CARRIZOZO NEWS.

A Journal Devoted to the Interests of Lincoln County.

VOLUME 10

CARRIZOZO, LINCOLN COUNTY, NEW MEXICO, APRIL 2, 1909.

NUMBER 5

A REVISION UPWARDS.

The national republican platform called for a revision of the tariff: the republican orators also declared during the campaign that the Dingley tariff law had outlived its usefulness and that the rates should be reduced, and Mr. Taft announced that, if elected president, he would call congress in special session immediately after the inauguration and recommend a revision. Mr. Taft was elected; and soon after his inauguration fulfilled his promise by calling an extra session of congress. In his message to congress the president urged prompt action on the tariff, in fact, suggested that the entire session be devoted to the consideration of a tariff measure. The cost of living had gone skyward and the expenditures are growing over receipts to such an extent that the deficiency by next July will be \$100,000,000.00; therefore, it became necessary for quick action.

Accordingly Chairman Payne of the Ways and Means Committee in the house, where all revenue bills must originate, was ready with his little bill. Upon the presentation of the bill, an awaiting world was informed that the measure would produce a larger amount of revenue than the one now on the statutes, and at the same time reduce the rates on various articles of import. This is partially true, but, unfortunately, the reductions in many instances are upon luxuries, while on many of the commonest necessities of life the rate is increased. A comparison of rates on necessities and luxuries may be gleaned from the following, which is a fair sample and plainly stated, which shows the poor man that, even in the purchase of his wife's stockings, he must pay tribute to the tariff barons:

In the Payne bill, a hose costing, including the manufacturer's profit, 8 1-3 cents per pair in Germany will, if the wholesaler and retailer are to get their legitimate profit, be retailed for not less than 29 cents per pair, or 350 per cent above the manufacturer's selling price. This in a bill that is supposed to reduce the tariff, particularly on the necessities of life. Hosiery is an absolute necessity, wine and champagne are luxuries, yet a hose that now retails at 25 cents per pair pays 85 per cent duty under

this new bill, while champagne that retails at \$4.00 per quart only pays 66 2-3 cents per quart. Everybody but those who bathe in champagne should kick and kick hard, not only against the proposed increases, but to have the present high Dingley rates reduced at least 20 per cent.

We have long believed and oftentimes asserted that the republican idea of tariff taxation was inimical to the poor man's interest, and submit the above as a basis for such a belief. Our republican friends, however, may answer that they drink champagne only, take regular baths in that sparkling fluid and that their wives wear silk stockings altogether; and an unprejudiced observer, weighing the policy of republican taxation and casting up the vote at quadrennial elections, is excusable if he reaches the conclusion that the majority of the people in this country belong to the "silk-stockings."

"THE CHEERFUL LIAR."

"The Cheerful Liar" will be given at Wetmore Hall on the evening of the 9th of April. The play is a strong comedy, having run a long season on the professional stage, by John Dillon, a distinguished comedian. Music will be furnished by the local male quartette, and Miss Garrett, a noted blind musician, daughter of the late Pat Garrett, and known to many people in this town. No effort is being spared to give the best entertainment ever given in Carrizozo. The proceeds will go to the school fund, but those who attend can rest assured they will get their money's worth. Tickets will be on sale at Canning's store on the 8th inst. Out of town guests may have seats reserved by mail.

OSCURO TO HAVE BLOW-OUT.

The new building of Postmaster Ashford, of Oscuro, which will be used as a store building and in which the postoffice will also be conducted, is nearing completion, and the P.M. has extended invitations to Carrizozo people to be present on the evening of the 6th, to enjoy a dance to be given in the new building. The building is a commodious one, of sufficient proportions to meet the requirements of the occasion, and the genial Oscuro postmaster will leave no stone unturned that will add to the pleasure of his guests.

CARRIZOZO - NEW MEXICO

Mr. Root and the Jews.

Judge Mayer Sulzberger, president of the American Jewish committee, says of the letter addressed by the secretary of state to Mr. Jacob H. Schiff: "The letter of Secretary Root is the most important advance that has been made by our government to protect the rights of Jewish citizens of this country in Russia. For 40 years there has been more or less diplomatic writing ending in nothing practical. At last Secretary Root has boldly taken the position that Russia must observe the treaty of 1832, or otherwise this government will terminate it and the treaty of 1887, and thus leave Russia and ourselves without any treaty. The letter of Mr. Root shows all this. Though veiled in the polite phraseology of diplomatic intercourse, it is perfectly plain to the Russian government. I think that this is the beginning of the end of the passport question, which is big with possibilities for the benefit not only of American Jews, but also Jews in Russia. The country owes a debt of gratitude to President Roosevelt, to Secretary Root and to the whole administration for their manly insistence on the rights of American Jews."

