## THE REMOVAL OF THE COUNTY SEAT TO CARRIZOZO.

(Contributed by the Carrizozo Chamber of Commerce.)

### READ AND INWARDLY DIGEST.

In all discussions, fair-minded men should always remember that their opponents differ from them no more than they themselves differ from their opponents. And we should be very careful in making charges of bad faith and wrong doing. Mistakes are not always wilful and malicious. Too great a degree of enthusiasm, or self-interest, may warp one's perception of what is reasonable and fair. Very few men indulge in heated verbal argument, or take the trouble to prepare lengthy newspaper articles, unless there is something more than love for the good cause somewhere, in some form, behind it.

Let us admit that our good and worthy friend, John Halev, made a mistake, as he himself frankly admits, and now let our good friend and opponent, Dr. Laws, admit that he was unfair in his arraignment of Carrizozo, which must mean the people of Carrizozo and, incidentally, of all western Lincoln county, and that he made a mistake when he undertook to make it appear that a \$25,000 court house would cost \$60,000. This is like the "original cost" argument, only the doctor calls it "actual cost." We think that Dr. Laws is a capable, broad-minded man, ordinarily, and above a deliberate, mean subterfuge, but the exuberance of our enthusiasm is likely to lead the best of us astray.

The actual first cost of the county buildings, purchased in 1880, was \$15,000. Dr. Laws says they have now actually cost \$35,000. Then the county has paid out \$20,000, in some way not mentioned during these 29 years trying to keep our county buildings fit for use. We will not say that all of this was for repairs. But we do say that this make-shift for a court house, and jail that is in very bad shape now, have cost too much and will continue to cost too much for the use and the satisfaction that the county gets out of them.

This county seat question is one of sentiment as well as business. On the one hand is the sentiment that produces dullness, inertia and stagnation, and on the other that which spurs us to

try to keep abreast of the progress of the world.

From Lincoln county have been taken some of the most progressive counties of the territory—Chaves, Eddy, Roosevelt and parts of Otero and Torrance—and we have left what is to be one of the best of all. Our assessed valuation has nearly doubled in the last three years. Now where has the increase occurred, in the eastern or western portions of the county? Ask any honest, truthful man and he can but answer in the west. Yes, and give us the county seat, and in two more years we will show you an increase that will more than compensate for an increase of one mill on the dollar in taxation. And we undertake to say that with the increased value of property less than a one mill levy will pay for a \$25,000 court house, both interest and principal, in twenty years, and you will have something of which you will be proud for all these twenty years.

Now, what has Lincoln to offer? She has had the county seat since 1880, any way, and what has she done? Who has received the benefits? Farmers and stock-raisers, where are most of the men who have received your hard earned dollars? Have they done anything for Lincoln? Who has done anything for the advancement and betterment of your people? Who in Lincoln has tried to develop a profitable market for your produce, or add to the things that are desirable to live for?

Inquire for yourselves and learn what Carrizozo pays for the things that you produce, and what the merchants ask for the things you purchase for yourselves and families.

When the people of Carrizozo were doing the work last winter to get for Lincoln county that part of Socorro county that naturally belonged here and embraced people who petitioned unanimously to come to Lincoln, the very men who now charge all sorts of things against us sent up a petition to the legislature asking what? That their own county should be deprived of this valuable and rapidly developing section, *eighteen miles square—*

(or, to be correct, three hundred

*and twenty-four square miles*)—and including over six miles of the E. P. & S. W. railroad, which is seventy-five miles from Socorro. Did they do that in good faith? Was that for the best interests of our dear old Lincoln county? No; it was the act of many who did not stop to think, inspired by a few who mistakenly believed that their selfish interests required it, and forgot everything else. And we say to you, now, beware of such would-be leaders. Some of them are careless and some may fall short of strictest integrity in the heat of the campaign.

The men who tell you that you did not get "value received" from Socorro county; that the removal of the county seat will increase your taxes more than one mill on the dollar, or that the people of Carrizozo are saying and doing things that are not fair and honorable, are mistaken, to say the least. There is a great deal being said about the increase in taxes that the building of a new court house and jail would necessitate. Are you satisfied with what you now have at Lincoln? Nearly every one will admit that we need a new jail, and many who would be very glad to have a court house something different from what we now have. Do you want to spend any more money for buildings at Lincoln, thirty-five miles from the main line of railroad, where no considerable increase in taxable values could be expected?

So much has been said about taxes that we will try with plain figures to do away with this scare that is practiced so diligently even on men who would know better if they would think and cipher a little.

The total assessed valuation of the county this year is about \$2,300,000. Say that it would take \$25,000 to build suitable new buildings. Next year the valuation ought to be \$2,500,000. A one half mill levy would produce \$1,250 which would be the interest on \$25,000.

These are plain figures. Are they not? We will not pay anything now except this interest as above shown. The actual development of the county will enable us or those who come after to pay

the principal without hardship. Some of us are pioneers, and all the good things of this world will be forever gone in twenty years. Then should we not leave our children something to be proud of, and let them help pay for it.

The tax rate this year including special school district levies, will average about 4 per cent, or four dollars on the hundred, forty dollars on the thousand dollars of taxable property in the county.

How much more will you have to pay if we build a new court house and jail? Answer: One-twentieth of one per cent, or five cents on the hundred, fifty cents on each \$1,000 of taxable property.

Again we say, and what we say is shown by figures based upon facts, that less than a one mill levy would pay both principal and interest in less than twenty years. Those who pay taxes on less than \$1,000 will pay fifty cents or less extra taxes for interest and not be very seriously hurt, while those who pay the big taxes can afford to pay the increase for the credit and up-building of the whole county.

