LOCAL NEWS.

Harper Silliman and family west east last week.

San Seanlan left Monday for Poyah, Tex., to be absent for some time.

Irs. C. M. Svain, who has been ill for two weeks is able to be up.

Rain fell all over the LFD range in Chaves county north of Knowles last week.

Mrs. Higinbotham of Lakewood is in the Anderson Sanatorium for treatment.

W. U. Dannelley left for Knowles and his ranch Wednesday to remain indefinitely.

Mrs. Geo. Beyars gave a party to a number of the friends of her daughter Bernice in honor of her thirteenth birthday. Those present were Misses Elizabeth Klander, Bettie Rule, Corinne Crozier and Jim Penox.

Aubrey Gist shipped a double deck load of goats last Friday from his Guadalupe ranch to Iowa.

John Nevinger who came in last Friday night, reports a soaking rain on his range about 100 miles northeast.

Jean Little was operated on at the hospital Monday for appendicitis and is doing as well as could be expected.

W. M. Kerr who has been sick with fever at the hospital for the past two weeks is improving slowly. His many friends hope for his speedy recovery.

John Espy's little girl captured a young coyote in the north part of town last Sunday. It is supposed there is a den of the varmints within the town limits.

Bids have been called for by the government for a three times a week mail service between Carlsbad and Knowles by way of Pearl and Lovington, thence to Seminole.

Ned Holloway of the Lone Tree settlement seven miles east who has been down with nervous trouble for six months is able to be up, but is still too ill to come to town or exercise much.

W. C. Howard, of Mineral Wells, Texas, came in last night and went out to Lovington this morning on the auto to hold down a homestead of 320 acres that he has filed on in that country.

John Rives says that Bobo has money in the Carlsbad Springs for while out at the Springs last Monday that he borrowed a dime from Bobo and deposited it in about eight feet of water that now surrounds the gusher.

Mrs. Dr. Boatman arrived Wednesday from Oklahoma, Iowa, accompanied by her mother Mrs. Cummings, her father having passed away the 2nd inst. just after her arrival at his side. Mrs. Cummings will remain in Carlsbad indefinitely.

John Emerson telephoned in from Knowles Wednesday morning that the whole country around Knowles was visited by a fine rain Tuesday afternoon and evening. The rain extended all over the High Lonesome range and south of Knowles about six miles and a light rain fell at Lovington.

Capt. C. W. Merchant who has been confined to his room for some time is now fairly on the road to permanent recovery having passed very close to death's door. During the past couple of weeks he has been able to sit up and enjoy the air on the porch at the home of his son, Will, where he has been during his illness.

Now for a greater Carlsbad The town board has issued a proclamation for an election to annex more territory than is now contained within the limits of the present town and which will increase the population of the town considerably. Now to change from a town to a city organization would be the proper thing.

B. M. Mitchell, the genial and whole-souled manager of C. C. Harbert's outfit on the plains was in Carlsbad Friday and Saturday. B. M. has, for the past 60 days, been in charge of Gaffner and Matthews sheep and from the general report has picked up the largest per cent of lambs of anything on the plains. This shows that B. M. is a natural born sheep man and we are glad to hear of his success.

These steers which will go to South Dakota sold for \$20 and \$24 and were all twos and fours.

W. A. Finlay is busy building a fine bungalow on his tract west of town on the same location the former house stood and which was destroyed by fire some two years ago.

Mrs. Sam B. Smith left for Ft. Worth, Tuesday, where she will meet her son, Sam B., who has been a student at the Polytechnic Institute the past term and together they will go to Turtle, Okla., where they will visit three or four weeks before returning home.

Mr. Palmer of the Christian Church of Carlsbad departed Thursday for El Paso to attend the New Mexico and West Texas Missionary Convention which will convene there tomorrow and holds until June 2. He will return next week, Wednesday.

Prof. Shayer of Hagerman came down Tuesday and Wednesday night, gave a recital in devotion and impersonation at the auditorium of the High School that was not patronized as much as the merit of the entertainment deserved. The character sketches that would not fail to make the most sober laugh were well worth the price of admission.

Col. Ed. Tyson was in town Wednesday and was in pretty good spirits on account of having heard of a big rain on his range fifteen miles north of Knowles.