Astronomers are beginning to interest themselves in the reappearance of Halley's comet. This is the famous comet that blazed through the heavens in 1456, at about the time the Turks became masters of Constantinople. In those times it was thought that comets portended disaster, and the good people of Christian Europe inserted a prayer in their liturgy that they might be saved from "the devil, the Turk and the comet." In 1680 Edmund Halley, an English astronomer, predicted the reappearance of the comet of 1456, and conjectured that it was the same as that which had been seen in 1531 and 1607. His prediction was verified in 1682, and the comet has since been known by his name. It is next due some time between 1910 and 1912, as it last visited the solar system in 1835, and has a period of about 76 years. Of the short period comets, Halley's takes the longest to complete its orbit. The comet of 1844 has so great an orbit that it is estimated that its visits to our system occur at intervals of a hundred thousand years.

One expects better things from an emperor than to set an evil example to his people. The German emperor, nevertheless, appears to be guilty. When he visited the North Cape, the most northerly point of Europe, a few summers ago, the desire to record his visit led him to order the name of his yacht, the Hohenzollern, to be painted in letters 15 feet long on the rocky cliff which forms the face of the cape. Various German shipping firms which carry tourists to the cape were quick to seize the example by painting the names of their vessels. Commercial houses followed, and now the face of North Cape is said to be a huge advertising sign-board.

The house of commons is getting more than its fair share of trouble. If present plans are carried out, it will be mobbed by both suffragettes and the unemployed. It will be equal almost to the old-fashioned sport of bull-baiting.

CONFECTION SUKE TO PLEASE.

Marrons Confits, However, Require Some Skill in Preparation.

Three-quarters of a cupful of whipping cream, six glace chestnuts, six candied violets, six macaroons, one tablespoonful of powdered gelatine, one tablespoonful of brandy, one tablespoonful of Maraschino, sugar to taste, a little water, a few pistachio nuts and the whites of two eggs.

Cut the chestnuts and macaroons into small pieces; put them into a dish with the brandy and Maraschino and let them soak. Whip up the cream; add the violets cut in pieces and the sugar.

Dissolve the gelatine in a quarter of a cupful of water and strain that in. Beat the whites of the eggs stiffly, add sugar to taste and stir it lightly to the mixture.

Have ready eight small paper cases, Pin a band of notepaper, coming an inch or more above the case, tightly round each. Pour in the mixture; put them in a cool place to set. Then draw off the paper.

Decorate each prettily with whipped cream. Sprinkle a few chopped violets on some and chopped pistachio puts on others.

Gold and Silver Cakes.

This is exceedingly tender and delicious when made of sour cream. It may be baked in layers or in a loaf putting the white and yellow batters in streaks like a marble cake. For the yellow part, beat to a cream the yolks of four eggs, then add a cupful sugar and beat again. Add three-fourths of a cup thick sour cream into which has been stirred a half teaspoonful soda. Next fold in a cup and three-quarters of pastry flour that has been sifted several times over and flavor with a grated yellow rind of orange and a teaspoonful orange juice or less of the extract. For the silver cake, mix a cupful sugar with a half cup sour cream, adding a scant half teaspoonful soda and a cup and three-quarters of flour. Lastly, fold in the stiffly beaten whipped whites of four eggs and flavor with a little lemon. Bake in a bread tin lined with buttered paper, putting in the batter in alternate spoonfuls. Bake in a steady, moderate oven, and when cold ice with a plain white icing flavored with lemon or orange.

Fancy Blanc Mange.

Heat 1½ cups milk in a double boiler. Mix four level tablespoons of cornstarch with one-half cup of cold milk and stir into the hot milk. Cook five minutes, stirring constantly to keep the mixture smooth. Then add one-third cup of sugar and cook five minutes more. Beat the whites of three eggs until stiff and stir into the cornstarch lightly. Add flavoring. Take a spoonful of this mixture in a cup, add a speck of color, either yellow or green sufficient to give a delicate tint. Put this in the bottom of the mold after rinsing the mold in cold water. In a few minutes pour the rest in the mold. Set away to harden. Make a boiled custard with the yolks of the three eggs, one pint of milk, one-third cup of sugar. Cook until it begins to thicken. Flavor.