Now, then, if you vote for Carrizozo you settle the county seat question for some time to come, and will build a modern up-to-date court house and jail and cause the development of our natural resources so that Lincoln county may surpass even the wealthy Chaves which was taken from Lincoln over the protests of many of us, who "still live." Do you remember when we called the Pecos Valley and Roswell nothing but a cow ranch? If you vote against removal, one of two things will happen, the county seat will remain at Lincoln for ten years for a part of Lincoln county and for all of it unless it is divided. Do you want it at Lincoln ten years more, or do you want the county divided? Be not deceived by foolish advisers when they tell you any other changes soon. The twenty mile limit is in our laws to stay, and the men who put it there will keep it there.

Very few people want the county seat to stay at Lincoln ten years, but one county seat will do so unless you change it now. Let

### NEW METHOD OF ADVERTISING

Popularity of Moving Picture Shows Taken Advantage Of by Wide-Awake Manufacturer.

A novel method of presenting arguments in favor of his products has just been put into operation by a manufacturer in the middle west. A motion picture act has been devised with all the care that is given to such performances by the best of the film makers of France and the United States.

The services of a playwright and of actors and actresses were secured, says System, and a playlet was produced with all the dramatic force that has made the motion picture show so popular. Talking machine records were made to accompany these films.

Both these records and the films were sent out to the company's representatives in the various cities, in turn lent by them for gratuitous use to the proprietors of the motion picture theaters, who were glad of the opportunity to save the money usually paid for rentals of such materials.

Thus the need of the company's product was emphasized and a unique but effective selling talk was delivered to the public, who paid for the privilege of hearing it. Films are now being made that will simulate a flying machine trip from New York to the factory, with motion views of the various cities en route taken from above and including a trip through the factory departments and showing as a finale one of the machines assembling itself rapidly and mysteriously without the assistance of human hands.

#### How to Grow Dollars.

Every worker in the ranks hopes for a competence that will make his old age comfortable and independent. Sudden strokes of fortune are rare, and, besides, they seldom come to those who fail to put up their lightning rods. There is no royal way to wealth, and the only way the average persons can hope for that competence is by saving. You must plant pennies and nickels and dimes now, that they may grow to dollars when you need them. That seems rather a slow way, to be sure, but it is the only way. You can't any more hope to gain independence by spending all you make than you can hope to grow potatoes by eating them. Besides, it isn't nearly so slow as it seems. It is slowest at the start. It gets faster all the time you keep it up, and then is when it will begin to be really interesting.—Duluth Herald.

#### They Do So in New York

In front of a large saloon in Sixth avenue a poor man pays rent for a flower stand.—It is Sunday.—A shelf needs a nail to make it secure. He gets a hammer and proceeds to drive one. An overfed cop, standing by the side door of the saloon, through which pours a steady stream of arid humanity, blusters up to the humble violator of the Sabbath: "Blankety, blank you! Don't you know it's Sunday? Quit that hammering." "All right, officers." "But it ain't all right, and if yer don't quit it I pull you." Overfed cop, preserver of the law, stalks back to the side door, portal to a huge Sunday selling business without license.—New York Press.

#### Deep Shaft in French Mine.

France is now claiming the record for depths in the bowels of the earth. At Ronchamp in the Haute Saone, the Buyer shaft, sunk for coal, is stated to be the deepest of all shafts sunk by man for industrial purposes. It is exactly 1,010 m.—or about 1,106 yards—deep. The temperature at the base is 116 degrees Fahrenheit, while at the surface it is only 50 degrees.

## COURTS GIRL BY USE OF WIRELESS

YOUNG WOOPER BARRED FROM HOUSE CIRCUMVENTS IRATE PAPA AND WINS BRIDE.

### THRILLING JERSEY ROMANCE

Calls of "Sweet" and "Dear" Are Intercepted by Former Suitor Who "Butts" In, But to No Avail.

Trenton, N. J.—The old saying, "Love will find a way," was demonstrated as true by announcement of the engagement of Miss Lillian Vincent of Morrisville, Pa., and Charles G. Clay, who resides near Yardley, Pa.

An angry father, with a shotgun, guarding his home from a sweetheart, the bringing into play of a wireless apparatus as a means of communication between sweethearts, and the attempt of a jilted suitor to interfere with the love wireless messages all figured in a romance which led up to this engagement.

A year ago Clay met Miss Vincent at "Harvest Home," and for a time

He Was Ardently Making Love.

afterward called at the Vincent home. He had once worked in a large city, and this fact barred him from close friendship with George Vincent, the young woman's father, who is a farmer and does not trust "city chaps."

Clay was ordered to cease his calls, but his friendship had ripened into a deeper affection. His love was returned.

Communication between the sweethearts for a time thereafter was by means of notes carried by friends. Clay was once an electrician and telegraph operator. He had become deeply interested in the wireless system. He instructed his sweetheart how to arrange a wireless apparatus above the garret in her home, the batteries, coil and other apparatus being taken to her by farm boys, who told her father they were bringing material from a dressmaker.

Miss Vincent carried out the instructions and soon had the apparatus in place. Clay installed an apparatus at his home and love messages were soon being flashed by wireless.

The only person taken into the confidence of the couple was George Butterworth, a friend of Clay, who had previously been a suitor for Miss Vincent's hand. The entire system was explained by Clay to his chum.

Butterworth arranged a wireless

station at his home, which is about half way between that of Clay and Miss Vincent. "Sweet" was Clay's call for Miss Vincent and the young woman's call for her sweetheart was "Dear."

