business." Year after year hundreds of people walked by the place daily. This year a man a half block from the circle had a tree planted in it. The tree is growing. A great many have spoken well about it. He did not have to do it, but he did it. He does not expect to buy the lot, but his little girl sees the tree every day. Every locality has little opportunities for all who are willing to do such little things.

Mrs. Larkin—I want a little money today, Fred.

Mr. L.—I'm sincerely glad of that, my dear.

Mrs. L. (surprised)—Why are you glad?

Mr. L.—Because generally you want a good deal.

Just at This Time.

When congress seems to be disposed to open the door and let us come in—the door at which the territory has been knocking for fifty-eight years—the following paragraph from the history of New Mexico will be read with interest:

"A move for state government was made early in 1850, and in June a legislative assembly, a member of congress and state officers were elected. The state officers met on the first day of July and entered upon the performance of the duties indicated. Pending a controversy between the new government thus attempted to be organized, and the existing military government, news arrived of the long awaited and expected action of congress granting an organic act for the territory of New Mexico. The action of congress was in accord with the wishes of the people, as represented in the convention of 1848; the state government at once lost its force and was dropped. William S. Messervy, who had been elected a member of congress under the state movement was admitted to a seat in congress as a delegate, thus becoming the first delegate in congress from the territory of New Mexico. Under the organic act enacted by congress September 9, 1850, James S. Calhoun was formally inaugurated governor of the territory, on the third day of March, 1851."—Albuquerque Journal.

Prepared to do your work without delay at Ohnemus & Sons.

Catholic Services

are held regularly every Sunday at both of the Catholic churches of Carlsbad. High mass and sermon in English at 10 a. m. every Sunday. Instruction in Christian doctrine at 3 p. m. Benediction after instruction.

Mass at 7:30 a. m. every morning during week days.

Mass at 9 a. m. at the church of San Jose, for the Spanish speaking natives or others, on Sundays.

Public Notice.

DEPARTMENT OF THE INTERIOR, WASHINGTON, November, 30, 1906.

On December 17, 1907, public notice was issued in pursuance of the Act of Congress approved June 17, 1902 (32 Stat., 389), in connection with the Carlsbad Project, New Mexico, announcing that water would be furnished in the irrigation season of 1908 for the irrigable lands shown upon the farm unit plat of Townships 21 and 22 S., Range 26 E., Townships 21, 22 and 23 S., Range 27 E., Townships 21 and 24 S., Range 28 E., and Township 23 S., Range 29 E. The said notice further announces that for lands entered after March 1, 1905 the first installment of the water right charges must be paid at the time of entry and the second installment shall be due and payable March 1, 1908, and the subsequent years on or before March 1 of each year, and that for lands in private ownership and for lands entered prior to March 1, 1905 the first installment shall be due and payable March 1, 1908, and subsequent installments on March 1 of each year thereafter. In view of the adverse conditions existing on this project and the inability of many settlers to make a crop in the irrigation season of 1908, it has been decided to amend the said notice so as to enable the landholders to secure the benefit of next year's crop before the second installment of the water-right charges shall become due and payable, and the provisions thereof are hereby amended as follows: For lands entered after March 1, 1905, the second installment of the water-right charges shall be due and payable December 1, 1908, and subsequent installments on or before December 1 of each year, and for lands in private ownership and lands entered prior to March 1, 1905 the first installment of the water-right charges shall be due and payable December 1, 1908, and subsequent installments on or before December 1 of each year thereafter. The regulation is hereby established that no water will be furnished in any year until all operation and maintenance charges then due have been paid. Accordingly no water will be furnished for the irrigation season of 1909 for any lands unless the portion of the installment for operation and maintenance, due and payable on or before December 1, 1908, has been paid on or before April 1, 1909, and in like manner no water will be furnished in any subsequent irrigation season unless payment has been made on or before April 1 of that year of the portion of the installment for operation and maintenance which was at that time due and payable. The public notice of December 17, 1907, also announces that the charges for the building of the irrigation system are payable in not less than five nor more than ten annual installments. This provision is hereby modified so that the said charges shall be payable in not more than ten annual installments; provided however that full payment may be made at any time of any balance remaining due, after certification has been made by the Commissioner of the General Land Office that full and satisfactory completion has been shown with all the requirements of the law as to residence, cultivation and reclamation. The charges herein provided for may, for the convenience of applicants, be paid to the Special Fiscal Agent of the United States Reclamation Service assigned to the Carlsbad Project for transmission to the register and receiver of the local land office on or before the date specified for payment at the local land office; but in case this privilege is availed of, the necessary charges for transportation of the cash, as determined by the Special Fiscal Agent, must accompany the payment of the water right charges. All the provisions of the public notice of December 17, 1907, shall remain in full force and effect except as modified herein.

JAMES RUDOLPH GARFIELD, Secretary of the Interior.

LOCAL NEWS.

Apples, the choicest variety, Shelby has them.

Mr. Howard Galton came in from Victor, Colo. last Saturday.

Wm. John Anderson was in from the Guadalupe Tuesday.

Pretty ovals of various kinds and sizes also for sale at Robb's.

Mr. and Mrs. J. B. Roberts, of Lakewood, visited Carlsbad last Sunday.

Just Received, another large line of Christmas goods and toys at the Star Pharmacy.

Dave Runyon of Artesia and Mr. Grady of Lakewood were Carlsbad visitors Wednesday.