Currant Fritters.

One and one-half cupfuls fine bread crumbs, 1½ cupfuls sweet milk, two-thirds cupful of flour, half teaspoonful baking powder, quarter of a pound of thoroughly washed currants, two eggs, two tablespoonfuls sugar, a small lump butter. Mix all together, flavor with little nutmeg and cinnamon, and drop in spoonfuls in boiling lard and fry a nice brown.

Mock Fish Chowder.

Fry pork and onions, then remove. Dice the potatoes and put them in with enough water to cook, then add milk. Let it all come to a boil, stir in three egg yolks well beaten, then pour in the whites whole, which cooks and looks like pieces of fish. I take a quart of milk and part water. Less eggs if they are scarce.

BROKEN REST.

A Back That Aches All Day Disturbs Sleep at Night.

Thomas N. McCullough, 321 So. Weber St., Colorado Springs, Colo., says: "Attacks of backache and kidney trouble began to come on me, lasting often for three weeks at a time, and I would be unable to turn in bed. The urine was much disordered, containing sediment, and my rest was broken at night. Relief from these troubles came soon after I started taking Doan's Kidney Pills, and continued treatment entirely freed me from kidney trouble. The cure has been permanent."

GOOD CHANGE

Coffee to Postum.

The large army of persons who have found relief from many chronic ailments by changing from coffee to Postum as a daily beverage, is growing each day.

It is only a simple question of trying it for oneself in order to know the joy of returning health as realized by an ill, young lady. She writes:

"I had been a coffee drinker nearly all my life and it affected my stomach—caused insomnia and I was seldom without a headache. I had heard about Postum and how beneficial it was, so concluded to quit coffee and try it."

"I was delighted with the change. I can now sleep well and seldom ever have headache. My stomach has gotten strong and I can eat without suffering afterwards. I think my whole system greatly benefited by Postum."

"My brother also suffered from stomach trouble while he drank coffee, but now, since using Postum he feels so much better he would not go back to coffee for anything."

Name given by Postum Co., Battle Creek, Mich. Read "The Road to Wellville," in pkgs. "There's a Reason."

FRANK A. VANDERLIP

BRIEF LIFE STORY OF HEAD OF COUNTRY'S BIGGEST BANK.

Rise of Young Machinist to President Leading Financial Institution—Assistant Secretary of Treasury Under Gage.

New York.—The recent election of Frank A. Vanderlip to the presidency of the National City Bank of New York, recalls one of the most picturesque stories of persevering up-hill work ever related of a poor American boy. Thirty years ago, Vanderlip was plodding away in a machine shop out west, at 75 cents a day. His father had just died in Indiana, leaving a widow and her family with nothing but a farm and a few hundred dollars. The farm could not be worked to ad-

Frank A. Vanderlip.

vantage, so the young man took the place in the machine shop as the only means of supporting the family. He went at it like a Trojan—he still works that way—and, after a ten-hour day, came home to plod a portion of the night over a short-hand text-book.

That made him a competent stenographer and soon gave him a position with a Chicago investment house at \$10 a week. In the days when his companions of after life were enjoying the football matches of Harvard and Yale young Vanderlip was digging away at dry old railroad reports. In that way he acquired statistical knowledge and learned how to go to the bottom of things.

After saving a little money he took a year's course at the University of Illinois and later when serving as a newspaper reporter in Chicago, he supplemented this course by attending lectures at the University of Chicago. Most of his education, however, was acquired in the "university of the wide, wide world."

Finally young Vanderlip became financial editor of a leading Chicago paper and soon took rank as one of the best financial writers in the country. He bought a part interest in the Chicago Economist in 1894, and served as an associate editor of that journal until March 1, 1897, when Lyman J. Gage, who was then president of the First National bank of Chicago, was appointed secretary of the treasury. Mr. Gage asked Mr. Vanderlip to go to Washington as his private secretary. This position he retained for only three months, after which he became assistant secretary of the treasury, on June 1, 1897.