As the station established by Butterworth was in direct zone with that of Clay and the young woman, he could call either. One morning when Miss Vincent answered to the call of "Sweet," she was shocked when she found that Butterworth was in communication. She at first thought he was operating from Clay's home, but he immediately explained why he had rigged up the station. He was ardently making love when Clay went to the instrument to talk to his sweetheart.

Although indignant, Clay did not interrupt the communication, but set out for Butterworth's home. What took place between the two has never been made known. A few weeks later Butterworth enlisted in the navy.

The wireless love messages were flashed for some time before Mr. Vincent became aware of them.

"Why you can make love better by wireless than you can when talking directly to your sweetheart," is all Clay has to say.

### GROWLS LIKE A DOG; EATS GRASS IN PARK

NEW YORK POLICE DISCOVER INDIVIDUAL CRAWLING AROUND ON HANDS AND FEET.

New York.—On his hands and knees and occasionally growling as if trying to imitate a dog, a man was found in Central park by Policeman Arthur Hunt, eating grass. The grass eater is now in Bellevue hospital with the doctors in attendance mystified. They are unable to diagnose his case at present. He exhibits symptoms of hydrophobia, or delirium and temporary loss of mind.

Policeman Hunt had his attention attracted to the man by a gathering just outside of the park wall. It was evident to the policeman that the crowd was greatly enjoying a show of some description, for everybody had a smile.

When Hunt joined the rapidly swelling ranks to investigate he saw a man on his hands and knees eating grass with seeming relish. The unfortunate would leap in a bullfrog fashion from one bunch of clover grass to another, chew a cud and swallow it. He tackled a couple of shrubs rather ravenously and seemed oblivious to the surrounding and laughing crowd.

Hunt climbed over the wall and grabbed the grass eater, who became offended and sought to escape. He fought for a few minutes, when he suddenly became pacified. Then he dropped to his knees again and insisted on eating more grass.

When the prisoner saw water he became unmanageable and frantic. His peculiar behavior led to the belief that he had hydrophobia, although he made no attempt at biting the policeman. The only other evidence of hydrophobia was his propensity to growl like a dog.

After being attended by an ambulance surgeon the man was taken to Bellevue. He became very wild and excited there. He was placed in the alcoholic ward, but he is not supposed to be affected by intoxicants. His violence increased to such an extent that he had to be put in a restraining apparatus.

After he had been quieted some he was questioned as to his identity. He muttered "William Brennan." That is supposed to be his name. He stared in blank amazement when asked for his address.

#### Our Education.

"Well, Johnny, and what did you study in school to-day?"  
"We had psychology."  
"Well, well! Spell it for me."  
"O Gee! Our class hasn't got as far as spelling yet. That comes next term."

### WOMEN SUFFER NEEDLESSLY

Many Mysterious Aches and Pains Are Easily Cured.

Backache, pain through the hips, dizzy spells, headaches, nervousness, bloating, etc., are troubles that commonly come from sick kidneys. Don't mistake the cause—Doan's Kidney Pills have cured thousands of women afflicted in this way—by curing the kidneys. Mrs. C. R. Foreman, 113 S. Eighth St., Canon City, Colo., says:

"Three years I suffered with rheumatism, dropsy and kidney complaint, and became utterly helpless. I found relief after using two or three boxes of Doan's Kidney Pills and kept on until cured. Doan's Kidney Pills have been a blessing to me."

Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

#### He Learned Better

"I never spoke a cross word to my wife but once."

"Honest?"

"Honest. Once was enough for mine, thank you."—Cleveland Leader.

#### Knocking.

"Do you believe in hypnotism?"

"I should say I do! Didn't Mag Smith get married?"

**PERRY DAVIS' PAINKILLER** is "an ounce of prevention" as well as a "pound of cure." For bowel troubles, skin wounds, colds, and other ills. 25c and 50c sizes.

Preachers ought to get a good salary; it's church money, you know.

**Mrs. Winslow's Soothing Syrup.** For children teething, softens the gums, reduces inflammation, allays pain, cures wind colic. 25c a bottle.

And occasionally a man tells lies by keeping his mouth shut.

## THIRD OPERATION PREVENTED

By Lydia E. Pinkham's Vegetable Compound

Chicago, Ill. — "I want to tell you what Lydia E. Pinkham's Vegetable Compound did for me. I was so sick that two of the best doctors in Chicago said I would die if I did not have an operation. I had already had two operations, and they wanted me to go through a third one. I suffered day and night from inflammation and a small tumor, and never thought of seeing a well day again. A friend told me how Lydia E. Pinkham's Vegetable Compound had helped her, and I tried it, and after the third bottle was cured."—Mrs. ALYSSA SPERLING, 11 Langdon Street, Chicago, Ill.

If you are ill do not drag along at home or in your place of employment until an operation is necessary, but build up the feminine system, and remove the cause of those distressing aches and pains by taking Lydia E. Pinkham's Vegetable Compound, made from roots and herbs.

For thirty years it has been the standard remedy for female ills, and has positively restored the health of thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, bearing-down feeling, flatulency, indigestion, dizziness, or nervous prostration. Why don't you try it?

# IDEAL SUFFRAGISTS

## Women of Hopi Indian Tribe Run Things as They Please.

**Ascendency of Females Was Secured Centuries Ago as Result of Their Strike Against Being Treated as Beasts of Burden.**

Flagstaff, Ariz.—Down here in the Great Painted desert man beleaguers by the suffragist hosts may find fully illustrated the fate that will be his when the woman's rights movement reaches its fullest fruition. Long before the beskirted women of the east even thought about demanding the ballot their blanketed sisters in the Hopi Indian nation had fought out the matter and won.