All of the cattle consisting of over 1,600 two and three year old steers from the Guadalupe mountains and the west side of the Pecos south of Seven Rivers have been held south of town the past week waiting for cars. They will probably be shipped out to-day. In consequence of the big delivery the town was full of west side cow men the past week and among them were noticed the following:

Leo and Tom Middleton, Tom Ains, Walter Thayer, Ned and Dolly Shattuck, Jim, Sam, Frank, and Bill Jones, Will Smith, Sud Licklear, Bill Edwards, John Stewart, and others.

Slater, the impersonator, came in Monday night to give a benefit for the base-ball club at the High School auditorium.

Mrs. L. M. Canfield and daughter, Mrs. R. M. Fessenden and son Wilburn, will leave for Galveston next Monday where they will take steamer for New York, going from there to Ansonia, Conn., where they will tarry for about three weeks, visiting Fessenden's father to give him an opportunity to get acquainted with his New Mexico grand son Wilburn, who was born in Carlsbad, April 5th, 1908. They will then go to Ft. Plain, N. Y., where they will remain at their old home until September, returning to Carlsbad some time during that month. Carlsbad will miss the presence of Mrs. Fessenden very much for her services as a singer are always in demand at all public gatherings.

Paul McLanathan came in on the auto last night from Knowles after a visit of a week or more with his friend Bernard Mallone of the Knowles News. He reports the rains good around Knowles and the News, flourishing.

For Sale: McCormick five foot Mower and Rake, Corn Cultivator and iron Tooth Harrow.

B. T. Mallen.

Alfalfa For Sale:
Thoroughly cured new alfalfa hay at \$10.00 per ton on the field at my place six miles south of Carlsbad. Also three choice milch cows for sale.

L. E. DIEFENDORF.

Notice To Lot Owners.

I am now collecting for water charges for water for trees and also for water used on lots for irrigation, and water for use on lots is past due and must be paid at once. Water for trees adjoining lots is payable on or before July 1st. Proceedings for forced collection by order of resolution and ordinance of the town board of trustees will be commenced July 1st.

J. E. LAVERY, Town Treasurer.

LOST—A solid gold hunting case 15 jeweled Elgin watch. Finder please return watch to this office and receive a liberal reward.

Death of Mrs. F. V. Allen.

One of the saddest deaths ever to occur in Carlsbad took place at 1 p. m. last Saturday morning when the soul of Mrs. Etta Louise McMahon Allen took its flight to the great beyond. Mrs. Allen became ill about ten days ago, but up to last Friday night was supposed to be doing well when as a thunderbolt from a clear sky the fallopian tube burst and she died. The trouble is known in medical terms as ectopic gestation and is very rare and seldom yields to scientific treatment.

Mrs. Allen was a rare character, one of the sweetest dispositions and charitable to a fault. She was born and reared in Galveston, being thirty-two years of age, her maiden name being Etta Louise McMahon. July 8, 1904 she was married to F. V. Allen, a native of New York City. In 1902 they moved to Carlsbad.

Mrs. Allen was guardian of the Woodmen Circle of Elgin Grove camp and also a member of the Episcopal Brotherhood, in which she was active. The remains were embalmed and accompanied by the heart-broken husband, the only relative here, left for Galveston Monday morning where they will be interred this week from the home of her parents who are both alive. Mrs. Allen had been up and around the house for a couple of days before her death and, it was generally supposed, she was entirely out of danger. This remedy was accompanied by the train Monday morning by a large delegation of the members of the Carlsbad and numerous friends. Mrs. Allen was one of the most beloved of the people of Carlsbad, her friends being only restricted by the circle of her acquaintance.

The Elgin County Teachers Institute will be held in Carlsbad, beginning June 21st. Sept. W. D. Sterling, one of the foremost educators of the state, will conduct. Full announcement will appear later.

Want To Trade?

