St. Louis Reports that Business is Improving.

Immigration is Light on Account of the Financial Stringency.

His Pension Payments.

St. Louis, Aug. 4.—Business is reported as rapidly improving in this city, and the Real Estate Exchange reports quite a large amount of money offered at six per cent. The clearing house has issued a statement showing that the banks have on hand available cash balances to the extent of forty-three per cent of their call deposits, and this is regarded as at least ten per cent more than required to withstand almost any kind of run. There has not been the slightest feeling of uneasiness with regard to any bank, nor has there been excitement of any kind. There have been no large failures. The Madison (Ill.) Car company which suspended last month with liabilities and assets both approximating one million dollars, is the only large concern which has suspended within fifty or a hundred miles of the city, and operations are about to be resumed by this concern. Business generally has had little more than the usual mid summer lull, except in the boot and shoe trade where the phenomenal gains of the last few years have not been maintained. The building trade continues to ignore the financial uneasiness elsewhere. Work is going on rapidly on four structures each costing more than one million dollars, and on at least six others in the half million class. The largest partially completed buildings are the new hotel (\$2,000,000), new city hall (\$1,200,000), new Union depot (probably \$2,000,000), and the Union Trust building (\$1,250,000). Real estate prices are maintained, and for the dispatches from other points there would be no idea of bank runs or business failures. The Mount City's traditional conservatism is standing it in good stead, and attracting a great deal of New England capital. Railroad building is very active. A new belt road is being constructed around the city, and the Burlington road is pushing work on the bridges over the Mississippi and Missouri to give it direct access to the city from the north.

Light Immigration.
London, Aug. 4.—The report from the United States concerning the temporary financial stringency and commercial depression has knocked the boom for which the immigration agents have been working for several months into smithereens. Ever since the spring the various immigration agencies in the center of the city have been deluging the various industrial and agricultural regions of the country with pamphlets and leaflets dishing in glowing terms upon the opportunity for profitable employment of artisans, mechanics, farmers and agricultural laborers in the United States, that country being represented as being on the tip top of prosperity, with abundance of capital and labor as a premium. As a result of these representations numerous immigration clubs have been organized on an installment principle in the west and north of England, and the agents have been looking forward to one of the biggest harvests of recent years in their line. Cable dispatches of the past few weeks however, have convinced the intending emigrants that it is better for the time being to endure present evils than to seek worse ones in a new country, and as a result the boom has petered out.

Swiss Labor Congress.
New York, Aug. 4.—A special cable from Zurich, Switzerland, says: The Great International Congress of Trades' Unionists and Socialists will be called to order tomorrow morning in the Zurich town hall. Over one thousand delegates had arrived up to today, and it is thought that the total representation will be double that number. No delegates from the United States have so far arrived, and comparatively few of the French socialists are on hand, the elections of August 20 proving a stumbling block to their presence. At the meeting to-day of the executive committee it was decided that the president of each day's proceedings should be elected at the beginning of each day, and successively from the different nations represented. The German Union is strongly represented, and so is the English Trade Union congress, the London Trades Council, the Miners' Federation, the International Labor League, the Social Democratic Federation, and numerous other English organizations. Over two hundred resolutions have so far been filed by the delegates for discussion and action. One from the Swiss delegation declares that the next fight of wage earners the civilized world over must be for an international legal eight hour day, and that this must be accomplished by the political organization of the working classes in connection with trade unionism. The Dutch socialists have a resolution advising wage workers to use national elections only as a means of propaganda, and to permit their representatives to enter parliament simply to protest against the present capitalist regime, but not to take part in parliamentary work proper. The French delegation has filed a resolution favoring a unity of action between the revolutionary socialists and the communist anarchists, but this will be vigorously opposed by the German socialists. A number of resolutions are to be filed in behalf of the American-Germans, but their exact purport has not yet developed. The French have three resolutions relating to May day demonstrations, the Paris Labor Exchange urging that it should not be merely a workers' holiday, but a manifestation for the purpose of bringing about international peace. The Paris Socialists' Alliance boldly declares that war should be abolished in Europe, and suggests the formation of an international court of arbitrators to be composed of delegates from all nations to be elected by the various parliaments or congresses, one for each million of population.