The Hopis are better known to fame as the Mokis or Moquis, but the latter appellation was bestowed upon them in derision by their warlike Navajo and Apache enemies. Hopi means "people of peace." Moqui means "dead men."

Hopi women do not vote, but it is only because they do not want to.

A Hopi Blanket Weaver.

They do about everything else that is masculine and do it because they like it.

Hopi houses are built by the women. The houses are theirs, and their children take their mother's name, not the father's. When a Hopi maiden makes up her mind to marry she does not trouble herself about asking the consent of the man upon whom her eye has alighted with favor. She asks his mother.

The husband does not prepare a home for his bride. She takes him into hers. The produce which he raises is hers whenever it is stored in her house, and no Hopi man ever has property in his own name.

Tradition has it that the ascendancy of these Hopi women was secured centuries ago as the result of a strike. The ancient Hopi used his women as beasts of burden, following the usual Indian custom.

They rebelled and gathered by themselves on an unoccupied mesa. There they held out, resisting all blandishments and entreaties and threats, and only consented to return when assured that they should be complete bosses in the house and the village.

Generations of rulership have stamped the Hopi women as the superior sex. They are beautiful as maidens, good looking as women and often retain their rounded faces and fine hair until old age comes on.

Compared to them the men are stunted. The women are of more than average good figure, muscular and healthy looking. The men grow wizened early and go about their task as though they didn't get much out of life. Of smaller stature, they are often very hardy, and as messengers are capable of going tremendous distances without apparent fatigue.

The same difference marks the mental activities of the two sexes. The men seem to have little to concern themselves about and are dull witted, while the women are alert and energetic, and in disposing of their basketry and pottery, made by themselves, they are much the better bargainers.

The men are slow of speech and inclined to be silent. The women are talkative, and a house building stunt is accompanied by more conversation than half a dozen sewing circles among the palefaces.

The harder tasks are cheerfully shouldered by the capable women, and while they are busy at them the men are condemned to weave the clothing of their wives and knit the stockings for the whole household. Only in the preparation of food is the domesticity of the women displayed.

The little there is of government is in the hands of the men, who also form the priesthood. The Hopi is a very religious gentleman. About half of each month is taken up in religious ceremonials of one kind or another. Most famed of these ceremonies is the snake dance.

## DELVING INTO PSYCHOLOGY.

**Michigan Man and His Twelve Disciples Are Now Completing "Silent Manuscripts."**

Whitehall, Mich.—Living with his 12 disciples in the "Valley of the Pines," near this village, and delving deep into the mysteries of psychology, a study to which his entire life has been devoted, J. A. Sadony is now completing the last of his 12 "silent manuscripts," which are carefully stored in a heavy iron safe, securely locked away in a small cement building near the mouth of White lake.

His 12 disciples, selected by Sadony himself, during trips through every country on the globe, number almost as many different nationalities, each being chosen for his peculiar fitness in the particular branch of the cult which the philosopher desired that he follow. The latest member has now been in the colony 12 years, and the preparation of 12 manuscripts by these men is at once to be started. These books, together with the 12 that Sadony himself has nearly finished, will outline with the greatest minuteness the belief which these men have followed for so many years.

Sadony is a believer in the "simple life." Nothing distracts him from his study and from early morning until late at night all 13 of the men work hard at their books and indulge in prolonged debates with each other. All questions, after being argued out at length, are referred to the entire 13, who decide only after careful consideration just what lines the creed will follow.

When the 24 manuscripts are completed, 12 years will be spent in going over their teachings and small revisions will be made from time to time. At the close of the period the cult will be opened to the criticism of the world. It is preparing against minor omissions and perfecting the manuscripts against any of the critics who are at once expected to attack it, that Sadony is giving so much time to. And when he completes the work he expects that the truths revealed will be so startling as to discredit the work of the critic.

## New Brake for Autos.

The number of autocrats threatens to increase. We owe this anticipated catastrophe to M. de Lipkowski, the famous inventor of brakes employed on most of our railroads. A steel wheel, flexible and elegant, bearing his name, is destined to replace in no small measure the pneumatic of the automobiles. As a consequence no more accidents by cracking and above all no more expensive outlays for the castings. A meeting organized by l'Auto permits these wheels to run with a speed equivalent to 50 kilometers an hour. The auto thus becomes an exact and not too costly means of locomotion.—Le Cri de Paris.

## Youngster's Fellow Feeling.

A small boy, about five years old, was taken to an entertainment by his mother the other evening. It was 10:30 o'clock when they reached home and the little fellow was very tired and sleepy. He undressed quickly and hopped into bed. "George," said his mother sternly, "I'm surprised at you." "Why, mamma?" he asked. "You didn't say your prayers. Get right out of that bed and say them." "Aw mamma," came from the tired youngster, "what's the use of wakin' the Lord up at this time of night to hear me pray?"

## Sees Extinction of Tuberculosis.

Dr. William Osler says: "Whether tuberculosis will be finally eradicated is even an open question. It is a foe that is very deeply entrenched in the human race. Very hard it will be to eradicate completely, but when we think of what has been done in one generation, how the mortality in many places has been reduced more than 50 per cent—indeed, in some places, 100 per cent—it is a battle of hope, and so long as we are fighting with hope, the victory is in sight."

## Her Decision and His.

An earnest stage aspirant dramatically announced to the manager that unless she could obtain an engagement she would kill herself. To quiet the lady the manager agreed to hear her recite.

He listened for a few minutes. Then he unlocked a drawer in his desk and handed her a revolver.—Lippincott's.

## NERVE.

"Excuse me, can I speak to your typewriter a moment?"  
"You cannot; she's engaged."  
"That's all right; I'm the fellow she's engaged to."

