# New Mexico Department of Game and Fish Annual Report Scientific Authorization Permit

**INSTRUCTIONS:** This form is for reporting activities conducted under a New Mexico Department of Game and Fish Scientific Permit. When entering information, place only one species per line and exact date of collection (Month/Day/Year). Multiple individuals of that species may be entered as long as the date, age, sex, locality and disposition are the same. Always specify the number of individuals in an entry, along with the ages and sexes where known. Disposition refers to what was done with the animals reported, e.g., "banded and released" or "deposited in the Museum of Southwestern Biology." Include all animals taken or handled during the current permit year, even if some have not been fully identified when this form is submitted. In such case, report the identity as unknown and then supply complete information within one year in a follow-up report. Spreadsheets, catalogues, accession logs, or similar documents may be used in lieu of filling in the report portion of this form, as long as ALL of the information requested in this form is included (Geographic location information is recommended. Please note to have complete geographic information you must supply both the Coordinate System and the Datum). Filing an annual report is a condition of your permit. Continual failure to file a timely report or an incomplete report could result in suspension of your permit. You must submit a report even if you had no activity during the year. Please email to DGF.Permits@state.nm.us . You may also submit to: New Mexico Department of Game and Fish, Field Operations Division, P.O. Box 25112, Santa Fe, NM 87504. The deadline to submit this report is Jan. 31.

If submitting a paper copy with original signature: To the best of my knowledge, the information contained in this report is correct, complete, and in compliance with stipulations required of me as a permittee under NMDGF Authorization.

Permittee signature David Menicucci Date 5 Mar 14

 Ph:505-235-8501; email: dmenicucci1@comcast.net  
**Name(s) of Subpermittee(s):** None  
**Authorization Number:** 3546  
**Period of Authorization:** *Period beginning with date of Director's signature (see below) to Dec. 31, 2014*  
**Means of Taking Wildlife:** Electroshocking  
**Disposition of Wildlife:** Unintentional mortalities will be deposited with the Museum of Southwestern  
 Biology, UNM  
**Conditions of Authorization:**

**CANCELLED 3/5/14**

**Lost Funding**

On the Valles Caldera National Preserve: Rio San Antonio and East Fork; Permittee may electroshock, measure, weigh, tag with Floy tags, and release up to the maximum quantity of each individual species listed below:

Quantity	Common Name	Scientific Name
100	Trout, Brown	<i>Salmo trutta</i>
100	Trout, Rainbow	<i>Oncorhynchus mykiss</i>

Salvage is not authorized by this permit. Permittee is prohibited from salvaging, tampering with or removing any protected species that may have been shot, illegally possessed or appears suspicious (any cause of death other than natural or accidental). Permittee is required to immediately contact the NMDGF office or local Conservation Officer should a situation as described above be encountered.

May possess and transport specimens within the state. The State of New Mexico cannot authorize permission to possess or transport specimens outside of New Mexico. Permission to possess specimens in other states or to transport specimens to other states must be obtained from the affected states.

This permit does not authorize activity on private land without consent of the landowner and does not apply to tribal or other lands where the New Mexico Department of Game and Fish does not have jurisdiction. Information collected on private property concerning species listed or proposed for listing under the Wildlife Conservation Act (17-2-37 NMSA) is confidential and may only be released under specific conditions, pursuant to NMAC 19.33.4.8.

Collection or possession of any federally protected species requires authorization from the U. S. Fish and Wildlife Service.

Any state protected species captured, other than those specifically covered by this permit, will be reported to [DGF.Permits@state.nm.us](mailto:DGF.Permits@state.nm.us) within 24 hours of capture.

An annual report summarizing the number of specimens of each species handled during the previous calendar year, geographic location (UTMs preferred) and date of collection, and the disposition of those animals, shall be submitted to the NMDGF's Field Operations Division [DGF.Permits@state.nm.us](mailto:DGF.Permits@state.nm.us) by January 31<sup>st</sup> following each calendar year for which the permit is in place.