To trade for horses a three room house within three blocks of public school building. Enquire of

M. L. Dannelley.

Last Saturday, Messrs. H. and J. closed a deal with L. D. Wall for all of the water in the Carlsbad Springs Sanatorium. Mr. Walker, owner of a three-thirds interest and has during the past few weeks expended about \$1,200 in work and improvements on the property buying land on 18 inch creek wall or concrete all around the Springs, first excavating for some distance to the hillside of where the water issues from the earth. This wall is eight feet high and the water is allowed to run over and through the wall in an opening that is two feet below the top of the wall, thus raising the water and making a pool six to eight feet deep and twelve feet wide by thirty feet long. For water running over the wall in this low place will give about twenty-five horse power which is to be used in pumping water to irrigate the grounds for a resort and if necessary pipe the water into town. Improvements at the spring are extensive and according to the owners have only commenced. No doubt the Springs will be a valuable resort some day, for the water has medicinal qualities that are second to none on earth.

Capt. Jack Mills, a former Texas ranger and all around cowboy who worked on the range in this territory, Texas and Oklahoma in early days and who has edited and run newspapers from Florida to California, came in yesterday and will do the local editorial and attend to business generally on this paper for the next few months while the owner solicits subscriptions and other business in various parts of the country besides writing up the country.

J. B. Roberts returned May 20 from a forty day travel through Mexico. He visited all the principal cities, and even made an overland trip into the interior visiting the coffee farms and the sugar plantations. He reports having seen some of the finest country in the world and many interesting and instructive scenes. He was especially impressed with the city of Guadalajara where the people have no use for heating stoves or fire places, and where fresh vegetables and fruits can be obtained every month in the year.—Lakewood Progress.

DIRT ROADS ADVOCATE

Farmer Shows They May Be Had at Small Cost.

HUNDRED DOLLARS PER MILE

Earth, Highways, Scientifically Built and Regularly Maintained, Are Desirable, Says P. J. Jewett, Whose Cost of Rock Roads Is Too Heavy.

P. J. Jewett, a farmer near Butler, Mo., has written to the Kansas City Star as follows on the subject of good roads:

I have been reading with interest the various letters and editorials in the Star on the subject of good roads, and I read with interest anything on this subject anywhere. Although a farmer, I am also a "road" man.

I am, indeed, I am the interest when a man will not want to "know" I am afraid the cause is being ignored by his friends who write in that that something is wrong and need one road if it costs of rock at a cost of \$2000 to \$3000 a mile.

I am sure as largely as I can how the subject looks to me, and I believe I can make the opinion of 75 per cent of the farmers in the corn belt. It is evident that if roads are made in the country the people who live there should not either do the work or pay for it. Individually I have little interest in roads other than those in my immediate neighborhood and those leading to my market. In twenty years I have not driven so far that I could not get back the same day. I have to make a trip of any considerable distance I take a train. I am not able to keep a motor car for pleasure and am not willing to make roads for those who are.

I live in an average township in western Missouri that has sixty miles of road. The assessed valuation is \$250,000. To make rock roads on the lowest estimated price per mile, \$1000 would cost \$60,000 or more than half the value of all the property in the township. To make one mile at \$1000 would require a tax of 84 cents on \$1000. A rock road is never the best road. It costs more to build it and it is as bad as dirt, when the ground is dry, and it is just what is made that is not at all permanent, and the cost of maintaining six miles would be more than we now put on sixty. I know that the idea is to improve the most important roads first and the others last, but the one who lives a mile from the improved road can take no more than he can pull over the unimproved road.

I know the argument that I can take larger loads, make better time, get better crops, all of which I admit, but my present income would have to be increased very much to enable me to stand this cost. I also know that good roads will enable me to sell my crops for a greater price. Suppose I don't want to sell. We are not all wealthy. We don't have any money to spare. I live on a farm where I have a price of \$1000 that it would cost \$2000 to build a road. I would pay \$1000 to have it built. If I want to sell I would have to sell it for \$1000 less the cost of the road. I would have to sell it for \$1000 less the cost of the road. I would have to sell it for \$1000 less the cost of the road.

Do you see who farmers promptly vote down anything along this line? In Missouri the farmers killed the ten cent sales tax that was really in their favor, because they thought it was to build a state road, in which they had no interest.

Don't think we are "moochers." We want good roads and appreciate their value, but if we must make them we must make them of a kind that we can afford and that will save our needs.

Why not try good dirt roads? With the exception of a few miles, say to get out from the towns, where travel is necessary, a good dirt road properly maintained would be the very best possible dirt road in the year. A good one can and possibly the other two. I believe \$100 a mile would make good dirt roads in our township, and with \$200 more we could grade down the hills, grade up the low places, fill out the wet ones, property, grade and ditch them and put in concrete culverts where bridges were not required. In fact make a modern road, road without the rock.