Repressive Exports.
Caddo, Ind. T., Aug. 4.—The repressive granted by Gov. Jones of the Choctaw Nation to the nine members of the Jones faction convicted of murder in connection with the Choctaw troubles expires to-day. The condemned men are at Winterton, which is difficult of access, and no news has been received from that point for the last two days. It is not thought probable, however, that the sentence will be carried into effect in view of the Interior Department for the former commutation until September 4, the request being based upon the idea that through firmness and kindness combined peace might be restored between the warring factions of the Choctaws. The breach between the two factions, however, is as wide as ever, and up to last advice from Winterton the Locke party were determined to prevent the proposed wholesale slaughtering of their supporters.

A Romantic Tale.
New York, Aug. 4.—The eldest son of the late Jacob Wilson, a wealthy and well known real estate dealer of this city, is expected from the Pacific coast, his coming being for the purpose of bringing a suit to recover his share in his father's estate. The trial of his suit promises to be full of romance and sensation. Young Jacob Wilson charges that his wife entered into a conspiracy with her friends to deprive him of property valued at about \$90,000. This being successfully accomplished, she trumped up sufficient evidence to obtain a divorce, and while the suit was pending had him "shanghaied" while intoxicated and taken aboard a ship bound for Australia. There he landed without a penny in 1889. Finally he drifted to the Pacific coast, where found a friend to help him.

Millions of Acres.
Richmond, Va., Aug. 4.—A bill in the celebrated case of Countess Caroline von Roques of Rouen, France, against David Armstrong of Louisville and others, was filed in the chancery court here. The case involves the title to 2,500,000 acres of land in Virginia, West Virginia and Kentucky, and the object is to have annulled the deed signed by Countess von Roques and her daughter, Mrs. Florence E. Maybrick.

Los Angeles Man's Victory.
Chicago, Aug. 4.—In the official announcement of awards made by the World's Fair convention of the Photographic Association of America, George Steadell, of Los Angeles, California, was awarded two gold medals and the first prize in Class B for large photographs and the first prize in Class C for smaller. This was never made before in the history of the association.

Pension Payments.
Washington, D. C., Aug. 4.—Thirteen and a half millions of currency will go into circulation during the next few days as a result of the quarterly payment of pensions in what is known as the second group. The disbursements commence to-day. At Indianapolis \$2,700,000 will be paid out, Louisville \$2,100,000, Knoxville, \$1,900,000, New York \$1,700,000, Philadelphia \$1,500,000, Toledo \$1,300,000.

Act on a New Principle—Regulating the Liver, Stomach and Bowels through the Nerve.
A new discovery. Dr. Miles' Pills speedily cure biliousness, bad taste, torpid liver, piles, constipation. Unparalleled for men, women, children. Small, mild, sweet. 50 doses 25 cents. Samples free at T. H. Burgess & Son.

THE RAILROADS.

Brief Facts Concerning Track and Train.

Auditor Pope was out for an ailing last evening.

Percy Hawley is holding a position in store keeper Kuhn's office.

E. T. Jeffery has been appointed receiver of the Rio Grande Southern road.

Eleven pilots have been discontinued on the Raton mountain division of the Santa Fe.

Martin Peis has accepted a position in the Raton shops to learn the copper-smith trade.

Eighteen men were laid off at the Raton shops Tuesday. The remainder work from 7 to 12 m., and from 1 to 4 p. m.

Section men were cut down to nine hours a day, at eleven cents per hour, or a day's work for 90 cents, at Las Vegas. A number quit work.

The unusually light passenger business of July, and the prospects of lighter business for August, are causing railway men much concern.

Trains are coming in with more regularity, though those of today were five hours late. Outgoing trains were delayed for sake of connections.

Another washout on the Santa Fe Southern road has stopped trains temporarily on that line. Supt. Helm has 100 men at work on the break.

Track laying on the San Pete valley railway extension in Utah is in progress. The officials declare that trains will be in operation from Nephi to Manti, September 1.

The Santa Fe company has gotten out a new folder, showing a map of Chicago and the location of the World's Fair, and giving a great deal of information concerning the great exposition.

Lines reaching Hutchinson, Kas., have made a rate of one fare for the round trip from points within 200 miles, on account of the Kansas O. & K. reunion at Hutchinson, August 15 to 19.

The midwinter fair managers at San Francisco have been notified by the transcontinental freight committee that the concessions desired for the carriage of the exhibits to that city have been granted.

The Colorado Fuel and Iron company has five carloads of machinery at Crested Butte, for the newly opened coal mines at Antrim, awaiting the completion of the Rio Grande branch to that point.

Engineer Ross, injured in jumping from his cab early in the week, near Coolidge, is doing well, though suffering mainly from the trouble sustained to one of his legs. He is in the lower ward of the hospital.

