## RESUME OF NEW MEXICO'S POSSIBILITIES

State is Rapidly Advancing and her Range of Opportunities are Unlimited to the Investor

### MINES ARE AMONG THE STATE'S BEST ASSETS

(By ROBT. P. ERIEN)

Since the admission of New Mexico into the Union, in January, 1912 the state has advanced steadily, and her range of opportunity extends over many wide fields. The extent of land occupation is perhaps, the broadest in both irrigated and unirrigated propositions, but new industries are being opened and there are others awaiting capital for development offering fine opportunities for investment.

The various mines of the state have been operated recently to an extent scarcely dreamed of a few years ago, and New Mexico has come to a realization of the fact that the state's mineral productions are among its best assets.

It has been estimated that the coal deposits of this state are greater than Pennsylvania ever has produced, or ever will produce, while her oil and gas, as yet, are an untouched treasure.

The extensive forests of New Mexico offer splendid opportunities for the lumberman, while their ranges afford feed for an immense amount of livestock.

Three great trunk lines of railroads run through the state, touching all of the leading cities and towns, while others reach the less important localities, and if present building plans are realized, many districts that now are somewhat isolated will be brought more closely to the markets.

New Mexico is a very large state and there are some sections of it that are inaccessible excepting by means of the old fashioned stage coach or the more primitive burro, but much attention has been given in the last few years to the public highways of the state, with a view to conforming them to the present standard of good roads, and the recent securing of funds for this purpose will aid, very materially, in bringing the producer closer to the markets by giving him an easier means of reaching them.

The idea impressed upon the minds of children a generation ago that New Mexico was a part of the "Great American Desert" has become somewhat modified through closer acquaintance with her many resources, and this State no longer is regarded as the home of the sage brush, wild Indian, cactus and Spanish bayonet only, but is more generally regarded as the "Land of Opportunity."

The Indians of New Mexico are neither wild nor savage but dwell in peace and harmony with their white neighbors, cultivating their fields, raising livestock, weaving their blankets and baskets as an additional means of revenue and giving to the state a picturesqueness that appeals to many of the great artists of the United States and the Old World who make their temporary abode in New Mexico for the

sole purpose of painting these Indians in their native habitat. The younger Indian women, educated in vocational schools, make good nurses, stenographers and house maids, and are exceptionally kind to children.

In many respects this state must appeal to the intelligent farmer and investor as a homeland and a region of promise. There are irrigated and unirrigated lands open to occupation, and a great many acres where farming under the Campbell dry farming method may be made a success, as amply proven in those sections where it has been tried. The stockman already has found the ranges of New Mexico a veritable treasure house of wealth accumulated in a short time.

Its delightful climate has given to New Mexico the title of "The Sunshine State," for, though there are plentiful rains and thunder showers during the summer months, and snow through the winter, its percentage of sunshine averages seventy-six, and to the health-seeker its climate is a restorative tonic. The marked lack of humidity in the atmosphere renders neither the cold winter nor the heat of summer oppressive, and its high altitude insures cold nights during the warmest weather.

New Mexico is no longer the land of the pioneer, but rather that of the farmer seeking a new home or the capitalist looking for a permanent investment. Investigation is invited regarding the products, resources, industries and general conditions of the state.

In 1900 the Territory of New Mexico contained a population of 195,310. Ten years later it had reached 327,301, a remarkable increase of 67.6 per cent. Now, under statehood the school census indicates a still further growth which would bring the present population up to approximately 360,000, with a well assured prospect of still greater increase in the 1920 enumeration.

However, the population as given in this pamphlet is taken from the 1910 census, in order that it may be dependable and not over estimate numbers.

New settlers coming into New Mexico are principally from the central states and the Mississippi Valley, while many farmers from Kansas and Oklahoma are finding more attractive advantages inducing them to locate in this state.

The increase of wealth and production in the state has kept pace with the growth of its population. The assessed valuation of property in New Mexico in 1911 was \$64,500,560, which was on a basis of one fourth the appraised value, making a fair estimate of the actual wealth of the state \$258,026,240. The valuation of 1915 is on an assessment of the full value of the property, and amounts to \$305,067,905—according to the report filed by the Tax Commission, and this is in no sense local, but distributed throughout the whole state. In some of the newer sections the increase has been as high as 50 per cent a year.

The bonded indebtedness of New Mexico, at the present time, is \$2,000,000, and there is no floating indebtedness. The statutes of the state

(Continued to page six)

## IMPORTANT FACTS ABOUT TAXATION

As Public Expenditure is Increasing so are the Burdens of Taxation, not only in New Mexico, but Elsewhere

### HAS CAUSED MUCH APPREHENSION AND COMMENT

The increase of public expenditures in recent times and the resulting increase of tax burdens in our state, the nation and the world, has produced widespread comment and not a little apprehension. Are we approaching a time when the public will make demands upon private enterprise so intolerable that socialism will be the only alternative, or is our present merely a continuance of a growth sometimes slow, sometimes accelerated but always moving forward?

In a primitive civilization there is little or no taxation. Family groups own property in common and render services according to the ability of each member, all working to a common end. And so in tribal groups the sphere of individual activity in the chase or in the meagre agricultural pursuits possible is so limited by the necessities of a common defense that there is little opportunity for individual accumulation of wealth, and even less for the group as a whole to levy upon such accumulations for common ends. Community life is the whole life, the community is all, the individual nothing. In such a society, examples of which we see in the remains of our Indian pueblos, it may be said at once that either there is no taxation or that there is nothing but taxation. In this latter sense the demand of the community upon the individual for defense, for aid at all times for community needs, the prevalence of community as against individual ownership of property practically amounts to one hundred per cent taxation.

And so the feudal state with little direct taxation in money demanded services from the weak to the strong and reciprocal duties of protection of the strong to the weak in such degrees as to amount to a burden for the most primitive needs of society far beyond the demands of present day taxation.

Towards the close of the 18th century two events changed radically the whole history of the world. One of these events—the industrial revolution or in other words the introduction of power and machinery into industry—was economic, the other—the establishment of the American Republic and the French Revolution (closely related movements) was political. The one freed men's production of wealth—the other established men's freedom of thought.

With all this new freedom, with less restrictive legislation than ever before, did public expenditures decrease? By no means. Never in the world's history to that time had there been such an increase. The growth of inventions, the rapid expansion of trade and commerce, the

development of nationalities in the modern sense resulted in enormously increased expenditures for armies, navies, public debt and public facilities to aid the unfettered industry to its greatest possible expansion. Municipalities grew, demanded pavements, wider streets, lighting, protection of persons and property to a degree theretofore undreamed. Each expanse of industry demanded some governmental assistance or regulation. New problems of law expanded the courts. Criminals before the days of rapid transportation were either quickly apprehended or got entirely away. But when a railroad train afforded an easy escape police departments had to expand, to have means for distant and quick communication. Poor roads were not a serious handicap when commodities produced for export were few and traveled largely by water, but the growth of rapid transportation itself expanded enormously the productivity of the country and the demands for other facilities beyond the reach of private enterprise. So governmental expenditures have grown, are growing, will continue to grow as civilization advances.

And the individual today has more real freedom of action, more leisure, a greater part of his time and the product of his labor to himself than ever before. He demands of the public libraries and parks for his mental and physical relaxation, absolute protection of his personal and property rights in a degree never before known. He gives in cash where before he gave in services. He delegates to special servants the tasks he formerly did himself, and if these changes allow of greater individual development, production of wealth and freedom of thought and movement, the modern man for all his unprecedented taxes is far more free than his predecessor and far better able really to live. He has added burdens and an added ability to bear them. He gives more but gives from a greater individual ability to produce.

So much for the broad aspects of the problem. They must be seen and recognized, else those who try to reduce the burden of government will become mere obstructionists. It is folly to defy the rising tide and useless to try long to delay the expanding functions of government.

But while we must recognize that government like our civilization will grow, there is a narrower sense in which we may serve and serve well by conservatism of advance and by careful analysis of our present government and its future growth. Because we must grow is no reason for chasing fads or moonshine. All healthy growth, too, requires the elimination of waste, of dead tissue of things useless and outgrown. Government too often grows without plan, by additions without thought to the old which the new may replace.

In private business if a given activity does not justify itself it is ruthlessly cut off, its cost charged to profit and loss and the energies of the business are directed to the lines which show a return. This is not only sound business, it is good social service. If goods cannot be produced or marketed cheaply enough to command a sale the fact is proof conclusive that they have no social value commensurate with the price.—A. E. James, in New Mexico Tax Review.

## BELL'S STORE BURGLARIZED SAT. NIGHT

Saint Patrick's Party Given by the Woman's Missionary Union of the Baptist Church was Successful Affair

### HOME MISSION TO GIVE CHICKEN PIE SUPPER

The grocery store of John E. Bell was burglarized last Saturday evening at an unknown hour, a result of which Mr. Bell finds that he is shy several dollars worth of groceries, a revolver and several other articles. Entrance was perfected by crawling over the transom of the back door, which had been left open in order for the place to dry out, which had been scrubbed, just before closing. From all indications the work of the thief was that of an amateur, as no attempt was made to open the cash register or money drawer, each of which contained a small amount of cash. Eatables seemed to be the main object and as we are informed must have gotten a good supply. It is believed that the party was well acquainted with the location. Officers have been working on the case but so far have not been able to get a clue as to the guilty parties.

### ST. PATRICK'S PARTY

The St. Patrick's party given at the home of Mrs. Joe R. Adams by the Woman's Missionary Union of the Baptist Church last Friday evening was a success from every viewpoint. Previous to the occasion written invitations had been sent out, enclosing a little green sack, the sack being for the purpose of the one invited to put a penny for each year they were old. On the walls of the rooms were green strips of paper with pertinent questions inscribed upon them. A contest was arranged and the largest number of correct answers resulted in Mrs. R. T. Cribb being awarded the prize, which was a bottle of Olives.

Refreshments were served which consisted of sandwiches, coffee and assorted cake. A large number were present about \$15.00 were realized from the affair.

### HOME MISSION MEETING

The Home Mission Society of the Methodist Church met Wednesday afternoon at the home of Mrs. J. B. French. A very interesting program and business session was held. It was decided at this time to give a chicken pie supper Thursday evening, March 30th, at 6 o'clock, at the M. E. Church. The proceeds of the supper will be applied on the church debt.

After all business had been disposed of refreshments consisting of ice cream and cake were served.

The next regular meeting of the society will be held at the home of Mrs. Randolph Forrest, Wednesday afternoon, April 5th.

L. Brown, the local depot agent, has been in Tucumcari for the past several days transacting business.

## IS CHILD CROSS, FEVERISH, SICK

Look, Mother! If tongue is coated, give "California Syrup of Figs."

Children love this "fruit laxative," and nothing else cleanses the tender stomach, liver and bowels so nicely.

A child simply will not stop playing to empty the bowels, and the result is they become tightly clogged with waste, liver gets sluggish, stomach sour, then your little one becomes cross, half-sick, feverish, don't eat, sleep or act naturally, breath is bad, system full of cold, has sore throat, stomach-ache or diarrhoea. Listen, Mother! See if tongue is coated, then give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated waste, sour bile and undigested food passes out of the system, and you have a well child again.

Millions of mothers give "California Syrup of Figs" because it is perfectly harmless; children love it, and it never fails to act on the stomach, liver and bowels.

Ask at the store for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Adv.

A good reputation soon goes lame if it isn't lived up to.

## TAKES OFF DANDRUFF HAIR STOPS FALLING

Girls! Try This! Makes Hair Thick, Glossy, Fluffy, Beautiful—No More Itching Scalp.

Within ten minutes after an application of Danderine you cannot find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most will be after a few weeks' use, when you see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.

A little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable luster, softness and luxuriance.

Get a 25 cent bottle of Knowlton's Danderine from any store, and prove that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all—you surely can have beautiful hair and lots of it if you will just try a little Danderine. Adv.

Time isn't always money to the man who does a credit business.

## DRINK LOTS OF WATER TO FLUSH THE KIDNEYS

Eat Less Meat and Take Salts for Backache or Bladder Trouble—Neutralize Acids.

Uric acid in meat excites the kidneys, they become overworked; get sluggish, ache, and feel like lumps of lead. The urine becomes cloudy; the bladder is irritated, and you may be obliged to seek relief two or three times during the night. When the kidneys clog you must help them flush off the body's urinous waste or you'll be a real sick person shortly. At first you feel a dull misery in the kidney region, you suffer from backache, sick headache, dizziness, stomach gets sour, tongue coated and you feel rheumatic twinges when the weather is bad.

Eat less meat, drink lots of water; also get from any pharmacist four ounces of Jad Salts; take a table spoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid or grapes and lemon juice, combined with lithia, and has been used for generations to clean clogged kidneys and stimulate them to normal activity also to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive, cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active. Druggists here say they sell lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.—Adv.

A horse show is a place where society shows the horse he has no show.

Dr. Pierce's Pleasant Pellets are the original little liver pills put up 40 years ago. They regulate liver and bowels.—Adv.

Careful investigation reveals truth.

## GOOD JOKES

### CAUTION.

"How did you leave all the folks at home?"

"First rate," replied Senator Sorghum. "I told them I was going to see if I couldn't straighten out a few problems for the government between now and spring. That cheered them up a great deal."

"To what problems did you have reference?"

"Oh, nothing in particular. I never go into details with my constituents. If you get to explaining things, you are liable to make them sound so easy that the voters get to thinking they don't need you."

### Practical Point of View.

"What good is a college education, I'd like to know?" said the self-made man.

"Oh, it gives a boy polish, even if he doesn't acquire much learning."

"A polish, eh? Well, he'll probably need good manners. The chances are he'll never make enough money to give him the privilege of being rude to people."

### Then He Shut Up.

Mr. Cross—Humph! Changed your ideas about suffrage, haven't you? Five years ago, before we were married, you were all for giving women the vote; but now—

Mrs. Cross—Now I'm against it, and I'll tell you why. A woman would use about as much judgment in voting for a man as she uses in selecting one for a husband; and just see what a failure she generally makes of that.

### Her Last Request.

Mrs. Newed—Well, if you must go downtown tonight, dear, promise me you will get one thing.

Newed—All right, dearest. What do you want me to get?

Mrs. Newed—I want you to get home before ten o'clock.

### APPARENTLY UNFORTUNATE.

"I have a farmer friend whose crops for the last four years have gone up in smoke."

"He must feel discouraged."

"Not at all; he raises tobacco."

### Another Failure.

"I reached, alas! but failed to grasp," so the poet wrote one day. He had reached a poem to his editor. But failed to grasp the pay.

### What She Said.

"I understand she's going to marry the minister of her church?"

"Yes."

"How did it come about?"

"When he first came here about a year ago she told him enthusiastically that he was the very man she'd like to have marry her when the time came, and he took the hint."

### Mercenary Motive.

"I understand you are ambitious to hold office."

"You had better say I'm strongly desirous of holding office," answered the candidate, thoughtfully.

"But, what's the difference?"

"There's a great deal in my case. My ambition was to become a successful lawyer, and I have merely gone into politics in an effort to make both ends meet."

### One Way.

"Now," said the "movie" producer, "I want you to register intense longing."

"How can I do that?" asked the actor.

"Hum. Imagine yourself in a 'dry' town watching sheriff's deputies pouring 1,000 gallons of condensed liquor into a sewer."

### We've Seen That Kind.

"At a certain part of my new drama all the lights go out," said the playwright.

"What's the sense of that?" asked a man who had seen the piece; "nobody could see the plot, anyway."

