THE NEW FIRE ENGINE.

The fire engine and chemical apparatus arrived here last week, and a test of its powers was made. A huge pile of dry goods boxes were placed on a vacant lot and saturated with oil. At the appointed hour in the evening the box pile was set on fire, and when well under way the engine was brought up and a stream of water directed on the blaze which completely extinguished it in short order. Another fire was then started to test the chemical apparatus, and that portion of the fire-fighting machine accomplished all that was claimed for it. Both tests were highly satisfactory, and a meeting was held later to arrange for the purchase of the outfit. Over five hundred dollars were subscribed at the meeting, and the machinery became the property of the town. An additional payment is to be made later, as the total cost will approach nine hundred dollars.

The following are the officers and members of the fire department: S. W. Perry, chief; Frank English, assistant chief; Bennett Dingwall, Clay Van Schoyck, Thomas Johnson, W. G. Scoggin, J. G. Scoggin, E. A. Watson, C. H. Brown, A. J. Rolland, Francis Canning, J. C. Wright and Vic. Jones, members. The brigade decided to take the engine out for practice Tuesdays and Saturdays until they become thoroughly familiar with coupling hose and all the maneuvers of fire-fighting, so that, in case of fire, they will be able to act quickly and in an intelligent and concerted manner.

A RICH SILVER PROPERTY.

W. N. Hightower and N. Bastion have a lease on the celebrated Hightower silver mine, located near the head of Eagle Creek, this county. The Hightower brothers worked this mine several years ago, when silver was a good price, but when that precious metal was demonetized they ceased operations, and little has been done in the intervening years. About two years ago the property was sold to a company and a corporation effected, but the inaccessibility of the property and its long distance from the railroad hampered development, and insufficient means prevented the purchase of machinery

suitable for handling the ore.

Messrs. Hightower and Bastion recently secured a lease on the property and are taking out some very rich silver ore. The richest ore they are sacking, and will make a small shipment to the smelter, and the further working of the mine will depend on the returns obtained from this shipment. They have a large body of good ore, running from ten to five hundred ounces of silver to the ton, but the lower grades will not stand the expense of shipping and treatment; and the highest values are assorted from the bulk of the production. The hope of the lessees is to make a sufficient showing to induce capital to put in the necessary machinery to extract the values at the mine; and if this is done the greater portion of the expense will be eliminated, and the low as well as the high grade ore will be milled.

BASE BALL.

CARRIZOZO KIDS VS. CAPITAN KIDS.

The Carrizozo kid nine went to Capitan Saturday night to meet a similar nine on the Capitan diamond the next morning. Some of the players of each team, however, had passed the kid age, but they showed little better form than the real, sure-enough kids. Both teams had plenty of rooters and each good play made—and there were a number—was cheered to the echo. It was a game of slash and run, home runs coming regularly to each team. The Carrizozo kids won by a score of 14 to 9. This makes a hundred per cent for our kids for the season so far. The position of the players and the result by innings is shown in the following table:

ALAMOGORDO VS. CARRIZOZO.

The ball game Saturday afternoon between Carrizozo and Alamogordo resulted in a walk over for the visitors, although it was a nip and tuck contest up to the

sixth inning. Up to that stage of the game it was "shut your eyes and take your pick," but the local team got a little "heady" after the sixth, and the Alamos went ahead and won by a score of 10 to 3. The next morning the Alamos went to Fort Stanton and that afternoon crossed bats with the Fort team. Stanton started off in the lead, and held it throughout, although the Alamos did wake up toward the last and pushed their opponents, the score standing in the end 7 to 8. These three teams have been meeting one another for over a month, and Fort Stanton has the best of the proposition, while Carrizozo is bringing up the rear. In fact, Carrizozo has won only one game up to this time; and yet, in some respects, has a superior team to either of her competitors.

FRUIT PROSPECTS.

Contrary to expectations, Lincoln county will have considerable fruit this year. It was feared the continued cool nights which prevailed last month would dispose of it all, but, upon examination, the fruit growers of the county find a portion of the crop intact. Some orchards, it is true, were almost a total loss, but many of them will produce a part of a crop of apples, peaches, plums and other fruits, while a few orchards will have a fair production of some of the fruits mentioned.

ICE PLANT RUNNING AGAIN.

The local ice plant has been thoroughly overhauled and put in good condition, is in daily operation and is ready and capable of supplying all demands for ice. This is a local institution, local capital and should receive the support of all consumers of ice in this section. The plant gives employment to a number of men, is manufacturing a good quality of ice and deserves to succeed. A home industry should have home support, when it is able to furnish a suitable product at satisfactory prices, and this the company offers to do.

Deriding the Bachelors.

The bachelor is punished already, not only in losing the joys of a home, but in being an object of contumely. So long as bachelors are willing to put up with all the losses they sustain in celibacy far be it from the majesty of the law to impose further penalties. It was Cicero or a man of his day who remarked that it was onerous for a man to get along with a wife, but impossible to get along without one. The bachelor is not a man—only a more or less imitation of one—sometimes a very poor one. He thinks he has a good time in escaping all the major responsibilities of life, but he is deceiving no one but himself. As an example and a warning he has his uses in society. As an individual he is apt to find that he is eating only apples of Sodom. The man who deliberately remains a bachelor is already punished enough. Let him alone in his misery, says the Philadelphia Inquirer, until some nice girl comes along and carries him off. And we may remark that no man is a bachelor of his own initiative—no matter how much he may think so. He is simply a human derelict whom the women have examined and passed by. The bachelors are the disjecta membra of society whom no woman will have. That is awful and it is enough.

