CARRIZOZO, LINCOLN COUNTY, NEW MEXICO, OCTOBER 29, 1909.

NUMBER 38

## Governor Curry to Retire.

Sometime ago it was reported that Governor Curry would resign, but at that time the report was denied. However, there is now no question of the governor's intention to quit the governorship, as he himself confirms the report, and announces that his decision to do so is irrevocable. Many friends throughout the territory have appealed to the governor to reconsider his resignation, but in each instance he has turned a deaf ear to such appeals, and will place his resignation in the hands of the president, to take effect in the early part of the spring, probably in March.

No reason is assigned for the retirement of the governor other than that he desires to be relieved of all official duties in order that he may devote his time to his personal affairs. No difficulty of any nature whatsoever is said to exist with the federal authorities, on the contrary the governor announces that his relations with the administration are the most pleasant, and his retirement is the result of his own conclusions.

It is intimated, though the governor is not quoted, that when he retires as chief executive of the territory Governor Curry will go to Tularosa to reside. He owns some property there and also in the new town of Monterey, adjoining. What business he will enter has not been mentioned by the governor, so far as the public is aware.

Governor Curry was appointed by President Roosevelt in the spring of 1907. He was then in the Philippines, and was not inaugurated until August of the same year. During his brief occupancy of the gubernatorial chair he has added many friends to his already lengthy list, and it is with sincere regret that they learn of his determination to retire.

No intimation is given as to who will be Governor Curry's successor, but the announcement that his resignation will not take effect for several months will, no doubt, result in a field full of applicants. The possibilities, yea the probabilities, are that a non-resident will receive the appointment. It is believed the resignation of Governor Curry foreshadows the death of statehood.

## LINCOLN LOCALS.

The historic old building formerly occupied as a postoffice by Ex-Postmaster Halstead, which has seen many days in Lincoln county, and which at one time was the dwelling place of that noted outlaw, Billie the Kid, has been bought by Dr. T. W. Watson, and is fitted up as an automobile garage.

John A. Walters, one of the old-timers of Lincoln county, died suddenly on the 19th inst. The cause of death was neuralgia of the heart. He was buried the next day in the Lincoln cemetery.

County Treasurer, Dr. T. W. Watson, has announced that he will have an office at Carrizozo during the coming term of District Court, and be ready to receive all taxes that may be offered.

Wm. F. A. Gierke returned last Monday from his trip to El Paso and Albuquerque and is hard at work again.

Mrs. John M. Penfield, accompanied by her mother, Mrs. Julia Tompkins, returned last Monday from their El Paso trip. Mrs. Tompkins will remain here a short time then return to her home in Arizona.

Mrs. J. J. Aragon was a Captain visitor last Monday.

The young people gave a dance last Tuesday night which was well attended.

Deputy Sheriff Leo Oswald was here last Sunday, bringing with him a prisoner who was lodged in the county jail.

## The Baptist Hold Meeting.

Revs. R. P. Pope and G. C. Berryman, Baptist ministers of Alamogordo, are engaged in conducting a meeting here this week. The night services are held in the school house chapel, and in the afternoon cottage services at various homes throughout the town. Considerable interest has been manifested, and the church has had a number of accessions.

The Baptist congregation are considering the proposition of calling Rev. G. C. Berryman to the pastorate at this place. If this is done steps will immediately be taken toward the erection of a church, which is one of the necessities of the town.

Those sweaters have arrived at Ziegler Bros. We have them for ladies, gentlemen and children.

## When You Come to Court

YOU are invited to make our Store your headquarters. Attend to your correspondence in our room set apart for visitors. We will be glad to see you if you buy anything or not. We will be pleased to show you over our immense stock. We buy in large quantities, and meet any and all kinds of competition.

## Don't Fail to see the Prize Doll

that we will give away. You might be the lucky one, and a chance will not cost you one cent. Ask to see it.

We are Agents for  
The American Ladies' Tailoring Co.

## CARRIZOZO TRADING CO.

"The Store where Quality and Price Meet."

## Replevin and Re-replevin.

Quite a crowd was in evidence around Justice Scoggin's court here Monday, the attraction being a replevin suit, wherein Robert Leslie sought to recover 51 head of sheep from Jose Antonio Otero. The case was dismissed, owing to the failure of the papers to place a value on the property. The court directed the sheep to be returned to Otero. Constable Adams, accompanied by Ervin Gray, went out to the Patos country the following day to execute the order of the court. Before, however, the sheep had gotten out of sight, with Otero in possession, Leslie re-replevied them, and the trial will take place here Monday.

FOR SALE:—Two large coal stoves for sale, cheap.  
C. D. MAYER,  
16-22-24, White Oaks, N.M.

## A Halloween Social.

The ladies of the Home Mission Society are preparing to give a Halloween Social next Monday night at the restaurant building, east of W. E. Winfield's store. Pumpkin pie, and lots of other good things to eat, will be on the evening's menu. Fortune telling will be a part of the programme, and if you want to lift the veil that conceals the future, don't fail to take advantage offered on next Monday evening. There will be other interesting happenings on that occasion that, to be appreciated, must not only be witnessed but actual experience is necessary in order to get the full benefit. Everybody is cordially invited—The ladies will be disappointed if you fail to go. Remember the place, the date and the cause.

CARRIZOZO - NEW MEXICO

### A HUMANE WORK.

During the meeting of the medical association at Atlantic City, a suggestion was made that the women physicians of New York and other towns of the north should co-operate in the work of teaching the poor to avoid disease, says the Florida Times-Union. Thus and individual work has become one of strength and union. The physicians of the female persuasion have already begun at their humane task, and the poor, infected children of the crowded quarters will be saved by it. The great philanthropy of this movement can scarce be weighed until one realizes the want, the ignorance and the disease that reign over the tenement districts of New York. The women especially will be taught to take hygienic care of their little ones as well as of themselves. What is the use of supplying pasteurized milk to the infants if the mothers don't know how to feed it to them in a cleanly, sanitary manner. Besides, pasteurized milk does not disinfect a room where baby lives, neither does it make him immune from the diseases which attack his elders with whom he is in too close contact. Teaching the poor, ignorant mothers is saving the race, and no other class of women can be better teachers of the miserable masses than the woman who holds a medical diploma.

