CARRIZOZO, LINCOLN COUNTY, NEW MEXICO, MARCH 12, 1909.

NUMBER 2

PROVIDES FOR ELECTION OF TERRITORIAL OFFICERS.

Councilman John Y. Hewitt, who represents this district in the upper house of the Territorial Assembly, and who believes in the people selecting their own officers, has introduced the following bill:

Be it Enacted by the Legislative Assembly of the Territory of New Mexico:

Section 1. That at the next general election held in this Territory for the election of a delegate to Congress and each alternate year thereafter there shall be elected by the legally qualified voters the following territorial officers, viz:

One Attorney General;
One Auditor;
One Treasurer;
One Superintendent of Public Instruction;
One Superintendent of the Penitentiary;
One Commissioner of Public Lands;
One Traveling Auditor, and
One Superintendent of Insurance who shall hold office for the term of two years from the first Monday in January succeeding their election and until their successors are elected and qualified.

Section 2. That each of the officers provided for in the first section of this act shall be a legal voter in this territory at the time of his election.

Section 3. That the officers herein provided for shall respectively qualify as now or hereafter may be provided by law, and their respective duties and obligations shall be such as may be prescribed by law.

Section 4. That in case of a vacancy in either of said offices, by reason of death, removal from the Territory, resignation or failure to qualify before the beginning of the term for which he was elected, the same shall be filled by appointment by the governor for the unexpired term of said office.

Section 5. That contests of the election of any of the officers provided for in this act shall be conducted under the same rules established for contests for county offices so far as the same are applicable and may be brought in any of the district courts of the Territory where either the contestant or contestee shall reside

at the time of such election.

Section 6. That this act shall take effect and be in force from and after its approval by the Congress of the United States, and all acts and parts of acts in conflict with this act are hereby repealed.

MESCALERO RESERVATION OPEN TO MINERAL ENTRY.

The Mescalero Indian Reservation, which lies partly in this county and partly in Otero county, will soon be known by another name. One of the last bills signed by President Roosevelt was one creating a National Park out of the Mescalero Indian Reservation, and throwing it open to mineral entry. A portion of the land, however, is reserved, and from this the prospector is debarred. Many veins carrying gold, silver, copper and coal are said to abound in the reservation. Mysterious as it may seem, the fact that the lands were to have been thrown open was not generally known, the information having been given out through private sources to only a few. For some weeks past the "wise ones" who had a hunch that the bill would pass and the lands be opened to prospectors, quietly slipped away and camped along the border from Three Rivers on the west to Ruidoso on the east, and awaited the tip from Washington. A stampede for the Indian's hunting grounds followed. Those familiar with the lands have known for years that unmistakable indications of mineral deposits were there, and most of them have staked off claims on the particular hills and in the canons they had in their mind's eye.

Several people from this town, some from Nogal, and many other places in the county, have gone to try their luck, but the excitement won't come off for some time yet—not until considerable development has been done and veins or bodies of ore uncovered. Then we expect to hear of fabulous returns from the assayers—of ore running from ten dollars at grass roots to thousands at a little depth. The boom camp of Sylvanite may be deserted for the new camp in the Sacramentos. Capital will flow in, townsites established, and lots may be selling like hot cakes before the daisies grow.

The prospectors who fail to get a location there, will more than likely drift a little over the line into this county, where they may find just as good indications of the precious metals as may be found in the Sacramentos. We believe there are large bodies of mineral on the Mescalero reservation, but we know there are similar bodies on the eastern slopes of the White Mountains in this county awaiting the magic touch of the prospector's pick.

CAPITAN BOARD OF TRADE.

A well attended and enthusiastic meeting was held last Saturday in the school house at Capitan for the purpose of organizing a board of trade. Among the districts represented were Lincoln, Bonito, Angus, Nogal, Ruidoso, Alto, and the Mesa. Very little was done, apart from electing officers. A committee of three was appointed to draft by-laws and submit same for approval at the next meeting. It is understood, however, that when the board settles down to business it will have a folder printed and circulated setting forth the resources of the county, and in this they desire the co-operation of all interested citizens. An important feature of the board will be to list and advertise lands and other property for sale or trade. The next meeting of the board will be held on Saturday, 20th inst., and it is expected that all parties interested in the up-building of the county, advertising its possibilities, interesting outside capital and encouraging immigration, are requested to make it a point to be present at the next meeting.

NOTICE TO TAXPAYERS.

All able bodied men over the age of twenty one years are subject to a poll tax of one dollar for the support of the public schools of the territory of New Mexico. After February 1st, 1909, this tax is due and payable. This is to notify all persons who are liable, to come forward at once and adjust this matter and thus assist in lengthening the present term of the public school, and also relieve the School Board of the necessity of enforcing the collection of this tax.—Respectfully,
JOHN H. BOYD,
Clerk School Board, District No. 7
Carrizozo, February, 12th, 1909.

A SEVERE STORM.

The worst storm, or more properly storms, for it has been a series, has prevailed this week that has struck this section this winter, and has been as bad as many of the worst that ever came at any season. Snow, accompanied by violent wind, at times almost attaining the dignity of a blizzard, has fallen the past three days, and the only consolation we have is that it is very much worse in other places. The trains have been tied up, local traffic at a standstill and, we fear, a great loss of live stock. Apprehension for the safety of herders and all who were unfortunate enough to be out in the storm is felt.

Should Men Talk Business at Home?

