There are scholarship opportunities for students who study abroad, particularly for destinations in Latin America. FAST INFO

Have a question? Ask it at <http://fastinfo.unm.edu> and we'll try our best to answer it here.

Question: Do I need a minor or focus or anything else to graduate with a BBA?

Answer: We do not require Anderson students to have a minor with their BBA, however, most students need about 25 hours of free elective credit to graduate and pursuing a minor can help you to focus those classes rather than just taking random courses to get enough degree hours to graduate. You can also add a second concentration to your degree plan, like accounting AND finance, for example. The additional courses for the second concentration count toward your degree hours and both concentrations will appear on your transcript; this could potentially make you more marketable.

You do not have to have a focus for your BBA. We do have something called the No Concentration option where you complete 12 hours of management courses (4 courses from four different management disciplines) in addition to the 30 hours of management core classes that all Anderson students complete. We do not recommend the No Concentration option unless you're interested in going right on to graduate school. If you want to graduate and find a job with your BBA, you should have a concentration.

The Anderson Bulletin is published on Mondays. Deadline for inclusion is Wednesday at noon; send complete information to news@mgt.unm.edu or submit online at <http://www.mgt.unm.edu/bulletin/submitContent.asp>.