President Taft cannot break away all at once from the habits of a lifetime. The announcement is made that he will go to Alaska on his summer vacation, stopping on the way to open the Seattle exposition. It is lucky that this country began expanding some time ago just for such an emergency. A traveler like the president, who knows the world much as the average man knows the path to the corner grocery, would be cramped within the boundaries of the United States. An ordinary man might roam around in Texas for a week or two and not feel crowded, but Mr. Taft is used to larger ranges. The country is so big now that even a restless president can have a good deal of leeway within its borders, says the Chicago Daily News. If Mr. Roosevelt had succeeded in annexing Central America the opportunities for a presidential traveler would have been still greater.

The refusal of John Bluns, the wireless telegraph operator on the sunken Republic, to be treated as a hero, on the ground that he simply did his duty, naturally provokes the inquiry, What then, is a hero? Leonidas and his Spartans did only their duty when they held the pass of Thermopylae against the Persians. As it is the duty of a soldier to die for his country, Arnold von Winkelried did no more when he broke the Austrian phalanx at Sem-pach by seizing a bunch of the enemy's spears and thrusting them into his own breast, letting the Swiss through the line and winning the victory. When the world pins the badge of heroism on a man's breast, it pays a tribute to that duty which one knows one ought to do, but in which it fears that one might fail.

Now that noiseless as well as smokeless guns can be made, some one has suggested that all that is left to do is to remove the lock, stock and the barrel. That is the only sure way to obviate danger from guns.

An English preacher declares that London is the wickedest city on earth. This news will be a sad blow to Chicago, says the Cleveland Leader.

A COWBOYS' SCHOOL

American Type Is Being Perpetuated in England.

Students Are Taught Art of Breaking Horses and Caring for Them—Services Are Still in Demand.

London.—Notwithstanding the very general impression that the cowboy's vocation is about gone, and that he is a vanishing type, the few remaining specimens of which have gone into vaudeville, there is, in fact, quite a brisk demand for the service of the cowboy in many parts of the world.

First Lesson in "Roping" in School for Cowboys.

In Australia, South Africa, Northwest Canada and South America the cowboy will find a job open to him for a long time to come. When one comes to think of it, it is a little surprising that some enterprising Yankee has not long ago hit upon a plan for supplying the foreign demand for this distinctively American institution, but for once American enterprise has been outdone.

At Shepperton-on-Thames, almost in the heart of England, one may see any day now real cowboys performing wonderful feats of horsemanship—picking up handkerchiefs and hats at full gallop, riding bucking "bronchos," and doing other acrobatic feats. One may see the Colt and the Winchester used in the most expert fashion, and the lasso manipulated by past masters of the art. There, at night, is the bivouac and campfire, and the story telling and good fellowship, and after that the saddle for a pillow and the blanket for a couch. And this is not Buffalo Bill's Wild West show. It is the "Imperial School of Colonial Instruction," from which are graduated cowboys. The need of such an institution was conceived by two Englishmen—Capt. Morgan, who was an orderly under Gen. French in South Africa during the Boer war, and was a member of the famous mounted police of northwest Canada, and M. French, who was a member of Dunlop's Scouts and of the First regiment of Australian Imperial Bushmen.

The idea of the founders of this institution was to train selected men for cowboy life, and equip them thoroughly for the service in the particular country to which they expected to go.

The course of study at the Imperial School of Colonial Instruction occupies six months and is somewhat encyclopaedic. Capt. Morgan is the chancellor and around campfire has charge of the department of music, being an expert banjo player. French presides over the chair of riding and is the favorite with the "boys." Capt. Morgan has charge of the department of war and teaches aspirants for the cowboy life how to use the Colt and Winchester. Welsh, a cow-puncher from Idaho, is the professor of the lasso, with "Navajo Bob" for an assistant. And there are other studies and in-

structors. The students in the school are taught the art of breaking horses and caring for them. They are taught cowboy cookery, how to locate themselves when lost, scouting, carpentry, the construction of barracks and fortifications, how to pack the pack animals, harness making, elementary medicine and other similar things. It is the aim of the school to reproduce at Shepperton-on-Thames as nearly as possible the actual environment of the particular colony for which the student is destined, and he accordingly is familiarized with all the peculiarities of each country by the exact reproduction of the houses, stables, corrals, the tools with which he will have to work and the food on which he will have to live.

LAETARE MEDAL TO WOMAN.

Frances Tiernan, Well Known in Literary World, Is Awarded Notre Dame Honors.

Notre Dame, Ind. — The Laetare medal, which is annually conferred by the University of Notre Dame on some lay member of the Roman Catholic church in the United States for distinguished service in art, literature, science or philanthropy, will be given this year to Frances Christine Fisher Tiernan, author, better known in the literary world as Christian Reid.

She has written nearly 40 novels of distinct literary merit, and she is also a constant contributor to the magazines. Her books and articles are of strong moral tone, wholesome and elevating, and it was for this reason that the officials of Notre Dame conferred the medal on her.

The Laetare medal takes its name from the fourth Sunday of Lent, on which it is always awarded. The custom of giving it is modeled on the ancient observance followed by the pope of sending a golden rose as a mark of especial honor to sovereigns and other notable persons.

