## MRS. GRIEGO SENT UP FOR 99 YEARS

### Son Draws Fifty Years for Same Crime, the Murder of his Wife

District Court in and for Valencia County adjourned last night at Los Lunas, after having been in session eight days. There were only three jury trials, two criminal and one civil.

The case of the state vs. Toribio Griego and his mother Leonides M. de Griego, charged with the murder of the former's wife, Gertrudes M. Griego. After as hard a fight, both for the state and the defense, as has ever been made, the jury returned a verdict of guilty of murder in the second degree. The son, who is 23 years of age, was sentenced by the court to serve a term of fifty years at hard labor in the state penitentiary, while the mother aged 50, and who appeared to the court to have instigated the whole affair, was sentenced to ninety-nine years. The murder occurred in the western portion of the county.

In the case the state vs. Gomez, a native of Mexico, charged with shooting into a train at Dalies, a plea of guilty was entered, and the defendant was sentenced to pay a fine of \$100 and served a term of 18 months in the penitentiary. Sentenced was suspended in this case on the condition that the defendant leave the state. A large family of helpless children was the motive for the suspended sentence in this case.

A case in which the court wished to be free from the handicap of the law in pronouncing sentence was that of the state vs. Amado Anchieta, charged with having raped Maria Inez Lucero, a five year old infant. It was shown in this case that the defendant who is 31 years of age, crept to the bedside of the sleeping parents and child, securing the latter which he carried a mile or more from the home, where he performed his diabolical act. The jury found him guilty as charged and the court gave him the extreme sentence under the law—twenty years, expressing the wish that it were possible to make the punishment more severe to fit the crime.

Pederson vs. Beardsley, which was on trial as we went to press last week, the jury found for the plaintiff, the amount being fixed in the sum of \$450.50.

Aragon vs. Bernardino Sedillo, a suit over a ditch right, was decided by the court in favor of the defendant.

Kempenich vs. Placido Romero, the latter charged with having destroyed a contra acequia, was being heard by the court yesterday, a night session being necessary before the same was completed.

The three prisoners sentenced to serve time, were taken to Santa Fe on the early train this morning to commence their sentences.

This was the first term of court to be held in the new courthouse. Although the larger portion of the new furniture purchased for the new building had not arrived, the work of the sessions was expedited and court attendants were not crowded as heretofore.

## Frank Sperling Dead

Word has been received here of the death of Frank Sperling, formerly of Belen, at Holtville, California, after an illness of very short duration. Through strenuous efforts he was able to develop a valuable farm from his property, but the work together with the heat proved too much for him. His many friends here and elsewhere will regret very much to learn of his death, as he was always recognized as a manly fellow and very well liked by all who knew him.

## PUBLIC SCHOOLS OPENED LAST MONDAY

### Enrollment Better than beginning of Term Last Year

The Belen Public Schools opened last Monday, the total enrollment being about 275, of which about thirty-five are enrolled at the Sauzel school in charge of Manuel Sanchez. A third year high school work has been added this year to the course of study, there being six students in these classes. Professor J. P. Gunter and Miss Ziegler have charge of the Eighth grade and High School Work, dividing the classes between them. The grades are in charge of the following:

Miss Anderworth, 6th and 7th.  
Miss Rhea Wilsey, 4th and 5th.  
Mrs. Trimble, 2d and 3rd.  
Miss Olive Duer, High First.  
Miss Lillian Pohl, Low First or Kindergarten.

The enumeration this year is 665, quite a bit more than that of a year ago. The enrollment to date is much better than that of last year at this time, and it is thought that during the year not less than 500 will be enrolled, compared to about 475 last year. The work has started off nicely, and bids well for the most successful term of school ever had in Belen.