You will want cranberries with that turkey for Christmas. Shelby keeps the finest in the market.

Aubrey Gist the Guadalupe Angora goat raiser was in yesterday to take out Christmas supplies.

Mrs. Pond, mother of Mrs. Bob Hamblen, departed Wednesday for a visit with friends in Stanford, Waco, Hewett and Lorena, Texas.

Miss Wells departed for her home in Gainesville, Texas, yesterday, after a visit of over three months with her sister Mrs. W. E. Rogers.

Mr. and Mrs. O. C. Epperson and Mr. and Mrs. O. Trotter and little ones came up from Malaga, Wednesday to do some Christmas shopping.

The Carlsbad Fire Department will give a grand ball Christmas Eve, and a Masquerade Ball New Year's night. Come and bring your best girl At Skating Rink.

Carlsbad was visited Saturday by Mr. Stockard of Roswell who made arrangements while here to open a garage for Autos and it will be located near the depot. Three tourist cars will be put in to commence with.

Judge W. E. Rogers returned Wednesday from an extended trip to Texas where he has a farm in Stonewall county. He reports only about a one fourth crop on account of the ravages of the boll worms but says the country is doing fairly well nevertheless.

You have planned to frame that picture for so long. Why not do it now while Robbs have such a fine assortment of frames and mouldings to select from?

Jax M. Cowden, Epence Jowell and Hugh Gray came in last week from Roswell in a Model G. Buick Auto, one of the most durable machines made. They made a record run from Midland to Roswell traveling 240 miles in thirteen hours and twenty minutes actual running time and came to Carlsbad from Roswell in less than three hours. They left Wednesday afternoon by way of the San Simon ranch for Midland.

The Artesia nurseryman Mr. Webb, with J. S. Highsmith, has another lot of fresh trees that will be at the depot Monday and Tuesday, 21st and 22nd, at less than regular price, satisfaction guaranteed. Best methods of healing and setting to get results and save disappointment will be furnished. Don't be cheated out of getting home grown trees. Now is your best chance. Best assortment can be had now. All who have ordered must get them by the time stated.

L. J. Pitts, who recently purchased the Mary J. Louis place in La Huerta, has ordered a lot of trees, mostly peaches to be set out on the place this winter. He has also ordered a considerable number of grape vines. He will have practically the whole place in orchard and vineyard, and a little patch of alfalfa. Mr. Sutherland has charge of the setting out of the trees and care of the place.

Just received, another large line of Christmas Goods and Toys at the Star Pharmacy.

Everything good to eat in the line of fancy candies, fruits etc. for Christmas at Shelby's.

Beautiful new frames containing charming pictures for sale at Robb's Studio.

Strayed—Scotch Collie, sable, black and white, answers the name of "Carlos" or "Don Carlos." Return to W. E. Rogers and receive a liberal reward.

For candies, nuts, vegetables, fruits and fine cigars for Christmas call at A. G. Shelby's.

Not only are your photographs protected and preserved by framing but their attractiveness and beauty are greatly enhanced as well. Ask to see Robb's frames.

D. B. Sutherland is furnishing the Carlsbad Cemetery Association a lot of fine Ash and Black Locust for setting out in the cemetery this winter. These trees are home grown, and are from eight to ten feet tall. Mr. Sutherland will have charge of the planting and the after care of the trees.

Just received, another large line of Christmas Goods and Toys at the Star Pharmacy.

I. S. Osborne takes much pride in his big oat fields. He has 120 acres of oats planted on his farm adjoining town to the south, and about 360 acres on his lower place below Otis. Mr. Osborne took much pains in preparing his land and had it all in most excellent tith at the time of planting. He also is a believer in good seed, and cleaned his seed before planting and the stand that he now has is evidence that it pays to plant the best seed possible. A wonderful change has come over the country south of Otis where Mr. Osborne's land is located. It is now plowed and into oats and alfalfa where only a year ago it was a big stretch of weeds and brush. Mr. Osborne deserves credit for his enterprise in improving his lands.

Your photo will be a pleasing gift to any relative or friend. Besides you are certain on your present not being duplicated by the recipients other friends. Get 25¢ & Co. to make some for you.

A. S. Shelby has a fine line of fancy groceries.

Resolutions of Sympathy.

Whereas, It has pleased God in His wisdom to take to His bosom the beloved little daughter Lacy Lee, of our esteemed Sovereign John W. Armstrong. Therefore, We the members of Eddy Grove Camp Number 5, Woodmen of the World desire to express our sympathy in the bereavement of our brother Woodman.

Therefore be it Resolved, that a copy of these resolutions be sent the Carlsbad papers and a copy be spread on the minutes of this camp.

WM. H. MULLANE,
A. F. PARR,
Committee.

For Sale—Some fine Jersey cows and a few Jersey heifer calves. Enquire of B. T. Mullin opposite M. E. Church.

Something new in the Photographic line—we make portraits and interiors either night or day, at your own home. Call at Robb's studio at W. U. Dannelly's and learn how you can get a beautiful hand colored photo under glass with a leatherette binding Free.

For Rent—The restaurant room east of First National Bank. Enquire at this office.

Ready-made frames in panels ovals, rectangles, all grades and sizes at very low prices at Robb's.

The Carlsbad schools close today for the Christmas holidays. The lower grades gave a very nice entertainment yesterday consisting of recitations songs etc., while the High School will give its closing exercises this afternoon, a full account of which will appear next week.

