A GAME WORTH WATCHING.

A grotesque game of baseball was played here Saturday afternoon by the business men of the town, which aroused considerable interest and afforded amusement to an admiring throng. Most of the players were past masters at the art, but many years having elapsed since they wielded the stick or juggled with the leather, they were out of form and sadly lacked wind. The teams were known as the "Orientals" and "Occidentals," but a wag, who was enjoying the fun dubbed them the "Young Turks" and the "Old Turks," on account of the former pressing some young blood into the game, when the result of the battle was in doubt. Grand Vizier Campbell, after several swings with his scimitar finally sent the sphere soaring over the tall minarets of the Wetmore mosque, and made a home run, notwithstanding he fell three times in making the sprint. A red-turbaned follower of Islam, known as Kildee Hodja, distinguished himself as short-stop, and also by making a home run. Osman Digna I. pitched for the "Young Turks," while Osman Digna II. performed like honors for the "Old Turks," and both set a pace that kept the scimitars flashing. Mehemet Ali Humphrey played first base for two innings, with but indifferent success, and was transferred to left field by Abdul Hamid, who threatened decapitation if he muffed another ball. At this stage the game looked favorable for the "Old Turks," for the redoubtable Taylor Pasha stepped to the front, drew his scimitar and faced Osman Digna I. He sent the ball whirling into space and made a home run, amid shouts from the adherents of Abdul Hamid, and the cry of "Kismet" from the "Young Turks." Taylor Pasha followed up this success with three similar rounds of the diamond before the conclusion of the game. Randles Pasha, chief medicine man to the "Old Turks," was forced to quit the game about the fourth inning, in order to resuscitate some of the players who had begun to call upon Allah in a loud voice. Reily Ayoub went into the game at this time, and was the recipient of unbounded praise for his masterly efforts. When the game ended the score stood 34 to 15 in favor of the "Young

Turks." The "Turks," both old and young, adjourned to Effendi Rolland's emporium, where Hash-eesh, a beverage popular in the Ottoman empire, flowed unceasingly until all combatants ceased to raise the scimitar. The "Old Turks" are dissatisfied with the result, and unless the "Young Turks" give heed to their appeal and grant another game, the Yildez kiosk is likely to have another occupant before another fortnight; for revolution is rife, and the "Old Turks" look with disdain upon the manner and methods of their conquerors.

THE G. A. R. TO MEET IN ALAMOGORDO.

The 26th Annual Encampment of the Grand Army of the Republic, Department of New Mexico, will convene at Alamogordo, New Mexico, Tuesday and Wednesday, June 8th and 9th, 1909. The Council of Administration will assemble at 10 o'clock a. m. June 8th, for the transaction of such business as may come before it. At 2 o'clock p. m. on the same day, Encampment will convene.

The Commander of J. H. Blazer Post, No. 18, at Alamogordo, will detail one Comrade for Officer of the Day, one for Officer of the Guard and one for general duty, who will report to the Assistant Adjutant General at headquarters at 10 o'clock a. m. Tuesday, June 8th.

All Department Officers and those on the staff of the Department Commander will have prepared reports of the past year to be submitted at the Encampment.

The A. T. & S. F., New Mexico Central, El Paso & Southeastern and Denver & Rio Grande railways have granted one rate fare for the round trip to Alamogordo, return tickets good until June 11th.

Alamogordo is one of the progressive and attractive towns of New Mexico. Its citizens and Blazer Post are manifesting a hearty interest in preparations to make the Encampment a success, and the Department Commander hopes for a large attendance.

CARD OF THANKS

We wish to extend our heartfelt thanks to all friends who helped us in deeds and sympathy during our late bereavement.

PATHFINDER CAR GOES THROUGH

The Pathfinder automobile passed through Carrizozo Tuesday morning, on its way from Denver to the City of Mexico. It had come to Santa Fe, on to Albuquerque, down to Torrance, thence along the El Paso & Southwestern to El Paso. It contained three men, Billie Knipper the driver, and F. Ed. Spooner and W. E. McCarton, two newspaper men. The purpose of the trip is to survey a route for the "Flag to Flag" contest, which will be run over the route in October. Twenty five or thirty automobiles are to enter the contest, and it will be a test of endurance and speed.

GRAND MASTER VISIT.

J. B. Hodgdon, of Deming, Grand Master of New Mexico Odd Fellows was in Carrizozo Monday night, visiting the local lodge of that order. Mr. Hodgdon left Tuesday morning for Alamogordo on his way to visit that and other lodges.

A beautiful specimen of a native "lilly of the valley," the seed of which came from near the mal pais, may be seen at this office. The seed was left here last fall, and about two weeks ago, showing unmistakable signs of producing, they were placed in a cigar box filled with native soil when they quickly developed into beautiful specimens of their kind, proving that Nature, aided by a little moisture, will turn even a print shop into a garden of eden, in this fertile valley. The buds have already formed and will soon be in full bloom. A peculiarity about this variety of lilly is that it bears an esculent tuber much relished by those of epicurean tastes. It is indigenous in Ireland, and is known botanically as "solanum tuberosum."

