RESERVE, CATRON COUNTY, NEW MEXICO, APRIL 1, 1922,

NO. 50

Old-Timer Talks Politics.

Mr. Editor:

I have noticed in your last two issues that your paper is in favor of an early convention to nominate county candidates. Many of us, who have been in this section for years, feel the same way. We have decided that this being the first election in our new county, that we should be careful who we nominate for office, and more careful whom we elect. An early convention will give us an opportunity to look well into the merits of the candidates, and see for ourselves whether they would make the kind of officers we desire to look after our public business. What we want is honest, competent officers, men who will stand for economy in county affairs, and who will attend to the affairs of the county in the same careful economical manner in which they look after their own business.

An Old-Timer.

Ship Ahoy

There is an exhibition at the Reserve Mercantile Company, a replica of the steamship "Atlantic." This steamer was launched at Belfast, Ireland, in 1875, and made her first voyage from that port. The Atlantic was wrecked in Halifax harbor on her fourth trip, and 1140 persons were lost and only 335 save. P. H. O'Boyle, who now lives eight miles northeast of Reserve, was a sailor on this vessel on its initial trip and also at the time the steamship was wrecked.

The replica of the vessel is the work of Mr. O'Boyle, and the entire modeling and work on the ship was done by hand, the only tool used being a pocket knife. It is a work of art and shows that it not only took a vast amount of time but also that "Pat," as he is called by his intimate friends, also has a vast amount of patience. Beside the ship there are other small vessels all the work of Mr. O'Boyle and his pocket knife, and all are so true to life, that you can almost smell the salty breezes of the ocean as you look at the vessels.

The Advocate, while dated Saturday, goes to press Thursday afternoon. This enables us to reach the different post offices by Saturday. Advertisements and matter for publication must be in the office Thursday morning to insure appearing in the paper of that week.

Leo McAfee and Frank (Doegy) Lindsey made a business trip to Magdalena last week.

Lots of colds and so-called "flu" in this section the past ten days, but no serious cases. All are getting along nicely and the epidemic, if it was an epidemic, has run its course and left no bad after effects.

H. T. Mayberry, one of the old-time cattle men of the San Augustine plains, spent several days in town this week.

Will Install Shale

Oil Extracting Plant

An oil extraction plant will be installed at Farmington in the very near future. Great beds of oil shale are found in that section and it is claimed that 41 gallons of high grade oil can be obtained from each ton of shale.

This experiment will be watched with great interest by residents of the northern part of Catron county. There are vast fields of shale in that section. If the Farmington experiment is a success we can look for a number of extracting plants in this county before the summer is over.

\$200,000,000 Short

Washington, March 28. On the basis of reported collection of income and profits taxes of the March 15 installment, a shortage of \$200,000,000 in the estimated revenues from these sources for the calendar year 1922, was estimated today by the treasury

Garden spots are being cleaned up and prepared for spring vegetables. With the excellent season in the ground Reserve expects to raise its own vegetables this summer and have a surplus to dispose of to its less fortunate neighbors.

The Horse Springs neighborhood had an epidemic of light "flu" the last few days. The attacks were light, but there were two deaths of infants among the native people.

Jasper Rathiff left Monday morning for the Nigarete ranch country, where he will clean out and repair the trail road to the Aug. Kiehne ranch.

Rev. Father Albert Canova, of Monticello, held services at the Catholic church at Frisco Sunday and at the Lower Plaza Monday. He was at Aragon Tuesday where he also held services in the church at that place.

Pyert Hulse, Merl Creel and W. T. Trotter, of the Gila ranch country, were in town Saturday and Sunday after supplies. They brought in a bunch of pack animals and their outfit looked like an army commissary train when they left for home.

Dr. Parham, of Mogollon, was in town Saturday, called here by the illness of Dr. Harper and J. R. Gaunt.

Andy Higgins, janitor at the court house, is back on the job after a rather severe attack of "flu", and Andy says the spell he had was not so light either

The editor had the pleasure of making a trip down the Frisco several miles below Reserve Saturday afternoon. He was surprised at farming conditions down the valley. Every farmer was busily engaged in preparing for spring planting. The land is in excellent condition and with the careful preparations that are being made, we are assured that the valley farmer will reap a rich reward for their labor this season.

Good Fruit Year For

the Entire United States

Washington, March 28. The outlook for what farmers call "a good fruit year" is promising in most parts of the United States according to reports made public today by the weather bureau. Although fruit is not out of danger from freezes in the north half of the country the general belief is that now spring is really here America can look forward to fruit in abundance.

Double Wedding

A double wedding was solemnized at Aragon last Wednesday. The high contracting parties were Miss Natividad Archuleta and Rufugio Najjar, and Miss Luiza Archuleta and Frank Peralta all of Aragon. Rev. Father Albert Canova, of Monticello, officiating.

We publish in this issue a communication from "Old-Timer" a prominent resident and large tax payer of Catron county. "Old-Timer" is in favor of early conventions this year and an opportunity to become acquainted with the prospective candidates for county officers. Many are of the same opinion. They all say that what this country needs, at its first election since the creation of the county, is not so much a political machine, as competent honest and efficient officials. All agree on this point, and we believe that when our conventions meet that that idea will prevail. This is as it should be. When ever the voters of any county have this idea firmly established in their minds they are going to nominate and elect officials that will be an honor to the county. There never was in the history of the state, as well as the different counties, as many independent voters as at the present time, and the party that pick their men carefully, and pledge them to strict enforcement of economy and lower taxation, will be the winners, not only in this county but also in the state at large. Let's have our political conventions early. Nominate our best men for office, and thus, ensure an honest, economical administration for our new county of Catron

Reserve and vicinity had a good rain the latter part of last week followed by several sunshiny, warm days, which brought the alfalfa and wheat out in good shape, and also budded many peach trees along the valley. If frost does not catch us, we can look for a fair crop of fruit in this section this season

Claud Medley, of Magdalena, was a Reserve visitor Monday.

Otis E. Watson, a prominent ranchman of the Tularosa section, was in town Monday on business connected with the settlement of the estate of J. W. Andrus, deceased.