As to maintenance, a mile of thirty feet road can be dragged once for 50 cents. An average of ten times will be ample. But let's say 600,000, and we have a cost of \$750. A grader should be used over the road once a year in open ditches and maintain proper shape. The horse grades are now made that will do this work at \$2.50 a mile, plowing furrows in ditches 50 cents. To sum up, then, we have this result:

Construction COST PER MILE. Year.

MAINTENANCE ONE YEAR. Year.

Grading 500.00

Grading 500.00

Grading 500.00

Grading 500.00

The CITY LIVERY and FEED STABLE

The best of horses that are guaranteed to stand a reasonable day's drive at all times and no others kept. Fine Rigs Always on Hand.

Big Fire This Morning

At 8:30 this morning fire broke out in the repair room of the Carlsbad Furniture Company in Masonic Building, while the manager—Dick Thorne, was in the lot in the rear of the store. He first noticed a small blaze not as large as his hat and rushed in to put it out, but it had reached some varnish or turpentine and flow over a pile of old furniture and material for repairs before he could secure anything to fight it with. He then ran to the "phone and called "Central" who answered at once and gave the alarm. Dick then ran for his books and a fire extinguisher and with Dr. Irwin came in again, after some more books, but, the fire had enveloped the whole inside and they were both overcome by smoke and fell to the floor. The smoke not being so strong close to the floor they soon became able to crawl on all fours out of the building. At the time they got out, the people were gathering, but, none could get inside because of the smoke. The firemen soon came up with two lines of hose, one from the pump at the corner of the Kansas building and from the plug near the Legal Tender Cafe, besides bringing both the chemical engines. On account of a battery coupling the nozzle could not be lifted on the first string of hose and a delay of five minutes was caused. It gave the fire a start that caused smoke and fire to issue from every window, and the fire plates were soon demolished. Many people then expressed the opinion that the building and contents were doomed. But within two minutes after the streams from two nozzles with eighty pound pressure began to play, every one could see that it would be but a few moments until the fire would be under control. The blaze had gotten all over the second story and in fact in every nook and corner of the whole building but the firemen followed the nozzle, wiping out the fire ahead and within half an hour the whole fire was extinguished.

Mr. Thorne had no idea how the fire caught and only knows that the fire started in the repair room. The building which is the finest and best in town, owned by Eddy Lodge No. 21, A. F. & A. M. and cost about \$11,000, and was insured for \$7,500, with the McLanathan agency, while Hopkins had \$2,000 on the furniture and Rives & Hall \$1,000. Hopkins carried \$500 on the paraphernalia of the Commandery and \$200 on signet chapter Arch Masons. McLanathan had \$400 on the fixtures of the furniture company. The damage to the building is estimated by Mr. Rives at \$3,000 and as he was the builder who erected the structure, this is undoubtedly a very close estimate. Eddy Lodge No. 21 A. F. & A. M. has lost its charter as also did the Royal Arch and its but the chapters of the Blue Lodge and Commandery were both saved. The stock of furniture is also a total loss and cost about \$5,000, with a total of \$3,400, insurance. Were it not for the fire except in a press a sure in the main from the booster pump the story of the fire would have read a total loss. The pressure was on for ten minutes before the stream was gotten through the nozzle on account of the battered coupling. After the firemen got started, they showed good training, all obeying the orders of Chief Oline and the whole working together like one great fire-fighting machine. With less obedience to orders no doubt the loss would have been greater. One man from a big city who viewed the work of the firemen said that he never saw better work from a paid department and that under other circumstances, the loss would have been total.

Dick Thorne has rented the Schlitz building first door south of the hotel Schlitz and will ship down a lot of goods from Roswell at once. Not having saved any thing of any consequence from the fire.

PLANTS

Sweet potato, cabbage, tomatoes, cauliflower. Send for price list.