### MYSTERIOUS TARGET.

"Did you hear about that woman shooting a burglar last night?"

"Yes. What do you suppose she was aiming at?"

### Rank Failures.

"Gained woman's gentle tyranny. Some men there are would fain rebel. And yet, you very seldom see A husband who can do it well."

### Temporary Aberration.

Eminent Specialist—Yes, madame, your husband is suffering from temporary aberration, due to overwork. The form of his mania is quite common.

Wife—Yes, he insists that he is a millionaire.

Eminent Specialist—And wants to pay me \$500 for my advice. We'll have to humor him, you know.—Judge.

### Her Way.

"You say you are perfectly willing for your wife to vote?"

"Oh, yes," said Mr. Twobble. "That would not embarrass me in the least."

"But how would you like to have her elbowed by a rough crowd at the polls?"

"That would never happen. Mrs. Twobble wouldn't cast a vote unless she could send it down by a messenger boy."

### He'd Noticed It, Too.

Redd—They say that most of Japan's pearl divers are women, who begin to learn the trade at the age of thirteen or fourteen.

Greene—Well, I've noticed it's the girls who begin looking for pearls and diamonds at an early age over here.

### A Saving.

"John, you simply must give me a larger allowance. I haven't nearly enough pin money."

"I shouldn't think you women would need many pins to hold together the few clothes you wear nowadays."

### Pretty Bad.

Visitor—Isn't this climate very changeable?

Old Inhabitant—No. It keeps shifting around until it gets about as disagreeable as possible and then it remains permanent.

### Her View.

"There was a heavy swell on the beach last night."

"Yes. That was the center on a college football team."

### Can't Recover.

"We quarreled, and I returned to him his letters."

"That was a mistake. After this always keep the letters; they come in handy in case of a breach of promise case."

### A PROPOSAL.

Maxie—Life is what we make it. Harry—Let's make it hearts.

### Asked and Answered.

"Why do I live?" the poet wrote. And the editor made reply: "You sent your poem in by mail—That is one reason why."

## Colds Make Backs Ache

MORE aching backs, more kidney troubles come in March, than in any other month. Slushy sidewalks, dampness, raw winds and sudden changes cause chills and colds. And chills or colds tend to hurt the kidneys. It is good sense to use a kidney remedy when recovering from a cold and at any time when suffering from a lame back, sharp pains when stooping or lifting, dizzy spells, irregular or annoying kidney action, and a run-down, nervous state.

Don't delay and take a chance of getting dropsy, gravel, Bright's disease or some other serious kidney disease. Use Doan's Kidney Pills, the best-recommended, special kidney remedy. All over the world grateful people frankly praise Doan's.

### Here's What Colorado People Say:

Logan West, 505 Center St., Pueblo, Colo., says: "Exposure to all kinds of weather was largely responsible for the pains in my back. Colds settled on my kidneys and mornings when I got up, my back was very painful. Nights when I came home from work, I had a tired, dull ache through my kidneys. Doan's Kidney Pills fixed me up in good shape, removing all signs of the trouble."

Mrs. J. T. Burns, 609 E. Seventh St., Pueblo, Colo., says: "Almost all my life I had rheumatic pains. Sometimes I was so lame and stiff it was hard to get around. The latest cold settled on my kidneys and made the aching worse. Sometimes my kidneys acted too freely and then again not often enough and I was also subject to dizzy spells. Doan's Kidney Pills have given me relief from these evils and have spared me a lot of suffering."

## DOAN'S KIDNEY PILLS

At All Stores, 50c a Box. Foster-Milburn Co., Buffalo, N. Y.

## COLT DISTEMPER

You can prevent this loathsome disease from running through your stable and cure all the colts suffering with it when you begin the treatment. No matter how young, SPORN'S is safe to use on any colt. It is wonderful how it prevents all distemper, no matter how cold or horses at any age are "spored." All good druggists and turf goods houses and manufacturers sell SPORN'S at 50 cents and \$1 a bottle; \$5 and \$10 a dozen. SPORN MEDICAL CO., Chemists and Bacteriologists, Goshen, Ind., U. S. A.

Many a man talks through his hat instead of using a telephone.

### A GRATEFUL ACKNOWLEDGMENT.

Mr. F. C. Case of Welcome Lake, Pa., writes: "I suffered with Backache and Kidney Trouble. My head ached, my sleep was broken and unrefreshing. I felt heavy and sleepy after meals, was always nervous and tired, had a bitter taste in my mouth, was dizzy, had floating specks before my eyes, was always thirsty, had a dragging sensation across my loins, difficulty in collecting my thoughts and was troubled with shortness of breath. Doan's Kidney Pills have cured me of these complaints. You are at liberty to publish this letter for the benefit of any sufferer who doubts the merit of Doan's Kidney Pills."

Doan's Kidney Pills, 50c. per box at your dealer or Doan's Medicine Co., Buffalo, N. Y. Doan's Dyspepsia Tablets for indigestion have been proved. 50c. per box.—Adv.

A shopper considers the price, but a buyer considers the value.

What's in a Name?

"I wonder if the Russians had a hard time capturing the city of Mueh?"

"Why?"

"It sounds like they might have had a soft job of it."

### MAGAZINE DONATES \$10,000

Our Readers May Profit by Generosity of Western Magazine Firm.

A well known Denver publishing house has appropriated \$10,000 to be used solely in a whirlwind circulation campaign. Their offer is so liberal and the magazine so interesting that everybody is eager to send in their names.

The magazine referred to is 17 years old and each month publishes stories of adventure, numerous engravings and sketches of western life, cowboy songs, descriptions of famous ranches, irrigation projects, land news, rich gold mines, etc., and tells how and where to get homesteads. It is the oldest, largest and best magazine in the west. Readers say it is worth \$3 but in this surprising elevation campaign the publishers are spending their money like water and our readers may not only save three whole years for only \$3, we fully guarantee, like the biggest honest offer ever made. Remit in cash, postage stamps or money order. Tell all your friends. This offer won't appear again. Send today. Money back if not delighted. Mention this paper and address, Western Magazine, Station 31, Denver, Colorado.—Adv.

The evil that men do is soon forgotten—by themselves.

### USE ALLEN'S FOOT-EASE

The antiseptic powder to be shaken into shoes and used in foot-bath. It relieves painful, swollen, smarting, aching, tired feet and instantly takes the sting out of corns and bunions. The greatest comfort discovery of the age. Sold everywhere. 5c. Trial package FREE. Address Allen S. Olmsted, Le Roy, N. Y. Adv.

A gratuitous falsehood is one that gives itself away.

## Three Hundred Million Bushel Crop in 1915

Farmers pay for their land with one year's crop and prosperity was never so great.

Regarding Western Canada as a grain producer, a prominent business man says: "Canada's position today is sounder than ever. There is more wheat, more oats, more grain for feed, 20% more cattle than last year and more hogs. The war market in Europe needs our surplus. As for the wheat crop, it is marvelous and a monument of strength for business confidence to build upon, exceeding the most optimistic predictions."

**Wheat averaged in 1915 over 25 bushels per acre**  
**Oats averaged in 1915 over 45 bushels per acre**  
**Barley averaged in 1915 over 40 bushels per acre**

Prices are high, markets convenient, excellent land, low in price either improved or otherwise, ranging from \$12 to \$30 per acre. Free homestead lands are plentiful and not far from railway lines and convenient to good schools and churches. The climate is healthful.

There is no war tax on land, nor is there any conscription. For complete information as to best locations for settlement, reduced railroad rates and descriptive illustrated pamphlet, address Superintendent Immigration, Ottawa, or

W. V. BENNETT, Room 4, Bee Bldg., Omaha, Nebr.  
Canadian Government Agent

## Everyone Should Drink Hot Water in the Morning

Wash away all the stomach, liver, and bowel poisons before breakfast.

To feel your best day in and day out, to feel clean inside; no sour bile to coat your tongue and steken your breath or dull your head; no constipation, bilious attacks, sick headache, colds, rheumatism or gassy, acid stomach, you must bathe on the inside like you bathe outside. This is vastly more important, because the skin pores do not absorb impurities into the blood, while the bowel pores do, says a well-known physician.

To keep these poisons and toxins well flushed from the stomach, liver, kidneys and bowels, drink before breakfast each day, a glass of hot water with a teaspoonful of limestone phosphate in it. This will cleanse, purify and freshen the entire alimentary tract, before putting more food into the stomach.

Get a quarter pound of limestone phosphate from your druggist or at the store. It is inexpensive and almost tasteless, except a sourish tinge which is not unpleasant. Drink phosphated hot water every morning to rid your system of these vile poisons and toxins; also to prevent their formation.

To feel like young folks feel; like you felt before your blood, nerves and muscles became saturated with an accumulation of body poisons, begin this treatment and above all, keep it up! As soap and hot water act on the skin, cleansing, sweetening and purifying, so limestone phosphate and hot water before breakfast, act on the stomach, liver, kidneys and bowels.—Adv.

## HE FEARED TO GO FURTHER

Lawyer Had His Own Reasons for Discontinuing the Examination of the Witness.

Many years ago a trial was in progress in San Francisco, and counsel for defendant was cross-examining a witness for plaintiff. An earthquake shook the chandeliers and dislodged a portion of the ceiling. Jurors, witnesses and spectators started for the door, but the judge checked the exodus of the lawyers by retaining his seat and his composure and exclaiming, "Gentlemen, gentlemen, flat justitia ruat ceiling." The seismic disturbances being over the crowd returned. "You can proceed with the cross-examination of the witness," said the judge to the counsel for the defendant. "Pardon me, your honor," was the reply, "but after the late exhibition of the displeasure of the Almighty at the lies this witness was telling, I do not care to further invoke divine wrath. I will ask him no more questions."—Case and Comment.

## Looked That Way.

"You know every boy in this country has a chance to be the president of the United States," said the school-master.

"Oh, I know what you're driving at," said the bright boy; "you want me to be for preparedness."

## Defined.

"What is meant by peanut politics, father?"

"It's just a little shell game, my son."

## STOPPED SHORT

Taking Tonics, and Built up on Right Food.

The mistake is frequently made of trying to build up a worn-out nervous system on so-called tonics.

New material from which to rebuild used up tissue cells is what should be supplied, and this can be obtained only from proper food.

"I found myself on the verge of a nervous collapse, due to overwork and study, and to illness in the family," writes a Wisconsin woman.

"My friends became alarmed because I grew pale and thin and could not sleep nights. I took various tonics, but their effects wore off shortly after I stopped taking them. My food did not seem to nourish me.

"Reading of Grape-Nuts, I determined to stop the tonics and see what a change of diet would do. I ate Grape-Nuts four times a day with cream, and drank milk also, went to bed early after eating a dish of Grape-Nuts.

"In about two weeks I was sleeping soundly. In a short time gained weight and felt like a different woman. Grape-Nuts and fresh air were the only agents used to accomplish the happy results." "There's a Reason." Name given by Postum Co., Battle Creek, Mich.

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

# NEW RUSSIA BEING BORN OUT OF EUROPEAN WAR

German Arms Are Blasting the Shackles Off the Backward Empire.

## NEW PATRIOTISM IS AROUSED

Honest Attempts of Government to Solve Problems Encourages Intellectuals to Look For Better Things—Remarkable Exploit of a Russian Soldier.

Petrograd.—Out of the tears and sufferings of the great war a new Russia is being born—a Russia of fair government, progress and economic solidity. This is the belief of many patriots.

Perhaps it is all a beautiful dream. The patriots were profoundly discouraged last September when the czar prorogued the duma. But hope revived and was intensified fivefold when Nicholas not only called together his congress again, but a few days ago appeared in person at the opening of this representative body and welcomed the members in the name of victory.

It is hard for western minds to comprehend just what this action of "The Little Father" meant to the Russian mujik. To the humble peasant his czar is a demigod, indeed almost an equal of the Virgin Mary and the Christ. For him to personally receive the peasants' representatives was an inspiration for the war-driven Russian.

The further proceedings of the duma will therefore be watched with more interest than ever. The body is patriotic to the last man and the liberal block, or union of parties, has decided to forego pressing for reforms until the crisis in the nation's history is past.

The Premier, M. Sturmer, has a record of conservatism which does not recommend him to the liberal elements, yet, like the czar, he now conciliates the more radical and so combines the mighty people to oppose a united front to the German.

The honest attempts of the government to solve the frightful transportation problem, which has resulted in famine in one province with a superabundance of the needed products in another nearby province, are generally recognized. The efforts have not met with great success, however. Russian bureaucracy, unlike the German brand, is not efficient. But the spirit in which the problem has been met, like the severe measures taken to root out and punish war grafting in high places, have encouraged the intellectuals to look for better things.

M. Sazonoff, the foreign minister, is another government official who, though a conservative, has gained the respect and confidence of the people. It is felt that Russia's delicate relations with her allies and with Sweden and the United States are in good hands.

Even if Russia should lose this war, or it should result in a draw, great changes are to be expected. Russian reforms have grown out of conflict. When Lloyd-George, the British minister of munitions, said that German arms are blasting the fetters off backward Russia he told the truth.

It was the constant incursions of the Tartars which led to the consolidation of old Russia about Moscow. A reign of terror in the first half of the seventeenth century led to the formation of the house of Romanoff, under which the Russian empire has grown to its present greatness.

Great Giant Awakens.

A century later the war with Sweden brought the nation to a realization of

its need of western ways. Under Peter the Great the Swedish struggle resulted in the permanent alignment of Russia with the nations of the West, instead of the civilizations of the East.

With the Napoleonic wars Russia took several more steps out of her semi-Asiatic seclusion. The Crimean war brought a further spread of enlightened ideas and had much to do with the famous emancipation of the serfs. The feudal system received further blows at the end of the Turkish war of 1877-78.

As a climax to the Russo-Japanese war came the bloody revolution of 1905, the birth of the first duma and the seeming dawn of freedom.

But it was a false dawn. There followed reaction of the most terrible sort, pogroms, wholesale arrests, the suppression of liberal ideas and great shipments of the intellectual leaders to Siberia.

This era was passing away when the war began. In the spring of 1914 the duma dared to refuse to pass the budget. It fought the reactionary government on almost equal terms.

The war caused the liberal leaders to consent to delay. Old institutions were allowed to stand unchallenged in the hour of crisis when every nerve and sinew of the nation were needed in the great trial of arms.

The war itself has done much to enlighten. The ignorant young peasant, who seldom went more than fifty miles from his little village, has traveled to the battle front and talked with all sorts of men he never dreamed existed.

The suppression of vodka has wrought marvels. The older peasant, instead of spending his evenings in boozing revels, now takes his place in a little group around some man or woman who can read, and listens to the latest news about the war or the words of wisdom from some volume purchased at the neighboring town by the joint contributions of many poor folk.

Russia is moving and stirring. The world is bound to hear more of the Slavs. Backward, dirty and ignorant the vast mass is today, but it cannot be denied its place.

Europe today has about 130,000,000 Slavs to 70,000,000 Germans. In Russia the rate of increase of population is 2.91 a year, while in Germany it is 1.49 and falling. This birth rate of Russia constitutes an insuperable force.

Russia has natural resources greater than those of all the rest of Europe put together. These are almost wholly undeveloped. As the Slavic conscience unites itself and modern ideas spread, the Slavic influence in the world affairs is bound to grow.

## Exploit of Russian Soldier.

A Russian scout tells the following story of his successful exploit behind the enemy's lines:

"As I have a good knowledge of Polish I was sent to blow up some bridges in the Austrian rear. I changed my uniform for civilian dress and, having crossed myself, left our trenches and crawled in the direction of the enemy's positions. On reaching the Austrian lines I suddenly heard voices to my right, so I quickly changed my course to the left, and succeeded in crossing a trench, from which one could only hear measured snoring.

