Baseball season opened Sunday

Engineers vs Reserve

The first game of the season was played last Sunday afternoon between the Engineers of the Bureau of Public Roads, now stationed near here and the home team.

Quite an enthusiastic crowd witnessed the game which was well played, considering the practice had. A home run and two three base hits by Lusk and the excellent work of Lapraik on the 'mound' were the features of the game. The score was some what uneven, but a little more practice will make the Engineers hard to beat.

Sister—I thought you were not going to give Miss Sachrine anything for her birthday?

Brother—I wasn't, but she sent me a bunch of forget-me-nots the day before.

Local Items

Mr. and Mrs. J. R. Gaunt have returned to Reserve having been in El Paso for the past two months and half where Mr. Gaunt was in the Providence Hospital. They also made a trip to Washington, D. C. while away they report a fine time in the Capitol City but very glad to get back "home" again. And we're glad they're back.

J. T. Alred from Alma came to the county seat Monday of this week, on business concerning the mail route between his town and this place.

Wm. Menges and sons of Alma have purchased the S. U. Valley Saw Mill from J. N. Harper and will soon be prepared to furnish the surrounding country with all the lumber that will be needed. We are glad to welcome the Messrs. Menges in our midst and wish them the of success in their undertaking.

Miss Sara Herrick is spending a few days in Socorro visiting with her relatives and having her eyes treated. Miss Marjora Herrick is taking her place as bookkeeper of the Reserve Mercantile Company.

Our little town is fast becoming if not a big one at least a large town. What with the new homes of Mrs. May Toney, J. A. Orr and T. C. Turk, together with the new house of Dr. Harper is putting up, we are getting quite proud of our growth. The new sidewalk in front of the Gaunt building and the Court House is completed. The work of plastering the Gaunt building is well underway and will be completed this week which will add much to the attractiveness of that building.

Gurney Jessen of Rensselaer, Indiana arrived Tuesday evening to spend the summer with his brother, Dr. L. A. Jessen of this place. The Doctor and wife are going to show Mr. Jessen some real fishing up on the Gila

also that while the rest of the world is as hot as "blue blazes" at this time of the year, Catron County boasts the fact that one still needs a wrap to be absolutely comfortable.

The Wild Rose Club, which was organized during the visit of Miss. Amelia Alexanda, with Mrs. John G. Koogler and Mrs. C. F. Henley as Local Leaders, Miss. Mable Hudson, President, Miss. Laura Jones, Vice-President and Miss. Dorothy Bruce, Secretary and Treasurer met at Mrs. C. W. Harpers home Wednesday afternoon. The girls spent the time making flowers and eating chocolate fudge, and had a very enjoyable time.

Mr. and Mrs. J. Walter Jones and little daughter Irma Ruth spent Wednesday visiting with Mrs. W. J. Jones of this place.

David Pickett and family are preparing to leave the country. They are going to Colorado where Mr. Pickett's mother intends to take up land. We shall be sorry to loose them, but hope that they find a good location, and like their new home.

Chas. Adair and Lon Brown of Luna Valley were Reserve visitors this week, attending to tax matters and buying supplies.

Mrs. Juliette Bruce, who has been visiting with her son, Ira C. Bruce, is spending this week on the Tularosa with Mrs. F. S. Brock.

Little Miss Jewell Wilder celebrated her ninth birthday, Tuesday afternoon, by entertaining a number of her friends with a party. Jewel received several presents and best wishes of every one. All the little folks had a jandy time, and wish, were it not for the fact that Jewel would soon be an old maid, that she would have a birthday everyday.

Everyone in Reserve has the "fishing fever" and some cases are extremely violent, so much so that several parties will leave town early Saturday morning for the hills where they expect to recover in a week or ten days.

Something to Think About
By F. A. WALKER

WHO WANTS TO KNOW

If you are sincere in your desire to know how to achieve, how to make yourself worthy of the highest confidence and thus become competent to hold a place above the ordinary, you will lose no time in acquiring the necessary knowledge.

You will not waste a single hour in idleness or unproductive effort, the basic cause of disappointments and failure. You will go to your task seriously with unyielding determination to win.

In your pursuit, which in a little while will have become an exhilarating pleasure, you will discard that all the men and women who are holding the prominent places in the beginning of their careers just what you are doing.

They tossed the chaff to the winds

Uncommon Sense
By JOHN BLAKE

CANNOT HOARD TIME

In a certain time you can make a certain amount of money. You can put the money away for years later, but you can't put the time away.

Money, called by the economists frozen labor, might also be called frozen time.

But time is more than money. It can be turned into many things that can be stored away—education, cultivated taste, pleasant and profitable memories. But time itself you cannot hoard.

Time spent in recreation is not wasted, unless you spend more than a due allowance for recreation. But time spent in absolute idleness, or in activities that are worse than idle, is sheer criminal waste.

If you could go back over your life and gather back the hours that have never been improved, you would still have enough time to do great things. But those hours are gone.

You can only, as Shakespeare says, "regret your dear time's waste" and resolve to waste less of it in the future.

