VOLUME 1.

ALBUQUERQUE, NEW MEXICO, SATURDAY, SEPTEMBER 5, 1891.

NUMBER 37.

TELEGRAPHIC.

Chicago, Sept. 2.—There was an air of bustle and activity around the headquarters of the Columbian Exposition in the Rand McNally building early this morning. The members of the National Commission of the Board of Lady Managers were arriving from all parts of the country, for the purpose of comparing notes and taking such action for the further promotion of the enterprise as may be found necessary at this time. Over one hundred fine looking ladies were gathered in the main hall of the Art Institute building at noon, when Mrs. Potter Palmer called to order the meeting of the board of lady managers. In welcoming delegates, President Palmer said that the most important business of the meeting would be the formulation of a state work. The women had fought and gained recognition, and the time had arrived when it would be necessary for them to commence work in earnest. They would also have to determine what should go into the Women's Building, something that had only been vaguely stated at hitherto. It was decided that an election of a secretary of the ladies' board, to succeed Miss Phoebe Cousins, of St. Louis, who was deposed some weeks ago, should be made a special order for this afternoon's session. It is believed that Mrs. Susan Gale Cooke will be unanimously chosen. Miss Cousins had put in an appearance at the morning session, but it is understood that she will make a formal protest against the action of the officers in deposing her. The board will also adopt an official seal for its documents. Several competitive sketches have been received. The fortunate competitor will receive a prize of \$50. The seal to bear the legend "Board of Lady Managers of the World's Columbian Commission, created by active Congress, U. S. A., Organized 1890." The ladies appear to be full of business, and propose to transact it with greater dispatch than the occasion of their previous meeting, which was the first many of them had ever known of legislative work.

After the meeting of the board of lady managers had been called to order it was announced that Phoebe Cousins was a candidate for the secretaryship. The candidacy of Mrs. Whitney S. Allen, of the lady managers for Iowa, was also announced. Mrs. Cooke, however, is present acting secretary, has a majority of the managers. Some interesting sketches were received and placed on in the competition for the official seal. The first design received was from a woman in southern Illinois. It shows a woman rising on a sea, with a little ship in a foreground, visible between the two. An Evanston woman sends a pretty design, bearing the hand of Laila of Spain. In the distance are the ships of Columbus upon the water, and under the head the motto, "Let her ships praise her in the gates." From Lexington, Ky., comes one presenting a man in flowing robes, graced about a waist. She stands by a spinning wheel and holds in one hand the distaff, and with the other she shades her eyes and looks into the distance. Beneath is a motto, "The future Hope's shining light." A Chicago lady who has more poetic conception than execution sends a design showing Columbia standing in state. Around her are kneeling women offering flowers. To the right is the figure of a woman standing with her foot upon a promontory. From Wisconsin comes a pen and ink sketch of a woman. The design bears the motto, "She parted with her jewels to save the world." A really beautiful design comes from a Washington woman. It is a simple wreath of leaves inclosing the motto, "Fides et caritas." From Florida a woman writes, "God and man," which is simply a description. It represents Columbia landing on the coast. For the reverse of the seal she suggests a ball-room scene. The design bears the motto, "I edged my jewels to raise the money." Another woman from Florida offers as a design a five-pointed star bearing within its points the motto, "God and man." Encircling the star is the inscription, "Woman's heart, brain and hand unite to aid mankind by love, purity and common sense."

The fall session of the National Commission was called to order in the chamber of the city hall by Thomas Palmer, chief executive, at 10 o'clock this morning. A number of important motions are to be considered. Among them is the matter of a bureau of funds. It is the opinion of leading members of the commission that some should pay these awards and should also provide the money for the sale. The amount required will be somewhere from \$500,000 to \$700,000. A matter of classification will also be taken final shape at the present meeting, and an elaborate report will be presented from the committee which has been reviewing the work of the President Palmer said that they were making progress and that they were making progress and that they were making progress.

the lady managers have spent but \$672 out of a total appropriation of \$36,000. Curtailment will have to be necessary as the Board is now spending money at the rate of \$2,740 a year and has but \$30,000 with which to pay bills. The present meeting of the National Commission will involve an expenditure of \$15,000, and a meeting of the ladies' board \$8,000 additional.

Battle Monuments.
Gettysburg, Pa., Sept. 3.—In the presence of an immense throng, the monuments erected by the state of Illinois to the Eighth and Twelfth Illinois Cavalry were formally dedicated to-day with solemn services. Tomorrow the monument in memory of the fallen and in honor of the surviving members of the Eighty-Second Illinois Infantry will also be dedicated. Today's exercises were under the direction of Jacob Grimes of the Eighty-Second Infantry, W. N. Taylor, of the Eighth Cavalry and W. M. Luff, of the Twelfth Cavalry. The dedication exercises comprised a joint service of the three regiments consisting of prayer, orations and music. A large delegation was present from Illinois, including Gov. Fifer, Secretary of State Pearson, State Treasurer Wilson, Adjutant General Reese, Assistant Adjutant General Rankin, Gen. Charles Fitz-Simmons, and many others. The Illinois association of Washington, D. C., also came in force to participate in the event. The presentation of the memorial to the state was made by ex-Gov. John L. Beveridge, as major of the Eighth Cavalry, and Gov. Fifer responded on behalf of the state. The services tomorrow will be precisely similar. The legislature of Illinois appropriated \$10,000 for the erection of the monuments dedicated to-day. They are all rough and dressed granite and are among the handsomest monuments on the battle field at Gettysburg.

Dr. Horstmann.
Philadelphia, Sept. 4.—The announcement from Rome that Rev. Dr. Ignatius F. Horstmann of this city will probably be the successor of the late Bishop Gilmour, of Cleveland, creates considerable surprise in Catholic circles, as it has not been known that his name was included in the list of three eligible priests, that in accordance with the laws of the church, had been forwarded to the Vatican by the ecclesiastics of that diocese. It is admitted, however, that the selection is an admirable one. Dr. Horstmann is Chancellor of the Archdiocese of Philadelphia. He is a man of fine presence, a silver-tongued orator, a magnificent musician, a profound theologian, and is said to have no equal in the entire country as an authority on church law. His knowledge and judgment are repeatedly called into requisition by ecclesiastics of other dioceses for opinions that will tend to settle disputed questions. He is a native of this city, not yet fifty years of age, and has been rector of St. Mary's church for twenty years.

Knights of Labor.
Philadelphia, Sept. 4.—The official mail of the Knights of Labor has been tremendously increased as a result of the following circular which has been sent to every section of the country over the signature of John W. Hayes, the general secretary-treasurer: "The district assembly in cities and towns where no districts are organized, are requested to make lists of saloon keepers and others who sell beer manufactured by the Anheuser-Busch Brewing association of St. Louis, and the W. J. Lemp Brewing company of the same place, also of dealers who display the advertisements of these firms, and forward these lists to this office." It is understood that this order is preparatory to an official boycott on the firms in question.

An emphatic denial is given at the headquarters of the knights to the statement that the recent visit of A. W. Wright to the south was with a view of smoothing over trouble of the order created in that region by the color line. Says Secretary Hayes, "There is no color line in the Knights of Labor."

Militia at the World's Fair.
Chicago, Sept. 4.—A plan is on foot to bring 100,000 militiamen from the various states to this city during the World's fair. The enterprise is to be backed to the extent of \$350,000. A camp is to be laid out contiguous to the World's fair grounds, capable of accommodating from 5,000 to 6,000 troops at a time. The intention is to give the different states in turn the use of the camp for one week. There will be tents for militiamen, barracks for families and a large parade ground. It is intended, in addition, to use the grounds when not occupied by the militia for athletic contests in which it is proposed to have all the most noted athletes of the world compete.

Surgeons in Session.
Cresson, Pa., Sept. 4.—A largely attended convention of surgeons connected with the Pennsylvania Railroad opened at Cresson Springs to-day for the purpose of bringing into existence the Pennsylvania Railroad Surgical society. Prominent railroad surgeons from different parts of the country are present to participate in the deliberations.

RAILROAD RAILS.

John Tanney, a Las Vegas brakeman, has gone east for his family.

A San Marcial engine No. 470, is at the Raton shops being repaired.

J. H. Ward, the railroad contractor from Las Vegas, is at the San Felipe.

G. J. Chapin has been appointed general agent of the Santa Fe at Atchison, Kan.

G. A. Hancock, master mechanic, is back from a trip over the Atlantic & Pacific.

Engine No. 107, doing yard duty at Trinidad, has been sent to Topeka for a general overhauling.

Mrs. F. James, of Las Vegas, and Mrs. T. D. Scott, of Pueblo, wives of Santa Fe switchmen, arrived last night.

Miss Lucy Holmes, clerk at the railroad station in Magdalena, has gone to Kansas to pay a visit to her parents.

The company are changing the ten-wheel engines, formerly used between Raton and Las Vegas, for eight-wheel machines.

Melville Emery, a pioneer railroader on the Santa Fe, now master mechanic at Arkansas City, Kansas, is visiting friends at Raton.

For the accommodation of the public, Agent Walker has the ticket office and baggage room at the depot, kept open part of the afternoon.

Jack Farrell, of the Rock Island, who has been on the night run between Trinidad and Roswell, will be transferred to the Philadelphia division.

Nathan Lightbail, who is said to have been the inventor of the hand car, died at South Bend, Ind. He was a farmer and was over 70 years of age.

A delegation from the towns along the Santa Fe road will attend the unveiling of the statue of King Coal in the mineral palace at Pueblo, September 9.

The Buffalo Express says that a movement is on foot to organize an association of railroad men who have been in the service for more than twenty years.

James M. Fish, the Atlantic & Pacific station agent at Coolidge, with his wife, are on a visit to Mrs. A. E. Phelan, of this city. They will return to Coolidge Tuesday next.

The remains of Brakeman White have been properly embalmed at Strong's undertaking rooms, and will be shipped this evening to Denver for burial, accompanied by A. Triton.

The tracks of the Santa Fe yards are being greatly extended, and three or four new tracks put in. This is made necessary by the constantly increasing business of the yards.

H. D. Hosmer, night yardmaster here four years ago, but coming down from Denver last night, is registered at the Windsor. He is here looking up a job. They all return.