## FELIPE CHAVEZ ACADEMY

The Felipe Chaves Academy opened its fall term last Monday with an enrollment of 42, Miss Lillian E. Gildersleeve, principal. The work is divided into three departments, Primary, Intermediate and Grammar, each of which will pursue the work as outlined by the State Board of Education. Special stress will be laid upon English, Arithmetic, Hygiene and Civil Government, the principal effort being to make of these Spanish-Americans young women, intelligent, clean and patriotic citizens. A social sewing class will be held twice a week, when the girls will be urged to talk freely in English, discussing current events and topics of common interest, with the hope of overcoming that hesitation and shyness, which too often makes these girls appear stupid, when it is nothing more than timidity. Visitors are invited at any time, and especially are the parents urged to visit the school and keep in touch with the work of the children.

The sentence of Amado Ancheta for his fiendish crime against a mere infant will touch the heart of every parent. That anyone in human form could be guilty of such a devilish deed is almost incomprehensible, but the fact merely proves the power of the King of Darkness over the human family. While twenty years is a long time to be deprived of one's freedom, the question naturally arises is it long enough to make a man out of such a brute? We fear not. From a human standpoint a lifetime is too short for such a miracle.

We presume there never was a newspaper in any locality that gave all the local happenings. It is often that one goes or comes that the reporter does not see. It happens that the family is missed several times. They get the impression that the editor does not care to mention them. This is a mistake. Most people take the local paper to get the local happenings. Don't be afraid to tell the editor that you have a friend visiting you. There are lots of people who are inter-in you and your friends. Perhaps you think that the paper shows partiality, but just see if the paper doesn't treat you right if you give it a chance, —Ex.

### Where the Fault Lay

Attorney General Clancy has been telling some unpleasant truths to the people of New Mexico in the last ten days in a series of public addresses delivered to the bar association and other organizations regarding the tax situation in New Mexico. He declares that it is hopelessly muddled through the recent law and that no remedy is in sight except new legislation. It is within the power of the law-makers to enact a statute that will be really beneficial in solving the much vexed problem, thinks General Clancy, and which will relieve the tense situation whereby the small property holder is paying more than his just share. On this point General Clancy made the following pertinent remarks which will be appreciated by every tax-payer and tax-dodger in New Mexico:

"The result is, however, that the owners of small amounts of property, which cannot be readily concealed or overlooked, are compelled to pay more than their fair share of taxes, while the man or corporation owning extensive or varied properties, is able to escape anything approaching his fair share.

"The representatives of such large property-holding interests do not want any real improvement in methods of assessment, and for that reason, and for no other, we have not been able to get any such improvement." —Silver City Enterprise.

A minister says there will be no base ball in Heaven. Maybe not, but where's the sense in discouraging effort to get there? —Socorro Chieftain.

## THE FORGOTTEN PARTY

By J. J. MCARTNEY.

All Tuesday morning young Plunkett was tormented by some vague idea in the back of his brain of something left undone. Struggle as he might, he could not get it into concrete form. Yet trying to forget it only irritated him the more.

In the midst of his luncheon a lightning flash cleared his head and with a sickening chill he knew what he hadn't done. He had forgotten to go to the dinner party which Celia Bell had given the evening before.

He had not the ghost of an excuse, because he had not been dead at the time, which would have been the only valid excuse in the eyes of a hostess. He had simply absented himself from the affair because of an inexplicable lapse of memory. For an instant he wished that he dared telephone the explanation that he had been knocked down and rendered unconscious by an automobile and had just come to. Manifestly it was totally impossible to call up Celia and airily say: "Excuse me for thinking so little of your invitation that it slipped my mind!"

The fact was that he thought a lot of Celia's invitation. Indeed, he was beginning to realize that he was going to think a lot of Celia. He had scarcely begun to do so as yet, because their acquaintance had hardly advanced beyond the formal stages, but he realized that his captivity was inevitable and he was more than resigned to the prospect. This made the scrape in which he now found himself all the more tragic.

He had heard of men who had forgotten dinner parties and had been restored to human society and toleration only after weary years of contrition. This tedious process did not appeal to him. He was afraid that in the meantime some one else would run away with Celia. He racked his brain for a more speedy solution of the difficulty.

Celia was no weak, gentle, doormat variety of girl. He could imagine just how her wonder at his nonappearance had grown to surprise, then to wrath, and how her wrath was growing hour by hour.