A meeting of the base ball club Saturday evening, Wm. M. Reily was elected manager, vice Ira O. Wetmore resigned, and Bennett Dingwall was elected captain, vice Ray Hall. The new manager is negotiating with outside teams with a view to pulling off a series of games in the near future. Alamogordo is billed for next Sunday, after which Fort Stanton has the first call. The latter, we believe, will put up a stiff contest.

Several parties from the vicinity of Oscura were visitors in Carrizozo this week. They all had a good word about the future of that district. The settlers are busy building fences, sinking wells, erecting windmills, plowing and sowing and doing all the other etceteras incidental to dry farming in a virgin country. They are a thrifty lot, brimful of hope, and believe they have found the "promised land." The town itself is rapidly improving in appearance and business, and all seem to be imbued with an air of thrift. If only one-half of what they say is going to happen, materializes, Oscura will be going after the county seat.

YOU CAN'T TURN YOUR BACK

On the fact that our clothes have an untarnished reputation for wearing quality. That means a lot more than style alone. You see the latter with your own eyes; but the workmanship is inside, and you must trust to the dealer or the maker's honesty for what you get. Quality and low prices meet on common ground here.

Medical Inspection of All Immigrants.

Millions of immigrants have come to this country, and the numbers are constantly increasing. Each immigrant is examined by a service medical officer, and those found suffering from loathsome or dangerous contagious diseases, insane persons, idiots, epileptics and those likely to become a public charge because of infirmities, are detained and the immigration officials deport them to the country from which they come. This inspection of immigrants is carried on not only at our seaports, but also along the Canadian and Mexican borders wherever there is direct communication by steamboat or railroad. This inspection serves to keep out the thousands of sick and disabled who would become a burden upon public and private charities. It also keeps out thousands of cases of contagious diseases. The service maintains 21 marine hospitals, and 141 marine-hospital stations, where medical treatment is given to sailors of the merchant marine. Over 55,000 sailors were thus treated during the last fiscal year. This care of sailors serves two useful purposes besides its direct benefit to the sailor, remarks the National Magazine for January. Seamen taken ill or injured while en route to, or at a port, would necessarily have to be left by the vessel for treatment at the port which, in the majority of cases would not be the sailor's home. The sick would therefore suffer unmerited neglect, or become a burden upon the charity of a community to which they did not belong. Further, if the illness be of a contagious nature, they become a menace. Deep-water sailors, because of the nature of their life, are prone not to form family ties, and when these men contract tuberculosis, as many do, they both suffer themselves because of the lack of a home in many cases, and in addition endanger the community in which they live. For these men the service maintains a large sanitarium at Fort Stanton, New Mexico. This sanitarium is on a reservation of 38 square miles, located on a plateau in central New Mexico at an altitude of 6,150 feet. Here there are 200 or more patients continually under treatment. Some remain until cured, others remain a few months during which time they become improved and learn how they must live if they would recover, and how to conduct themselves for the protection of others. Others, of course, less fortunate, never leave the sanitarium, but their days of illness have been rendered as comfortable as possible.

Everything that happens in the next twelvemonth will be blamed by the superstitious on the fact that the year began on Friday. Still, it's being an odd number may even with these, help to counterbalance the bad luck.

New York is trying so hard to be a noiseless city that it has even taken off the gongs from its ambulances. After all, civilization is realizing that progress is not din and that slowness is not necessarily the synonym for quiet.

Berlin opened a rink on September 1 for ice skating all the year round. This makes the fourth permanent ice rink in Europe, others being operated in London, Paris and Munich.

A Pennsylvania woman took her first ride in a trolley car the other day. She has probably decided by now that it will be her last.

TAKING GERONIMO

GEN. MILES TELLS HOW FAMOUS INDIAN CHIEF WAS CAPTURED.

Met Savage on His Own Ground and Took Him as He Would a Mustang—Pursued Him for Five Months.

Washington.—Gen. Nelson A. Miles, who captured Geronimo, the famous Indian chief who died the other day, after perhaps the most remarkable Indian campaign ever waged, gave a personal narrative of that campaign on hearing of the passing of the noted warrior.

"In our campaign to capture Geronimo and his band, we pursued exactly the tactics we used to employ in capturing wild horses on the plains. You

Lieut. Gen. Nelson A. Miles.

know a wild horse will not wander more than 15 or 20 miles from where he was foaled. The hunters, knowing this, divide themselves into parties and patrol the range where a band of horses are found. No company of men or horses could ride down a bunch of mustangs. So it is arranged that one party shall drive them till the horses are exhausted and then another party shall take up the chase, then another, and so on, till the mustangs are worn down and can be overtaken and lassoed.

"That was the way with Geronimo and his band. I divided the territory into districts, placing a small, perfectly equipped party of troops in each district. Communication by heliograph was maintained among the parties. When the Indians were driven from one district, the force in the territory they entered was notified and took up the chase; and so on. The result was that though they kept us moving five months and covered all Arizona and went as far as 200 miles into Mexico, we gave them no rest; and at last, like the mustangs, they gave up in despair and came in and surrendered.