Judge Florencio Jiron held an adjourned term of probate court Monday.

The Coal Strike

Beyond doubt by the time this paper reaches our readers, the biggest coal strike in the history of the country will be on. Every effort on the part of the operators have been spent to prevent the strike, but with out avail. It will be a strike of great magnitude and a real endurance test between the owners of the mines and the miners. It is estimated that the county has enough coal in the sheds to last the country ninety days. We are not worrying in this neck of the woods as we have enough fuel on the forest reserve to last our people for the next hundred years and then some.

No Jury Term.

It is now certain that we will have a spring term of district court for Catron county. Court will convene on the 12th of April the third Monday of the month. No jury will be empaneled and only non-jury case tried. At the fall term of court in October both a grand and petit jury will be drawn.

Bonus Bill Passes House.

The soldier bonus bill passed the lower house by a vote of 333 to 70, and now goes to the senate for action. What will happen to it in the senate is problematical but house proponents will use every effort to prevent it from being shelved, as was the original bonus measure.

Go to El Paso.

Mr. and Mrs. J. R. Gaunt left for El Paso Wednesday morning where Mr. Gaunt will take treatment under one of the prominent physicians of the Pass City. Mr. Gaunt has been quite poorly for some time and it is expected the change of climate and altitude, with the treatment of an eminent specialist, will soon restore him to his usual health. They were accompanied by Mrs. Barfield and little daughter, who will remain with them at El Paso until their return.

Preaching Sunday

Rev. J. D. Henry will hold services at the school house Sunday, morning and evening. All are cordially invited to attend.

Gilly Luna, of Albuquerque, and who also is in charge of the Otero ranch on the east side of the county, was looking after business matters in Reserve Sunday and Monday.

Mrs. Jimmie Pierce is back at her position as assistant cashier of the Reserve State Bank after a severe attack of la grip.

Garden Seed, Garden Seed, the best at Turk's Roy McLure, of Dallas Texas, is in town this week, and will make an extended visit with his sister, Mrs. T. C. Turk.

If you want to make your garden as success this season buy your garden seed at T. C. Turk's

HAPPENINGS in the BIG CITIES

No Boring for Oil in Texas Graveyards

AUSTIN, TEX.—The railroad commission has declined the application of H. R. Kerstetter of Mexia to drill for oil and other minerals in the Hancock and Bennett graveyards in the Mexia oil fields. These two graveyards contain two and one-half acres of land.

To grant the application, the commission announced in its decision, would amount to a desecration of graves on land which is admitted by all parties to be definitely located graveyards and would be contrary to "good order and propriety." At the hearing considerable opposition developed, not only by relatives of dead persons whose bodies are buried in these graveyards, but by oil companies whose holdings are adjacent to these graveyards.

Anticipating adverse action on the application, Kerstetter filed a supplemental application with the commission to drill a well 170 feet from the line represented as the Hancock cemetery. As this location is not used as such and is sufficiently removed from the admitted graveyards,

One a Minute Also the New York Rate

NEW YORK.—Ten women, prominent socially, who claim to have put more than \$800,000 into a mythical "pool" promoted by Alfred E. Lindsey, broker, were summoned to appear before a Supreme court grand jury and help piece together the details of a remarkable story of "high finance."

Rice, \$25,000; Mrs. Josephine A. Cornell, \$20,000, and Miss Florence James, \$5,000. Lindsey's favorite story, Assistant District Attorney Murphy declared, was that he was a fellow member with George F. Baker, Thomas W. Lamont, Charles E. Sabin, Percy T. Rockefeller, James A. Stillman and other giants of the financial district, in a millionaire domino club, where the time not spent in playing dominoes was given over to planning big "killing" in Wall street. This club was supposed to maintain secret rooms at a New York hotel.

Governor Squares Himself as Lawyer

DENVER.—Acting Gov. Earl Cooley pardoned Lafayette Jones, who was sent to the penitentiary in 1907 on a charge of horse stealing, because Cooley, who was Jones' attorney, believes that he did not defend him correctly.

The affair has been worrying me all these years," said Cooley, after posting Jones' pardon. "I am convinced to this day that he was innocent. I was a young and inexperienced lawyer at the time and I am convinced that it was my poor defense of my client that sent him to the penitentiary.

Three New Bird Sanctuaries in Texas

MERCEDES, TEX.—Three wild bird sanctuaries have been established in the Lower Gulf Coast region of Texas, under the direction of T. Gilbert Pearson, president of the National Association of Audubon Societies, who has been spending several weeks in this part of the country making a study of bird life.

ed by many birds, some of which are to be found in no other part of the United States. During his research of the lower border region, Pearson says he discovered not only many practically unknown species of birds, but he found the wilderness alive with other kinds of wild animal life. He was especially interested in the Collared Peccary, commonly known in this region as "The Javelina," or wild Mexican hog. These ferocious animals roam the chaparral by the thousands, Pearson said.

600,000 MINERS ORDERED TO QUIT

WORKERS DIRECTED TO GIVE OPERATORS AID IN PROTECTING PROPERTY.

COAL STRIKE CALLED

FIRST TIEUP OF BOTH ANTHRACITE AND BITUMINOUS MINES IN HISTORY.

(Western Newspaper Union News Service.)

Indianapolis, Ind.—Suspension of work by all union coal miners at midnight, March 31, was ordered by officers of the United Mine Workers of America, the call being the first ever issued for both bituminous and anthracite workers to walk out simultaneously.

The order, which was sent to the 3,000 local unions, directed the miners to give the operators their fullest cooperation in the protection of mine property and counseled against violence and violation of the law. In addition to affecting all union miners in the United States, the order also directed approximately 6,650 union men in western Canada to join in the walk-out, but did not apply to 14,000 miners in Nova Scotia.

Never before in the history of the coal industry has a suspension or strike order called for cessation of work by all union miners in the United States. In the past wage contracts in the bituminous and anthracite fields have not expired at the same time, but a complete tieup in union fields was considered during the great anthracite strike in 1902. A sympathetic strike by the bituminous miners at that time was rejected by the union's convention, it being argued that the soft coal workers were bound by a contract.