One of the real reasons of divorce of interest between men and women of this country is that women do not take an interest in their husband's business. Business bores most American women. We are too idealistic and too intellectual to care for its sordid details. Business does more than bore us; sooner or later the average woman grows to dislike business, and for a good reason. It is her rival in her husband's interest and affections, says the writer of an article entitled "The Inconsequential American Woman," in Appleton's America. America is full of sad-eyed and well-dressed women who complain that their husbands' lives they would stare at you in surprise. It would be useless to tell such a woman that she might have been a consulting partner in her husband's business had she wished. To this she has the reply, "Man ought to leave his business cares in his office." That is, a man's brain should be neatly divided into two parts; he should be able to switch off the thoughts which have occupied his business hours the way in which one extinguishes an electric light. He should at the same moment switch on the other half of his brain where should burn brightly with affection for his wife, love of amusement and desire for that kind of relaxation which his wife enjoys. The great majority of men have been made to believe that they should not "bring business home," so great is the power of reiterated suggestion. They actually think that it would not please them to have their wives take an intelligent interest in their pressing affairs.

In accordance with plans of the war department, Surgeon General O'Reilly has recently enlisted a large number of the most skillful and noted surgeons and physicians in an army medical reserve corps. The physicians were drawn from all over the country, a few here and a few there, and were chosen solely for their ability. In time of peace they will receive no compensation, although they may be called upon for consultation or advice. In time of war they will receive the regular pay of their rank, which will be lieutenant major, lieutenant colonel and colonel. This, however, is no temptation to men of such a class. They have allowed themselves to be enlisted in the reserve corps solely as a matter of patriotic duty, and for the purpose of strengthening and improving the army medical service.

Count Boni De Castellane has withdrawn his suit against his former wife for alimony. Considering that she obtained the divorce, the withdrawal of a demand for support is not altogether magnanimous; but it may be regarded so by himself and family, as the American girl who had nothing in their eyes to enflame her to the honor of an alliance with them but her money was given distinctly to understand that was all she was married for. But this sordid picture of vulgar greed is not deterring other American heiresses from tempting the same fate.

In New Jersey a young woman was frightened to death by a mouse, and in Chicago a frail young thing drove away a burglar by throwing her No. 3 shoe at him. You never can tell what a woman will do in a crisis.

IN THE PUBLIC EYE

REACHES FOUR-SCORE MARK

President James Burrill Angell, the grand old man of the University of Michigan, who celebrated his eightieth birthday a few days ago, has been at the head of Michigan's state school of learning for the last 37 years. Although Dr. Angell has passed the allotted time for man to live, his ruddy complexion and his youthful sprightliness belie his advanced years.

James B. Angell was born in Scituate, Rhode Island, January 7, 1829. He matriculated at Brown university in September, 1845, graduating four years later with the highest honors of his class. After graduating Dr. Angell taught for a year. Then his health began to fail, too close application to his studies began telling, and he gave up his teaching, and his studies and lived an out of door life for a year, taking a horseback trip through the south. After the trip Dr. Angell spent two years in France, Germany and Italy. From this foreign residence he was recalled to the United States to accept the chair in modern languages in Brown university. In 1860 he resigned this professorship to become editor of the Providence Journal. After six years spent in charge of that publication, he resigned to accept the presidency of the University of Vermont, with which college he was connected till he came to the University of Michigan as its president in 1871. The presidency of Michigan was offered to Dr. Angell two years before that time and refused by him.

For the last 37 years, Dr. Angell's brilliant mind, great strength, indomitable courage, and boundless affection have been given freely to the institution of which he has been the head, the leader.

Nor is Dr. Angell known only as the head of the leading educational institution in the middle west. In 1880 he was appointed minister to China, at a time when the greatest diplomacy was needed, at a time when many annoying commercial questions arose and when the regulation of the Chinese immigration must be attempted.

REACHES AGE LIMIT

Though Rear Admiral Caspar F. Goodrich reached the age limit for active service the other day he will continue for some time as commandant of the New York navy yard, where he succeeded the late Rear Admiral Coghlan a year ago. Secretary of the Navy Newberry requested Rear Admiral Goodrich to remain at the navy yard long enough to complete the scheme of consolidation of the departments at the yard which is being worked out according to the admiral's own plans.

Rear Admiral Goodrich is one of the best known officers in the navy. He has the distinction of being the officer who directed the last naval engagement in the war with Spain, the fight at Manzanillo, Cuba. He also commanded the expedition which first drew the fire of the batteries at Santiago. On that occasion he was in charge of the work of cutting the cable connections with the besieged city.

Rear Admiral Goodrich was appointed to the naval academy from Connecticut and was graduated as the first honor man of the class of '64. From 1865 to 1867 he was attached to the steam frigate Colorado, at that time the flagship of the European squadron. During the Tel-el-Kebir expedition he was the American attaché on the staff of Viscount Wolseley.

FRIEND OF LABRADOR

"Grenfell of Labrador," who is declared by Lord Strathcona to be "the most useful man in the North American continent," has come to the United States to deliver a series of lectures, the proceeds of which he will devote to his philanthropic work in the chilly northland. He expects to raise \$100,000 through his lectures, and the sum will go into the proposed fisherman's institute in St. John's.

Dr. Wilfred Thomason Grenfell is preacher, teacher, physician, surgeon, magistrate, policeman, navigator, pilot, charity commissioner, orphan's guardian, grand almoner for the whole northern seaboard, wreck investigator, cartographer, rescuer of imperiled fishermen, salvager of stranded craft—in a word, he is a peregrinating providence to the desolate region that claims his life and works. He has raised money and built it into hospitals, co-operative stores and sawmills, launches for the rapid transportation of the sick and injured to the hospitals, and in various other excellent ways. Coming to Labrador first in 1892, Grenfell found 3,000 permanent residents and 30,000 fisher-folk who came from Newfoundland for eight months of the year, all without religious or medical aid and in the clutches of mercenary traders who advanced them fishing outfits at enormous prices and took the season's catch in return. Men and women were in hopeless bondage to the traders, children were barefooted and naked in zero temperature, parents had to borrow each other's clothes and education was unknown. Single-handed Grenfell set out to change all this. He preaches, doctors, teaches, advises, comforts and cares for young and old. He has revolutionized the whole section. He has been honored by President Roosevelt, King Edward, Oxford university and others.

