REPUBLICAN TICKET.

For President of the United States region it passed through. BENJAMIN HARRISON, OF INDIANA.

For Vice President of the United States,

WHITELAW REID. OF NEW YORK.

For Delegate to Congress, THOMAS B. CATRON, OF SANTA PE.

attention to the policy of the Democratic party at the Court House to-

Mr. Raynolds thys the indications in the east all point to the re-election of President Harrison by a large out of the territory at present. majority.

Said a Democrat to us today: "I on the political outlook but concedes Vegas is the best watered in the ter- tee in its work. This especially is the election of Benjamin Harrison."

Hon. A. L. Morrison is one of tha best speakers on the tariff question in the United States. Hear him at the Court House tonight.

The Pastime club, of Portland, Ore., has raised \$15,000, and will increase it to \$25,000, for a match between Corbett and Jackson.

This is the way the case is presented to you: Whittier, after sixty years of labor, died poor. Corbett made \$45,000 in a two hours prize fight. Yet people continue to educate their sons for a literary career and sneeze at the "manly art."

The Democratic national committee will not proceed against the they both spoke at Blossburg, where labor commissioners of Indiana and Mr. Catron paid special attention to Massachusetts till they get through his opponent in the congressional as much as the committee cares to the tariff and strikes. grapple with at a time.

In describing the homage which her subjects have to pay to the queen of England, Henry Labou-· chere admits that kissing a lady's hand is always a pleasureable performance, but he prefers to exercise his own judgment and taste in the selection of a subject for such a performance.

John M. Blair, of Blairsville, N. way from \$50,000,000 to \$100,000. 000. He has never sold a share of which he has been associated, and has money invested in scores of railroads, some of which he absolutely controls

Facts and Figures, by Catron and Morrison, at 7:30 this evening, at the Court House.

A British authority on railroad statistics makes the following comparisons: "To earry 329 tons of coal an English railway would use about 40 wagons with a total length of 640 feet and a total weight of 200 tons; an American railway would use about 13 wagons with a total length of 312 feet and a total weight of 117 tons. To carry 329 tons of general merchandise English practice would use, on the average, 165 wagons with a total weight of 800 tous; American 66 cars with a length of 1584 feet and and a weight of 660 tons. These years ago. figures apparently show English railroad managers in a bad light," says the Engineering and Mining Journal, but there are other reasons, as a matter of fact, that outweigh the advantages that would be obtained by the adoption of large cars."

#### RAILWAY TALK.

Hop. Jeffer-on Raynolds arrived from the east last night in very good spirits, occasioned by the fact that he feels so sanguine that the Denver & El Paso road is now an assured fact. While east be received the very best assurances that the money after the towns along the line had shown their faith in the enterprise by subscribing to the preferred stock. One firm with whom Mr. Raynolds conversed said it was the best and most promising enterprise in the railway line they had seen for a long nished by the entire mountain ference will be held. ranges, while an east and west road

It is well bettern by the Canadian, Proces, thatmas, stagette and Teculo rivers and their tribalaries. the county is mountainens, raing from the plates to the highest range in the Territory, capped with ever and shown. The culmination of the mountains a such a great sitting, tweire thousand feet, causes great scruppointins of snow, which constantly freeds the mountain, streams with pure water, that passes off fine and through the valleys below. The Mora-Sappile, Gallinae, Freeding and Prope strading all have their sources to the auric mountains and asserts for the same iscality. The precipitation of moletars on the carrier slopes of the mountains by rain and snow is greater than in any other parties of the Twe-

Firsty.

New Mealton is as large as all the New Raghand states inguisher, with New York and New Jersey increments. It is about equally divided in grading, agricultural and mixing lands. Millions of sures, rich as evacurers, are waiting to be occupied. These the presidents states, evol. Irola since ranges, agricultural, horricultural and grape lands, spherally sures of historicus washine, more examined and property. The same callifactory attendings, the say offer country on dispeting aim-appers, that any other country of his convers, low taxos and as antive home market

or all agricultural products.

New Mexico wants manufacturies of every decription, more forms, gardens, orchards, vineyards, spress, a cock rateers, a failion more industrina people in developing common and make for these serves commortable house. There is no better field or profitable investment of capital.

LAS VEGAS

Springs

NEW MEXICO.

In the states we occasionally have an autumnal day when there is just a tinge of frostiness in the air and a vast sea of sunlight through which the earth exultingly plunges; not a cloud in the sky, scarcely a breath of wind stirring the dust heaps, when effort of mind and muscle has on

In New Mexico-the land of all lands where "it is always afternoon," such days are the rule, not the exception; and no other nock in New Mexico has so delightful a climate at all seasons of the year an Las Vegas Hot Springs. From November to April scarcely a day passes during which the sun does not shine brilliantly and continuously. During the summer months, when lower countries are sweltering in the heat, there is the same genial warmth and glow without the enervating effect cef excessive humidity. The average mid day winter temperature is from 50 to 60 degrees Fahrenheit. In summer the highest flight of the thermometer rarely exceeds 80 degrees at noon, and the average for that hour is only 75. The altitude (7,000 feet above the sea), the picturesque valley, the high, pine covered mountains, the even temperature, and warm, dry sir, combine to make this a favorite resort for tourists and an ideal place for

Las Vegas Hot Springs is located on the suotheastern slope of the San ta Fe range of the Rocky mountains, six miles from the thrifty city of Las There are upward of forty hot and cold springs, the water from the best of them being conducted in pipes to a large and handsome bath house of modern construction. Almost all forms of chronic disease yield to the curative effects of these wonderful waters. It is not claimed nor expected that everybody will be made well. It is confidently asserted that where there is anything left to build upon good results almost always follow a thorough course of treatment at the Hot Springs, and some remarkable cures have occurred. Persons who have failed to receive relief elsewhere for rheumatism, catarrh, lung trouble and diseases of the blood are invited to try the great New Mexico sanitarium. Skilled physicians

are always in attendance A branch line of the Atchison, Topeka & Santa Fe railroad connects the city with the springs. Five daily passenger trains each way render it easy of access from Las Vegas. Telegraph and telephone lines give additional communication with the outside world.

But the chief feature of the place, saide from its pre-eminence as a resort for invalids, is the Montaguma Ho at, a commodious and massive structure of stone, crowning a slight emience near the station. It may be doubted by those who know nothing n of western push and enterprise but here, in the very heart of old-Spain-in-new-America, is the finest wat ering place hotel west of the Alleguenius. Perhaps there are a few others that are larger—they are not many. Certainly none are more satisfying to the ave or more restful, to the tired dusty ways out traveler. to the eye or more restful to the tired, dusty, worn-out traveler. Large, handsome rooms, a fine cuisine, a commanding location and a careful catering to the wants of all guests make the Montesuma hotel peculiarly suitacents per week for the FREE PRESS ble as a stopping place for transcontinental tourists via the Santa Fe route and have it free