The issuance of the call came with the recent strike vote of soft coal miners not completely tabulated, but it was said officially that the work of the union's board of tellers had progressed to such a point as to show every field voting overwhelmingly in favor of a suspension. Indications were that nine-tenths of the miners favored the walkout.

Cessation of the suspension, in whole or part, is left to the union's policy committee, composed of more than 100 union officials. Outstanding among the questions to be considered by the committee is that of negotiating single state wage agreements. A division within the committee on this question seems certain, with indications that a majority will oppose the single state proposition.

The suspension order, which said blame for the walkout in the soft coal fields rested with the operators for refusing to negotiate a new contract with the union, and with the failure to reach a new agreement with the hard coal operators, was mailed by office employes at the union's headquarters here in the absence of officials. The procedure, however, had previously been arranged by officials, and the release of the call was directed by officers, who were in New York meeting with anthracite operators.

France Denies Jap Treaty.

Paris.—The French government took cognizance of reports it understood had been circulated in the United States to the effect that Marshal Joffre, while visiting Japan had signed a treaty for the exploitation of Siberia by France and Japan.

Ousted Mexican Official Balks.

Mexico City.—The situation in the state of Jalisco is growing grave in consequence of the attitude of former Gov. Basilio Vadillo, unsentenced recently by the local Legislature because of alleged irregularities in office. Deputy Antonio Valdez Ramirez was named governor by the local Legislature. Senor Vadillo refuses to recognize the Legislature's decision and is said to be planning establishment of a new state government. His followers are reported as considerably agitated and are said to be organizing armed units.

London Acts to Prevent Civil War.

London.—The British government has intervened to prevent war between the Irish Free State and Ulster province. Sir Laming-Worthington-Evans, secretary of war in the British cabinet, announced in the House of Commons that the military garrisons in the north of Ireland were being strengthened and that efforts were being made to restore order in Ulster. The seat of disturbance is the southern frontier of Ulster, where two armies of orangemen and Republicans face each other.

Secret Treaty is Denied.

Washington.—The sensation over suggestions of a secret British-American co-operative "understanding" suddenly flickered out in the Senate. A succession of formal denials, emanating from sources that ranged from the White House down, showered opponents of the four-power Pacific treaty as they were preparing to ask for a formal investigation. At the White House officials said flatly that no secret agreements of the character suggested existed.

A Short Time Ago I Weighed Only 80 Pounds—Now I Weigh 112 Pounds and

TANLAC

is what built me up so wonderfully, says Mrs. Barbara Weber, 315 Van Ness Ave., San Francisco. She is but one of thousands similarly benefited.

If you are under weight, if your digestion is impaired, if you are weak and unable to enjoy life to the fullest measure, you should take Tanlac. At all good druggists.

Can Be Carried Too Far. "Self-help is all right," said Uncle Eben, "but you can't git along without considerin' yo' fellow man. Tryin' to be too independent of assistance is what gits folks arrested for counterfeitin'."

Weigh the average man and he will be found wanting—the earth.

"The best tobacco-bargain I've ever found"

Here is the story of a man who wouldn't take something for nothing:

1540 Hillcrest Road, Cleveland, Ohio. Larus & Bro. Company, Richmond, Virginia.

About a year ago, in Richmond on a business trip, I was fortunate enough to be allowed to go through the factory where you manufacture Edgeworth Tobaccos. Until that time I had supposed that tobacco manufacture was a comparatively simple operation, and I was very much impressed by seeing how carefully you choose the leaf tobaccos used in Edgeworth, how exactly you blend and treat the various kinds of leaves, how scrupulously clean your factory is kept.

During my visit I helped myself to a can of Edgeworth from a pile on one of the packing tables. I'm enclosing 16 cents to pay for that can. I know you'd have been glad to give it to me, but I want to pay for it because I consider it the best tobacco-bargain I've ever found.

Until that time I'd never used a pipe tobacco that really suited me. One kind was too strong—it left me groggy. Another burned unevenly and wouldn't stay lit. Still another gave me a sensation like heart-burn. None tasted quite right, and practically every kind, after two or three pipefuls, left me with a sore tongue and a parched mouth and a dark, dark brown taste.

Well, I smoked that package of Edgeworth from your factory and, to be brief, it suited me down to the ground. It was a real find. I've stuck to Edgeworth since that time and so far I've failed to notice any of the bad qualities that bothered me in other tobaccos. Several of my friends also have adopted Edgeworth on my recommendation, and they're as enthusiastic about it as I am.

Yours very truly, [Signed] Edward A. Evans.

We can add nothing to such a recommendation. Would you like to learn if Edgeworth would suit you as perfectly? It may not—or it may.

Just drop us a post-card bearing your name and address, also those of the store where you buy most of your tobacco. We will send you samples of Edgeworth in both forms—Plug Slice and Ready-Rubbed.

Edgeworth Plug Slice consists of flat cakes made up of a large number of thin, oblong slices. One slice rubbed between the palms of your hands furnishes an average pipeful.

Edgeworth Ready-Rubbed is the same tobacco already rubbed up for you and in form to pour right into the bowl of your pipe.

Both kinds pack nicely, light quickly, and burn freely and evenly to the very bottom of the pipe.

Edgeworth is sold in various sizes to suit the needs and means of all purchasers. Both Edgeworth Plug Slice and Edgeworth Ready-Rubbed are packed in small, pocket-size packages, in handsome tin humidors and glass jars, and also in various handy in-between quantities. For the free samples which we would like you to judge, address Larus & Brother Co., 41 South 21st Street, Richmond, Va.

Pan American Conference of Women

THE Pan American Conference of Women, to be held April 20-29 in Baltimore in connection with the third annual convention with the National League of Women Voters, will be an important gathering. Its purpose is to carry forward the movement initiated at the Second Pan American Scientific Congress in Washington in 1915 by the formation of a woman's auxiliary committee to develop closer co-operation between the women of the Western Hemisphere. The invitations to the conference were sent out by the United States State department on behalf of the National League of Women Voters, which is the latter day form of the old-time National American Woman Suffrage association. Early acceptances were received from seven Central and South American nations and at this writing official representation of virtually all the republics of Hispanic America seems assured, as well as of Canada. The attendance of delegates from women's organizations of various kinds is expected to be large.

