TITTMAN IS NAMED AS DIST. ATT'Y

To Fill Unexpired Term of John E. Griffith, deceased

Santa Fe, N. M., Oct. 1.—Governor McDonald today appointed Edward D. Tittman, editor and lawyer of Hillsboro, Sierra county, district attorney for the 7th judicial district, comprising the counties of Socorro, Sierra and Valencia. Mr. Tittman succeeds the late John E. Griffith of Socorro.

The appointment of Mr. Tittman followed a conference which he had with the governor this afternoon, on his arrival from Hillsboro. He had been mentioned as the probable choice for the position, since a few days after the death of District Attorney Griffith. Three men, it is said, were considered by the governor, two of these being prominent Socorro lawyers. Neither of the latter was an applicant for the place. These two lawyers, with Mr. Tittman, were the only democratic lawyers in the district eligible to appointment.

Mr. Tittman is expected to assume his duties immediately.

Edward D. Tittman was born September 25, 1872, at St. Louis, Mo. He was educated at Karlsruhe, Baden, Germany, remaining in Europe until he was 19 years old. He graduated with the degree of L. L. B. from the Columbia University law school, Washington, D. C., and took a post-graduate course in the Columbia law school, New York City. He was admitted to the bar of New York in 1894. He went to St. Paul, Minn., in 1895, where he practiced law and was actively engaged in politics from 1895 until 1898. He returned to New York in the latter year and from 1899 until 1908 was a writer on financial topics. He came to New Mexico in 1908 and located at Hillsboro. He went to Washington in 1910 and was successful in securing the repeal of the Sierra county seat removal bill, passed by the New Mexico legislature. In 1911 he established the Sierra Free Press at Hillsboro. He was a member of the constitutional convention in 1910, representing the county of Sierra.

Santa Fe, N. M., Oct. 2.—Edward D. Tittman, appointed district attorney yesterday by Governor McDonald to fill the vacancy in the 7th judicial district, caused by the death of John E. Griffith, at Socorro, took the oath of office this morning before Secretary of State Antonio Lucero and filed his bond. He announced that he expected to appoint Milton J. Helmick, of Socorro, as his assistant, and will keep his own headquarters at Hillsboro.

BELEN PUBLIC SCHOOLS

All the grade rooms have an enrollment above fifty, except Miss Duer's, which has forty-nine.

HIGH SCHOOL

Friday morning a committee was appointed to have charge of the morning exercises for one week. The committee consists of: Marion Kennebeck, Jessie Mallow, Louis Gerpheide and Paul Simmons. Monday morning's exercises consisted of a reading by Mrs. Lane and a piano duett by two high school girls.

An athletic association has been organized by the members of the high school, and it is believed that some good basket ball games can be arranged after our girls and boys get in practice.

Good progress is being made in the high school grades since the opening of school, and all are getting down to good solid work.

The attendance in the eighth and ninth grades has been good. There are at present fourteen enrolled in these grades.

Thursday morning, Mrs. Wilson favored the students with a couple of readings at the opening exercises. The sixth and seventh grades were present by invitation, and the boys seemed to especially enjoy the remarks on "keeps" at marbles. A quartet was rendered by the students.

Antonio Gilbert, member of the school board, paid the school a short visit Thursday morning, as also did Shirley Davidson, Misses Evelyn Davidson and Ruby Owen.

STATE CONVENTION

The thirtieth annual convention of the New Mexico Woman's Christian Temperance Union meets at Deming tomorrow morning, the sessions continuing over till Monday morning. The program, which is quite interesting to all temperance workers, is too lengthy for publication in these columns.

Friday morning is given over to the reports of state officers. At the afternoon session the organization of the convention will be perfected, followed by addresses touching the work of the Young People's Branch and the Loyal Temperance Legion. A business session will end the work of the afternoon. Friday night is "welcome night," when the temperance workers will be given the keys to the city and all therein.

On Saturday morning departmental reports will occupy the program. During the afternoon "Medical Temperance" and Sunday school work will receive consideration, followed by the annual election of officers, appointment of superintendents and the naming of standing committees, and also the election of delegates to the national convention. The Matron's Gold Medal Contest will occupy the evening session.

Sunday, both morning and evening, will be given to some of Deming's speakers, the night program including music, recitations and drills by the children.

Following an executive committee meeting on Monday, the visiting delegates will be treated to a "Seeing Deming" trip by automobile.