Robert Capps came home last night from Amarillo and the north where he has been employed for the past year or two.

Don't Be Hopeless

about yourself when you're crippled with rheumatism of stiff joints—of course you've tried lots of things and they failed. Try Ballard's Snow Liniment—it will drive away all aches, pains and stiffness and leave you as well as you ever were. Sold by Eddy Drug Co.

A beautiful framed picture is an ideal Christmas gift. A choice of one in Oil, Pastel, Water Colors or Sepias with a fine selection of appropriate frames to choose from is yours when you call at Robb's Studio.

Pasture for three to four thousand cattle, convenient to Pecos Valley Railroad. Will lease or take cattle by month. Address First National Bank, Amarillo, Texas.

Just Curious.

Tourist—What's that crowd down at the courthouse?

Native—Oh, they're tryin' the case o' Sam Johnson, sub.

Tourist—Sam Johnson? Why, that was the man that was lynched yesterday, wasn't it?

Native—Ya-as, sub. But today some o' the boys got to feelin' curious to know whether he was innocent or guilty, sub. —Catholic Standard and Times.

The Editor Explains.

A young lady was recently visiting an editorial office and being shown around by the editor. Approaching a case of drawers upon one of which was the label "MSS.," she said, "Now, how would you pronounce that?"

"Oh," said the editor, "sometimes we pronounce it miss and sometimes mess."—Lippincott's Magazine.

Had It Reasoned Out.

"You said you thought there was no malaria around here," said the indignant stranger.

"I did think so," answered Farmer Cornstossel. "After all the summer boarders took away I didn't see how there could be any left."—Washington Star.

A Modern Idea.

"What's contributory negligence?" "Failure to dodge an automobile, my son."—Philadelphia Ledger.

The Minister's Boy's Work.

Mother—What! Fighting again? Such a black eye! If you'd only follow the lead of the minister's little boy—

Tommy—Aw, I did try ter foller his lead, but he led again wld his left, an' dat's where he biffed me.—Philadelphia Press.

Farm Implements.

"You've asked for my daughter's hand, and I'm going to speak candidly to you. I'll call a spade a spade."

"Indeed! And what do you call me?" "I call you a rake."—Kansas City Times.

Surrounded by Shells.

Roderick—The old colonel boasts that during the civil war he was where the shells were thickest.

Van Albert—So I hear. They say he burrowed under a peanut patch.—Minneapolis Journal.

I SOLICIT YOUR PATRONAGE

The Eddy County Hospital Association will have a mass meeting Dec. 28, at three p. m. at the City Hall. All members are requested to be present.

Mrs. Klauder, President.
Mrs. Barber, Secy. Pro Tem.

Notice of Sale of County Bonds.

Public notice is hereby given that the County of Eddy will sell \$24,500 in bridge bonds as follows, to wit:

\$12,500 for the construction of a bridge across the Pecos River north of the section line running east of Artesia, New Mexico.

\$9,500 for the construction of a bridge across the Pecos River at Carlsbad, Eddy County, New Mexico at the point where the bridge destroyed by high water formerly stood and where Green street, in said town of Carlsbad, crosses the said Pecos River to what is known as the Hagerman Heights.

\$2,500 for the construction of a bridge across Black River at a point where the established public highway crosses said river in section 10, township 24 south, range 28 east.

Such bonds payable in the City of New York at some Banking House or Trust Company, hereafter to be designated, and shall become due in twenty years from the date thereof with interest at the rate of six per cent per annum, payable semi-annually, on the first days of January and July of each year in the City of New York where the principal is made payable and for which said interest on each bond shall have coupons attached. Said bonds to be dated January 1st, 1909, and the first coupon on all such bonds shall be made payable on the first day of January, 1910, and thereafter on the first days of July and January of each succeeding year. The first of said coupons to be for one year's interest.

Scaled proposals will be received for the sale of said bonds at any time from this date until midnight on the 26th day of December, 1908.

The said county of Eddy will have the right to reject any and all bids.

Such bonds not to be sold for less than par.

W. H. MERCHANT,
Treasurer, Eddy County, New Mexico.

Notice to Contractors.

Notice is hereby given that sealed proposals will be received up to and including mid-day of the 26th day of December, 1908, for the building of three bridges for the County of Eddy, to be located as follows:

1st bridge located across the Pecos river north of the section line running east from Artesia, New Mexico.

2nd bridge located across the Pecos river at Carlsbad, Eddy county, New Mexico at the point where the bridge destroyed by high water formerly stood and where Green street, in said town of Carlsbad, crosses the said Pecos river to what is known as the Hagerman Heights.

3rd bridge located across Black river at a point where the established public highway crosses said river in section 10, Township 24 south, Range 28 East.

Such proposals shall be accompanied with complete plans and specifications of the same. The price to be charged therefor in the bonds of the county at par value or for cash shall not exceed for bridge No. 1 \$12,500; for bridge No. 2 \$9,500 and for bridge No. 3 \$2,500.

Such proposals shall be accompanied with the bond of undertaking with good and sufficient security of double the amount of the proposed cost of such bridge or bridges conditioned for the faithful execution of the work proposed and the carrying into effect of any contract made in reference thereto.

Bids will be received for the construction of said bridges collectively or separately as contractors may desire. The County of Eddy reserves the right to reject any and all bids.

At Carlsbad this 26th day of November, 1908.

Attest:
W. R. Owen,
Probate Clerk,
Eddy County, New Mexico.