ROSWELL SEED COMPANY

Cement Pipe Wins Over Clay Pipe

At a meeting of the Cheltenham-Highlands Association, held in Goss Hall last evening, it was voted to use cement pipe in North Side sewer. There seems to have been a very strong sentiment worked up in the clay pipe interests against concrete pipe. A committee composed of the best business men of North Denver, and consisting of Senator W. W. Booth, C. P. Allen and J. H. Evans, had been previously appointed to vote on the efficiency of the concrete pipe versus clay. The report of the committee was unanimously in favor of cement pipe. It contained many interesting facts regarding strength and life of concrete. Rome used concrete pipe in 700 B. C., and also used it in her aqueducts.

Cement pipe was first used in the United States in Brooklyn in 1860, and since that time nearly every city of any size in the United States has adopted its use. The committee reported further that there was a saving of from 25c to 75c per foot over clay pipe on Lake avenue, and further that concrete was absolutely permanent. There are miles of cement pipe in the Denver city ditches to-day, some of which has been in use for twenty-five years. This was examined and found to be in even better condition today than when it was laid.

NOTICE.

Notice is hereby given, that at the next meeting of the Board of County Commissioners, June 7th, 1909, five delegates will be appointed to attend the National Irrigation Congress to be held in Spokane, Washington, Aug. 9th to 14th inclusive, 1909.

Those interested will please make recommendations to the Board.

A. C. HEARD, Chairman.

FOR SALE: Residence property north of M. E. Church, which contains seventy-five fruit trees bearing one-third acre alfalfa, fine large strawberry bed, bearing heavily, fine blue-grass lawn, grape arbor also bearing, good house, stable, city water and all conveniences, said to be the best improved town home in Eddy county for fruit and alfalfa. I have no agents and no one is authorized to represent me. Call at my home or address John Byrne, Carlsbad, N. M.

Knowles Town Lots.

Under a novel plan the Knowles Townsite Company is offering for sale 200 lots in the townsite of Knowles, at \$50.00 each. Included in this sale are 5 corner business lots valued at \$150 and \$100 each, all of the foregoing situated on Main street, 25 corner residence lots valued at \$75.00 each, 150 inside residence lots valued at \$50.00, each, all being very desirable lots and none farther from Main street than three and a half blocks. Instead of buying any certain lot you get a contract for one of the above, all of them having been marked on the map of the town and designated by numbers from one to 200. On the day of the drawing the lots will be distributed in the following fair and impartial manner. The names of the buyers will be placed in one box and the numbers of the lots in another, and the names and the numbers will be drawn at the same time. For example, suppose that from the name box, John Jones be drawn, and from the number box, ten be drawn, then John Jones gets lot number ten.

The drawing will be held in public and two small children will draw the names and numbers from the boxes.

Under the plan you are sure of securing a lot worth the money you pay, and have a chance to get an exceedingly valuable lot.

The Company have secured the services of E. G. Ingersoll of Roswell, as traveling representative, and the plan is proving very attractive to buyers.

KNOBLAUCH LAND COMPANY.

New Pumping Station.

Monday night of this week a number of prominent citizens living southwest of Artesia met at the home of H. A. Porter to consider a brand new pumping proposition, and they were so favorably impressed with it that they at once organized a company to take hold of the idea and develop it.

The plan is to erect a central power station, not unlike an electrical light plant, and from this station supply power to motors hitched to pumps on non-flowing wells, south and west of town.

The idea is to have motors ranging from ten to twenty horse power, as is needed, and, in addition to running these motors the plant will supply light to the subscribers.

T. R. Hayden originated this plan. He was elected president of the company and E. S. Porter, secretary. Mr. Hayden figured that the plant could be put up at a cost to each well owner of about what an ordinary pump would cost, and afterwards the cost of operation would be much less. The power will cost the company less than \$100 per horse-power, per year, and at this low rate would open up many thousand acres, not only around this one plant, but around others that will be put up when this is in successful operation.

The plant will be located either in Artesia or somewhere along the railroad along of town, so as to be where fuel can be secured at all times.

The company has everything figured down to the last possible item, and there can be no possibility of a failure if they continue their operations in the future with the same care as in the past. The members made no public statement until they had ascertained that the plan was feasible and could be carried out at an actual saving over the old methods of gas engine irrigation. Electrical experts have been consulted and pronounced the plan safe and sane, and it was mainly on their word that the promoters decided to go ahead with the work. Artesia News.

