County Clerk
Today: Enter The Campaign With A Punch.
SOUND SENTINEL

THE INTEREST OF THE PEOPLE. UNIVERSITY OF NEW MEXICO LIBRARY NO. 27
MEXICO, SATURDAY, SEPTEMBER 28, 1918.

WILSON.

LIBERTY LOAN.
Washington, Sept. 28, 1918.
The president conferred with the cabinet today.

The lives of a million babies. This is the part of the government to interact the loss in many through war.

New Mexico was, as usual, beginning the work, but the usual, is going into it now with enthusiasm and determination.

In the week of intensive training for volunteers in the child welfare service just held in Santa Fe the government's plans were thoroughly explained and demonstrated by experts giving their services with the result that every county in the state will now have capable trained workers to push forward the government plans, which are, briefly:

(1) Registration of all children not over six years old.
(2) Weighing and measuring of all children registered.
(3) Report of children needing medical care and follow-up work for such cases.
(4) An educational program to assist mothers in the care of themselves and children.

Explained briefly, the reasons for this plan are as follows:
(1) The United States must know its man-power at all times. The man-power of the future depends upon the children of today. The registration of all children under school age is, therefore, as necessary as the registration of men in the draft age. When the county chairman of child welfare informs parents of the time and place for the registration of all children not over six years old, they should take their children to the place assigned and fill out government cards, as in the case of registered men. These cards are simple and the questions easy. Trained helpers will render any assistance needed.
(2) The weighing and measuring of children is to be done every few months, and an exact record of the child's growth kept. Through these records the government can learn whether or not the food restrictions and high prices are having any bad effects upon the children, as the case is in Belgium and France. Should it be found children are not thriving, steps will be taken to provide what is needed, even if adults have less. The children must be the last to feel the evil influences of war.
(3) By careful examination, children in need of medical attention will be discovered in time to save them from growing up defective or ailing. Every mother wants her baby to be a perfect baby, and now the government will assist in making it so, with no additional cost to the parents. Indeed, it costs less to rear a healthy child than an ailing, puny one.
(4) It is believed that mothers can do much to prevent the need of doctors, who are scarce now, many being called into war work. It is the patriotic duty of every mother to help her country by doing her best to keep her babies in health. To this end every mother will have an opportunity to learn from trained workers the simple rules of sanitation and

FOURTH LIBERTY LOAN.

While in Santa Fe last week, Miss Lola Marie Harmon, member of the State Advisory Board of the Women's Liberty Loan committee, conferred with Mrs. Howard Huey, state chairman, and Mrs. Frank of the national committee, and assisted in completing plans for the women's work in this state for the fourth loan.

Miss Harmon says many of the difficulties of the last campaign had been eliminated through a closer organization, and advertising more adapted to local conditions. There will be no delay in receiving material sent out from headquarters, as much of it is already in Santa Fe, and the state banners are in the hands of the printers.

Wherever practicable the county and local chairman of the last campaign are to be retained, thus putting experienced workers in the field from the start.

Co-operation is the key-note of the campaign, and the women are expected to regard the interests of the men's committee as their own and work with them, thus avoiding confusion and waste of effort. The right spirit and a knowledge of what the other is trying to do will strengthen the work of both committees.

New Mexico must prove her loyalty to a misinformed public as no other state has to do, therefore, the management is determined to put the state "over the top" in this drive.

Mora county will again do her part without a doubt. It is time for all to get busy on their bank balances.

Letter From One Of Our Boys.
Medical Officers Training Camp, Fort Riley, Kas, Sept 15, 1918.
Dear Fourtz: Have intended to write you before now but have hardly a minute of my own since arriving here Sept. 1st. This place is what the name above indicates, a medical training camp, and you can take my word for it that we get the training, physical and military. I couldn't walk a block when I was in Wagon Mound without getting tired, but here I am doing a four to six mile hike a day on top of drill, setting up exercise etc., and attending lecture and military classes. I would be very glad if you would send the Sentinel here to me as I get very anxious to hear the news from there. It seems to me I have been away from there a long time. I was very sorry to hear through J. Bard Myers that they had severe hail storms, and that some of my good friends had suffered.

At the Opera House, Saturday evening, September 28th, at 8:30 p. m. will be shown the Official French Government War pictures. This picture shows battle after battle "over there;" big Zeppelins in the air; big tanks and armored cars in action; machine guns firing 600 shots a minute. It is a patriotic, educational and sensational picture. Here is your chance to see something of the war. Prices 25 and 50 cents and war tax.