ALL IN READINESS FOR STATE FAIR AT ALBUQUERQUE

To Open Monday, October 6th, and Continue throughout the Week

Albuquerque, N. M., Oct. 1.—On next Monday will begin the thirty-third annual state fair, the first of a long series of state fairs which is really state-wide in the fullest meaning of the term. This fair is the first to receive state aid and the first to be managed by a state commission. This commission was named by Governor McDonald and consists of Ralph C. Ely, of Deming, president; Simon Stern, of Albuquerque, and C. A. Scheurich, of Clovis.

The fair this year will distribute prize money that will run almost into five figures, divided into about a score of classes. There are prizes for individual exhibits and for community exhibits, the latter being most generous. There are prizes for chickens, for pumpkins, for fruits and vegetables of all sorts and for standard breeds and varieties of livestock.

The fair is being generously supported, and the entry lists not only began earlier this year, but have grown to a larger size than in any previous year. Indeed, arrangements have had to be made to accommodate fully 20 per cent. more exhibits than were anticipated, and the expectations were large enough. This is largely due to the state-wide trips made by President Ely, who brought the whole state into close touch with the fair.

The entertainment features are amply provided for. There will be daily aeroplane flights by Roy N. Francis, who made a ten-strike here last year with the daring stunts he pulled off in his big twin-tractor biplane. On these flights Francis will pull off a stunt that has no parallel in aviation anywhere else. This is the drop, from a height of about 4,000 feet, of "Sky-High" Irving. Irving makes the descent in a parachute and literally defies death while doing so. These flights are guaranteed to take place each day, rain, shine or wind.

The baseball tournament is to be an interesting one, there being four well-matched teams entered. Prizes aggregating \$2,000 will be awarded for it. There will be games daily, some days double-headers.

Motorcycle races made a splendid hit at the fair last year, and are sure to be repeated this year. Prizes aggregating \$500 have been offered for the different events, of which two will be run each day. This sport is an exciting one and attracted much favorable comment last year, hence the determination to repeat it.

The fair management has closed a contract with the DeKriko Carnival Company, which arrives here Sunday, for the exhibition of its shows during the week of the fair, and thus evening entertainment will be cared for to the satisfaction of all attending the big exposition.

Social events of the week are the Montezuma ball, which promises to be more brilliant this year than ever before, and the Pan-

Hellenic banquet, when the fraternity men of the entire state will unite in an annual meeting.

Other events of the week are the meetings of the Knights of Pythias and Odd Fellows' grand lodges, the good roads association convention, the State Pharmaceutical Association meeting, the boards of pharmacy, cattle sanitation and sheep sanitation, and others. There will be plenty doing for all who attend the fair.

Railroad rates are the lowest which have ever been granted. They are one fare for the round trip on any railroad in the state. These, and the ample advertising given the fair through the medium of hangers, stands, tags and newspapers, assure a record-breaking crowd.

Ample arrangements to care for the crowds have been made, a bureau of information being located downtown and provided with data concerning location of available rooms, and there will be no difficulty in locating each visitor where he chooses to go. Prices in hotels and restaurants will positively not be raised or lowered from their usual rate during the fair.

SEASON CURTAILED

Just after the last issue of the News was out, one of our local sportsmen called our attention to the fact that the state game laws, a synopsis of which we gave in the last issue, were curtailed by the federal laws, especially as regards water-fowl. As far as we have been able to learn, the principal changes affected by the federal law is that the season for water-fowl does not open until December 16 instead of September 1, as provided by state law, and that hunting shall be done only from sunrise to sunset. It is said by sportsmen that the best duck hunting is just at dark, but this will have to be cut out, or the sportsman runs the risk of having to explain to the federal court just how it happened.

BRIEF STATE NEWS

Diphtheria and scarlet fever are reported at Socorro.

The little son of Mrs. J. W. Bickers, of Roswell, severely burned its mouth and throat with concentrated lye, this week.

The 10-months-old child of U. S. Bateman, of Roswell, fell into a bed of hot coals the first of the week, severely burning its hands and arms.

Jersey cows belonging to Chas. Redd and J. S. McClure died near Las Cruces this week, after having swallowed short pieces of baling wire.

The wife of Al Hoy was rendered speechless and had a narrow escape from death at Taos, last Monday, when lightning struck a large cottonwood tree near the house and followed the telephone wires into the building.