The Chicago & Western Indiana company will soon begin to build a freight and storage warehouse on Plymouth place near Taylor street, Chicago, cost \$80,000. It will be used by the Missouri railway.

The Santa Fe company has laid off 125 shop hands, making about 400 laid off in the last sixty days. It is rumored that a cut of 10 per cent has been made in salaries, but this is denied by subordinates in the general offices.

The passenger earnings of the Burlington system for June increased \$231,655 over passenger earnings for June, 1892. The freight earnings were much less than they were a year ago. The operating expenses decreased \$90,000.

The Alton is retrenching. A. M. Richards, W. H. Storey and E. J. Sanford, division superintendents, will be let out along with Thomas Dean, trainmaster at Alton, Larry H. Nolan at Roodhouse and 125 shop employees at Bloomington.

Recent grade crossing accidents in Chicago have revived the discussion of abolishing grade crossings altogether. The railways pretend to be very anxious to elevate their tracks in Chicago, but they are showing no great haste about the matter.

Work on the Southern Pacific shops at Ogden is progressing slowly but the indications are that the stone work of all the buildings will be completed before the contract time expires. No work is being done at present on the Rio Grande Western shops.

It may be interesting to know that the capital stock of the Southern Pacific company, \$118,856,170, is held by only 113 stockholders, making the average holding 10519 shares, undoubtedly the largest average holding of any prominent railroad company in America.

The Rio Grande Western people have devised a novel and highly satisfactory kind of cattle guard, consisting of hollow tiles stood on end between the ties. Stock cannot be driven over it—it is durable and saving in repairs—the first cost is 25 per cent. less than those in general use.

The United States courts of Michigan have sustained the state board of health in dictating to the railways what passengers shall be permitted to enter the state. The health board attempted to quarantine certain immigrants that were to be brought into Michigan from Canada at Sault Ste. Marie, by the Minneapolis, St. Paul & Sault Ste. Marie Railway company. The railway company sought an injunction restraining the action, but it was sustained unconditionally.

The enormous decrease in freight receipts during June and July has astonished the managers of all Western railways. The railways of the West are in greater distress now than they have been

for many years, and there is little hope of help now. Expenses are being reduced everywhere, thousands of men having been discharged during the last thirty days. August will probably be a bad month for railway employees, and if there is no improvement by September or 1. more discharges and more retrenchment, and possibly some receiverships will follow.

Governor Leawing, of Kansas, was a sort of leader in the movement to build a public railroad through the popular states from the Canada line to the Gulf of Mexico for the purpose of moving crops of those states by a new coast route to Europe. Now is a good time for him to begin the job. There are 20,000 or 12,000 idle men swarming over Kansas. Let him set them to digging dirt on the line of the Great Populist International Free Freight Railway. If he can get the embargoment built he will have made some headway.

The Milwaukee & St. Paul road for the month of June showed gross earnings of \$2,747,378.73, as compared with \$2,584,778.16 for the corresponding month in last year, an increase of \$162,600.77.

New Mexico.
The heavy rains completely wiped out the road in the Box canyon on Mineral Creek, Sierra county.

Silver City is rapidly filling up with idle men, the result of suspended work in neighboring camps.

G. O. McCarthy, of Roswell, is the recipient of a cork arm, presented him by the El Paso lodge of Odd Fellows, of which he is a member.

The recent rains have furnished an abundance of water for all the mills at Pinos Altos, and they are all pounding away on rich ore from the gold mines of the camp.

Gen. E. F. Hobart, who has retired from the surveyor general's office, will continue to reside in Santa Fe and will engage in business as irrigation engineer, in which particular line he is a master in his profession.

The company which has been working the old Black Hawk mine, near Silver City, under the superintendence of Prof. E. M. Hand, paid off in full. Operations will be suspended until there is an advance in silver.

The Manhattan tunnel near Pinos Altos is now in 765 feet, and it is expected any day now to strike the vein. When the vein is reached this will be another added to the number of producing gold mines of Grant county.

It can be said to the credit of A. B. Land that he is not among the list of sheriffs who are delinquent to the territory or county. He makes prompt settlements, so says the Silver City correspondent of the El Paso Times.

Deputy United States Marshal Cantly arrested ten persons at Deming last week for violation of the Edmunds law. They were all Mexicans and were brought here for examination before Harry W. Lucas, who is the United States commissioner for this place. It is probable that more arrests for violation of the Edmunds law will be made before long—Silver City Sentinel.