The Women's Liberty Loan committee will make a house-to-house campaign in the interest of Fourth Liberty Loan. Don't refuse to subscribe.

Vicente Marcos, and Scandley A. Fontz left Wednesday for Santa Fe to attend the democratic state convention.

Mrs. J. R. Gillespie has had her house cemented on the outside and can now truly say that she has the finest looking dwelling in the town.

C. G. Parson, and J. M. Bentley went to Las Vegas, Tuesday. Mr. Parson received initiation into the Order of E. K. and Mr. Bentley helped to tickle the "great."

WITH THE CANADIAN EXPEDITIONARY FORCE.
Quebec City, Que.
Mr. Henry Wallenhorst, Wagon Mound.
Dear Henry: There has hardly been a day since I left New Mexico that I was sure of where I'd be the next. We are pretty close to the Atlantic now with our full over-seas equipment, horses and all, but we may be detailed here for awhile gathering in French defaulters. They won't even register, and the only way you can get them is chase them through the brush on horseback, and this province is certainly uncivilized and backward in every way. They can not talk English here, and just a bulldog French.

We see a great many transport when we visit the Atlantic; sometimes we see as many as 30 ships with convoys on the watch. They usually have a number of trawlers and sub-chasers standing near and a couple of cruisers.

It rains here every day, and I never had my clothes all dry at once since I have been here. We are in tents and some leak pretty bad, so it keeps a fellow pretty busy at night time rolling around the tent floor to keep away from one of these little trickling streams.

I am in a good brigade and they give us a good outfit; all our clothes have to be made to order, and pass inspection before we can wear them out of the camp. We also have good horses and well trained; we can go over four foot fences and ditches from six to eight feet wide. So you have to ride a little, and no horn on the saddle to hang on to. If there had been one on my saddle I would have pulled it off long ago.

There is only one thing you can say about this part of the country and that is the scenery. It is quite hilly here, and the St. Lawrence river is about a mile and three quarters wide. The hills are all covered with shrubbery and as green as can be. Nearly all the people that live in this province live along the river; very few towns any distance from it.

Give my regards to all the boys in the store, and I will write to you later on when I find out I am going over-seas.

Write and tell me the news of New Mexico. Your friend,
Stanley J. Taylor,
Royal Canadian Dragoons.

A Few Sayings by Quid Pro Quo

From reading in the various newspapers about pro-Germans, yellow dogs and pacifists, we have constructed the following for your consideration:

Is it a man or what?
What would you call a person if you found him like this: One who would to Anglo-Saxons condemn those of other races and colors; who would endeavor to see favor from democrats and republicans alike, yet try and cover up his tracks so that each party would think him square and on their side; who when reports come that Germany is winning or gaining some head-way would be pleased with everyone and everything, yet when Germany is losing would be grouchy, spiteful and a trickster; who when he was in the "lime-light" with a small office of no importance, wanted every one to pet him and tell him his billiard radiates the sky, sun and moon; who would tell you to beware of this man or that man, and when your back is turned would slap that same man on the back and ask him to name any favor he wanted done.
We say, is this a man or is he a yellow dog of the worst type imaginable, or what is it?

Now is the time for every one to come to the aid of our soldier and sailor boys. Subscribe for Liberty Bonds and more bonds. Just keep on subscribing and see how many you can get. The man who is not able to go to the fighting line, can more clearly justify his reason in the future by proving he bought a large amount of Liberty Bonds.

Senator Lodge, of Massachusetts, is a republican. Senator Fall, of New Mexico, is a republican. Senator Lodge is a big enough man to give praise to President Wilson and the administration for the many good things that has been and being accomplished in this war. Did you ever hear or read of anything that Senator Fall said with reference to the president or the administration, except to condemn the president for not fighting with Old Mexico.

We tell you it takes a big man, intellectually, to see the good in his opponent, and to praise and applaud the opponent.

We have no doubt that the boys who left here to go to war will know this town when they return, even if it is five years from now. Improvements are slow and uncertain.

The boys "over there" are still riding herds. The other day three of our boys were seen herding a whole regiment of German prisoners back to the "bull-pen."

Mora county has been sick for a long time with only Doctor Republican in charge. Now is the time to change to Doctor Democrat, and the county will soon become healthy and strong.