A. C. Heard,
Chairman,
J. W. Turknett,
N. W. Weaver,
Board, Co., Com.
Eddy County, New Mexico.

In Cash \$50,000 in Stock
The Miami Cycle & Mfg. Co.
which earned 10% during the season of 1907, is offered as proof that

THE WORLD'S BEST BICYCLE
has less pressure on its crank hanger bearings than any ordinary bicycle. It is more comfortable, and runs faster with less energy and wear. The explanation is found in the special Crank Hanger construction and large spoked wheels of the **RACER**. 100 Models are built with drop forged steel heads, crown and seat post clusters and the frames are made of English mild drawn seamless steel tubing especially for us. **RACER**s are made as near non-breakable as money, materials and workmanship permit.

Guns Repaired, Keys Fitted for Trunks, and all kinds of Locks.
BICYCLES for SALE or RENT
I will keep up any bicycle bought from me, between now and XMAS for six months. Buy a **RACER** or **MIAMI**, I am Ready to take Orders for them.

The Carlsbad Current

Carlsbad, N. M. Friday Dec. 18 1908

Carlsbad Current, established November 13, 1905. New Mexico Sun established May 12, 1906. The two papers consolidated October 11, 1907.

Carlsbad Printing Co., Publishers
Win. H. Mullane, Pres.

SUBSCRIPTION \$1.50 PER ANNUM

The Official Paper of Eddy County.

Published every Friday, and extended to second class mail (under the Carlsbad N. M. post office).

Col. Griffin, he of many newspaper fame has started a paper at Monument seventy miles east in Eddy county, having found the field at Plains, Yoakum county, Texas, too sparsely supplied with the long green and several other things to make the publication of a journal such as the Colonel is capable of printing too gigantic a proposition for the little dead Texas town and therefore, he moved that historic George Washington press to the lively town of Monument, where Mayor Harry Gaither and Councilman W. G. McArthur, Judge J. M. Cook, Vice President R. B. Knowles, and Secretary Julius Pinson constitute an admirable board of directors that will undoubtedly be able to keep General Manager Col. W. C. abundantly supplied with advertising subscriptions and job printing, as well as necessities in the way of liquid refreshments. That old Washington hand press has a history. It was brought to Carlsbad in 1899 and set up under the supervision of Dick Rule who came with it from El Paso where it had been used for years, but where it originated is impossible to learn. L. O. Fullen, the present district attorney pulled the big lever for years while working on the Argus and said the old standby got better with age. Col. Griffin through the intercession of his friend Mr. W. G. Woerner and his old standby J. H. James finally got his hands on the machine and started the list of papers he conducted in Carlsbad. Finally James sold the press to Mullane who started the New Mexico Sun with it, holding much more rapid presses a good race, finally selling it to the Colonel who says it is better than ever now.

Attention is called to the professional card of Lawyer D. G. Grantham who has a fine suit of rooms the second door north of the Masonic Building and will be found on hand at all times to attend to business. Mr. Grantham came here three and a half years ago from Corsicana, Texas, and by hard work and close attention to business has built up a large and constantly increasing business and has purchased a fine home on Greene's Highlands and is identified in the prosperity of the country. Of all the acquaintances made by Mr. Grantham since coming here he is proud that all are his friends and he has been more than successful in his business never having dabbled in any side issues such as real estate or other lines, but confined himself strictly to the law with the result that he is known as a perfectly reliable lawyer in the many branches necessary in this country.

The New York World is so indiscreet as to say that Roosevelt is a demagogue and a liar and then goes on to say as follows:

"No other living man has ever so grossly libeled this United States as does this president, who besmirches congress, bulldozes judges, assails the integrity of courts, slanders private citizens and who has shown himself the most reckless, unscrupulous demagogue whom the American people ever trusted with great power and authority."

Now if Mr. Pulitzer was living

in Carlsbad he would not be allowed to use the president or mayor's name, even in his paper and therefore could not say the president libels the United States etc. Roosevelt should move to Carlsbad where lese majestie is properly frowned down.

Now Is The Time.

The bill now before congress for the admission of New Mexico to statehood provides that the United States government shall donate to the new state, among other things, two million acres of the best public lands within the present territorial limits, to be used by sale or lease, for the payment of all the territorial, county, and municipal debts, of New Mexico existing at the time of the passage of the act.

It is possible, and many well informed persons regard it as entirely probable, that this bill will pass at the present short session of congress. The republican national platform pledges the party to the admission of the two remaining continental territories without delay, the president is earnestly in favor of it, and the president-elect is equally friendly to the proposition, and is desirous of having the question disposed of and out of the way before he takes office, hence those who believe the bill will be passed at the present short session are not without what would seem good foundation for such opinion.

Now, according to the terms of the pending bill, if an issue of bonds for the construction of a sewer system for the city of Albuquerque can be effected before the passage of the said bill, the money to pay the bonds will come from the two million acres land donation which the general government will give the new state for just such purposes, and not a dollar of the burden will fall upon the people of the town, of this or any other generation, while, on the other hand, if we continue to fool away our time wrangling over the difference between tweedlee and tweedledum, and fail to get the sewer bonds issued till after the statehood bill becomes a law, we will cut ourselves off from all lot or part in the generosity of the federal government so far as concerns the sewer bond issue, and have to bear upon our own shoulders the whole of that burden of three hundred thousand dollars, more or less.

