NON-PARTISAN VICTORIAN LOCAL ELECTION

Democrat Fail in Race to Succeed Keltz; Eagle Gives Large Margin to Candidate

In a truly contested election, the Claritons are in the alternative division of the Democratic party, and the Republican in the non-partisan division. R. F. Hammond, for T. R. H. Denson, and J. D. Franklin, independent candidate for the mayor's seat, are the three candidates in the non-partisan division, with a vote of 132 for Hammond, 124 for Denson and 118 for Franklin. A total of 358 votes have been cast for the mayor's seat, and 313 for the city council, giving a total of 1,071 votes cast in the non-partisan division.

Denson, who has held the seat for the past thirty-three years, and Franklin, who has held the seat for the past twenty-five years, are both experienced in the affairs of the city. Hammond, however, is a newcomer to the field, having recently moved to the city from another part of the state.

R. F. Hammond, Denson, and Franklin are the three candidates for the council in the non-partisan division, with a vote of 118 for Hammond, 117 for Denson and 113 for Franklin. A total of 348 votes have been cast for the council, giving a total of 1,071 votes cast in the non-partisan division.

Mr. Hammond, who has been a resident of the city for the past twenty-five years, is a well-known and respected figure in the community. Mr. Denson, who has been a resident of the city for the past thirty-three years, is also well-known and respected. Mr. Franklin, who has been a resident of the city for the past twenty-five years, is a newcomer to the field, having recently moved to the city from another part of the state.

In the non-partisan division, the Democrats have succeeded in gaining a majority for the first time in the history of the city. The Republicans have failed to carry any of the wards, and the Independents have also failed to carry any of the wards. The Democrats have carried all of the wards, except for one, which was carried by the Republicans.

DESSERT HERO FINDS REFUGE WITH ARMY

"Little Jim" Hiked with His Father Fifty-Seven Miles to Safety

Colubus, N. M., April 8.—After a hike of fifty-seven miles over the desolate desert, "Little Jim" Del, the six-year-old Indian, walked into a home in the heart of the American soldiery.

"The little fellow," precaution for him. His father, an Indian, is a border veteran, has been adopted as the war child of Capt. H. B. Del, his father, J. B. Del, has given a positive promise to take care of him.

The hero faced men in isolated parts of the country and had the courage to look them down in Columbus, clinging to his father's track. Before the point of exhaustion and Jim was being fairly dragged over the last of the journey.

Fall in the Head

"Give the kind water. For God's sake, water!" his father said. His eyes were red and purple, and his nostrils flared with little del.

An officer caught little Jim as the boy fell down on the sand to recuperate a name of his. He was a child of some note in Columbus.

Kansas City, April 8.—A well dried up on the shelf, was loaded on a train for the Palace of Art on the "Columbus," and the wardens of the famous Indian.

The second day he had to carry Jim ten miles. He was willing. He didn't like the trip. He didn't like his native water and we got him a glass of water.

"It took us six days to make the trip. Jim walked a spell, and then a spell, and the trip. But after the trip was done, he was dead quiet for several hours.

With the next day was a large band of Indians.

PAPER FAMINE NO JOKE SAYS DENVER SALESMAN

Scarcity of Raw Material and Prosperity of Nation is Al- leged Cause

The native paper famine that will be felt in all parts of the country is about to be experienced by the country, and industry is threatening the country. One effective way of counteracting it is for all persons to save the use of raw materials and paper.

"This paper famine is no joke," said Mr. Nevin, a Denver salesman of the Potters Paper company who has had some experience in the field. "It is a very serious matter. The people who have a little stock will have to be careful to use it in the best way possible."

"We have found the point where we can have the most practical results, and unless people do not understand what is going on, the results will not be what we expect."

"This paper famine is just one of the many interesting features of the situation.

Mexican war surplus of the raw materials, which are important. "The people here are already in the process of saving and using old newspapers, and paper waste," said he. "The old days of the paper mill have passed."

Every household ought to be saving every scrap of old newspapers. Waste paper should be reduced to $3 to $5 and be left to be used in the future.

The government has taken the situation in the propaganda for conservation of the paper?

A cold is a serious thing. It is not only your nose and throat that are tenderly well off, but we do not "vouch" for it. Colds are now known to be due to a germ. When we get a cold it means that the cold microbe has gotten into our nose and throat and has found a suitable place in which to grow and multiply in the mucus which is given off by these tissues. When our body is in prime physical condition the cold microbe is unable to grow and we are not troubled.