It now seems as though Governor Lindsey has lost some of his fighting spirit, and will take whatever the horses offer him.

Just two more days and saloons go out of this state. The money formerly spent in saloons for whiskey and beer can now be put into Liberty Bonds.

If we "go over the top" in the next Liberty Loan drive for \$6,000,000,000, the boys "over there" will cheerfully "go over the top" and get the Huns.

All those who purchased Third Liberty Loan bonds and have not yet received same, are requested to call at the Farmers & Stockmens Bank and the Wagon Mound Trust & Savings bank and secure same. By so doing you will give the banks the opportunity of clearing up all business connected with that loan, and to go ahead with a clean sheet for the new fourth loan.

During the recent heavy rains the "dry lake" on Sim Calley's ranch, (formerly the Wm. Griggs ranch) south of town, became a very wet lake, extending across the road and far back into the cane field, making travel very high impossible. Mr. Calley kindly moved the fence some hundred feet back, giving a new road-way on dry land. His generosity is much appreciated by all using the road.

Mr. Seat, hail adjuster for his company arrived in town during the week, and will adjust the loss of beans by hail. Those who have put in claims are: Ed. Hill, J. McMath, E. Walton, E. J. Robinson, Lester Trusty, Chas. Harkins, G. C. Saunders, E. S. Materson, and T. J. Holt. These parties are glad they took out hail insurance, and it might be a good thing for all bean growers to take out some insurance next year. J. A. Myers is the agent for hail insurance.

We want to call the attention of our readers to the article in this issue entitled "Save the Babies," and to the editorial "Life or Death," and suggest that they be read carefully. These articles appear in Spanish, also, and the Spanish reading subscribers may get the benefit of them, too. From time to time these and similar topics will be discussed more thoroughly. With our boys "over there" fighting to make the world a safe place to live in, it is up to us "over here" to make our communities healthful and sanitary. People have neglected too long the important matters of sanitation and health, and education along these lines should be encouraged in home and school.

A. W. Wiest has been appointed county chairman for the Y. M. C. A. and is also county food administrator and county chairman of the War Saving Stamp drive. The duties pertaining to these offices together with his management of the A. MacArthur Co. interests makes him the busiest man in the county. Mr. Wiest is patriotic, and accepts all these duties not only with good grace, but by opening his pocket-book. It has cost Mr. Wiest so far about \$3,000 in expenses and still costing him more. He has employed a secretary to assist him and pays the salary him self. Mr. Wiest is over the new draft age, but is rendering as valuable service in his activities behind the line as the boys who are in the front trenches.

El bienestar de niños voluntarios, en Santa Fe, los gobiernos fueron por com... aplicados y demostrados... expertos que dan sus servicios a señoras, también dan sus servicios con el resultado que cada condado en este estado tendrán ahora capaces trabajadores disciplinados para llevar adelante los planes del gobierno que son, brevemente:

1. La registración de todos los niños que no esten arriba de seis años de edad.
2. Peso y medida de todos los niños registrados.
3. Reporte de niños en necesidad de atención médica y seguridad adelantada el trabajo para tales casos.
4. Un programa educacional asistido a las madres en el cuidado de ellas mismas y sus hijos.

Explicamos brevemente las razones para este plan son como sigue:

1. Los Estados Unidos deben conocer el poder del hombre en todos tiempos. El poder del hombre en lo futuro depende saber los niños de hoy. La registración de todos los niños bajo la edad de escuela, es no obstante tan necesario, como la registración de hombres en la edad de servicio. Cuando el presidente de condado informe el bienestar de los niños abajo de seis años de edad, ellos deben llevar a sus niños al lugar asignado y llenar tarjetas del gobierno, como en el caso de hombres registrados. Estas tarjetas son simples y las cuestiones fáciles. Hombres disciplinados daran la asistencia necesaria.

2. El peso y medida de niños debe hacerse en algunos meses y un registro exacto del crecimiento del niño debe mantenerse. Por medio de estos registros el gobierno puede saber si la restricción de viveres y precios altos están teniendo malos efectos sobre los niños, como es el caso en Belgica y Francia. Si se encontrase que los niños no prosperan, se tomaran pasos para proveer lo que se necesita, aun si los adultos tienen menos. Los niños son los últimos de sentir la mala influencia de guerra.