The state of Oregon has a unique game law. The last legislature passed an act making it a misdemeanor for a hunter to kill a deer that was being chased by dogs, but at the same time put in a proviso that prevents the ranchers from killing the dogs that chase the deer. It is claimed that hounds protect the deer by chasing them. This is the way it is explained in Oregon. Hounds will rarely run a deer down and kill it themselves, and unless some hunter shoots it, the deer will escape. But while the hounds are loose they will clear the woods of the animals that prey upon the deer. In the spring a wildcat will kill nine or ten fawns to feed its kittens, and the number of wildcats is so great that they destroy more deer than hunters do.

From Alaska comes another news item indicating the enormous possibilities of that once greatly derided country. A ditch has been completed in the Klondike region which is expected to supply water for the largest hydraulic gold-mining operations in the world. It is believed at Dawson that, within the next decade, the companies included in this enterprise will extract from \$1,000,000,000 to \$3,000,000,000 from the gravel of the region through the new facilities thus afforded. Yet a few years ago the Klondike was unknown and the whole of Alaska was regarded as of little or no account.

The Wrights, with their cautious experiments above the parade ground at Fort Myer, do not make the impression upon the imagination which has been effected by M. Bleriot's voyage across the English channel, says the Evening Wisconsin. The monoplane upon which he accomplished the feat is destined to hold a high place in popular esteem as a practical machine for aerial navigation. The English are showing a gallant disposition in the hearty tribute of recognition which they are paying to the intrepid Frenchman.

## ART OF LIFE SAVING

Wm. Henry, Champion Swimmer,  
Coming Over to Teach Us.

He is Founder of the Royal English Society Devoted to Rescuing the Drowning—Easy When You Know How, He Says.

London.—Remarkable progress in the art of saving life from drowning has been made both in Europe and America since the foundation 18 years ago of the English Royal Life Saving society which first organized this service to humanity. William Henry, the founder of this famous society, left England recently on a missionary visit to the United States and Canada. After visiting Montreal, Quebec, Ottawa,

William Henry, Champion Life Saver, Who is Coming to America.

wa, Kingston and other Canadian cities, he will give lectures and illustrations of life saving in Buffalo, New York and other places in the United States.

Mr. Henry is one of those enthusiasts whose zeal is infectious. Being in the happy position of financial independence, he devotes most of his time to his hobby—life saving—and under his direction the society has grown from a small body in 1891, when it was founded, to embrace more than 600 affiliated associations and clubs, numbering over 180,000 members.

The governing authorities of schools, colleges and universities in England all have come under his sway. He has visited nearly all the continental countries and has established societies in Italy, Germany, Sweden, France and Finland. His methods of life saving are being taught in the Australian commonwealth, New Zealand, India, Malta, Egypt, the West Indies and South America.

As a swimmer Mr. Henry is famous not only throughout the United King-

dom but also all over the continent of Europe. He was long-distance champion of England in 1899, salt water champion in 1899, and won the life-saving competition at the Olympic games in Paris in 1900. Besides these he has taken part in numerous international competitions, winning prizes in Austria, Belgium, France, Finland, Germany, Holland, Italy and Sweden, until to-day he is the possessor of more than 600 trophies won in swimming and life-saving contests.

Every school in England which has a swimming club attached to it teaches life-saving as part of the curriculum. Examinations are held by the society and certificates granted, and the great progress made may be judged from the increase in the number of certificates awarded since these practical examinations were instituted.

"My object in going to America," said Mr. Henry just before leaving London, "is to try and stimulate the heads of schools and colleges there to take up life saving and have it taught, just as they teach the children to read. The importance of a knowledge of the best method to resuscitate an apparently drowned person ought to be clear to everybody."

### MAY BE NEW JAPANESE ENVOY

Baron Yasuya Uchida Said to Be Stated as Ambassador to United States.

Washington.—Baron Yasuya Uchida, who, it is reported, will succeed Baron Takahira as Japanese ambassador to the United States, is one of the most prominent of Japanese diplomats. He was born in 1865 and was educated at the Imperial university at Tokyo. In diplomatic service he has filled several important positions. He was one of the Japanese plenipotentiaries who concluded the treaty with China on Manchurian affairs and was made vice-minister of foreign affairs in 1906. The baron comes here from the ambassadorship at Vienna.

### Automobiles in Nova Scotia.

People who have been making automobile tours in Nova Scotia have run up against some strange regulations of the provincial character which have tended to considerably abridge their convenience and comfort.

They did not find an absolute prohibition against cars, as in Nantucket, but the regulations they did find were even more annoying than that at Nantucket, because of the latter they are specifically informed and so would not undertake a tour there.

It appears that the Nova Scotia regulation forbids cars from using the highways in certain sections on the market day in each week, when the country folk flock into the town to do their trading.

They discovered, too late for their convenience, that the market days do not occur on the same day of the week in every town, so that while they steered clear of that in one town they brought up with a bang against the bars in another town on the line of the routes they had planned.

### Claire's Engagements.

In a recent discussion of illiteracy, William H. Maxwell, superintendent of New York's public schools, quoted an amusing letter. This letter, sent to one of Supt. Maxwell's Brooklyn teachers, ran:

"Fren teacher, I do not disaire for Claire shall ingage in Grammer, as I prefer her ingageing in yuseful studies, as I can learn her how to speke and write correctly myself. I have went through two grammers and they done no good. I preffer her ingageing in French and drawing and vokal music on the pianna."