"It was a dark night and very late. I ventured several steps forward, but was then unexpectedly met by a field patrol of 15 men. The commanding officer (an Austrian) seized me, and after began questioning me in Polish. He asked who I was, where I had come from, and how I got there at that late hour. I told him that I was an Austrian-Pole, and had run away from the Russians in Tarnopol, as they had com-

pelled me to dig trenches without any wages. The officer appeared to believe me, and told a Magyar soldier to take me to the staff of the regiment for examination.

"When the guard and I reached the depths of the enemy's positions he asked me for a match, which I readily gave him, as I had a box in my pocket. He ordered me to stop, and I obeyed. He then leaned his rifle against a tree and, taking a pipe and tobacco out of his pocket, struck a light. It was still quite dark, and, taking my chance, with the left hand I grasped the rifle, while with my right I made a gesture as if I intended to blow my nose. With a violent swing I struck the man on the head with the butt end of the rifle, and he fell down without even uttering a cry.

"Having satisfied myself that the Magyar was dead, I took off his distinguished conduct medal and searched his pockets, where I found a book, from which it appeared that he had been a teacher in a Lemberg school. Dragging the body to the nearest ditch I laid it down beside the rifle, and continued my course toward the bridges which I was to blow up.

## Blow Up Bridges.

"I wandered about for the rest of the night, and when it became too light to go on I lay down in some vegetable beds behind the ruins of a peasant's hut. From here I was able to observe the country, and to find out from the map which I carried, the places where the bridge would most probably be. Having spent the day in this position, I renewed my wanderings at the fall of darkness. I reached the first bridge, and saw the sentry with his rifle. On seeing me, the sentry called out, 'Wer Kommt?'

"Instead of giving him an answer I ran up to the bridge and threw four hand grenades one after the other. They were well aimed, and the bridge, with the sentry, was blown into the air. The body fell into the river, and the bridge began to burn.

"Not losing a moment, I ran to the next bridge, which lay half a mile distant. The sentry was standing and staring at the burning bridge, without paying any attention to me. As I approached I threw a grenade at a distance of fifteen paces. It struck the man's feet and both his legs were torn off by the explosion. Then I quickly threw the remaining four grenades, and the bridge collapsed and began burning.

"My task was accomplished, and I ran away as fast as I could, and reached the destroyed but where I had spent the previous day. Soon I heard an alarm, which had been raised to catch me. Men on horseback fired and galloped in search of me, but luckily they just missed me, and presently they disappeared in the distance. An hour after this uproar I crept out of my hiding-place and eventually reached the spot where I was first stopped. This time, however, I managed to slip past unnoticed, and, continuing on all fours, I soon got within our lines again. I was taken to the staff, my exploit was verified, and I received the St. George's Cross of the third degree."

## RAYS OF SUN CAUSED FIRE

Lightning, Mice, Children Had Part in Year's Loss in the State of Nebraska.

Lincoln, Neb.—Sun rays and lightning had a material part in causing fires in this state last year, according to the annual report of Fire Commissioner Ridgell. To these causes is added carelessness as a big factor. The total loss for the year, as reported to the commissioner, was \$1,789,208; but he is of opinion that it easily reached \$2,000,000, as not all fires were reported to him.

Lightning is stated to have been the direct cause of 23 fires, while 105 are attributed to matches, mice, children and the sun's rays. Causes of 253 fires were not ascertained.

The fox terrier was soon at the window. The check had been indorsed "Kiddo Hagenbuch," in care of his "pa." Opposite the signature appeared a mark of the dog's paw, the cashier having pushed an ink pad against it. The money was promptly paid, and the dog pranced away with his envelope carrying the amount.

## Guns Endanger School.

New York.—Testing of the big siege guns at Sandy Hook may close public school No. 100 at Coney Island, nearly nine miles away. Cracked ceilings threaten to fall on the heads of the pupils.

## Proposal in Rhyme.

New York.—Assistant District Attorney Thomas Cuff has received from a young lady a proposal of marriage in rhyme in which she asks for ten yards of rope if there is no hope.

## Operated on 97 Times.

Yonkers.—Mrs. Rose Vital, who has undergone 97 surgical operations, is preparing for another.

# NO CONSCRIPTION IN CANADA

No War Tax on Land—Embargo on Shipment of Live Stock Removed.

During the prevalence of the foot-and-mouth disease in some portions of the United States, an embargo was placed upon inter-state shipments. This also had an effect upon shipments to Canada, and necessarily an embargo was placed upon them making it almost impossible for upwards of a year to ship cattle into Canada, from the United States. This was especially hard on the settler. As a result, Western Canada lost a number of settlers, they being unable to take their live stock with them. Canada is practically free from horse and cattle diseases, and the wish of the authorities is to keep it so.

Recently, though, an order has been issued by the Department of Agriculture, removing the embargo, and settlers are now free to take in the number of head of horses or cattle that are permitted by the Customs authorities and the freight regulations. This will be welcome news to those whose intention it is to move to Canada, taking with them stock that they have had in their possession for six months, and which it is the intention to use on land that they will farm in the Provinces of Manitoba, Saskatchewan or Alberta.

There are thousands of splendid homesteads of 160 acres each in any of these provinces, that may be had upon the payment of a ten-dollar entry fee and fulfilling the requisite living and cultivation duties. These lands are well adapted to the growing of all the small grains, and besides, having an abundance of grass, and sufficient shelter, they are well adapted to the raising of stock.

If one prepares to purchase land, there could be no better time than the present. Prices are low, and particulars may be had from any of the land companies, of which there are several, or from the Canadian Pacific and Canadian Northern railways, whose holdings are in the older settled districts, and whose terms are exceedingly easy to the settler. What these lands will do in the matter of production cannot be more strongly emphasized than in reading the reports of the crops throughout all parts of the Canadian West in 1915. Yields of 50, 60, and as high as 70 bushels of wheat to the acre were numerous, while reports of yields of from 30 to 45 bushels per acre were common. Oats as high as 120 bushels per acre are reported, 50 and 60 bushels per acre being ordinary. The prices realized by farmers have placed most of them on "easy street."

Lately there have appeared articles in a number of United States newspapers to the effect that there was conscription in Canada, or that such a law was likely to be put into effect. We have it from the highest authority in the Dominion that there is no truth in the statement. Sir Robert Borden at the opening of Canadian parliament on January 17th, said:

"In the first few months of the war I clearly stated that there would not be conscription in Canada. I repeat that statement today."

This statement should set at rest the conscription talk that has been so freely used to influence those who may be considering settling in Canada during the war.

It has also been said that there was a war tax on land. Hon. Dr. Roche, Minister of the Interior, over his own signature has denied this, and the promoters of the different provinces join in saying "such a report is absolutely untrue, and has no foundation whatever in fact, nor is there likely ever to be any such tax upon land in Canada."

The general prosperity of Western Canada farmers and business institutions is such that Canada is well able to take care of the extra war expenses without any direct war taxation. This has been well illustrated by the magnificent response to the Dominion Government's recent bond issue, which was more than doubly subscribed for within the first eight hours of its being offered to the public.

(The above appears as an advertisement and is paid for by the Dominion Government which authorizes its publication.)

A new fishhook has prongs along its shank to hold live bait with a minimum of injury.

Throw Off Colds and Prevent Grip. When you feel a cold coming on, take LAXATIVE BUCKLE QUININE. It removes mucus, colds and grip. Only One BUCKLE QUININE. E. W. GROV'S signature on box. See.

The Bohemian 1915 hop crop is estimated at 11,000,000 pounds, 50 per cent decrease compared to the crop of 1914.

## GETS SOUTH AMERICAN TRADE

United States Makes Big Gains With Nations of South and Central America.

Washington.—Loss of the trade of the central powers, mounting into the hundreds of millions since the war began, has been largely counterbalanced by the remarkable increases noted in the foreign trade record with the nations of South and Central America.

Brazil and Argentina, two of Uncle Sam's best customers in Latin-America, have bought enormous quantities of both foodstuffs and manufactured products, goods obtained in previous years from Europe.

Argentina doubled her purchases in the United States in the year 1915. She spent with American firms \$82,000,000, as compared with \$27,000,000 the preceding year. Brazil increased her purchases from \$23,000,000 to \$34,000,000. Chile bought \$17,000,000 worth, an increase of \$4,000,000. Proportionate advances in the year's exports to other countries were an-

nounced by Secretary Re-field, in making public compiled customs returns. Total exports to the whole of South America amounted to \$322,000,000, as against \$229,000,000 the preceding year.

## DOG CASHES HIS OWN CHECK

Prize Fox Terrier Takes Savings Away From the Bank in His Mouth.

Philadelphia.—A dog's appearance at a bank paying teller's window seeking payment of his year's savings fund check is a new wrinkle. Kiddo, the prize-winning fox terrier of Dr. J. H. Hagenbuch of Mahanoy City, Pa., with check in mouth and indorsed by himself, was the lucky canine.

A year ago Cashier W. H. Kohler of the Union National bank jokingly asked the doctor why he didn't take out a savings account for his dog.

"I will," the doctor replied. It became due, and amounted to \$25.50 and the cashier sent out the check to Kiddo Hagenbuch, in care of his "pa."

### ABOUT THE WAR

Dispatches from Saloniki assert allies will begin Balkan offensive in May.

London is uneasy over reports that a great German battle fleet is maneuvering in the North Sea.

Germans, by use of large masses of infantry and heavy losses, retake part of Corbeux wood at Verdun.

British fall back after battle with Turks east of Kut-el-Amara. Turks claim 2,000 British were killed.

Germany has formally declared war on Portugal, which becomes the thirteenth nation to enter the conflict.

Twelve persons were killed and thirty-three injured in a raid by Zeppelins over the northeast coast of England.

The French after setting back the Germans driving on the front west of the Meuse, have occupied the heights of Cote de l'Ole.

Germans claim to have taken ridge west of Douaumont and to have pushed line forward a short distance east of Fort Vaux.

West of Douaumont and around village of Vaux vicious infantry attacks by Germans have broken down, according to Paris.

A. J. Balfour replied to the charges made by Winston Churchill that the British navy is not as strong as it should be. Mr. Balfour asserted that England was never better prepared for war on the sea.

American troops were ordered across the Mexican border by President Wilson to take Francisco Villa and his bandits, dead or alive, who raided Columbus, New Mex., killing sixteen Americans and burning part of the town.

Germany in a note to the United States has admitted that the stand taken by the United States on under-sea warfare is just. Berlin says it was forced into action by England. The Kaiser offers to abide by the old war rules if England will do the same.

The activity of Russian torpedo boats in the Black Sea against coast towns east of Trebizond is continuing with success. According to recent dispatches from Sebastopol, the Turkish coast defenses are crumbling before the intensity of the Russian bombardment.

### WESTERN

George R. Walker, a railroad employee living in Denver, was killed in a railroad wreck near Casper, Wyo.

The Quaker Oil Company at Pittsburg, Pa., declared a dividend of \$1400 a share, which have a par value of \$25 a share.

Papers found on the battlefield opposite Columbus, N. M., revealed that Francisco Villa decided last October to wage warfare against Americans.

Train No. 8 of the El Paso Southwestern railroad, eastbound, reached Columbus, N. M., Friday with the crew and passengers heavily armed. They reported quiet at Hatchita and Victoria.

The physical training of the youth of the United States in order that they may be prepared to defend the country was urged by Governor Carlson in a speech before the Swedish Noon-Day Club at Omaha.

Gen. Carranza does not care to make a statement in regard to the situation resulting from the raid of Columbus, N. M. A rigid censorship has been imposed, and Mexico City newspapers are printing nothing of the raid and the public has not been advised of it.

### WASHINGTON

Senator McCumber introduced resolution in the Senate to direct the President to send armed force into Mexico to pursue bandits responsible for the Columbus outrage.

Three dreadnoughts and four battle cruisers added to the American fleet, built and authorized, would make it the equal in fighting strength of the present German fleet. Admiral Fletcher, commander of the Atlantic fleet, declared before the House naval committee.

### FOREIGN

Germany declared war on Portugal and handed passports to the Portuguese minister.

Jean Mounet Sully, the celebrated French tragedian, is dead in Paris. He was 75 years old.

The Overseas News Agency announces that 2,500 exhibitors took part in the Leipzig fair.

Fred T. Jane, widely known naval author and journalist, died suddenly at Southsea, England. He was 45 years old.

Charles Respa was convicted of dynamiting Canadian buildings by a jury at Sandwich, Ont., and sentenced to life imprisonment.

Revolutionists on a launch from the Portuguese dependency of Macao attacked the gunboat Sui-Wo near Canton with bombs and rifles. The Sui-Wo repulsed the attack and captured the revolutionists.

The British torpedo boat destroyer Coquette and torpedo boat No. 11 have been sunk by striking mines, it was officially announced in London. The announcement says the number of casualties was forty-five.

The Russians found only sixteen Armenians alive in Erzerum out of the usual Armenian population of 40,000, according to information received in Petrograd and forwarded by Reuter's correspondent in the Russian capital.

Gen. Carranza ordered 5,000 troops from various garrisons to move upon the Villa forces. The effect of their advance probably would be to keep the Villa bandits near the border and trap them between the American and Carranza forces.

About 445 passengers and crew of the Spanish steamer Principe de Asturias are missing and believed lost, following the wrecking of the steamer on a rock en route to Buenos Aires from Barcelona, according to a Lloyd dispatch from Santos.

The German cruiser Moewe, which, according to rumors a few days ago, was captured by the British, arrived in a German port, according to an official announcement made at Berlin. She had on board 199 prisoners and 1,000,000 marks in gold bars.

### SPORTING NEWS

At Chicago Battling Nelson, former lightweight champion pugilist, was granted a divorce from Fay King.

Louisiana of Philadelphia won a decision in fifteen rounds over Benny Chavez of Denver in a last round rally at Kansas City.

The National Baseball Commission issued a notice approving the recent legislation by the two major leagues abolishing barnstorming trips.

A bill to legalize fifteen-round boxing bouts in Kentucky passed the House by a vote of 48 to 27. Friends of the bill claim it will pass in the Senate.

Four towns have already signed articles to support a league baseball team this year. The towns are Cheyenne, Greeley, Fort Collins and Loveland.

Edward W. Gardner won his fifth game in the national billiard championship tournament in New York when he defeated Francis S. Appleby, 400 to 329.

James Maturo of Denver scored an easy victory over Jesse Chapman of Chicago, 100 to 64, in the pocket billiard tournament in Chicago. Maturo scored a high run of 23 and went out in 23 innings.

The world's record time for a 500-yard run, established by Tom Halpin in 1914, was bettered for the second time in two weeks in New York when Dave Caldwell of the Boston A. A. defeated Ted Meredith of the University of Pennsylvania by one foot in 1 minute and 13 1-3 seconds.

### GENERAL

The Franklin sugar refinery in Philadelphia, which has been idle for more than a quarter of a century, will resume operations at once, giving employment to 800 men.

Eight hundred Mexican bandits passed Mimbres, N. M., the first station west of Columbus, and were headed west toward Hatchita, N. M., according to Douglas, Ariz., advices.

Former President Taft, speaking on the Monroe doctrine at a dinner of the Unitarian Club in Boston, said he was glad a sufficient force of United States troops was being sent after Villa.

Raids of Mexicans on American towns along the border have been numerous during the last few years, but none of them has equaled the massacre at Columbus, N. M., in scope or daring.

