ENGINEERING PROFESSORS BERNARD MORET AND DAVID BADER have received an estimated \$452,051 three-year award from the National Science Foundation's Information Technology Research (ITR) program. The continuing project, "Algorithms for Irregular Discrete Computations on SMP's" and other collateral activity with biology, are influential in leveraging all the facets of high performance computing at UNM.

UNDERGRADUATE MINORITY STUDENTS in the biological sciences at UNM will be the beneficiaries of a five-year, \$1.1 million grant from the National Institute of Health. The Minority Access to Research Careers (MARC) program is designed to identify talented students interested in research and to provide them with the training and experience necessary to successfully enter graduate school.