On Tuesday evening lightning struck the ranch house of L. D. Roberts, south of Estancia, tearing off several yards of shingles and destroying the cornice of the building. Mr. and Mrs. Roberts, who were sleeping in the building, were not harmed.

Dairyman Davis, of Las Cruces, was held up and robbed of several dollars in change, while making his milk route Wednesday morning. The highwayman, Francisco Gonzalez, was arrested and, after examination, held to the grand jury under \$3,000 bail, which he failed to give, and consequently went to jail.

While out hunting last Sunday afternoon near Clovis, Ross Harp was shot in the back by his companion, Ernest Matlock. The accident was caused by the auto in which both were riding, passing over a bump in the road, throwing the gun in the direction of Harp. It is not known whether the shooting will prove fatal or not.

NEWS NOTES ROAD BOARD MEETING

Districts Re-organized and Supervisors are Named

At the September meeting of the Valencia County Road Board, Mr. Baca was elected chairman to succeed Mr. Raff, resigned.

As a result of the visit of members of the board to the western part of the county, some changes were made in the districts and supervisors in a number of districts. Elias Sanchez was appointed supervisor in the Seboyeta district, Burt Wetmore in the Laguna district, Adolfo Blea in the Grant-San Rafael district, Pablo Pino in the San Mateo district.

The road engineer was instructed and authorized to establish road drag systems wherever possible.

Surveying and widening of the roads south of Belen is being done, preparatory to grading same.

A new district surrounding Bosque, adjoining the Socorro county line, has been created.

Engineer Hitchcock will make a trip through the western part of the county next week to inspect the roads and instruct the new supervisors in their duties. Also with a view to laying out certain sections of roads in those districts.

The grading and putting in of bridges has been completed between Peralta and the Los Lunas bridge, the road now being in good shape for travel.

Warning

The Valencia County Road Board desires to warn all persons against the removing of surveyor's stakes along the various roads of the county. The law provides a heavy penalty for conviction on such a charge, the maximum being a fine of \$100.00 or six months in jail.

PHONE No. 34

The conviction of State Representative Lucero of soliciting a bribe, in Santa Fe last week, came as somewhat of a shock—not so much that such a thing as bribery is impossible in New Mexico, but the conviction is the novelty. And especially is this true after the legislature had done what was supposed to have been a good job of whitewashing. At the time of the occurrence, an investigating committee of fifteen reported to the house, of which Lucero was a member, eight of the committee favoring sustaining the charges. The minority report was adopted and Lucero and his fellow workers were given a clean record—all nicely whitewashed. Somehow or other the jury in the district court did not see it just that way, and brought in a verdict of guilty.

Torrance county has been in the limelight recently more than common. A year ago the county clerk resigned his position under charges of incompetency. The recent grand jury returned presentments against the three county commissioners and the present clerk, appointed by the board of county commissioners to fill out the unexpired term of the former clerk. While these cases have not yet been tried and there is as yet no conviction, one can not help thinking that where there is so much smoke there must be some fire. During this same term of court this former clerk was charged with contempt of court, in that he had tried to "fix" the jury. Pleading guilty, he was sentenced to one year in jail. A former deputy clerk was indicted on two counts for having raised county warrants, to which he also pleaded guilty and was sentenced to one year in the penitentiary on each count, sentence being suspended during good behavior. Evidently there is hopes for Torrance county with such a cleaning going on.

What has become of the old-fashioned corn meal, from which our "mammies" used to make delicious corn-dodgers and hoe-cakes? The meal we get these days is ground too fine, as are a good many other things.—Lake-wood Progress.

I believe in the stuff I am handing out, in the firm I am working for, and in my ability to get results. I believe that honest stuff can be passed out to honest men by honest methods. I believe in working, not weeping; in boosting, not knocking; and in the pleasure of my job. I believe that a man gets what he goes after; that one deed done today is worth two deeds tomorrow, and that no man is down and out until he has lost faith in himself. I believe in today and the work I am doing, in tomorrow and the work I hope to do, and in the sure reward which the future holds. I believe in courtesy, in kindness, in generosity, in good cheer, in friendship and in honest competition. I believe there is something doing, somewhere, for every man ready to do it.—Selected.

Choose Good Men.

The recent conviction of Representative Lucero, of Rio Arriba county, serves to emphasize the timely editorial in a recent issue of the Santa Fe Eagle urging the importance of selecting good men to serve as members of the next legislative house.

