LOCAL.

Reynolds & Griggs of Mesilla, offer to take orders for sewing machines at eastern cost and freight added.

IMPROVEMENTS.

Mr. Charles Lesinsky is fitting up a residence on Main Street.

Juan D. Ochoa, has put up the finest awning before his store, that we have in town.

Adobes are in demand and new houses and improvements are the order of the day.

THE CROPS.

We are told that the late heavy frosts have very much injured the wheat crop. So much so, that several fields have been ploughed up to make room for corn. The Sonora wheat has suffered much the most.

But little fruit will be raised in the valley this year. The damage arising from the severe frost in this section is estimated at \$150,000.

EL PASO SENTINEL.

We have received the second number of the new paper recently established in our neighboring town. E. T. Ryan Esq., is now controlling the paper and we wish him much success in his new enterprise.

We received last week a visit from Mr. Scott who is about to start a paper in the live town of Silver City. The paper will be out in a few days, and will no doubt be well supported by the citizens of that thriving place.

Capt. Williston, Mr. R. B. Metcalf and Prof. Burlingame passed through town last week for Silver City. Mining is going to be pushed with vigor this summer, and by fall the croakers will have disappeared.

The valley above Fort Selden and about old Fort Thorn, is being rapidly taken up by settlers. The land is excellent and well timbered.

Mr. Phillips has taken the Armo mare down to Franklin, to run against Dowell's horse, Ned Hanger. The race will come off in a few days.

The Silver City coach upset in Cook's Cañon last week, injuring the driver severely and breaking the leg of one of the horses.

Our Justice of the Peace and other officials have been quite busy of late in putting a quietus upon cattle stealing. Several parties have been arrested and are in jail awaiting trial.

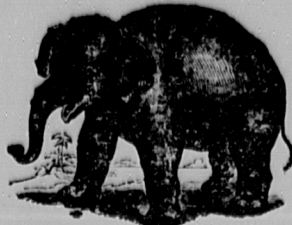

About ten men are now at work at Ralston, engaged in sinking on their claims.

LECTURE.—Prof. Fish delivered a lecture at the Court House Mesilla, on Thursday evening, upon the "Immortality of the Soul." Although we could not agree with the lecturer in his positions, yet his arguments furnish much food for thought.

Talking about the business done in this section. Reynolds & Griggs of Mesilla, offer to bet ten shares of Centennial stock, that their freight this season will pass the sum of \$25,000.

Prof. Fish and D. Abraham of Silver City, are in town, and from them we gather that the prospects of their rising city never looked more favorable. New comers are constantly arriving, and everything is going ahead with a rush.

Goulding has gone with men to the copper mines in the Francisco mountains, and expects with the force he has, to smelt two tons of copper per day. The "Two Ikes" mine in Silver City, is down one hundred feet, with a drift of thirty feet more, and the ore keeps on increasing in richness. The Providencia is awakening a great interest from the quality of ore taken out. Capt. Williston has out a large quantity of rich ore from the Texas mine.

NATURAL HISTORY.

[L. E. Hunt.]

Our subject is a colossal lump of dignity and strength; he bears upon his countenance the evidence that he is not a radical in politics, for he carries his trunk with him in all his travels, and no doubt looks upon a carpet-bagger with complacent contempt. His corpulent corposity however evinces the fact that he feeds somewhat at the public crib, and he thrives so well upon pap that the only positive test of his strength, would be to load him down with the congressional plunder in the back-salary grapple.

He would not be a cheap beast of burden for a poor farmer—in fact he would be a burden of a beast. Congress is only able to afford this beastly luxury, and even congress is compelled to purchase one on credit. They had one in Washington last winter thus purchased. His name was Mobilier—Oakes Ames raised the animal and sold congress to him, and then put the money where it would do the most good. Some christian statesmen in congress found they had syndicated for an elephant, and like most other syndicators did not know where to hide their plunder, so out of christian charity for the government, donated their bonds to that institution.

It is said that Brevet Lieut. Col. Fred. Grant, is going to travel with the animal as a side show to the Civil Service Reform.