The opening feature of the conference will be a series of round-table conferences on subjects of special interest to women. They include such topics as child welfare, education, women in industry, civil status of women and social hygiene. The sessions will be in charge of eminent women, each an expert on her special subject. These experts have been invited to lead the discussions, but it is expected that delegates from the Pan American countries will play an active part.

The League of Women Voters has planned its program in the belief that not only will a Pan American gathering of women tend to cement a closer bond of fellowship between the American peoples, but that very definite results may be achieved through the round-table conferences. Thinking women everywhere are recognizing today the necessity of raising the standards for women in industry, of securing legislation that will guard the civil rights of women, and of protecting in every possible way those who need protection. To this end it is fitting that the women of the American continent should come together to discuss the best means to the desired end, and that they should have an opportunity to help one another through friendly conference and consultation.

Mrs. Carrie Chapman Catt, president of the International Woman Suffrage Alliance and honorary chairman of the National League of Women Voters, who is to lead a conference dealing with the "Political Status of Women," has said: "We know that women have particular desires, hopes which are peculiarly their own, ideals which their habits of thought and life have developed within them. It is of the utmost importance for all women to draw closely together, so that those who think and are able to formulate constructive programs may give to their groups, their communities, the highest interpretation of the woman's point of view."

The round-table conferences are to be held on April 20, 21, and 22. Sunday, April 23, a mass meeting is planned, which will be addressed by the Pan American delegates, the general subject being "Leaders Among Women." This topic should call forth not only inspiring stories of the women whose names are recognized in the history of the Americas, but news of the great women of our own day, pioneers of this generation, who are making the way easier for the women and children who are to come.

On the evening of April 24 a banquet will be held. There will be speeches by eminent men and women of the United States and by the Pan American delegates. The general subject of these speeches is to be "International Friendliness."

The next three days will be given to sessions of the annual convention of the National League of Women Voters. To these meetings the Pan American guests are cordially invited, and all the privileges of the floor will be accorded them except a vote.

The program for the conference will not close until April 29. Plans are being made for the entertainment of the delegates during the closing days, and many groups and individuals have expressed a wish to extend hospitality in some form to the visitors. Bryn Mawr college has invited the league to bring its guests to the college for a day, when Dr. M. Carey Thomas, its president, will give them a luncheon. Goucher college, in Baltimore, also wishes to throw open its doors to the conference guests and extends a cordial offer of hospitality and co-operation.

Other special features that have been planned are a trip to Annapolis and a day in Washington.

The invitation to Annapolis, the capital city of Maryland, comes from the governor of the state, who will receive the delegates. A visit to the United States Naval academy will be included in the program of the day.

The day in Washington will be given largely to visiting places of interest—the Capitol, the Pan American Union, and other public buildings. In the evening a mass meeting will be held, at which prominent speakers will discuss "What the Women of the Americas Can Do to Promote Friendly Relations"—a subject which embodies the guiding thought of the entire conference.

Mrs. Maud Wood Park, president of the National League of Women Voters, has said that women are instinctively ready to work together for the things that they wish to accomplish, because their interests are co-operative rather than competitive.

"Women's distinctive interests," Mrs. Park said, "are in common—home making, children, general welfare—whereas men's distinctive interests are sometimes of necessity conflicting and have to be settled by compromise. There is nothing about the ordinary occupations of women which is competitive. To illustrate, if the women of one nation are able to secure a child-welfare measure, and to develop and improve their work along these lines, their step in advance is a help and not a hindrance to the women of all other nations. The occupations and interests of women are the occupations and interests of peace, and lend themselves readily to co-operation."

While the leaders of the round-table conferences will prepare outline programs covering the topics under discussion, they have agreed that these programs should be informal and elastic, offering ample opportunity for free expression of ideas.

Miss Julia Wade Abbott of the United States Bureau of Education, will be in charge of the conference on "Education." Speaking of the plan for this conference, Miss Abbott says:

"It is significant that the women of the Western Hemisphere should come together at this time to discuss education in its relation to the welfare of women and children. This conference should help define what is meant by the term 'American education.' For the term American education should be applied not alone to the 48 different state systems in the United States of America. American should define an education that is based upon the common needs and interests of the people in this New World: in Canada, in the countries of South America and Central America, and in the United States of America. On this side of the water we are more or less free from academic traditions. As women, we have been the first teachers of the race, and with us education has always been related to life. Is it too much to hope that because we bring an untrammelled point of view to this conference we may make a real contribution to education? In discussing educational conditions in the different countries the efficiency of the schools may be tested by the degree to which they are providing for the great objectives of education—health, practical efficiency, citizenship and the enjoyment of leisure."

Miss Mary Anderson, chief of the Bureau of Women in Industry of the United States Department of Labor, will be the leader of the conference on "Women in Industry." She says:

"The conference will be interesting to the woman in industry because of the large import and export of commodities produced in South American countries and in the United States. Women in the industries of all these countries are faced with common problems which must be solved in co-operation. Industrially the Americas are linked and the standards of one must affect those of the other. For instance, in both the South American countries and the United States we have commodi-

ties which are manufactured in the homes. Home work in these lines is not what it was before the development of industry when all the spinning, weaving and the making of clothes, shoes and gloves, and most of the food products which are now made in the big stockyards, were manufactured in the home. The difference in home work now and then is that instead of work going from the home out in the factories, the work is now collected in the factories and taken to the home, finished and carried back to the factory. The poor conditions which usually surround home work, the child labor which enters into it, the impossibility of regulation by law either as to sanitation or hours of labor, and the competition of low wages, all militate against the health, happiness and efficiency of the individual, the industry, and the community."