3. Por examinación cuidadosa, los niños en necesidad de atención médica se descubrirán en tiempo para salvarlos de crecer imperfectos o defectuosos. Toda madre desea que su niño sea un niño perfecto, y ahora el gobierno asistirá en hacerlo así, sin ningun costo adicional a los padres. En verdad cuesta menos de elevar un niño saludable que a uno defectuoso.

4. Se cree que las madres pueden hacer mucho para evitar la necesidad de doctores, quienes son escasos ahora, muchos de ellos han sido llamados al trabajo de la guerra.

Es el deber patriótico de toda madre de ayudar a su país, haciendo lo mejor que puedan en mantener a sus niños saludables. A este fin todas las madres tendrán una oportunidad de aprender de trabajadores disciplinados las

El bienestar de niños voluntarios, en Santa Fe, los gobiernos fueron por com... aplicados y demostrados... expertos que dan sus servicios a señoras, también dan sus servicios con el resultado que cada condado en este estado tendrán ahora capaces trabajadores disciplinados para llevar adelante los planes del gobierno que son, brevemente:

Mensaje del Presidente Wilson

White House, Washington, Sept. 23, 1918

Otra vez el gobierno viene ante la nación del país con la súplica que empresten su dinero, y que lo empresten bajo de una escala más liberal que nunca antes, en orden de que la gran guerra para los derechos de América, y la liberalización del mundo pueda ser perpetuante vigor a una victoria conclusiva. Y se hace la apelación con la más grande confianza porque se sabe que todos los días se está haciendo clara y más clara a hombres pensadores de toda la nación que el ganar la guerra es un invertimiento esencial. El efectivo que se retenga ahora será de poco uso y valor si la guerra no se ganase, y los nuestros egoistas de Alemania a fuesen permitidos de dictar a la América lo que haga o no pueda hacer. Los hombres de la América a más, desde los primeros hasta ahora han dedicado ambas sus vidas y sus fortunas a la vindicación y mantenimiento de los grandes principios y objetos por el cual nuestro gobierno se ha cimentado. Ellos no fracasaran de mostrar al mundo para lo que su riqueza se intentaba.

WOODROW WILSON.

El cuarto préstamo de Bonos de Libertad, comienza hoy. Hagase su mayor esfuerzo para comprar algunos de ellos.

Los señores del comité del tercer préstamo de bonos harán una campaña de todas las casas en esta villa en el interés de vender algunos. No se rehusen de comprar.

Todos aquellos que compraron Bonos de Libertad del tercer préstamo y que no hayan recibido los mismos, se les súplica de acudir a cualquiera de los bancos para asegurarse de los mismos. Haciendo esto daran a los bancos oportunidad de cerrar todos sus negocios conectados con dicho préstamo, y de estar listos para empezar con el nuevo.

Nos participa el Sr. Jose Ignacio Valdez y su esposa Dña. Carmelita M. de Valdez, de la Cañada, de Vegue, que su hijo, el joven Candido Valdez habia muerto en ese lugar la semana pasada a la edad de 13 años. Sr. Valdez hizo cuanto estuvo a su alcance para salvar la vida de su hijo, pero esta conforme y sumiso a la voluntad del Todopoderoso.

El Sr. Valdez publicó esta noticia para que todos parientes y amigos lo sepan, y para que eleven una plegaria al Todopoderoso por el descanso de su alma.

Si quieres ser dependiente. Administrador, etc., describe el oficio o la profesión y viendo qué te gusta emprende la tarea de quererla. Estudia el lado bueno y el lado malo. Mira si otros que tienen el mismo oficio ganan o pierden en él. Cual es el provecho que se puede sacar. Hasta donde puede llegar.

De dulcero se puede llegar a una confitería, una dulcería, que es un gran negocio. De carpintero se puede llegar a ebanista. De dependiente se puede llegar a Comerciante.

Fíjate mucho en la elección de ese oficio, pues tienes que tomar en cuenta tus aptitudes y tu carácter. Si te equivocas en la elección, tu oficio será para tí muy pesado, pues tienes que hacer algo contrario a tu modo de ser. Tu corazón generalmente te dice qué oficio te gusta más. Debes saber una cosa muy importante, que por más rico que seas debes tener un oficio que te sirva de paracaídas, porque es el mejor capital. Los hijos del Emperador de Alemania saben cada uno un oficio.

Ten fija en la mente la idea de este oficio sueña con él y luego comienza por pensar en los medios de que te va dirás para aprenderlo.