"Capt. Leonard Wood, who has since as general achieved such renown in the Philippines and as governor of Cuba, is deserving of most of the credit for the capture of Geronimo's band. It was he who effected the surprise of the camp of Geronimo and Natchez, on July 13, 1887, which eventually led to the surrender. Capt. Lawton is also entitled to praise for the persistence with which he and his men followed the Apaches and the diplomacy with which he arranged for Geronimo's surrender. It was he who told me that Geronimo would surrender only to me. I informed him that I did not want to go down to his camp at Skeleton canyon and meet Geronimo unless the Indians gave me some assurance of their purpose to surrender. I stated to him that the best thing for them to do was to send some hostage as a guarantee of their intention. On receiving this message, Geronimo sent his own brother to Fort Bowie to remain there as a hostage.

"I must confess that I went with some forebodings, though I still had hope that the promises of Geronimo

would be fulfilled. We reached the camp of Capt. Lawton, at Skeleton canyon, on the evening of September 3, and soon Geronimo rode in and dismounted.

"I told Geronimo that I could not tell positively what their future would be, but that one thing was positive: He must do whatever he was directed to do. He assented to this and said he would bring his camp in early the following morning. But Natchez, who was a younger man and the hereditary chief of the Apaches remained out.

"I then showed Geronimo the heliostat and asked the operator to open communication with Fort Bowie, 65 miles away. Geronimo said: 'If you can talk with Fort Bowie, do this. I sent my brother to you there as a guarantee of my good faith.'

"In a short time the answer came back that Geronimo's brother was there, was well and waiting for him to come. This struck the savage with awe and he at once sent a warrior to tell Natchez there was a power there which he could not understand, and to come in and come quick. In a few hours Natchez came riding down from the mountains with the band."

MEXICO'S ACTIVE VOLCANO.

Eruptions of Mount Colima Do Not Disturb the Natives.

Tuxpan, Mexico.—The eruption of the volcano, Mount Colima, is not causing much anxiety among the people of this town. The volcano has been in an almost constant state of semi-activity, with occasional outbursts of fire and lava for more than a century. The natives, who live almost within its shadow, are used to the ferocious displays of the old mountain. It is really a very enjoyable form of entertainment for the people of Tuxpan. In its most violent periods, when the heavens are lighted with the glowing flames and fire from its crater the Mexicans here sit at their open windows and doors and lounge upon the benches in the pretty plaza and view the grand spectacle in silent wonder.

To the natives the eruption does not portend their possible destruction. But they fear the earth tremblings which frequently accompany the eruptions. An earthquake in Tuxpan, such as has been occurring at frequent intervals since the volcano showed renewed signs of activity, quickly brings

Mount Colima in Action.

the whole population into the streets. It is said by scientists that these seismic disturbances are wholly local in character and are directly connected with the eruption of the volcano.

Mount Colima is the only active volcano upon the North American continent. It had very few serious eruptions during the eighteenth century, and the villages of the natives crowded close up to its base. It was not until 1869 that the first violent outburst in its history occurred. Much destruction of property and some loss of life resulted from that eruption. Other eruptions occurred in 1872, 1873, 1875 and 1903. The peak of Mount Colima rose to a height of 12,800 feet up to the eruption of 1903, when its top was torn off and the height of the mountain considerably reduced.

THE BEST REMEDY

For Women—Lydia E. Pinkham's Vegetable Compound

Noah, Ky. — "I was passing through the Change of Life and suffered from headaches, nervous prostration, and hemorrhages."

"Lydia E. Pinkham's Vegetable Compound made me well and strong, so that I can do all my housework, and attend to the store and post-office, and I feel much younger than I really am."

"Lydia E. Pinkham's Vegetable Compound is the most successful remedy for all kinds of female troubles, and I feel that I can never praise it enough." — Mrs. LIZZIE HOLLAND, Noah, Ky.

The Change of Life is the most critical period of a woman's existence, and neglect of health at this time invites disease and pain.

Women everywhere should remember that there is no other remedy known to medicine that will so successfully carry women through this trying period as Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs.

For 30 years it has been curing women from the worst forms of female ills—inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, and nervous prostration.

If you would like special advice about your case write a confidential letter to Mrs. Pinkham, at Lynn, Mass. Her advice is free, and always helpful.

Paxtine TOILET ANTISEPTIC

—NOTHING LIKE IT FOR—

THE TEETH Paxtine excels any dentifrice in cleansing, whitening and removing tartar from the teeth, besides destroying all germs of decay and disease which ordinary tooth preparations cannot do.

THE MOUTH Paxtine used as a mouth-wash disinfects the mouth and throat, purifies the breath, and kills the germs which collect in the mouth, causing sore throat, bad teeth, bad breath, grippe, and much sickness.

THE EYES when inflamed, tired, aching and burn, may be instantly relieved and strengthened by Paxtine.

CATARRH Paxtine will destroy the germs that cause catarrh, heal the inflammation and stop the discharge. It is a sure remedy for uterine catarrh.