The gift of the medal is confined to members of the Roman Catholic church

Frances C. F. Tiernan.

in the United States. It is a large disk of pure gold, beautifully enameled, and bears some appropriate sign, which changes from year to year, and which is suited to the profession or line of work for which the recipient is distinguished. Surrounding the design appears in Latin the motto: "Truth is mighty and shall prevail."

This is the only time in its history for the medal to go to the south.

HIS LUCK.

"Why didn't you come around earlier? The snow is all melted away."
"Dat's just my luck, lady. Every time I feels like workin' de sun comes out and does me out of a job!"

The Missionary Mule.

"That mule," said the old farmer, "is what I call a 'missionary mule,' an' I'll tell you why: It throwed one man on his head, an' when the man wuz able to be up an' about ag'in, he went to preachin'; an' the last time the sheriff come to levy on that mule the critter kicked him 'cross the county line, whar they wuz holdin' a campmeetin' an' I'm blest ef the sheriff didn't git religion an' quit runnin' fer office—w'ich wuz uncommon hard to do, seein' that the office habit run in his blood. I tell you, nuthin' in this here worl' is to be despised, w'en as humble a critter as a mule kin be a missionary!"

What Charlie Had.

Several of the scholars had returned to Sunday school after being absent some weeks on account of illness. "I had the measles," said one little girl. "I had the mumps," said another. "So did I," said a third. The superintendent heard them, and, addressing a curly-headed boy said: "Well, Charlie, you were absent, too. What did you have?"

Charlie's face flushed. He thought a moment and then sang out in high treble: "I had a little brudder!"—De-lin-eator.

One Thing She Was Sure Of.

Grace—Really, mother, you seem cross this morning.

Mother (sternly)—How often have I told you not to let that young man kiss you?

Grace—I don't know, mother, but certainly not as often as he has kissed me.

"COFFEE DOESN'T HURT ME"

Tales That Are Told.

"I was one of the kind who wouldn't believe that coffee was hurting me," says a N. Y. woman. "You just couldn't convince me its use was connected with the heart and stomach trouble I suffered from most of the time."

"My trouble finally got so bad I had to live on milk and toast almost entirely for three or four years. Still I loved the coffee and wouldn't believe it could do such damage."

"What I needed was to quit coffee and take nourishment in such form as my stomach could digest."

"I had read much about Postum, but never thought it would fit my case until one day I decided to quit coffee and give it a trial and make sure about it. So I got a package and carefully followed the directions."

"Soon I began to get better and was able to eat carefully selected foods without the aid of pepsin or other digestants and it was not long before I was really a new woman physically."

"Now I am healthy and sound, can eat anything and everything that comes along and I know this wonderful change is all due to my having quit coffee and got the nourishment I needed through this delicious Postum."

"My wonder is why everyone don't give up the old coffee and the troubles that go with it and build themselves up as I have done, with Postum."

Easy to prove by 10 days' trial of Postum in place of coffee. The reward is big.

"There's a Reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

BETTER THAN BOUGHT CANDY

Home-Made Confection One May Be Sure Is Free from All Kinds of Impurity.

Take one pound of lump sugar, two tablespoonfuls of butter or half a gill of cream, two tablespoonfuls of lemon juice, and half a gill of water. Put the sugar and water into an enameled saucepan, and when the sugar is dissolved put the pan over the fire and bring it to the boil.

When it boils stop stirring and let it boil up, then remove the pan from the fire and stir into the boiling syrup a quarter of the butter.

When this has melted, put the pan on the fire again and bring it to the boil, take it off the fire and add another quarter of the butter; do this until all the butter is used up.

Cream must be treated in the same way. When all the butter is added let the candy boil quickly for ten minutes, stirring all the time. Test by dropping a little off a spoon into cold water; if it sets it is done. Then pour into a buttered tin, when nearly cold cut into squares.

The lemon juice is added just before pouring into the tin, a few drops of vanilla extract could be added instead of the lemon juice.

Tomatoes Canned Whole.

For canning tomatoes whole, the best way is that advocated by Miss Parloa in Farmers' Bulletin No. 203, issued by the United States department of agriculture. For this purpose use eight quarts of medium-sized tomatoes and four quarts of sliced tomatoes. Put the pared and sliced tomatoes into a saucepan and cook 20 minutes, taking pains not to let them scorch. Take from the fire and rub through a strainer. Return to the fire. While the sliced tomatoes are cooking pare the whole tomatoes and put into sterilized jars. Pour into the jars enough of the stewed and strained tomatoes to fill all the interstices. Put the uncovered jars into a moderate oven, placing on pads of asbestos or in shallow pans of hot water. Cook in the oven for half an hour. Take from the oven and fill to overflowing with boiling hot, strained tomato; then seal. If there is any of the strained tomato left, can it for sauces.

Pigs' Feet a l'Anglaise.

Take some well-cleaned pigs' feet and put them into a saucepan with enough cold water to cover them, season it with salt, bring it to a boil, skim it and boil on gently for three and a half to four hours, then take up and when slightly cool split the feet, remove the bones, and season inside with chopped sage and onion, and a little paprika and English mustard, and fold them up again and put to press between two plates with a weight on the top.

When cold take up and cut in strips about one inch wide; dip these into fine flour and then into whole beaten-up raw egg and freshly made white breadcrumbs, pat with a knife to make quite smooth, and then put them into a frying basket and fry in clean boiling fat for about five minutes, then take up, dish on a dish-paper, and garnish with fried parsley and serve very hot.