## WON'T MIX

**Bad Food and Good Health Won't Mix.**

The human stomach stands much abuse but it won't return good health if you give it bad food.

If you feed right you will feel right, for proper food and a good mind is the sure road to health.

"A year ago I became much alarmed about my health for I began to suffer after each meal no matter how little I ate," says a Denver woman.

"I lost my appetite and the very thought of food grew distasteful, with the result that I was not nourished and got weak and thin."

"My home cares were very heavy, for besides a large family of my own I have also to look out for my aged mother. There was no one to shoulder my household burdens, and come what might, I must bear them, and this thought nearly drove me frantic when I realized that my health was breaking down."

"I read an article in the paper about some one with trouble just like mine being cured on Grape-Nuts food and acting on this suggestion I gave Grape-Nuts a trial. The first dish of this delicious food proved that I had struck the right thing."

"My uncomfortable feelings in stomach and brain disappeared as if by magic and in an incredibly short space of time I was myself again. Since then I have gained 12 pounds in weight through a summer of hard work and realize I am a very different woman, all due to the splendid food, Grape-Nuts."

"There's a Reason." Trial will prove. Read the famous little book, "The Road to Wellville," in pkgs.

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

## ACCENT ON THE "PUS."

Teacher—Now, Jimmy Green, can you tell me what an octopus is?  
Jimmy Green—Yes, sir; it's an eight-sided cat.

## A Natural Mistake.

"I thought you said that you were home early last night and didn't drink a drop."

"So I was, my dear."

"Well, it doesn't look like it. This morning I found your dirty rubbers in the fireless cooker."

"Great Scott! I thought that was the shoe box."

## Sunburnt Eyelids.

Who does not know the misery of sunburnt eyelids—that crinkly and burning condition of the skin? Isn't it worth a great deal to know that Dr. Mitchell's Eye Salve applied to them upon retiring will effect a complete cure before morning. On sale everywhere. Price 25 cents or by mail, Hall & Ruckel, New York City.

The Conference committee of the house and senate has agreed upon a tariff bill, and in the night it appears that the house came out second best. In other words, the increase in rates, made by the senate, were adopted, with a slight reduction on three or four articles, lumber, hides, coal and oil.

Spain is again in trouble at home and abroad. The Moors, in Africa, have played havoc with the Spanish army, and the revolutionists at home have stirred the Kingdom from one end to the other. This is to be regretted, for Spain was showing evidences of returning strength and good government and the young Alfonso seemed to be giving his people a better government than they had enjoyed in many years.

President Diaz of Mexico and president Taft of the United States have an appointment to meet midway on the International Bridge at El Paso on October 18, shake hands and say "como le va, mi amigo?" The meeting of those two great potentates will have no political significance, and the only thing liable to interfere with their friendly salutation is the old bridge itself, which may break down, as it requires a greater outlay annually to keep it in repair than the Lincoln county jail. However, should their conversation drift in that line, they may decide to chip in and build a respectable bridge, and do away with the old bundle of sticks called the International Bridge.

## NOTICE.

In accordance with a requirement of law, notice is hereby given that I will be in Lincoln the county seat of Lincoln county on the 7th day of August, 1909, the same being the first Saturday in said month. The purpose of the law is to have the county superintendent confer with the various boards of directors on that date, and all directors who desire to discuss matters pertaining to their districts are requested to be present on that date.

### NOTICE.

A Petition having been presented to the Board of County Commissioners which is found to have been signed by qualified electors of Lincoln County, New Mexico, equal in number to at least one-half of the legal votes cast at the last preceding general election in said county, asking for the removal of the county seat of said county to Carrizozo, in said county, and that question of such removal be submitted to a vote of the qualified electors of said county. And the Board finds that the said town of Carrizozo is more than twenty miles from the present county seat of said county. The Board further finds that the original costs of construction of the Court House and Jail of said county was less than thirty thousand dollars as shown by the records of the board of county commissioners of this county. And a conveyance having been made by the Carrizozo Townsite Company to this county, conveying Block Eight in said town of Carrizozo, said block eight containing, as shown by the plat of said town, not less than three-fourths of an acre, which said conveyance is hereby accepted. This Board further finds that said town of Carrizozo is situated upon a line of railroad, and that the present county seat of said Lincoln County is situated off the line of a railroad.

NOW, THEREFORE, in pursuance of the prayer of such Petition, and in accordance with the facts so found and with the statutes in such case made and provided, it is hereby ordered and directed that an election of the qualified electors of Lincoln county, New Mexico, be held in each of the precincts of said county, on the 17th day of August, 1909, and at said election the tickets to be voted shall contain: "FOR COUNTY SEAT" with the name of the place for which the voter desires to cast his ballot either printed or written thereon. Such ballots shall be canvassed as in elections for county officers and the returns of such election shall be certified by the Probate Clerk to the Territorial Secretary together with a certified copy of the order of the County Commissioners and a sworn certificate of the publication thereof, to be filed in the office of said secretary.

ROBT. H. TAYLOR, Chairman Board of County Commissioners.

J. G. Riggle, Probate Clerk.

CAPITAN.

The postmaster of Oscuro was a visitor in Carrizozo Saturday. The Bar W company started out Saturday on the annual round up.

Furniture at cost until September 1st at Spence Furniture Co.

R. Warden a cattleman from Ancho was in Carrizozo this week.

Miss Fenton, of Pennsylvania, is here on a visit with her sister Mrs. W. F. Whittingham.

Mrs. A. H. Harvey and Miss Myrtle Pullin visited White Oaks yesterday.

All kinds of furniture goes at cost until September 1st.—Spence Furniture Co.