New Mile Record

Providence, R. I., May 23. Joe Ballard, running for Providence Technical high school in the Rhode Island interscholastic league yesterday broke the world's interscholastic record for the one mile run, doing it in 4 minutes, 27.15 seconds, against the previous record by W. M. Sheppard at Ithaca, N. Y., May 13, 1905, and running in a rain-storm against a heavy northeast wind.

Ordinance No. 92

An ordinance providing for the enforcement of law in favor of the Town of Carlsbad, New Mexico, for the irrigation of lands and ornamental trees in the streets, etc., as provided by an Act of the 28th Legislative Assembly of the Territory of New Mexico, entitled "An Act to enable citizens, towns and villages in the Territory of New Mexico to procure water for irrigation purposes, and to assess the costs and expenses of such irrigation against the property to be benefitted thereby, and for other purposes."

Be it ordained by the Board of Trustees of the Town of Carlsbad, New Mexico, as follows:

Sec. 1. Whenever a lien shall exist in favor of the Town of Carlsbad, N. M. under the provisions of an Act of the 28th Legislative Assembly of the Territory of New Mexico, fully set out in the preamble hereto, the same shall be enforced by the said Town of Carlsbad in the following manner:

Sec. 2. Whenever the owner or agent of any lot or parcel of land in the Town of Carlsbad, shall fail or refuse to pay the amount assessed to any year by the Board of Trustees of said town in pursuance of the Act, mentioned in the preamble hereto, within the time limited by said Board of Trustees in making said assessment for any such year, the amount so assessed shall, at the expiration of the time limited by said Board of Trustees for payment, become delinquent and said Board shall, at the request, moving therefor by resolution, order the Town Treasurer or said town to post notices in three or the most public places in said Town, which notice shall contain a list of the lots or parcels of land so delinquent and the amount delinquent thereon, and notify all persons interested that unless the same be paid on or before thirty (30) days from the date of posting such notices, suit will be brought in the District Court for the enforcement and foreclosure of such lien.

Sec. 3. At the expiration of said thirty days notice it shall be the duty of the Town Treasurer of the Town of Carlsbad to make out a list of all lots or parcels of land within the corporate limits of said Town upon which the tax for the purposes herein mentioned are still delinquent and unpaid and the

amount of taxes against each lot or parcel of land, and the names of the owners, if known, and if not known to so state it, and deliver the same to the Mayor of said town who shall thereupon cause suit to be brought for the enforcement and foreclosure of such liens.

Sec. 4. In such suit the District Court of Eddy County, New Mexico, shall have full and complete jurisdiction for the enforcement of said liens for all purposes necessary in order to carry out the objects and intents of this ordinance. Said suit shall be entitled substantially as follows: The Town of Carlsbad, New Mexico, against the person's real estate and land described in the delinquent tax list of the Town of Carlsbad for the year. And in such suit or proceeding it shall only be necessary for the Town of Carlsbad to charge in its complaint that such amount is due by each of the defendants and upon the several lots therein named for the purposes named in the preamble of this ordinance and that said tax was incurred by virtue of this ordinance, giving its number, title and date of adoption only, and by virtue of the resolution passed by the Board creating said lien and, in case the owners of any such property is a non-resident, suit may be brought as in other suits in rem against non-residents. Such special delinquent tax list issued by the Treasurer as aforesaid shall, in any action thereon be prima facie evidence of the legality of the proceedings for such special assessment and of all matters connected with the same.

Sec. 5. No separate suit, under the provisions of this ordinance, shall be brought against individuals or their property unless it be made to appear to the Judge of the District Court, where the property may be situated, that a separate suit is necessary to give complete justice, in which case the Judge may authorize such separate suits by an order in writing.

Sec. 6. There shall be taxed as costs in said cause One Dollar against each lot upon which such liens are foreclosed as attorneys fees for the foreclosure of such lien.

Sec. 7. Upon judgment of foreclosure of such liens as heretofore provided, the property so foreclosed shall be sold according to the practice of the Court in chancery cases; and that the sale made under said judgment of foreclosure the town of Carlsbad may become the purchaser of any or all the property so sold.

Sec. 8. The Town Treasurer shall receive a commission of five per cent on all amounts collected by him under this ordinance.

JAMES M. DYE,

Mayor.