The Prussian Emperor has gone on an imperial visit to St Petersburg.

The Indian Bureau don't coincide with Army officers in the opinion that an Indian war is probable. Indian bureau of course knows.

The Citizen urges the establishment of an assay office in Arizona.

The same paper speaks in glowing accounts of the free schools of that territory, and the increasing educational facilities. Good for our neighbor.

The troubles in Louisiana are daily increasing. Kellogg has telegraphed for more troops, and his power is to be sustained by the bayonet.

Fred Douglass will deliver two lectures in Denver, the first week in June. Those wishing tickets must secure them early.

Gen. Grant and the family are visiting Colorado. They have many peons down this way who would be glad to see them.

A heavy snow storm blocked both the Union Pacific and Kansas Pacific on May 1st.

The N. Y. World of the 22nd, in a long article on the Democratic party says: We fellowship all genuine free traders; we scorn political association with any protectionist. Every citizen who is unmistakably for free trade is a good enough democrat for us. No protectionist can be a democrat at all. We stake all our hopes on making the democratic party out and out, thick and thin, aggressive, and if you please, an intolerant free trade party, subordinate all issues to this, and thereby drawing to itself all citizens who have a true appreciation of its great principle.

And now comes the New York Times and alleges that: "Unfortunately true that the Republican party, in the recent session, was not greatly strengthened by its representatives in the recent congress. It may be questioned if the course of the administration itself was a source of unmixed advantage."

The San Diego Union in a recent article upon enterprise in advertising says:

"A writer on this subject in one of the periodicals has remarked that there is not on record a single instance of the failure to accomplish the object sought by a well-regulated, liberal system of advertising. Nor do we believe that this assertion can be disputed. We certainly cannot remember, in the course of somewhat extended and close observation, any case wherein a business man has persistently and judiciously advertised who has not attained success."

And we may carry this further. We do not know of any community in which the business men generally are well represented in the advertising columns of the local paper, that has not prospered beyond its competitors who neglect this exhibition of enterprise. There is no more unerring guide to the stranger of the true standing of a place than the advertisements found in its newspapers. There is no sign which more surely indicates energy, enterprise, thrift, prosperity and growth than a newspaper well filled with compact advertisements of the local business houses."

We have plenty men in this community, whose excessive modesty, want of foresight or something of that sort keep them from mentioning their names or business in the papers. On the other hand our columns will show a fair proportion of live business men, whose business transactions will constantly keep pace with the growth of the country, while their silent competitors will maintain their present status or quietly drop out of the ranks.

RATHER MIXED.

The Chicago Inter-Ocean contains the following:

Married.—In Chicago, April 20, by Rev. L. T. Chamberlain, Rev. Edward H. Smith, pastor of the First Congregational Church, Morrison, Ill., and Jennie G. Woodward, of Chicago. No cards. Contractors for harbor improvements will find it to their interest to occasionally glance at the Government advertisements in the Inter-Ocean.

Harbor improvements is good.

The last congress appropriated thirty thousand dollars for surveying public lands in New Mexico, at rates not exceeding fifteen dollars per linear mile for standard lines, twelve dollars for town ship, and ten dollars for section lines.

Let it be remembered that joy is the warm sunny side of the mind and of the body.

Two hundred and fifty thousand dollars was appropriated by the last congress, for the support of the Apache Indians on reservations in New Mexico and Arizona; for the Navajo Indians, sixty-six thousand dollars; and for general incidental expenses of Indian service in New Mexico, fifty thousand dollars.

Mr. W. Eckle, Live Stock Agent of the Kansas Pacific Railway, informs us that the government contract for wagon transportation, route No. 2, has been awarded to E. B. Allen of Leavenworth, Kansas; the headquarters for this business for 1873 and 1874 will be at Kit Carson on the Kansas Pacific railway instead of Pueblo, as during the past season. The selection of Kit Carson is due the fact that, the largely increasing business at this point attracts more wagon trains than Pueblo and consequently insures lower rates to the contractors.