In Good Shape.
Washington, Aug. 4.—So far as the chambers of the senate and the house of representatives are concerned, congress could meet to-day. In the senate, under the orders of the new sergeant at arms, Col. Bright, the floor has been covered with matting and has the appearance of a delightfully cool and inviting chamber. The ventilation has been greatly improved and air through the building new pipes have been run that connect with the fans in the basement and force the air through the chamber to the room above. The plumbing throughout the maste wing has been altered in accordance with the report of the experts appointed by the last session at a cost of \$30,000, and it is hoped that the temperature and air will be greatly improved this session.

Amateur Gamesmen.
Hamilton, Ont., Aug. 4.—The fourteenth annual regatta of the Canadian association of Amateur Gamesmen opened on Hamilton beach to-day with a large attendance. The entries for the various events are especially numerous, United States amateurs being especially well represented. The course is a mile and a half straight away, and is one of the best on the continent.

Eight Hundred Men Out.
Massillon, Ohio, Aug. 4.—Russell & Co.'s agriculture and engine works, employing 800 men, will close for an indefinite period about Aug. 15 on account of the uncertainty of the business future.

Milk is two cents per quart; ice, one cent per pound, beef rules higher than usual; pork and mutton about the standard prices.

Astonishing Fact.
Reported by comparatively few.
Things that embody the most truth are frequently among the last to be realized. Incredible as it may seem one in four has a weak or diseased heart, the early symptoms of which are, short breath, oppression, faint and hungry spells, fluttering, pain in left side, smothering, swollen ankles, dropsy, wind in stomach, etc. Levi Levan, Buchanan, Mich., suffered from heart disease thirty years. Two bottles of Dr. Miles' Heart Cure cured him. "The effect of your New Heart Cure is wonderful."—Mrs. Eva Dwyer, McGregor, Iowa. "This favorite remedy is sold by T. H. Burgess & Son on a guarantee. Get the Doctor's book, 'New and Startling Facts,' free.

THE WINTER TERRITORY.

New Meanings from Every Portion of Arizona.

There are three prisoners in the Prescott jail.

Tucson still has the champion base ball team of the territory.

A line bar of gold from the McCabe mine was brought into Prescott.

Territorial warrants on the general fund are not paid for want of money.

Nearly four hundred prospectors are developing claims in the Superstition mountains.

At Jerome three furnaces are in full blast, and the daily output of copper matte amounts to nearly tons.

It is reported that owing to the low price of copper \$3.00 to \$3.50 a day.

The towns of Babes and Fairbanks have suffered severely from the recent rains. At Fairbanks nearly the whole town was under water.

The Solomonville Bulletin thinks that the populists could not secure a more able leader for their forlorn way in Arizona than General W. O. O'Neil.

Mrs. L. C. Hughes, on behalf of the W. C. T. U. of Tucson, has presented the hospital at the Yuma penitentiary with three cushioned rocking chairs, which are most acceptable.

The school trustees for the St. Johns precinct have selected teachers for the coming term commencing in September, as follows: J. W. Brown, Mrs. Beene Frank, Misses Hunt and Kempe.

The Prescott Courier thinks it a wrong principle to import any person or thing into Arizona when a home article of equal or superior quality is to be had, and makes the application to printing, school teachers, etc.

The Tucson Building and Loan Association has plenty of money to loan. Many stockholders are availing themselves of the privilege of borrowing the full amount paid in on their stock at one and a quarter per cent interest per month.

The St. Johns Herald says: By earnest, well directed labor on twenty acres of land, for five months in the year, any one can make a decent living for himself and a small family. This being the case there is no excuse for any one being in want.

The offering of animal scalps for bounty has ceased. During the last season of the supervisors a committee of cattlemen waited on the board, asking that the bounty on lion scalps be renewed. On the score of economy the request was refused.

Relative to the candidacy for the Tucson postmastership it is alleged that Clark Looney is out of the race, though not voluntarily. Ex Postmaster Elliott has expressed himself as almost dead sure to get the appointment, through a back set pull.

The banks of Arizona know no such word as fail. Every other state and territory in the union has been subjected to failures and financial breakdowns, but Arizona promises to weather the crisis without a single feather in her plumage being ruffled.

The long-distance bicyclist, Fred Holmes and Meade Goodhue, who started from Tucson for Phoenix 130 miles, on Victor wheels, to view the ball games, made good time. They made seventy-five miles in five and a half hours of actual travel. They made 115 miles the first day starting from Tucson at 4 a. m. Saturday and reaching Mesa that night. Phoenix they entered Sunday morning at 9 o'clock. This time was made with the thermometer 100 in the shade.