Many men whose time had never been turned to account, until they were past forty have still had enough left to accomplish great things in the world.

But these are the most sincere mourners for the years that might have been utilized. If you will begin today to bear in mind that time cannot be hoarded, and if every hour of it is converted into something that can be hoarded, you may lay the foundation for a fortune.

You will certainly lay the foundation for happiness by and by. Count your hours, and allot each one to some task or to some profitable

recreation. See that none of them slip by. They are as water through a mill, which if sent over the wheel creates valuable energy, but which spilled over the dam is gone forever.

JUNE TIME

SINGIN' o' June, when the roses blow; Liltin' a song when the sun hang low; Whistlin' away Through th' livelong day— Singin' an' whistlin' a merry tune To the rosiest month of them all—that's June.

Watchin' the clouds as they fasten by, Catchin' the gleam of the bright blue sky; Lazyin' 'round On th' sun-kissed ground— Hearin' th' wind through the wood and croon Her songs to the rarest of months—that's June.

Off through th' meadows cool an' sweet, Where th' violets bloom in their dim retreat; Dreamin' dreams By the purlin' streams, As they hasten by with their rhythmic rune To the rosiest, fairest month—that's June.

Home at eve when the moon hangs low And the sky gleams bright with a silver glow; Just lazyin' there In the old arm chair A watchin' th' man who lives in the moon And laughs at th' fairest of months—that's June.

SCIENCE ON FARM
Agriculturist of Today Must Know Business Thoroughly.

Canadian Tillers of the Soil Have Proved That Old Days of Haphazard Methods Have Gone.

Agriculture in Canada has the status of a profession which both its high standard of operation and the prime place it occupies in national life justify. The days when land was casually filled on and farmed without any intelligent understanding of agricultural processes are going with the dwindling availability of the land, and rapidly passing is the epoch of the destruction of soil values, and the abandonment of farms which have been rendered unproductive. Clearer and clearer has become the realization that farming is a specialized profession requiring special training, and in the place of this spoliation there is an intelligent system of crop rotation, preservation of the virtue of the land, a discovery of the nobility of the farmer's calling and a determination to secure and achieve the best possible in everything.

The Education of the Farmer. Agricultural colleges, experimental farms, government literature, railway propaganda, all in an appreciation of the national benefits which accrue, contribute to the education of the farmer who, if he starts out in ignorance, speedily discovers the futility and profitlessness of continuing in this state. It is only of comparatively recent years that farming in Canada has become the comprehensive and exhaustive study it is and its tenets have so widely absorbed, and older farmers who have followed haphazard methods or systems scientifically unsound are gradually forced from necessity into an intelligent study and application of their profession.

This brings us to the city man who is anxious to leave his old life for the greater freedom of the country and take a farm for himself, and, the foregoing holding good, he need not follow far behind the older farmer if he take up the study of his work seriously, bring energy and intelligence to bear upon a following out of the systems of experienced and successful agriculturists, and utilize the results of the expert investigation and research the Dominion places at his disposal. The whole country is working for him and

CAN NOW WALK AS WELL AS EVER
Esteemed Lincoln Resident Declares Tanlac Has Made a Clean Sweep of Her Rheumatism and Other Troubles.

"I couldn't believe all they said about Tanlac until I tried it myself, and now I never doubt what I read about it," said Mrs. Anna B. Crawford, 2500 N. 23rd St., Lincoln, Neb., wife of a well-known retired business man.

"I got into a badly run-down condition," she continued, "and suffered greatly from indigestion. I had headache for days at a time, slept poorly and woke up mornings so weak and dizzy I could hardly get up. Then rheumatism set in and made walking difficult and I could scarcely use my arms for the pain.

"But Tanlac has made a clean sweep of my troubles, brought back my appetite and enabled me to gain much weight. It is a pleasure to make a statement in praise of this great medicine."

Tanlac is sold by all good druggists. Going With the Crowd.

"What is your personal opinion with reference to the great question we have been discussing?"

"My friend," replied Senator Sorghum, "when I find myself in an irresistible wave of sentiment I vote accordingly. I once saw a steer caught in a cattle stampede. He might have had his own ideas about which way he ought to travel, but there wouldn't have been the slightest use of his trying to stop and express them."

LADIES CAN WEAR SHOES
One size smaller and walk in comfort by using ALLEN'S FOOT-EASE, the antiseptic powder for the feet. Shaken into the shoes and sprinkled in the foot-bath, Allen's Foot-Ease makes tight or new shoes feel easy; gives instant relief to corns, bunions and calluses, prevents Blister, Callos and Sore Spots.—Advertisement.

Musical Note. A very deaf old lady, walking along the street, saw an Italian turning a peanut roaster. She stood looking at it awhile, shook her head and said: "No, I shan't give you any money for such music as that, I can't hear any of the tunes, and besides it smells as if there were something burning inside!"—The Congregationalist.

Modest. Francine—That scar on your head must be very annoying. Ferdie—Oh, it's next to nothing.