SKIN ERUPTION CURED.

Was So Sore, Irritating and Painful That Little Sufferer Could Not Sleep—Scratched Constantly.

Cuticura's Efficacy Clearly Proven.

"When about two and a half years old my daughter broke out on her hips and the upper parts of her legs with a very irritating and painful eruption. It began in October; the first I noticed was a little red surface and a constant desire on her part to scratch her limbs. She could not sleep and the eruptions got sore, and yellow water came out of them. I had two doctors treat her, but she grew worse under their treatment. Then I bought the Cuticura Remedies and only used them two weeks when she was entirely well. This was in February. She has never had another rough place on her skin, and she is now fourteen years old. Mrs. R. R. Whitaker, Winchester, Tenn., Sept. 22, 1908."

BRIGHT SIDE TO BUSINESS.

Occasional Flash of Humor Enlivens Chase After Dollar.

It is supposed that business letters are deficient in humor. Still there have been exceptions, and the latest, sent by a member of the well-known wholesale soap-making firm of (let us say) Cake & Son, is one of the most brilliant. A retail dealer in a small way had sent for a consignment of hair goods: "Gentlemen (he writes) wherefore you have not sent me the soap? Is it because you think my money is not so good as nobody else's? am you, Cake & Son? wherefore have you not sent the soap? Please send me at once, and oblige yours respectfully, Richard Jones, P. S.—Since writing the above my wife has found the soap under the counter."

Professor Munyon has just issued a beautiful, useful and complete Almanac: it contains not only all the scientific information concerning the moon's uses, in all the latitudes, but has illustrated articles on how to read character by phrenology, palmistry and the month. It also tells all about reading, birth stones and their uses, and gives the interpretation of dreams. It teaches beauty culture, nursing, gives weights and measures, and antidotes for poison. In fact, it is a Magazine Almanac, that not only gives valuable information, but affords much amusement for every member of the family, especially for the ladies and evening entertainments. Many people in the rural districts will find this Almanac almost invaluable.

It will be sent to anyone absolutely on application to the MUNYON MEDICAL COMPANY, PHILADELPHIA.

TWO USEFUL HINTS ON RUGS.

Good Imitation of Indian Weave—Another Made Like Rag Carpet.

An Imitation of an Indian Rug.—Cut wool or silk rags as for carpet weaving; sew together several balls of solid colors, such as red and black; sew all other rags "hit or miss." Crochet in Afghan stitch one strip of solid about half a yard wide inserting crosses of contrasting colors as you proceed. If knitted, the middle strip might be in Roman stripe effect. Now make two strips about three inches wide of "hit or miss," and sew on either side of the wide middle strip. For the outside edge have strips three or four inches wide of solid color. No fringe or finish of any kind is needed. A coarse bodkin, threaded with the rags, is used for sewing the strips together. The result is exceedingly attractive.

Chenille Woven Rugs.—Take all your woolen rags and cut and sew as for a rag carpet. Wind every color separately. The borders are made of black and red rags, and sometimes a little green, and for the center any other color will do. It takes five pounds to one square yard; that is, a rug 60x31 inches makes a good size rug. For the border of the above size it takes 1½ pounds of black and one pound of red. The price of weaving is about 18 cents a square foot.

FOR RUSSIAN BEAR PICKLE.

Cucumbers the Chief Staple, Mixed with Other Vegetables.

Eight large ripe cucumbers. Peel, remove seeds, cut in inch dice, soak in brine over night, drain, cook ten or fifteen minutes. Take six medium sized white onions, four bunches of celery, clean, cut in dice, and boil ten minutes, drain, and mix with cucumbers. Have six large green peppers diced and seeds removed.

Mix through the other ingredients Cover all with a pickle of white vinegar, white sugar, a little cloves, spice, cinnamon and celery seed, tied in thin muslin, add two tablespoonfuls of grated horseradish. Pour vinegar on hot and seal in jars. This makes a delicious, salty green and white chowchow.

The Home.

A scratch on polished furniture can be almost obliterated by rubbing vigorously with linseed oil.

Keep a vegetable brush to remove the silk quickly from ears of corn. A new nail brush with a handle is equally useful.

If an iron is not at hand when marking clothes with indelible ink, hold the writing against a lighted lamp chimney or gas globe.

Garments that are to be hung out to air can be put on hangers rather than pinned to the line. This prevents sagging or marking with clothespins.

Brick-bats containing mother-of-pearl should never be cleaned with soap and water. Instead, it should be rubbed with a cloth dipped in whiting and water.

If, when using lemon for flavoring, you need only half a cup, put the other half on a plate and cover with a glass tumbler. This excludes the air and prevents it from drying up or getting moldy.

Mixed Meat Salad.

Chop fine one-third of a cupful each of cold fried bacon and boiled ham; dice one heaping cupful of cold veal. Shred fine enough red cabbage to make one pint. Put the meat and cabbage in layers in a salad bowl, sprinkle each layer with chopped white egg and French dressing. Over the top pour the remainder of the dressing. Garnish with a circle of grated or sieved egg yolk and dots of chopped parsley.

THE WONDERBERRY.

Mr. Luther Burbank, the plant Wizard of California, has originated a wonderful new plant which grows anywhere, in any soil or climate, and bears great quantities of luscious berries all the season. Plants are grown from seed, and it takes only three months to get them in bearing, and they may be grown and fruited all summer in the garden, or in pots during the winter. It is unquestionably the greatest Fruit Novelty ever known, and Mr. Burbank has made Mr. John Lewis Childs, of Floral Park, N. Y., the introducer. He says that Mr. Childs is one of the largest, best-known, fairest and most reliable Seedsmen in America. Mr. Childs is advertising seed of the Wonderberry all over the world, and offering great inducements to Agents for taking orders for it. This berry is so fine and valuable, and so easily grown anywhere, that everybody should get it at once.