The next year he distinguished himself by his organization of the treasury forces for the great work connected with the war loan of 1898, when 325,000 separate bids were received for the \$200,000,000 popular issue. The treasury had to take on 600 extra employees for the task, which was handled with great dispatch. Mr. Gage, speaking later of Mr. Vanderlip's work in the treasury department, said:

"He has great initiative, possesses

the power of action beyond anything I have ever seen in any man. He works quietly and with great speed. He handles men admirably, and seems to know what to do every time. No one knows how he does things, for Vanderlip has a way of simply going and doing what he has to do quietly, without letting any one know about it until it's all done. He has the sort of force that counts. Then, again, he has such a pleasant way of saying no that people are not offended by a refusal."

In 1901 Mr. Vanderlip became a vice president of the National City Bank, and on concluding, a few months ago to retire from active service and become chairman of the board, Mr. Stillman selected Mr. Vanderlip as his successor for the presidency. So this is how the young machinist, who was born at Aurora, Ill., only 44 years ago, has risen to the presidency of the largest bank in the United States.

NEW WAVE MOTOR INVENTED.

If Successful May Operate Government Lighthouses Without Fuel.

Atlantic City, N. J.—Not only national but international interest is being manifested in the demonstration to be made at Atlantic City in a few days of the feasibility of utilizing the limitless force of the sea in the production of power for light, heating and other present day needs.

Inventors have been trying to harness this enormous energy which has been going to waste throughout all the centuries, but they all attacked the problem from the wrong side; that is, they all made use of plungers, which, by rising and falling with the waves would impart their power to a wheel, but no practicable machine was ever built, and people came to the conclusion that the problem was impossible of solution. But engineers who have tested the wave motors invented by William Snee of Pittsburg, Pa., state that these motors will do the work for which they are intended.

Models of various sizes have been made and the experiments have proved such an unqualified success that two 61-ton motors have been installed at the end of Young's pier at Atlantic City, and the power obtained will be utilized to make the pier and beach one great blaze of light.

The wave motor seems to be an amphibious machine, for it works as well on the land as it does in the wa-

Wave Motor in Lighthouse.

ter. This feature was tested recently at Pittsburg and the motor proved itself to be 20 per cent. more sensitive to the currents of the air than the anemometer, the same principle that harmonizes the conflicting forces of water within the outside wheel harmonizing likewise conflicting forces of wind. Furthermore, in contrast with the fan tail windmill, there need be no fear of destruction or injury, no matter how great the velocity of the wind.

This discovery naturally suggested the idea of using both the wind and wave motors in government lighthouses, the matter was brought to the attention of the government officials and an investigation is being made.

AFTER FOUR YEARS OF MISERY

Cured by Lydia E. Pinkham's Vegetable Compound

Baltimore, Md.—"For four years my life was a misery to me. I suffered

from irregularities, terrible dragging sensations, extreme nervousness, and that all gone feeling in my stomach. I had given up hope of ever being well when I began to take Lydia E. Pinkham's Vegetable Compound. Then I felt as though new life had been

given me, and I am recommending it to all my friends."—Mrs. W. S. Ford, 1938 Lansdowne St., Baltimore, Md.

The most successful remedy in this country for the cure of all forms of female complaints is Lydia E. Pinkham's Vegetable Compound. It has stood the test of years and to-day is more widely and successfully used than any other female remedy. It has cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, and nervous prostration, after all other means had failed.

If you are suffering from any of these ailments, don't give up hope until you have given Lydia E. Pinkham's Vegetable Compound a trial.

If you would like special advice write to Mrs. Pinkham, Lynn, Mass., for it. She has guided thousands to health, free of charge.

FOR A NATIONAL SANATORIUM.

The press dispatches tell of a proposition introduced in the national house of representatives to appropriate a quarter of million of dollars for the erection and maintenance of a national tuberculosis sanatorium. The proposition comes from a Colorado congressman, and, of course, the Centennial State is to furnish the site for the institution.

It has been suggested by one of our readers that we get busy and ask congress to establish an institution of that character in New Mexico, right in the mountains of Lincoln county! We have a much more favorable climate for the treatment of tuberculosis than our northern neighbor—do not have such rigorous winters, and our summers, tempered by altitude, are ideal.

Then, too, it would only be just for the United States to locate a public institution in our county; for, although we are one of the oldest counties in the territory, no appropriation has ever been made for this county, nor can we boast of a single public institution, the territorial legislature, apparently, having no knowledge of our existence, except the semi-annual dates upon which our taxes become due.

