MESSAGE

FROM THE INTERIM VICE PRESIDENT FOR RESEARCH AND ECONOMIC DEVELOPMENT

I invite you to read this report *Contract & Grant Awards, fiscal year 2007*, which lists contract and grant (C&G) awards received by the University of New Mexico (UNM) during the period from July 1, 2006 - June 30, 2007 (FY07). These awards represent new funds that were acquired during FY07 by the main campus, branch campuses and education centers, and the Health Sciences Center (HSC). The HSC includes the School of Medicine, College of Nursing, and College of Pharmacy.

The awards received for FY07 total \$280.1M, of which \$156.8M is attributed to the main campus and \$123.3M to HSC. These awards assist in providing resources that are necessary to support and enhance the quality of research and teaching at UNM, as well as the opportunities for students to be trained in state-of-the-art laboratories in a variety of disciplines.

Please join me in thanking our dedicated faculty, staff and students involved in the sponsored research, public service and instruction efforts at UNM. It is their successful endeavors that enhance the University's visibility at the national and international levels, as well as contribute to the economic growth of New Mexico and the region. Thanks are also due to a number of individuals who have helped in preparing this report. In particular, I would like to acknowledge the efforts of Ann Powell, Valerie Roybal, Diana Sanchez, and Denise Wallen of the Office of the Vice President for Research and Economic Development; Rena Vinyard of the Health Sciences Center Financial Services Division; and Joseph Gonzales of the Student Financial Aid Office.

I welcome your comments and questions with respect to this report, and other issues related to research activities at the University of New Mexico.

John K. McIver
Interim Vice President for Research and Economic Development