American casualties resulting from the Mexican revolution follow: From 1910 to 1912, inclusive, 47; from 1912 to 1916, inclusive, 99; American soldiers killed on American territory, 22; American civilians killed on United States territory, 29; total Americans killed as result of revolution, 197.

## CARRANZA PAYS HONOR TO TROOPS

SENDS GEN. BERTANI TO BE AT  
FUNERAL OF VICTIMS IN  
COLUMBUS, N. M.

## BODIES ARE SENT AWAY

REGIMENT ATTENDS SERVICES—  
TRUMPETERS SOUND TAPS  
WHEN TRAIN DEPARTS.

Western Newspaper Union News Service.

Columbus, N. M.—With the entire regiment turned out, military honors were paid to the seven troopers of the Thirteenth cavalry who were killed in action when Villa raided Columbus. Capt. S. M. Lutz, regimental chaplain, held services in front of the post hospital. The band, which suffered severely in action, played Chopin's funeral march. Troop K followed with guidons draped in black. The chargers of Griffin and Kindall, the two members of K troop killed, were led in line with saddles covered with crepe.

Gen. Bertani, leader of the Carranza forces, which reached Palomas, Chihuahua, six miles south of the border from Guzman, marched with the regimental officers. He had been sent by Carranza military authorities to join the funeral procession as a mark of respect for the American dead. The bodies were escorted to the train by the band and the regiment, and when the train departed for the East, regimental trumpeters sounded taps.

The dead sent away were: Sergt. John G. Nievergelt, 25 years old, of the regimental band, killed by the Mexicans while trying to get his wife and daughter from their quarters in the town to the camp. Mrs. Nievergelt and her daughter lay beside the body until the American troopers drove the Mexicans out of range.

Sergt. Paul Simon, regimental band, 30, born Stettin, Germany. No relatives yet found.

Sergt. Mark A. Dobbs, 24, attached to machine gun platoon. Corporal Harry E. Wisewell, troop G, 35, born Mount Washington, Ohio; killed while carrying a message from camp to the troop fighting the Mexicans at the border gate.

Private Thomas Butler, troop F, 26, born Syracuse, N. Y.

Private Fred A. Griffin, troop K, 23, born Pickins, S. C.

Horseshoer Frank Kindvall, troop K, 26, born Sweden.

### GERARD TO QUIT BERLIN.

Ambassador Given Leave of Absence for Rest and Change of Scene.

Washington, March 13.—James W. Gerard, American ambassador at Berlin, is expected to return to the United States within the next few weeks. The probable duration of his stay in this country is not known. Secretary Lansing has urged the ambassador to come for a rest and change of scene.

It was suggested that the President may deem it advisable to have Mr. Gerard exchange posts with Henry Morgenthau, the ambassador to Constantinople, now in this country on leave. The fact that the State Department had offered Mr. Gerard leave at this time when the relations between the two governments are strained, also was construed to mean that it might be the forerunner of developments of the gravest importance.

### Sudden Thrust Defeats French.

London, March 14.—German offensive in Verdun region slackened. Germans claim to have retaken most of Corbeux wood. At Douaumont Friday, the French war office reports, the Germans rushed forward three times in columns of four but were mowed down. By a sudden thrust in the Champagne, Germans penetrated French lines to a depth of two-thirds of a mile on a front of 1,400 yards. Berlin dispatches report renewal of fighting between Italians and Austrians in Albania.

### Employees Ordered to Flee Mexico.

Laredo, Tex., March 13.—American concerns operating in the Monterey district and in the vicinity of Mapi, state of Durango, have instructed their employees to leave Mexico at once, owing to unrest among the lower class of Mexicans, according to American passengers from that section, 250 of whom reached the border here Sunday. There is no apparent ill feeling against Americans in Nuevo Laredo and the border in this vicinity is quiet.

## PRUNE R. R. VALUATIONS

TAX COMMISSION CUTS ASSESSMENT TWO MILLION.

Mine Output Values Will Be Certified to County Officials as Soon as Tabulated by Secretary.

Western Newspaper Union News Service.

Santa Fe, N. M.—Valuations of the Southern Pacific and El Paso and Southwestern railroads were reduced from figures set by the State Tax Commission for 1916 to the figures set for 1915, a reduction of something like \$2,000,000 in all. The El Paso and Southwestern had been raised about a million and a half and the Southern Pacific nearly half that much.

The action was based on a showing that in connection with the annual report made to the State Corporation Commission by the railroads certain allowances should be taken into consideration, in arriving at the actual net earnings.

The assessment of the E. P. & S. W. now stands at \$20,833,825; that of the Southern Pacific stands at approximately \$8,041,670.

The commission also ordered an increase in the valuation of the Postal Telegraph Company from that fixed at the November meeting. The increase is from \$75 to \$100 per pole mile and from \$7 to \$9 per wire mile.

The work of determining the net value of the output of each of the producing coal and metal mining concerns of the state during the calendar year of 1915 was completed and as soon as the valuations can be tabulated by counties they will be certified to the county commissioners by Secretary Howell Earnest.

The commission adjourned, after having been in session for a week and will not meet again in regular session until the third Monday in July.

### Columbus Shot Up; Some Killed.

Columbus—Pancho Villa, with between 400 and 500 men, attacked Columbus at 4:30 a. m. on the 9th, shot up the town, killing a number of civilians, men and women, and then retreated about 6 o'clock under the fire of three troops of the United States Thirteenth Cavalry. He left part of the town in ashes.

### \$300,000 Contract at Tyrone Camp.

Silver City—A firm of contractors, who have been doing a large amount of the construction work at Tyrone copper camp of the Burro Mountain Company, have been awarded another contract for houses for employees to cost \$30,000. There are to be ten houses in the new group.

### Freighter Goes Over Cliff.

Silver City.—D. B. Graham, a freighter, went over a cliff on the Mogollon road with an oil tank and twelve-horse team. He sustained minor injuries, though how he escaped with his life is a miracle. One of the horses was so badly injured that it had to be shot.

### Farmers Build 200-Foot Dam.

Maxwell.—Farmers in the Hard-scrabble district, on Red River, have completed a 200-foot concrete dam across that stream to supply water to the 1,100 acres of land in their project. Every acre will be cultivated this year.

### Rio Arriba Has Another Killing.

Santa Fe.—District Attorney Alexander Reed went to Rio Arriba county to investigate the alleged killing of Alejandro Maestas by Celso Roybal near San Jose de Chama. This is the second killing reported in two days.

### New Mexico Pioneer Merchant Dead.

Santa Fe.—Thomas D. Burns, who served six terms as a member of the New Mexico Senate, was a member of the constitutional convention and of the Republican State Central Committee, died at his home at Tierra Amarilla, Rio Arriba county. Burns was one of the best known of New Mexico's pioneer settlers and owned a string of general stores.

### Jilted Man Shoots Girl; Kills Self.

Las Cruces.—Because she refused to marry him, Ramon Medina, a Porto Rican, shot and fatally wounded Neuvias Maestas, a 19-year-old Mexican girl, here. Medina then shot and killed himself.

### Miesse Postoffice Burned.

Deming.—The postoffice at Miesse was destroyed by fire. Mr. Klem, clerk, and son-in-law of Postmaster Casler, was severely injured.

### Improvements at Indian Agency.

Gallup.—Improvements initiated at the Tobiachi Indian School are being pressed rapidly.

## NEW MEXICO STATE NEWS

Western Newspaper Union News Service.

COMING EVENTS.  
April 7.—M. E. Conference at Springer.  
July 4-8.—Cowboys' Reunion at Las Vegas.

A K. P. lodge may be formed at Las Cruces.

Silver City's new hotel has been formally opened.

It is announced that Magdalena will have a smelter.

A large acreage of cotton will be planted near Artesia.

More copper has been found in the Burro Mountain district.

The Elks' Lodge of Raton is to hold a street carnival in April.

The Republican State Central Committee will meet in Santa Fe March 14.

Santiago Lucero has been arrested at Estancia on a charge of stealing some horses.

A fire has been raging for about a week on the Gonzolitas mesa southwest of Springer.

The old Carrizozo ice plant, which has been idle for some time, is to be operated again.

Catarino Estrada, probably 80 years of age, was found dead in his cell in the Deming jail.

Land for the sugar beet experiment planned in Dona Ana county this season has been selected.

Senator Fall has introduced in Congress a bill to provide a \$100,000 federal building for Silver City.

The meeting of the Panhandle Bankers' Association will be held in Clovis on June 6 and 7.

Mrs. Joe Sherman, living near Talara, was shot accidentally in the breast with a .22-caliber rifle.

The state is to aid Luna county in erecting a bridge over the Mimbres on the Deming-Silver City road.

Farmers' week in Colfax county was a great success, nearly 700 people attending the various meetings.

Three thousand dollars' worth of beans were raised on a single quarter-section near Wagon Mound last season.

Union county has been divided into three commissioner districts, and several new voting precincts created.

The city council of Raton has passed an ordinance providing for the establishment of a board of public works.

Clovis will vote on a \$35,000 bond issue for water, sewer and lighting extension at the municipal election April 4.

Roswell golfers will have an organization and play on ground where half a century ago the buffalo ranged in plenty.

R. S. Harrington, of Santa Rita, was fatally injured when he stepped between two cars just as they were backed together.

A new church at Espinola was formally dedicated by Bishop Frederick B. Howden, Rev. Leonidas Smith, pastor, assisting.

The Rio Grande Valley sugar beet project is well under way and the planting of seed will begin within a very short time.

Delfino Barreras, accused of killing Pedro Lopez at a dance at Mountainair, has been bound over to the grand jury in the sum of \$1,000.

A race track that is expected to be the best in San Juan Basin is being built at Aztec by the management of the San Juan County Fair.

A broom factory is being established at Lovington.

W. F. Cochran, formerly Eddy county treasurer and later assessor, an old-timer in New Mexico, died in Roswell of pneumonia.

Charles C. Lin and Ray Morley recently killed an old lion and two cubs, capturing the third kitten, in the Magdalena Mountains.

Six or seven rigs are engaged in putting down deep wells at Vaughn and the people are optimistic over the chance of getting artesian water.

William H. Foster, former sheriff of Luna county, died at his home in Deming after an illness of six months with cancer, aged 44 years.

The bond of Emery E. Coursey, who is charged with the murder of Clyde Wiggins was fixed at \$10,000 at Las Vegas by District Judge Leahy.

That Celso Roybal charged with killing Alejandro Maestas, has ended the chase after him by giving himself up to the authorities at Angostura, two and a half miles north of Espanola, was the information received at Santa Fe.

## Everything in Hardware From the Most Reliable Makers

The first thing we look when we buy anything is the name of the maker. Long experience in the hardware business has taught us who make reliable goods.

You get the high quality and the low price when you buy from us. We want you for a customer because we know that once you become a customer you will remain one.

Our firm is one that makes good on its promises, on its sales and in everything.

## ROAD BUILDING

### MATERIALS IN MODERN ROAD

Hummelstown Pike, Considered a Model by Experts, Built by Telford-Macadam Method.

The Hummelstown Pike, near Harrisburg, Pa., has been considered by experts to be a model road. It was built in 1908, using the telford-macadam construction; native limestone was used for the telford course, and Birdsboro trap rock for the top, says a writer in Northwestern Agriculturist.

There are certain sections of this highway that were flooded during a cloudburst, and the top surface which was washed off the road was replaced by grouting with one part cement and two parts sand.

The road was built nine inches in depth, five inches telford and four inches macadam course. Shortly after completion there were several surface treatments of a light coaltar product, consisting of a mixture of water, gas, tar, cement, liquid asphaltum, road oil, carbolic disinfecting powder, sulphate of copper and oil of wintergreen. The sulphate of copper was used to prevent the oils from becoming ignited, and the wintergreen counteracted the odors of the others. A curious effect of the mixture was said to be its disinfecting power, there not being a single contagious disease in that section. Unfortunately, however, this does not appear to be lasting, as at this time, four years after it was applied, there is no evidence of this tar product on the road.

During the last season the maintenance department resurfaced another section of this road between Rutherford Subway and Swatara Creek. This work consisted merely of placing about four inches of crushed stone upon the old roadbed, and binding with sufficient screenings wetted and rolled.

### EXPERTS MUST BUILD ROADS

Explanation of Failure of Authorities Generally to Maintain Roads and Streets.

The astonishing results of a census taken recently on a secondary thoroughfare leading out of London showed only 3 per cent of horse-drawn vehicles. The exact count was 15 vehicles of the latter class to 500 vehicles propelled otherwise than by horses. Herein lies both an explanation of the failure of public authorities generally throughout the world to maintain roads and streets in good condition, and also a presentation of the difficulties that road constructors now confront.

A similar example of the extraordinary change that has occurred in the use of roads in recent years is that of a furniture manufacturing concern in Easton, which delivers on its own trucks in New York city instead of using the already-constructed steel roads, namely, the railroads. This concern uses the ordinary roads. A con-

English Road Built to Last.

siderable tonnage is thus transferred from the steel roads, specially constructed to bear it, to the country road, not constructed for any such weight or friction. It has thus come to pass that the science of engineering, which was called upon to furnish experts to railroad companies, is now also called upon to furnish experts to road-building authorities.

The greater the pressure of tonnage, the heavier the expenditure must be on the structure that is to withstand that pressure, whether it be railroad, country road or city street.

### ANNOUNCEMENT FEES

During the coming campaign the Outlook will carry the names of all candidates who desire to present their names to the voters through these columns. This will necessitate the use of our columns for several months and at our regular rate is well worth all that is asked for the service which is as follows: For all county office announcements the sum of \$10.00 will be charged and for district and legislative announcements \$15.00, cash in advance. Each candidate announcing will be given a brief write-up, but if an extensive notice is desired it will be charged for at our regular advertising rate.

Woodrow Wilson is a great president, a great leader. He has turned the planks of the Baltimore platform into scraps of paper.

Senator Stone will not reply to Mr. Root's speech after all. He says: "I have decided that so far as the Root and Roosevelt attacks upon the administration are concerned the game is not worth the candle." This is especially true when one does not know the game.

Wilson describes his entry in the Ohio primaries as a technical compliance with law. If technicalities are to rule Wilson's conduct in this campaign, he has no business to be running at all—for there is a technicality of the Baltimore platform which forbids it.

Congressman Ashbrook, Democrat, of Ohio, was given five days' leave of absence on account of his father's ninety second birthday celebration. This is a novel idea for the House of Representatives to entertain. If Mr. Ashbrook will be patient the voters of the 17th district of Ohio will give him an indefinite leave of absence from his very exacting Congressional duties, in November of this year.

The safe perspective of the weak permits a correspondent of the New York "Evening Post" to size up the effects of Wilson's visit to Chicago in these words: "The prevailing opinion is that the Democratic party has not gained anything by the President's speeches. Its internal divisions have been accentuated, and no matter what it does between now and the next election, the neutrals and independents will continue to regard it as a poor instrument for the initiation and application of new defence policies."

Democratic committees in Congressmen Sherwood's Ninth Ohio district have passed resolutions demanding that the General "give his earnest support and his vote to the preparedness plan legislation submitted to Congress by the national administration." The only plan which the administration has ever "submitted" is the Continental Army plan—the present status of which, so far as the administration is concerned, is in the discard.

Josephus Daniels is willing to leave it to the committee of Congress to decide the type of submarine which we should build. In other words, that old salt, Lem Padgett of Tennessee, whose limit of craft is a flat-bottomed scow, shall say what kind of an undersea boat the American navy needs. The Navy Department has many qualified experts who are competent to advise the Secretary in this matter—but the Secretary evidently thinks the opinion of a few politicians is much better than that of all the experts.