Again, we now have a man in congress who "does things," who has the solid Pennsylvania delegation behind him, not to mention his following in Minnesota, Indiana, Rhode Island and the entire group of New England states, for that matter; and we feel quite sure that all we will have to do will be to make the proper representations to our delegate, and the thing is as good as done. We have the goods, we want the institution, and Mr. Andrews should be notified at once. And while discussing our wants, let us not forget that our time is short, for Mr. Andrews' resignation is expected at any time; and if we do not get properly started before that disaster overwhelms us we are goners.

INDIAN OUTBREAK.

A bunch of Creek Indians, half breed negroes and negroes banded together in Oklahoma, resisted arrest and killed a number of officers. The state militia was called out, hemmed the red and black devils in the mountains and captured a number of the leaders. One report is that the head of the uprising, Chief Crazy Snake, was captured; another is that he eluded the cordon of troops surrounding him and escaped. Complications may arise between the state and federal authorities as to the disposition of questions growing out of, or causing, the insurrection.

Geo. L. Ulrick returned the first of the week from a visit to El Paso. Mr. Ulrick to the Pass City yesterday.

T. C. Jacobs and son, Kirk, who live on the north side of the Capitan mountains, passed through Carrizozo Saturday, on their way to Bisbee, Arizona, by the overland route. The object of the trip is to seek a new range for stock, but they will go as far as Bisbee to see two of Mr. Jacob's sons, Roy and Harry, who are employed there.

M. M. Horneland, of Langford, South Dakota, was in Carrizozo this week, looking over the country, with a view of locating. Mr. Horneland was quite favorably impressed with the resources of the country, and particularly with reference to its mineral possibilities. He showed his good faith by investing in some mining property before returning home.

J. F. Kimbell, general foreman at the round house and shops, has been quite ill the past week, and he is not even yet in the convalescent stage.

The ball given last night by the base ball boys at Wetmore hall was well attended. The boys deserve the assistance of the people of the town, and appreciate all aid tendered.

Roy Cofer has charge of the railroad men's club rooms, which have been neatly fitted up and in which are to be found magazines, periodicals, etc. Roy also caters to lovers of the weed, by keeping a nice line of cigars and tobaccos.

The El Paso Daily News suspended publication on the last day of March. It has been rumored for some time that its owner, Felix Martinez, intended to move the plant to Albuquerque, provided the democrats of that city lent assistance. A paper is published in the interest of its friends and naturally looks to its friends for support.

A. R. Gschwind and wife were visitors from Oscuro Monday.

David Saunders and M. I. Jackson were up from Oscuro yesterday.

Jones Taliaferro and J. C. Kleppinger were down from White Oaks Monday.

Harry Little and B. F. Goff are in White Oaks, building a cyanide tank for the Wild Cat Leasing company.

Attorney George B. Barber returned to Lincoln Monday after having spent several days in Carrizozo on matters of legal import.

Miss Josie Clements arrived Wednesday, and will spend two weeks here, the guest of her friend, Miss Gertrude Kelley.

April was ushered in with a heavy hoar frost, causing many who thought that old King Frost had departed, to ring up the coal man once more.

County Assessor Hurt was in Carrizozo several days this week in his official capacity. His next and final visit will be on the first day of May.

School will open at Nogal Monday, with Sam Kelsey in charge. Mr. Kelsey has just closed a successful term at Bonito, where he has been engaged during the past winter.

Geo. B. Johnson went to the Alamogordo hospital Tuesday. He returned to work Monday, after a week's illness, but became worse and went to the hospital.

A regular communication of the Carrizozo lodge A. F. & A. M. will be held Saturday evening, 3rd inst. All Master Masons are invited to be present.

Tree planting has been in progress in the town the past month, and the streets and residences will present an improved appearance when the trees get in full leaf.

Several employes of the Southwestern have been arrested the past week by the Immigration authorities on the charge of smuggling Chinese into this country.

Miss Nellie McMains had to abandon her place, temporarily, in the Carrizozo Trading Co. store this week, on account of illness. Miss Abbye Meek fills the position in the store.

Thos. J. Moore, the Nogal merchant, was down yesterday. He reports business rather slow in his town, but with prospects of considerable mining activity in the near future.