The Use of a Fat Man.

"I don't know whether I'll like Jack or not when I see him again," said she. "He wrote me he was getting fat. I hate a fat man."

"A fat man's all right," said the boy who was playing cards on the floor, "when a burglar gets in. A fat man will scare a burglar."

"But," she demurred, "I'm not marrying a man just because he's good to scare burglars with, am I?"

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & CO., Toledo, O. CARRIZOZO - NEW MEXICO.

ANDREWS DID IT.

It is not difficult after a thing has happened for some one to say "I told you so!" but we think a number of our republican friends will bear witness to statement we made before and after the the November election, which was: "The people of the east say we are unfit for statehood, and the best evidence for the statement is the election of Andrews as delegate to Congress." Since the death of statehood, the foregoing statement has been conclusively proven. Many assertions have been made along this line, but all lacked the necessary evidence to clinch them. Now, however, comes the evidence straight from the shoulder, from a former Indianan, a life-long republican, who owns a home in the Pecos Valley. In the Roswell Daily Record of March 6th, Mr. W. F. Hale, the man from Indiana, said:

"I was in Indiana two weeks ago today when Senator Beveridge was there, and knowing him to be the power behind the anti-statehood movement, and being interested in New Mexico's advancement, went to him to endeavor to induce him to lend his assistance to the bill in the recent short session. As a basis for my request, I have an acquaintance with the Senator which dates to the time when he first came into prominence in the Hoosier state.

"Upon meeting Senator Beveridge and telling him what I wanted, he replied straight out that he would never be in favor of statehood for New Mexico under the present bill and while it was being pushed by the influence that was back of it. He declared that the bill made wholesale graft in New Mexico possible for the right parties and that if statehood went through at this time it would mean the election of W. H. Andrews as one of the first senators from the new state. And this, he said, he never wanted to see."

The interview ended by Senator Beveridge declaring that he would never favor statehood for New Mexico as long as W. H. Andrews is chosen delegate by its people. What do you think of that, you democrats, who voted for "Andrews and Statehood" last fall? The republicans, in the meantime, will have to look up a new slogan.

Ira O. Wetmore returned Saturday morning from Santa Fe, and left the same afternoon for Three Rivers, where he joined the rush that night for the Mes-calero Indian Reservation. Reports (unofficial) were to the effect that the Reservation had been opened to mineral entry, and over five hundred people entered the reservation on the date mentioned, and hundreds of claims were located.

Silas May, formerly a well known resident of this county but now living in Tucumcari, came very near being the victim of a railroad accident in his home town one day last week. The carriage in which he and some friends were riding was run into by a box car, and the occupants of the carriage were hurled into space and the vehicle smashed into kindling wood. The occupants, by some good stroke of fortune, escaped from the wreck with slight bruises.

W. M. Ferguson, of the Mesa, has, perhaps, one of the prettiest and best homesteads in the county. It is situated in a beautiful vale, surrounded on three sides by majestic pines, which add beauty and shade in summer, and shelter from severe storms in winter. Plenty of good water, a well-cultivated farm, a nice bunch of live stock, unlimited pasture, a good wife and a small half-dozen of as pretty and man-nerly kids as one would meet in a day's walk. Say what you will, there is no life that compares with the farmer's. The merchant and business man grind out the best years of their lives in towns and cities, amidst all kinds of temptations, striving to accumu-late enough money to enable them to retire and live in the country, free from the worry of business, in their old age. But when a farmer moves to a town or city—well, there must be some-thing wrong with him.

D. 1909, term of the Probate Court of Lincoln County, New Mexico, and will be probated at the Court House, at Lincoln, Lincoln County, New Mexico, on said last mentioned date.

Therefore all persons desiring to file any objections to the approval of said paper writing purporting to be said Last Will and Testament of Francisco Vigil, deceased, are hereby required to file the same with the Probate Court within and for Lincoln County, New Mexico, on or before Monday, the 31 day of May, A. D. 1909, or the same will be rejected and not heard.

In Witness Whereof, I have hereunto set my hand and affixed the seal of the Probate Court of Lincoln County, New Mexico, at my office at the Court House, at Lincoln, Lincoln County, New Mexico, this 1st day of March, A. D. 1909.

THREE MEN INJURED.

On Thursday evening three of the crew of the snow plow that left here that morning were severely injured in jumping from the engine. Being partly blinded from the snow they imagined they saw an engine approaching and jumped down an embankment, being severely bruised. They were taken to the hospital at Alamogordo. One of the injured men was a carpenter named Yancy, who had an arm broken in three places and two ribs injured. Fireman Chandler was bruised about the head and face. Brakeman Howard had his skull fractured, and is supposed to be fatally injured.

A special session of congress has been called by President Taft to convene next Monday. The president urges congress to devote its entire attention to a revision of the tariff.

By an oversight, let us hope, President Taft failed to mention New Mexico in his inaugural address. The people may take comfort on the ground that no news is good news.

Arizona refused to be a party to joint statehood two years ago, and now blames this territory for failure to get statehood at this time. From the way the senate committee turned New Mexico down it, at least, does not see any reason to find fault with Arizona in her rejection of joint statehood.

Forfeiture Notice.

To John A. Lenoxx, Sierra Blanca, Texas, and 88912318.