December 15, 1908.
Editor of the Current and Argus:
City.

Dear sir:

The enclosed editorial clipping from the Albuquerque Journal of the 13th instant would seem to apply with equal force to Carlsbad where some of our timid fellow citizens have been reluctant to bank enough upon the future of Carlsbad to support an issue of bonds to build our badly needed sewer system.

Carlsbad's location, resources and climate entitle it to become the ideal home town and health resort of the Southwest.

The best of sanitary conditions are requisite to make a health resort or a good home town and with the best water system in the territory and an opportunity to have a first class sewer system at moderate cost it seems to many a reflection upon their enterprise, public spirit and confidence in the future of their town that our citizens have not long since come together upon this proposition and built the sewer. Surely our families are

entitled to the best protection we can give them, even at the risk of some financial sacrifice.

If the statehood bill should pass with the provision for payment of territorial, county and municipal debts mentioned by the Albuquerque Journal, as indeed seems likely, we will have ourselves to thank if our more progressive neighbors have both their improvements and no debt, while we will have no further hope of obtaining ours without debt.

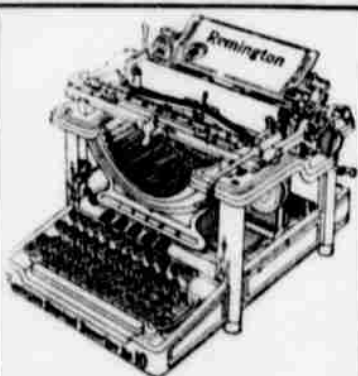

Let us get together while competent contractors are close at hand with a first class plant at Roswell, put in our sewer and put it in right.

If it is indeed too late to obtain the benefits of the statehood bill it will be only another illustration of the familiar adage "The Gods help those who help themselves" which we all of us use in daily life; but whose application seems sometime to be lost when we try to act as a community.

Francis G. Tracy.

The Board of County Commissioners will organize with two new members the coming year. It is with pleasure that we note the disposition on the part of the Board to improve the roads throughout the county. All the Commissioners seem to be in hearty sympathy with the movement of making roads that are creditable to this progressive community. The time is long past when any old trail through the brush can be considered a road. The coming of the automobile also gives impetus to road improvement.

The question of tree planting is beginning to receive the attention it deserves. Several car loads of trees have been ordered for the Loving country, while others are still at work on preparing orders for what they wish to plant. The matter of shade trees, however, is not receiving the attention that it deserves. Nothing improves the appearance of the country like trees. Carlsbad is rightly styled "The Beautiful" on account of its magnificent trees. A farm with a few trees on it is worth more than where the land is absolutely bare.

KNOBLAUCH LAND COMPANY.

CHEAPER LUMBER

Owing to the recently reduced freight rates and a slight fall in the price of lumber we are able to announce a reduction in the price of lumber of from \$2.50 to \$6 a thousand. The grade is just as good as ever, the price is less. We are now able to compete with yards on the T. & P. and ask the opportunity to figure with those from the Monument locality who have been hauling from these points.

MILK TESTING ON THE FARM.

A milk tester should be owned by every farmer who keeps a cow and sells butter or milk and cream on a butter fat basis. Yet a relatively small number of farmers have purchased them. It is partly because they do not understand the operation, thinking it too complex to be performed by those unfamiliar with chemistry and laboratory manipulation, or, as is often true, they do not realize the difference between a high testing and low testing cow.

The meaning of a test is very simple when once understood and is only a simple problem in percentage, with which most of us are perfectly fa-

APPARATUS FOR TESTING MILK.

milair, writes L. J. Haynes in American Agriculturist. When a farmer takes a note for a hundred dollars with interest at 6 per cent it needs no explanation to make him understand that the 6 per cent interest will bring him \$6. But this same farmer may be absolutely ignorant of the amount of fat in a hundred pounds of milk testing 6 per cent. He does not realize that the per cent test problem is exactly like the per cent simple interest problems he used to figure out in the old arithmetics and is doing now whenever he takes or gives a note.

If he had \$5,000 to put out at interest and one party offered him 6 per cent, while another would pay only 5 per cent, he would know that the 6 per cent offer would bring him \$250.

Just \$100 more than the 5 per cent rate. If he was getting only 5 per cent and a friend gave him information that would enable him to place his money at 6 per cent, this knowledge would be valuable and worth something to him, and he would be willing to pay for the information. Now, then, let us connect the interest problems with the cow testing problem, using the same amount both as to the quantity of milk in pounds representing the \$5,000 and the same tests corresponding to the 5 per cent and the 6 per cent rates of interest.

Five thousand pounds of milk is not too large an amount to expect from a cow; neither is a 5 per cent test extraordinary nor a 6 per cent test uncommon. The 5,000 pounds from the one cow testing 5 per cent would contain 250 pounds of fat, while the same amount from the other cow testing 6 per cent would contain 300 pounds of butter fat. 30 cents a pound is received for the butter fat the high testing cow will make \$75, just \$50 more than the 5 per cent cow, whose credit is only \$25. Isn't information which will enable him to sift out these low producing cows and replace them by better ones of value and worth something to him, and can he not well afford to pay for it? That is just what a tester will do, and it won't cost him very much either.

The complete outfit shown in the illustration can be purchased for from \$3 to \$5, including tester, a quantity of the acid used, milk pipette and an acid measure. While we have a larger tester for our dairy and would recommend the purchase of one, this small one is much better than none at all. This one is compact, taking up little room, and can be clamped to any table, bench or even to the box in which it is shipped. Ten minutes will complete the testing.