Elbert T. Collier was down Saturday night, attending the Masonic convocation.

County Surveyor Frank Theurer went to Corona this week on a surveying trip.

Ed F. Comrey came in from Ancho Saturday, to be present at a Masonic meeting that night.

Mrs. Albert Ziegler and daughters are visiting in Alamogordo this week.

J. W. Barrett this week bought lots 9 and 10 in block 9, McDonald addition from I. O. Cavender.

Perry Humphrey was over one

day this week from Angus. He reports conditions flourishing on the creek.

Mrs. C. V. Cook returned to El Paso yesterday after a several days visit here with Mrs. W. F. Whittingham.

Miss Miron Jones, of Santa Fe, is visiting her sisters, Mrs. J. B. Perkins and Mrs. Chas. Anderson this week.

The Spence Furniture Co. is closing out its stock of furniture at cost. The sale will last until September 1st.

Thos. Hightower, an employer at the depot, was taken to the hospital at Alamogordo Monday morning with typhoid fever.

The territorial president of the Daughters of Rebekah was entertained by the local members of the order at an ice cream social Friday evening.

Dr. F. Ranniger, Joe Ashford and others were visitors from Oscuro Saturday night, business and fraternal matters bringing them here on that occasion.

John H. Canning and family left early this week for an outing and fishing trip in the mountains. They expect to be gone about two weeks.

The ladies of the Home Mission society will serve a general

dinner on election day. In the afternoon and evening ice cream and cake will be served.

R. Michaelis, a past official of this county, passed through this town this week on his way from Roswell to Santa Fe, where he intends to spend the remainder of the summer.

Mrs. Jones Taliaferro, of White Oaks, recently received a draft for \$3,000 from the insurance department of the Knights of Pythias in which her lately deceased husband carried a policy.

John Adams and W. S. Kirby spent a few days in Tularosa this week, and seemed pleased with the possibilities of that burg from a business point of view. They may decide to locate there later.

George Kimbrell was up from Picacho Saturday visiting his daughter, Mrs. Brockway. He returned Monday, and was accompanied by Mrs. Brockway and the smaller children.

Attorney A. H. Hudspeth, of White Oaks, left Saturday night for Santa Fe, and will be absent several days. He went to represent some clients before the supreme court.

A quiet marriage was celebrated last Sunday in the office of the Justice of the Peace, in which

the contracting parties were Noel B. Whitmire and Miss Lora Trainer, both estimable young people of this town.

C. H. Brown has returned to Carrizozo and has purchased his old business on El Paso avenue. He is handling the best of mountain meats, in fact his entire line is of the best grade, and solicits a share of the public patronage.

Mart L. and Frank Goodin were up Saturday night from the I-X ranch and Three Rivers. Mart is a member of the A. F. & A. M., and Frank was given a peep behind the scenes Saturday night.

A large number of our citizens went out to the celebration at Jicarilla last Saturday, and enjoyed the hospitality of the people of that section. The returning parties report a big crowd and a good time.

Pharmacist J. Bell, of the Fort Stanton sanatorium, stopped off here yesterday long enough to say "How do." Bell is a good ball player, and, off the diamond, a good fellow. He was going to Alamogordo on business connected with the popular game.

Are you going? I am, and going to take on a few of the great bargains at Ziegler Bros. store.

## IN WARM WEATHER

THESE SEASONABLE SALADS WILL BE APPRECIATED.

Many Ingredients That Go to Make Up the Popular Kartoffel Mixture—Cabbage and Pimentos—Orange Salad Recipe.

**Kartoffel Salad.**—Cut into small pieces Julienne fashion cold boiled potatoes, two cupfuls or more, and cover with the following dressing: Two tablespoonfuls of olive oil (or melted butter, if preferred) one of cider vinegar, one teaspoonful of onion juice,

a saltspoonful of salt, and one of black pepper. Allow the potatoes to marinate in this for half an hour, placing directly on ice to chill. When ready to serve add three chopped hard boiled eggs, three small onions grated, one tablespoonful of minced pickled beet, eight finely sliced olives, and two tablespoonfuls of minced parsley. Thoroughly blend the ingredients together, adding one cupful of mayonnaise dressing, to which has been added two ounces of cooked bologna sausage rubbed to a paste. Arrange in cup of crisp lettuce leaves, decorating with hearts of blanched celery and cubes of aspic jelly.

**Cabbage and Pimento Salad.**—Shave one medium sized head of cabbage, mix through a generous teaspoonful of salt, one small can of pimentos (red peppers), cut in small pieces, mix with salad dressing which has already been made from this recipe: Yolks of two eggs beaten, two tablespoonfuls of sugar, one-half tablespoonful of flour, one teaspoonful of mustard, one-fourth teaspoonful of salt, and a dash of white pepper; stir all together with the eggs, then add one-half cupful of milk and one-fourth cupful of vinegar. Cook in double boiler till it thickens. If too thick when ready to use it may be thinned with cream.

**Pea Salad.**—One can of small peas, drained; one-fourth of a pound cream cheese, one dozen small pickles, one tablespoonful of finely chopped onions. The cheese and pickles should be cut fine. Add mayonnaise dressing. Will serve twelve.

**French Salad.**—Drain the liquor from half a can of peas, add one pint of finely cut celery, one cupful of blanched and broken English walnut meats, and one cupful of tart oranges cut into small pieces. Toss together lightly, garnish with tender white celery leaves, and mayonnaise. Set in a cool place until wanted.

**Orange Salad.**—Cut seedless oranges in cubes and cover with the following salad dressing: Yolks of four eggs, one-half cupful sugar, one-quarter cupful butter, two tablespoonfuls of vinegar, pinch of mustard, pinch of cayenne pepper.