You are hereby notified that I, Jas. E. Hurt, your co-owner in the mining claims known as The Pittsburg Iron Placer, Pittsburg Iron Lode, Pittsburg Iron Lode No. 1, Grant Eastern Iron Lode, and Greenville Iron Lode, situated in the Apache Mining District, Lincoln county, N. M., as appears in the records of Lincoln county, N. M., have expired during and for the years 1907 and 1908, the sum of one thousand (\$1,000) dollars in labor in order to hold said claims under the provisions of Sec. 2324 of the Revised Statutes of the United States.

Therefore, if, within ninety (90) days after the expiration of this publication, you fail or refuse to contribute your proportion of such expenditures, being three hundred and thirty-three dollars and thirty-three cents (\$333.33), together with the cost of this publication, your interest in the aforesaid claims becomes the property of the subscriber, your co-owner.

Better Not Get Dyspepsia

If you can help it. Kodol prevents Dyspepsia, by effectually helping Nature to Relieve Indigestion. But don't trifle with Indigestion.

A great many people who have trifled with indigestion, have been sorry for it—when nervous or chronic dyspepsia resulted, and they have not been able to cure it. Use Kodol and prevent having Dyspepsia.

Everyone is subject to indigestion. Stomach derangement follows stomach abuse, just as naturally and just as surely as a sound and healthy stomach results upon the taking of Kodol.

When you experience sourness of stomach, belching of gas and nauseating fluid, bloated sensation, gnawing pain in the pit of the stomach, heart burn (so-called), diarrhoea, headaches, dullness or chronic tired feeling—you need Kodol. And then the quicker you take Kodol—the better. Eat what you want, let Kodol digest it.

Ordinary pepsin "dyspepsia tablets," physies, etc., are not likely to be of much benefit to you, in digestive ailments. Pepsin is only

a partial digester—and physies are not digesters at all.

Kodol is a perfect digester. If you could see Kodol digesting every particle of food, of all kinds, in the glass test-tubes in our laboratories, you would know this just as well as we do.

Nature and Kodol will always cure a sick stomach—but in order to be cured, the stomach must rest. That is what Kodol does—rests the stomach, while the stomach gets well. Just as simple as A, B, C.

Our Guarantee

Go to your druggist today and get a dollar bottle. Then after you have used the entire contents of the bottle if you can honestly say, that it has not done you any good, return the bottle to the druggist and he will refund your money without question or delay. We will then pay the druggist for the bottle. Don't hesitate, all druggists know that our guarantee is good. This offer applies to the large bottle only and to but one in a family. The large bottle contains 2 1/2 times as much as the fifty cent bottle.

Kodol is prepared at the laboratories of E. C. DeWitt & Co., Chicago.

CAPITAN.

March came in like a lamb, but all this week has been imitating Teddy.

J. O. Nabours was up from his Three Rivers home a couple of days this week.

Harrie Guthrie and C. E. Lane of Ancho were visitors in Carrizozo Wednesday.

The Capitan stage was delayed in the snow drifts beyond the divide yesterday, and was several hours late.

Elmer Lindsey and family have returned to White Oaks, after a two years residence in the Gallina country.

This week's storm means a final farewell to all hopes of a much crop in the mountains. Apples, however, are thought to be safe.

Arthur May, George Ackers and several others of Nogal, were marooned here Wednesday by the windstorm and Thursday by the snow storm.

John W. Owen of Lincoln returned from Kansas City this morning where he had been with a carload of cattle. He stated he saw very little but snow since leaving K. C.

Forest Supervisor Kinney of Capitan who has been unwell for some time, is undergoing a course

of treatment at the Dr. Laws sanatorium at Lincoln. He is reported to be rapidly improving.

Sheep and goat owners in this county and throughout the territory generally are believed to have sustained large losses during the snow storm this week. The loss of cattle is believed to be very small.

Mart L. Goodin, of the I — X ranch, spent Sunday and Monday in Carrizozo. Mart says the range is getting short and the cattle poor in his section, but hopes for sufficient moisture to produce early grass, which will minimize the loss.

Joe Tatti, Wes and Frank Purcella and W. H. Fisher, of the Capitan country, delivered a bunch of cattle to J. H. Charless here Saturday. There were in the shipment eight cars, and they were billed east, for feeding, by the purchaser.

Charles Williamson, who has been employed at the depot the past winter, expects to start to the Palomas Hot Springs next week. His father and mother will come over from Capitan and join Charlie on his way to the Springs.

I. M. Harkey, the goat man, whose camp is about eight miles

south of this town came in yesterday for supplies. He stated that he lost only 12 out of 2,800 head, but if it were not for the hard work of his herders during the storm, who built large fires and cared for the weak ones he might have lost half his herd.

George Eaker was down from the mountains again this week, with another load of cottonwoods. Many of our people are beginning to take an interest in tree planting, and we hope soon to see enough growing trees to attract attention and present an inviting appearance to all who pass this way.

Mildred Peters gave a "poverty" social at the home of her father Saturday night, to which a large number of her school-mates was invited. Morgan Reilly, who presented the most woe-be-gone appearance of the entire aggregation of tattered youngsters, was awarded the "tacky" prize.

William McNew has been nursing a very bad hand the past month. He had something like a felon on his finger at first and he had it lanced repeatedly, until finally blood poison set in, which has caused him many sleepless nights. The injured member is

improving, but has not yet become useful.

The entertainment, to be given by the Amateur Dramatic Club on behalf of the school, will be presented Friday night, March 26th. The programme will appear later. Keep the date in mind, and assist in the good work. The play will be worth the money, and the proceeds will go toward lengthening the school term.

Edgar D. Park, who represents the New Mexico Realty Syndicate of Santa Fe, and who has been in this town for several weeks, will leave in a few days for Capitan and Lincoln. While here he transacted business for his company exceeding \$20,000. It is the intention of the Realty Syndicate to establish an office at this place to handle the business of the adjacent country.