Teniendo ya un oficio, es decir una manera de ganar dinero, tienes que pensar en el negocio o negocios que tienes que hacer para llegar a ser rico.

Pues con un oficio se puede formar un capitalito y pocos son los oficios que pueden hacer a uno rico; pero este capitalito es la base del negocio que te llevará a la riqueza.

Estos negocios se piensan después, pues dependen de las circunstancias que median para hacerse, aunque no es malo que en las horas de reconcentración pienses en todos los negocios que veas, para que te eduques en ellos, sepas hacerlo o los conozcas.

Volvamos al oficio. Ten fija la mente en el oficio que escogiste y luego pon los medios para que puedas aprenderlo.

Esos medios no son muy difíciles, pues a los jóvenes siempre les sobra entusiasmo y valor. Si tu papá te dijera: "hijo, te regalo \$100.00 el día que seas Carpintero, Peluquero o Panadero, etc.", ¿estoy seguro que en menos de un año ya te ganaste la apuesta. Cómo harás? Tú lo sabes perfectamente. Nunca se le ha dificultado a un muchacho aprender el oficio que quiera.

Concentra todos los días tus pensamientos y piensa en tu oficio, en los negocios que emprenderás y en la riqueza, y bien pronto tendrás en tu mente el camino lleno y claro que te conducirá a la riqueza en unos cuantos años.

Esta idea completa de todo lo que tienes que hacer, es lo que llamaremos "tu Idial." Persiguelo, pues, toda tu vida. Concentra tus pensamientos de día y de noche y te familiarizas a tal grado que puedes recorrer el camino con facilidad.

Sueña lo que has de ser y lo se-

Muchos hombres fracasan en la vida porque no tienen un idial en la mente. Ganan dinero y despilfarran. Se contentan con dormir y divertirse y piensan en el porvenir. No saben lo que quieren, ni tienen idea lo que quieren ser. Quieren ricos y nunca piensan en los medios que existen entre la pobreza y la riqueza.

Nadie se ha hecho rico de un salto, de la noche a la mañana. El camino de la riqueza es largo pero largo. Si se sigue con paciencia se llega al fin; pero el hombre debe tener en su cerebro una idea clara de lo que quiere ser.

Lo primero que se debe hacer es producir dinero de una manera permanente, para que se vaya formando un pequeño capital. De cualquiera manera se gana dinero un día o un mes, pero se necesita una manera permanente y para eso lo mejor es un oficio, pues los destinos, hoy son y mañana no son.

Si no sabes como hacer cualquiera cosa que deseas hacer en tu vida, concentra tus pensamientos y después de varios días, encontrarás un camino para hacerla. Una vez hallando el camino, a seguirlo hasta el fin.

No creas que el camino de la riqueza, aunque lo vez fácil no deba tener contrariedades, pues tiene muchas y de diferentes clases. Parece que cada día viene una nueva contrariedad, un nuevo obstáculo se presenta de vez en cuando: los gastos extraordinarios, los fracasos imprevistos y en fin la desamianción que causa un sin número de envidiosos que solamente están esperando que descubras algo para desamianarte para atravesarse en tu camino y ponerte dificultades. Por eso se escribió este libro, para que se eduquen tus cualidades y cuando tengas valor y una fuerte voluntad no le temas a nada y llegues al fin. Solamente es rico el que merese serlo. Hazte tú digno de ser rico trabajando, pues acuérdate que se juega tu vida.

Cada paso que des en tu vida, palabra que hables, cada acción que hagas, si no son para mejorarte, no tienen caso de ser, y para no desperdiciar ninguna acción, ninguna energía, necesitas reconcentrar tus pensamientos sobre todos los asuntos de tu vida diaria, pensarlos bien, pensarlos con insistencia y así no desperdicias tiempo, ni dinero, ni fuerzas, ni nada.

Escoge un tiempo preciso para que reconcentres tus pensamientos sobre algo útil y nunca andarás como una hoja en el air, sino con pasos seguros y caminando siempre al éxito.

Muchos fracasan porque les falta la concentración de pensamientos.

Si tú estás esperando que otro te dirija, es seguro que te diriges mal, pues cada uno estira para su lado.

Enséñeta a concentrar tus pensamientos y te enseñan a pensar de una manera tan fuerte, que todo lo piensas bien y en consecuencia todo te sale bien. Practica con fé y serás dichoso.

SATURDAY SEPTEMBER 28, 1918.

LIFE OR DEATH.