The train robbers who held up a Denver & Rio Grande passenger train near Cotopaxi, Col., the other night secured \$13,000 in gold, silver and currency from the express messenger's safe.

The hearing of the complaint of the Wichita wholesale grocers against the Missouri Pacific, Atchison, Rock Island etc., will take place before the Kansas state board at Topeka to-day.

The shipment of cattle continues. The cattle are from San Marcial and other points, and are so poor and weak that they can hardly stand up. The drought in some sections of the southwest is dreadful.

The Atchison, Topeka & Santa Fe will, on September 12, put on sale for the irrigation convention, Salt Lake City, round trip tickets at the price of one fare. The tickets are good for all points in New Mexico.

J. B. Kilpatrick, general foreman on the Rock Island at Goodland, Kan., with a party of friends, was at Trinidad the other day. The party consisted of Mr. and Mrs. Kilpatrick, Mr. and Mrs. Wyman and Miss Kilpatrick, of Ohio.

C. H. Curtis, of Topeka, chief clerk under A. A. Robinson, second vice president and general manager of the Atchison, Topeka & Santa Fe, is quite sick at the hot springs of San Miguel county. Dr. J. M. Curtis, also from Topeka, is attending his bedside.

William Courier, fireman out of Raton, has returned from Middleville, Mich., where he assisted at the burial of his mother, whose death occurred on August 10. Mr. Courier is known here to many of the railroad boys, and they extend their condolence.

The Roswell Register says: "It is reported on what seems to be reliable authority that Mr. Chas. B. Eddy is now in New York, and has about consummated the sale of the Pecos valley railroad, and the North and South canals, to a Hungarian syndicate."

The American library associations from Boston, New York and Philadelphia, consisting of 100 members, will make a trip to the Pacific coast about the middle of October. There will be one composite car, four sleepers and one dining car. It will be a special train.

Six new sleeping cars, claimed to be as fine as any ever built in this country, have been placed in service between Chicago and Portland, Oregon, over the Chicago, Milwaukee & St. Paul and Northern Pacific roads. The woodwork is polished bird's eye maple and the upholstery is embossed velvet, panels of which are set off with fine effect by the shining

wood. There are only ten sections in each car, instead of fourteen as in the ordinary car, but there are two state rooms instead of one, and they are unusually large and comfortable. More space than usual is also given to the toilet rooms, which are so situated as to secure a greater degree of privacy than in the ordinary sleeper.

John Carr, the engineer who was held up near Cotopaxi on the Denver & Rio Grande, has the true elements of a first class engineer. His courage, as shown before the robbers who demanded his watch, clearly indicated this, when he replied: "I cannot run my engine without a watch." This shows the true grit of the man. Not for a moment did he think of his own safety but that of the train.

Chas. Dyer, division superintendent at Las Vegas, has issued the following reward notice: "The Atchison, Topeka & Santa Fe railroad will pay \$500 reward for the arrest and conviction of the person or persons who broke the switch lock and misplaced switch at Wagon Mound, Sept. 1st, 1891, derailing engine 705, on extra west, Conductor Miller."

The railway hold-up and robbery on the Denver & Rio Grande Tuesday morning would indicate that initiators of the Jesse James gang are not yet out of existence. Their success will be but short lived, however, as the railroad officials will spare no pains or expense to overtake the bandits and their capture is almost certain.

Major J. W. Donnelly, of the land department of the Atlantic & Pacific, came in from the west last night. The major is making big efforts to have the finest exhibit at the fair possible of the resources of the country through which this great railroad runs.

An Important Week.
Territorial fair week, which opens at Albuquerque on September 11th and closes on the 19th, will be an important week for New Mexico. Advances reports from all parts of the territory agree that an unusual degree of interest and activity is being manifested in the collection and arrangement of county exhibits, as well as of individual exhibits, agricultural, fruit, mineral, stock, etc. The managers of the fair have arranged very liberal premium lists in all the industrial departments of the exhibition, besides numerous and very large prizes in the sporting department, such as trotting and running races, firemen's races, shooting matches, base ball games, etc.

The liberal and energetic policy of the managers has attracted the attention of the whole territory as well as of Colorado, Arizona and Texas. This in turn has given the fair an unusual amount of advertising in these neighboring states and the promise is excellent for a large number of visitors from on and off the lines of New Mexico. Arizona particularly will not only send many visitors, but will exhibit largely of her products and resources. The Denver papers are booming the fair very liberally under the circumstances. The railroad lines within, and those running into the territory, have contributed very materially to its advertisement and success by making a notably liberal passenger and freight rate.

The amount of advertising the exhibition has received has been unprecedented and the interest and promise of attendance is likewise unprecedented, therefore as an industrial exhibition the territorial fair should and doubtless will be one of unprecedented usefulness and success. This will make the week a very important one to the territory. In thus bringing together large numbers of people from widely separated sections of the country and acquainting them with each other and the peculiar industries and products of each, the fair will have a liberalizing and educating influence that will be of untold benefit to the development of the whole territory. It will also serve as a medium of much beneficial advertising through newspaper and visitors' accounts of the products and resources of the territory as exhibited.

It will also be an important week because of the number of meetings and conventions of territorial interest that are to be held in the metropolis during the week. Among these are the railroad convention, the annual republican league convention, the democratic executive committee meeting, etc. These will bring together many of New Mexico's most prominent and progressive citizens. The week will certainly result in much good to the various general and local interests that will receive attention, and the very large portion of the people of the territory to enjoy the pleasure as well as an profit of a visit to the metropolis of New Mexico, and the territorial fair, Santa Fe Sun.

Missouri Republicans.
Kansas City, Mo., Sept. 4.—The republicans of this state propose to do their share toward the success of the McKinley campaign in Ohio. This evening Gov. Humphrey, W. H. McBride, state insurance commissioner, and Louis Hancock will leave for Columbus en route for Massillon, where they will open their campaign in behalf of the "Little Napoleon."

The meaning of the word advertise, "to make known," explains its importance. Make known what you have to sell or what you wish to buy. The benefits are so far-reaching that you cannot tell where they will end.

DOING GOOD WORK.

The Bureau of Immigration has just issued a neat little folder, of convenient size, to go in a No. 10 envelope, and entitled "A Budget of Information concerning the Natural Resources and Advantages of New Mexico," which is, as it claims to be, "A concise statement carefully prepared for the information of the home seekers showing that there is an inviting field for capital, and the coming country of the south-west." It is a neat and convenient document, brim full of boiled down facts, and should be in the hands of every citizen of the territory, so that whenever he writes a letter, of friendship or business, to anybody in the "states," he can enclose one of these little "immigration agents" for New Mexico.

The present board of immigration is using the meagre appropriation at its disposal for all it is worth, and is doing more good in the way of advertising our resources and advantages abroad than was ever done by all of its predecessors together, and as the bureau, so far as its working parts are concerned, consists entirely of the secretary, the much credit cannot be given to Col. Max Frost, for his energy and industry in keeping the advantages of New Mexico constantly and conspicuously before the public.

A few years ago it was the rule for the bureau to use the greater part of its appropriation in paying the salary of its secretary, and that official was not expected to do anything more than to keep up the "dignity" of the institution; but the present board turned over a new leaf, and concluded that whatever money it had at its disposal should be used for the purpose of printing and distributing facts about New Mexico, and not in paying salaries; consequently, instead of receiving six hundred or a thousand dollars a year, as the most of its predecessors had received, the present secretary is obliged to content himself with the meagre sum of one hundred dollars per annum, and is expected to "bump himself" to make another illustration of the old saying, that the more hard work a man does the less he gets for it.

The operations of the bureau, as now constituted, are showing the people how much good can be done for the territory by that institution, and the probabilities are that the next legislature will make more liberal provisions for its support.

LEAGUE CLUB CONVENTION.
The convention of the Republican League clubs throughout the territory, which is to be held here on the 11th inst., is a matter of no small importance to the party in New Mexico, and should receive more attention than has been given to it thus far. The republicans of Albuquerque should interest themselves at once to make all the necessary preliminary arrangements, and do whatever may be required to make the meeting a success. There is nothing that so much conduces to party success as thorough organization, and the first step to a thorough organization of the party in New Mexico is a good convention of the league clubs. Let every republican take an interest in the matter.

THAT'S SO.
One of the most prominent citizens of Arizona, whose name we can give if necessary, and who has been acquainted with this town ever since the first brick was laid, remarked to a stranger yesterday morning in the hearing of a CITIZEN reporter: "They look about Albuquerque, and all the rest of the towns try to run it down, but all the same it keeps on growing faster than all the rest of them put together, and everybody that comes here stays." That's the whole truth and tells the whole story. You couldn't express any more in a column. We "get there" all the same.

The Notorious Bogus Nun.
New York, Sept. 4.—Sister Beatrice, the notorious bogus nun, who has been frequently exposed in the newspapers, was arraigned in the Jefferson Market police court on the charge of vagrancy, preferred by Agent Jerome of the Charity Organization society. She was committed for examination.

The woman has a history. She is the same woman who sued the late Senator Simon Cameron, of Pennsylvania, for \$50,000 for breach of promise of marriage. Gen. H. F. Butler was counsel for Senator Cameron, and the trial, which lasted about two weeks, resulted in a verdict against the woman. She is said to be Marie Oliver, the wife of Thomas Marshall Oliver, of Louisville, Ky., who died here in New Orleans in 1870. She followed him to Washington and he secured her a position in the treasury department. While she was living at the Fremont house General Cameron advanced her \$1,000.

Illinois at Gettysburg.
Gettysburg, Pa., Sept. 4.—The exercises incident to the dedication of the monuments to the Illinois soldiers who fell at this spot were continued to-day. This afternoon Gov. Fifer and a delegation from Illinois will leave for the National capital under the escort of the Illinois Association of Washington and tomorrow the visitors will be tendered a reception.

SENATOR STEWART being asked who would be the next republican nominee for president, sized up the situation very accurately when he sententiously replied: "Much will depend upon what takes place in the next congress. It may make or mar the hopes of many presidential aspirants."

F. B. DUNLAP,
Commission, Produce & Fruits,
Butter, Eggs, Poultry, Etc.

301 SOUTH SECOND STREET. ALBUQUERQUE, NEW MEXICO.

Packer and Shipper of Choice New Mexico Peaches and the Celebrated Mission Grapes. Agent for the New York Grape Basket. The Best Fruit Package made.