The conference on the "Prevention of Traffic in Women" is to be led by Dr. Valeria H. Parker, executive secretary of the Interdepartmental Social Hygiene board. Dr. Parker speaks of the plan as follows:

During the past three years the United States government has been expending generous sums of money for social hygiene purposes. The women of the United States have supported the government program actively. They recognize that much remains to be accomplished and are determined to use every effort to prevent the re-establishment of the vice districts closed during the war. There are many vexatious problems connected with the abolition of the social evil.

Miss Grace Abbott is to lead a conference on "Child Welfare." Miss Abbott is chief of the children's bureau in the United States Department of Labor. She says of the conference:

Latin Americans interested in the problems of child care took the initiative in calling a Pan American Child Welfare conference in Buenos Aires in 1916. Its objects were to establish and cultivate a common understanding of these problems among those who are specialists in that field. A second meeting of the congress was held in May, 1919, in Montevideo. On both of these occasions students and workers in the field of child care in the United States failed to appreciate the opportunity which the conference offered for comparison and co-operation in the work, as well as for Pan American acquaintance and understanding. This invitation to the women of North and South America to join with the League of Women Voters in the discussion of child welfare and other common problems is therefore a peculiarly happy one.

"The Conference on Child Welfare will have before it the problem of public provision for (1) maternity and infancy, (2) child hygiene, (3) child labor and industrial problems affecting children, and (4) children in need of special care—the dependent, neglected, defective and delinquent children. It is hoped that formal papers can be all but eliminated and informal discussions and exchange of experience and plans can be relied upon to make the conference one of really practical value. It ought to be possible to work out as a result of these meetings what may be regarded as Pan American standards in these several fields of child welfare, which will be an expression of what the women who represent the young, rich and powerful republics of the New World hope they may secure for all the children of the American republics. It may be that out of this meeting there will be developed a national rivalry in the care of children and, in consequence, of the quality of the citizenship. In such rivalry there will be only rejoicing on the part of all as the standard is pushed higher and higher."

"The Civil Status of Women" will be the subject of a conference led by Mrs. Mabel Walker Willebrandt, assistant attorney general of the United States.

FARM CHEAP LAND

Why Western Canada Agriculturalists Are Smiling.

Low Overhead Expense and Bountiful Crops Have Enabled Them to Overcome Agricultural Depression.

The recent agricultural depression brought to the eyes of the world the fact that one of its basic industries was likely to suffer a severe blow unless steps were taken to secure a remedy. Physician after physician applied remedial, but even parliamentarians and newspapers were unable to place their finger on the pulse that would respond. As it appears today, it was a spasmodic wave due to the ebb and flow of the tide of readjustment that was bound to follow a disturbance such as the Great War caused.

Psychologically it was bound to change; there was certain to be a reflex movement that would bring agricultural conditions back to the place where they normally and rightly belong.

Efficiency and sound business judgment are needed more in agriculture today than ever before and are as important to the farmer as to a railroad company, or to a great steel corporation.

The farmer must endeavor to secure an equal footing in the competition for a lower cost of production. In Western Canada the farmer has come through the dark era with that fortitude and determination so peculiar to a new country, and is meeting the changed situation with energy and a smile. In Western Canada the farmer is not hampered by an annual overhead expense of heavy interest on high-priced land. He is able to produce at a minimum, because his land value seldom exceeds \$50 an acre.

Owing to the fact that he is farming land the price of which is from \$25 to \$50 an acre, producing crops of wheat running from 20 to 40 bushels per acre, and other grains in proportion, he is able to produce at a low cost. In addition to this, a fact which should not be lost sight of, is the large area that he can farm at low cost, giving him an added advantage in reducing the cost of production.

The corn that the farmer fully expected to bring him over a dollar a bushel, he saw carried away to the market, and bring back a 30 or 40 cent check. Wheat for the whole of Canada averaged 86 cents a bushel in 1921 as compared with \$1.02 in 1920; oats 37 cents as against 53 cents; barley 47 cents as against 83 cents. Other grain prices similarly fell. While other parts of the continent, where grain-growing is carried on, have suffered in like manner by deflation in prices, they have had to face a much higher cost in production, such as high rents, high-priced farms, and high taxes. Farmers had calculated on receiving war or nearly war figures for their grain and therefore were amply justified in submitting; to the tax that soaring land prices set upon them. Western Canada fortunately did not suffer from inflated land prices. Therefore, when grain prices fell, the losses sustained were not so great; they did not cut out the margin of profit, excepting in some cases where some climatic conditions caused it.

Why not take advantage of the Homeseekers' rate to any point in Western Canada, of return rate single fare plus \$2.00, and get information from the nearest Canadian Government agent?—Advertisement.

All Depends.
No place is so fine as it seems when you are homesick for it, and no place so bad as it seems when you are homesick in it.—Farm Life.

When Heine Was a Tramp.
Heinrich Heine was a tramp. He tramped all of one summer through Saxony in an old coat. He was going to Weimar to flatter—that seems odd—Goethe. As he wandered through the Harz mountains conning the speech he meant to make to the great German poet, he plucked plums by the way-side. When he reached his destination he forgot his engly and could only stammer his praise of Saxon plums. The railing, cynical exile of Paris, prodding his enemies with a trenchant pen, was that summer lovable as a tramp.—Exchange.

Suggestion.
Richard, age five, had been left at home in the care of one of his aunts for a few days. It appeared to the aunt that Richard usually managed to do just the things that she had forbidden him to do. Finally she mentioned that fact to Richard, only to receive the following reply: "But, auntie, I never think of those things till you talk about them, and then it seems to me that I just must do them."

His Business Secret.
"Kindly inform the court how you managed to keep your credit open," was demanded during a trial for bankruptcy. "Certainly," replied the defendant, "but allow me to suggest that I impart this information behind closed doors. There are several of my competitors present, and I have no desire to teach them the secret."

Don't Be Afraid.
We never knew of a man catching cold from leaving off his bad habits.—Boston Transcript.

INFORMATION DEPARTMENT

Commercial inquiries answered and information gladly furnished without cost. Address any firm above.