History reveals that in many states too little importance is attached to the choice of legislative material. Usually the nominations for the fat county and district offices are eagerly sought, but owing to the meagre compensation attached to the office, legislative nominations are not highly prized, and frequently it is difficult to induce desirable men to sacrifice their time and money by serving in such capacity.

As a result it too often happens that incompetent, undesirable and sometimes dishonest men are chosen. The making of our laws is of vital importance and should not be entrusted to men of that character.

Sensible and honest men dislike to be subjected to the humiliation and insufferable annoyance of being thrown in contact with them, which is another reason why they are reluctant to serve.

It would be well if the leaders of political parties in the state would enter into a compact to exert their utmost endeavors to elevate the standard of qualifications required to secure legislative nomination.

Partisan criticism to the contrary notwithstanding, the present senate is composed of men of far more than average ability, whose reputation for honesty and integrity is unimpeachable and whose records during two legislative sessions will withstand the closest scrutiny by the most carping critic.

Let good, able, broad-gauged men be nominated by both parties, and there will be no difficulty in enacting beneficial legislation, regardless of the political complexion of the legislature.—Las Cruces Citizen.

Don't Kick Against a Stone Wall.

Kicking a stone wall does no good and only prevents further progress. As a pastime it may furnish some exercise, but it is extremely wearing on the nerves, shoe leather and temper. The parcel post is a stone wall that the small merchant thinks falsely he has reason to kick. It has brought him increased competition with the mail order houses, according to his view.

But the parcel post stone wall has a hole in it that leads the small merchant into a fertile country where his erstwhile competitors can only follow after

considerable delay and at greater expense. The "hole" is the zone system, which makes every merchant the center of a circle whose diameter is 150 miles, within which he can deliver goods much more quickly at a lower postal rate than any mail order house.

The parcel post is no longer a theory, but a fact; and facts, like stone walls, are futile things to kick. Take advantage of what it offers instead.—Deming Graphic.

BELEN, VALENCIA COUNTY, N. M.

Belen is the metropolis of Valencia County. Located in the wonderfully fertile valley of the Rio Grande, it is surrounded by an agricultural country whose richness equals that of the famous Nile.

Located at the junction of the Rio Grande Division of the Santa Fe and the Eastern Railway of New Mexico, it has direct railway communication to all points of the compass, north, south, east and west. Santa Fe repair shops with the only roundhouse which will accommodate the immense Mallett engines in the west, and a division point, make it a city whose future is assured.

The school system of Belen compares most favorably with that of eastern cities of much larger population. Her people pride themselves on the excellence of their schools and improvements are constantly being added.

Churches are well provided for. The Lutheran, Methodist Episcopal, Catholic and Episcopal people have building, and all but the last named have resident pastors.

The Belen Roller Mills with a capacity of 100 barrels daily, are the largest of their kind in New Mexico. A ready market is thus assured for all the wheat grown at favorable prices.

The climate is delightful the year 'round, excessive heat in summer and cold in winter being unknown. An abundance of good water underlies the whole valley surrounding Belen, assuring not only sufficient for domestic use but also irrigation. Investment in Belen property is sure to bring good returns.

City Visitor—Why do you let your boy play around those bee hives?

Farmer—So's he'll git a taste o' what's comin' to him if he leaves the farm for the city.

Little Ruth saw for the first time a man with a "peg" leg. "Oh, mama," she said, "see that man with a stick for a leg." "Don't talk so loud," said mama, "he'll hear you." "Why," the little one replied in surprise, "doesn't he know it?"

Mistress—In the time it takes me to tell you how to do the work, I could do it myself.

Housemaid—Yes'm; and in the time it takes me to listen to you, so could I.

The cowboys were having a baseball game down in Texas. A big, bushy ranger clouted the first ball over for a home run. Instead of circling the bases, however, he waited for the pitcher to deliver another ball. "Why don't you run?" the crowd shouted. "Got two more strikes yet."

A prominent state official in a southern mountain region reined in his horse one hot afternoon and inquired of a barefooted woman working in the field: "Madam, can you tell me how much farther it is to Johnson's Corners?" The woman leaned on her hoe and pondered gravely. "No," she said finally, "I can't. My son Jim could tell you, tho. Jim's been aroun'. He's got shoes."

Worn Out?