### Painted Eyelids Black.

Ancient Egyptians, to save their eyes, decorated their eyelids with beautiful black, velvety antimony paint, which protected from glare and Egyptian sore eyes. The paint went back near the ear to end in a symbol.

### LOW COLONIST FARES TO THE WEST AND NORTHWEST.

Union Pacific Passenger Department announces that Colonist Fares will be in effect from Sept. 15 to Oct. 15, 1909, to all points in the West and Northwest.

This year the West looks more promising than ever. Now is the time to secure land at low prices, and, at the same time, to visit the many interesting points in the West and Northwest, at which liberal stopover arrangements may be made.

A better estimate of raw lands can be made now than formerly, because these lands are in proximity to new farms that are producing wonderful crops.

For descriptive literature, write to E. L. Lomax, G. P. A., U. P. R. R., Omaha, Neb.

### SUBJECT TO CONDITIONS.

Gimlet—Fibbs claims to have caught a catfish weighing 50 pounds down in the creek, does he? Well, it's safe to say he's lying to the extent of about 40 pounds.

Hammer—Not if he hears you say it.

### Anything But That.

Little John is the youngest of a family of five boys, says the Delineator. One day his mother said to him: "O, John, isn't it too bad I haven't one little girl? I could curl her hair and make such pretty little dresses for her. Don't you wish you were a little girl?"

"Why, mother," he said, "I'd rather be most any other kind of animal you could mention than a girl."

Constipation causes and aggravates many serious diseases. It is thoroughly cured by Dr. Pierce's Pleasant Pellets. The favorite family laxative.

In Madagascar everyone wears silk, which is cheaper than linen.

## SICK HEADACHE

Positively cured by these Little Pills.

They also relieve Distress from Dyspepsia, Indigestion and Too Hearty Eating. A perfect remedy for Dizziness, Nausea, Drowsiness, Bad Taste in the Mouth, Coated Tongue, Pain in the Side, TORPID LIVER. They regulate the Bowels. Purely Vegetable.

SMALL PILL. SMALL DOSE. SMALL PRICE.

Genuine Must Bear Fac-Simile Signature

REFUSE SUBSTITUTES.

## FACTS ABOUT MILK

IT FURNISHES ONE-SIXTH OF THE HUMAN FAMILY'S FOOD.

Contains Many Bacteria Whose Growth Must Be Checked to Keep It Sweet—Two Common Methods of Preservation.

Some idea of the importance of milk as human food may be gained from the fact that about one-sixth of the total food of the average family is furnished by it and its products, says a bulletin of the department of agriculture.

Of the various mammals whose milk is used for food in different parts of the world may be mentioned the goat in the hilly districts of Europe, the buffalo in India, the llama in South America, the camel in desert countries and the mare on the steppes of Russia and central Asia. Sheep's milk is used in some countries for making cheese and in other ways, and the milk of reindeers is commonly used as food in the arctic regions. With us the milk of the cow so far surpasses all other kinds in importance that unless otherwise specified the word milk is taken to refer to cow's milk only.

Good, unadulterated milk should contain about 87 per cent. of water and 13 per cent. solids.

Milk contains bacteria of many kinds and in varying numbers. They cause the souring of milk as well as the ripening of cream and cheese, and produce many other changes in the appearance and flavor. The number present in freshly drawn milk varies enormously with the conditions of milking, and, as they are greatly increased with dirty and careless handling cleanliness in all matters pertaining to the milking and marketing of milk and keeping it in the home cannot be too strongly insisted on. Disease germs, notably those of typhoid, diphtheria, scarlet fever and tuberculosis, may also be carried in milk, so that the purity of the milk supply is of vital importance to every family and community.

The problem of keeping milk sweet is one of checking the growth of the bacteria; and as they are inactive at a temperature below 50 degrees Fahrenheit, milk should be kept in a cool place. Two common methods for preserving milk are pasteurization and sterilization. In the former the aim is to apply heat in such a way as to kill most of the bacteria without producing undesirable changes in the milk; in the latter, to apply enough heat to kill all the bacteria, but with the least possible undesirable change. Chemical preservatives in milk are considered injurious to health, and are forbidden by pure food legislation in many states.

### A Japanese Luncheon.

For a Japanese luncheon have the rooms decorated with cherry blossoms, or, if not procurable, imitation blossoms may be used. These latter are made of tissue paper. The artificial ones cost very little and can be easily made. The greater part of the furniture should be taken from the rooms and it makes the occasion more realistic to have the guests sit on the floor in Japanese style. Japanese screens should be placed at different locations, and if the temperature of the room gives the slightest excuse Japanese fans should be supplied. Japanese tea is very mild. The water being poured over the tea leaves it can be served at once with sugar, but neither milk nor lemons should be used. With it come the wheat cakes, rice cakes or sponge cakes, and, if desired, some sort of confectionery. To make the scene more realistic small Japanese prints and pictures may be hung about the rooms. These can be bought at the bazars at very little expense and given to the guests as souvenirs of the occasion. A single Japanese lily in a pot is also in great favor.

## Physicians Recommend Castoria

CASTORIA has met with pronounced favor on the part of physicians, pharmaceutical societies and medical authorities. It is used by physicians with results most gratifying. The extended use of Castoria is unquestionably the result of three facts: *First*—The indisputable evidence that it is harmless! *Second*—That it not only allays stomach pains and quiets the nerves, but assimilates the food! *Third*—It is an agreeable and perfect substitute for Castor Oil. It is absolutely safe. It does not contain any Opium, Morphine, or other narcotic and does not stupefy. It is unlike Soothing Syrups, Bateman's Drops, Godfrey's Cordial, etc. This is a good deal for a Medical Journal to say. Our duty, however, is to expose danger and record the means of advancing health. The day for poisoning innocent children through greed or ignorance ought to end. To our knowledge, Castoria is a remedy which produces composure and health, by regulating the system—not by stupefying it—and our readers are entitled to the information.—*Hall's Journal of Health.*

Exact Copy of Wrapper.