Cream Toast.

Cut bread in even slices half an inch thick, slightly dry in the oven, then toast quickly over a clear fire or under a gas flame. It should be an even golden brown. For each two slices of bread have ready a cream gravy made from a cupful of milk heated in the double boiler, thickened with a teaspoonful of flour or cornstarch moistened in a little cold milk. Cook until smooth and velvety. Add a pinch of salt and a tablespoonful of butter and pour quickly over the bread, that has been kept hot in the oven. Serve at once.

Milk toast is made in the same way, without thickening the milk. This milk should not in either case be allowed to hot!

Offensive Advice.

"Madam," said the medical man, gravely, "you must practice filling your lungs with deep breaths of pure air."

"An' bust the smithereens out of my new direct'ry gown," sniffed the lady. "I think I see myself."

And turning on her high heels she haughtily left the apartment.—Cleveland Plain Dealer.

Ask Your Druggist for Allen's Foot-Ease.

"I tried ALLEN'S FOOT-EASE recently, and have just bought another supply. It has cured my corns, and the hot, burning and itching sensation in my feet which was almost unbearable, and I would not be without it now.—Mrs. W. J. Walker, Camden, N. J." Sold by all Druggists, 25c.

The Easiest Way.

"I wonder if there isn't some way we can get our assemblyman to advocate good roads?"

"Give him an auto."—Brooklyn Life.

Do not force yourself to take offensive (and harmful) drugs—take Garfield Tea, Nature's Herb laxative; it overcomes constipation, purifies the blood, brings Health!

Although vanity is supposed to be a feminine trait, one doesn't have to scratch very deep to find it in a man.

Mrs. Winslow's Soothing Syrup.

For children teething, softens the gums, reduces inflammation, allays pain, cures wind colic. 25c a bottle.

He who is buried in thought dodges the undertaker.

AILING WOMEN.

Keep the Kidneys Well and the Kidneys Will Keep You Well.

Sick, suffering, languid women are learning the true cause of bad backs and how to cure them. Mrs. W. G. Davis, of Groesbeck, Texas, says: "Back-aches hurt me so I could hardly stand. Spells of dizziness and sick headaches were frequent and the action of the kidneys was irregular."

Soon after I began taking Doan's Kidney Pills I passed several gravel stones. I got well and the trouble has not returned. My back is good and strong, and my general health is better."

Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

It Jarred Him.

Howell—How did you come to break your engagement with that girl?

Powell—I had reason to think that she hadn't enough practical knowledge to make her a good helpmeet.

Howell—What gave you that idea?

Powell—I told her one day that the hens weren't laying, and she said she supposed that would affect the price of egg coal.

Let Me Tell You Something

A woman who is sick and suffering, and won't at least try a medicine which has the record of Lydia E. Pinkham's Vegetable Compound, is to blame for her own wretched condition.

There are literally hundreds of thousands of women in the United States who have been benefited by this famous old remedy, which was produced from roots and herbs over thirty years ago by a woman to relieve woman's suffering.

Read what these women say:

Camden, N. J. — "It is with pleasure that I send my testimonial for Lydia E. Pinkham's Vegetable Compound, hoping it may induce other suffering women to avail themselves of the benefit of this valuable remedy."

"I suffered from pains in my back and side, sick headaches, no appetite, was tired and nervous all the time, and so weak I could hardly stand. Lydia E. Pinkham's Vegetable Compound made me a well woman—and this valuable medicine shall always have my praise."—Mrs. W. P. Valentine, 902 Lincoln Ave., Camden, N. J.

Erie, Pa. — "I suffered for five years from female troubles, and at last was almost helpless. I tried three doctors but they did me no good. My sister advised me to try Lydia E. Pinkham's Vegetable Compound, and it has made me well and strong. I hope all suffering women will just give Lydia E. Pinkham's Vegetable Compound a trial, for it is worth its weight in gold."—Mrs. J. P. Endlich, R. F. D. 7, Erie, Pa.

Since we guarantee that all testimonials which we publish are genuine, is it not fair to suppose that if Lydia E. Pinkham's Vegetable Compound had the virtue to help these women it will help any other woman who is suffering from the same trouble.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

If the slightest trouble appears which you do not understand, write to Mrs. Pinkham at Lynn, Mass., for her advice—it is free and always helpful.

The little town of Zephyr, in Brown county, Texas, was destroyed Sunday morning by a wind storm. Thirty-eight people were reported killed and an equal number injured. "What's in a name?" has been answered with a vengeance by the elements.

Five hundred dollars per head is the amount Chinese societies cough up to the smugglers of Chinamen into this country. So Uncle Sam has discovered, or thinks he has. To people in this section the statement contains nothing new except that the traffic in pigtailed is becoming more profitable.

"Australian Billie Smith," an El Paso detective, has been suspended for alleged crooked work in connection with the killing of Manen Clements in that city. The Clements murder trial disclosed such a state of lawlessness in El Paso that it was almost unbelievable, and that presented a close rival to the Black Hand, the evidence showing that any man might be "removed" by the hand of a paid assassin.