Mrs. Williamson of Capitan, who has been quite sick for some time is reported much better. When strong enough to stand the journey, she intends to go to the Palomas hot springs in Sierra county. She will be accompanied by her husband, also her father, R. L. Herbert. The party will travel overland, and expect to be joined at this place by one or two other relatives.

FOR PERFECT SOUP

SOME RECIPES GUARANTEED TO GIVE GOOD RESULTS.

Nourishing and Inexpensive Food Should Be Served Frequently to Children—Best Method of Preparing the Stock.

Soups should be given to a growing child twice a day. And the soup should be rich in quality and nourishing in ingredients, not a plate of seasoned water. Good soup warms the stomach and thus makes it able to digest solid food. Many mothers argue that the children are tired of soup and will not eat it. This is often accounted for by the fact that the same style of soup is served to them week after week, and the stomach of a child demands a change just as often as that of its parents. The recipes given to-day are for soups that are inexpensive to make and are full of nourishment.

In boiling meat from which to get soup stock, the meat should be put in cold water, allowed to stand a little while, then heated gradually to the boiling point. This extracts all the juice and leaves the meat utterly tasteless. Let the stock get perfectly cold and remove the grease from the top. It is then ready for flavoring.

Chicken soup—If you have boiled a fowl for salad or fricasse, take out three cupsful of the water in which it was cooked. Put this in a porcelain pot, and add to it three slices of carrots cut in cubes or dice, one stock of celery cut in small pieces, half an onion chopped finely, six peppercorns, a bay leaf, if the flavor is liked by the family, and lastly two tablespoonfuls of finely chopped lean boiled ham. Let it all come to a boil gradually, simmer and then strain through a colander and add three tablespoonfuls of boiled rice. If this proves too rich, add a little water.

Scotch Broth—Buy two pounds of mutton from the neck and add to it two quarts of water. Let it stand for an hour. Heat slowly and add half a cup of barley, let it boil and skim again, then simmer for an hour. Add to it half cup of chopped onion, half cup of chopped carrot, half cup of chopped turnips and half cup of celery which have been fried for five minutes in clean drippings. Then let the entire soup simmer for three hours. Season highly, thicken with a little flour and serve with chopped parsley on the top.

Clam Soup—Buy one dozen large clams and scrub the shells, put in pan and add a little water, cover tightly and let them steam open. Remove clams from the shells and chop fine and add one quart of water to clam juice. Let it come to a boil and skim off the scum which will rise to the top. Add tablespoonful of butter, season with pepper. In another saucepan boil one cup of milk and just as you remove the clam soup from the fire ready to serve add the boiled milk.

Salmon Soup—Cut up one large potato and half a large onion into very small pieces, boil in one cup of water. Add red pepper and a dash of Worcestershire sauce and one quart of milk. Just as the milk comes to a boil add one cup of salmon meat and two hard-boiled eggs chopped fine. Serve with large soda crackers which have been buttered and set in the oven to heat.

Doughnuts That Never Fail.

Measure carefully four cups of sifted flour, one teaspoon of cream of tartar, one-half teaspoon of soda, one teaspoon of salt, a little grated nutmeg and sift twice. Beat one egg, add one cup of sugar, one cup of sweet milk. Mix thoroughly and add to the flour mixture. Mix and knead as little as possible. Cut in rings and fry brown in plenty of clean hot lard.

RHEUMATISM PRESCRIPTION

The increased use of "Toris" for rheumatism is causing considerable discussion among the medical fraternity. It is an almost infallible cure when mixed with certain other ingredients and taken properly. The following formula is effective: "To one-half pint of good whiskey add one ounce of Toris Compound and one ounce of Syrup Sarsaparilla Compound. Take in tablespoonful doses before each meal and before retiring."

Toris compound is a product of the laboratories of the Globe Pharmaceutical Co., Chicago, but it as well as the other ingredients can be had from any good druggist.

HOME CURE FOR ECZEMA

Oil of Wintergreen, Thymol, Glycerine, Etc., Used as a Simple Wash.

It really seems strange that so many people suffer year in and year out with eczema, when it is now no longer a secret that oil of wintergreen mixed with thymol, glycerine, etc., makes a wash that is bound to cure.

Old, obstinate cases, it is true, cannot be cured in a few days, but there is absolutely no sufferer from eczema who ever used this simple wash and did not find immediately that wonderfully soothing, calm, cool sensation that comes when the itch is taken away. Instantly upon applying a few drops of the wash the remedy takes effect, the itch is allayed. There is no need of experiment—the patient knows at once. The remedy is known as the D. D. D. Prescription, or Oil of Wintergreen Compound. It is made by the D. D. D. Co. of Chicago, and druggists everywhere know of its merits.

Childhood's Frankness.

A little girl went visiting one day, and after a time was given the album of family photographs to look at. She turned the leaves over carefully, and pretty soon closed the book.

"Well, dear," asked the hostess, "did you look at the album?"

"Oh, yes," answered the little maid, brightly, "and we've got one 'actly like it, only the pictures are prettier!"

WONDERBERRY PLANT.
THREE MONTHS FROM SEED.

THE WONDERBERRY

Luther Burbank's Greatest Creation. A Luscious Berry Ripening in Three Months from Seed. Seed 20 Cts. Per Pkt., 3 Pkts. for 50 Cts., Postpaid

Fruit blue-black like a blueberry in looks and taste. Unsurpassed in flavor, cooked or preserved in any form. The greatest fruit ever introduced and equally valuable in hot, dry, or wet climates. Easiest plant in the world to grow, succeeding anywhere and yielding great masses of rich fruit all summer and fall—and all winter in pots. (As a pot plant it is both ornamental and useful). The greatest boon to the family garden ever known. Everybody can and will grow it. Luther Burbank, of California, the world famous hybridizer, originated this new fruit and turned it over to me to introduce. He says of it: "This absolutely new berry plant is of great interest and value as it bears the most delicious, wholesome and healthful berries in utmost profusion and always comes true from seed."