### Letters from Prominent Physicians addressed to Chas. H. Fletcher.

Dr. B. Halstead Scott, of Chicago, Ill., says: "I have prescribed your Castoria often for infants during my practice, and find it very satisfactory."

Dr. William Belmont, of Cleveland, Ohio, says: "Your Castoria stands first in its class. In my thirty years of practice I can say I never have found anything that so filled the place."

Dr. J. H. Taft, of Brooklyn, N. Y., says: "I have used your Castoria and found it an excellent remedy in my household and private practice for many years. The formula is excellent."

Dr. R. J. Hamlen, of Detroit, Mich., says: "I prescribe your Castoria extensively, as I have never found anything to equal it for children's troubles. I am aware that there are imitations in the field, but I always see that my patients get Fletcher's."

Dr. Wm. J. McCrann, of Omaha, Neb., says: "As the father of thirteen children I certainly know something about your great medicine, and aside from my own family experience I have in my years of practice found Castoria a popular and efficient remedy in almost every home."

Dr. J. R. Clausen, of Philadelphia, Pa., says: "The name that your Castoria has made for itself in the tens of thousands of homes blessed by the presence of children, scarcely needs to be supplemented by the endorsement of the medical profession, but I, for one, most heartily endorse it and believe it an excellent remedy."

Dr. R. M. Ward, of Kansas City, Mo., says: "Physicians generally do not prescribe proprietary preparations, but in the case of Castoria my experience, like that of many other physicians, has taught me to make an exception. I prescribe your Castoria in my practice because I have found it to be a thoroughly reliable remedy for children's complaints. Any physician who has raised a family, as I have, will join me in heartiest recommendation of Castoria."

### SYSTEMS OF TAXATION.

For years the English government has levied an income tax upon her wealthy people, and it has been paid without a murmur; for it is recognized as a most equitable form of taxation. The wealth of any country demands the greater protection, and it is only just that the heavier burdens of taxation should fall on that class of taxpayers that require a more expensive protection.

The Liberal cabinet, of which Herbert S. Asquith is the head, now proposes a still more radical policy of taxation. The new budget, the work of the present chancellor of the exchequer, Mr. Lloyd-George, proposes to raise funds for the construction of dreadnoughts by making the landlords pay the cost by the single tax method.

The gentry of England, as a matter of course, do not like this proposition; for a large portion of their holdings are in lands, a great part of which is non-productive, being kept for game preserves, and is, generation after generation, transmitted intact from father to son, producing but little revenue and undergoing no development. The House of Lords considers this an encroachment of their rights, and may turn the budget down when it comes up for their consideration; but if they do the indications are that there will be things doing in the "tight little isle."

The prime minister declares that the mutilation or rejection of the budget by the House of Lords would cause a greater revolution than had been heard of since the days of the Long Parliament. Lloyd-George voices a world-wide sentiment when he says: "Why make ten thousand owners of the soil and all the rest trespassers in the land of their birth?" Winston Churchill, another Liberal leader asserts: "When the bill leaves the House of Commons, it will leave in its final form, and no amendment by the House of Lords will be entertained. We shall make no overtures to the House of Lords and shall accept no compromise." John Redmond, the big Irishman in the House of Commons, thinks the abolition of the House of Lords will mean home rule for Ireland. The labor leader in the House of Commons, Keir Hardie,

talks most radical, and declares that, "so long as the king stays outside of party politics he does no harm and can be tolerated, but the moment he begins to interfere in politics it is not only the peers' coronets that will go into the melting pot. The crown will go along with them."

Now, contrast the English system of taxation, and the pending measure, with ours. We are pleased to consider ourselves the head and front in all things, but we have stubbornly refused to adopt an income tax because it would be looked upon as an interference with the sacred rights of property. It is now well to remember, since what is termed radical legislation is proposed for Johnny Bull, and at which he is bucking and gagging, that Mr. James Bryce, on various occasions, introduced measures in the English parliament allowing the ordinary British subject to walk over the domain of the land owners, when, in so doing, he did not interfere with agriculture or the privacy of the owner; yet he failed in each instance. The failure of the landlords, at that time, to relax a little of their rigidity has culminated in greater demands from the people and the ultimate result may be that the Lords and landlords will be shorn of all power.

Radicalism has not been strong in England; for it has had to overcome heredity, environment and centuries of training, while we, a young nation, with no aristocracy—except that of money—fear, or pretend to fear, that it would be revolutionary to place the burden of taxation on the wealthy by levying an income tax. To do so, we are told, would be an invasion of private rights. We would rather have revenue raised from every man who is able to buy shoes for his feet, hats for his head, clothes for his body, lumber for his house, machinery for his farm and utensils for his kitchen. Shall we continue a system that England tried for centuries and had to abandon?

Our government seems to have forgotten and the English are just beginning to recall the sublime lines of Goldsmith:

"All fares the land, to hastening ills a prey,  
Where wealth accumulation, and men decay;  
Prisons and Lords may flourish, or may fade—  
A breath can make them, as a breath has made—  
But a bold peasantry, their country's pride,  
When once destroyed can never be supplied."

We have two Henderson wagons, size 3 $\frac{1}{4}$  in. which we will close out at a bargain. Also one Winona wagon, size 2 $\frac{1}{4}$ , going cheap.—Carrizozo Trading Co.

"Nifty"—that's the expression the youngman uses when he inspects our line of fall suits and overcoats.—Ziegler Bros.

Courting next week—more of pain than of pleasure.

John J. McCourt was up from El Paso this week, among his old friends.

T. W. Henley, postmaster and prominent old-timer of Nogal, is in town today, attending to business matters. He will return tomorrow.

If you desire to know how it feels to get lost in the mountains, your curiosity may be satisfied by appealing to John Bell. He got on the opposite side of the mountain from camp, while out hunting recently.

They lead, others follow, in the new things for fall wear.—Ziegler Bros.