Paxtine is a harmless yet powerful germicide, disinfectant and deodorizer. Used in bathing it destroys odors and leaves the body antiseptically clean.

FATHER HAD A GRIEVANCE.

Some Excuse for His Violent Assault on Managing Editor.

Lina Cavalleri, the beautiful Roman prima donna, said recently of her "beauty parlor" in New York:

"Beauty is woman's most important attribute. She who increases beauty is woman's greatest benefactor. Husbands, brothers, even fathers—in their inmost hearts beauty is the thing they desire most to see in their feminine relations."

She laughed.

"Only the other day," she said, "a gray, fat old gentleman entered a newspaper office and said:

"Are you the managing editor?"

"Yes," was the reply.

"I suppose that on you, then," said the visitor, "rests the responsibility for this morning's reference to my daughter Patty as Fatty. Take that!"

Proving His Caution.

Elder W. H. Underwood, chaplain of the state senate, was walking down a street at his home at Clay Center recently with a friend. Another friend, with whom Underwood joked a good deal, met them and said: "Elder, I thought you were careful of the company you keep."

"I am," replied the chaplain, walking right on. "I'm not going to stop."—Kansas City Journal.

Alas, How True!

"I often wonder," remarked Mr. Stubb, in solemn reflection, "if the last man on earth will have the last word."

"Of course he will, John," laughed Mrs. Stubb.

"But why are you so sure?"

"Because the last woman will give it to him."

FOODS THAT GO TOGETHER.

Many Meats and Vegetables Never Should Be Separated.

Certain meats are as closely allied to certain vegetables as is the long meter doxology to Old Hundred. To separate them seems almost desecration.

Thus stewed chicken without mashed potatoes, and pork without apple sauce lose half their zest.

Fried onions fairly cry aloud for a juicy beefsteak, and roast beef without potatoes browned under the meat never tastes quite the same.

Potatoes are an accommodating sort of vegetable. They are good with all meats, though their digestibility when served more than once a day is questionable.

With roast meats, sweet potatoes are appropriate as are squash, tomatoes, asparagus and stewed onions.

Baked macaroni is a fitting accompaniment to a roast, so are Brussels sprouts and scalloped or creamed cauliflower.

Turnips, carrots, parsnips, and cabbage are generally eaten with boiled meats, while peas, beets, beans, corn and tomatoes are good with either boiled or roasted meats.

Rice should be served with stewed chicken. Roast duck demands both apple sauce and stewed onions. Turkey without cranberries would be as lost as venison without currant jelly.

Celery should never be omitted when serving poultry, and is an invaluable accompaniment of soup. It is especially good for the nerves and is fittingly served with all meats.

Squabs and all game have lettuce with French dressing served with them, and lettuce must be eaten with Virginia ham.

It is no longer correct to serve more than two vegetables with the meat course, though with poultry cranberries are counted as an extra.

TWO Dainty Luncheon Dishes.

Hot Biscuit Chicken and Peach Pudding Furnish a Meal.

Hot Biscuit Chicken—Chop the breast of a chicken quite fine, with six olives, a stalk of celery and a strip of green pepper. Add mayonnaise to make a smooth paste and season well. Make tiny raised biscuits, break them apart, fill with the prepared chicken. Serve hot on a lettuce leaf.

Peach Pudding—Skin and halve as many peaches as you wish, place half in each dessert dish and pour over a lemon custard covering the peach entirely. Whip the whites of eggs (as many as is desired) until very stiff, sweeten, flavor and cover over all. This will be found delicious if eaten very cold and served with plain cake.

An easy method of skinning peaches is to pour over them boiling water, let stand for two minutes, when they peel easily and evenly, leaving the peaches nice and smooth, without softening them.

Protect the Finger.

Every woman who sews or embroiders objects to the roughened first finger of the left hand, which seems impossible not to prick. Not only is the roughened edge unsightly, but it catches on the work, especially when doing silk embroidery, and is almost impossible to keep clean.

There is a new protector for this finger that seems to protect without getting in the way of the sewer. It is made in a specially prepared glass that does not blunt the needle, comes in several sizes, and, best of all, is cheap enough for every sewer to own.

Without Ironing.

For the home nurse who would so willingly gown herself in white to care for the family invalid, but who shrinks before the already lengthening laundry list, there is the gown of cotton crepe. It is inexpensive, and a good shaking will smooth it out, or, even if it be found to require some ironing, the merest rub will do the work, since it is not starched or sprinkled.

INHERITED KIDNEY TROUBLE.

Could Feel It Constantly Gaining Ground as Time Passed.

Mrs. Frank Roseboom, 512 W. Washington St., Moscow, Idaho, says: "Kid-

ney trouble was hereditary, and my parents spent hundreds of dollars trying to cure me. I was nervous, my eyesight had failed noticeably, my circulation was bad, sleep fitful, heart action irregular, and my back so weak and painful I could hardly stand it. There was also an irregularity of the kidney secretions and a cold always made the whole trouble worse. I could tell many other symptoms, too, but shall only add that Doan's Kidney Pills made me free of all of them."

Sold by all dealers, 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

A STRONG NAME.