I AM THE SOLE INTRODUCER AND GENUINE SEED CAN BE HAD NOWHERE ELSE.

FOR 20 CTS. (Silver or Stamps) I will send 1 pkt. Wonderberry seed, 10 pkts. for 50 cts. and my GREAT CATALOGUE which tells all about it and my BIG CASH PRIZES to agents. AGENTS WANTED.

MY GREAT CATALOGUE of Flowers and Vegetable Seed, Bulbs, Plants and Rare and New Fruits FREE to all who apply. 140 pages, 503 illustrations and colored plates. I have been in business 34 years and have half a million customers all over the country. Complete satisfaction guaranteed to everyone. Do not fail to see the many great Novelties I am offering this year of which the WONDERBERRY is the greatest ever known.

Address JOHN LEWIS CHILDS, Floral Park, N. Y.

P. S.—This offer will not appear again. Write for Wonderberry seed, and Catalogue at once. Do not neglect or delay. You can be the first to grow it in your town and make big money selling both berries and seed. I raised 500 quarts from a few plants.

SHOPS OF FLORENCE

QUAINT OLD PLACES ALLURING TO THE TOURIST.

Everything in City is in Artistic or Classic Form—What You Find and How You May Purchase These Fascinating Crafts.

Rome.—The shops of Florence are wonderful, enticing, and numerous. They glitter their gold and silver toys in the open fronts of the little shops, established in the time of Cosmo First, that are set picturesquely on either side of the Ponte Vecchio. Of all the wonders of this wonderful old city of Tuscany this old bridge is the most provocative of thoughts of the past with its glories, its cruel wars, its deeds of blood and of romance. Standing in the loggia its three central arches frame the landscape like pictures. The sunset sky is wonderful. You see the river winding slughishly, now green, now yellow, and the tall, stately buildings bordering the Arno, their graceful arches and colonnades

Old Bridge at Florence.

rising from the water as in Venice—and beyond are the green hills of Val-lombrosa. The shops on the old bridge are set close together, and the sidewalk is so narrow you must continually take to the street to make progress, only to spring nimbly back again to escape being crushed under the wheels of a passing omnibus.

But though the bridge is a medley of human beings, seemingly inextricably mixed with vehicles of all descriptions, no one ever is crushed, nor in any way damaged. You walk in the narrow street or stray carelessly across it, and escape harm, for the movements of all are as leisurely as your own. Precious and semi-precious stones of every size, shape and color are displayed in the little windows of the shops with draping chains of gold and silver, and pink, white and red corals. Crossing the bridge to turn into the Borgo St. Jacopo your ears are deafened by the sound of hammers by which men weld into form pots, dishes and jars of shining brass and copper. This little dark street is lined with fascinating shops. The windows are full of antique treasures. Old church lamps in silver, bronze and brass hang on hooks above the open doors; they sway towards you, invitingly. There are old candlesticks, and Italian, three-wicked lamps like those in use now, where gas or electricity is not. There are shops of wood carvers where you may take lessons in this ancient art, if it pleases you.

Everything in Florence is in artistic or classic form. At the little latticework, where I buy cream for my afternoon tea, it is given me in a little glass bottle shaped like an antique vase. On the Via Maggio there is a marvelous little shop no larger than a good sized room; it is literally crammed with fascinating small things. Old silver lamps, vessels, teapots and vases. Hand-made metal things, all charming and desirable, and not dear, are too numerous to mention. There is antique jewelry in earrings, bracelets and belt clasps. I saw earrings set with a curious dull green stone that could be di-

vided into three balls—slightly oval in shape—they would make charming tips to cravat ends or to those of a bow. There are old rings set with huge stones in a curious metal, neither gold nor silver; and cameos are so plentiful and so cheap that one could easily pick up enough to make a necklace or a tiara at a wonderfully small sum.

It is impossible to give the prices of these things; there is no price that should be accepted; the final price depends on the tact and shrewdness of buyer and seller.

Coveting a wonderful chain of large silver beads, nearly two yards in length, I asked the price; the answer came glibly "venticinque lire, Signora." I offered thirteen lire, but shrugs and up-liftings of hands with vehement head-shakings was the only response. Writing my price on my card I gave it to the man, telling him in case he changed his mind he could send the chain to that address.

He mournfully accepted the card and, without looking at it, laid it on a table and sadly but politely responded to my "Buon giorno." On reaching home two hours afterward, to my joy, I found the chain already there.

WOMAN LAWYER'S FINE FEE.

One Case Said to Have Brought Miss Mary Miller of Chicago \$30,000.

Chicago.—It is something to have earned a \$30,000 fee, but what Miss Mary E. Miller, a Chicago lawyer, has done for the poor is of far more importance to the public. Miss Miller, who has been practicing law in the courts of this city for 13 years, received her largest fee for winning a suit in behalf of the heirs of a millionaire and secured a court order for the immediate distribution of \$3,000,000. It was a triumph that attracted attention to her, but what she considers her real success at the bar was in a suit in which she received no fee whatever. Miss Miller possesses a high sense of eternal justice of right, and when she discovered that the Illinois courts had deprived the poor of their right of "a day in court," she forthwith took up the cause of the pauper and fought to restore to him equal rights before the law with the rich. The case which brought her into the white light was a petition for mandamus, compelling the judge to examine the relator and certain documents presented by her, and to determine whether she could sue as a poor person under the Illinois statutes. The judges of the superior court had enacted a rule regulating suits brought under the statute as poor persons, whom the rule styled "paupers," which was so burdensome and oppressive both to the lawyer and the client that it was naturally impossible to comply with it conscientiously. The rule worked to the benefit of the corporations, traction companies and others against whom personal injury suits were brought, as it deprived many of the opportunity of going into court. Miss Miller won her case for the "poor person," and the supreme court held the unjust rule null and void, overruling the law enacted by the 14 judges of the superior court. Miss Miller thereupon brought suit for her client, a "poor person," and won damages of \$1,000, the verdict, however, being set aside and a second trial called.