Please register orders with me for Fruit and you will be protected in every way. If you have Fruit to consign, send it to me. I can use it to good advantage, if choice, and you will obtain full market value.

For Sale—1,000 Barrels Native Apples, from the best Nurseries in the Rio Grande Valley.

Also large consignments of California Fruits.

EDITORIAL NOTES.

At Salt Lake City on the 17th of this month, a largely attended irrigation convention will be held. Delegates will be present from all the western states and territories.

Lance districts of Russia are suffering from famine, and it is little wonder that riots have been caused by the exportation of rye. With a fraction of the money needed to support the Czar's immense army, ample food for all could be provided.

Those wishing to invest in New Mexico and Arizona mines will be greatly interested in the exhibits at the territorial fair. Nearly all the mines in the two territories will have ores on exhibition at the fair, and a study of the collections will be of benefit to prospective investors.

It is but very little known that the tomato is a native of South America. It was known in England as early as 1593, but its introduction into North America is credited to the French families who were exiled by the revolution of San Domingo and settled in the eastern part of the United States.

SECRETARY FOSTER announces that there is no foundation for the rumor whatever for the report that the 4 1/2 per cent bonds which come due to-day, will be continued at 2 per cent interest, if not presented. He says the bonds will absolutely cease to bear interest at maturity, and will be redeemed as fast as presented.

In the spring of 1891, when the publisher of this paper first proposed holding a territorial fair, the idea was ridiculed as visionary and it was urged that it would prove a failure. He is somewhat proud of the success of the annual exhibitions, and firmly believes that it is just as easy for a community to establish a fair as a graveyard.

A DISTINGUISHED Paris professor, after a careful investigation, declares his belief that a hypnotized person may be made to commit a crime. This conclusion has been reached by other investigators, and it is positively asserted that a woman who was recently convicted of robbery in Paris had been compelled to commit the crime by mesmeric suggestion.

The surveyor general of this territory, E. F. Hobart, has just made his annual report to the commissioner of the general land office, which shows that during each of the past two years surveying contracts have been let to the full amount of the annual allotment of \$10,000 to New Mexico from the general appropriation for surveying public land. This fact speaks well for the progress of settlement in New Mexico, and consequent demands for surveys by settlers. The total length of different lines surveyed during the past year amounts to 880 miles. Three hundred and sixty townships and other places have been made in the office the past year.

Notice.
The Commercial club has had a conference with the National Health Resort association, and has appointed a committee of its members to look up the subject of procuring a proper site and quantity of land to tender the resort association for one of its stations, but it will be settled. This winter the physicians will send numbers of these patients out west, and ask that they be furnished with an estimate of how many invalids can be furnished with accommodations here at Albuquerque. No paupers or persons so ill as to be objectionable will be sent. All persons able to furnish good room and board to one or more persons for the coming winter will please send their names with the particulars and charges per week to the undersigned.

NOLON E. ROSS,
Secretary Commercial Club.
J. M. WHEELER,
Chairman Committee.

For many years Mr. B. F. Thompson of Des Moines, Iowa, was severely afflicted with chronic diarrhea. He says: "At times it is very severe; so much so, that I feared it would end my life. About seven years ago I chanced to procure a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. It gave me prompt relief, and I believe cured me permanently, as I now eat or drink without harm anything I please." I have also used it in my family with the best results. For sale by Thos. H. Burgess & Son, Druggists.

He will Attend.
Albert Hoffmann has been appointed as a delegate from this city by Governor Prince to the Irrigation congress which meets in Salt Lake City, Utah, on Sept. 15, 16 and 17. The congress will be an important and interesting occasion, and the New Mexican delegates ought to make it convenient to attend. Mr. Hoffmann states that he will go.

Miss L. A. Ferry got home from Cloverdale, Cal., last night. The lady was at her type-writing in Judge Hazledine's law office this morning.

James Collins, who was at the Exchange hotel, old town, for some time, is now doing duty at the Armijo on the night shift.

Thos. McGrath, an Atlantic & Pacific engineer, came in from the west yesterday, and will remain a few days.

CHAS. F. HUNT,
Clark and Register in Chancery.
PHILLAN & HINACOCK, Solicitors for Complainant.

Weekly Citizen

[From the Daily, Aug. 19.]

Wallace W. Hite and wife, that charming writer "Hawthorne," are in the city from Manzano.

Miss Lillian Carr, a teacher in the public schools, has just returned from a visit to California.

Mrs. D. Gursule is reported dangerously ill, with chances decidedly against her surviving through the night.

C. R. Shupe, of the law department of the Atlantic & Pacific, was taken sick with hemorrhage of the lungs yesterday. He is very sick to-day.

W. A. Maxwell and G. A. Maxwell, brothers, are here from Gallup. They report all quiet among the miners and the mines running full handed.

George Albright and wife will leave tonight for a visit to relatives and friends at Chillicothe, Ohio. They will probably be absent several months.

Andrew Smith, superintendent of transportation of the Atlantic & Pacific, and Jesse Robins, train master at this point, left last night for a trip over the line.

John J. Callen, the veteran base ball player, is at Raton and writes the manager of the Maroons for a game at an early day. He will be accompanied.

John Morton, the Santa Fe fruit raiser, is in the city. Mr. Morton will make a splendid exhibit of fruits from his Santa Fe orchards at the territorial fair.

Al Thelg, a brother of Gus Thelg, at the White Elephant, is a late arrival from Kansas City. Al thinks seriously of leaving here. He is a first class barber.

John H. Thurler, a cow puncher from the Antelope Springs cattle ranch, is in the city. Mr. Thurler states that all the cowboys of his neighborhood will be here during fair week.

The Citizens understands that the annual meeting of the stockholders of the Rio Grande Irrigation & Colonization company will be held in this city on the 17th day of September.

Mrs. M. C. Maginnis, a lady clerk in the Santa Fe freight depot, who has been spending her vacation in California, returned home last night and will be at her desk Monday morning.

T. J. Woods, in the employ of the Mexican Central, son-in-law of Superintendent Andrew Smith, is at the San Felipe from El Paso. Mrs. Woods has been the guest of the hotel for several weeks.

Mrs. George R. Brown, wife of the gentleman in charge of the engineer corps of the Rio Grande Irrigation and Colonization company, came up from Silver City last night, joining her husband at the Armijo.

At the recent town election of Cerrillos the following gentlemen were elected: Trustees—W. E. Dame, D. L. Miller, C. W. Uptegrove, Randolph Kelly and R. Green; marshal—Z. M. Crutchfield. They are all good men.

Mike Tierney, the Santa Fe switchman who was hurt in the yard here the other day, sustaining the painful squeezing between freight car bumpers, of the right hand, is back again at his duty. The hurt laid Mike up for about a week.

Frank E. Reinhardt, of Dennison; Foster S. Dennis, of Kingman, Arizona; George Hill Howard, of Santa Fe, and W. P. Lewis, of Oakland, Cal., put their names on the register at the Commercial club yesterday afternoon and this morning.

Miss Edith Wallace, a sister of Second Lieutenant Wallace, of the Second cavalry, Fort Wingate, came in from the west last night and registered at the San Felipe. The lady is here on a shopping tour and will return to the fort tomorrow.

H. T. McKinney and wife came in from the Star mine, Hill canon, this morning. He is the mineral department at the fair, he canon, over which Mr. McKinney signs supreme, will be handsomely represented by one of the grandest and most elaborate mineral exhibits ever seen in this city.

Mrs. J. G. Albright, one of the lady commissioners to the World's fair, and daughter, Miss Dolie, leave to night for Chicago. Mrs. Albright goes east to attend a meeting of the lady commissioners, while the daughter will enter the law school of learning for young ladies at Chicago.

The Cerrillos Beacon says: J. T. Sathy, a very successful mining man, formerly of Arizona and now a resident of Albuquerque, is interesting himself in a south Santa Fe county mine and will surprise some of the natives before many days. This is a way those Albuquerque people have.

Miss Clara Jenson, a young lady who has been teaching the little Indians at the Chillicothe school, Indian territory, is a passenger from the north last night. She comes here to accept a position as teacher at the government Indian school and Prof. Greager came in this morning after her.

The Cycle Improvement and General Patent company have received word that their machines were commenced and would soon arrive. They are being made by the Humber company, of London, the leading bicycle firm of the world, who expects a large demand for them. It appears to be an invention of very great merit.

Mrs. W. E. Paige, the wife of a popular brakeman on the Atlantic & Pacific, with her interesting little daughter, Miss Annie, and her sister, Miss E. De Maun, contempt for the fair, a visit of few weeks to relatives and friends in San Francisco. The trip will be a very delightful one, for the ladies were originally from this wonderful city of the Pacific coast.

Chas. Parker, an old Kansas horse man, is here with seven horses from Council Grove, two of the animals are thoroughbred racers. Mr. Parker was

in New Mexico 30 years ago, and many of the old timers met with them are to-day residing in this vicinity. Dr. Strachan, H. V. Harris and others are well acquainted with the veteran horse breeder of Kansas.

The road to the mountains—that is, the extension of Railroad avenue beyond the Sherrick property, needs the attention of the county commissioners, and that at once. A culvert has been recently washed away, and a road has been formed on the sides. On dark nights, however, the road is dangerous traveling, and the commissioners should at once repair the damaged culvert.

A letter from Boston states that Mrs. Anne Daren and her charming daughter, Mrs. Ella A. Runney, who formerly taught the Indian school at Laguna, will return to the city in about three weeks, probably before the fair, and make their future home here. The coming of Mrs. Runney will doubtless be hailed with delight by certain young gentlemen who were more than pleased in sending west choice boxes of fruits, etc.

Mr. H. E. Twelvetyes, private secretary to General Superintendent Nickerson, of the Atchison, Topeka & Santa Fe, Topeka, Kansas, reached here this morning accompanied by his wife and father, R. H. Twelvetyes, Mr. Twelvetyes, senior, is an English railway official and has just arrived in this country from London, England, on a visit to his son. The party leave in the morning for California with intention of visiting Los Angeles, San Diego, San Francisco and the Yosemite valley.