The True Artist.

A good natured Washingtonian while waiting on a corner for his street car recently, says Harper's Weekly, was attracted by the bright face of a young Italian organ grinder.

"It must be rather difficult to turn that crank as steadily as you do and keep such good time," observed the Washingtonian as he dropped a nickel in the hat.

"Not so difficult," said the Italian, showing his white teeth in a smile. "You see, I no gotta da monk. To turn da crank dees way stead' keepa da tim'. But turna da cranks an' watcha da monk sam' tim', ah, that taka da arteest, da true arteest! Eet ees da monk, signor, that demanda da genia."

Keep Out of Rut—Save Roads.

It is not unlikely that American farmers who have with them always the question of good roads and how to maintain them may find in the following order, which was issued by the Panama canal commission to officers and men on the isthmus, a suggestion of how carelessness contributes to making good roads bad and bad roads worse. The order says:

"Ruts have been posted at the corners, and the corral foremen have instructed teamsters that the custom of wagons following in one another's tracks must be discontinued. Considerable of the maintenance work on the main roads, especially during the wet season, is made necessary by wagons wearing deep ruts. The teamsters have been instructed to distribute travel over the full width of the highway, and it is believed that the cost of road repairs will be much reduced as soon as compliance with these instructions becomes general."

Health of the Work Horse.

A half pint of flaxseed jelly once or twice a day added to the ration will work wonders in a horse's condition. The jelly is made by pouring boiling water on whole flaxseed and allowing it to gel.

Scratches in horses will never occur when the mud has been allowed to dry and then brushed off without the application of water.

A remedy for scratches is oxide of zinc, one dram; vaseline, one ounce. Never apply water to the legs.

Hard driving to the horse is what fast living is to man; he cannot keep it up.

Horses which have to work hard do not need any surplus flesh.

A good draft stallion, crossed on mares with good dispositions, produces colts that are naturally quiet and easy to train to the slow work of the farm.

Vacuum For Cleaning Horses.

The vacuum machine as used for cleaning the furnishings of homes and office buildings has become a familiar sight in nearly all parts of the country, but such a machine used for cleaning horses is new to most people. A horse can be thoroughly cleaned by the machine in from three to five minutes, while with the ordinary currycomb and brush the task takes from twenty minutes to an hour of vigorous rubbing. According to Popular Mechanics, it removes all dirt on the animal's skin, cleaning both the surface and the pores.

HOME TRADE DID IT.

Why a Town in the West Is Growing Rapidly.

ITS MERCHANTS PATRONIZED.

Money That Was Formerly Sent to the Mail Order Houses Now Spent at Home and Kept in Circulation There. Business Increased Greatly.

There is a hustling and progressive little town in the middle west that is quickly growing into a city, but the story of the beginning of its boom is known to few people. It started one day when a resident of the town was discussing local matters with the station master while waiting for his train.

"I understand," he remarked, "that Jones, the dry goods merchant, is not doing business enough to pay for the oats his horses eat and that Brown, the hardware dealer, is also on the verge of failure."

"Yes, it's a fact," replied the station master. "Too bad, isn't it?"

"Well, in a way it is, of course, but it must be their own fault. Antiquated business methods are probably the cause of it."

"That's where you make a big mistake," promptly returned the station master. "I happen to know Brown and Jones very well, and I tell you they are a couple of mighty up-to-date business men. Would you care to know the real facts in the case?"

"Well, I'm not particularly interested in these fellows and their affairs," was the reply, "but—"

"That's just it," broke in the station master. "Most of the residents here live along year after year without a thought to our tradesmen, and when one of them fails you lay it to antiquated business methods. As a matter of fact, it is because you fellows fail to give them the support they have a right to expect."

"Why, how do you mean?"

"I mean that instead of sending to the mail order houses or picking up in the city anything you need in the hardware, clothing or dry goods line it is your duty to give the home merchants a chance for that trade. Of course you are not expected to pay a dollar for anything you can get out of town for 50 or 75 cents, but you'll find in the long run that you can do as well if not better right here at home, and just think what it means to the local merchant! Why, thousands of dollars are sent away every year when they could have been spent right here to better advantage."

"I don't know about that," replied the other.

"Well, I'll give you a little proof of it," went on the station master. "I happened to be talking to Brown, the hardware merchant, the other day when your boy came along on a new bicycle, and we stopped him and looked the machine over."

"I got that wheel through a mail order house for \$18.50," said the resident proudly.

"Yes, that's what the boy told us, and after he had gone Brown took me into his store and showed me identically the same wheel for \$15."

"You don't tell me! Well, why doesn't he advertise that he has such bargains?"

"Simply because you people here, who patronize the mail order houses almost exclusively, don't give him your trade, and consequently he hasn't the money to do it. He knows the value of advertising in the local papers and spends every dollar he can afford to in that direction, but a share of the local trade that is rightly his would give him an opportunity to spread out in that direction. Money spent at home, you know, is going to be put in circulation at home, but when you send a dollar away from here it is gone for ever. There is a big howl in this town, too, for improvements, but if we're going to let the merchants run down hill this way the town isn't going to move ahead to any great extent."

"Well, there's a good deal of sound sense in what you say," said the resident after a little thought. "I'll bring this matter up at the club tonight and see what the others think of it."