Denver School Builds New Home.
Denver.—The School of Commerce of Denver University has purchased a site at Twentieth street and Glenarm place and will begin construction of a new building this month. The plot opposite the civic center first selected has been given up in deference to the protests against interfering with the plan of civic betterment involving the use of the latter site. The new structure will measure 75x100 feet and will contain two stories and a basement. It will be fitted not only with classrooms, but with offices, clubrooms and a large gymnasium. Its cost, including the land, will approximate \$75,000. The School of Commerce is now located at 1643 Champa street and at Thirteenth avenue and Bannock street, but still it is necessary to hold classes in the lobbies and halls. The new building will be ready for use before the opening of the new term next September.

Young Dodge Gets Jail Term.
Detroit.—John Duval Dodge, millionaire son of the late John F. Dodge, the Detroit automobile manufacturer, was sentenced to five days in the house of correction and fined \$100 by Judge Charles L. Barrett, in Recorder's Court when he admitted driving his automobile twenty-three miles an hour—three miles in excess of the speed limit.

Obeys Instructions to Get Cat-tails.
Huntington, W. Va.—"Go out and get some cat-tails," a teacher at English school here instructed students in a botany class. A 14-year-old lad, whose name is withheld, turned up the next day with the bloody tails of seven house cats. "I chopped 'em off with a hatchet," he remarked with some pride.

"Gold Coast" Shaken by Bomb.
Chicago.—The "Gold Coast," the home of many of Chicago's wealthiest families, was shaken to its foundations by a bomb exploded at the home of Alderman Charles J. Agnew.

Admits Having Eleven Wives.
Indianapolis, Ind.—Confessing that he has had eleven wives, some of whom he does not even remember by name, Isaiah Moore, 32, alias George S. Melrose, is held here, charged with bigamy and embezzlement. Moore admitted defrauding several women of sums of money, police say. Moore is charged with embezzling \$500 from his last wife, Miss Harriet Evans, now a school teacher in a northern Indiana town. He is said to have deserted her here one week after marriage.

Judge Releases Model Prisoner.
Leavenworth, Kan.—After serving nineteen years of a life term for murder, Frank Jones has been released from the federal penitentiary here. When Warden Biddle notified Jones of his release the prisoner declared his innocence. "You may think it strange that I entered a plea of guilty to murder and now declare that I am innocent, but I did it to escape mob violence," Jones told the warden. Jones has not violated a single prison rule since 1913, Warden Biddle said.

Entertainers Demand Compensation.
New York.—Appreciative, but non-paying wireless amateurs, who have been sitting at home listening to world famous entertainments, face an edict of the Actors' Equity Association that such performers must be paid for their work. Announcement is made that the council of the association has ruled that the radiophone is competing with the theater and that those who talk or sing in the transmitting apparatus must be compensated.

Uncommon Sense ...

By JOHN BLAKE

ANALYZE MISTAKES

WHEN you make a mistake, find out why you made it. Think it over a few minutes. Fix in your mind the manner in which it happened. Be ashamed of it, if it is a bad mistake. Scare yourself about it, if it is a dangerous one.

The child never forgets the mistake he makes when he puts his finger in the fire. That mistake he has to think about for a long time afterward. One of the kind is always enough for him.

Admiral Peary's Eskimo dogs made the mistake of eating all that was given them when they were encamped in the Arctic regions waiting for one of his dashes to the pole. Apparently they remembered that mistake when the food ran out and some of their number had to be eaten.

When the survivors of the pack returned to America they were very sparing of the food that was given them, and buried the remainder. More than that they scoured the neighborhood for food to bury. They had had time to think over their mistakes.

Most people have much the same sort of work to do every working day. Those who do not think over their mistakes continue to make them and

for the most part they always stay where they are.

Men who make the same mistakes twice never get the confidence of an employer.

Those who think about their mistakes, and find out ways to eliminate them, are those who get along.

It is better to discover your own mistakes than to wait for the boss to discover them. Discover them early, and you can do without them the next time.

Go over your work. If it is not up to the mark that you ought to make, you have either made important mistakes, or wasted time, which in itself is an important mistake.

Think about that. Let it sink into your soul. Think how it held your work back, and what the repetition of it will do to your life's work.

This may not contribute to your repose the night you are thinking about it, but it will make you sleep better for many a night to come. Perfection is the absence of mistakes. We cannot any of us achieve it, but we can all achieve a pretty fair substitute by cutting mistakes to the minimum.

YOUR HAND

How to Read Your Characteristics and Tendencies—The Capabilities or Weaknesses That Make for Success or Failure as Shown in Your Palm

THE FINGER NAILS

WHEN the "moon at the root of the finger nails shows a red color of mixed shading, it is an indication of a combative nature, which delights in contests of bodily strength or mental agility. Note whether the nail of the finger of Saturn, or second finger, bears a white mark. This is held by some authorities to indicate a voyage to be undertaken by the subject. If a nail shows black marks, it is an indication of sorrow and trouble. On the thumb nail the black mark shows a faulty, passionate nature. On the nail of the finger of Mercury, the little finger, a white spot means a successful business enterprise, and a black spot means the opposite, a reverse or disaster in business.

If there is a white, star-shaped mark on the nail, it is a sign of affection that is not reciprocated, except when the mark appears on the thumb nail, when it means the opposite, or requited affection.

Nails of medium length and width, and of a bluish tint, show that the circulation of the blood is faulty, and there is a tendency toward extreme nervousness.

DYED HER SKIRT, DRESS, SWEATER AND DRAPERIES WITH "DIAMOND DYES"

Each package of "Diamond Dyes" contains directions so simple any woman can dye or tint her worn, shabby dresses, skirts, waists, coats, stockings, sweaters, coverings, draperies, hangings, everything, even if she has never dyed before. Buy "Diamond Dyes"—no other kind—then perfect home dyeing is sure because Diamond Dyes are guaranteed not to spot, fade, streak or run. Tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton or mixed goods.—advertisement.

Already Deceased.

