VAST WEALTH TO BE GAINED FROM THE TIMBER FORESTS OF MEXICO

They extend from the United States border on the north to the Isthmus of Tehuantepec on the south, containing an abundance of oak and pine trees and having a width ranging from 100 to 1000 miles, according to the proximity of the nearest town. The region is divided into three distinct types of timber, each having its own characteristics and value.

New York—our city, travel over thousands of miles of timber. If you come to Mexico, visit the State of Durango. There you will be able to see the wealth of timber that is yours for the taking. The timber is of the finest quality, and is capable of being converted into any product desired.

The timber is composed of three types: the oak, the pine, and the hardwoods. The oak is the most valuable, being used for furniture, flooring, and other purposes.

The pine is also valuable, being used for building material, railroad ties, and other purposes.

The hardwoods are used for various purposes, including the manufacture of musical instruments, golf clubs, and other products.

The timber is available for the taking, and is waiting for you to come and see it. If you come to Mexico, you will be able to see the wealth of timber that is yours for the taking.

ARCHBISHOP OF BOLOGNA ELECTED TO SUCCEED PLUS

New Pope Assumed Title of Benedict XV.

CHIEF BULGARIAN PAPAL Nuncio Proapero, in Rome, yesterday, read the decree of the Apostolic See of Rome, with which the late Cardinal Yosifovitch, of Sofia, was succeeded by Cardinal Vincenzo di Roppo, of Bologna, Italy, as Archbishop of the City of Rome, Metropolitan of all Italy, and Usque ad Mare, and Archbishop of the Province of Rome, and was appointed to the See of St. Peter, as successor of the late Pope Benedict XV.

The new Pope, who has been Patriarch of Aquileia, Bishop of Udine and Treviso, Archbishop of Aquileia and Vicar General of the Roman See, has been a prelate of the highest distinction for many years, and has been a consistent champion of the Church's teachings.

The archbishopric of Bologna was founded by Bishop Gualtiero in the 7th century, and has been the see of many notable prelates, including St. Bernard of Clairvaux and St. Thomas Aquinas. It is one of the oldest and most important dioceses in Italy, and has a rich history.

In conclusion, the new Pope brings with him a wealth of experience and knowledge, and is well respected by his fellow bishops and the laity. His election is a significant milestone in the history of the Church, and we wish him well in his new role.