While Carrizozo is not yet experiencing any boom, in the general acceptance of that term, every thing and every body is prospering with a certainty of a much brighter prospect ahead. The real estate market is quiet, although occasional transfers are made, and others of importance are being negotiated. Realty at present is held at reasonable prices, presenting a most exceptional and promising field for investment, for, with the prospect of the county seat being moved to Carrizozo,—which is considered by those most familiar with the conditions as beyond question—it would be impossible to estimate to what height the value of property in this town will ascend. We predict that money invested in real estate now would realize fully two hundred per cent profit within a year hence. There are several substantial buildings under course of construction, and several others will soon be—the delay being caused by scarcity of building material. As stated, the real estate market is quite, and the time to invest in property is not when things are booming, but immediately before. A word to the wise is sufficient.

RESTORATION TO ENTRY OF LANDS IN NATIONAL FOREST.—Notice is hereby given that the lands described below, embracing 300 acres, within the Lincoln National Forest, New Mexico, will be subject to settlement and entry under the provisions of the homestead laws of the United States and the act of June 11, 1906 [34 Stat., 233] at the United States land office at Roswell New Mexico on July 31, 1909. Any settler who was actually and in good faith claiming any of said lands for agricultural purposes prior to January 1, 1906, and has not abandoned same, has a preference right to make a homestead entry for the lands actually occupied. Said lands were listed upon the applications of the persons mentioned below, who have a preference right subject to the prior right of any such settler, provided such settler or applicant is qualified to make homestead entry and the preference right is exercised prior to July 31, 1909, on which date the lands will be subject to settlement and entry by any qualified person. The lands are as follows: The SW $\frac{1}{4}$ of SE $\frac{1}{4}$, Section 7, the N $\frac{1}{2}$ of NE $\frac{1}{4}$, the NE $\frac{1}{4}$ of NW $\frac{1}{4}$, Sec. 18, T. 1 S., R. 12 E., N. M. P. M., listed upon the application of Bert Stroope, of Corona, New Mexico. Also a tract, probably within Sec. 16, T. 5 S., R. 13 E., bounded and described as follows: Beginning at the NE corner of Sec. 5, unsurveyed, T. 5 S., R. 13 E., thence S. 160 chains; thence E. 20 chains to F. S. M., also corner No. 1; thence S. 40 chains; thence E. 40 chains; thence N. 40 chains; thence W. 40 chains to corner No. 1, containing 160 acres, application of Eusebio Carabajal, of Jicarilla, New Mexico. FRED DENNETT, Commissioner of the General Land Office. Approved May 15, 1909. FRANK PIERCE, First Assistant Secretary of the Interior. Lists 3-42 and -128. 5-28-4t

NOTICE TO TAXPAYERS.

All able bodied men over the age of twenty one years are subject to a poll tax of one dollar for the support of the public schools of the territory of New Mexico. After February 1st, 1909, this tax is due and payable. This is to notify all persons who are liable, to come forward at once and adjust this matter and thus assist in lengthening the present term of the public school, and also relieve the School Board of the necessity of enforcing the collection of this tax.—Respectfully,
JOHN H. BOYD.

AN EXPLANATION.

I wish lay before the people Carrizozo my plans as regards the fair grounds. It has cost me considerable time and money to lay out a half mile race track and base ball diamond and to fence the same. I collect forty per cent of the gate money when the grounds are used. This money I intend to set aside in order to build a grand stand in the future; but at any time the people wish, I will be prepared to meet them half way and form Fair Association, and turn the grounds over to the association. At the grounds will be free to the public at all times when no admission is charged. Whenever Carrizozo becomes large enough, we can form an association that will have full charge of all sporting events, and it will be up to them to provide proper accommodation for the public. Until then believe I am entitled to a per cent on the money invested.

CHURCHES AND SCHOOLS.

You do not have to believe in religion to realize the effect of a church and a community. You may be as callous as you please it will have to admit that the marks of civilization is churches and school houses, and that where you have one you will always have the other. There may be hypocrites among them and a crowd of two, who would use the church to make his dealings, as a whole, these church people are the ones you need, both for your social and business life. Do not worry about your daughter if she builds up her social life among these church people in your heart you are glad that your boy has found friends at the church, even if you haven't a foot in a house of worship in twenty years. Leaving religion out of the question—the church is a guarantee of character and a shield of the same. It is a recognized fact in society and business.

CAPITAN NEWS.

Johnson Bros., of this place delivered a fine bunch of yearlings to Bourne and McDonald at Carrizozo this week.

The Alamogordo base ball team met defeat at the homes of the Fort Stanton "lunners" last Sunday in an exciting but good natural game to the tune of 7 to 8.

The Carrizozo Juniors met and defeated the Capitan "All Ages" on the local diamond last Sunday the score standing 9 to 14 in favor of the visitors.

Fount Miller the merchant and postmaster at Ruidoso was in town recently. Fount had just returned from Tularoso and vicinity where he went on a business trip, and reports the condition of live stock very bad in that section.

Owen D. and R. J. Wood, two young men from the tobacco growing districts of Kentucky, have located homesteads about 12 miles north of Capitan, and will make New Mexico their future home. They are preparing to raise fine stock and mules.

Sheep stealing seems to again be in vogue in the eastern part of the county. Corn Bros. recently lost 1500 head only 500 head of which have been recovered; the sheep were taken from near Hondo and no trace is to be found, unlike "Little Boo Peep's" they did not leave their tails behind them. Another party living near Lincoln also lost about the same time 100 head, whose tail led in the direction of the Capitan mountains and at one place on the trail twelve head had been killed for mutton, but the balance were not found.