NOTICE.

To non-resident Defendant.
LEWIS ROSSBERG, { Third Judicial District,
Plaintiff, { Court, Grant County, New
VS. J. Assumpcion, { Mexico, June Term, 1873.
Defendant. {
To Sidney M. Webb, Defendant in the above entitled cause: It appearing from the sworn affidavit of John D. Ball, the Attorney of the Plaintiff in the above cause, filed in the office of the Clerk of the Third Judicial District Court of the Territory of New Mexico, that you the said Defendant have gone out of the Territory of New Mexico, so that process cannot be served upon you: You the said Sidney M. Webb are therefore hereby notified and summoned to be and appear before the District Court, for the Third Judicial District of said Territory of New Mexico, on the first day of the next term thereof, to be begun and held within and for the County of Grant, at the County seat of said Grant County, on the Third Monday in June, A. D. 1873, then and there to answer to the said Plaintiff in a plea of a complaint. Said suit is brought by the Plaintiff against you to recover the payment of a certain promissory note for the sum of two thousand dollars, executed and delivered by you to said Plaintiff and made payable to him or his order, on or before the 31st day of May, 1872, with interest at the rate of twelve per cent per annum from date until paid. Said promissory note bears date December 23, 1871. Plaintiff also seeks to recover the sum of one thousand dollars for attorney's fees, costs and disbursements, and to have judgment rendered in your favor for the same. If you neglect to appear and answer to the said Plaintiff at the said time and place, judgment will be taken against you by default.
J. M. BOND,
Clerk Third Judicial District Court.

CHANGES IN THE PUBLIC LAND LAWS.

Passage of Three Bills of Importance to Settlers on the Public Lands.—Encouragement to Grow Timber on the Western Prairies.—Amendment to the Homestead Act.—The Right to Transfer Pre-Emptions or Homesteads.

[From the New York Tribune.]

WASHINGTON, March 11.—Three bills, more important to settlers on the public lands of the United States than any that have before passed since the homestead act became laws during the last hours of the session of congress just closed. The first is an act to encourage the growth of timber on the western prairies, and is the first measure of the kind that has ever been adopted by congress. The following is the full text:

Be it enacted, That any person who shall plant, protect, and keep in a healthy growing condition for five years, forty acres of timber, the trees thereon not being more than eight feet apart each way, on any quarter-section of any of the public lands of the United States, shall be entitled to a patent for the whole of said quarter-section, at the expiration of said five years, on making proof of such fact by not less than two credible witnesses; provided, that only one quarter in any section shall be thus granted.

Sec. 2. That the person applying for the benefit of this act shall, upon application to the register of the land office in which he or she is about to make such entry, make affidavit before said register or receiver that said entry is made for the cultivation of timber, and upon filing said affidavit with said register and receiver, and on payment of \$10, he or she shall thereupon be permitted to enter the quantity of land specified: *Provided, however*, That no certificate shall be given or patent issue therefor until the expiration of at least five years from the date of such entry; and if at the expiration of such time, or at any time within three years thereafter, the person making such entry, or if he or she be dead, his or her heirs or legal representatives, shall prove by two credible witnesses that he, she or they have planted, and for not less than five years have cultivated and protected such quantity and character of timber as aforesaid, they shall receive the patent for such quarter-section of land.

Sec. 3. That if at any time after the filing of said affidavit, and prior to the issuing of the patent for said land, it shall be proven, after due notice to the party making such entry and claiming to cultivate such timber, to the satisfaction of the register of the land office that such person has abandoned or failed to cultivate, protect and keep in good condition such timber, then, and in that event, said land shall revert to the United States.

Sec. 4. That each and every person who, under the provisions of an act entitled "An act to secure actual settlers on the public domain," approved May 20, 1862, or any amendment thereto, having a homestead on said public domain, who, at the end of the third year of his or her residence thereon shall have had under cultivation, for two years, one acre of timber, the trees thereon not being more than eight feet apart each way, and in a good, thrifty condition, for each and every sixteen acres of said homestead, shall, upon due proof of said fact by two credible witnesses, receive his or her patent for said homestead.