"What's your name, messenger?"
"Samson, sir."
"Good! Just pop off with this box to the depot."

Easy.

Once there was an old woman who lived in a shoe. She had so many children that at first she didn't know what to do.

A friend of the family who happened to come along just then, however, made the following suggestions:

To put one of them in a factory.
To have a couple more operated on and otherwise fussed over by the doctors.

To put a couple of them in a coal mine.
To send one to a modern public school.

To bring up another on a pure food diet.

Which no sooner having been carried into effect than the old woman settled down to a life of ease and loneliness.—New York Herald.

DIDN'T REALIZE

How Injurious Coffee Really Was.

Many persons go on drinking coffee year after year without realizing that it is the cause of many obscure but persistent ailments.

The drug—caffeine—in coffee and tea, is very like uric acid and is often the cause of rheumatic attacks which, when coffee is used habitually, become chronic.

A Washington lady said, recently: "I am sixty-five and have had a good deal of experience with coffee. I consider it very injurious and the cause of many diseases. I am sure it causes decay of teeth in children."

"When I drank coffee I had sick spells and still did not realize that coffee could be so harmful, till about a year ago I had rheumatism in my arms and fingers, got so nervous I could not sleep, and was all run down."

"At last, after finding that medicines did me no good, I decided to quit coffee entirely and try Postum. After using it six months I fully recovered my health beyond all expectations, can sleep sound and my rheumatism is all gone." "There's a Reason."

A FINANCIAL LESSON.

When President Taft called Congress in special session its purpose was well known—to produce sufficient revenue to maintain the government and at the same time lower the duties on many of the necessities of life. The house took up the proposition at once, and soon passed what is known as the Payne Bill, so called from the chairman of the Ways and Means committee, from which all revenue measures must emanate. Instead of lowering the duties, this bill increases the duty on many of the most common necessities of every family. We wish to cite three items that are everyday articles used by every family in the land, and think we can show that, during a year, the cost to a family of five, in excess of what the real values of the articles are, is greater than the direct taxes paid by the average taxpayer, on three items.

1. Stockings, hose and half hose. The rate of duty on this class of goods runs from 70 cents per dozen pair on hose valued at \$1.00 per dozen, to \$2.00 per dozen pair on hose valued at \$5.00 per dozen pair. To illustrate, take an average priced hose, valued at \$1.50 per dozen, or 12½ cents per pair. The duty proposed is 85 cents per dozen pair, or 7½ cents per pair. Assuming that a family of five will use a dozen pair each during the year, we find that the extra cost to the family on this one article of wearing apparel is \$4.25.

2. Shirts, drawers, union suits, combination suits, corset covers and all underwear of every description, the duty varies as to the cost of the article. Taking an average cost, \$6.50 per dozen, the duty is to be \$1.75 per dozen and in addition 35 per cent ad valorem. A family of five will use thirty pieces during the year. The duty of \$1.75 per dozen on two and a half dozen will be \$4.37. Additional ad valorem duty of 35 per cent on \$15.00, the value of two and a half dozen pieces, will be \$5.25; total duty on thirty pieces \$9.62. 3. Handkerchiefs. This necessary article to a clean physiognomy, valued at 50 cents per dozen, must pay 50 cents ad valorem, or 25 cents per dozen. Allowing a dozen handkerchiefs to each member of a family of five, we find that the family pays

\$1.25 a year in excess of the real value of the article used. Summing up then, the extra cost to a family on these three articles alone is as follows:

Stockings, hose etc. \$4.25
Shirts, underwear, etc. 9.62
Handkerchiefs, 1.25

Total.....\$15.12

And it must be remembered that every family, whether assessed on property real or personal, must wear clothes, and this tax cannot be avoided although no receipt is issued for its payment. The production of wealth by taxation is a great scheme—for the manufacturer.

HUNTING AND FISHING FEES

Under an act passed by the last legislature, and in effect March 18, 1909, you are required to procure a license in order to hunt or fish. The fees are as follows:

Big game, mounting deer and turkey, resident.....	\$1.00
Hunt license, resident.....	1.00
General license, covering big game and birds, resident.....	1.50
Big game license, non resident.....	25.00
Hunt license, non resident.....	5.00
Big game license, resident, alien.....	5.00
Hunt license, resident, alien.....	5.00
Hunt license, non resident, alien.....	10.00
Transportation permit, live game.....	1.00
Permit to transport out of the Territory, each deer.....	2.00
Permit to ship out of the Territory, each lot of fish.....	1.00
Duplicate license, certificate or permit.....	1.00
All non residents over the age of twelve years will be required to pay a fishing license of.....	1.00

Any person may procure a hunting license, by filing his or her affidavit with the county clerk, the territorial warden, or any deputy warden authorized to issue hunting license, stating name, age, height, weight, place of residence, postoffice address, color of hair and eyes and paying the sum above provided for such resident, non resident, resident alien, or non resident alien hunting license. All non residents are required to pay a fishing license of one dollar, but there is nothing in the law to prevent persons under the age of twelve years from fishing during the open season.

Eat What

You want of the food you need
Kodol will digest it.