Miss Miller is a farmer's daughter and was born on a Michigan farm, in Calhoun county. Possessing a hunger for education, she attended the district school, the high school, the Ypsilanti Normal school, a well-known business college, and the Chicago College of Law, receiving a degree from the latter. To defray her expenses she taught school and later became a stenographer in order to attend night school in Chicago and study law, being admitted to the Illinois bar in 1895. There is hardly any branch of law that this enterprising young woman has not undertaken. Miss Miller is prominent in the woman suffrage movement. Her success is bound to give encouragement to her sex who are contemplating the law as a profession.

OFTEN THE CASE.

Women Struggle Hopelessly Along, Suffering Backache, Dizzy Spells, Languor, Etc.

Women have so much to go through in life that it's a pity there is so much suffering from backache and other common curable kidney ills. If you suffer so, profit by this woman's example: Mrs. Martin Douglass, 52 Cedar St., Kingston, N. Y., says: "I had a lame, aching back, dizzy spells, headaches, and a feeling of languor. Part of the time I could not attend to my work and irregularity of the kidney secretions was annoying. Doan's Kidney Pills brought me prompt relief." Sold by all dealers. 50c a box. A Difference in Degree.

"I just love cake," said Johnnie, feelingly. "It's awful nice." "You should not say 'love' cake," corrected his mother. "You should say 'like.' And do not say 'awful'—say 'very.' And say 'good' instead of 'nice.' Now see if you can repeat the sentence correctly." "I like cake," repeated Johnnie. "It's very good." "That's better." "I know, ma," complained Johnnie, "but it sounds just as if I was talkin' 'bout bread."—Everybody.

Editorial Verdict.

From a serious-minded jester the editor received this note, together with a consignment of humor that was heavy enough to go by freight:

"Dear Sir: I read all these jokes to my wife, and she laughed heartily. Now, I have it on good authority that when a man's wife will laugh at his jokes they are bound to be very good—or she is. Yours, etc."

The editor slipped them into the return envelope with the letter, after writing on the margin: "She is."

Took It Out on the Boy.

"What, you want a dollar for spending money?" exclaimed Mr. Tytes. "Look here, young man, when I was a boy my father never gave me a dollar to spend foolishly. I was taught to consider myself lucky if I got a nickel."

"Well," protested Bobby, "you don't need to jump on me about it. Tell your troubles to grandpa."

JOY WORK

And the Other Kind.

Did you ever stand on a prominent corner at an early morning hour and watch the throngs of people on their way to work? Noting the number who were forcing themselves along because it meant their daily bread, and the others cheerfully and eagerly pursuing their way because of love of their work.

It is a fact that one's food has much to do with it. As an example:

If an engine has poor oil, or a boiler is fired with poor coal, a bad result is certain, isn't it?

Treating your stomach right is the keystone that sustains the arch of health's temple and you will find "Grape-Nuts" as a daily food is the most nourishing and beneficial you can use.

We have thousands of testimonials, real genuine little heart throbs, from people who simply tried Grape-Nuts out of curiosity—as a last resort—with the result that prompted the testimonial.

If you have never tried Grape-Nuts it's worth while to give it a fair impartial trial. Remember there are millions eating Grape-Nuts every day—they know, and we know if you will use Grape-Nuts every morning your work is more likely to be joy-work, because you can keep well, and with the brain well nourished work is a joy. Read the "Road to Wellville" in every package—"There's a Reason."

RAILROAD AND SHOP NOTES.

Conductor Hale returned to his regular run a few days ago, after having recovered from an injury he received at Coyote some three weeks ago.

The force at the shops is gradually being increased. New men are being added, and as business continues to grow the force will soon assume old-time proportions.

Engineer Harris, who was injured at Coyote three weeks ago, by having been struck by a water crane, has returned to duty, and now pulls the throttle on engine 163.

Engine 219, which has been in the shops undergoing repairs, was put into service Tuesday.

Engine 176 is in the shops for repairs, but will be ready or duty in a few days.

Additional engineers and crews have been put on the division between Carrizozo and Duran, to handle the increased business. There are now ten crews on this division, and all of them going on full time.

The round house and yards present a busy scene, especially at night. The average number of engines handled on the night shift being fifteen engines in and the same number out. Sunday night Jack Kuhns, the night foreman, was kept on the move, taking in nineteen engines and turning out fourteen. Thirteen train crews and fourteen engine crews were called, a double-header being run on one fruit train.

The snowfall the past few days and nights has made it difficult, at times impossible, to turn an engine on the turntable. The wind drifts the snow around the table, and holds it fast.

Few were prepared for the severe storm of this week, particularly at the end of such a mild winter. Those who were looking for an early spring and had no coal reserved had a rather uncomfortable time of it.

During the wind storm Wednesday a large plate glass window in J. R. Humphrey's jewelry store was blown in. To make bad matters worse, it snowed that night, and by morning there was a foot or two of the beautiful in the store.

Farming on the Mesa is well under way. Lands have been plowed and harrowed, and are in receptive condition for seeding. Considerable more land will be cultivated this spring in Lincoln county than any year in its history. The crops most favored by the highland farmers, and the ones that thrive best, are corn, oats, barley, beans and potatoes. Large crops are anticipated this year.