AND SHE CALLED IT "TEA"
Those Fond of the Beverage Will Shudder at Thought of Awful Australian Deception.

Lord Lea of Fareham said at a New York reception: "Let us hope that prohibition won't drive you to tea and make you such tea-slaves as the Australians are."

"The last time I was in Australia I stopped at a cabin and an old woman gave me a cup of tea as black as ink."

"How long," I asked, "have you had this pot of tea on the fire, ma'am?"

"How long have I had it on the fire?" chuckled the old woman. "Why, bless your soul, I don't never take it off the fire. I put in a handful of tea and then, when it gets weak, I put in another handful, and when the pot gets full of leaves I take a double handful out for my old man to smoke."—Detroit Free Press.

Two of a Kind.
Errors generally come in pairs. The New York Tribune having committed "Ralph Waldo Emerson," it remained for the Times to say that Mary Hastings Bradley leaves New York this month to "hunt guerrillas in the African wilds."

A good habit needs constant care; a bad one grows like a weed.

EVERYDAY GOOD THINGS

NOW is the time to go forth and pluck the early watercress, the wholesome dandelion, the dock and poke, the new shoots of milkweed and marsh marigold or cowslips, all giving the needed zest to the food of spring.

Fresh Dandelion Salad.

Those who appreciate the value of the tender bleached heart of dandelion like it with a bit of salt without any dressing. For a salad the bleached leaves are best, but the tender green shoots, cut and mixed with a small green onion and served with French dressing is a salad not to be despised. Cut the dandelion close to the root, with all the tender green buds. Wash carefully and slice the root from the base, buds and tender leaves for an inch above the root. These use for a fresh salad; the rest of the leaves may be cooked for greens. Another addition to this salad is a thinly sliced tomato, which adds a bit of acid and softens the bitter of the dandelion. Using mayonnaise on the fresh green dandelion is another appetizing method of serving it.

Cooked Dandelion Salad.

Cook the greens until tender, which will take two hours or more unless the greens are very young, then serve with the following salad dressing: Rub a small bowl with a cut clove of garlic, add one-half of a teaspoonful of salt, a few dashes of paprika, two tablespoonfuls of orange juice and four to five

tablespoonfuls of olive oil. Whip this dressing until it is creamy, then serve on the cooked dandelions.

The Friendly Path
Walt: L. Robinson

EVERYONE MUST PAY
EVERYONE must pay for what he gets.

There is a law of recompense which cannot be evaded or ignored. If one prizes his happiness he must expect to pay. Eventually the bill collector will demand his toll. Unless payment is made a rough pathway lies directly ahead.

Many constantly fear the bill collector who comes and demands money toll. But he is the most harmless of all the collectors. The real collector to be feared is the one which takes the form of conscience. It is impossible to dodge this one or to frighten him off with a double-barreled gun.

Those who imagine they have ended the collector when in the form of conscience are foolishly deluded. But even though they may get some enjoyment out of life because they think they have satisfied themselves that their consciences were wrong, they can always expect another collector which takes the form of law to hound them until the debt is paid.

In this age when many fathers and mothers are worried concerning the future of their children, there is good reason to impress upon the young people the importance of being on the square—on the square with the world as well as with themselves. Too many start into their world's pathways bent on getting as much as they can—both in material value and pleasure—without paying for its worth. If parents allow boys and girls, when their characters are in the making, to get this false impression of the way best to get on, sorry days are likely to be ahead not alone for the sons and daughters and their children, but for the fathers and mothers as well.

Baby Specialists.

THAT there are Physicians who specialize on Infant ailments you know. All Physicians understand Infant troubles: all Physicians treat them. It is his profession, his duty, to know human ills from the Stork to the Great Beyond. But in serious cases he calls in the Specialist. Why? He knows as every Mother knows, or ought to know, that Baby is just a baby, needing special treatment, special remedies. Can a Mother be less thoughtful? Can a Mother try to relieve Baby with a remedy that she would use for herself? Ask yourself; and answer honestly! Always remember that Baby is just a baby. And remembering this you will remember that Fletcher's Castoria is made especially for Infants and Children.

Children Cry For Fletcher's CASTORIA

The False and the True. Advertising by the use of large space, the expenditure of huge sums of money have placed on the market, have put in your home, perhaps, many articles that today have been discarded, as you will readily admit.

Do you recall anything that has more modestly appealed to the public than has Fletcher's Castoria: modest in all its claims, pleading at all times—and truthfully—for our babies?

The big splash, the misleading claims may win for a time, but the honest truth-telling advertiser is like the old story of the tortoise that beat the hare.

Mothers everywhere, and their daughters, now mothers, speak frankly, glowingly, enthusiastically in praise of Fletcher's Castoria. Speak of it lovingly as a friend that has brought comfort, cheer and smiles to their little-ones.

To them; to these true mothers no argument can induce them to set aside their bottle of Castoria, their old friend, that they might try even another and unknown remedy for babies. Then, would YOU think of going to YOUR OWN medicine chest to find relief for Baby's troubles? Can you not separate the false from the true?