The beautiful gold medal, a prize offered by M. C. Nettleton, the jeweler, to the Albuquerque Gun club, to be presented on Sept. 24 to the best shot, is on exhibition in his front show window, and is greatly admired. The design is new and very exquisite, beautifully engraved, with raised pistol grip and hammerless guns, encircled with laurel sprays. It is undoubtedly one of the prettiest medals manufactured and the man who is fortunate to win it will always remember Mr. Nettleton.

Johnny Schofield, of the firm of J. W. Schofield & Co., general agents for the Equitable Life and Standard Accident Insurance companies, came down from Santa Fe last night, and will remain a few days in the metropolis. Mr. Schofield has just returned from a very prosperous trip to Colorado, visiting Durango, Alamosa and other towns, and he learned that they will send a large delegation to the territorial fair. The liberality of the railroad companies in offering the one cent per mile rates catches them all. The Citizens understands—keep it quiet however, that the headquarters of the Equitable Life and Standard Accident company will at an early day be moved to this city.

Dance Last Evening.

The headquarters of the Jolly Tens social club last night were taxed to the utmost capacity to hold the crowd of dancing young people who gathered there for their heptadecadidol. The members of the club are just recovering from the "heat" of our tropical summer, but judging from their conduct last night they have, during their forced vacation, been laying up a store of energy for the coming fall. There were about thirty of the members present, and the following visitors: Messadams Ray, Albright, Kelscher, Collier, Cruse, Kern and Moore; Misses Weidner, Gutierrez, Whiteman, Strong, Talbot, Gregory, Albright, and Messrs. Hall, Moore, Cruse, McGowan, Kelscher, Moore, Gutierrez, Mandell, Wilton and Sulzer.

The visitors from a distance, St. Louis and El Paso, who leave to night for their respective homes, carry with them a pleasant memory of a few hours happily spent with a society of Albuquerque's young people, who, whatever be their troubles and disappointments during the week, even for a few hours every Friday evening be worthy of their well chosen name, "The Jolly Tens." The music by Prof. Solring and Stever was perfect.

They Quarrel.

A fuss, bordering on a general fight, with blackened eyes and bloody noses, raged this morning in the spectrum of El Defensor del Pueblo, the White Cap paper, which it is alleged, Col. Childers is putting up cash to see published. There are two editors connected with this newspaper concern that desire to turn American institutions into the worst state of nihilism known—even worse than that which existed in San Miguel county a year ago—and this morning when Editor Lama wished an article published, Editor Herrera, the leader of White Capism, interposed a serious objection, and thus, for a time, the air reverberated with blasphemy and the two editors came within an ace of colliding. Editor Lama grabbed the head of the paper—that stereotyped line—and sworn by all that was sacred that he would withdraw from the paper if the article was not published, while Herrera stamped the floor like a maddened bull and declared in forcible Spanish dialect that he could not allow it to receive publicity. For an hour or more the two editors ranted and finally they agreed to leave it for settlement to a democratic attorney. Late this afternoon the matter will be amicably settled.

Los Lunas Delegates.

One of the most enthusiastic meetings ever held in Los Lunas was the one of yesterday to select delegates to the great railroad convention, which convenes in this city on the 18th of September. The meeting was called to order by Sheriff Luna, who nominated Louis Huning as chairman. After the object of the meeting was plainly announced to the meeting, a motion was made that the chairman appoint the delegates apportioned to Los Lunas, including himself as a delegate. The motion was unanimously carried, and the following delegates will represent Los Lunas here on the 18th: P. M. Spears, A. M. Bergere, Solomon Luna, Tranquilino Luna, Max Luna and Luis Huning.

WE WILL CO-OPERATE.

Important Telegrams Between Denver and the New Mexican Metropolis.

This morning the following telegram was received by S. E. Ross, secretary of the Commercial club:

Denver, Col., Aug. 19.

S. E. Ross, Albuquerque.

The committee appointed by various exchanges of Denver are urging the appointment of a man west of the 100th meridian to fill the vacancy on the Interstate Commerce Commission. Will you co-operate immediately.

H. A. W. Tabor,

Pres. Denver Chamber of Commerce.

To ex-Senator Tabor's telegram, Mr. Ross immediately sent the following answer:

Albuquerque, N. M., Aug. 19.

Hon. H. A. W. Tabor, President Denver Chamber of Commerce.

The Commercial club of Albuquerque will at once co-operate with you in changes to have a man west of the 100th meridian appointed Interstate Commerce Commission.

S. E. Ross, Secretary Club.

After the above telegram was sent to ex-Senator Tabor, of Denver, Mr. Ross prepared and sent the following dispatch to his excellency, Hon. Benjamin Harrison, president of the United States:

Albuquerque, N. M., Aug. 19.

Hon. Benjamin Harrison, President of the United States, Washington, D. C.

A petition urging the appointment of a man, a resident west of the 100th meridian, to fill the vacancy on the Interstate Commerce Commission, has been signed here by various commercial exchanges and all the prominent merchants.

S. E. Ross,

Secretary Commercial Club.

The petition which is being circulated and has obtained a number of signatures reads as follows:

To Hon. Benjamin Harrison, President of the United States, Washington, D. C.

The undersigned, citizens of the United States, would respectfully petition your excellency to appoint a citizen of that portion of the United States west of the 100th meridian, as a member of the Interstate Commerce Commission.

Commissioner Bragg was a democrat, and the appointment falls to a democrat. He is likely to be some prominent democratic politician of Denver. The Citizens would like to pull for Lorion Miller of this city, but as we live in a territory, it would be useless to expect that Mr. Miller or any other New Mexican would be so fortunate as to receive such an appointment. However, our line is for Lorion.

From the Daily, Aug. 19.

The Fair association has authorized J. E. Saint, now in K. was City, to buy 500 coats, 500 pillows, 4,000 quilts.

Mrs. Chas. Kennedy came in from the west last night from Los Angeles. The lady will remain until after the fair.

Hotels are filling up rapidly, and all will be taxed to their utmost from now until after the great territorial fair.

Mrs. J. L. Hamm, who has been visiting a daughter and a brother at San Francisco, returned home last night.

Miss Lucinda Pera, of this city, is visiting friends at Santa Fe and will in a few days go to St. Louis, where she will attend school.

Richard Helen is celebrating his 64th birthday. Dick is one of the hardy westerners, good for at least twenty years to come.

District Court Clerk Hunt will draw the Valencia county jury tomorrow morning, the court of that county convening at Los Lunas on Sept. 25.

W. E. Hazeltine, of Prescott, Arizona, brother-in-law of Karl A. Snyder, is in the city, and is registered at the San Felipe. Mr. Hazeltine is cashier of the Bank of Arizona, of Prescott.

Miss Florence Hughes, sister of Levi Hughes, the revenue collector at Santa Fe, spent the past week at Powers' hotel on the Pecos. She is the accomplished book keeper in the revenue office at the capital.

Miss Margaret McCabe, of Washington, D. C., came down from the north last night, and put her name on the register at the Armijo. The lady will become a teacher at the government Indian school.

Mr. and Mrs. Roman Romero, the newly wedded couple, registered last night at the San Felipe from Santa Fe. Mr. Romero is a deputy United States marshal under his father, Trinidad Romero, the marshal.

Gov. E. S. Stover is devoting a portion of his time to bee culture, and this season is quite successful. This morning he presented this office with samples of honey from his apiary, and it is equal to that produced anywhere.

C. C. Parker of Morris county, Kansas, is in the city. He resided in old Albuquerque 25 years ago, and is astonished to see a modern city here. Mr. Parker has a number of horses, and will take part in the races at the approaching fair.

Mrs. P. E. Kern, of El Paso, and her sister, Miss Julia Gregory, of St. Louis, who have been here visiting H. G. Moore and wife, left last night for St. Louis, where Mrs. Kern will visit her parents for a few weeks before returning to El Paso.

The jury list, containing between 800 and 100 eligible names, for the next United States and district courts, were turned over to Judge Lee Saturday afternoon. Clerk Hunt will soon commence working the little machine provided for jury names.

Miss L. A. Ferry, the stenographer at Judge Hazeltine's law office, after a needed recreation, which she has been spending with relatives at Cloverdale, Cal., will return to her duties to-morrow morning. The young gentleman who called at the depot Saturday night was ahead of time two days. Miss Ferry's place during her absence has been admirably filled by Miss Dora Walker.

Col. T. B. Mills, of Las Vegas, was in the city yesterday, conferring with President Hall for suitable space for the splendid exhibit of San Miguel county at the territorial fair. The exhibit will consist of a car load of the products of that coun-

ty, which will arrive on Sept. 12, and be placed in position before the exhibition opens. Col. Mills is a worker, and his county will hear good reports from his labors.

W. F. Coors, formerly of Las Vegas, now a cattle raiser on a ranch near Deming, came up from the south last night, and is here to-day. Mr. Coors is shipping his cattle to Kansas pastures, made necessary by a local drought now prevailing in his section.

A disappointed applicant for the principalship of the Gallup school made a cowardly assault on G. W. Beckley a few days ago, forcing him to the ground with an unlawful weapon. The cause of the attack was envy. Mr. Beckley being an applicant for the position coveted by Will Adams.

Yesterday morning the horse of W. L. Van Horn, hitched to a two-wheeled cart got scared at a piece of tin lying in the street opposite the old town post-office and ran away. Mr. Van Horn was thrown to the ground, but strange to say was not in the least hurt. The cart was badly wrecked, while the animal received several slight injuries.

The young wife of D. Gursule, the railroad avenue merchant, died Saturday afternoon at 4 o'clock after a illness of about three weeks. Her funeral was under the supervision of Undertaker Strong this morning, and her remains were followed to the Santa Barbara cemetery by a large number of mourning relatives and friends.

Miss Mary Saxton, a niece of Prof. Lloyd, who is a son-in-law of the sister of the Chicago Tribune, is here from the "city of the lakes," on a visit to her friend, Mrs. Thos. R. Grier. Miss Saxton is a charming young lady, and after spending several months with Mrs. Grier, will proceed to California, to remain during the winter with her friends.

Wm. Farr and W. H. Hulvey are at home from a trip to the Zuni mountains in search of fat beef. Mr. Farr found some very fat cattle, and at once purchased them. He states that there is a strip of country between Cordoba and Fort Wingate which has been blessed with good rains and the cattle there are in fine condition, but in other sections are in exceedingly thin condition from want of grass and water.