A few months later the story runs in that town were doing some business than they had in years and it wasn't long before improvements in their directions were coming thick and fast. A board of trade was eventually organized, the local papers received such support that they could take a hand in the boom, and a women's improvement society was formed that has done much to improve and beautify the town, thus attracting desirable residents.

A. B. LEWIS.

Publicity in Improvement Work.

A band of workers for public improvement will find no surer way of intrenching themselves with the public than interesting the local press and getting its support. Not only will this give an added strength to the work, but will force upon the indifferent the fact that something is being done that will redound to his benefit and, further,

that he should be having the work by active support. Improvement societies have occasionally issued a small pamphlet at regular or irregular intervals in which progress is recorded, policies outlined and argument made for the support and perpetuation of the work. The expense of these modest publications is fully met by inserting advertisements from the leading business houses. With the local press or a separate publication behind the work there is stability established that will go far toward gaining the confidence of the public.

Grading a Roadbed.

It is simply extraordinary the lack of judgment shown by many who undertake to shape a roadbed. The road allowance in various states is six to six feet. In rounding up the roadbed the earth is sometimes moved toward the center from nearly the entire distance of the width of the road. This means that the ditches for carrying away the water are not distant from the fences that hedge in the highway. The roadbed is entirely too wide. It cannot be sufficiently rounded toward the center, and as a result water does not run off with sufficient quickness. The temptation to spoil roads by grading them thus is all the stronger since road graders have come into use. This result follows from the comparative quickness with which the earth can be moved by these machines. A distance of forty to fifty feet between the outer edges of the ditches furnishes a roadbed sufficiently wide.

KITCHEN HINTS.

Mix prunes and raisins for a supper dish. The raisins give the prunes a tang that is savory.

Save fuel by washing beans and all dried fruits until the water poured off is clear. Then soak overnight, covering them with warm, not cold, water.

To get best results with rice wash quickly in cold water and drop slowly into water that is boiling rapidly. Rice prepared in this fashion will be soft and evenly, yet whole, in twenty minutes or half an hour. Have plenty of water in the kettle and drain the rice directly it is cooked before the water stops boiling.

To get best results with macaroni do not break it before cooking. Drop it whole into salted boiling water, cook twenty minutes, drain in a colander, roll it in the baking dish, pour cream sauce over it and finish off with grated cheese and bits of butter. Bake golden brown. You lose much of the substance in breaking it in short lengths before cooking.

To make the mint jelly so popular and expensive at exchange and tea rooms try this recipe: Wash and bruise a bunch of fresh mint, cover with a pint of boiling water and simmer very gently fifteen minutes. Strain and to every pint of this liquid while hot allow a package of ready to use lemon jelly powder. Add sugar to taste. Stir until sugar and jelly powder are dissolved. Mold and set on ice to harden. Garnish with fresh mint leaves.

NEW ROAD MACHINE.

Grading Attachment That Can Be Put Upon Any Traction Engine.

Streets of Hildreth, Neb., have been improved and beautified by a very unique and recently practical road and street grading machine, the invention of Elijah A. Hollenbeck of Funk, Neb. The machine was built by Mr. Hollenbeck himself, and notwithstanding its simplicity of construction, owing to lack of facilities for turning out the proper kind of work, it has proved a success and a money maker from the very start, says the Omaha World Herald. It is in fact a road grading attachment, so constructed that it can readily be put upon any ordinary make of traction engine.

The machine is very simple in its construction and seldom ever gets out of order or causes any annoyance to the operator. It consists of a frame attached to the boiler and running gear of the engine. On the left side, directly in front of the large drive wheel, is a beam carrying the plow. The furrow cut by the plow is just outside of the tread of the drive wheel of the engine, enabling the operator to cut a straight bank to any length desired. The dirt is dropped from the moldboard upon a belt conveyor passing under the boiler of the engine and deposited in the middle of the street or road to make the grade. The outer end of this elevator can be raised or lowered to meet requirements.

Mr. Hollenbeck, the inventor, is a young farmer who has lived on a farm all his life. He has had no special training as a machinist, his only education in that line being that gleaned from practical experience in operating thrashing machines and other kinds of farm machinery.

Reggy—I'll pay that bill on the 31st of this month.

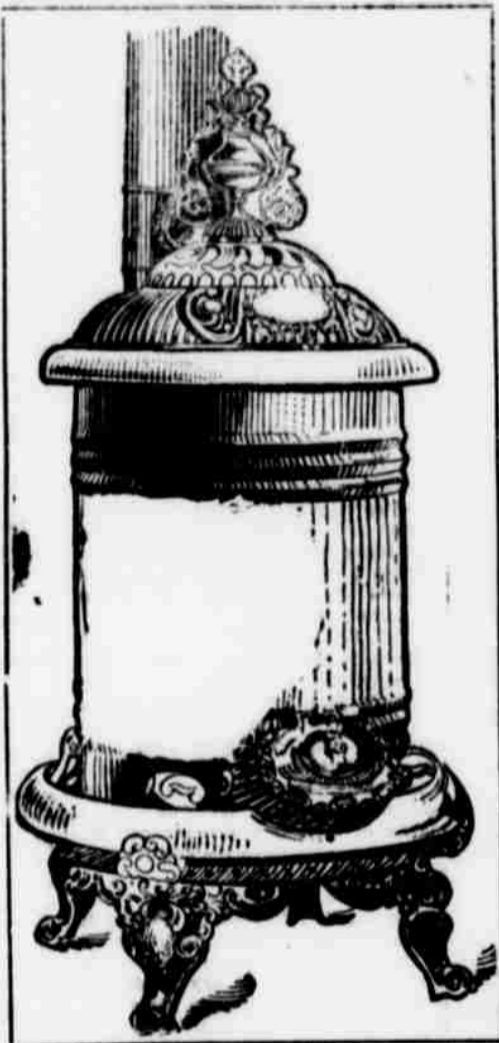

Tallor—But there are only thirty days in this month.