The only purpose of a tariff commission would be to ascertain facts and report them to Congress. But what kind of facts? That is the all important question. The Democratic party wants only faces showing what amount of tariff is necessary to produce revenue. The Republican party wants facts to show what amount of tariff is necessary to protect the American producer from ruinous competition with the cheap labor and "dumping" system of foreign countries. A Democratic tariff commission would be nothing more or less than a gatherer of facts in support of a revenue tariff. A Republican commission would gather facts showing how much protection American industry needs.

### RESUME OF NEW MEXICO'S POSSIBILITIES

(Continued from first page)

guard against the incurring of obligations by the countries beyond their ability to meet them readily, and the cities and towns of the state have been conservative and cautious not to make improvements that would necessitate burdensome taxes in order to meet the payments.

At the time of its admission into the Union, the State of New Mexico was granted 12,000,000 acres of government land, the proceeds from which were to be used for specified purposes, including the maintenance of certain educational institutions throughout the state.

This has enabled these institutions throughout the state. This has enabled these institutions and the public schools of New Mexico to be conducted successfully with but little aid from general taxation and the educational, semi charitable and penal institutions of the state are equipped in a manner that would do credit to any of the older commonwealths, and, with improvements that may be necessary with increased growth, will be adequate for many years to come.

The taxes, therefore, are not oppressive, and under the wise provision of the Constitution cannot be made so. The territorial tax rate for government purposes in 1909 was 14 mills; in 1910 it was 11 mills in 1911, 10 mills, while at the present time, 1915, it is but 3.95 mills. This reduction was made possible by the increase in property values, as well as careful administration of state affairs. With financial conditions in the state as they are, the new comer may rest assured that the foundation is sound, and that the danger of increasing taxation has been practically eliminated.

The total area of the State of New Mexico is 122,503 square miles or approximately 78,401,920 acres. It covers a territory greater than all the states of New England combined. A single National Forest in this state is larger than both Delaware and Rhode Island together. Considering this fact it may readily be seen that conditions here are not crowded and that there is plenty of room in which to expand.

New Mexico is the Land of Opportunity beckoning the homeseeker, the permanent investor and the capitalist. But it must not be assumed that it offers immediate re-

turns on any investment. No one should come here with the idea that a living may be made from the very beginning for that is not possible in any country. One should have a working Capital that would meet all requirements for living and improvements until productions are sufficient to supply the needs. Otherwise the results are sure to be unsatisfactory and may be disastrous. But to the man of average means, coupled with an intelligent application of energy, there are splendid opportunities in New Mexico for increasing his wealth. There are many large tracts still remaining open to entry located in the mountainous sections but available for farming, while there are several million acres which can become available and profitable by being brought under irrigation by storage of water, diversion or by pumping. Then there is the dry farming method which has been amply proven in many parts of the state, and under it some surprisingly profitable farms have developed.

(Continued in next issue)

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Address: F. J. CHENEY & CO., Toledo, O.

## OSCURO

E. F. Jones is busy collecting poll tax before school election.

The "Sew and So" Club held its regular meeting at the home of Mrs. E. G. Rafferty Saturday. A pleasant social time is reported.

Joe Ashford had the building he purchased from Corn Bros. moved onto his lots west of the railroad. Earl Black is putting in the foundation and repairing the building for immediate occupancy.

W. H. Corwin is plastering the outside of Dr. Ranniger's house. He will also build a large porch and add another room before completing his contract.

Ernest Matthews has purchased five fine thoroughbred stallions and several mares for the I Bar X Ranch. Mr. Matthews is fast placing the ranch among the leading thoroughbred stock ranches of the state.

The people of the community are curious as to the whereabouts of the U. S. flag belonging to the school. Also why it is so seldom raised. Has the School Board forgotten its existence?

## SCHOOL NOTES

Eighth Grade Promotion Examination, April 7th and 8th. Any teacher who has not made arrangements with the county superintendent for applicants for this state examination will communicate immediately that questions may be sent to the district. Arrangements have been made to hold examinations at Carrizozo, White Oaks, Capitan, Oscuro and Ruidoso.

Seven months' terms have closed in three rooms in the Lincoln District, the fourth, La Sierra, closes this Friday. Principal L. M. Stone will complete the term of the Gov. Spring School. Misses Brazel, Stevens, and Wicklund will return to their homes.

E. F. Funk passed through the city on his way to Alamogordo, having completed a successful term of eight months at Nogal Mesa.

School opens this Monday at Encinosa with S. R. Moss again in charge. Early in April is set for the opening of the other two schools of this district.

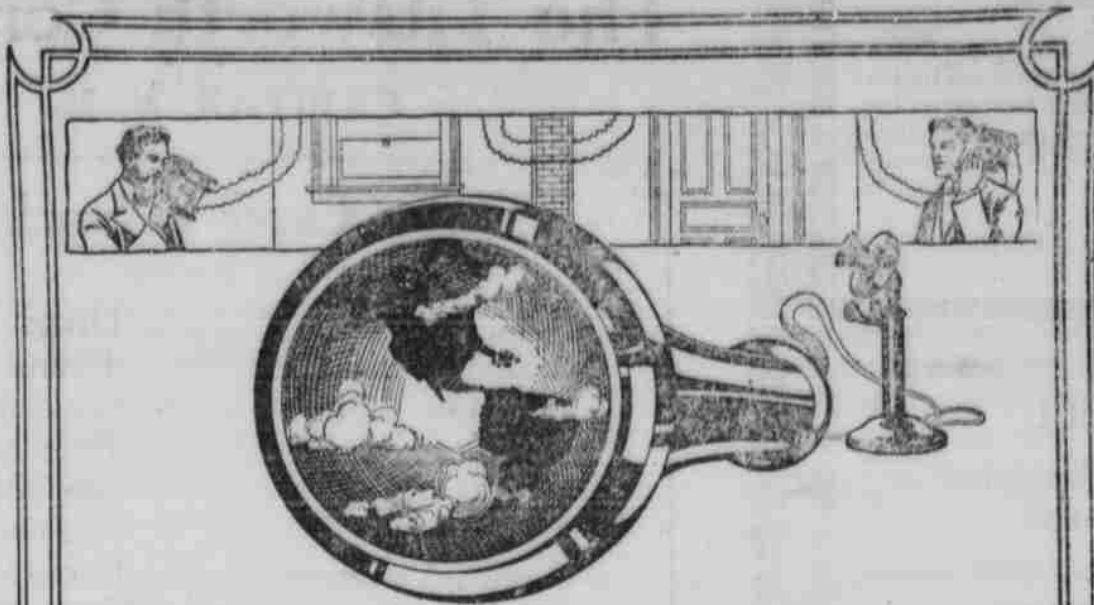

The Jack's Peak School has been in session two weeks. Mrs. Edna C. Burnett teaching the second term. The new building will soon be completed.

Jearilla has contracted with S. C. Burnett for a seven months' term to begin in April. The Gallinas Mountain School term will begin about the same time.

Oldtimers are pleased with the unusually large attendance at White Oaks, monthly enrolment 128 pupils with 95 in average daily attendance—The largest in many years. The territory cut off for the Carrizozo District shows a monthly enrolment of 310 with 288 in average daily attendance.

The school patrons, directors, and teachers are to be commended on the splendid showing of this section.

The great enthusiasm of the Capitan meeting was later in evidence in all of the meetings addressed by the Hon. Filadelfo Baen, Assistant Superintendent of Public Instruction, who visited some of the districts with Mr. and Mrs. W. L. Gumm. Addresses were made to the patrons of Lincoln, Honda, Picacho, and Arabela Schools in these districts and Glencon, Gonzales Ranch, San Patricio, Tinnie, Escondida, Blue Water, Meek, and Rabenton were inspected and inspiring talks given to the children. The party were cordially en-

## Two Score Years of Telephony

**F**ORTY years ago, Alexander Graham Bell spoke over the feeble instrument he had invented, to Thomas A. Watson—only two telephones in the world and a hundred feet of wire.

Recently the same men spoke to each other from the Atlantic to the Pacific over the Transcontinental Line—more than fifteen million telephones in the world and nine million in the Bell system. Twenty-one million miles of telephone wire connect every state in the union, and the wireless telephone has extended speech across our ocean boundaries.

A chorus of twenty-eight million Americans is brought into perfect unison daily by the Bell System, that unifier of the nation and harmonizer of distant peoples, which bridges distances, outraces time and makes a whole nation one community.

**The Mountain States Telephone and Telegraph Co.**

tertained by the directors and teachers of the districts. All agree that Mr. Baen's entertaining and instructive speeches will do more for the educational advancement of these districts than any other agency in their history. Lincoln county is indebted to Mr. Baen for the time and talents he has spent in this county.

## NOGAL

Mrs. Bettie Emerson who has been quite sick is some better now.

Peaches and apricots have bloomed out and are looking fine.

Ed Long is plowing his land which adjoins the townsite on the west.

Mrs. Hannah Dalton is at her place on Tortolita canyon planting garden.

All the homesteaders in Coyote draw are moving out as they have not been able to get water.

The protracted meeting of the Nazarine faith continued all last week at Nogal.

The extreme drouth is hindering farmers from planting crops. Those who have no water to irrigate are up against it badly unless it rains.

## THE BANKER AND FARMER

By Peter Radford.

One of the greatest opportunities in the business life of the nation lies in practical co-operation of the country banks with the farmer in building agriculture and the adventure is laden with greater possibilities than any forward movement now before the American public.

A few bankers have loaned money to farmers at a low rate of interest and oftentimes without compensation, to buy blooded livestock, build silos, fertilize the land, secure better seed, hold their products for a better market price, etc. The banker in contributing toward improving the grade of livestock, the quality of the seed and the fertility of the soil, plants in the agricultural life of the community a fountain of profit, that, like Tennyson's brook, runs on and on forever. Community Progress a Bank Asset.

The time was when money loaned on such a basis would severely test the sanity of the banker; such transactions would pain the directors like a blow in the face. A cashier who would dare to cast bread upon waters that did not return buttered side up in time for annual dividends would have to give way to a more capable man. This does not necessarily mean that the bankers are getting any better or that the milk of human kindness is being imbibed more freely by our financiers. It indicates that the bankers are getting wiser, becoming more able financiers and the banking industry more competent. The vision of the builder is crowding out the spirit of the pawnbroker. A light has been turned on a new world of investment and no miser ever received as large returns on the investment as these progressive bankers, who made loans to uplift industry. The bankers have always been liberal city builders, but they are now building agriculture.

A Dollar With a Soul

It is refreshing in this strenuous commercial life to find so many dollars with souls. When a dollar is approached to perform a task that does not directly yield the highest rate of interest, we usually hear the rustle of the eagle's wings as it soars upward; when a dollar is requested to return at the option of the borrower, it usually appeals to the Goddess of Liberty for its contractual rights; when a dollar is asked to expand in volume to suit the requirements of industry, it usually talks solemnly of its redeemer, but soul material has entered into the vaults of our banks and rate, time and volume have a new basis of reckoning in so far as the ability of some of the bankers permit them to co-operate in promot-

ing the business of farming.

God Almighty's Noblemen.

These bankers are God Almighty's noblemen. Heaven lent earth the spirit of these men and the angels will help them roll in place the cornerstones of empires. They are not philanthropists; they are wise bankers. The spirit of the builder has given them a new vision, and wisdom has visited upon them but-

## CARRANZA ISSUES THREAT OF WAR

TO RESIST "PUNITIVE EXPEDITION" UNLESS GIVEN "RECIPROCAL RIGHT."

## FUNSTON'S ARMY READY

WILSON'S ORDER TO 7,500 TROOPS IS TO STRIKE QUICK AND SURE, WHEN READY.

Western Newspaper Union News Service.

**TROOPS**—United States forces concentrating at border points and orders sent all points in western part of country to be ready to entrain at any minute; 7,500 men and twelve aeroplanes pursue Villa, who killed 16 Americans, wounded many and destroyed half of Columbus, New Mex.

**FUNSTON**—Maj. Gen. Fred. Funston to have supreme command of expedition but War Department orders him to remain on border, and actual leadership probably will go to Brig. Gen. Pershing. Four regiments of cavalry ordered from interior for border patrol duty.

**SECURITY**—Movements of U. S. troops and plans for expedition kept secret so Villa will get as little warning as possible.

**VILLA**—Reported at La Ascension, southwest of El Paso and on railroad from Mormon colony to border and also headed for El Tigre, in Sonora, where Americans are at mines.

**CARRANZA**—Issued manifesto declaring Mexican government would not permit American troops to cross border, unless reciprocal privilege was granted to Mexicans.

"I am sure that I interpret in this matter the national sentiment, and that the Mexican people will comply in a dignified manner with their duty, to sustain their rights and sovereignty if unfortunately this draws us into a war—a war which the United States can never justify. We will not be responsible for the disastrous consequences. Upon the heads of the traitorous Mexicans who, within and without this country, have labored to produce this result, will fall the inevitable justice of the people. CARRANZA."

Mexico City, March 13.—Gen. Carranza Sunday issued a manifesto to the nation declaring that under no circumstances would the Mexican government grant the right to the United States to violate Mexican territory by sending in an armed force in pursuit of Villa without consent and the reciprocal privilege being first obtained and admitted. Word was sent to the confidential agent of the Mexican government in Washington to make immediate representations to this effect.

Washington, March 13.—Gen. Carranza's request for permission to send Mexican troops into American territory to pursue bandits who escape across the border will be considered by President Wilson and Secretary Lansing today.

It has been considered practically certain the reply would be to the effect that American troops were only being sent into Mexican territory in pursuit of the Villa outlaws because the de facto government of Mexico did not have sufficient forces on the scene to deal with the situation and that whenever bandits should cross into American territory where there was not sufficient American soldiers to take them into custody, the right of entry would be accorded Carranza troops.

This, it is believed, will be satisfactory to Carranza and make it possible for him to acquiesce in the operation of American troops in northern Mexico without stirring up popular sentiment among the people against him.

Secrecy regarding Gen. Funston's plans for moving against Villa and his bandits has been so rigidly enforced at the War Department that even high officials of the government are in doubt as to whether American troops actually had crossed the Mexican border.

Secretary Baker announced that the Twenty-third Infantry, now at Galveston, Tex., had been ordered to El Paso because of fear of Mexican attacks felt in many towns along the border. The regiment, about 1,000 strong, will be stationed at points designated by Gen. Funston.

Orders calculated to complete in detail every arrangement for the movement of the American forces into Mexico have been issued by officers of the general staff. Nothing has been omitted in the program recommended by Gen. Funston.

Every move by the department to execute the President's order to hunt down Villa's bandit army in northern Mexico, who killed sixteen Americans at Columbus, New Mex., wounded many others, and then set the town on fire, is cloaked in secrecy in accordance with Funston's suggestion.

## WHEAT SOWN FOR BIG YIELDS

Summer Fallowing Done in June Not Only Kills Many Weeds, But Saves Moisture for Future.

In growing my dry land crop of forty-eight bushels to the acre the past season the summer fallowing was done the fore part of June, the year previous. Experience has taught us that this is the best time, as it not only kills the many weeds but conserves the moisture, thereby storing it for future use, writes George E. Owen in Denver Field and Farm. My dry land tract has been farmed for nine years, but by the alternating method. Only eighty acres out of the one hundred and sixty acres are cropped each year.