Cream butter, sugar, and eggs, add vinegar, steam in double boiler until the consistency of thick cream. When cold add whipped cream and pour over oranges. Add pecan or English walnut kernels.

### Nest Eggs.

Take a nice fresh egg and separate the white and the yolk, so that the yolk will not be broken. Put the white into a bowl, add a pinch of salt and beat it until it is very stiff. Have ready some little bowl that is pretty enough to put on the table, but that will not break in the oven. Pour into this the stiff-beaten white and make a little hole in the middle of it with a spoon. In this little hollow place the yolk, still unbroken. Set the dish in a hot oven and cook for three or four minutes, or until the white has browned a little and the yolk is firm. There must be a separate dish for each egg that you cook in this way. Serve right away.—The Delineator.

## JOB WOULD KEEP HIM BUSY

Greenhorn Sailor Realized the Captain Had Given Him a Big Contract.

In the height of the recent wheat tumult Broker Patten, discussing the government's wheat estimates with a reporter, said calmly:

"But some of the men the government takes its figures from are greenhorns. Perfect greenhorns. As bad as the Dutch sailor, you know."

"The captain said to the sailor, when the ship came to port:

"Take a boat, run ashore and buy two dollars' worth of vegetables."

"The sailor didn't know what vegetables were, so as soon as he struck land he said to a 'longshoreman':

"What is vegetables, mate?"

"Oh, dried peas, for instance," the 'longshoreman' answered.

"So the Dutch sailor spent his two dollars on a huge sack of dried peas."

"When he drew near the ship again with his load the captain called him from the bridge:

"Well, have you got those vegetables?"

"Aye, aye, sir," said the sailor.

"Then," said the captain, "hand them up to cook one at a time."

"Shiver my timbers!" said the sailor. "I've got a job before me now, and no mistake!"

### SORE EYES CURED.

Eye-Balls and Lids Became Terribly Inflamed—Was Unable to Go About—All Other Treatments Failed, But

Cuticura Proved Successful.

"About two years ago my eyes got in such a condition that I was unable to go about. They were terribly inflamed, both the balls and lids. I tried home remedies without relief. Then I decided to go to our family physician, but he didn't help them. Then I tried two more of our most prominent physicians, but my eyes grew continually worse. At this time a friend of mine advised me to try Cuticura Ointment, and after using it about one week my eyes were considerably improved, and in two weeks they were almost well. They have never given me any trouble since and I am now sixty-five years old. I shall always praise Cuticura. G. B. Halsey, Mouth of Wilson, Va., Apr. 4, 1908." Potter Drug & Chem. ## SMALL GIRL'S COAT

EXCELLENT STYLE FOR GARMENT OF PRACTICAL USE.

Suitable Materials Now May Be Picked Up Cheap—Model Shown for Children of from Six Years Up.

Wide serges and thin summer cloth, such as is suitable for the indispensable coat for the child, are to be picked up everywhere, in just the right quantities, and often as cheaply as 50 cents a yard. Most pleasing little wash textures are seen in similar cuts, linens galore, calicos, ginghams, crashes—some good enough for a dress—actually smart, all reasonably priced and in admirable style.

In fact this is the moment for good bargain remnants, for so much buying is done at the beginning of a season that shopkeepers fear to have things left on their hands and so cut prices tremendously at this time.

The illustration shows a coat that a small girl may slip on and off herself without difficulty, and requires for the ten year size only 4 1/3 yards of material 27 inches wide. The style is an excellent one for practical use, and it goes without saying that the smart little model might be employed to advantage for the finest material.

For early fall wear this coat would naturally be made in cloth or a good serge, but meanwhile a thin summer serge or some wash material would be more useful.

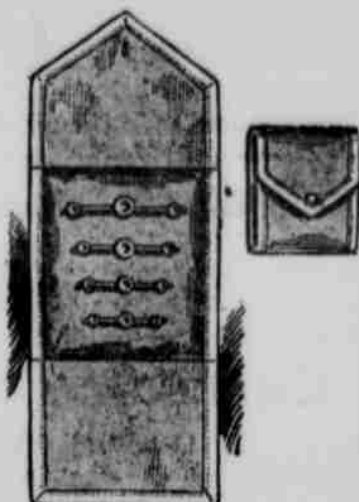

A lightweight covert cloth would be most admirable for it, and in the

with a soft scarf of white mull spotted with dark blue. The shape itself is of plain white duck.—Boston Globe.

## PRESERVES THE FANCY PINS

Little Case Fashioned from Pieces of Ribbon or Silk Is a Handy Thing to Have.

In our sketch may be seen one of those useful articles that can be so quickly run together with the aid of almost any odd little remnants of materials, and so handy for traveling purposes and at other times, as little

fancy pins have a tiresome way of getting lost very easily.

The case shown is intended for holding a set of blouse pins, but brooches also might find a place in it. It can be easily made from pieces of ribbon or silk, and should be lined with wash leather and bound at the edges with narrow ribbon. The center part is padded with cotton wool, and the two fold-over ends fasten together with a button and buttonhole in the fashion indicated in the smaller sketch on the right-hand side. A piece of cardboard should be used to stiffen the padded portion and keep the case in shape. To fasten the case, ribbons may take the place of button and buttonhole, if preferred.

## SURE CURE FOR INDIGESTION

Ways by Which Olive Oil Can Be Rendered Palatable to a Weak Stomach.

A young woman, who had suffered for years with gastric troubles, was advised by her physician to take olive oil three times a day.