Edward Massie and Peter N. Skow have purchased the Carri-

zozo Meat Market from Will G. Rawls, who has conducted that popular market the past six months. Mr. Rawls may go into the sheep business, if he can find a suitable ranch for that purpose.

There are quite a large number of people in this vicinity suffering from a peculiar variety of influenza, which begins with an intermittent headache, loss of appetite, and leaves the patient very sick for weeks.

George C. Hopkins, who owns several valuable mining claims about seven miles southwest of this town, spent several days here this week. Judging from the samples of the ore which he displayed, Mr. Hopkins has exceptionally fine gold and copper properties, and right at the door of Carrizozo.

Lois, the little daughter of Mr. and Mrs. R. C. Skinner, mention of whose illness was made in last week's News, died last Saturday afternoon, and was buried the following day in the local cemetery. The sympathy of town and community are with the parents in their sad bereavement.

W. H. Hurt, who has resided at Bonito the past two years, passed through Carrizozo Monday on his way to Lordsburg,

New Mexico. Mr. Hurt went to look into a mining proposition in which he is interested, and may remain and take charge of the development of the property.

Work on the residence of Clarence Spence, at the north end of Main street, is in progress. All the brick are on the ground, and the walls are going up. The building is to be a two-story one, seven rooms, and when completed will be one of the handsomest and most attractive residences in the town.

W. M. Reily received his commission as postmaster at this place, by wire from Washington, on the 31st, with instructions to take charge of the office on the first. Mr. Reily, accordingly, assumed charge of the office yesterday morning. Mrs. Hattie Pons and Miss Georgia Lesnet are the assistants under the new regime.

H. C. Crary came down from White Oaks Monday, and took that day's No. 3 for Los Angeles, where he went to enter the Soldier's Home. Mr. Crary and his wife came to White Oaks ten years ago. Mrs. Crary died last fall, and Mr. Crary, who is quite old and feeble, decided to spend his remaining days in the Soldier's Home.

NOT FOR HIM.

IN AGONY WITH ECZEMA.

Whole Body a Mass of Raw, Bleeding, Torturing Humor—Hoped Death Would End Fearful Suffering.

In Despair; Cured by Cuticura.

"Words cannot describe the terrible eczema I suffered with. It broke out on my head and kept spreading until it covered my whole body. I was almost a solid mass of sores from head to foot. I looked more like a piece of raw beef than a human being. The pain and agony endured seemed more than I could bear. Blood and pus oozed from the great sore on my scalp, from under my finger nails, and nearly all over my body. My ears were so crusted and swollen I was afraid they would break off. Every hair in my head fell out. I could not sit down, for my clothes would stick to the raw and bleeding flesh, making me cry out from the pain. My family doctor did all he could, but I got worse and worse. My condition was awful. I did not think I could live, and wanted death to come and end my frightful sufferings."

"In this condition my mother-in-law begged me to try the Cuticura Remedies. I said I would, but had no hope of recovery. But oh, what blessed relief I experienced after applying Cuticura Ointment. It cooled the bleeding and itching flesh and brought me the first real sleep I had had in weeks. It was as grateful as ice to a burning tongue. I would bathe with warm water and Cuticura Soap, then apply the Ointment freely. I also took Cuticura Resolvent for the blood. In a short time the sores stopped running, the flesh began to heal, and I knew I was to get well again. Then the hair on my head began to grow, and in a short time I was completely cured. I wish I could tell everybody who has eczema to use Cuticura. Mrs. Wm. Hunt, 135 Thomas St., Newark, N. J., Sept. 28, 1908."

NOVELTY ON BREAKFAST TABLE.

Hasty Pudding Recommended by Gastronomic Authority.

The national food magazine, What to Eat, says that hasty pudding, properly made and cooked at a low temperature for five or six hours, or over night in a fireless cooker is one of the most delicious, highly nutritious breakfast foods which can be served; the six generous portions prepared by this recipe served with thin or "berry cream" will not exceed in cost 16 cents; and it contains every element to support life, promote growth and repair waste, at a minimum cost. If milk is substituted for the cream the cost will be still less, with little change in the food value—the fat content only being reduced.

Put one quart of boiling water in top of the double boiler, add one and one-half teaspoonfuls salt, mix two cups yellow or white corn meal with two cups of cold milk, stir this slowly into the boiling water, boil five minutes, stirring constantly, then place vessel over hot water, let cook three hours, stirring occasionally to prevent mush from lumping. The longer it steams the more delicious the flavor; serve with milk or cream.