Sec. 5. That no land acquired under the provisions of this act shall, in any event, become liable to the satisfaction of any debt or debts contracted prior to the issuing of patent therefor.

Sec. 6. That the commissioner of the general land office is hereby required to prepare and issue rules and regulations, consistent with this act, as shall be necessary and proper to carry its provisions into effect; and that the register and the receivers, of the several land offices shall be entitled to receive the same compensation for any lands entered under the provisions of this act that they are now entitled to receive when the same quantity of land is entered with money.

Sec. 7. That the fifth section of the act entitled "An act in addition to an act to punish crimes against the United States, and for other purposes," approved March 3, 1857, shall extend to all oaths, affirmations and affidavits required or authorized by this act.

The second of these bills relates to soldiers' homesteads and its object is fully explained in its preamble:

WHEREAS, By act of congress entitled "An act to enable honorably discharged soldiers and sailors, their widows and orphan children, to acquire homesteads on the public lands of the United States," approved April 4, 1872, and by the amendment thereto approved June 8, 1872, it is provided that said soldiers and sailors, their widows and orphan children, shall have the right to enter homesteads of one hundred and sixty acres each upon what are called and known as "double minimum" lands, or lands within the limits of railroad land grants; and

WHEREAS, Many soldiers and sailors had, prior to the passage of said act and the amendment thereto, entered homesteads within said limits, not exceeding eighty acres each, and are unable, under the terms of said act and amendment, and the rulings of the general land office, to avail themselves of the advantages of entering one hundred and sixty acres of said "double minimum" land; and

WHEREAS, Such discriminations against the pioneer soldiers and sailors is unjust; therefore,

Be it enacted, That section 2 of the act entitled "An act to amend an act

relating to soldiers and sailors homesteads," approved June 8, 1872, be amended so as to read as follows: That any person entitled under the provisions of the foregoing section to enter a homestead, who may have heretofore entered under the homestead laws a quantity of land less than 160 acres, shall be permitted to enter so much land as, when added to the quantity previously entered, shall not exceed 160 acres.

The last of these measures is of especial importance to colonies which have settled or are about to settle upon the public lands. Under the present law a pre-emptor is not allowed to sell or alienate in any way any portion of his homestead until he has secured a full title to it after the residence of five years, and in several of the western states and territories, colonies have been formed and towns built up before any of the inhabitants have resided on their pre-emptions more than two or three years, but they have not been allowed to set apart any of their lands, even for public purposes. The law referred gives them this privilege. Its text is as follows:

Be it enacted, etc., That any person who has already settled or hereafter may settle on the public lands of the United States, either by pre-emption or by virtue of the homestead law or any amendment thereto, shall have the right to transfer by warranty against his or her own acts, any portion of his or her said pre-emption or homestead for church, cemetery or school purposes, or for the right of way of railroads across such pre-emption or homestead, and the transfer for such public purposes shall in no way vitiate the right to complete and perfect the title to their pre-emptions or homesteads.

Pomroy has bought a fine house in Washington, and ordered it fitted up regardless of expense.

Facts for the Household.

CAMPION OINTMENT.—One ounce of sperm oil; 1 ounce white wax; 1-2 ounce camphor gum; 2 ounces lard; melt over a slow fire. Add the camphor gum after the other has dissolved.

"Do you believe air, that the dead walk after death?" "No doubt of it, madam; I have heard the dead march."

ALUM and plaster of Paris well mixed with water, and used in a liquid state, will form a very useful cement. It will be found quite handy for many purposes, it forms a very hard composition, and for fixing the brasses, etc., on lamps nothing could be better.

TO Mend China.—Take a very thick solution of gum arabic in water, and set into it plaster of Paris until it is more become of a proper consistency. Apply with a brush on the fractured edge of the china, and stick them together. In three days the articles cannot be broken in the same place. The whiteness of the cement renders it doubly valuable.

I. N. COHEN, MORRIS LESINSKY
