WHAT A BEAUTIFUL DAY!
Whenever we hear a man make the remark which we have quoted as the caption of this article, we immediately interview him, to find out where he is from, and whether he proposes to leave here, for we take it for granted without asking him, that he is a newsmen, and anyone who has lived for any length of time in Albuquerque accepts the beautiful day as a matter of course—he becomes so accustomed to the perfect

surance, and is constantly appreciating in value, ought to be attractive to men who are glad to get three or four percent on their money at home, in the same kind of property. There is a present and pressing demand in Albuquerque for at least \$250,000 in such improvements as we have reference to.

Iowa will redeem herself from a blunder made two years ago. The republicans will sweep the field.

not as a matter of choice, but one of necessity. Owing to the difficulties through which Chile has recently passed and the disturbed condition of things still existing there, we can afford to be very lenient with her, but we cannot with justice to ourselves, permit any powerful little or big, weak or strong, to murder

The body of Jack King, the railroad brakeman, who was killed by Conductor Harris, was shipped to Dubuque, Iowa, for burial.

The report of the police committee, in regard to the salary of officers, was taken up. It was moved by Alderman Hunt, seconded by Alderman Bowman, that the report be laid on the table. The motion lost.

On motion of Alderman Kaster, seconded

The eagle referred to is the same that figures on the Mexican banner and the "dobe" dollar. It is jet black, with white feathers in its tail, and is known to naturalists as the Caracara eagle, also the Mexican Harpy eagle. It lives on carrion and is common along the banks of the Gila, but owing to a curious old legend, it has been taken for Mexico's national bird.

THE EXPEDITION TO EXPLORE THE GRAN QUIVERA RUINS.

Numerous are the traditions relating to buried treasures at Gran Quivera. Secretaries parties have on several occasions visited the ruins and dug in vain for the golden store said to be buried there. Gran Quivera ruins are about 100 miles northeast of this city. The ruins are massive and show that at one time a high civilization flourished there, and that the people possessed great wealth. It is supposed that the country was upheaved in an earthquake centuries ago, and the people all destroyed, the houses tumbled into ruins, and the streams of water were drained into subterranean channels. There are remains of extensive aqueducts, but there is not a drop of water within fifty miles of the ruins.

No one knows the history of these ruins. Coronado, in his history of the explorations made as early as 1540, wrote of the seven cities of Cibola, describing them as of fabulous wealth and magnificent beauty. The ruins at Gran Quivera are believed to be the ruins of one of these cities. Coronado told of abundant gold and treasures in all of these cities and many expeditions have explored about Quivera. The ruins indicate a large city stood there. The immense walls mark out the sites of palaces, monasteries and churches. No treasure has ever been found there, but the belief that it is located there attracts many traditions of the Mexican or Indian.

A party has been organized here to explore the ruins, and as soon as access to the ruins can be had, they will start for them. The party will be composed of men from Santa Fe, and will take along camping outfit, and expect to be absent about two or three weeks.