Gov. Stover has returned from a trip to Magdalena, which he reports prosperous. The mines are producing well, and the miners are in a happy frame of mind. He states that Magdalena and Kelly mines, in fact all the principal mines of Socorro county, will be represented at the fair by fine exhibits of ore. He intimated that Mr. Patterson was thinking seriously of establishing a smelter here, provided he could secure from our citizens the right kind of inducement.

The trial of George Lobato, Nicolas Chavez y Sanchez, Filmano Jaramillo, Jose Chavez, Manuel Anaya and Ambrosio Arroyo, charged with assaulting with deadly weapons Donaciones Garza, concluded before Justice Mandell Saturday afternoon by the defendants being dismissed. It was proven that the prisoners did not assault Garza with deadly weapons, but that he threatened the only one who possessed or exhibited a deadly weapon and that was a knife.

Yesterday afternoon at the fair grounds the horse running team made the full distance of 100 feet to the plug and had 20 feet of time in very good time, but they will have to increase their speed several seconds if they expect to come out of the race winners. Three runs were made, and in the last in unweaving the horse it jumped and the coupling caught under the iron frame of the cart, completely damaging it for further use. A new one will be sent for to Chicago at once. This accident will not prevent the team from practicing every evening.

He Was After Blood.

Yesterday, Luciano Barcia, who resides at Los Bariles, south of the city, loaded his tank with a few whiskeys and lagers beer, and sailed forth on a genuine hunting and slinking tour with a keen edged pocket knife. In the afternoon, he was at Nick Sanchez' place in south Albuquerque and picked a quarrel with several Mexicans. They all adjourned to the streets and on the way to Los Bariles a fight ensued in which Manuel Gutierrez received three cuts on the head from Barcia's handy knife. Not satisfied with the blood brought from the head of Gutierrez, Barcia continued to Ruby's place and finding several Mexicans there soon inaugurated another fight. A man named Sedillo was his special game, and Sedillo was treated to a black eye and several slight cuts. A general fight ensued, and two or three men received slight cuts from Barcia's knife. Marshal Maston was informed and proceeding to the scene brought the slasher to the city jail, where he slept last night. Three warrants were sworn out against him in Justice Denham's court, and he is being tried this afternoon. A warrant was also sworn out against him before Justice Whiting of old town.

Barcia was found guilty, as charged, with cutting Sedillo, and the other charges are being heard against him.

Hotel at San Pedro.

To-day Mr. P. Powers will close his excellent hotel on the upper Pecos, and will remove the furniture to San Pedro, where he will open a first-class hotel this week. The hotel on the Pecos will be reopened in the spring, and will deserve a liberal patronage. There is no more pleasant spot in the country to recreate during the summer months. Mr. P. Powers and wife had charge of the hotel this season and they made it pleasant for guests. They will have charge of the San Pedro hotel, and will make it a popular place to the traveling public. Mr. Powers has done much to make the Pecos river country a popular resort, and his hotel at Giorietta and Pecos are a great convenience to tourists.

ALBUQUERQUE DELEGATION.

Meeting and Organization at the Council Chamber Saturday Night.

The Albuquerque delegates to the railroad convention to be held in this city on the 18th of September, met at the council chamber on Saturday evening, and the roll being called sixteen of the twenty-two entitled to seats responded.

The delegation organized by electing C. F. Hunt chairman, and W. S. Marks secretary.

At the request of the chairman, Mr. Ross, secretary of the Commercial club, stated the object for which the meeting had been called, and which he explained to be to organize the delegation and make the necessary arrangements for the convention.

After some time spent in general discussion, Messrs. Ross, Brooks, Miller, Ferguson, Mulvey, Hughes and Albright were appointed a committee on reception and entertainment.

On motion of Mr. Brooks, Messrs. Hunt, Lee and Saint were appointed a committee to secure carriages for the convenience of delegates, and arrange for their visit in the fair and other points of interest.

On motion of Mr. Ross, it was ordered that blanks be furnished to the several delegates by the Commercial club, upon which to place their respective names of the several committees, and to formalize such statements as may be required.

On motion of Mr. Miller, Messrs. Marks, Ross and Mayfield were appointed a committee on statistics and correspondence, with power to act.

Mr. Mulvey moved that a committee of seven, with Mayor Saint as chairman, be appointed on ways and means. The chair appointed as such committee, Messrs. Saint, Childers, Brooks, Ross, Miller, Ferguson and Mulvey.

On motion of Mr. Farr, Messrs. Mayfield, Ferguson, Mandell, Bowman and Otero were appointed a finance committee, to raise funds necessary to defray the expenses of the convention.

On motion of Mr. Strickler, Messrs. Albright, Hughes and Brooks were appointed as press committee.

On motion of Mr. Brooks, Messrs. Mandell, Koster and Arroyo, were appointed a committee to arrange with the authorities of the Indian school and the manufacturing institutions of the city for the proper entertainment of delegates upon their visit to those establishments.

On motion the delegation adjourned, to meet again at some place on Saturday evening, Sept. 12, to hear reports of committees, and make final arrangements.

From the Daily, Sept. 19.

The street car company is placing several hundred new tires on the track, and otherwise placing the line in good repair.

Col. Walter G. Marmon visited Santa Fe yesterday, and placed fourteen Laguna Indian children in the Ramona school.

The New Mexico Horticultural association will hold a running meeting at Albuquerque on the second day of the fair, September 15.

Mr. Spencer, who is in from San Pedro, says Kim Ki Rogers is collecting an exhibit of ore for the fair and expects to carry away some of the premiums.

Louis Freund, a jewelry tourist, New York, and Ad. Meyers, traveling for a wholesale millinery firm of Kansas City, came down from the north last night.

William Henderson, a brother of James Henderson, is here from Texas on a visit. The visitor is a first class contractor and builder, and thinks of locating here.

Mariano Perea, of Bernalillo, who has about twenty thousand sheep grazing on the Little Chama, in Rio Arriba county, has just made a sale of \$3000 to Nebraska parties. Terms not known.

Major A. S. Towar, one of the United States paymasters, stationed here, with his family, returned from an extended vacation with eastern relatives last night. The major and his family are quartered at the San Felipe for the time being.

The wife of Ignacio Selva returned from Italy last Saturday night, where she was visiting relatives the past year. Mr. Selva is pleased over the safe return of his wife, and this week they will occupy their new home in Tigres.

H. J. Emerson, of the Bank of Commerce, having worked faithfully for the past year, and also acquired a considerable ready cash, by successful deals in real estate, will leave on Wednesday night for a thirty days visit to New England relatives and friends.

J. A. Stinson, the Chulih sheep raiser, is moving his family into the city, so his children may get the benefit of the first-class schools of the metropolis. It is understood that other ranchmen within a radius of fifty miles or more are contemplating following the example of Mr. Stinson.

One of the finest exhibits of manufactured goods at the territorial fair will be the exhibit of buggies, phaetons, buckboards, etc., from the carriage repository of W. L. Trimble & Co. This enterprise firm intends to put up a large tent, since they are unable to secure space in the hall, and make a grand display of vehicles.

John Lutz and a party of other Albuquerqueans started out this morning to inspect the new gold find of A. Antonio, mention of which was made in yesterday's Citizen. If the property is as represented it certainly is the richest find ever made in the Sandia range. The ore will be given a thorough test and then something more definite will be known about it.

The ball in honor of the marriage of Jose Miller, son of John Miller, the Casa Salazar merchant, and Miss Carlotta Candelaria, grand-daughter of Mrs. George Morris, took place at Post's Exchange hotel last evening, and was really one of the nicest native affairs of the kind that has occurred for many months.

IT WAS LARGELY ATTENDED BY A HOST OF THE FRIENDS OF THE CONTRACTING PARTIES, AND PERFECT ORDER PREVAILED.

The bride was elegantly attired in white, with a profusion of choice flowers pinned to the front of her tulle gown, while the groom wore the regulation black. Mr. Miller is hardly 19 years of age, while the bride has just passed her 15th birthday. The Citizens congratulate the young couple.

Yesterday afternoon the sale of eleven lots in the Romero addition, north of the mountain road, was made by Al Coleman to L. P. Krawinkel for \$6000. The lots are 25x112 feet each, in good location, and Mr. Krawinkel secured the best bargain that has been on the market for the past several years. Mr. Coleman also sold a piece of property, located at the terminus of Fourth street, just beyond the mountain road, containing about six acres, to Ed. Quinzel for \$12,000. The gentleman also obtained a bargain in real estate.

Extraordinary to come in for the races and the indications are that we will have the largest number of horses this year that we have ever had, by 100 percent and maybe more. There will be horses here this year that have never before visited a New Mexico track.

Permanently Organized.

A permanent organization of the Albuquerque stockmen has been organized as "The Albuquerque Athlete's association," was perfected last evening at a meeting held at Justice Mandell's office.

J. G. Albright, chosen as temporary chairman, called the meeting to order. Mr. Albright stated the object of the meeting was to effect a permanent athletic association, and it was in order for the reformation of permanent officers.

The following gentlemen were there upon unanimously selected to the positions:

J. G. Albright, president; Jacob Weinman, vice president; W. T. McCreight, secretary; W. P. Rhodes, treasurer.

Messrs. Hope, Hoff and Rhodes, appointed at an informal meeting held a few days ago, constitution, submitted their report, which, after being read by the secretary, was unanimously adopted without amendment.

It being in order for the election of a board of directors, the following gentlemen received a majority of the ballots cast and were declared elected: J. B. Bushnell, E. M. L. O., Jacob Gansley, Dr. J. P. Pearce and Charles Yondorf. The president, secretary and treasurer are ex-officio members of the board.

The treasurer was instructed to have certificates of membership printed, and to see about the payment of initiation fees.

George Candell, J. E. Priest, Jacob Weinman, W. P. Rhodes and Dr. Macbeth were appointed a committee to select members, and report progress at a meeting to be held at the same place next Saturday evening, to which time an adjournment was had.

Considerable enthusiasm and interest was manifested by those present, and it is now safe to predict that an athletic club, worthy of the name, will be an established institution of the metropolis.

Suicide, but Why?

A gentleman who came down from Cerrillos this morning, gives the particulars of the tragic ending of Ulrich North, who was largely interested in the property and development of that town. Yesterday morning upon arising from bed, North drew forth his revolver, it is said, and placing it to his head, deliberately blew out his brains.