"Pudge" Lamay left Wednesday evening for his home at Lone Elm, Kansas. He has spent the past six months with his brother, who lives on the Mesa beyond Nogal.

\$25.00 REWARD.

The above reward will be paid for the return to my ranch on Bonito Canyon, 20 miles east of Corona, one black, or dark brown, mare mule, about ten years old, branded CL on left shoulder.

ANSWERED THE SUMMONS.

W. M. Reily received a telegram early this week that his father, A. G. Reily, died at his home in Louisiana on the 30th of last month. The deceased had been quite ill for over a month. He spent some time visiting in this county about five years ago, and became acquainted with a number of our people, who will regret to hear of his death. Besides his son, W. M. Reily, he leaves a daughter, Mrs. Hattie Pons of this town.

Better Not Get Dyspepsia

If you can help it. Kodol prevents Dyspepsia, effectually helping Nature to Relieve Indigestion. But don't trifle with Indigestion.

A great many people who have trifled with indigestion, have been sorry for it when nervous or chronic dyspepsia resulted, and they have not been able to cure it. Use Kodol and prevent having Dyspepsia.

Everyone is subject to indigestion. Stomach derangement follows stomach abuse, just as naturally and just as surely as a sound and healthy stomach results upon the taking of Kodol.

When you experience sourness of stomach, belching of gas and nauseating fluid, bloated sensation, gnawing pain in the pit of the stomach, heart burn (so-called), diarrhoea, headaches, dullness or chronic tired feeling—you need Kodol. And then the quicker you take Kodol—the better. Eat what you want, let Kodol digest it.

Ordinary pepsin "dyspepsia tablets," physica, etc., are not likely to be of much benefit to you, in digestive ailments. Pepsin is only

a partial digester—and physica not digesters at all.

Kodol is a perfect digester. You could see Kodol digesting every particle of food, of all kinds, in glass test-tubes in our laboratory; you would know this just as well as we do.

Nature and Kodol will always cure a sick stomach—but in order to be cured, the stomach must rest. That is what Kodol does—rests the stomach, while the stomach gets well. Just as simple as A, B, C.

Our Guarantee

Go to your druggist today and get a dollar bottle. Then after you have used the entire contents of the bottle if you can honestly say, that it has not done you any good, return the bottle to the druggist and he will refund your money without question or delay. We will then pay the druggist for the bottle. Don't hesitate, a druggist knows that our guarantee is good. This offer applies to the large bottle only and to but one in a family. The large bottle contains 2 1/2 times as much as the fifty cent bottle.

Kodol is prepared at the laboratories of E. C. DeWitt & Co., Chicago.

J. B. French, the sheepman, of Ancho was in Carrizozo Tuesday.

Hon. John Y. Hewitt came over from White Oaks Tuesday.

Ira O. Wetmore returned from visit to Roswell this week.

Mrs. J. Taliaferro and Miss French came over from White Oaks Tuesday.

J. O. Nabors, of Three Rivers, was in Carrizozo Wednesday. Rain is greatly needed in that section.

Among the visitors from White Oaks this week we noticed S. C. Wiener, Wayne Van Schoyck and Ed Chew.

Mrs W. Ferguson and children of the Mesa visited the family of M. B. Foreman of this town several days this week.

Jim Woodland is taking a rest this week from the effects of stepping on the business end of a tenpenny nail.

Miss Cora Kelly, who is teaching school on the Mesa, visited her folks near the mal pais Saturday and Sunday.

Monday was Memorial Day and a legal holiday. Quite a large number of ladies went out to the silent city and decorated the graves of the departed.

The Johnson Bros. and R. L. Hunnicutt came over from Cap-

itan Sunday with a bunch of about 100 head of cattle which were shipped the following day to Colorado.

Frank J. Sagar, of the Exchange Bank, left Tuesday for Ohio on a visit, and to join his wife and daughter who have been there the past month.

William Kahler and H. B. Dawson returned Monday from Alamogordo, where they have been doing jury service in the United States court.

W. H. Hurt, of Bonito, who has been at Lordsburg for some months past, returned this week. After a short stay in Bonito he intends to return to his former home in Virginia.

Next Sunday will be Children's Day at the M. E. Church. A suitable program has been arranged, and the little folks expect all the big folks to be on hand to hear them speak their pieces.

Charlie Curry, a son of the governor, and a Filipino youth who arrived in this country with Governor Curry came down this week from Santa Fe, and are visiting the family of W. M. Reilly.

Miss Virginia Smith came in Wednesday night from Granger, Texas, and yesterday went to Corona, near where, next week,

she will begin a summer term of school.

Bryan Tinnon returned this week from Santa Fe where he has been attending the deaf and dumb school the past year. He is a bright little fellow, and seems to get as much out of life as his mates who are possessed of the five senses.

John C. Crowley, of White Oaks, has had his pension increased to \$50 per month. Mr. Crowley served his country while it was in distress, and now that he has reached a ripe old age Uncle Sam has not forgotten the service rendered.

Ira Robinson has been quite ill the past week at his home on the Bonito. The difficulty was a derangement of the stomach, which reached an acute stage before relieved, and for a time he was in a dangerous condition. The attack has subsided, however, and he is now improving.