As the pure olive oil was extremely distasteful she compromised by buttering her bread, shaking the salt and pepper over it and then soaking it in a tablespoonful of pure olive oil. In this way she easily swallowed the required three tablespoonfuls.

In a comparatively short time her digestive troubles wholly disappeared though she had stopped all medicines and treatment, save deep breathing, where she used the abdominal muscles steadily and regularly for five minutes at a time.

When oil is ordered medicinally, it will prove less distasteful if eaten on crisp or lettuce. At first a little vinegar may be taken, the amount gradually reduced until the pure oil can be eaten.

## To Clean Chamols Skin.

An excellent way to restore chamols skins that have become stiff and soiled is to rub them through a strong solution of cold water and household ammonia, later rinsing thoroughly in clear, cold water to soften. Pin to the line to dry in the sun, rub through the hand slightly.

## In Examination Time.

Miss Clara Evelyn McHugh, a teacher in one of the Topeka schools, read at a recent teachers' meeting from a collection of quaint examination answers that she had been gathering for some years.

The gems of Miss McHugh's collection were:

"A blizzard is the inside of a hen."  
"The equator is a menagerie lion running round the earth."  
"Oxygen is a thing that has eight sides."  
"The cuckoo never lays its own eggs."  
"A mosquito is a child of black and white parents."

## For One Admission Ticket.

"Every rainstorm," complained the youthful pessimist, "means a postponed game."  
"And every postponed game," pointed out the juvenile optimist, "means a double-header." — Kansas City Journal.

The best season of the year for a girl to marry is in the fall. It's an easy matter to teach a man to build fires when the honeymoon is on.

## Special Round Trip Homeseekers' Rates to New Mexico and Texas.

On the first and third Tuesdays of each month, during the entire year, the Colorado & Southern Railway will sell round trip Homeseekers' tickets to a great many points in New Mexico and Texas at one fare plus \$2.00 for the round trip. Final limit twenty-five days, allowing liberal stop-over privileges. For detailed information, rates, etc., call on the Colorado & Southern agent, or address T. E. Fisher, General Passenger Agent, Denver, Colorado.

The 1909 National Encampment of the Grand Army of the Republic will be held in Salt Lake City, August 9th to 14th. An unusually attractive folder in red-white-and-blue, replete with information concerning Utah, Salt Lake City and the Rocky Mountain region, is being distributed by the Passenger Department of the Denver & Rio Grande Railroad. One feature that will be of particular interest to Grand Army men is the reproduction of speaking likenesses of all the Commanders-in-Chief from B. F. Stephenson, the organizer in 1866, to Henry Nevins, the present Commander. This is the first time that this set of portraits has been assembled. The familiar faces of John A. Logan, Ambrose E. Burnside, John F. Hart, Russell A. Alger, John C. Black, James Tanner and many others appear in this interesting series.

Smart Coat for Little Girls.

event of this being used only stitching and buttons should be the ornamentation. If a blue or red serge is chosen a plain white linen or embroidery collar and cuffs of the same would give a more childish and summery note than the velvet and applique here used.

The model is for children from six years up, and for the younger ages the coat could be most daintily realized in white, pink or blue pique.

## THE REMOVAL OF THE COUNTY SEAT.

(Contributed by the Carrizozo Chamber of Commerce.)

(Continued from First Page)

the producer consider what a good market means to him; let the mechanic reflect on the increased opportunity for remunerative employment; let some of our taxpayers think what a divided county might mean to them, and let all of our people ponder well the difference between the position our county now occupies in its relative importance in the territory and its prospective influence if permitted and encouraged to expand and develop along proper lines.

Let us be up and doing, be at the polls early on the 17th of August and decide this question right in a friendly, manly spirit.

### ANOTHER GOOD REASON.

In a large county like Lincoln county the citizens should be informed from week to week of what is going on in the various offices, about their officers, the jail and prisoners therein, and all general news pertaining to county matters. This can only be accomplished by the newspapers, so for this reason alone Lincoln has no claim to retain the county seat in this age of progress. Carrizozo has both the democratic and republican organs, and as the town rapidly improves, which it will beyond all doubt, Lincoln county will soon be able to support a daily paper of its own.

Voters should carefully study all matters on this question of county seat removal, regardless of sentiment, what benefits they have of the two towns, what progress they have made, and in the final balance the voter will see beyond any doubt that Carrizozo is the town with all the advantages to every citizen in the county.

It will only be a question of a few years until the court house at Lincoln will be beyond all repairs, and then do we want to re-

build in Lincoln and remain forever forty miles away from the main line of the railroad.

Various grand juries in their recommendations have pointed out many more needed repairs on these old buildings than has been done in the past three years.

The county is rich enough to build a court house and jail which would be a credit to the people, and where county officers would all be in the court building in offices for their use.

We pay out mileage enough to the sheriff and his deputies for bringing prisoners from Lincoln to Carrizozo on their way to Santa Fe, which is a big item alone and can be saved with the court house in Carrizozo.

It is not the province of the Carrizozo Chamber of Commerce to enter into any argument with any one as to the county seat removal question. It is only our part to present the case of this town to the best advantage and produce facts and figures in support of our contention. For that reason the Chamber of Commerce does not propose to enter into any newspaper discussion with any one, but will briefly refer to the article of Dr Laws in last week's News.

On the question of the court house and jail repair fund this point has been fully answered by the News, and does not call for repetition on the part of this body. Now, if the good doctor, while searching the records which are so convenient for him, and in which he has such expert help, would go back over a period of ten, fifteen or even twenty years to ascertain the actual cash expended on the old buildings, he might be able to discover a much larger annual average than for the period of two and one-half years over which his researches extended.