You need a sufficient amount of good wholesome food and more than this you need to fully digest it.

Else you can't gain strength, nor can you strengthen your stomach if it is weak.

You must eat in order to live and maintain strength.

You must not diet, because the body requires that you eat a sufficient amount of food regularly.

But this food must be digested, and it must be digested thoroughly. When the stomach can't do it, you must take something that will help the stomach.

The proper way to do is to eat what you want, and let Kodol digest the food.

Nothing else can do this. When the stomach is weak it needs help; you must help it by giving it rest, and Kodol will do that.

Our Guarantee

Go to your druggist today, and purchase a dollar bottle, and if you can honestly say, that you did not receive any benefits from it, after using the entire bottle, the druggist will refund your money to you without question or delay.

We will pay the druggist the price of the bottle purchased by you.

This offer applies to the large bottle only and to but one in a family.

We could not afford to make such an offer, unless we positively knew what Kodol will do for you.

It would bankrupt us. The dollar bottle contains 2½ times as much as the fifty cent bottle.

Kodol is made at the laboratories of E. C. DeWitt & Co., Chicago.

CAPITAN.

Mrs. Frank J. Sager left Monday on a visit to Ohio.

Mr. Earl Watson, of Alamo-gordo is visiting in Carrizozo this week.

A new floor has been put in the postoffice which adds greatly to its appearance.

Miss Ula Collins returned from Albuquerque this week where she has been attending school.

The base ball boys will give a dance at the Wetmore Hall tomorrow night, everybody invited.

Robt. A. Hunt, tax assessor, spent the past week here and at Oscura, making assessments of property.

W. R. Beaty was up Tuesday from Oscura. He spoke encouragingly of developments in his section.

Mrs. George J. Dingwall, who has been visiting relations here the past month, returned to Dawson Sunday.

County Surveyor Theurer and V. E. Winfield attended a special meeting of the county commissioners at Lincoln this week.

The Carrizozo Outlook was sold Saturday at sheriff's sale. The outfit realized \$106.23 with its, and was knocked down to a O. Wetmore, who represented a mortgagee, Wm. Kahler.

A game of ball has been arranged to be played on the Carrizozo diamond Sunday afternoon between the locals and the Alamo-gordo nine.

The Bar W company shipped two train loads of cattle this week. The shipments of this company to date, this spring, total about 3,000 head.

William S. Bourne went to El Paso on Wednesday's No. 3, to confer with some parties with whom he is interested in a business venture.

The county commissioners met in special session at Lincoln this week, considering a number of road propositions for which petitions had been filed.

M. S. Crockett came over from Estey City Saturday, where he is holding his cattle, and went to the Mesa, beyond Nogal, that afternoon to visit his family.

A. T. Roberts made a trip to Kansas this week in charge of a trainload of cattle. He reports vegetation backward, almost a month later than a year ago.

Leo Hermann, wife and son, who recently arrived from Germany, are now in charge of the City Hotel. Mrs. Hermann is a sister of Mrs. George Braune, of Bonito.

A special communication of the Carrizozo Lodge A. F. & A. M., will be held Saturday evening the 15th inst., at 7.30 a.m., at which time the degree of "Entered Apprentice" will be conferred.

George Braune came over this week from Bonito, and took possession of the City Hotel, located on Main street. Mr. Braune is repairing and refitting the hotel building, preparatory to accommodating boarders and roomers.

Sam Moss, who lately came here from Missouri, and filed on 160 acres at the foot of Carizo mountain, has just completed a dwelling, and is now sinking a well. He seems well satisfied with his prospect.

Several new buildings are being contemplated on the west side, one of which, should it materialize, will be an exceptionally fine one. The west side as a residence section is steadily growing in popularity, for obvious reasons.

H. H. Fris, representing the El Paso Herald was in Carrizozo yesterday in the interest of that hustling publication. Mr. Fris succeeds Mr. Geo. H. Clements, who is well known in this section and who wrote many articles the past few years from the southwest to the Herald.

Mr. and Mrs. J. G. Riggle and children were over from Capitan Saturday to meet Genevieve, their daughter, who has spent the winter in Kansas, attending school. They returned to Capitan the following day.

M. S. Taliaferro, who arrived from Watseka Friday noon to attend the funeral of his brother at White Oaks that afternoon, returned Saturday night. Jones, a son of the deceased, who also arrived on the same train, remained at White Oaks.

Mr. and Mrs. S. T. Gray, of Capitan, came over Saturday, and left the following morning for Santa Rosalie Springs, Mexico. They were accompanied by their son Seaborn, and son-in-law and daughter Mr. and Mrs. John Williamson. They expect to be absent several weeks.

A new side walk, and one that was badly needed, is being laid from the Peoples Bros.' corner to the postoffice. There is room for similar improvements in other parts of town, and if property owners would only develop a little enterprise and loosen their purse-strings, they would add considerable to the value of their property, attract business, and at the same time confer a public benefit.

WHAT WIFE SAYS "GOES."

But It Sometimes Is Bad for the Painting.