George Braune, of Bonito has taken charge of the City Hotel, until recently managed by Mrs. Dugger. Mr. Braune is a practical hotel man, and by serving the best meals at reasonable prices, hopes to merit a share of the public patronage. The hotel has just been thoroughly renovat-

ed, and will be conducted as a first class place. On next Sunday there will be a special opening dinner at which everything in season will be on the table, at the regular price.

Monday evening, and almost every evening since, heavy rain clouds hung over this town in a threatening manner, and the chances looked like 10 to 1 that the surrounding country would get its first bath this season, before the rising of the next morning's sun. But only a few drops to quench the thirst of mother earth; proving that you never can tell what the weather is going to do in this country until it has done, gone and did it.

John A. Haley, superintendent of schools, returned Wednesday evening from a ten days visit to the school districts in the central and southern portions of the county. A number of schools are in session, some have closed their term, while others have been unable to conduct school on account of prevalence of scarlet fever. The contagion seems to be stamped out, however, now, and fall and winter terms will be the result in those districts that have suffered from the ravages of the fever.

VARIETY IN SALADS

DISH THAT LENDS ITSELF WELL TO EXPERIMENT.

Successful or Unsuccessful, it is an Excellent Way of Using Up Odds and Ends of Meat to the Best Advantage.

Salads are such excellent things to try experiments on, because if they go wrong it's such a very cheap form of extravagance — not like a cake, in which one uses such quantities of eggs and butter. Housekeeping would be so dull if one tried no experiments at all, and you may be lucky in having an appreciative sort of family, who do not forget to say so when they like a new thing, and are quite good-tempered about it even when it doesn't turn out well. "Better luck next time."

Some families never seem to realize that no housekeeper can possibly be successful always, and that if they like variety they must sometimes be prepared to enjoy beefsteak pudding, even if when the time to eat it arrives it turns out to be a hash or a stew instead!

The great thing with a salad is to make it look pretty, and for this reason any bright-colored vegetable or fruit, such as carrot, tomato or beet-root, is especially valuable.

And it is such an excellent way of using up odds and ends of meat. Even a quite tiny bit of meat, if minced, well-flavored, mixed with a little thick sauce, placed in the center of a bed of lettuce or cold cooked vegetables, and served with a mayonnaise sauce, makes a quite presentable dish.

Or sometimes, instead of serving it like this, you can mince the meat, fill little molds with it, pour over each a little of the aspic jelly that one can now buy all ready for use in bottles, and turn out. These little molds of meat look so pretty arranged on a nice bed of salad, and as the aspic jelly costs only a quarter or so a bottle, and little is needed, it isn't a great extravagance.

But have you ever discovered what an improvement a few well-chopped capers, sprinkled over at the last minute, will sometimes prove to a salad? Try it next time you are experimenting and you will have a satisfactory recipe for a fruit salad dressing. If not, you may care to try this:

One gill of water, one gill of fruit juice (or syrup from tinned fruit), a quarter of a pound of lump sugar, juice of one lemon.

Boil the sugar, water and syrup together till when you take a tiny drop between the finger and thumb it draws out into a thread. Then let cool and add lemon juice. Pour over the fruit, and allow to stand an hour or two before serving. To this may be added any kind of flavoring that you fancy.

For ordinary lettuce salad use this: Half a level teaspoonful of salt, quarter of a level teaspoonful of black pepper, four tablespoonfuls of salad oil, one tablespoonful of vinegar. The flavor of onion can be given by adding a very little grated onion.

Salt and pepper are well mixed together and oil and vinegar added, drop by drop, till all is mixed in. Some people like more vinegar and less oil.

Lucanian Eggs.

Chop fine a large white onion and slowly fry in a tablespoonful of butter. When nicely browned add half a pint of milk and six hard-boiled eggs cut in quarters. Let heat slowly. When smoking hot add two tablespoonfuls of grated cheese mixed with one tablespoonful of chopped parsley, a little salt and pepper, a pinch of nutmeg and two well-beaten egg yolks. Stir over a slow fire and add a teaspoonful of lemon juice.

WHAT JOY THEY BRING TO EVERY HOME

as with joyous hearts and smiling faces they romp and play—when in health—and how conducive to health the games in which they indulge, the outdoor life they enjoy, the cleanly, regular habits they should be taught to form and the wholesome diet of which they should partake. How tenderly their health should be preserved, not by constant medication, but by careful avoidance of every medicine of an injurious or objectionable nature, and if at any time a remedial agent is required, to assist nature, only those of known excellence should be used; remedies which are pure and wholesome and truly beneficial in effect, like the pleasant laxative remedy, Syrup of Figs and Elixir of Senna, manufactured by the California Fig Syrup Co. Syrup of Figs and Elixir of Senna has come into general favor in many millions of well informed families, whose estimate of its quality and excellence is based upon personal knowledge and use.

Syrup of Figs and Elixir of Senna has also met with the approval of physicians generally, because they know it is wholesome, simple and gentle in its action. We inform all reputable physicians as to the medicinal principles of Syrup of Figs and Elixir of Senna, obtained by an original method, from certain plants known to them to act most beneficially, and presented in an agreeable syrup in which the wholesome Californian blue figs are used to promote the pleasant taste; therefore it is not a secret remedy, and hence we are free to refer to all well informed physicians, who do not approve of patent medicines and never favor indiscriminate self-medication.