Leonard is a four-year-old Fairmount lad, who adores his daddy. Recently he, his father and his mother and his little sister went for a visit with his grandmother in a neighboring village. In passing through Marion they stopped at a stand to have their shoes shined. The presiding genius of the shoe shining establishment while at work on Leonard's shoes, said: "Well, my little man, what are you going to be when you grow up?" "A daddy," was the prompt reply.—Indianapolis News.

Something to Think About

By F. A. WALKER

RESTRAIN YOUR SPEECH

WHEN inclined to speak of a person's faults, though he or she may be unfriendly towards you, restrain yourself, and think of your own shortcomings.

Then, if you are a charitable soul, you will turn your conversation into another channel where there are no hidden dangers and go sailing under clear skies in joyous sunshine.

One thoughtless, impulsive, slanderous word spoken in the presence of others, and particularly in the hearing of those given to gossip and disposed to magnify what they hear, may ruin an innocent man or woman for life.

Clean your own house before you set about the task of cleaning the house of your neighbor.

Purify your own soul of shortcomings and you will find yourself so busy in doing it that you will not have time nor inclination to discuss the defects of others.

"Let him without sin," said the Master of Men, "cast the first stone." And the accusers of a hapless woman stole away, one by one.

SCHOOL DAYS

In lying down to sleep, in waking and in motion, there come no regrets, no torments to torture a guilty conscience, no remorse that ages the heart and drives the soul to despair.

If it did nothing else, this charitable observance would serve at least to give you peace, make you great-hearted and enable you at all times to strike the nicest balance between right and wrong, and to hold the respect and love of the community in which you live.

And after all is said and done, what is there more to be desired in life than the good will of neighbors, whose hearts and hands are always warm and friendly?

KIDDIES SIX

By Will M. Maupin

LITTLE MAN

THE "Biggest Boy" has gone away, But "Little Man" is here. I miss the "Big Boy's" heavy tread, But rising sweet and clear, I hear the "Little Man's" request "When 'Daddy's' face he sees: "I'm papa's ownest Little Man— Give me a penny, please!"

The "Biggest Boy" is not at home, And though his absence hurrs At least there's comfort—I can find Clean collars, socks and shirts, And when I look about and see The "Little Man" at play, That lonesome feeling in my heart Just somehow fades away.

The "Biggest Boy" has "hit the trail," But "Little Man" still stands Beside his "Daddy's" easy chair And stretches out his hands; He smiles and says with coaxing voice While climbing on my knees: "I'm papa's little man today; Give me some candy, please!"

One boy has gone to fight his fight; One boy remains with me— The "Biggest Boy" with bearded lip, The "Little Man" aged three, And may the one who's far away "Midst life's hard toll and care Remain as fond of 'Dad' as he Who stands beside my chair.

HERE IS IDEAL PHILOSOPHER

Happy Man Gets Rid of Trouble by the Simple Process of Burning Them Up.

"By George, but this is a fine day!" exclaimed one man as he met another on the street.

"Yes, so it is," was agreed, "You are looking very happy this morning."

"Happy? I haven't been so happy in three months."

"What has occasioned your happiness?" was asked.

"When my mail came in an hour ago it brought to me a coal bill, a bill from the grocer, a letter from my landlord raising my rent, and a doctor's bill two years old. Also a notice that my taxes had not been paid and a gas and electric light bill."

"It was enough to fairly crush one and I can't see how you can be happy."

"Why, it is a very simple thing. All I had to do was to put the bills in the fire, and forget all about their arrival. Yes, sir, it is a mighty pleasant day. When you have trouble on your mind the best way is to burn it up."—St. Louis Globe-Democrat.

No Up to Dates Ones.

The manufacture, sale or keeping on stock of matches containing phosphorus is illegal in Belgium.

ADDING INSULT TO INJURY MAN TO BE CONGRATULATED

Still, It Must Be Admitted That Thief Had Logic of Matter on His Side.

A man was charged in Glasgow with stealing a herring-barrel. After the charge had been proved the accuser addressed the magistrate:

"Deed, Sir Bailie, the man at the bar is a great rogue; the stealing of the barrel is nothing to some of his tricks. He stole my sign-board last week, and what does your honor think he did with it?"

"That would be hard for me to say," replied the magistrate.

"Weel, sir," said the witness, "I'll tell ye. He brought it into my ain shop, w' my ain name on it, an' offered to sell it to me, as he said he thought it would be o' mair use to me than anybody else."

Hard on Grandma.
In a school not so far from Indianapolis the first grade teacher taught the children to say "yes mam," and "no, mam."

One of the children was telling this at home to grandma.

Grandma answered, "Well, that is proper."

The child said, "Proper nothin'. I never heard of such a thing before."

Poor Bookkeeper Was Doing His Rejoicing Over the Arrival of Twins by Proxy.

"Reformers can talk about the evils of race suicide as they will, nobody in these days of high prices considers a large family a blessing."

Dr. Hahnemann Morfit, the Chicago eugenicist, was addressing the Birth Control league.

"Even the reformers," he went on, "seem to advocate large families for other people rather than for themselves. They are like Bunker."

"Bunker, you look blooming," said his boss. "What are you rejoicing over this fine morning?"

"I am rejoicing, sir," said Bunker, the poor bookkeeper, "over the birth of twins!"

"Humph, congratulations," said the boss dubiously.

"Oh," said Bunker, "don't congratulate me, sir. Congratulate George Evans, my worst enemy. He's the lucky man!"—Detroit Free Press.

Spirit That Makes for Victory.
A handful of pine-seed will cover mountains with the majesty of green forest, and so I too will set my face to the wind and throw my handful of seed on high.—Flora MacLeod.

CANDIES FOR THE CHILDREN

AT ALL times of the year the children clamor for candy, but during the cold weather it is more frequently made in the home.

Opera Fondant.
Put two cups of sugar and one cupful of heavy cream into a saucepan and stir until the sugar is dissolved and the boiling point is reached, then add one-eighth of a teaspoonful of cream of tartar and boil until the sirup makes a soft ball when dropped into cold water or until the candy thermometer registers 238. Pour at once without scraping the dish on to a marble slab or large platter lightly greased with butter. When cold work with a wooden spoon or broad spatula until it forms a ball. Cover with a damp cloth and leave for half an hour. Then knead and mold with the hands until smooth, adding such flavoring and coloring as desired and pack in a crock. Cover closely and leave until wanted.