A coroner's jury was empaneled but so far have been unable to reach a verdict for some reason as yet unknown.

Some persons assert that North has been an incurable invalid for some time, and that the act of self destruction was the result of melancholy. Others, however, hold a different theory and trace the prompting of the pistol to family troubles. The bullet is said to have pierced at about equal distance from the crown, which perhaps was possible for the man to have done with the pistol in his own hand.

The ill-fated man has been in Cerrillos about two years. His brother, George North, preceded him to that town and was a member of the Cerrillos Supply company. Their father, who is a wealthy citizen of Kansas City, is the owner of 160 acres in Cerrillos, laid off into town lots. The deceased was about forty years of age. His wife was with him at the time of his untimely death.

Engineer McInnis.

Engineer J. McInnis, who was at the throttle of the ill-fated engine, No. 155, when it was wrecked on the afternoon of August 25th at Towne siding, near El Paso, in which Conductor Starr was instantly killed, came up from San Marcial last night and will remain here a few days, sleeping at the Windsor. Mac states that he cannot conjecture what caused the engine to jump, for it was in the best of condition, track the proper gauge, and no obstruction of any kind visible on the track.

It is the opinion of Division Superintendent Mudge that a slight obstruction probably a small pin, had fallen between the switch rail and the main rail, and the engine thus flew the track, killing Conductor Starr, frightfully injuring the left leg and partly the body of brakeman John Mudge, and knocking a gash in the head and over the left eye of Engineer McInnis. The latter also suffered a severe squeezing of the left side between the tender and the cab. Strange to say, Fireman Graham was not in the least hurt. He, however, has had enough of rail roading, and yesterday resigned his position to Master Mechanic English at San Marcial.

Mr. McInnis claims that it was the closest call for death that he has had since becoming a railroader, and, while he will soon be at his hazardous occupation again, he does not fancy going through another accident such as the one he experienced at Towne siding. His wounds are healing finely. He states that Brakeman Mudge is getting along as well as could be expected, considering the seriousness of his injuries, at his brother's house in San Marcial.

IN THE MATTER

Of the Application of F. B. Dunlap for a Writ of Habeas Corpus.

The case was submitted on an agreed statement of facts. To the effect that the applicant, F. B. Dunlap, was charged by the police of the city of Albuquerque of violating an ordinance for running a wagon for the transportation of goods for hire without paying a license therefor. That said Dunlap is a commission merchant, that he uses his wagon and team in that business but does not charge for the same. That he also does a storage business in connection with his commission business, and that he charges for transporting goods from the depot and other places to his store house, and from his store house to such other places as the owners may direct, and for such hauling he charges drayage, and that he does not haul for any other persons.

The ordinance provides that every person keeping or using in the city a public dray for hire shall pay

Weekly Citizen

OFFICIAL PAPER OF THE CITY AND COUNTY.

THOMAS HUGHES, Editor.

ALBUQUERQUE, N. M., SEPT. 3, 1901.

Office—No. 115 West Gold Avenue.

(From the Daily, Sept. 2.)

Mrs. W. S. Burke, wife of a member of the editorial staff of THE CITIZEN, returned last evening from a two weeks' visit to the cities of southern California.

Rev. S. C. Wright and wife are home-ward bound and will arrive in Albuquerque about the 15th. They will be in town to see the great territorial exhibition.

Mrs. S. D. Smith, wife of the dentist, left last night for Union City, Ind., to visit her home people. The doctor will be a guest of the city for at least six weeks.

Dr. G. P. Robinson, of Gallup, came in from the west last night to meet his wife, who has been on a visit to Brenham, Texas. The doctor and wife will return to Gallup this evening.

The delegates of the town of Bernalillo to the railroad convention here were selected yesterday and are as follows: B. F. Perea, J. M. Castillo, B. Montoya, Jose C. Estrada, Anastacio del Valle and J. R. Armijo.

A Mexican farmer, arriving here early this morning with a wagon load of all kinds of fruits, had the misfortune to have one of the hind wheels of his wagon break off. A job therefore for the blacksmith.

Secretary Chas. H. Pope and J. C. Martin are making elaborate arrangements for the shooting tournament, which takes place fair week. There will be a large attendance of marksmen from all over the southwest.

Mr. and Mrs. J. R. Malette are rejoicing over the arrival at their home last night of a ten pound boy. It is the first born, and of course Jerome the father, is exceedingly pleased over the fact that it is a boy.

George Montgomery, a clerk in the auditor's office of the Atlantic & Pacific, spoke leader in the Albuquerque horse running team, left for the west last night on business. He will probably stop at Prescott, Arizona, for a day.

C. R. Cose, the owner of "Midvale" ranch, and one of the old former residents of this city, who is now a resident of San Francisco, writes that he will be at the territorial fair, and hopes to meet his many old friends on that occasion.

Rev. J. D. Bush was paid a rare compliment at the conference at El Paso. The people of Eddy petitioned that he be stationed there by the conference, and sent along with the petition a guaranteed subscription of \$1,000 toward his salary.

The Trinidad Advertiser says: Sister Blandina, one of the pioneer sisters of charity to Trinidad, returned yesterday from Albuquerque, N. M., to take charge of the First ward public school. The good sister is one of the best disciplinarians in the city.

J. J. Hyman, a first-class young gentleman who has made Albuquerque his home for a year, will leave tonight for Philadelphia, where he spent his childhood days. He will be absent about thirty days, and before returning will pay his respects to relatives residing in New York and Boston.

W. H. Renich, of Rosalton, Minn., is anxious to know all about New Mexico and the city of Albuquerque, if a letter he has written to the Commercial club is any criterion from which to judge. He has propounded for answer twenty-five questions, and Mr. Renich will be in receipt of the answers in a few days.

A fight occurred at one of the barber shops last evening, in which one of the barbers was literally made to mop up the floor with his fallen carcass. At 9:30 o'clock p. m., the kicked barbers was observed on the outside of the shop, and he was telling several men that if two had not jumped onto him he would have whipped the one he was after. Strange to say, not a razor was drawn, and the affair resulted in no bloodshed.

Mr. Desoria's Mer.

Faustina Wilson, a Mexican woman, is mourning the absence of her American husband, James Wilson, formerly forger at the gas works. It is said James has been anxious to leave his better half for the past year, for the woman is a character and has figured in numerous bad and disreputable escapades in the police courts, much to the annoyance of her husband who was compelled to go down in his pockets for cash to keep his wayward wife out of jail. Last week the husband conceived the idea of sending Faustina to Las Vegas to visit her daughter, and thus the unsuspecting creature went to the capital of San Miguel county for a visit. It was a good time to skip, and the other night—the evening before the return of his wife—James purchased a ticket for California and will soon be far away from her who has caused him so much trouble and has brought shame and disgrace to his door. It was a bad match in the first place, but Wilson is solely to blame.

Extensive Traveler.

C. W. Townsend, the western traveler for the wholesale liquor firm of Taylor & Williams, Louisville, Ky., is in the city, coming down from the north last night. Townsend covers more miles and does more business, THE CITIZEN will venture to say, than any other man whose terri-

tory extends throughout the Rocky mountain regions of the United States. He left Victoria, B. C., August 23d; he visited Seattle, Tacoma, Salt Lake City, Ogden, Cheyenne, Denver, Pueblo, Trinidad, Las Vegas and is in the metropolis of the southwest to-day. At every city he remained long enough to sell a big bill of Kentucky whiskies, and also to find out to his pleasure that the great territorial fair had been extensively advertised, and that as he expressed it "the whole country will attend." Town send cannot see how the multitude is to be accommodated here.

Horrible Explosion

Yesterday afternoon, about three miles west of Winslow, a horrible accident occurred to freight No. 33, on the Atlantic & Pacific, westward bound. As freight, going west, was a car of common powder, and by some means the contents exploded, blowing that car and several other cars into fine kindling wood. At the time of the explosion E. W. White, brakeman, formerly of Colorado, with a stock man, in charge of a car filled with high into the air, coming down in small pieces. Their bones and flesh scattered in all directions, and parts of their anatomy cannot be found.

Parties on the platform at Winslow plainly witnessed the explosion at the distance of three miles, and the sound resembled that of an earthquake. No cause is assigned for the explosion, but it is the opinion of some that a spark from the engine must have entered the car through a crack.

A Deserving Promotion

R. M. Bachelder, who has been the Atchison, Topeka & Santa Fe's commercial agent at Detroit, Mich., has been moved up toward the top round of the ladder, being recently promoted to the position of general agent of the company, with headquarters at St. Joseph, Mo. Mr. Bachelder was for years in the employ of the Atlantic & Pacific company, filling with honor and great competency the office of passenger and freight agent, with headquarters here, and his many friends of this city will join with THE CITIZEN in congratulating him upon his promotion. Mr. Bachelder is the son-in-law of J. M. Moore, of this city, to whom he paid a visit a few weeks ago.

Working to Win

The Prescott horse team are said to practice both in the morning and evening. The trainer has his men ready for runs at 6:30 a. m., and at 6 p. m.; he prohibits them from smoking, or using any kind of stimulants, and compels them to be in bed not later than 10 o'clock p. m. The Prescott team is coming to the fair with the determination of holding the belt they won last year, and if Albuquerque and other competing teams are not on the lookout, the Arizona boys will come very near fulfilling their determination. Last night the local boys made a very creditable run on Railroad avenue, but the coupling was only fairly good.

Important Mission

Thos. R. Gabel, acting general manager of the Atlantic & Pacific, and a thorough railroad man, will leave for Chicago this evening, being called there on a very important message. It is quietly hinted among certain prominent local railroad officials that Mr. Gabel will return with his appointment as the general manager of the Atlantic & Pacific. THE CITIZEN would like to see the rumor confirmed, for Mr. Gabel is clearly an Albuquerque citizen and by his appointment President Marvel would be fulfilling his promise recently made to Gov. Stever that the general manager of the road would be a citizen of the metropolis.

Real Estate Notes

There is little change to report in the condition of the real estate market—about the same for the past few months. While business is quiet, the demand shows constant signs of picking up, and prices are quite firm. The warm weather has interfered with the market to a certain extent, but still some real estate, in valuable locations, has been purchased by far-sighted speculators. These purchases are termed outside lands, and the prices, while not up to standard, are considered very good. Real estate dealers anticipate great activity in the real estate market this fall and winter.