Please to remember and teach your children also that the genuine Syrup of Figs and Elixir of Senna always has the full name of the Company—California Fig Syrup Co.—plainly printed on the front of every package and that it is for sale in bottles of one size only. If any dealer offers any other than the regular Fifty cent size, or having printed thereon the name of any other company, do not accept it. If you fail to get the genuine you will not get its beneficial effects. Every family should always have a bottle on hand, as it is equally beneficial for the parents and the children, whenever a laxative remedy is required.

SAVING PAINT MONEY

It Cannot Be Done by Using Cheap Material and Cheap Painters.

In arranging for painting, a good many property-owners try to save money by employing the painter who offers to do the job cheapest—or try to save money by insisting on a low-priced paint. But no property-owner would run such risks if he realized what must be taken into consideration in order to get a job that will wear and give thorough satisfaction.

No houseowner will go wrong on the painting question if he writes National Lead Company, 1902 Trinity Building, New York, for their Houseowner's Painting Outfit No. 49, which is sent free. It is a complete guide to painting. It includes a book of color schemes for either exterior or interior painting, a book of specifications, and an instrument for detecting adulteration in paint materials.

Nearly every dealer has National Lead Company's pure white lead, (Dutch Boy Painter trademark.) If yours has not notify National Lead Co., and arrangements will be made for you to get it.

BABY'S WATERY ECZEMA

Itched and Scratched Until Blood Ran—\$50 Spent on Useless Treatments—Disease Seemed Incurable.

Cured by Cuticura for \$1.50.

"When my little boy was two and a half months old he broke out on both cheeks with eczema. It was the itchy, watery kind and we had to keep his little hands wrapped up all the time, and if he would happen to get them uncovered he would claw his face till the blood streamed down on his clothing. We called in a physician at once, but he gave an ointment which was so severe that my babe would scream when it was put on. We changed doctors and medicine until we had spent fifty dollars or more and baby was getting worse. I was so worn out watching and caring for him night and day that I almost felt sure the disease was incurable. But finally reading of the good results of the Cuticura Remedies, I determined to try them. I can truthfully say I was more than surprised, for I bought only a dollar and a half's worth of the Cuticura Remedies (Cuticura Soap, Ointment and Pills), and they did more good than all my doctors' medicines I had tried, and in fact entirely cured him. His face is perfectly clear of the least spot or scar of anything. Mrs. W. M. spot or scar. Mrs. W. M. Comer, Burnt Cabins, Pa., Sept. 15, 1908."

Tara's Nectar May Be Something New for the Hostess to Serve—Best Recipe for the Making of Bread Pudding.

Tara's Nectar.—One pint of unfermented juice of white grapes, diluted and slightly sweetened; juice of two oranges, half a cup of pale green malagas, seeded and halved; mix and chill. Serve in tall glasses with green ribbon tied in dainty bows around the stems.

Bread Pudding.—Two cups bread-crumbs, one and one-half cups granulated sugar, one-quarter cup butter, one-half cup sherry wine one-half cup seeded raisins, one-half cup English currants, three pints sweet milk, three eggs beaten well, yolks and whites together; one-quarter teaspoon ground cinnamon, one-half teaspoon lemon extract, one-quarter teaspoon nutmeg, one-quarter teaspoon salt. Mix all the ingredients together and put in a buttered pudding dish and bake one-half hour in a moderate oven and serve hot. This does not need any sauce; it makes its own sauce.

Whipped Cream Pudding.—To one pint whipped cream add two tablespoons sugar; beat until stiff. Dissolve one package gelatin with three-fourths cup boiling water. When cool add to whipped cream, to this add green grapes cut in half (or any fruit cut fine), and chopped walnuts. Mix all together well, and set aside for half hour to cool. This will be sufficient for six people.

Delicious Apple Pudding.—Peel, core and cut in halves four or five apples and place them in bottom of baking dish. Then rub together a tablespoon of butter and two tablespoons of flour and wet this mixture with about three-quarters of a cup of cold water; then add one cup of sugar, cinnamon, and a little salt. Pour this over the apples and bake until tender. Serve with cream, and you have something good.

Brown Pudding.—One-half cup molasses, one-half cup sweet milk, one-half cup suet chopped fine, one-half cup raisins, good half cup of flour, one-half teaspoon soda, a little salt, spices to suit taste. Steam two hours. Hard sauce: One-half cup sugar, one-quarter cup butter. Stir to a cream; yolk of one egg and white beaten to stiff froth added.

Whipped Cream Sauce.—Beat the whites of two eggs until stiff and dry, add three-fourths of a cup of powdered sugar, using egg beater to mix, and beat thoroughly. Stir in the unbeaten yolks of the eggs, one teaspoon vanilla, and one-half pint cream which has been well whipped. Be sure to use the eggbeater to mix all ingredients.

Fish Chowder.

To make fish chowder, skin a four-pound haddock, wash thoroughly and cut the flesh from the bones in pieces about two inches square. Cover the head and bones with cold water and boil one-half hour. Slice two small white onions in a pan with four slices of thin, fat salt pork.

When tender skin out the pork and onions and add the strained bone liquor and one quart of sliced raw potato.

Cook for ten minutes, then add the fish, one tablespoonful of salt and one-half tablespoonful of white pepper. When the potatoes are tender add one quart of hot milk which has been thickened with two ounces of butter and flour mixed together.

Do not break the fish by needless stirring. Butter six pilot bread, arrange in a tureen and pour the fish chowder over them.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
