## GETTING A SUPPLY OF FUEL

Some suggestions as to Methods Which Will Make the Work Easy

With the coming of winter, the farmer is faced with the problem of getting a supply of fuel. This is a task which is not only important, but also one which is often neglected. The following are some suggestions as to methods which will make the work easy.

One of the first things to be considered is the location of the fuel pile. It should be placed in a dry, well-ventilated place, and should be protected from the weather. The pile should be built up in a regular, compact manner, and should be kept well covered with a tarpaulin or other material to prevent it from becoming damp.

Another important consideration is the method of cutting the fuel. The fuel should be cut into uniform lengths, and should be stacked in a regular, compact manner. This will make it easier to handle, and will also prevent it from becoming damp.

It is also important to keep the fuel pile well covered with a tarpaulin or other material to prevent it from becoming damp. This will make it easier to handle, and will also prevent it from becoming damp.

Finally, it is important to keep the fuel pile well covered with a tarpaulin or other material to prevent it from becoming damp. This will make it easier to handle, and will also prevent it from becoming damp.

By following these suggestions, the farmer can get a supply of fuel in a dry, well-ventilated place, and can keep it well covered with a tarpaulin or other material to prevent it from becoming damp.

## THE COMPARATIVE TAX RECEIPTS OF COUNTIES

### INTERESTING TABLE SHOWING

Present Standing and Classification and Full Text of Law of 1907.

Attorney Francis E. Wood has prepared an interesting table, showing the relative standing of the various counties of the territory as regards tax receipts with an accompanying copy of the law of 1907 classifying the counties. This table is being exhibited in the annex to the auditor's office, and is being distributed to the several counties of the territory for their use. It is being distributed to the several counties of the territory for their use. It is being distributed to the several counties of the territory for their use.

Chapter 1. Section 1. The legislature hereby enacts that the several counties of the territory shall be classified as follows:

Section 2. Wherever the county treasurer of any county in this territory shall collect or receive from any source a sum of money exceeding \$100,000, or more, on the proceeds of the taxes levied for the purpose of the same, such county shall be classified as a county of class "A," over one hundred fifty thousand dollars (\$150,000); a county of class "B," over one hundred thousand dollars (\$100,000); a county of class "C," over one hundred thousand dollars (\$100,000); a county of class "D," over one hundred thousand dollars (\$100,000); a county of class "E," over one hundred thousand dollars (\$100,000).

Section 3. Upon the basis of the foregoing classification, the county assessors of the several counties of this territory shall be allowed for the services, the following percentage upon all moneys collected upon the assessment made by them upon taxable property, and also upon all moneys collected upon the assessment made by them upon taxable property, and also upon all moneys collected upon the assessment made by them upon taxable property.

In counties of class "A," 2 per cent.  
In counties of class "B," 2 1/2 per cent.  
In counties of class "C," 3 per cent.  
In counties of class "D," 3 1/2 per cent.  
In counties of class "E," 4 per cent.

Section 4. Upon the basis of said foregoing classification, the county treasurers and collectors of the several counties of the territory, shall be allowed and shall receive for their services the following percentages upon all moneys for taxes and licenses collected or received by them, within their respective counties, to be paid as other moneys so disbursed on warrants of the county commissioners:

In counties of class "A," 2 per cent.  
In counties of class "B," 2 1/2 per cent.  
In counties of class "C," 3 per cent.  
In counties of class "D," 3 1/2 per cent.  
In counties of class "E," 4 per cent.

### A Smooth Guy.

A gentleman calling himself "Honest Mac" of Houston paid this city a visit Monday and some of our citizens cheerfully contributed towards his income and entertainment. Honest Mac is a cripple, both legs having been cut off at the knees, but, what he lacks in legs is made up in brains and when it comes to understanding human nature he has P. T. Barnum skinned a city block. With several chunks of

merchandise loaded on a float just north of the Ward building, he was soon surrounded by a large and admiring crowd. The way "Mac" hunched, bulled and handed taffy was a caution and while a majority of the crowd was willing to bet their last dollar that "Mac" hadn't an equal in Texas or elsewhere.

Just to demonstrate his ability as a salesman, he took a piece of bear grass, tore it into four parts, and had no trouble in disposing of it for \$2.50. But "Mac" explained that he didn't want filthy

money, so he was kind enough to refund the coin to the purchaser. Several similar demonstrations were given and the crowd got so enthused over "Mac" that when he asked for a quarter they would hand him 5, 10 and 20 dollar bills and sometimes pocket-books and all. Finally some razors were produced and 20 were readily sold at \$1 per. And to make the story fellows feel bad another brand, at the time, of razor was produced which would only be sold to his friend's who laid in additional supply of whicker exterminators. He then had these men publicly to affirm that they were proud that they possessed said razor and would not part with them for anything, and even though some who had no more use for a razors than they had for an auto requested him to take them back, "Mac" couldn't see it that way, and no doubt several bargains in the razor line can be picked up.

EXHIBIT "B."

Exhibit "B" shows the amount collected and received by the several collectors and treasurers of the several counties in the territory, from all taxes levied upon the inhabitants of their respective counties for territorial county, school, municipal, or for any special purpose, and also all liquor, gambling, and merchandise, or occupation licenses during the fiscal year ending December 31st, 1906, 1907 and 1908, respectively.

## The Badge of Honesty

Is on every wrapper of Doctor Pierce's Golden Medical Discovery because a full list of the ingredients composing it is printed there in plain English. Forty years of experience has proven its superiority as a blood purifier and invigorating tonic for the cure of stomach disorders and all liver ills. It builds up the run-down system as no other tonic can, in which alcohol is used. The active medicinal principles of native roots such as Golden Seal and Queen's root, Stone and Mandarin root, Bloodroot and Black Cherry bark are extracted and preserved by the use of chemically pure, refined glycerine. Sent to Dr. E. V. Hart at Buffalo, N. Y., for free booklet which quotes extracts from well recognized medical authorities such as Drs. Bartholomew, King, Scudder, Cox, Ellingwood and a host of others, showing that these roots can be depended upon for their curative action on all weak states of the stomach, as well as on all bilious or liver complaints and in "fasting diseases" where there is loss of strength and gradual running down of the strength and system.

## P. E. O. Society.

On Jan. 22nd, 1909, Mrs. Whittlesey of Trinidad, Colo., organized the first chapter of the P. E. O. Sisterhood in New Mexico. The charter members are justly proud of the honor of being known as Chapter, A. N. M.

On Jan. 21, 1889, at Wesleyan University, Iowa, as seven college girls who had been together for three or four years in study and society and realized as their time drew near for separation, that "the tie which binds" was an unusually strong one. Their tastes ran in the same direction, their natures were congenial and as the problems of separation confronted them they felt that something must strengthen their bond of friendship. It was there and then that seven Christian girls bonded themselves together to form the most deeply ideal organization of womanhood, which has grown from seven to fifteen thousand. It was natural they would select a golden star for their guide. Our star which represents all that is pure, holy and elevating is a symbol of an order founded on Divine principles, and is in perfect keeping with the teachings of our Savior. By it we are inspired to seek the highest, purest and noblest ideals of womanhood. This golden star with its mystic letters in black, telling their own sweet story, and the five emblems bearing their message of Faith, Love, Purity, Justice and Truth, causes us to seek an individual growth in charity toward all with whom we associate. As an order it is still young and has much to its credit. It is to be hoped the time is coming soon when every city and village in this broad land will have felt the elevating and uplifting influence of the P. E. O. Star.