If white and yellow corn meal is made into hasty pudding in separate vessels, then packed in alternate layers in a brick-shaped mold, then sliced cold and served with cream, it makes a very attractive dish.

The Home.

When blowing out a candle hold it high and blow upward to keep the grease from running about.

Table linen, in order to bring out the bright gloss that makes it attractive, should be dampened considerably before being ironed.

Pieces of old velvet should be washed and used for polishing. They are an excellent substitute for chamol leather and may be washed as easily as an ordinary duster.

Candle ends melted with an equal quantity of turpentine added make an excellent polish for floors, oilcloths, etc. This polish costs almost nothing and is often considered superior to beeswax and turpentine.

Every housekeeper knows how difficult it is to clean under cabinets and dressers when you have waxed floors and do not want to move the furniture and leave marks from the rollers. By taking out the bottom drawers one can clean the floors perfectly.

To clean painted walls dissolve two ounces of borax in two quarts of water and add one tablespoonful of ammonia. Use half this quantity to each bucket of water; do not use soap. Wash a small amount of the paint at a time and rub dry with a clean cloth.

Checkerboard Cake.

Light Part—One and one-half cups of white sugar, one-half cup of butter, one-half cup of sweet milk, whites of four eggs, one teaspoonful of vanilla, two teaspoonfuls baking powder in two cups of white flour. Dark Part—One cup of brown sugar, one-fourth cup of butter, one-half cup of sweet milk, yolks of four eggs, two teaspoonfuls of baking powder in two cups of white flour, one teaspoonful of cinnamon, one-half teaspoonful of cloves, one-half nutmeg. Mix the dry spices, baking powder and flour together. Now place a spoonful of dark in the center of your jelly pan, then a ring of white, then dark again, so on, till pan is filled. Next pan out a light center, a dark ring, then light again, so on, till the pan is filled, then alternate layers.

Popular Luncheon Dish.

A luncheon dish very popular in Mexico is made by warming large, square salted crackers in the oven and placing on each cracker a large tablespoonful or two of baked beans and catsup, heated with butter and highly seasoned.

FEW TABLE TRIFLES

TIDBITS SATISFACTORY TO THE
EPICURE.

Chopped Figs, Added to Nut and Apple Salad, Makes Distinct Improvement—Crystallized Mint Leaves Made at Home.

Crystallized mint leaves, which come rather high so far as price is concerned, though weighing very light, may be made at home from the mint which the butcher furnishes. Make a sirup with half as much water as granulated sugar and a trace of cream of tartar. Boil the sirup until it is at just the point of discoloring but not until it discolors. Then scrape the sugar from the sides of the dish and stand the pan at once in another one of cold water to stop the cooking. Remove it while still hot and dip the leaves into the sirup, one by one, straightening each one out and placing it on oiled paper. The leaves are a delicious accompaniment of afternoon tea with the bonbons, and give a frosty look to the bonbon dish. Fruits and nuts may be crystallized in the same way.

Try adding chopped figs to a nut and apple salad. The flavor is immensely improved. Not much of the fig is used; just enough to give a suspicion of spicy sweetness.

Parmesan cheese sprinkled thickly over stewed tomatoes that are later browned in a baking dish gives them an added zest.

Chocolate russe is both more appetizing and less sickening if it is flavored with sherry. This should be stirred in carefully or the cream will curdle.

Bread pudding takes on new dignity when it is flavored with chocolate. Make a chocolate custard and put it in a baking dish with alternate layers of bread. This can be eaten either with or without cream.

Mince meat is much better for standing several weeks before using. It should not be kept over summer, however, as it soon spoils.

Waffles are much lighter if made with sour cream and the batter kept rather thin. To eat with them, try chicken gravy or cinnamon and sugar mixed, or lumps of maple sugar melted down and served hot.

Souffle Balls.

The souffle balls that are used with sorrel or any cream soups are made in this wise: Cook together half a cupful of milk and a tablespoonful of butter. The moment this mixture reaches the boiling point add a scant one-half cupful of sifted flour and beat until the paste can be pressed with the finger without its sticking. Take from the fire and cool for about ten minutes. Then add two eggs, beating in one after the other. Dust the molding lightly with flour, lay the paste upon it and roll out until a little thicker than vermicelli. Cut into balls about the size of marrowfat peas and fry in boiling hot fat. They will swell up into tender hollow souffles and should be allowed to color a delicate brown.