A Correction

Mr. William Ruby called at THE CITIZEN office this morning and denied that she runs a place where men can secure liquors in the southern part of the city. Therefore, when Luterio Barela went on his Sunday afternoon tour of bloodshed, in which several whom he came in contact with, were cut, he stopped at the small saloon of Vicente Sedillo, near the residence of Mrs. Ruby. The correction is gladly made.

Distinguished Visitors

D. R. Kipp, son-in-law of General J. A. Williamson, general land commissioner of the Atlantic & Pacific; George V. Smith and A. J. Cooper, all of Chicago, came in from Flagstaff, last night, accompanied by D. M. Rindan, of the Flagstaff lumber company. The Chicago visitors have been on a visit to the Grand Canon of the Colorado. They are also deeply interested in the development of several valuable mines of Arizona.

Had for Cattle

Frank McPherson, manager of the Zuni Mountain Cattle pool, located about eighteen miles from Coolidge, on the Atlantic & Pacific, is in the city, being introduced around among our citizens by Councilman Hunt. Mr. McPherson reports his country excessively dry, grass short and in consequence cattle thin. He also informed THE CITIZEN that general complaint among all the owners of the west is heard on all sides.

"Five Years Ago"

"Five years ago I had a constant cough, night sweats, was greatly reduced in flesh, and had been given up by my physicians. I began to take Ayer's Cherry Pectoral, and after using two bottles of this medicine, was completely cured."—Angus A. Lewis, Richard, N. Y.

CHILDREN HAPPY

The Birthday Party of the Little Children of H. W. Davis

Yesterday afternoon, beginning at 4 o'clock, the doors of Grant's opera house were thrown open, and in pushed a stream of happy little folks. They were called together by a previous announcement that Master Bessie and Miss Henrietta Davis, assisted by their mother, Miss Louise, children of Mr. and Mrs. Ben W. Davis, were going to celebrate jointly their birthdays at the opera house, and that they would be welcomed to participate in the celebration of the event and to enjoy to their hearts' content the merry hours.

The party was notable for the numerous little folks who attended, and they were just as happy as they could be in their innocent amusements and plays, which forcibly impressed the older ones present of their childhood days years ago. There was dancing among the happy children, some of whom exhibited considerable perfection in the waltzes and other dances. Prof. Sadron and Dr. Mauro furnished excellent music.

Misses Mabel Stevens, Maud Tallott, Florence Scott, Katie and Susan Forrester, Katie and Emma Kirkpatrick, Mrs. W. Y. Walton and Mrs. M. C. Cruse were in the midst of the children and tended to them worthy assistance in their games and plays.

The reporter noted down the following ladies present with their children: Mesdames W. P. Pope, Wallace Hessel, W. Y. Walton, S. E. Rose, R. P. Hall, Landon Miller, W. S. Strickler, William Talbot, Mary Scott, George Frost and Henry Lockhart. Bishop Kendrick and wife were also present and enjoyed looking on at the gay hearted little people.

At 6 o'clock a most sumptuous spread on several tables, and all partook of ice cream and cake and the usual salads. At one of the tables, over which was suspended an immense Japanese fan, sat the tiny ones of the party, and it was the most interesting table of all.

Master Bessie was eleven years old yesterday, and Miss Henrietta will be five on the 7th. They were the recipients of many handsome presents from their guests.

The following is a list of the little people who enjoyed the birthday festivities: Viola Hall, Bob, Joe and Shirley Kuhn, Mira and Hattie Kuhn, Alfa Fort, Bert and Paul Maloy, Roy Stamm, Will, Charlie and Cora Pope, Pearl Munson, Tom Scott, Edith and Roland Stevens, May McCannan, Lizzie and Bettie Wiley, Albert Moore, Henry Forrester, Garfield and Lizzie Hughes, May Kirkpatrick, Nelson and Dot Shannon, Seymour Lewinson, Louis and Herbert Brooks, Emmett and Harry Lockhart, Fred and Willie Talbot, Lona Albright and brother, Wrenetta and Landon Miller, Stella and Genette Walton, Margarette and Mesa Rose, Erney Hayden, Monica Hasela, Juan Otero and sister, Laddie Stiver, Katherine Strickler, Rob and Annie Menaul, Fannie Ealey, Frank Kunes.

Going to School

Mrs. Ada Morley Jarrett and her charming daughter, Miss Agnes Morley, were in the city yesterday. Miss Agnes has been spending the summer on the ranch in Socorro county, near Magdalena, and is on her way to Philadelphia to complete her education. Her father was the chief civil engineer of the Atchison, Topeka & Santa Fe road, who lead the way through the southwest into Mexico years ago, and who was accidentally shot and killed by one of his engineers while driving in Mexico. Mrs. Morley afterwards married Floyd Jarrett, her present husband. The daughter is a bright, vivacious young lady, winsome and pretty, and is a favorite with Mr. and Mrs. C. F. Hunt and Miss Maggie Lee, with whom she enjoyed several hours very pleasantly yesterday afternoon. She continued on east last night.

El Paso Horses

D. G. Tipton and wife have placed their names on the Armojo register, hailing from El Paso. The gentleman states that Messrs. Fenchler, Eckert and Austin will have several first-class trotters and runners at the territorial fair, the stock probably arriving here Monday night next. Mr. Tipton was at the fair last year, and it will be remembered drove a horse around the track several times before he came to a standstill from sheer exhaustion or was stopped in his flight. Eli, Elmont and Wilke will be among the horses to arrive, and shrewd Jimmy McCorrison and J. J. Phelan had the gentleman in charge this morning, endeavoring to get out of him all the pointers possible about the fine qualities of the horses.

Will Begin Surveying

George R. Brown, in charge of the engineering corps of the Rio Grande Irrigation and Colonization company, who has been at Silver City on a visit to his family, and where he had several conferences with Col. Smith, returned to the city last night. This afternoon he will, with his corps of engineers, run a preliminary line for the company, going south as far as Carthage in Socorro county, from a point on the mesa east of the city. The object of these preliminary surveys is to ascertain how much of the mesa lands can be put under cultivation from the canal. Mr. Brown states that the company desires to secure all estimates on the canal line, and also on the dams before announcing positively to the public what time regular construction work will commence.

On His Way to Eddy

H. D. Bowker, a prominent gentleman of Chicago, is in the city, registered at the San Felipe. Mr. Bowker has two sons in business at Eddy, and he is en route to pay them a visit. The gentleman is interested in the subject of better railroad facilities in New Mexico, and would like to see the Pecos valley road pushed on to the metropolis from Roswell. He thinks that this road will be the first new line to reach Albuquerque, and believes that it will be extended here in the next twelve months.

A Gray Beard on a Man over 50

A gray beard on a man over 50 makes him look older than he is. The best dye to color brown or black is Buckingham's Dye for the whiskers.

RODIES BROUGHT IN.

The Victims of the Powder Explosion on the Atlantic & Pacific

The dead bodies of E. W. White and Augustus Beckman, the two unfortunate men who were on top of a car loaded with black powder when it exploded near Winslow, Tuesday afternoon, were brought in on last night's No. 2 passenger train from the west, and are at the undertaking rooms of O. W. Strong.

Considering the fact that it was a terrific powder explosion, the bodies are in fair condition, although badly burned all over. White, the brakeman, has one rib broken on the left side, while Beckman's collar bone on the right side is broken. The men's clothing naturally caught fire and from this source their bodies were pretty badly singed.

The train was not No. 33 as first reported here and going west, but was No. 34 coming east, and the accident occurred about seventeen miles west of Winslow. The men, although sitting on top of the car at the time of the explosion, were not blown into small pieces as was rumored, but the bodies are intact and are subject to proper embalming, which they will receive.

Mr. White had been in the employ of the Atlantic & Pacific on the Arizona division for about nine months, coming here from Leadville, where he was a member of Brotherhood of Railway Conductors, No. 31, but had his card transferred a few weeks ago to the Winslow lodge No. 5. He had been shipped to Denver, where reside his wife and two children. E. Tribou, an extra conductor, came on with the remains and will accompany them to Denver.

Mr. Beckman was on his way from San Bernardino, Cal., to Elwood, Kansas, with a lot of household effects, several horses and cows. Telegrams have been sent to both places in the hope of finding some of his people, but no answer has been yet received. His body will also be embalmed, but will remain at the undertaker's until some answer is received from his folks.

Superintendent Smith, Trainmaster Robins and Conductor McGowan, of the Atlantic & Pacific, selected nice coffins for the bodies this morning.

Big Land Deal

A personal mention of the arrival here of D. M. Kipp, A. J. Cooper and George V. Smith, of Chicago, was made in yesterday's CITIZEN. They came in from the west, and it is learned that they went out there to look over some 3,000,000 acres of Mohave county land, which a syndicate of four gentlemen, including Messrs. Cooper and Smith, have recently purchased, the sale being engineered to a successful conclusion by Mr. Kipp, who is a son-in-law of Gen. Williamson, land commissioner of the Atlantic & Pacific railroad. The land commences at the Colorado river where the Atlantic & Pacific crosses, follows up the river for a number of miles, and then goes east, taking in the land surrounding the Hualapai Indian reservation, and thence south to the beginning of Tombstone, so it is learned, a tract of about 3,000,000 acres, and it is first class land, subject to irrigation. The gentlemen were more than agreeably surprised about their purchase after looking over the land. They are expected to return to the city in a few weeks.

Miss Mary Simpson

Miss Mary Simpson will teach the school in Precinct No. 5, Bernalillo. She is the daughter of Pedro A. Simpson, of this city, and is well qualified.

Mrs. Ralph Halloran and children are due to return from their summer vacation in New York. Mr. Halloran is now at Raton, where he will meet his wife and children.

The people of Bernalillo, south of this city, want a postoffice. Donacion Chavez is circulating a petition. If the office is established it will be supplied from this city once a week.

Miss Tillie Flournoy and the little daughter of M. W. Flournoy, got home last night from southern California. Mr. Flournoy and wife will remain a few days longer in the garden state.

Marion McCullough, formerly a member of Albuquerque's sporting fraternity, but for the past two years down in Texas, arrived from Fort Worth last night, and will remain during the fair.