News Notes.
The Sultan of Turkey has decided to establish state schools for girls in Constantinople.

The deficiency in the funds of savings bank of Deerfield, Mass., is placed at \$100,000, due to bad paper.

Twenty million bushels of coal are awaiting shipment from Pittsburgh on the first stage of high water.

Russia proposes to have an international fruit exposition and congress at St. Petersburg in the fall of 1904.

Congressman Ponce and Bell, of Colorado, visited Secretary Carlisle to protest against the curtailment of silver purchases.

The United States warship Albatross was damaged by collision with the steamer York in the Chinese sea, and will be docked for examination.

Secretary Carlisle will it is reported, ask congress to provide for a bureau and will institute other reforms.

The iron puddlers of Ohio are talking of withdrawing from the Amalgamated association because of dissatisfaction over the revised wage scale.

Governor Gallardo of the City of Mexico, has ordered strict measures to prevent dueling in the future. Duellists are to be arrested as criminals.

On account of an attempt of a mob to rule the town of Pecos, Texas, the governor has called out the Texas Rangers and ordered them to go to Pecos at once.

The Chinese Six companies of San Francisco are preparing for a second test of the Geary Chinese exclusion law when there shall be a full supreme court.

The shut down at the Edison phonograph works at Orange, N. Y., is only partial. Edison has issued the following statement: "The phonograph works

were shut down because we have nearly completed all orders on hand, and the proprietor, seeing that the country has resolved itself into a national lunatic asylum, has decided to wait until the wave has subsided somewhat."

The Sheridan mill at Cooney in the Mogollon is being put in order to run the ore from the Little Fanny mine.

The shaft on the Little Fanny is down 300 feet, and has a big body of rich ore from top to bottom. The ore in the bottom is as rich as any ever taken out of this famous rich mine.

The Vallego police have arrested a young man named Maher, and charged him with having stolen a large quantity of brass and copper from the Maro Island navy yard.

Abram Fardon, paying teller of the First National bank at Paterson, N. J., is under arrest, charged with stealing \$10,000. He had been 25 years with the bank.

A Seattle tailor, named Frederick Williams, committed suicide by jumping in to Lake Washington. He was despondent.

A number of headlines are on their way to the coast from the east. They are to be put on the graves of the Grand Army veterans.

Desperados Shot.
Advices from the little town of Tulare, Dona Ana county, to the New Mexican, give meagre details of a shooting scrape there last week.

Juan Silva and Hilario Bernal started out to shoot up the town. Constable Duran undertook to arrest them on the street when Silva opened fire upon him. Duran returned the compliment and shot Silva in the hip, the ball lodging in the groin. Bernal fled on horseback. Constable Duran secured a posse and overtook the desperado, who at once opened fire on the posse. His attack was so promptly and more effectually responded to by the posse—a ball striking Bernal under the left shoulder and coming out above the left nipple.

Both men are dead at this writing. Officer Duran was promptly acquitted, he having done his duty in the matter.

The Territorial Fair.
The following subscriptions were received by the Territorial fair soliciting committee this morning: Crescent Cattle company, \$25.00; Nellie Dracoll, \$25.00.

J. M. Wheelock has accepted the position of superintendent of outdoor sports at the Territorial fair, and is arranging a program that will include bicycle, tennis and foot ball races and games.

The Atlantic & Pacific railroad in a recent letter to the fair association make one rate on speed animals and horses on exhibition.

Character in Eyebrows.
Highly-arched eyebrows are said to denote vivacity and brilliancy; level brows, strength of intellect; regularly curved eyebrows express cheerfulness; square ones, deep thought; irregular flickers, versatility, excitability; raised at the inner corner, melancholy; joined over the nose, an unsettled mind. Thick and bushy eyebrows denote physical strength.

Boulanger Bill-Posters.
The largest use of placards on record was prior to the Paris election in 1892. General Boulanger had 15,000 bill-posters, who put up 45,000 daily, in all 900,000. In some places, when they were torn down after the election, there were found sixty layers of bills alternating with those of Boulanger's rival.

A Particular Painter.
No accurate was Molsen in matters of detail that, when painting one great picture, he bought a wheelbarrow and had a squadron of cavalry gallop through it to observe how the wheat fell, and when studying for "1812" he engaged a battery of artillery to drive through the snow, and sat down to copy the tracks.