When a property-owner knows nothing about paint it is bad for the property-owner, and bad for the painter. It would not be so if the property-owner would always hire a skilled painter, and then really leave everything to him. But the house-owner so often fools himself on one or the other of these things.

The skilled painter in every community has some of the most incompetent competitors that ever vexed a conscientious workman or contractor, and the incompetents get jobs generally by working cheap. In the next place, when the skilled painter is hired, they do not leave everything to him, as so many property-owners boast they do.

They interfere most ignorantly and most fatally. They insist sometimes on using paint materials without investigating whether they are good or not. Or perhaps they insist on the painter's hurrying the work.

"I'm not going to have that painter's mess around my house a month," the wife says, and what wife says goes—at the cost of a lot of wasted painting money.

If the painter stays away a few days to allow the paint to thoroughly dry the owner says: "That painter's neglecting this work—guess he's side-tracking me for Jones' work. I won't stand it."

What chance does a painter have to do good work for a man who is continually nagging at him and otherwise harassing him (without meaning it, of course)? A poor job is the inevitable result of such interference.

Poor painting costs the houseowner money—don't forget that. It might pay you to get the practical paint book, painting specifications and instrument for detecting paint adulterants, which National Lead Co. are offering under the title of House Owner's Painting Outfit No. 49. Address National Lead Co., 1902 Trinity Bldg., New York City. This company do not make paint (they leave that to the painter to do) but they make pure white lead ("Dutch Boy Painter" trademark kind), and they can tell you how to save money by securing durable painting.

FOR CHAFING DISH

EXCELLENT RESULTS SURE FROM THESE RECIPES.

Oyster Grill is a New Way to Serve the Delicious Bivalve—Shredded Ham With Currant Jelly Sauce.

Oyster Grill—One pint oysters, butter, salt, pepper to taste. Wash, pick over and drain oysters. Put in chafing dish and cook until plump, removing the liquor as it flows from the oysters. Season with butter, salt and pepper and serve at once with small crackers.

Plain Rabbit—One-half pound cheese cut fine, 2 tablespoons butter, ¼ teaspoon salt, few grains cayenne, ½ cup thin cream, 2 egg yolks, 12 crackers. Melt the butter, add the cheese, salt and cayenne. When the cheese is nearly melted add gradually the cream and the egg yolks slightly beaten. Pour over the crackers.

Shredded Ham with Currant Jelly Sauce—One-half tablespoon butter, one-third cup currant jelly, few grains cayenne, ¼ cup sherry, 1 cup cooked ham, cut in small strips. Put butter and currant jelly into chafing dish. As soon as melted, add cayenne, sherry and ham. Simmer five minutes.

Eggs a la Caracas—Two ounces smoked dried beef, 1 cup tomatoes, ¼ cup grated cheese, few drops onion juice, few grains cinnamon, few grains cayenne, 2 tablespoons butter, 3 eggs well beaten. Pick over beef and chop fine, add tomatoes, cheese, onion juice, cinnamon and cayenne. Melt butter, add mixture and when heated add eggs. Cook until eggs are of creamy consistency, stirring and scraping from bottom of pan.

Eggs in the Chafing Dish—Savory Eggs—This is one of the dishes a beginner can learn to make easily, says Harper's Bazar. Boil hard six eggs; peel them and chop the whites; put the yolks through the ricer. Put a tablespoonful of butter in the hot chafing dish and add a cup of cream sauce, made in advance (for this, rub smooth a tablespoonful of melted butter with as much flour and add a cup of thin cream and half a teaspoonful of salt). When the two are nearly boiling put in half the egg whites, the yolks, three tablespoonfuls cooked ham minced fine, a half teaspoonful of minced onion or four drops of juice, and a dozen olives, cut up into large pieces. Have ready six pieces of hot buttered toast, and when the whole is hot and smooth pour it on the toast; sprinkle with the rest of the whites; shake a little paprika from a pepper shaker here and there over the dish. This goes well with cold meats.

A Nut Roast.

This is an excellent substitute for meat in these days of high prices and vegetarian tendency.

To a cup of dried cracker or bread crumbs add one egg, or two are better, and a cup of chopped nut meats. Pecan meats are best, but if too expensive, use half a cup of walnuts. Add enough milk to moisten the crumbs, and a little butter. Bake in a tin bread pan or baking dish and serve hot. Or, if sliced cold it is delicious covered with a strained tomato sauce. Use the juice of a can of tomatoes, thickened with a little flour and well seasoned. Or make the sauce of canned soup thickened and strained.

Orange Cream Pie.

Beat thoroughly the yolks of two eggs with one-half cup of sugar; add two heaping tablespoons cornstarch or flour dissolved in a little milk. Pour into one pint boiling milk and cook three minutes. Cool and flavor with one teaspoon of orange extract and pour into a baked crust. Beat the whites, put on the top and brown in oven. This is nice when oranges are out of season.

For Lameness in Horses

Much of the chronic lameness in horses is due to neglect. See that your horse is not allowed to go lame. Keep Sloan's Liniment on hand and apply at the first signs of stiffness. It's wonderfully penetrating—goes right to the spot—relieves the soreness—limbers up the joints and makes the muscles elastic and pliant.