J. H. Broad, who has shipped a car load of fine trotting and running horses here to take part in the races at the fair, arrived from Winslow last night, and is around among local horsemen to-day.

Miss Clara Douglas, of Fairbury, Neb., is in the city, ready for primary work in the Second ward of our public schools. Miss Douglas is an excellent teacher, and has had considerable experience in western teaching.

A petition is in circulation among the residents south of the city, asking that they be added to the incorporation. The petition meets with no opposition, and it will be presented to the council at the next meeting.

Rev. D. F. Brown, the new pastor of the Highland Methodist church south, called at THE CITIZEN office this afternoon, being introduced by H. C. O'Rear. The gentleman comes highly recommended as a conscientious minister of the Gospel.

A. Bratina has returned from a prospecting trip in the San Mateo mountains. He was told that a valuable gold mine was to be found in those hills, and he made a diligent and unsuccessful search. He was lost in the mountains for three days without anything to eat.

George Sides, who attended the Harrison Sloan wedding at Las Vegas, in fact was one of the handsome groomsmen, returned home last night. Mr. Sides reports the wedding the most brilliant affair of the kind he has attended in many years.

John W. Price, the Chilili saw-miller, is in the city, and states that the other day his engineer, Levi Claypool, a nephew of Dr. C. F. Wilkins, killed two large buck deer about a quarter of a mile from the mill with one shot from a Winchester rifle.

The bodsman of Ed. S. Buckner, colored, withdrew their names yesterday, and late in the afternoon Deputy Sheriff Hubbell put Ed. behind the bars of the county jail. Buckner was indicted some time ago for grand larceny, the alleged offense being committed about three years ago.

Prof. O. M. Marron, late of the government Indian school, Santa Fe, but who has been back to Port Henry, N. Y., on a visit, is at the Armojo, with his brother, J. G. Marron, also of Port Henry. Both gentlemen will probably locate permanently in this city, where the professor is well known.

Col. E. W. Eaton, a well known Socorro county miner, is in the city on business.

A HEALTH REPORT.

Albuquerque the Place for Consumptive Patients

Dr. Roberts, the special commissioner of the American Health Resort association of Chicago, was taken out by a committee of citizens yesterday, and spent the day on the mesa and in Coyote canon. He was interviewed by a representative of THE CITIZEN upon his return, and expressed himself in the highest terms regarding the advantages of this locality as a health resort.

It seems to be, as near as THE CITIZEN can ascertain, the intention of the association to find three places, to which they may send three different classes of patients. Santa Fe has been selected, or agreed upon, as the point to which rheumatic patients shall be sent. El Paso or Las Cruces is to be the point for nervous diseases, and Albuquerque has been unanimously agreed upon as the place for consumptives, or those threatened with that disease.

But the association expects us to do something at this end of the line in the way of securing lands, etc., upon which buildings can be put up for the accommodation of the invalids who may be sent here by the association, and THE CITIZEN believes there should be a meeting of citizens called for the purpose of considering the matter. It is something the city cannot afford to neglect. To be advertised all over the world as the best place on the continent for consumptives would be worth more to us than it would be possible at present to estimate, and since the association is disposed to designate our town as that point, we should not permit the movement to stop for want of effort on our part.

Last night the Commercial club held a meeting and talked over the matter. G. L. Brooks, who was chosen chairman in the absence of both the president and vice president, appointed a committee of the following gentlemen to take charge of the matter: J. M. Whisenand, John A. Lee, C. E. Cray, W. P. Metcalf and B. S. Jodoy.

Man Hall Tournament

The manager of the base ball tournament at the territorial fair would like to have the clubs, desiring to compete, send in their names so that they can be entered not later than Thursday, Sept. 10. After that date no club will be considered in the tournament. The Maroons of this city; the Fort Whipple, Arizona, club, and the Santa Fe team are already entered. Letters have been sent to Eddy and Pecos Altos asking whether they intend to enter. The winners of the tournament will receive \$500.

W. T. McCreight, manager of the Maroons, this morning received the following letter from John J. Cullen, formerly of Las Vegas, now of Raton, which reads as follows:

RATON, N. M., Aug. 31.

W. T. McCreight, Manager of the Maroons:

I wrote you a few days ago asking to be admitted to the fair tournament to play ball. I shall furnish a team that will be able to cope with any that shall participate at the tournament, and one that Albuquerque will not be ashamed of. Let me know how you have made up the series and secure us a place. We shall be known as the Raton base ball club. Let me hear from you immediately and don't keep me in suspense. We have some strong material here and mark me, your team—the celebrated Maroons—will have to look to your laurels. Don't let the interest in the noble game die out. Boomers, Mack, and let me know what inducements you can offer; also let me know what teams have entered. Yours truly,

JOHN J. CULLEN.

With Raton entered, four clubs are now on the list to compete for the handsome prize of \$500. If no other clubs come into the tournament, four names will be put into a hat and two at a time drawn out by a disinterested party. These two clubs will play one afternoon, and the remaining two the next afternoon. The victors will then play off for the prize. The tournament will be conducted fairly and squarely, in the interest of no one club.

Samboch

C. E. Van Horn, manager for Zamloch, undoubtedly the greatest magician to-day on the American continent, registered at the Armojo last night, coming in from Gallup. Mr. Zamloch will be here Monday and Tuesday evenings during fair week. Thursday, Friday and Saturday evenings of next week the great magician will appear at Socorro. Here is what the Rocky Mountain News, Denver, has to say about Mr. Zamloch:

"It is pleasing to watch the countenance of the many visitors to Zamloch's soirees at the opera house. Those who go who 'know it all,' those who have seen everything, heard everything, tried everything, done everything, know everything, actually rise from their seats in wonder, and at the close of the magician's feat involuntarily exclaim, 'Well, I declare! That beats me!'"

Executive Appointments

The governor has made the following appointments:

To be regent of the agricultural college and experiment station of New Mexico—Jayno A. Whitmore, of San Marcial.

Director of New Mexico insane asylum—Elisha V. Long, of Las Vegas.

Trustee of the New Mexico school of mines—Thos. Harwood, of Socorro.

Regent of the university of New Mexico—Frank W. Clancy, of Santa Fe.

Each of the above named appointees serve for the full term of five years.

A Cure for Paralysis

Frank Cornelius, of Purcell, Ind. Ter. says: "I induced Mr. Pinson, whose wife had paralysis in the face, to buy a bottle of Chamberlain's Pain Balm. To their great surprise before the bottle had all been used she was a great deal better. Her face had been drawn to one side, but the Pain Balm relieved all pain and soreness, and the mouth assumed its natural shape." It is a certain cure for rheumatism, lame back, sprains, swellings and lameness. 50 cent bottles for sale by Thos. H. Burgess & Son, Druggists.

After Our Needs

City Clerk Hopkins has received several letters from eastern bankers and investment companies asking for information in regard to the school bonds, desiring to know how long they run and under what act of the legislature they were voted. Some of the writers are anxious to learn in connection with the bonds, all about New Mexico, the city of Albuquerque and the people in general.

It demonstrates what THE CITIZEN has heretofore said that Albuquerque is better known among the money men of the east than any other town in the southwest, and that her bonds are being eagerly sought after.

THE CITIZEN'S ARTICLE

In THE CITIZEN'S ARTICLE OF YESTERDAY

the following names of little folks present were inadvertently omitted: Irene, Louise and Ethel Saint, Nora Werner, Frank, Nellie, Roy and Ray Strong, Mabel Kennedy, Wallace and Willie Hesselnden, Arthur and Isabel Spencer; also the following ladies: Mrs. G. L. Brooks, Mrs. John McMillan, Mrs. E. W. Spencer, Mrs. J. E. Saint, Mrs. Phillips, Mrs. Rev. Forrester and sister, Mrs. Wilson, of Memphis, Tenn.

Luterio Barela, who had considerable fun with his knife last Sunday afternoon, is finding out to his sorrow that it costs something to cut and assault people. He was up before Justice Whiting, of old town, after Justice Denham had gotten through with him, and the former fined him \$25 and costs for assaulting Mrs. Vicente Sedillo. Luterio will likely remember his spree for many months to come, and will not again look upon the wine when it is red to any considerable extent.

The "C. C. Hall Never Sweat" running team held an enthusiastic meeting last night at the Hooks. Carl Ennis was made chairman of the meeting, and Sam Sterne officiated as secretary. It was unanimously agreed to abstain, from now until after the races, the use of all kinds of stimulants, including coffee and tea, and to retire every night not later than 10 o'clock. Sam McLaughlin and Sam Sterne were selected nozzlemen, while W. G. McCormick and the secretary of the Athletic club were chosen to pull the hose. The other positions will be arranged later on. The "Never Sweats" have entered the competition to win, and they have friends in the city who are willing to bet a few dollars that they get a place—winning second or third money, if they fail to get first place.

Music During Fair

Prof. C. Meyrelles, bandmaster of the Second Cavalry band, engaged to play at the territorial fair, has a very interesting history. He came of a family of musicians—his father being a bandmaster in the Portuguese army for several years. He emigrated with his family to this country in 1870. Prior to coming here, Prof. Meyrelles was leader of the band in the Crystal Palace of Oporto, Spain, for five years. He was a member of the famous Gilmore band of Boston and when Gilmore moved to New York to take charge of the Twenty-second regiment band, Prof. Meyrelles went along and remained with him until 1885, when he was appointed chief musician of the Second United States Cavalry.

Besides being a musician of note, he is famous for his compositions and arrangement of military music.

While the Second regiment was in the northwest he played for three years at the Mechanics' fair and each year received a premium and a handsome present in recognition of his services.

His band is composed of twenty members and will play every afternoon of fair, and with the concerts at the opera house, Armory, music of the parade and the open air concerts in front of the San Felipe hotel, the visitors will be royally entertained.

After Our Needs

City Clerk Hopkins has received several letters from eastern bankers and investment companies asking for information in regard to the school bonds, desiring to know how long they run and under what act of the legislature they were voted. Some of the writers are anxious to learn in connection with the bonds, all about New Mexico, the city of Albuquerque and the people in general.

It demonstrates what THE CITIZEN has heretofore said that Albuquerque is better known among the money men of the east than any other town in the southwest, and that her bonds are being eagerly sought after.

Col. E. W. Eaton

Col. E. W. Eaton, a well known Socorro county miner, is in the city on business.