Do you know that tuberculosis, almost wholly unknown in New Mexico twenty years ago, is now making ever-increasing ravages amongst the native-born population, with nothing being done to check it?

Do you know the infant mortality of this state reaches appalling figures?

Do you know epidemics of typhoid and other diseases have a clear field with no means for control by the community or state?

Do you know New Mexico is the only state in the Union that has no appropriation for public health, and has a zero mark in the records at Washington?

Do you know the state board of health is merely an honorary organization, powerless through lack of funds to render any service to the people of the state?

Do you know a complete change is necessary in the governmental regime of this state in order to secure needed legislation for the promotion of public health?

We speak with pride of our boys "over there" fighting to make the world a fit place to live in. Yet "over here" we make no provisions for health and sanitation and seem to have a "don't care" feeling as to whether we live in a fit place or not.

The government has taken up the problem of saving the lives of a hundred thousand babies to live in the made over world, and has requested the women of the country to render every assistance possible. The women of New Mexico are backing the government in this effort of life saving. Only a woman can realize the actual cost of a human life; therefore, women respond more readily than men to an appeal of this kind.

But the men, either for political or business reasons, (quietly) hold back and see the wrong but make no effort to remedy the condi-

tion. They are afraid to put their hands to the plow and break the hard, frozen ground of the past. They are afraid to take the risk and win the prize.

Do you know that the men of New Mexico make the laws and control the public funds. So far they have failed utterly in making laws or providing funds for public health. Other states have such laws and such funds, providing for the minutest details of preventive, investigative work; and no measures ever taken by any state have reaped a greater reward for the state than those laws insuring a sane, normal, healthy citizenry.

What is the matter with New Mexico? Are we to continue in office, men who have been indifferent to every good for the people and thought only of their own political control? It is time for the people to wake up! Old Rip Van Winkle slept twenty years, but finally woke. Let the people control their own interests, especially since those interests are fast becoming matters of life or death, instead of delegating their powers to men who degrade the art of government by the people, for the people, in to a political game controlled by the bosses.

It is time to make New Mexico safe for democracy, which means the people.

Buy Liberty Bonds.

The American government is a government of the people, by the people and for the people. Each and every American man, woman and child is a part and parcel of this wonderful government. When you subscribe and pay for a Liberty Bond you are really loaning money to that of which you are a stockholder, and you further are provided the ways and means for carrying on this successful conclusion. By the buying of \$6,000,000,000 of Liberty Bonds this government will be notifying our boys "over there" in language that will sound sweet to them that we, the people, are firmly standing behind them. We as will tell the Huns and their allies in language that does not sound sweet to them, that we are one for all and all for one in favor of making the world a safe place to live in.

The Republican Mix-up.

The republican bosses hate to give up their control of the offices, and the younger men in their party are determined that they shall not have any more, as they have had enough.

We notice some of our good republican friends want nomination for offices this fall but we fear their want will be disappointed.

Mr. Blas Sanchez, of Wagon Mound is a candidate for nomination for sheriff; Mr. Max Medina y Valdez and Mr. Leandro Valdez, both of Armentis, are candidates for nomination for county commissioners. These men have been consistent republicans all their lives and had helped to elect the officials of this county in past years. Now they are asking some reward for their labor in the way of nomination.

When the republican convention meets at Mira, the people will find that this boss has promised that boss, and that boss has promised the other boss that they would stand together and nominally their own chosen friends for the offices, and the young men in the party will be fast on the back and to be waiting next time and then next time and so on until judgment day.

The most surprising thing to the people of Wagon Mound is the fact that J. D. Medina, who was defeated for assessor by our good democratic friend, Fabio Chavez, two years ago and who has made one of the most efficient assessors this county has ever had, is opposed to his friend Blas Sanchez, for the nomination for sheriff, and is reported to be supporting Andres Trujillo, of Roy for that nomination.

We recall that a short time ago, Blas Sanchez, wrote an article in the paper with reference to this same J. D. Medina and a certain matter in which Medina was vitally interested at that time, and which article praised Medina very highly, and also which article came very near getting Blas Sanchez into trouble with the federal authorities. Yet Sanchez took that risk for his friend Medina, and now friend Medina does not see his way clear to help Sanchez.

Of course this is no fight in which the democrats are interested, except that it proves what we have always said to the people, that for the good of the republican voters, and for the good of the people of this country, there should be a change, and the democratic ticket should be elected,