Chile Con Carne.

Remove the seeds from two red peppers, place the skins in a pint of water and let them simmer until so soft that they can be worked to a paste with the fingers. Work the skins and liquor smooth; add a tiny pinch of salt, an onion minced, and a clove of garlic, also minced. Thicken the sauce with a heaping teaspoonful of flour moistened with three teaspoonfuls of milk. Now stir in three cupfuls of chicken, beef, or veal, cooked and chopped fine. Serve on lettuce leaves with a border of frijoles (beans) around the meat.

The Exceptional Equipment

of the California Fig Syrup Co. and the scientific attainments of its chemists have rendered possible the production of Syrup of Figs and Elixir of Senna, in all of its excellence, by obtaining the pure medicinal principles of plants known to act most beneficially and combining them most skillfully, in the right proportions, with its wholesome and refreshing Syrup of California Figs.

As there is only one genuine Syrup of Figs and Elixir of Senna and as the genuine is manufactured by an original method known to the California Fig Syrup Co. only, it is always necessary to buy the genuine to get its beneficial effects.

A knowledge of the above facts enables one to decline imitations or to return them if, upon viewing the package, the full name of the California Fig Syrup Co. is not found printed on the front thereof.

Simple Oil of Wintergreen Cures Eczema and Drives Out Old Foggy Treatment.

Eczema, psoriasis, salt rheum and barber's itch can be cured, and cured easily if you strike right at the trouble as you do with a cut or burn.

The cause of itching, burning skin diseases according to modern science, is a germ which feeds upon the weaker parts of the skin. To kill these skin bacilli which produce the itching sores and ugly red blotches, use a simple prescription of oil of wintergreen, glycerine and thymol, commonly known as D. D. D. Prescription. This mild liquid was advocated by a prominent skin specialist, Dr. Dennis, of Chicago, long before it was adopted generally. Most druggists can supply D. D. D. Prescription, and it certainly does relieve the itch the very instant it is applied.

CAPITAN NOTES.

J. G. Riggle, probate clerk, has been laid up with rheumatism for several weeks, but is now much improved.

The farmers are all busy these days preparing their lands for planting. Considerable grain has already been sown.

A large quantity of fine alfalfa hay is being stored by Welch & Titsworth. The road between here and Lincoln is alive with hay haulers.

A strong flow of sulphur water was encountered in a well on C. Hightower's place just north of town at a depth of 34 feet. The water raised thirteen feet in about six hours, and now stands at a depth of fifteen feet.

Sidney Robert Mallin, a "re-mittance man" with an unquenchable thirst, was assessed a fine of five dollars and the trimmings by Justice Hightower the first of the week for being drunk and disorderly.

A force of carpenters is busy making repairs and alterations in the Moore building, recently purchased by Attorney Hamilton of Lincoln, who expects to occupy the lower floor as a residence and the upper part for offices.

G. W. Smithson and wife made a trip to the north side of the Capitan mountains this week in search of a suitable location for a homestead. They returned well pleased with the country, and Mr. S. will soon file an application for a homestead.

Four families from Oklahoma arrived Monday, and are preparing to take up land and make this their future home. Two of them, W. B. Richards and C. N. Slack, were here last fall and each filed a homestead entry at Roswell on their return to Oklahoma.

H. C. Boman, representing the Santa Fe Realty Syndicate spent several days in this vicinity in the interest of his company. E. D. Park, representing the same concern, is still with us. A local board of appraisers has been organized, and the syndicate expect to be soon doing a good business in this vicinity. S. T. Gray has been appointed local manager, and J. W. Norton and Clement Hightower collector and abstractor respectively.

A quartet of boys one night last week hatched a scheme to have a chicken supper at the expense of one of our citizens. B. Gavi, the Italian baker, was the luckless and involuntary purveyor of the fowls, and his wrath at the loss of a pair of fine broilers was "sumpin' fierce." The guilty ones were soon discovered and the father of one of them lodged a complaint with the justice of the peace, who, when they were brought into court, gave them some sound advice and set them at liberty, with an admonition to confine their pranks to acts less criminal in the future.