Harry and Allan Johnson, C. D. Wilson, George Smith and Isidro McKinley, of Capitan, delivered a bunch of cattle here last Saturday to W. C. McDonald. The cattle were loaded out that afternoon for Kansas City.

W. M. Reily and Joe Cochran went out Sunday to Spring canyon, about fifteen miles south, on a hunt for deer, bear, etc. Ben Daves and others joined them later with some bear dogs. Tuesday they struck a bear trail, chased him over mountain and dale, and finally, a well directed shot made an end of him. He was a cinnamon cub. The party also brought down two deer.

**FOR SALE**—One modern five room residence, three porches; three lots included. Good well of water; yard inclosed. Will sell for part cash, balance in monthly payments. Bargain for anyone desiring a comfortable home, if taken soon. See

**WELCH & TITSWORTH.**  
CAPITAN.

Ben Nabours and wife were in this week from the Oscuros.

P. C. Bell was over this week from the iron region of the Oscuros.

Mart L. Goodin was in town several days this week from the I — X ranch.

W. R. Beaty, the big, jolly Oscuran, was circulating among friends here yesterday.

J. J. Aragon, of Lincoln, and W. H. Johnson, of Capitan, came over Monday, and went to El Paso on that day's No. 3.

Court convenes next week, and a large crowd is expected. Preparations, however, have been completed for the care of all who come.

Sheriff Stevens passed through Monday on his return from Corona to Lincoln. He had been out inviting jurors to come to Carrizozo.

Ed C. Pfingsten was down from the Mesa Wednesday with a load of spuds for a neighbor. It beats the Dutch how they produce stuff in that neck of the woods.

Elmer Lindsey writes us to change the address of his paper to La Plaza, San Juan county, this territory. He but recently left the White Oaks country where he had resided many years.

Bill R. White was down from the Mesa Tuesday with a load of produce from his farm. Sallie is a farmer, both theoretical and practical; if you don't believe it, ask him.

Will Titsworth returned from a month's trip east Wednesday, and went to Capitan the same evening. He visited his old home in Missouri while absent and also Colorado Springs, Colorado.

A little cleaning up of back yards and alleys could be profitably indulged in by some of our citizens. The town would present a better appearance and the danger of contagion be reduced.

James E. Hurt returned last Saturday night from Ovalo, Taylor county, Texas, to which point he had gone in July. Mr. Hurt's father died in August, necessitating his attention to the property interests of the father.

W. E. Palmer, who has been agent at Capitan for the past six years, has been transferred to Santa Rosa, and went to that point Tuesday night to assume the duties of his new station. He will be succeeded at Capitan by W. L. Scales, who was formerly at Oscuro.

George Spence and family and Frank J. Sager and family returned Sunday evening from the

upper point of the mal pais, to which point they had gone some days previous on a hunting expedition. Deer were sighted, but the hunters failed to get the proper sight; for they perforated the atmosphere with the venison out of sight and none in camp.

A nine-pound girl put in an appearance at the home of Mr. and Mrs. P. E. Lacey Wednesday morning. The little wee bundle of humanity is doing nicely; so is its mother, and Doc is able to sit up and take nourishment.

The complaint against N. M. Scoggin, at Oscuro Tuesday, before Justice Thornton, on the charge of perpetrating a nuisance, was dismissed, and the case will go into district court. The complaint alleged that Justice Scoggin had a hog pen that was offensive and endangered the health of his neighbors.

The Campbell-Graham hunting party returned Monday, footsore and weary, but not hungry; for they claim to have eaten all the game they killed. They failed to produce hair, hides or horns, as a visible evidence of their prowess, to the sporting editor of the News, but as the veracity of these gentlemen, to our knowledge, has never been questioned, we will not do so at this time.

Everybody take a run down to El Paso—November 1 to 7—and see the fair and and exposition. Handsome purses have been hung up by the association for various sports and attractive programme has been arranged for the entertainment of visitors. One fare for round trip. See ad. elsewhere in this paper.

D. M. Cox was down from Ancho Saturday. The people of Ancho have just about completed their school house, and will be ready for school the coming month. Mr. Cox has been very active in the building matter, giving a large portion of his time to raising funds for that purpose; but the reward for himself and those who furnished the means will be a substantial building and a local school.

Sol C. Wiener left Saturday night for Chicago, where he will in future make his home. He recently disposed of his mercantile business at White Oaks, which he has conducted for the past sixteen years. In the business, social and official life of Lincoln county, Mr. Wiener has been a prominent figure. He served two terms as a member of the board of county commissioners, six years in all, and was chairman of the board the greater part of that time.

## MAKING FLIES FLY OUT

German Method of Treating Moths Will Apply Also to the Household Pests.

Those terribly scientific people, the Germans, are utilizing the common phototropism of insects to slay objectionable moths by the ton. They set a light, of just the right size and brightness, where it will attract the moths into the sphere of influence of a vacuum fan. After that, nothing remains to be said concerning the moths.

The common fly is much less sensitive to light than the moth; nevertheless, he is sufficiently phototropic to be vulnerable. Every housekeeper has noticed that on certain cloudy days her flies collect on the screens and window panes, as if they were trying to get out. It is a good plan to let them.

In fact, one can usually, after a little experience, no matter what the weather, clear a room of flies by the obvious device of opening the window and letting them fly out.—McClure's.

## FOR SILK HANDKERCHIEFS

How to Keep Them from Turning Yellow in the Laundry Tub.

In washing silk handkerchiefs care should be taken to prevent their turning yellow. A silk handkerchief should never be boiled, nor have any soap rubbed upon it. Make a lather of finely shredded white soap and water, wash and squeeze the handkerchiefs in it, press out all the moisture possible, and dry quickly in the sun, ironing them while they are still damp, but not wet.

White silk handkerchiefs used as neckties are sometimes cleaned very well with dried and powdered starch in which a little powdered blue has been mixed.