It was without doubt a most difficult situation.

The average man would have tried to placate the injured hostess by a bushel of roses or ten pounds of candy, a contrite note or a desperate call to person. Young Plunkett showed his really superior intellect by the fact that he did not do any of these things. For a few days he did absolutely nothing. This required self-restraint, for every hour that Celia hated him was a blight. But when the next Monday evening came around he attired himself carefully in the prescribed society raiment and sallied forth.

On his way he ran into Smith. "Hello," said Smith, "are we going out among them tonight?"

"Yes," said young Plunkett, cheerfully. "I am going to a dinner party at Celia Bell's."

"Oh," said Smith, "is she entertaining again? I went to a dinner at her home last Monday night."

"Did you?" murmured young Plunkett, interestedly, and passed on.

With a firm step he mounted the steps to the home of Celia and the vigorous peal of the bell sounded not like the summons of one in terror. Admitted to the reception hall, he waited in all his immaculate splendor. After a while Celia came in. She advanced with the outraged dignity of an offended stage princess and when she said "Good evening" in a questioning tone young Plunkett felt like an unwelcome book agent. Yet he clung grimly to the purpose with which he had started out.

"Am I the first one?" he asked, cheerily.

Miss Bell was puzzled enough to relax her frown a bit. "First one for what? I don't understand!" she said.

Young Plunkett's face was a picture of ingenuous amazement. "Why, aren't you giving a dinner party this evening?" he demanded.

Miss Bell sat down limply. "I am not!" she informed him. "I gave one last Monday night, however—and I don't believe you have seen fit to explain why you were not present."

"Last Monday night!" cried young Plunkett. "Why, you've made an awful mistake of some sort. When you invited me you said distinctly 'a week from next Monday night!' Do you think for an instant I could have misunderstood an invitation from you? Why, I've counted on this evening for days—and now you tell me that you had the party a week ago! I don't understand, really!"

For a moment Celia stared at him. If ever there was a disappointed and reproachful individual on earth it was young Plunkett at that instant.

Celia wavered—then she fell.

"I—I never did such a thing before in my life!" she cried. "And here I've been blaming you! Oh, I'm so sorry, Mr. Plunkett! Now, you simply have got to stay and dine with us informally tonight. How I ever came to make such a slip of the tongue I can't imagine! You'll stay?"

"Why, thank you," said young Plunkett with noble forgiveness. "Now, you mustn't worry about this another instant. It's all right, I assure you."

### Valuable Elk Tooth Dress.

An elk tooth dress, estimated to be worth \$3,000, was one of the oddities recently exhibited in the new "dress and ornament" exhibit at the Museum of Anthropology at the Associated Colleges in San Francisco. The elk tooth dress was decorated with more than 500 teeth, and was worn by an Indian woman.

A man named Katz had it changed to Firestone because his friends made fun of his first name. Why didn't he make it Firewater and be done with it.

A Philadelphia man broke his back the other day and surgeons successfully repaired it with silver wire. It says to come every back may have a silver lining.

A New York woman is said to have found \$200 in a newspaper. It is believed, however, that the story was started by the paper in question as a circulation booster.

A soiled greenback is restored to its original pristine glory by washing and ironing at the cost of 1-10 cent. But the average man worries not at all whether his greenbacks be dirty.

A professional baseball umpire has brought suit for divorce because his wife called him names. Probably her defense will be that she was training him preparatory to the coming season.

## BELEN, VALENCIA COUNTY, N. M.

Belen is the metropolis of Valencia County. Located in the wonderfully fertile valley of the Rio Grande, it is surrounded by an agricultural country whose richness equals that of the famous Nile.

Located at the junction of the Rio Grande Division of the Santa Fe and the Eastern Railway of New Mexico, it has direct railway communication to all points of the compass, north, south, east and west. Santa Fe repair shops with the only roundhouse which will accommodate the immense Mallett engines in the west, and a division point, make it a city whose future is assured.

The school system of Belen compares most favorably with that of eastern cities of much larger population. Her people pride themselves on the excellence of their schools and improvements are constantly being added.