Many have predicted that in a few years the strength of the soil would run out, and that it would have to be left for a number of years, so as to regain its former productiveness. I find, however, that the land rather than diminishing is gradually gaining in productiveness. The soil is a clay loam and has a gradual slope to the south. The first year it was farmed the sod was broken out to a depth of four inches. Each succeeding year it is plowed two inches deeper, so as to have the subsoil on top. After plowing the ground is then harrowed so as to even it and conserve all the moisture.

There have been times when the weed seed failed to come up before plowing. It had to be then disked to kill the weeds. If they had been left alone it would have been as hard on the ground as if a crop of wheat had been raised. The seeding is done about the middle of September. The drill used is a disk press which sows from twenty-seven to thirty pounds to the acre. The kind of seed is the Red Russian.

Wheat raised on irrigated land may be sown on dry land by seedling more to the acre. The past year seventy-six acres yielded 2,642 bushels of high-tested wheat. Twenty-seven pounds of wheat was sown to each acre. When thin sown the wheat plants have more room for rooting and produce larger heads. The room in between the rows provides the moisture for the growing grain.

## SORGHUMS TO PRODUCE MEAT

More Money Brought Into Sub-Humid Regions by Sale of Stock Than All Other Sources.

In no section of the country has a permanent system of agriculture been built without the use of live stock. A very careful observation of the conditions that are prevalent in the sub-humid sections of the United States shows that more money is brought into those sections through the sale of horses, cattle, sheep and hogs than from all other sources combined, writes W. A. Cochran in Farmers' Mail and Breeze. The experimental work of the agronomists and cerealists indicates that the grain sorghums probably are the most valuable of all of the grain and forage crops that have yet been tried. This also is indicated by the practice of the better class of farmers in the same regions who are continually increasing the acreage devoted to kafir, feterita, milo, sorghum and sudan grass and at the same time are decreasing the acreage of corn, oats, barley and other crops that are especially adaptable to the more humid regions.

It is essential that the dry land farmers as well as the farmers in other sections should realize that the chief function of live stock is to supply a market for the feeds that are produced in the local community, and that the live stock business cannot be separate and distinct from farming; that the best live stock men are almost invariably the best farmers in the community and that the best farmers are as a rule men who give a considerable amount of time and attention to live stock.

### Soil Enrichers.

If you are thinking of using some fertilizing plants or soil enrichers think of cowpeas or alfalfa. They both draw nitrogen from the air and store it in the soil, and they do this while producing a most valuable crop for hay or food.

### Be Regular in Milking.

Early milking morning or evening one day and later milking morning or evening another day not only lessens the output, but tends to disturb functional activity and prevents maximum yield for the lactation period.

### Floor Drafts.

Make your poultry house comfortable. Watch for floor drafts. Open the windows during the day, and your house will be dry and your birds hardy.

### Safety First With Bulls.

Every few weeks somebody gets hurt by an ugly bull who is long on horns and short on politeness. Saw 'em off quick. Better be safe than sorry.

## EPITOME DE LA SEMANA

Una breve relación de acontecimientos en curso en este país y en el extranjero.

Western Newspaper Union News Service. Oeste.

La Quaker Oil Company en Pittsburgh, Penn., anunció un dividendo de \$1.400 por acción; estas son al par de \$25.

Un hombre fué matado y otro seriamente herido en una explosión de nitroglicerina a varias millas de Tulsa, Okla., que redujo a pedruzcos muchas ventanas en Tulsa y sacudió muchos edificios.

Pérdidas enormes en marranos, ganado, caballos y ovejas por agricultores en las tierras bajas de los ríos de James y Missouri, cerca de Yankton, S. D., se reportan por los partidos de asistencia patrullando en botes los varios distritos que sufrieron de las inundaciones.

Con el fin de cambiar el lugar de la conferencia de gobernadores del oeste de Butte, Mont., a Salt Lake City, y tenerla un día antes de la apertura de la conferencia nacional de gobernadores, que se tendrá en Salt Lake City en la última parte de junio, se va a presentar una proposición a los ejecutivos del oeste por el gobernador Lister de Washington, presidente de la conferencia del oeste, por medio del gobernador Withycombe de Oregon, su secretario.

### Washington.

N. D. Baker ha entrado en el curso de sus obligaciones a título de secretario de la guerra en sucesión a L. M. Garrison.

"Nuestro ejército ha cruzado la frontera con el objeto de coger a Villa," telegrafió a Carranza el secretario Lansing.

El senado pasó un proyecto de ley revisando los artículos de guerra, las leyes especiales gobernando las fuerzas militares del país, que se han quedado virtualmente sin enmienda alguna desde el año 1806.

Después de un debate de cuatro semanas el senado votó el proyecto de ley de Shields que provee del desarrollo de fuerza hidráulica en aguas navegables por medio de capital privado. El voto mostró 46 por y 22 contra.

### General.

Ocho cientos bandidos mejicanos pasaron por Mimbres, N. M., la primera estación al oeste de Columbus, dirigiéndose hacia Hatchita, N. M. según reportes procedentes de Douglas, Ariz.

Una carga de tren completo de azúcar de las islas Hawaii, la vanguardia de una expedición de 250,000 toneladas, mandadas por rieles desde San Francisco hasta la costa atlántica, llegó a Filadelfia.

Las incursiones criminales de bandidos mejicanos en las ciudades de la frontera durante los últimos años han sido bastante frecuentes, mas ninguna había todavía alcanzado las proporciones de la última, en Columbus, N. M.

La ciudad de Columbus, N. M., está parcialmente en ruinas y no menos de diez y seis ciudadanos americanos son muertos. A resultas de una incursión de bandidos a este lado de la frontera el jueves, por la mañana temprano, con Pancho Villa a la cabeza de 1,000 de sus bandidos. Los mejicanos pagaron caro su hecho. Pablo Lopez, teniente en jefe de Villa fué matado y algunas docenas de bandidos cayeron bajo el fuego de los ciudadanos y de los soldados americanos.

### Extranjero.

Los Rusos encontraron solo a diez y seis Armenios en vida en Erzerum de la ordinaria población de 40,000 según informes recibidos en Petrograd y enviados por el coronel de Reuter en la capital rusa.

Un despacho procedente de Atenas al Exchange Telegraph Company reporta rumores de la muerte de Ever Pasha, ministro de guerra de Turquía, mas han sido en vano todos los esfuerzos hechos para confirmar o refutar las noticias.

### Acerca de la guerra.

Alemania declaró la guerra contra Portugal, que se vuelve así la décimatercera nación beligerante en el grand conflicto.

Londres no está tranquila acerca de las noticias anunciando la presencia en el mar del norte de una gran flota alemana.

El reporte oficial de Alemania anuncia la captura del fuerte de Vaux, mas los reportes más recientes de París dicen que es mentira la noticia.

## COLORADO

Noticias del estado. Notas especiales recogidas por todo el estado centenario.

Western Newspaper Union News Service. Colorado.

La fecha para la exhibición anual de ganado del occidente tendrá lugar los 20-24 de enero.

Los cultivadores de papas del condado de Weld se han juntado con la Asociación de estado.

Los alimentadores de ganado de Longmont están recibiendo los precios más altos por sus animales.

Las minas de carbón del condado de Garfield en South Cañon han sido cerradas por un período indefinido.

Contratos se han firmado en Fort Collins para el cultivo de más de 14,000 acres de remolacha de azúcar.

Se dice que los ganaderos del condado de Mesa se opondrán a la proposición de la ley de rebajas a fin de que no se tenga elección en noviembre.

Más de un millón de bushels de trigo hay en Colorado, marzo 1, arriba de la cantidad de hace un año, según las cifras de la oficina de cosechas del gobierno.

Thos. B. Mitchell, de 78 años de edad, uno de los más ancianos agricultores del condado de Washington y miembro muy notable del G. A. R., expiró en su casa en Akron.

El estado de Montana quiere saber cómo Denver puede guardar el por ciento de muerte de los minos tan bajo y mantenerse en este respecto tan alto en la lista de las ciudades americanas.

El Senador Helen Ring Robinson, uno de los representantes de Denver en el proyecto de paz de Ford, retornó a casa con la declaración de que la famosa misión no fué de ningún modo inútil.

La corte suprema de estado concedió el favor de un nuevo juicio a John Jones, un negro estropeado sentenciado a muerte en el condado de Routt por la muerte de Bale Herndon, un guardia de ovejas.

George W. Bixler fué nombrado presidente de la cuarta campaña anual de "limpieza general," que se emprenderá con la esperanza de hacer de Denver una ciudad absolutamente sin mancha alguna.

Otra medida con el fin de oponerse a la práctica de hacer entierros los domingos, y ya otra en favor de un general despertar antes de la felicitación en Denver, fueron tomadas en el mitin de la Alianza Ministerial de Denver.

El bloqueo de nieve en Cumbres Pias se terminó el 8 del corriente, completando la restauración del tráfico ferroviario en la región de San Juan en todas las líneas exceptuando el ramal entre Durango y Silverton.

Una tasación de herencia de \$11,432 fué cobrada por Leslie E. Hubbard, estigador de estado de tasaciones de herencia, en la propiedad del Coronel George S. Newman, propietario de la hacienda Mac Rose cerca de Littleton.

Un reporte procedente de Lamont declara que una tempestad terrible se precipitó en la región baja de Platte Cañon destruyendo la mayor parte de la mejor madera de la Reserva Nacional de Pike, y causando daños enormes a la propiedad privada.

La Western Sugar y Land Company fué entregada a un receptor por el juez George W. Allen de la corte de distrito. Frederick G. Holmes de Colorado Springs fué nombrado de receptor. La compañía no tiene nada de común con la Great Western Sugar Company.

El desarrollo rápido de Denver como mercado de granos se demostró en el mitin anual de los miembros de la Bolsa de Granos en donde se dió lectura de cifras mostrando que la bolsa se había encargado de 5,547 carros de alfalfa, del valor de \$6,000,000 a \$7,000,000, dentro de los once últimos meses.

Una de las mayores recompensas jamás concedidas por las cortes de Colorado a un obrero herido, en la pérdida de un brazo, fué sostenida por la corte suprema de estado al corroborar el juicio de la corte de distrito concediendo la suma de \$10,000 a Fred Klankman en contra de una compañía de café y condimentos.

Una cooperación entre los 250 superintendentes y arrendatarios de montes en las treinta reservas del gobierno de la región de Montañas Rocosas se está urgiendo en un arreglo de mitines conducidos en el campo por Smith Riley, director de salvos de distrito, con sus asistentes, Fred Morrell, C. J. Stahl y C. M. Granger.

## NOTICIAS DEL ESTADO

De interés para toda la gente de Nuevo Mexico.

Western Newspaper Union News Service. Nuevo Mexico.

Se anuncia que Magdalena tendrá una fundición.

Cerca de Artesia se plantará una gran superficie de algodón.

Una fábrica de escobas se está estableciendo en Lovington.

Es posible que se forme en Las Cruces una logia de A. K. P.

El nuevo hotel de Silver City ha sido abierto de manera formal.

Más sobre se ha descubierto en el distrito de las Montañas del Burro.

La logia de los "Elks" en Ratón tendrá un carnaval de calle en abril.

El Comité Central Republicano de Estado se reunirá en Santa Fe el 14 de marzo.

Santiago Lucero fué arrestado en Estancia acusado de robar algunos caballos.

El mitin de la Asociación de Banqueros del "Panhandle" tendrá lugar en Clovis los 6 y 7 de junio.

Un incendio ha estado quemando todo en la mesa de Gonzolitas al sudoeste de Springer, por una semana.

Catarino Estrada, probablemente de 80 años de edad, fué hallado muerto en su calabozo en la prisión de Deming.

El consejo de la ciudad de Ratón pasó una ordenanza proveyendo del establecimiento de una junta de obras públicas.

La Señora Joe Sherman, residiendo cerca de Taibán, recibió, accidentalmente, un tiro en el pecho de un rifle de calibre .22.

R. S. Harrington, de Santa Rita, fué fatalmente herido cuando pasaba entre dos carros al momento en que se movían juntos.

El estado va a asistir el condado de Luna en su erección de un punto sobre el Mimbres en el camino de Deming-Silver City.

La semana de los Agricultores en el condado de Colfax fué de gran éxito, atendiendo los varios mitines alrededor de 700 personas.

Tres mil pesos de frijoles se cultivaron en una sola cuarta parte de sección cerca de Wagon Mound la estación próxima pasada.

Se ha elegido para este año la tierra destinada al cultivo de la remolacha de azúcar para experimentos en elco dado de Doña Ana.

La vieja planta de hielos de Carriozo, que ha estado desocupada durante algun tiempo, va a estar de nuevo puesta en operación.

El Snador Fall presentó al congreso un proyecto de ley con el propósito de proveer Silver City de un edificio federal de \$100,000.

El condado de la Unión ha sido dividido en tres diferentes distritos de administradores, y fueron creados varios nuevos distritos de elección.

Clovis votará sobre la cuestión de emisión de \$35,000 en bonos para el servicio de agua, desagüe y luz en las elecciones municipales del 4 de abril.

El proyecto de la fábrica de azúcar de remolacha del Valle del Rio Grande está bajo seria consideración y empezará pronto la siembra de la semilla.

El Gobernador McDonald nombró a los siguientes notarios públicos: J. A. Jones, Clovis; Dean Alexander, Silver City; Llewellyn Carter, Portales; J. A. Dye, Hillsboro; Oscar Tanner, Hagerman; M. T. Dunlavy, Santa Fe; J. S. Fielder, Deming; y Justiniano Baca, Magdalena.

Una nueva iglesia en Espinola fué formalmente dedicada por el obispo Frederick B. Howden, asistiendo el Rev. Leonidas Smith, pastor.

Un hipódromo que, se dice, será el mejor en la región de San Juan se está estableciendo en Aztec por la dirección de las ferias de condado de San Juan.

Charles Catlin y Ray Morley recientemente mataron un viejo león y dos de sus hijos, capturando el tercer gallo, en las montañas de Magdalena.

El robo de ganado se habría desarrollado a tal punto en la región de los ríos de Gullinas y Sapello que está causando grandes pérdidas a los propietarios.

Los aficionados al juego de gallo de Roswell tendrán una organización y se divertirán en eso terrenos en donde hace medio siglo se veían numerosos buffalos.

William H. Foster, ex alguacil del condado de Luna, expiró en su casa en Deming a resultas de una enfermedad de seis meses, a la edad de 44. El cáncer fué la causa de su fin.

## CHANCE PREFERS FINE TO SPEEDING AUTO

Barney Oldfield and Frank Chance.

Frank Chance, who has returned to baseball as part owner and manager of the Los Angeles club, is a great speed enthusiast. He owns a big car that can reach a mark better than 85 miles an hour. On only two occasions has he asked a driver to slow up.

One of these was when Barney Oldfield took him down a stretch of road near Pasadena at a gait exceeding 90 per. Another was when he was riding in a car from Boston to New York.

They were hitting up about 60 miles an hour when a motorcycle po-

lice man was spied chasing them.

"Shall I hit it up and lose him?" asked the driver.

"Sure," said Chance.

For miles they sped along at a fearful gait, dodging carriages and evading dangerous spots. Finally the car skidded around a corner, just missing the ditch.

"H'm," remarked Chance. "Let's slow up a bit."

They did so, and the copper came up with them. Chance said he would have gladly paid any fine rather than make such a trip again.

## MANY ATHLETES IN FAMILY

Five Wilsons of Binghamton, N. Y., Scattered About Among Several Different Colleges.

American college sport has had many noted groups of brothers who have attained fame in one form of athletics or another besides the Poes of Princeton, the Joneses of Yale, and the Cutlers of Harvard. Now we must add the Wilsons of Binghamton, N. Y.; thus identified because no one college claims them—a family of athletes. There are five Wilsons—Tom, Alec, Marion, Kenneth and Donald.