The handkerchief is spread over a clean linen cloth and with a pad of clean white linen the powder is rubbed over the silk, then dusted out, after which, with a moderately hot iron and two folds of a slightly damp linen laid over the silk on the right side, the handkerchief is ironed.

### Uses for Borax.

It softens water.

It soothes the skin.

It is valuable in laundering.

Put in water, it saves soap and labor, but it is not added to the rinsing water.

Three tablespoonfuls of borax should be allowed to a boiler of water. In starching linen the addition of a teaspoonful of powdered borax to a quart of water is advisable.

Porcelain pans may be whitened by adding borax to hot water. Add more and scour if necessary.

Paint is cleaned and preserved by being washed with a cloth dipped in a pail of water in which two tablespoonfuls of borax have been dissolved.

If paint be very soiled a little soap may be rubbed on the cloth, the whole being carefully rinsed with another cloth.

### Tongue Salad.

Cut cold tongue into very small, thin strips and lay in the bottom of a salad bowl. Add layers of finely chopped celery and cold boiled potatoes cut in small pieces. Strew over this a little minced parsley and a few tablespoonfuls of beef stock seasoned. Add a rather tart French dressing garnish with lettuce leaves and place in the refrigerator until ready to serve.

### Flower Sandwiches.

Put a trimmed loaf of stale bread and some butter into a large covered jar containing clover, roses, violets, lemon verbena or nasturtiums and let them stand several hours. Then cut the bread thin, spread with the butter and a delicate sandwich, saturated with the odor of flowers, dainty enough for an epicure is the result.

## WHAT IS PAINT?

The paint on a house is the extreme outside of the house. The wood is simply a structural under layer. That is as it should be. Unprotected wood will not well withstand weather. But paint made of pure white lead and linseed oil is an invulnerable armor against sun and rain, heat and cold. Such paint protects and preserves, fortifying the perishable wood with a complete metallic casing.

And the outside of the house is the looks of the house. A well-constructed building may be greatly depreciated by lack of painting or by poor painting.

National Lead Company have made it possible for every building owner to be absolutely sure of pure white lead paint before applying. They do this by putting upon every package of their white lead their Dutch Boy Painter trademark. That trademark is a complete guarantee.

### True Thrift.

"When visiting a certain town in the Midlands," says a medical man, "I was told of an extraordinary incident wherein the main figure, an economical housewife, exhibited, under trying circumstances, a trait quite characteristic of her. It seems that she had by mistake taken a quantity of poison—mercurial poison—the antidote for which, as all should know, comprises the whites of eggs. When this antidote was being administered, the order for which the unfortunate lady had overheard, she managed to murmur, although almost unconscious, 'Mary, Mary! Save the yolks for the puddings!'—Tit-Bits.

### Why Are We Stronger?

The old Greeks and Romans were great admirers of health and strength; their pictures and statuary made the muscles of the men stand out like cords.

As a matter of fact we have athletes and strong men—men fed on fine strength making food such as Quaker Scotch Oats—that would win in any contest with the old Roman or Greek champions.

It's a matter of food. The finest food for making strength of bone, muscle and nerve is fine oatmeal. Quaker Scotch Oats is the best because it is pure, no husks or stems or black specks. Farmers' wives are finding that by feeding the farm hands plentifully on Quaker Scotch Oats they get the best results in work and economy. If you are convenient to the store, buy the regular size packages; if not near the store buy the large size family package.

Bees sometimes fly two miles from the hive and find their way back without difficulty.

**PERRY DAVIS' PAINKILLER**  
Dyspepsia often results from neglecting slight attacks of indigestion. Avoid trouble by taking Painkiller for it and cramps. 25c, 50c and 100c sizes.

Woman thinks she will be man's superior when she gets her rights.

**Mrs. Winslow's Soothing Syrup.**  
For children teething, softens the gums, reduces inflammation, allays pain, cures wind colic. 25c a bottle.

Many a man is the moving picture of an unpaid tailor bill.

## Honored by Women

When a woman speaks of her silent secret suffering she trusts you. Millions have bestowed this mark of confidence on Dr. R. V. Pierce, of Buffalo, N. Y. Everywhere there are women who bear witness to the wonder-working, curing-power of Dr. Pierce's Favorite Prescription—which saves the suffering sex from pain, and successfully grapples with woman's weaknesses and stubborn ills.

IT MAKES WEAK WOMEN STRONG  
IT MAKES SICK WOMEN WELL.

No woman's appeal was ever misdirected or her confidence misplaced when she wrote for advice, to the WORLD'S DISPENSARY MEDICAL ASSOCIATION, Dr. R. V. Pierce, President, Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets induce mild natural bowel movement once a day.

# Ask Her This Question

"Do you know of any woman who ever received any benefit from taking Lydia E. Pinkham's Vegetable Compound?"

If any woman who is suffering with any ailment peculiar to her sex will ask her neighbors this question, she will be surprised at the result. There is hardly a community in this country where women cannot be found who have been restored to health by this famous old remedy, made exclusively from a simple formula of roots and herbs.

During the past 30 years we have published thousands of letters from these grateful women who have been cured by **Lydia E. Pinkham's Vegetable Compound**, and never in all that time have we published a testimonial without the writer's special permission. Never have we knowingly published a testimonial that was not truthful and genuine. Here is one just received a few days ago. If anyone doubts that this is a true and honest statement of a woman's experience with Lydia E. Pinkham's Vegetable Compound write and ask her.

**Houston, Texas.**—"When I first began taking Lydia E. Pinkham's Vegetable Compound I was a total wreck. I had been sick for three years with female troubles, chronic dyspepsia, and a liver trouble. I had tried several doctor's medicines, but nothing did me any good.

"For three years I lived on medicines and thought I would never get well, when I read an advertisement of Lydia E. Pinkham's Vegetable Compound, and was advised to try it.

"My husband got me one bottle of the Compound, and it did me so much good I continued its use. I am now a well woman and enjoy the best of health.