Reggy—What! Is it possible? Then we are both done. That's the day Miss Gotrox promised she would marry me.

WHAT A WAGNER MOTOR WILL DO.

You give a Wagner Electric Motor a kilowatt hour of electricity. The Motor will—Saw 300 feet of timber. Clean 5,000 knives. Clean seventy-five pairs of shoes. Clip five horses. Run a sifter two hours. Iron thirty silk hats. Grind 120 pounds of coffee. Knead eight sacks of flour. Fill and cork 250 glass bottles. Pump an ordinary church organ for one service. Pump 100 gallons water twenty-five feet. Run butting wheel twenty hours. Run an electric pump ten hours. Lift three and a half tons seventy-five feet in four minutes. Run a small ventilation fan twenty hours. Run a large ventilation fan ten hours. Run a home machine twenty hours. Carry your dinner upstairs every day for one week. Run thirty times from basement to attic eighty feet. Carry you three miles electric trolleybus. Make you happy. A CHILD CAN HANDLE WAGNER.

Navajo Dictionary.

The Franciscan fathers at St. Michaels, Arizona, near Gallup, propose issuing, in the near future, a dictionary of the Navajo language, upon which they have been engaged for the past ten years. The book, besides containing a vocabulary as complete as it is possible to be obtained, will also have a series of articles on Navajo religion, ceremonies, arts and industries, each to be followed by a list of Navajo terms employed, with more or less detailed explanation. The descriptive text will comprise articles on industries, weaving, dyeing, silver working, and basket making, also lists of Navajo names of persons and places and names of plants and animals. This book, when issued from the press, will likely be much in demand by students of Indian lore, as it will be a great step toward unravelling the early history of the Navajos. It is hard to realize the immense amount of work expended on a work of this kind. The language of the Navajos is a very difficult one to acquire, owing to there being no distinct pronunciation of the words, a guttural sound predominating. — Lordsburg Liberal.

It's A Crime

to neglect your health. The worst neglect that you can be guilty of is to allow constipation, biliousness or any liver or bowel trouble to continue. It is poisoning your entire system and may lead to serious chronic disease. Take Ballard's Peppermint Cure and get absolutely well. The sure cure for any and all troubles of the stomach, liver and bowels. Sold by Eddy Drug Co.

Wedded in El Paso.

At about 9 o'clock last night there was a loud knock at the door at the home of Justice Randolph Terry and when he opened it, he found a young couple who wanted to get married. Park Pitman had to be aroused to get the necessary license and then the ceremony was performed.

The young couple announced that they had run away from home. They gave the names of Frank B. Smith and Nellie M. Chitwood and said they lived in Roswell. — El Paso Herald.

The above runaways were from Carlsbad and none other than Frank or "Pete" Smith and a lady of the south side of town who formerly conducted the Green house and was known here a "Margurite". The wedding occurred in El Paso last week Wednesday evening.

The Correct Time

to stop a cough or cold is just as soon as it starts—then there will be no danger of pneumonia or consumption. Just a few doses of Ballard's Horehound Syrup taken at the start will stop the cough. If it has been running on for some time the treatment will be longer, but the cure is sure. Sold by Eddy Drug Co.

See A. J. Crawford for two phaetons, two large wagons, two heavy work horses set of heavy harness, ensilage cutter and fanning mill.

"The Blood is The Life."

Science has never gone beyond the above simple statement of scripture. But it has illustrated that statement and given it a meaning ever broadening with the increasing breadth of knowledge. When the blood is "bad" or impure it is not alone the body which suffers through disease. The brain is also clouded, the mind and judgement are affected, and many an evil deed or impure thought can be directly traced to the impurity of the blood. Four impure blood can be made pure by the use of Dr. Pierce's Golden Medical Discovery. It cures and purifies the blood thereby curing pimples, blotches, eruptions and other cutaneous affections, as eczema, tetter, or salt-rheum, hives and other manifestations of impure blood.

In the cure of scrofulous swellings, enlarged glands, open eating ulcers, or old sores, the "Golden Medical Discovery" has performed the most marvelous cures. In cases of old sores, or open eating ulcers, it is well to apply to the open sores Dr. Pierce's All-Healing Salve, which possesses wonderful healing potency when used as an application to the sores in conjunction with the use of "Golden Medical Discovery" as a blood cleansing constitutional treatment. If your druggist don't happen to have the "All-Healing Salve" in stock, you can easily procure it by enclosing fifty-four cents in postage stamps to Dr. R. V. Pierce, 663 Main St., Buffalo, N. Y., and it will come to you by return post. Most druggists keep it as well as the "Golden Medical Discovery."

You can't afford to accept any medicine of unknown composition as a substitute for "Golden Medical Discovery," which is a medicine of known composition, having a complete list of ingredients in plain English on its bottle-wrapper, the same being attested as correct under oath. Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels.

Star Stable prices are same to all.