Opera Bonbons.
Divide opera fondant into several portions, flavor each and color, then

add different kinds of chopped fruit. Shape into balls or press into a box lined with waxed paper and when firm cut into cubes.

Cream Mints.
Put one and one-half cupfuls of sugar, one-fourth of a cupful of water and two tablespoonfuls of corn sirup into a saucepan. Boil to the soft ball stage and pour out on a buttered platter to cool. When cool, work with a wooden spoon until creamy. Set away covered with a cloth. When ready to prepare, melt over hot water, add peppermint and drop by teaspoonfuls on waxed paper. Wintergreen patties may be prepared by adding a bit of pink coloring and wintergreen flavoring.

Copyright, 1922, Western Newspaper Union.

INTENSIVE FARMING.
The Visitor—Do you call this a dairy farm? It's no bigger than a city lot. The Dairyman True! But, you see, I feed my cows on compressed hay tablets and they give condensed milk.

Wishing for sleep is a poor way to get it

A LITTLE wisdom in the daytime is a better assurance of rest than any amount of anxious wishing when nerves are a-jangle at night.

What you do at noon often has more influence on sleep than what you want and hope for, at midnight.

Coffee's drug element, caffeine, whips up the nerves, and when its use is continued there's usually a penalty which no amount of mental effort can avoid.

The part of wisdom, as so many thousands have found, is to turn away from nerve-stimulation and adopt rich, delicious Postum as the mealtime drink. Postum delights the taste, but brings no disturbance to nerves or digestion. Even the little children can share in the enjoyment of Postum at any meal.

It's better to anticipate warnings than to be driven by them.

It's better to encourage and preserve sound nerves and complete health than to listen to the clock ticks at night and say, "I wish!"

You can get Postum wherever good food or drink is sold and served. An order today may be the beginning, for you, of the great satisfaction and comfort which so many others have found in Postum.

Your grocer has both forms: Instant Postum (in tins) made instantly in the cup by the addition of boiling water. Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared) made by boiling for 20 minutes.

Postum for Health—"There's a Reason"
Made by Postum Cereal Co., Inc., Battle Creek, Mich.

NOTICE OF SALE

Of Court House and Jail Bonds; Bonds for the purpose of meeting Federal Aid and Forest Reserve Road Projects, and Bonds for the Purpose of Constructing and Repairing of public roads and bridges in Catron County, State of New Mexico:

Notice is hereby given that the undersigned, county treasurer of the County of Catron, in the State of New Mexico, will on, Thursday, April 6th, 1922, at the hour of three o'clock in the afternoon of said day, at his office in Reserve, New Mexico, offer for sale and sell to the highest bidder for cash, the following described bonds:

Fifteen Thousand Dollars (\$15,000.00) Court House and Jail Bonds, bearing interest at the rate of six per cent per annum, payable in thirty years from date, but redeemable, at the option of the county, twenty years from date.

Ninety Thousand Dollars (\$90,000.00) of Federal Aid and Forest Reserve Project Bonds, bearing interest at the rate of five per cent per annum, payable in thirty years from date, but redeemable at the option of the county twenty years from date.

Twenty-five Thousand Dollars (\$25,000.00) of Bonds for the construction and repairing of public roads and bridges in Catron County, State of New Mexico, bearing interest at the rate of six per cent per annum, and payable thirty years from date, but redeemable at the option of the county twenty years from date.

No bids shall be considered for less than 90 per cent on the dollar and the undersigned reserves the right to reject any and all bids received.

Dated at Reserve, New Mexico, this 6th day of March, 1922.

August Kiehne,
County Treasurer.

STATEMENT

Of the ownership, management, etc., required by the act of Congress of August 24, 1912.

Of the Reserve Advocate, published weekly at Reserve, N. M., for April 1, 1922.

State of New Mexico) ss
County of Catron)

Before me, a notary public, in and for the state and county aforesaid personally appeared A. H. Carter, who having been duly sworn according to law, deposes and says that he is the publisher of the Reserve Advocate.

The name and address of the publisher, editor, managing editor and business manager, is A. H. Carter, and his address, Reserve, N. M.

That the owner, is A. H. Carter, and his address is Reserve, N. M.

That the known bond holders, mortgagees and other security holders owning 1 per cent or more of total amount of bonds, mortgages or other securities are none.

A. H. Carter, publisher, Subscribed and sworn to before me this first day of April, 1922.

T. C. Turk, Notary Public
My commission expires March 14, 1925

New Barber Shop.

Bob James, a first class barber is now open for business at the Pool Hall. All work of the best Mr. James will also do pressing and cleaning as soon as his new shop building is completed. He guarantees all work and asks for the patronage of the public in his two specialties, Barbering and Cleaning and Pressing.

Onion Sets, all colors and kinds at T. C. Turk's.

Pat Luna, of the First National Bank, of Magdalena was in town Sunday and Monday.

District attorney Fred Nichols, of Magdalena, was in town Monday looking after legal business in probate court.

T. C. Turk and A. W. Anderson made a business trip to Magdalena Monday returning Tuesday evening.

Ferry's Garden Seeds at T. C. Turk's. They are the best.

J. A. Fos, of the First National Bank of Magdalena, was in Reserve Monday on business connected with the W. J. Andrus estate.

Clean Up.

Nothing makes a town more attractive than neat, clean streets and alleys. Reserve is attractive but it would be much more so if our streets, alleys and yards were kept clean. Remove the unsightly garbage and tin cans from your premises. There are dumping grounds where they would not be an eyesore to every passerby, and it will not only help the appearance of the town but also make it a much healthier place in which to live.

What do you consider a fair price for a good suit? Name the figure and let us show you how much quality it will buy in a suit "Tailored by Born"

The Born line meets the demand for lower prices without sacrificing anything in quality; large sales volume makes this possible.