"I advise all women suffering from such troubles to give Lydia E. Pinkham's Vegetable Compound a trial. They won't regret it, for it will surely cure you."—Mrs. Bessie L. Hicks, 819 Cleveland St., Houston.

Any woman who is sick and suffering is foolish surely not to give such a medicine as this a trial. Why should it not do her as much good as it did Mrs. Hicks.

**PARKER'S HAIR BALSAM**  
Cleanses and beautifies the hair. Promotes a luxuriant growth. Never falls to Residue. Gray Hair to its Youthful Color. Cures scalp diseases and hair falling. 50c and \$1.00 at Druggists.

## Nothing Too Good

for you. That's why we want you to take **CASCARETS** for liver and bowels. It's not advertising talk—but merit—the great, wonderful, lasting merit of **CASCARETS** that we want you to know by trial. Then you'll have faith—and join the millions who keep well by **CASCARETS** alone.

**CASCARETS** are a box for a week's treatment, all druggists. Biggest seller in the world. Million boxes a month.

It's afflicted with more eyes use **Thompson's Eye Water**

W. N. G. DENVER, NO. 38-1909.

## A TEXAS CLERGYMAN

Speaks Out for the Benefit of Suffering Thousands.

Rev. G. M. Gray, Baptist clergyman, of Whitesboro, Tex., says:

"Four years ago I suffered misery with lumbago. Every movement was one of pain. Doan's Kidney Pills removed the whole difficulty after only a short time. Although I do not like to have my name used publicly, I make an exception in this case, so that other sufferers from kidney trouble may profit by my experience."

Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

## WHY NOT?

One of the preachers has asked the members of his congregation to bring their canary birds to church. Why not try to save some of the parrots?

## CUTICURA CURED HIM.

Eczema Came on Legs and Ankles—Could Not Wear Shoes Because

Of Bad Scaling and Itching.

"I have been successfully cured of dry eczema. I was inspecting the removal of noxious weeds from the edge of a river and was constantly in the dust from the weeds. At night I cleansed my limbs but felt a prickly sensation. I paid no attention to it for two years but I noticed a scum on my legs like fish scales. I did not attend to it until it came to be too itchy and sore and began getting two running sores. My ankles were all sore and scabby and I could not wear shoes. I had to use carpet and felt slippers for weeks. I got a cake of the Cuticura Soap and some Cuticura Ointment. In less than ten days I could put on my boots and in less than three weeks I was free from the confounded itching. Capt. George P. Bliss, Chief of Police, Morris, Manitoba, Mar. 20, 1907, and Sept. 24, 1908."

Potter Drug & Chem. Corp., Sole Props., Boston.

## By Automobile Up Mount Rainier.

United States Engineer Eugene Ricksecker celebrated Independence day by throwing open the government road in the Mount Rainier National park. Vehicles and horsemen now have an excellent thoroughfare from tidewater to Narada falls, near snow line in Paradise valley. Mr. Ricksecker says that autos and wagons can now make the trip with comfort. The maximum grade on the road is four per cent. Nearly a score of automobiles, all loaded, went to the mountain.

## Not Qualified for the Job.

Father (impressively):—"My son, I want you to be very attentive to your new teacher, who is a man of wide and general information. He can teach you everything you need to know." Small Boy (derisively):—"He! He don't know nothin'! Why, he can't even tell who's pitchin' in the league teams."

## Where Rice Excels.

"My mamma says that rice is a better food than wheat."

"Why is it?"

"Because of the food elephants it contains."

## NEW CURTAIN IDEAS

MAY BE MADE FROM CHEESE CLOTH AND MUSLIN.

Lovely Window Hangings and Portieres That Any Bright Girl Can Devise at Small Cost of Time and Money.

To the woman who is her own home decorator, the window curtain furnishes a new opportunity. Women 500 years ago used to spend a lifetime embroidering these hangings.

The modern woman would scarcely think of making a life work of tapestry.

She cares more for bold, sketchy designs, that make a good effect with the minimum amount of work.

For summer homes, in particular, there are very attractive curtains and portieres that may be embroidered at small cost of time and money.

Ordinary materials like unbleached muslin, dotted muslin, cheesecloth or sheer lawns can be used, while for portieres or outer curtains, cretonnes, art linens, striped ticking or galatea and cotton or linen taffetas in plain colors give good results.

A girl last winter worked a set for the living room of her country home that have called forth more admiration than curtains costing three times as much generally receive.

The room being done in a soft gray, the curtains were made of gray cheesecloth of a fine quality. Down one side and across the bottom of each curtain was a border four inches wide of scattered conventionalized leaves outlined and darned in a soft blue-green.

The straight outer lines of the border were outlined and the spaces between leaves also darned in. But four colors were used, all in the loveliest pastoral tints of green, blue, dull pink and yellow. At intervals of ten inches on the border was a large six-petaled flower, the edges of the petals extending a half inch or more on each side of the border. This was worked solidly in a creamy white, shaded with green, the centers filled with yellow French knots.

Heavy mercerized cottons of high sheen were used for the embroidery, and with the exception of flowers, which were worked in shaded Kensington stitch, the work was done in outline for the edges and plain running stitches about a quarter of an inch long to fill up all the empty spaces and give a glossy, solid-looking surface.

A girl with any small pretension at drawing could design such a border for herself. Draw two straight lines four inches apart as a foundation of border, scatter across it diagonally from edge to edge a conventionalized vine of any long-pointed leaf; connect by stems an eighth of an inch wide, and at ten inches cross band with single flowers, such as nasturtium, wild rose or chrysanthemum.

The design is first outlined and then filled in with the darning stitches, care being taken that the coloring is arranged to bring out each separate part. This border, simple as it is, gives opportunity for original color effects. If desired the flower could be one used in wall paper or border.

