Thank You for your continuous support of our Annual NON-PROFIT event for our Youth Scholarship Fund.

Estancia Rotary Punkin Chunkin is a unique event that raises money to help students pay for college in the local community by showcasing custom built mechanical machines that launch pumpkins through the air and are judged on distance and accuracy. This is an event you have to see to believe. We have over 15 launchers of all shapes and sizes that compete every year. With attendance at its highest last year, we hope that you will join us this year to not only see the launching of the pumpkins but also help launch students on the right path for success.

The Partnership for a Healthy Torrance County will have information booths to promote county trails, have sign-up sheets for participants to join local walking groups, and hopefully have hosted walks during the event.