Churches are well provided for. The Lutheran, Methodist Episcopal, Catholic and Episcopal people have building, and all but the last named have resident pastors.

The Belen Roller Mills with a capacity of 100 barrels daily, are the largest of their kind in New Mexico. A ready market is thus assured for all the wheat grown at favorable prices.

The climate is delightful the year 'round, excessive heat in summer and cold in winter being unknown. An abundance of good water underlies the whole valley surrounding Belen, assuring not only sufficient for domestic use but also irrigation. Investment in Belen property is sure to bring good returns.

# NEW MEXICO STATE FAIR

## Albuquerque, October 6-11th

They're ready for a big crowd. Everybody will be well taken care of at the State Fair at Albuquerque, October 6th to 11th.

Do your part. Remember that the State Fair to be held at Albuquerque, October 6th to 11th, is for the benefit of all, and should be supported by all.

Have you asked your best girl to go with you to the State Fair at Albuquerque, October 6th to 11th? You'd better or she will be going with some other fellow.

Every day will be good at the New Mexico State Fair, Albuquerque, October 6th to 11th. Don't pick one special day. Go every day and don't miss anything.

Farm machinery, vehicles, modern irrigating devices and general merchandise of every description will be exhibited at the State Fair at Albuquerque, October 6th to 11th.

Arrange your affairs so that you can attend the New Mexico State Fair at Albuquerque October 6th to 11th. All your friends will be there and you will be missed if you fail to attend.

The Woman's Department at the State Fair at Albuquerque, October 6th to 11th, will have an especially attractive display of Preserves, Pickles, Canned goods, Pastry, Needlework and Art Productions.

The various resources of the State are to be exhibited on a much larger scale this year than ever before at the State Fair at Albuquerque, October 6th to 11th owing to the large premiums offered by the Management. Grains, Fruits, Vegetables of every variety, Live stock, Poultry, Bees and their Products, are all liberally provided for.

C. W. Bowers, of Davis, Cal., and formerly of Michigan, in which state he and President Ralph C. Ely, of Deming, were personal friends for many years, will be at the state fair with at least a carload of registered Norman Percheron and Belgian stallions. Mr. Bowers is a large importer of these stallions which he sells for breeding purposes.

Ralph S. Connell, of Tularosa, has the largest chicken ranch in New Mexico. He and his wife are past masters at the business of poultry raising. Mr. Connell

will be at the state fair and will talk on the commercial side of poultry business. Mrs. Connell will also be there and will tell of her experiences with the incubator and brooder and explain the care of chicks.

Jack Sheeby, a transplanted Missourian, living near Roswell, has a fine herd of Yorkshire hogs—as fine, in fact, as any hogs owned in the state. He has a boar at the head of the herd that will weigh 800 pounds and the animal is by no means fat. The Yorkshire hog is raised particularly for its bacon. It is a good rustler and especially adapted to New Mexico. It is hoped Mr. Sheeby will exhibit some of his hogs at the fair.

It has been proved that an acre of alfalfa will produce five pounds of honey, the alfalfa serving as a means of food for bees. The Pecos valley country has taken in this year \$100,000 from the product of its bees. Premiums are to be offered at the state fair for exhibits of bees and honey—a bee department being one of the features of the exposition. Lectures on bee raising will be given and the interesting side of this industry will be fully set forth.

Eduardo M. Otero, manager of the Luna sheep interests, has some Persian lambs which he will exhibit at the fair. The lambs are a cross between a Karakule buck, imported from Persia, and a Lincoln ewe. The skin of the Persian lamb, taken immediately after the birth of the lamb, is worth from \$9 to \$25 and is regarded as one of the most fashionable furs of the day. No part of the United States is better adapted climatically than New Mexico to the raising of this breed of sheep.