Sloan's Liniment

will kill a spavin, curb or splint, reduce wind puffs and swollen joints, and is a sure and speedy remedy for fistula, sweetiey, founder and thrush.

CUTICURA CURED HIM.

Eczema Came on Legs and Ankles—
Could Not Wear Shoes Because

Of Bad Scaling and Itching.

"I have been successfully cured of dry eczema. I was inspecting the removal of noxious weeds from the edge of a river and was constantly in the dust from the weeds. At night I cleansed my limbs but felt a prickly sensation. I paid no attention to it for two years but I noticed a scum on my legs like fish scales. I did not attend to it until it came to be too itchy and sore and began getting two running sores. My ankles were all sore and scabby and I could not wear shoes. I had to use carpet and felt slippers for weeks. I got a cake of the Cuticura Soap and some Cuticura Ointment. In less than ten days I could put on my boots and in less than three weeks I was free from the confounded itching. Capt. George P. Bliss, Chief of Police, Morris, Manitoba, Mar. 20, 1907, and Sept. 24, 1908."

TRY THIS BEEF TEA PUDDING.

Very Nutritious and Frequently Will
Tempt Invalid's Appetite.

Beef tea pudding is very nutritious, and is generally much relished by those who declare they could not touch beef tea in any form.

Take half a cupful of white or brown bread crumbs, one egg, and one tea-spoonful of beef tea. Put the crumbs into a basin make the beef tea hot, and pour over. Let it stand for a few minutes. Beat the egg well, and mix it with a little cold beef to keep the egg from curdling. Add to the crumbs, etc., and either bake for twenty minutes or steam for thirty minutes.

The necessary salt should be in the beef tea; but of course invalids, as a rule, are allowed very little seasoning.

If permitted, a little good mushroom catsup might be served with it. A savory cup custard might be made as above, omitting the bread crumbs, and allowing only half the quantity of beef tea. Beat up the egg. Add the beef tea cold. Pour into a buttered cup, cover with a buttered paper and steam gently for ten minutes. Turn out and serve hot.

When beef tea is ordered for children who are sick or delicate, it will frequently be found more palatable for them if, instead of salt, sugar be used. This is done in many hospitals, so there is no reason why it should not be a common practice in our homes.

And another hint I should like to give in connection with beef tea is to turn it into a jelly for a change. For a half pint of beef tea, dissolve one teaspoonful of powdered gelatine in it while warm, add sugar to taste, and either a glass of sherry or a good home-made ginger wine. Turn into a wet mold, and it will stiffen like an ordinary jelly.—Chicago Inter Ocean.

The Home.

A little kerosene added to the wash water is said to make the clothes extra white.

To restore discolored ivory, paint it with spirits of turpentine and lay in the sunshine for two or three days.

Save the water in which potatoes have been boiled and use it to wash tarnished brass. It will come out as bright as new.

A delicious salad may be made of grape-fruit pulp, white grapes and stalks of romaine, dressed with oil and vinegar and sweetened slightly.

To take old stains from marble, mix one gill of soap-suds and oxgall and half a gill of turpentine, and as much fuller's earth as will make a paste, and rub it on the stains. Leave it on for a few days and then wipe off.

"What am I doing to the candle?" said a housewife. "I am rubbing it with salt. My grandmother taught me this years and years ago. She said that if I wanted a faint light in a sickroom I could have a candle burn all night if I but rubbed salt into it well, being careful not to get the salt on the black part of the wick. I have acted on this suggestion more than once and never found it to fail."

A Pleasant Flavoring.

There is quite a fancy just now for serving marshmallows with hot chocolate. They are a bonbon dish and two or three of the candies are dissolved in a hot beverage giving it a delicious flavor.

A few drops of Cuban rum added to chocolate also improves its flavor, while many persons put a drop or two of vanilla in the whipped cream or top.

Baked Liver.

Buy calf's liver in a whole piece. Wash and place in a baking pan. Make four slits across the top with a sharp knife, and place a fat piece of bacon in each. Sprinkle well with fine cracker crumbs. Salt and pepper and add a little water. Bake for two hours, basting often, and add more water as it boils away.

ECZEMA 30 YEARS; SIMPLE OIL CURES

Wintergreen Compound Stopped Itch
at Once—Disease Soon Disappeared.

"Eczema first appeared on my body when I was a child 8 years of age. For over thirty years I scratched and scratched and doctored. It simply drove me wild. "About one year ago, the disease covered my entire body from my scalp to my toes. My doctor and my friends all gave me up as incurable."

"Then I commenced using the D. D. D. Remedy for eczema. The first application stopped the horrible itching and gave me a night's sleep. The eczema gradually left my body and am now entirely cured excepting a little roughness of the skin on my left ankle."

Mr. M. T. Firmin, for the last 20 years in the employ of the C. S. Daniels Furniture Co., of Wichita, Kan., in the presence of Mr. Higginson of the Higginson Drug Co., made the above statement.

We suggest that you ask your druggist more about D. D. D. Prescription.