These Children Agate.
This story is about Philadelphia twins. The nurse was giving them a bath. Later, hearing the children laughing in bed, she said: "What are you children laughing about?" "Oh, nothing," replied Edna, "only you have given Edith two baths and haven't given me any."

An Indian Fish Trap.
In India a huge funnel of wicker-work is planted in a stream below a waterfall and every fishy creature coming down drops into it, the water straining out and leaving the dappry prey in the receptacle, all ready to be gathered in.

A Notable Instance.
Professor in Natural History to his up!—Can you cite me an example of the higher order of animals, showing the absence of teeth? "Yes, sir, first, there is my grand-mother."

The G. U. O. F. will give a ball on the 15th inst.

Food for Thought.
There is no substitute for success. Indolence is the sleep of the mind. The troubles of to-day alone never kill.

Goodness is contagious when it comes close enough to touch. When you bury animosity don't put any flowers on its grave.

When sin hides it forgets that it cannot cover up its tracks. There are too many people who never pray until they have to.

No man has any lasting power for good who cannot control himself. A man with a quick temper is as unsafe as a ship loaded with dynamite.

The most short-sighted people are those who cannot see beyond this life. When you pray for strength to resist temptation, avoid it by keeping out of bad company.

Wherever there is a desire for betterment, it grows out of an unsatisfied need of God. The lessons we heed do not need many repetitions, but those we neglect have to be repeated until we learn them.

Many are great workers in the church as long as they can have their own way, but the moment they are crossed they stop. Before the gold can go into the coin and have the image stamped upon it that will give it value, it must go into the fire and have the dross purged out.

Trout in the Choir.
Celestial Chorister—Does not your harp suit you? Angelic Spirit, just arrived—No! It is not made by the firm whose instruments I am accustomed to using. I won't play—Chicago Tribune.

As an after dinner pill to strengthen the stomach, assist digestion, and correct any bilious tendencies, Ayer's Pills are considered the best. Being sugar-coated, they are as agreeable as any confection, and may be taken by the most delicate.

MRS. ELMINA HATCH.

HEART DISEASE 20 YEARS.

Dr. Miles Medical Co., Elkhart, Ind.
Dear Sir: For 20 years I was troubled with heart disease. Would frequently have fainting spells and smothering at night. Had to sit up all night to breathe. I had pain in my left side and back most of the time. At last I became despondent. I was very nervous and nearly wore out. The least excitement would cause me to faint. I was unable to do all my own housework without any trouble and consider myself cured.

Elkhart, Ind. 1893. Mrs. Elmina Hatch. It is now four years since I have taken any medicine. Am in better health than I have been in 40 years. I honestly believe I owe my recovery to Dr. Miles' New Heart Cure. I am now 62 years of age, and am able to do a good day's work. May 26th, 1893. Mrs. Elmina Hatch.

Hold on a Positive Guarantee.
DR. MILES' PILLS, 50 Doses 25 Cts.

THIRTEENTH ANNUAL TERRITORIAL FAIR

WILL BE HELD AT ALBUQUERQUE, N. M.,

September 19, 20, 21 & 22.

PREMIUMS AND PURSES, \$10,000.

SPEED RING.
FIRST DAY, TUESDAY, SEPT. 19.
250 class, purse \$100, special prize \$200.
250 class, purse \$100, special prize \$200.
1 mile dash, purse \$100, special prize \$200.
1/4 mile dash, purse \$100, special prize \$200.

SECOND DAY, WEDNESDAY, SEPT. 20.
250 class, purse \$100, special prize \$200.
250 class, purse \$100, special prize \$200.
1 mile dash, purse \$100, special prize \$200.
1/4 mile dash, purse \$100, special prize \$200.

THIRD DAY, THURSDAY, SEPT. 21.
250 class, purse \$100, special prize \$200.
250 class, purse \$100, special prize \$200.
1 mile dash, purse \$100, special prize \$200.
1/4 mile dash, purse \$100, special prize \$200.

FOURTH DAY, FRIDAY, SEPT. 22.
250 class, purse \$100, special prize \$200.
250 class, purse \$100, special prize \$200.
1 mile dash, purse \$100, special prize \$200.
1/4 mile dash, purse \$100, special prize \$200.

FOURTH DAY, FRIDAY, SEPT. 22.
250 class, purse \$100, special prize \$200.
250 class, purse \$100, special prize \$200.
1 mile dash, purse \$100, special prize \$200.
1/4 mile dash, purse \$100, special prize \$200.