Capt. Charles DeBremont, of Roswell, has the largest and most perfect bunch of Karakule sheep in America. The animals were imported by him direct from Persia under special permission of the Russian government and before that government issued an edict prohibiting for all time the exportation of any more of these sheep. The sheep are a dirty black in color and have a big, fat tail, in which is stored food on which they exist, much like the camel stores food in its hump. Captain DeBremont has fourteen sheep of this breed and the flock would easily sell to the English government for \$25,000. Efforts are being made to induce Mr. DeBremont to exhibit his sheep, or some of them at the state fair.

## WANTED--A RIDER AGENT

IN EACH TOWN and district is needed a rider agent to sell the new and improved "Hedgehorn" bicycle. Our agents everywhere are making money fast. It is a bicycle that is sure to sell. No money required until you receive and approve of your bicycle. We ship to anyone, anywhere in the U. S., without a cent deposit in advance. **FREE TRIAL** during which time you may ride the bicycle and put it to any test you wish. If you are then not perfectly satisfied or do not wish to keep the bicycle ship it back to us at our expense and you will not be out one cent.

We furnish the highest grade bicycles it is possible to make. **FACTORY PRICES** at one small profit above actual factory cost. You save \$10 to \$15 middlemen's profits by buying direct of us and have the manufacturer's guarantee behind your bicycle. **DO NOT BUY** a bicycle or a pair of tires from anyone at any price until you receive our catalogue and learn our unheard of factory prices and remarkable special offers to rider agents.

**YOU WILL BE ASTONISHED** when you receive our beautiful catalogue and find the prices we can make you this year. We sell the highest grade bicycles for less than any other factory. We are satisfied with \$1.00 profit above factory cost. **BIKE DEALERS**, you can sell our bicycles under your own name plate at double our price. Orders filled the day received.

**SECOND HAND BICYCLES.** We do not regularly handle second hand bicycles, but we have a number on hand for sale by our Chicago retail stores. These we clear out promptly at prices ranging from \$3 to \$10 or \$15. Descriptive bargain lists mailed free.

**WHEELS.** Single wheels, imported rubber chains and pedals, parts, repairs and everything you need at half the usual retail prices.

## \$8.50 HEDGEHORN PUNCTURE-PROOF \$4.00

## SELF-HEALING TIRES A SAMPLE PAIR TO INTRODUCE, ONLY 4

The regular retail price of these tires is \$5.50 per pair, but to introduce we will sell you a sample pair for \$4.00 with order \$4.50.

**NO MORE TROUBLE FROM PUNCTURES**  
NAILS, Trucks or Glass will not let the air out. Sixty thousand pairs sold last year. Over two hundred thousand pairs now in use. **DESIGNER'S** special rubber in the tread. It is a special quality of rubber, which never becomes porous and which closes up small punctures without allowing the air to escape. We have hundreds of letters from satisfied customers stating that their tires have only been pumped up once or twice in a whole season. They weigh no more than an ordinary tire, the puncture resisting qualities being given by several layers of this, specially prepared fabric on the tread. The regular price of these tires is \$5.50 per pair, but for advertising purposes we are making a special factory price to the rider of only \$4.50 per pair. All orders shipped same day letter is received. We ship C. O. D. on approval. You do not pay a cent until you have examined and found them strictly as represented. We will allow a cash discount of 5 per cent (thereby making the price \$4.25 per pair) if you send **FULL CASH WITH ORDER** and enclose this advertisement. You run no risk in sending us an order as the tires may be returned at OUR expense if for any reason they are not satisfactory on examination. We are perfectly reliable and money sent to us is safe as in a bank. If you order a pair of these tires, you will find that they will ride easier, run faster, wear better, last longer and look finer than any tire you have ever used or seen at any price. We know that you will be so well pleased that when you want a bicycle you will give us your order. We want you to send us a trial order at once, hence this remarkable tire offer.

**IF YOU NEED TIRES** don't buy any kind at any price until you send for a pair of the special introductory price quoted above; or write for our big tire and Sundry Catalogue which describes and quotes all makes and kinds of tires at about half the usual prices.

**DO NOT WAIT** but write us a postal today. **DO NOT THINK OF BUYING** a bicycle until you have a pair of tires from anyone until you know the new and wonderful offers we are making. It only costs a postal to learn everything. Write it NOW.