"Tom" Wilson was guard at Lafayette one year and then played on the Princeton eleven in 1911 and 1912. During the past season he was line coach at Wisconsin, helping Bill Juneau. Alec Wilson, the next brother, was the 1915 captain and quarterback at Yale. Marion Wilson was one of the ends at Princeton, though not in the first string, and is said to be a wonder in receiving forward passes. Kenneth, the fourth brother, was on the scrub eleven at Exeter, and Don-

Capt. Alec Wilson.

ald, the youngest, was a substitute end on the Binghamton Central High school eleven. Kenneth also rows on the Exeter crew.

"Tom" Wilson is 6 feet in height and weighs 200 pounds; Alec is 6 feet 2 inches and weighs 196; Marion is 5 feet 11½ inches and weighs 180; Kenneth is 5 feet 10½ inches and weighs 160, and Donald is 5 feet 10¼ inches and weighs 135. A rangy lot of brothers.

## Use Aluminum Oars.

Stanford oarsmen are using aluminum oars in their preliminary rowing, the first, it is believed, to be used on the Pacific coast.

## SPORTING WORLD

The St. Louis club will retain Bob Connery and Eddie Herr as scouts.

Catesby Woodford, president of the Kentucky Racing association, has resigned.

"Smoky Joe" Wood of the Red Sox is slated for release. President Lannin has asked for waivers.

The Boston club has received the signed contract of Catcher Walter Traverser, the Jersey City recruit.

The Cincinnati club has withdrawn Catcher Wingo from the market, notwithstanding a big bid by Boston.

Marty McHale, who undoubtedly is a good singer, hopes to return to the big show this year and stay there.

If Hans Lobert plays ball as he did with the Phillies in 1913, the Giants will be dangerous pennant factors.

Kenneth R. Curtis, captain-elect of the Syracuse university track squad, has won about 115 medals in the last few years.

In the national amateur racket championship at the Boston Racket club G. A. Thorne of Chicago was victorious.

Another bar-binger that generally beats the first robin to it—as it has this year—is the early-blooming pennant claim.

Ray Demmitt, outfielder, formerly with the Chicago White Sox, has been signed by the Columbus American Association club.

Mike McDevitt is putting in his spare time breaking and educating seven yearlings by Peter Mc., and he says they are born trotters.

It is said that if a ball player is put on the national commission he will be only a figurehead. A cipher is probably the figure meant.

Miss Elaine Rosenthal of Chicago is Florida state golf champion, having defeated Miss Witherbee of Port Henry, 9 to 8, at Palm Beach.

One of the reasons, perhaps, for the decline of the Cleveland Indians is the unusual interest manifested in semi-professional baseball in that city.

Fielder Jones has notified George Sialer, who plays everything, including penny ante, that he will be used on the eminence exclusively next season.

## HARM DONE BY MICE

SERIOUS DAMAGE IN ORCHARDS, GARDENS AND OTHER PLACES.

Strawberry Plantations and Various Kinds of Garden Crops Have Been Attacked by Rodents—Blame Placed on Moles.

(By F. E. BROOKS.)

The different species of "field mice" or "meadow mice" that are found in all parts of the country, are almost entirely responsible for that damage done to plants of various kinds, the blame for which is partly bestowed upon moles and shrews. Of late years mice seem to have been multiplying abnormally in some sections. Serious damage has been done in orchards, gardens, potato fields and other places. The mice have girdled many young fruit trees in some of the finest young orchards. Mulched trees, or trees growing in orchards where cover crops are used, are most liable to injury. Damage to strawberry plantations and to various kinds of garden crops have been reported from numerous localities. Irish potatoes and sweet potatoes have been especially subject to attack.

From their homes in woods and thickets pine mice invade fields, orchards, nurseries, dooryards, and gardens, passing always through underground runways. Living in concealment, neither their presence nor the injury they inflict is suspected until

The Pine Mouse.

the latter is past remedy. Bulbs, planted hopefully in autumn, appear not at all in the spring, or only in the shape of sickly plants, whose life substance has been gnawed away. Nursery and orchard trees here and there put forth no leaves, and an examination of the roots discloses the nature of the damage.

Potatoes, sweet potatoes, carrots, beets, and other vegetables are eaten by pine mice, both while growing and when stored in pits or lying in piles in the field or garden. Potatoes partly matured or left long in the ground after maturity are eaten, and the injury is attributed to moles, because tunnels supposed to be the work of moles lead to the place of damage. The writer has investigated numerous cases of such injury and has invariably found either that the tunnels were made by pine mice, or, if mole tunnels, that they were frequented by mice. Traps set in the tunnels at the potato hills captured pine mice, and the starchy material found in the stomachs of those caught proved that they, and not moles, had been eating the potatoes.

## To Secure Eggs.

In order to obtain eggs it is necessary to have healthy, vigorous stock, properly fed.

## Fertile Garden Soil.

Vegetable matter is very important in fertile garden soil. Barnyard manure is a good source of supply.

## Good Friend of Farmer.

Owls are occasionally not wanted by the farmer, but at the nests of owls can nearly always be found good sized piles of the skulls of mice, gophers and other small animals which are destructive to crops. The owl is one of the best friends the farmer can have.

## Clean the Drink Fountains.

Scald the drink fountains or dishes every two or three days with boiling water to destroy any germs of colds or other diseases which may cling to them ready to attack the fowls when they come to drink.

## Scions for Next Year.

Take scions soon for next year's fruit tree grafting. Cover them with sand or sawdust and place in a dark, cool cellar.

## Shelter the Stock.

Don't fail properly to shelter your stock from the cold.

## Making Yellow Butter.

Only green feeds contain the carotin that makes butter yellow.

## RATION TO FATTEN CHICKENS

Feed Recommended by Poultry Husbandman of Nebraska College as Being Most Economical.

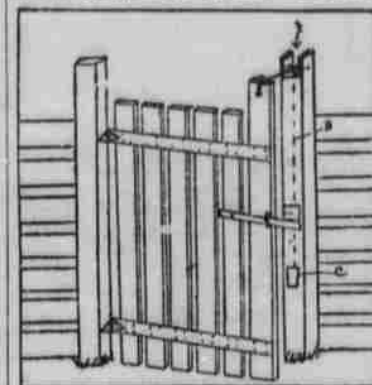

Just a little time spent in fattening birds will greatly improve their quality. The following ration has been recommended by the poultry husbandman of the Nebraska College of Agriculture as being most economical, and giving satisfactory results in fattening chickens: Sixty per cent cornmeal, 40 per cent low-grade flour, 20 per cent wheat middlings. Mix with skim milk to the consistency of a batter, and feed morning and night. Starve the birds for 12 hours previous to their first feeding. This will sharpen their appetites. Fatten for two weeks in a small pen or crate, until ready for killing. This will deprive the fowls of exercise, and the muscles will become soft. Fatty tissue will be taken on between the muscle fibers, which will greatly aid in the cooking process.

Don't kill the bird when the crop is full. Starve for 24 hours and provide all the water they will drink. If the chicken is to be roasted, remove the crop either with the viscera or by making an incision next to the spinal column, where it will not show when the bird is severed. The cords or tendons of the thigh may be easily removed by partly severing the shank at the hock joint. Then, for locating the cords by making a lengthwise incision in the scaly portion of the leg, fasten the leg securely and pull steadily until the cords tear loose.

## DEVICE FOR CLOSING A GATE

Weight, Attached to Cord, and Run Over Pulley, Can Easily Be Arranged for the Purpose.

The picture illustrates a device for closing a gate. When you pass through the gate it closes and fastens itself, writes C. E. Julian of Millaboro, N. C., in the Progressive Farmer. To make

Gate Stays Shut.

the device have the gate post at least six feet high; place a large spool on post for pulley, fasten cord to gate, pass it over spool and attach plow point or something similar for weight. A shows spool; B and C, cord and weight on opposite side of post.

## VENTILATION FOR THE BARN

In Constructing Building Provision Should Be Made for Admission of Plenty of Fresh Air.

The ventilating of barns is not expensive or difficult. A very little study of the principles involved will show one just what conditions are necessary. Briefly these conditions are, good warm construction; tight windows, preferably of double glass; tight-fitting doors; suitable intakes provided for letting in fresh air, and then one or more warmly constructed, properly located flues extending from near the floor to a point above the highest part of the roof. With these conditions, the heat from the animals warms up the air in the flue and this creates a circulation, just as starting a fire in a stove does, and in this way the foul and damp air is taken out and fresh, dry air admitted.

## SWISS CHARD MORE POPULAR

Vegetable Gaining Favor With Those Who Are Fond of "Greens"—Pick Leaves Often.

Swiss chard is becoming a very popular vegetable among those who like "greens." If a few of the leaves from each plant are broken or cut off near the ground when they are 8 to 12 inches high they make fine greens. You can pick them in this way every two weeks, and a short row will supply a good-sized family.

Some prefer to let the leaves grow a little larger and then cook the stem and midrib as you would asparagus. It is good any way you use it.

## Warfare Against Cholera.

Serum and sanitation make the best preparations for the warfare against hog cholera.

Never warm the food if you wish to avoid colds and roup.

Don't fail to blanket your horse when he stands in the cold.

## The President's Wedding Cake—

—an example of decorative art never equaled in the history of cake decorating—an example of deliciousness, lightness and wholesomeness that would be a pride to any housewife. It is

## Another Testimonial for CALUMET BAKING POWDER

This world-famous Wilson-Galt Wedding Cake was made by Mrs. Marian Cole Fisher and Miss Pansy Bowen, both well known Domestic Science Experts. Calumet Baking Powder was used because both these experts use it exclusively in their work and know it is the purest, the safest, the most wholesome and economical to use.

So do millions of housewives who use it every day—so will you if you try it on the things hardest to bake.

Send your name and address for free recipe and history of the Wedding Cake. Then bake one just like it yourself.

## STOMACH MISERY GAS, INDIGESTION

"Pape's Diapiesin" fixes sick, sour, gassy stomachs in five minutes.

Time it! In five minutes all stomach distress will go. No indigestion, heartburn, sourness or belching of gas, acid, or eruptions of undigested food, no dizziness, bloating, or foul breath.

Pape's Diapiesin is noted for its speed in regulating upset stomachs. It is the surest, quickest and most certain indigestion remedy in the whole world, and besides it is harmless.

Please for your sake, get a large fifty-cent case of Pape's Diapiesin from any store and put your stomachs right. Don't keep on being miserable—life is too short—you are not here long, so make your stay agreeable. Eat what you like and digest it; enjoy it, without dread of rebellion in the stomach.

Pape's Diapiesin belongs in your home anyway. Should one of the family eat something which doesn't agree with them, or in case of an attack of indigestion, dyspepsia, gastritis or stomach derangement at daytime or during the night, it is handy to give the quickest relief known. Adv.

### An Obstacle.

"Did he wear a blue streak?"  
"I really can't tell—on account of being color blind."

## HOW TO RELIEVE KIDNEY PAINS

I have used Swamp-Root more or less this last few years, and have always got great relief. About three months ago I was taken down with severe pains through the back and limbs. I was very nervous and was very restless at night. I began taking your Swamp-Root and before I used a half bottle, I felt great relief, and I kept on taking it until I began to feel myself again. I have recommended it to my neighbors and friends, and several of them informed me that they have been greatly benefited by using it. I cannot say enough for Swamp-Root, and I heartily recommend it for kidney trouble and rheumatism.

You have my consent to publish this statement. I am 77 years old. Dr. Kilmer's Swamp-Root has saved my life.

Prove What Swamp-Root Will Do For You  
Send ten cents to Dr. Kilmer & Co.,  
Binghamton, N. Y., for a sample size bottle. It will convince anyone. You will also receive a booklet of valuable information, telling about the kidneys and bladder. When writing, be sure and mention this paper. Regular fifty-cent and one-dollar size bottles for sale at all drug stores.—Adv.

After ten years of experimenting a Massachusetts carpenter has built a small table that contains 20 secret drawers.

## "CASCARETS" FOR SLUGGISH BOWELS

No sick headache, sour stomach, biliousness or constipation by morning.

Get a 10-cent box now.  
Turn the rascals out—the headache, biliousness, indigestion, the sick, sour stomach and foul gases—turn them out to-night and keep them out with Cascarets.

Millions of men and women take a Cascaret now and then and never know the misery caused by a lazy liver, clogged bowels or an upset stomach.

Don't put in another day of distress. Let Cascarets cleanse your stomach; remove the sour, fermenting food; take the excess bile from your liver and carry out all the constipated waste matter and poison in the bowels. Then you will feel great.

\*A Cascaret tonight straightens you out by morning. They work while you sleep. A 10-cent box from any drug store means a clear head, sweet stomach and clean, healthy liver and bowel action for months. Children love Cascarets because they never gripe or sicken. Adv.

Argentina maintains a meteorological station at an elevation of 4,000 feet above the sea.

Ten smiles for a nickel. Always buy Red Cross flag blue; have beautiful, clear white clothes. Adv.

The love that dwells in a cottage never thrives on terrapin and champagne.

### PETER PAN.

Peter Pan was a little black kitten, and he lived with his mother, at Farmer Jones' farm.

Peter ran all over the house; no room was too sacred for him to enter, and he even slept on the bid in the spare room when the fancy took him to do so.

He chased the chickens and the little ducklings, and, although he had never harmed them, he had frightened them very much, and made their mother very angry.

"That Peter Pan is a spoiled kitten," said Mother Hen to Mother Duck, "and he needs to be punished, but his mother will never do it, and we will never get a chance, so I suppose we will have to put up with his pranks."

But fate delivered Peter Pan into Mother Duck's power in an unexpected way not long after the conversation between Mother Duck and Mother Hen.

Peter Pan saw the ducklings wandering about the yard one day not far from the pond, so he slyly crept toward them, hiding in the bushes until he was right beside them. Then he sprang out, and the poor, frightened ducklings waddled to the pond as fast as their legs would carry them. A piece of board lay partly on the

His Eyes Staring With Fright.

bank and partly in the water, and one of the ducklings waddled on it before he plunged into the pond.

Peter Pan ventured too far this time, and when he stepped on the board it slipped from the bank and Peter Pan went with it. He was so little that it kept afloat, and there he was sniffling from land, his eyes staring with fright and his loud meows could be heard over the barnyard.

Mrs. Tabby came running down to the pond, and when she saw her Peter Pan sailing away she almost fainted. "Save him! Save him!" she cried, running around the yard. But there was no one to save him. The hens and the rooster ran to the edge of the pond and looked, but they could not swim, and Mother Duck was on the pond with her children.

When the ducklings saw Peter Pan they were frightened at first, for they thought he was chasing them even on the pond, where they had always been safe, but in a minute they saw that Peter Pan was the frightened one this time, and they gathered around him.

"Hello, Peter Pan!" they said. "How do you like our pond? You are not sailing very fast so we will help you," and they gave the board a push with their bills, making Peter Pan away and nearly lose his balance.

"Go away! Go away!" he called to them. But they only quacked and quacked to see him frightened, and gave the board another push. This time he lost his balance and his hind legs went into the water.

Peter Pan meowed loudly for help, and his mother on shore called to Mother Duck to keep her ducklings from bothering her Peter Pan.

"Keep him out of our pond," called back Mother Duck; "he should not get in their way if he does not want to be bothered."

"But he can't get out of the pond," said Mrs. Tabby. "Do help him; he will be drowned if someone does not help him."