## For School Children.

Supply the youngsters going to school with folded paper cornucopias, which come in sealed packages for a small sum. These are used for drinking cups instead of those found in public places. It is wise to keep a supply of these paper cornucopias on hand for those who travel and for the shopper when in the city for a day. Teach the children to make these useful little drinking cups from clear white paper, and there will be no danger of contracting disease from a drinking cup used by every one who passes by.

## DON'T LIKE TO PAINT MEN

Miniaturists Declare They Are Too Coarse and Harsh to Be Good Subjects.

Perhaps woman suffragists don't need to be cheered up a bit, but if they do they may find a note of gladness in the fact that there is another class of persons besides themselves who have no use for a man. They are miniature painters.

"Can't you paint a man in miniature?" said the visitor, who had been looking at dozens of dainty feminine likenesses which reposed in a cabinet uncontaminated by association with a single man.

"We can," said the artist, "and we do, occasionally, but we don't want to. Men don't look well in miniatures. They are too harsh, too coarse. If a miniature is going to be a real work of art it must have for its subject something dainty, fluffy, and lacy. There is nothing very fluffy or lacy about a man's stiff linen collar, his unsightly lapels, his straight, short hair. In the days when men wore satin coats and powdered curls, miniature painters might have been able to work them up into a pleasing picture, but you don't meet many men nowadays who wear satin coats and powdered curls. Of course, if a man dressed in the ugly modern costume wishes to be painted in miniature no artist is going to refuse the commission, but she certainly will not approve of his taste."

## Not Ashamed of Economy.

Discussing England and the English from an American point of view, a recent American writer in England observes: "Nobody, from the king of England down, is either ashamed or afraid to be economical. Here a man or a woman is thought to be a fool or a vulgarian who is not careful of expenditure, while in America our waiters have been clever enough to make it appear that economy is mean, and as a nation we suffer accordingly. We are fools to be fooled in this manner."

## PRESSED HARD Coffee's Weight on Old Age.

When prominent men realize the injurious effects of coffee and the change in health that Postum can bring, they are glad to lend their testimony for the benefit of others.

A superintendent of public schools in North Carolina says:

"My mother since her early childhood, was an inveterate coffee drinker and had been troubled with her heart for a number of years, and complained of that 'weak all over' feeling and sick stomach."

"Some time ago I was making an official visit to a distant part of the country and took dinner with one of the merchants of the place. I noticed a somewhat peculiar flavor of the coffee, and asked him concerning it. He replied that it was Postum."

"I was so pleased with it, that after the meal was over, I bought a package to carry home with me, and had wife prepare some for the next meal. The whole family liked it so well, that we discontinued coffee and used Postum entirely."

"I had really been at times very anxious concerning my mother's condition, but we noticed that after using Postum for a short time, she felt so much better than she did prior to its use, and had little trouble with her heart and no sick stomach; that the headaches were not so frequent, and her general condition much improved. This continued until she was as well and hearty as the rest of us."

"I know Postum has benefited myself and the other members of the family, but not in so marked a degree as in the case of my mother, as she was a victim of long standing."

## ALL SCHOOL CHILDREN MUST BE VACCINATED.

The following circular letter from the Superintendent of Public Instruction defines the duties of school boards and teachers, and for the information of parents throughout the county it is herewith reproduced.

To County Superintendents.

Gentlemen:—Chapter 103 of the Laws of 1903 and Chapter 17 of the Laws of 1901 provide that all children of school age in each county of the Territory shall be vaccinated against smallpox. An occasional difficulty has arisen concerning the interpretation and enforcement of these laws, and upon request I am submitting the following interpretation.

Each teacher of the public school (rural, village, town or city) shall deny admittance to the school to all children who are not so vaccinated.

Every child admitted to the school should be required to present statement from a reputable physician licensed to practice in the territory of New Mexico certifying that said child is properly protected by vaccination; said certificate specifically stating that the child has been EFFECTIVELY vaccinated (leaving well pronounced scar) within a period of five years previous to the date of entrance upon the school, or that such child has been vaccinated either with or without pronounced effect, within a period of twelve months previous to entering the school.

N. B. It is the consensus of opinion of Physicians of the United States that an effective vaccination protects the child against smallpox for a period of at least five years.

At the beginning of the school year and at such other times thereafter as it may be deemed advisable the teacher shall make report to the county superintendent of schools giving the number of children who have been vaccinated within a year and the number of children who have presented certificate certifying to effective vaccination within a period of five years, together with a list of names of parents who refuse or fail to have their children vaccinated.

It becomes the duty of the sheriff or any constable whom the sheriff may designate to arrest such parents or guardians, and upon conviction they shall be fined not less than twenty-five (\$25) dollars nor more than one hundred (\$100) dollars, or be imprisoned as provided by law.

The fine collected for violation of this act shall become a part of the school fund in the district in which the offender lives.

The county superintendent of schools is required to enforce the law touching the vaccination of children attending the rural schools under his supervision.

Section 12, Chapter 121, laws of 1909, provides a penalty of (\$25 to \$500) for the failure of any member of a Board of Education or any county superintendent to perform his duty imposed under or by virtue of the law.

Vaccination may be performed by the county health officer or by any reputable licensed physician.

The expense of vaccination of children in indigent families may be met as provided in Section 30, Chapter 103, Laws of 1903.

County Superintendents are hereby urged to make special effort in the enforcement of the laws concerning vaccination against smallpox, and to visit the various districts in which difficulty arises over the enforcement of this law with a view to a settlement of such difficulties without recourse to the courts.

Yours very respectfully,  
Signed J. E. CLARK,  
Territorial Superintendent Public Instruction.

Hon. J. E. Clark,

Territorial Superintendent Public Instruction.

Dear Sir:—Your circular letter addressed to County Superintendents of Schools on the subject of vaccination, and the law applicable thereto, meets with the approbation of this office, all matters pertaining thereto appearing to be fully set forth.

Very respectfully,  
Signed H. CLANCY,  
Assistant Attorney-General.

### Notice for Publication.

Serial No. 630448.