But Mother Duck was not ready to help him yet; she intended that Peter Pan should have a lesson he would not soon forget. So she went to the side of the board and flapped her wings making small waves in the pond, which sent Peter's treacherous little craft sailing out into the middle of the pond with Peter meowing as loud as he could.

Mother Duck sailed after him, followed by her little ones, and after let-

ting Peter get a few more frights from the tipping of the board, Mother Duck said to him: "If I take you back to the barnyard, will you promise never to bother my children again, or Mother Hen's brood, either?"

"Oh, yes," meowed Peter Pan, very meekly. "If you will only take me back to my mother I will never chase any of the chickens or ducks again."

"Very well," said Mother Duck, "then I will take you home, but if you ever bother my children again I will take you out here and let you stay. Now hop on my back and I will swim ashore with you."

"There is your Peter Pan," said Mother Duck when she reached shore. "I think we have given him a lesson he will remember for a long time, and I advise you, Mrs. Tabby, to see to it that he behaves in the future, or the next time he may not get back to land."

Mrs. Tabby promised that he should never bother anyone again as she licked the water from Peter's coat, and she also thanked Mother Duck for bringing him safe to land.

Peter Pan did not roam about the barnyard much after that. He no longer frightened anyone, and he felt very much ashamed when he remembered how frightened he had been on the water and how little courage he had displayed in the face of danger, which is very often the case with those who bully others.

### WHAT HAPPENED IN FEBRUARY

Month in Which Many Great Movements Were Launched or Ended—Rich in Birthdays of Men.

Why the second month of the year, with its short, gloomy days, should be the month in which so many great movements began or were brought to a successful close, is more than I can tell, but so it is. On the second day of this month, 1881, the great Christian Endeavor society, which now girdles the world with blessings, had its humble beginning. On the tenth day of February, 1878, the great Blue Ribbon Temperance movement began in London. On February 13, 1689, the declaration of the English Bill of Rights ended a civil struggle which had been going on for more than fifty years. February 24, 1881, saw the beginning of a work in which we are all interested, the Panama canal. On February 26, 1861, Victor Emmanuel was declared king, thus bringing all Italy under one crown, which had long been the dream of those who loved her best. I think I am safe in saying that all these movements were for the good of humanity.

February is especially rich in the birthdays of great men; there are two a week, and several over. Of course you know the birthdays of George Washington and Abraham Lincoln, and Longfellow, almost our greatest American poet. Thomas A. Edison, Charles Dickens, the English novelist, who toppled down prisons with his clever pen, and Montaigne, a great French essayist, were all born in February. Among February's children are Melissier, a great French painter, George Peabody, the American philanthropist, and Sir Edward Coke, an English lawyer, who lived in Queen Elizabeth's time, and whom you might call the father of English law.—Berta Hart Nance in Boy's World.

### STUDYING ART IN NEW YORK

Village Boys and Girls With Nothing but Youth's Optimism—Few Expectations Realized.

Geniuses are popularly supposed to be more or less independent of creature comforts, but few of the young persons who come from all over the United States every autumn to study art in New York are in the genius class. For the most part they are young men and women of average ability, seven-eighths of whom are bent on becoming self-supporting as soon as possible, and the majority of these have hearty appetites and good digestion—when they arrive. After three or four months of study in New York it sometimes happens that their digestion is not so good, writes a correspondent of Pittsburgh Dispatch.

At one time students thought \$5 a week quite a liberal sum to spend for room and board, \$4 being oftener the allowance. There are now plenty of young women students who come here prepared to spend no more than this a week, undeterred by the tales of soaring prices for rents and provisions. Perhaps along with these tales they have read others of how easy it is to prepare a nourishing bill of fare for 50 cents a week or something like that. At any rate with the optimism of youth and ignorance these young women arrive, determined to get along somehow, few having made any provisions for accommodations before leaving their native village or town. In perspective studio life in New York looks alluring, and young women expect to fit into a corner of some picturesque studio at a nominal price as easily as it is done in novels dealing with European art circles. With few exceptions their expectations are not realized.

**Mix in One Minute with Cold Water—Ready to Apply Immediately.**

**Sanitary Beautiful Permanent Economical**

**Alabastine**

*The Beautiful Wall Tint*

Let us tell you of the wonderful economy, simplicity and effectiveness of the Alabastine way of interior decoration.

The Alabastine way is simple in the extreme—You buy the Alabastine in the colors and quantities you require—it is mixed with cold water in a pail according to the directions on the package. There is no boiling water required; no glue to be added; no unnecessary time. You can secure shades and tints that are identical with the Alabastine way by combining tints to produce a new shade. You need not use certain fixed colors unless you want to, and you can have an artistic color scheme on your wall in half an hour.

What Alabastine Is—Alabastine is a clean, dry, sanitary, fire-textured powder—ground to impalpable fineness—the color and tint added—and then it is put up in packages.

Made and Used for 35 Years—Alabastine has been used by hundreds of thousands of painters and decorators—by housekeepers and house owners for thirty-five years with unqualified success.

Special Stencil Offer—Ordinarily stencils for border designs cost you from 50c to \$1.00 each. Our free book tells you how you can get the stencils you wish practically free of charge. Our color scheme cards suggest colors that harmonize for your rooms. Write for them today. Address: THE ALABASTINE COMPANY, 303 Grandville Road, Grand Rapids, Mich.

**The Only Tool Needed to Apply**

**Fair Warning.**  
"My dear," said Mr. Meeker at breakfast the other morning, "what would you do if I were one of those husbands who get up cross in the morning and slam things around and kick up a row just because the coffee happened to be cold?"  
"John," replied his better half, "I wouldn't do a thing but make it hot for you."

**Not Gray Hairs but Tired Eyes**  
make us look older than we are. Keep your eyes young and you will look young. After the Movies Murine Your Eyes. Don't tell your age. Murine Eye Remedy Co., Chicago, Sends Eye Book on request.

**New Bandit Style.**  
Bill—A mail and express auto, traversing the wilds of Colorado, has a bandit-proof cage in the rear for valuables.  
Jill—No good. One of those bandit parties with their Zeppekins will come along and lift auto, cage, valuables and everything.

**Important to Mothers**  
Examine carefully every bottle of CASTORIA, a safe and sure remedy for infants and children, and see that it bears the Signature of *Dr. J. C. Fletcher* in Use for Over 30 Years. Children Cry for Fletcher's Castoria

Affection can withstand very severe storms of rigor, but not a long polar frost of indifference.—Scott.

### BABY'S ITCHING SKIN

Quickly Soothed and Healed by Cuticura. Trial Free.

Bathe with hot water and Cuticura Soap. If there is any irritation moisten gently with Cuticura Ointment on end of finger. Refreshing slumber for restless, fretful babies usually follows the use of these super-creamy emollients. They are a boon to tired mothers.

Free sample each by mail with Book. Address postcard, Cuticura, Dept. L, Boston. Sold everywhere.—Adv.

**Exercise.**  
Visit—Do you give your dog any exercise?  
Owner—Yes, he goes for a tramp every day.—Burr.

### Clean the Blood

Spring is the time of the year when we should put our house in order. We're run down after a hard winter—after grip, colds, catarrh. It's time to take Dr. Pierce's Golden Medical Discovery, purely vegetable and free from alcohol or narcotics. It will search out impure and poisonous matter and drive it from the system. Buy "Discovery" now in tablets or liquid.

It will dissolve the poisonous accumulations and replace the bad blood it drives out, with rich, pure blood full of vital force.

It will clear the skin; eczema, pimples, rash, blotches will dry up and disappear; boils, carbuncles and other evidences of tainted blood will pass away, never to appear again.

It's perfectly safe to loan money to a man who promptly returns a borrowed silk umbrella.

## FRECKLES

Now is the Time to Get Rid of Those Ugly Spots.

There's no longer the slightest need of feeling ashamed of your freckles, as the prescription ointment—double strength—is guaranteed to remove them honorably and simply get an ounce of ointment—double strength—from your druggist, and apply a little of it night and morning and you should soon see that even the worst freckles have begun to disappear while the lighter ones have vanished entirely. It is seldom that more than one ounce is needed to completely clear the skin and gain a beautiful clear complexion.

Be sure to ask for the double strength ointment, as this is sold under guarantee of money back if it fails to remove freckles.—Adv.

**Disengaged.**  
Safety—So Jack is engaged, is he?  
And is Fanny the bride-to-be?  
First—No, she is the tried-to-be.

## The Army of Constipation

Is Growing Smaller Every Day. CARTER'S LITTLE LIVER PILLS are responsible—they not only give relief—they permanently cure Constipation. Millions use them for Biliousness, Indigestion, Sick Headache, Sallow Skin, SMALL PILL, SMALL DOSE, SMALL PRICE. Genuine must bear Signature

*Wm. Wood*  
**KEELEY INSTITUTE**

COR. EIGHTEENTH AND CURTIS STS. DENVER, COLO.

**Liquor and Drug Addictions**  
cured by a scientific course of medication. The only place in Colorado where the Genuine Keeley Remedies are administered.

**LA GRIPPE**—Arches, aches, colds, coughs, croup, diphtheria, influenza, measles, scarlet fever, whooping cough, etc. **WEEKS' BREAK-UP-A-COLD TABLETS**—25c at all drug stores.

## A NEW DISCOVERY

"Anuric" is a recent discovery of Doctor Pierce, who is head of the Invalids' Hotel, Buffalo, N. Y. Experiments at Dr. Pierce's Hospital for several years proved that "Anuric" is a wonderful eliminator of uric acid. For those easily recognized symptoms of inflammation—as headache, scalding urine and frequent urination, as well as sediment in the urine, or if uric acid in the blood has caused rheumatism, it is simply wonderful how surely "Anuric" acts; and in gravel and gout, invariably the pains and stiffness rapidly disappear.

Go to your nearest drug store and simply ask for a 50-cent package of "Anuric," or send Dr. Pierce 10c for trial pkg.

## LOCAL AND PERSONAL

Wm Brown of Nogal was a business visitor to Carrizozo Tuesday.

W. J. Gumm was a business visitor to El Paso this week.

For good Willow Springs coal phone 24.

Harry Comrey was down from the Comrey Bros. Ranch near Ancho Monday.

For Sale:—Thoroughbred Plymouth Rock eggs, \$1.00 for 15. Enquire Austin Patty.

Auto rates to White Oaks any time during the day, \$1.50 each way E. V. Wallace, phone 42F3.

Mrs. Mary Jennings of Parsons is here for a visit to the family of Austin Patty in Highland addition.

For Rent:—Four room cottage with sleeping porch, in first class condition. Apply Carrizozo Eating House.

W. L. Hobbs and Austin Patty accompanied by their families motored to the head of the mal pais Sunday.

Andrew McCurdy, Supt. of the Carrizozo High School, is confined to his home with a severe case of pneumonia.

Mr. and Mrs. T. E. Kelley, Mr. and Mrs. Thos. O. Luster and Louis Matchett motored over to the Nogal Canyon country Sunday afternoon in the former's car.

Mr. and Mrs. H. S. Campbell and Mr. and Mrs. Stanley L. Squier were visitors to the ranch home of Dr. and Mrs. R. E. Blaney near Oscura Sunday.

### CHARGED WITH AN ASSAULT

Demetrio Gonzalez and Sabino Montoya were arraigned before Justice of the Peace Ed. Massie last Saturday afternoon charged with having made an assault upon Seno Rita Cholina Balles, the night before, on the streets of Carrizozo. Each of the defendants were placed under \$500 bond to await the action of the grand jury, in default of which they were committed to jail. Montoya finally succeeded in giving bond for his release.

### MOTOR TRUCKS TO BORDER

A special train carrying the first complete motor truck company for use of the United States Army in Mexico, passed through Carrizozo last Saturday en route to the border. It consisted of 28 specially constructed machines for army use and will be manned by civilians recruited in Chicago where the machines were shipped from.

### METHODIST CHURCH

(REV. E. D. LEWIS, Pastor)

Next Sunday morning there will be Sunday school at 9:45, and you are invited. Don't forget that there will be preaching immediately following the Sunday school. The subject of the morning sermon: "The True Home a Type of Heaven." In the afternoon there will meet at 3 o'clock the Junior Church and at 4 o'clock the intermediates. At 7 o'clock the Senior League will meet. Preaching again at 8 o'clock. Prayer meeting Wednesday night at 8 o'clock.

Services at Oscura at 3 o'clock Sunday afternoon.

### BAPTIST CHURCH

(REV. J. M. GARDNER, Pastor)

The pastor will lecture tonight (Friday) on "Africa or among the Sons of Ham." The lecture will be illustrated by stereoscope slides.

He will preach Sunday at 11 a. m. on "Hilarious Giving." At 8 p. m. he will preach on "Treasures." (Come early and enjoy the song service B. Y. P. U. at 7 p. m. Mrs. Roselle, leader. This is the regular monthly missionary meeting so let us make it a fine one.

The Sunday School will give a Baked Goods and Home Made candy sale at Kelley's store Saturday March 25th, to raise money for missions.

The Sunday school is to give a special programme Sunday at 10 a. m. "Missionary Day In The Sunday School."

## SCHOOL NOTES

As the end of the present school year draws nearer, the classes in all departments of both the grammar school and the high school are working hard that they may finish the year's work with a creditable showing. The eighth grade is putting forth special effort to be ready for the state examination which will take place on April seventh and eighth.

The Boys and Girls' Industrial Club work is well under way more than fifty of the pupils having undertaken one or more of the club projects. If the results should be in proportion to the enthusiasm manifested at the present, there will be a good sized display of poultry, hogs, sewing, and cookery at the county fair next fall. Gladney White was elected president of the poultry club, with Mrs. D. Tiffany as leader; Lee Morris, president of the pig club with J. E. Pearson as leader; Ruth Edmiston, president of sewing class A with Miss Mamie Humphrey leader; Miss Rachel Hughes, president of class B, with Mrs. Jewett leader; Miss Lorena Haley, president of cooking club with Mrs. Jewett leader.

While Supt. McCurdy is absent suffering with a slight attack of pneumonia, a few changes had to be made in the regular schedule for classes in the high school. In order that no resitations be omitted Miss Beulah Bazel was placed in charge of the eastside school and Miss Peters transferred to this school, and the latter has charge of some of the high school classes. By this arrangement all the high school work is continued without interruption.

The Athletic Club is practicing faithfully on the minstrel which it is planning to give at an early date. Watch the papers for the time and be on hand if you wish to have some good laughs. The purpose in giving the minstrel is to get money to clear the debt made when match games were played earlier in the year.

### "THE BATTLE CRY OF PEACE"

On next Friday, March 31, the Crystal Theatre will flash upon the screen the most wonderful production ever shown in the moving picture world. "The Battle Cry of Peace" by J. Stuart Blackton, in nine reels.

The Battle Cry of Peace deals with the subject which is today nearest the heart of every American citizen: the problem of America's unpreparedness. This great photoplay ran five days straight at the Giesian Theatre in El Paso at \$1.00 per seat. The management of the Crystal is pleased to announce that it will put on this play at just one half the price charged in other places. Advance sale of seats is on at Rolland Bros. Drug store.

A Matinee will be given in the afternoon for the benefit of the school children. Admission 25 and 35 cents.

### SERVICES ALTO AND CAPITAN

I will preach again at Alto, April 2nd which is the first Sunday. Let every body plan to come and worship with us at 11 o'clock on that day. I will preach at Lincoln in the afternoon of the same day at 3 o'clock, and at Capitan at night at 8 o'clock.—E. D. Lewis.

## They're Here! New Styles For Men and Women WALK-OVER SHOES
